13th December 1990

Dear Mr Dexter,

Thank you for the re-submitted reception report. As I cannot explain why you received no reply to your first report, I hope you will accept the QSL which accompanies this letter.

I was interested to read of your keen interest in the 13MHz band - you may have noticed that RA is making use of several frequencies in this region. To assist your reception of RA I've attached a copy of our current program and frequency guides and the RA Operational Schedule which we don't usually send to listeners. Also enclosed is information about RA. I hope you will continue to listen to RA and enjoy our programs.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Nigel Holmes'.

Nigel Holmes
A/FREQUENCY MANAGER

p.s. I have included your report (after entering the details into our reception data base) as you may wish to retain a copy of it.
