

HERALD BROADCASTING

 A division of The Christian Science Monitor Syndicate, Inc.

February 23, 1988

Mr. Gerry Dexter
R.R. 4 - Box 110
Lake Geneva, Wi., 53147

Dear Gerry,

We are pleased to verify your reception of our transmission of 1-17-88 @ 1442 to 1456 UTC on 13760.

Enclosed is a copy of our upcoming frequency schedule for March 1988.

We are short on pictures at the moment, but when I get a chance, I will get you some copies of what we have. Being a new station, (less than one year on the air), things are still a little hectic here, but we just hired on our newest engineer, Mr. Bill Wentzell, WONJQ. With a full staff, we are now on the way to getting fully organized!

Sincerely yours,

Robert Stessel,
Station Manager
