18th July 1966

Dear Mr. Dexter,

Thank you for your report of 10th July detailing reception of the BBC World Service on 15.35 Mc/s.

The first transmitter at the Atlantic Relay Station (Ascension Island) came into service on 3rd July carrying World Service, French and Hausa transmissions for coverage of West Africa between 1745-2245 GMT overall. Presumably, it was this relay to which you were tuned.

We have pleasure in enclosing our acknowledgement card and the current BBC World Service Frequency Chart and shall always be pleased to receive your comments on reception in West Bend.

Yours sincerely,

(Miss V.R. Pressman)

for Chief Engineer, External Broadcasting

Mr. Gerry L. Dexter,
904 Jefferson, Apt. 8,
West Bend,
Wisconsin, 53095,
U.S.A.
