Dear Sir,

Thank you very much for your letter dated 9.9.1981. As you will see it is mentioned on Q.S.L. Card that it is the reception of Rawalpindi Zonal Service. As it is our Zonal Service, it is possible that you get a weaker signal.

However if you want some thing more to be eeloberated, you just clarify the term "Reception of the Rawalpindi Transmitter". The site of the transmitter is at Rawalpindi.

Yours faithfully,

(SHAUKAT ALI KHAN)
