18th June 1965

Dear Mr. Dexter,

Thank you for your letter of 11th May.

The transmission which you report having received early in May was presumably from our West African Relay Station in Monrovia. This 10 kW transmitter operating on 9.555 Mc/s is intended to serve a limited area of West Africa and we were interested to note that you picked up a signal in Wisconsin.

We are enclosing the current BBC World Service frequency chart and shall always be pleased to receive your further comments on reception.

Yours sincerely,

(Miss V.R. Pressman)
for Chief Engineer, External Broadcasting

Mr. G.L. Dexter,
904 Jefferson,
Apt. 8,
West Bend,
Wisconsin, 53095,
U.S.A.
