Mr. Gerry L. Dexter
Rt. 1, Maple Road, Lake Geneva,
Wisconsin, 53147, U. S. A.

Dear Mr. Dexter:

Greetings to you from Radio Veritas !!

We are very glad for your reception report which we received today. We would certainly like to welcome you as one of our regular listeners to our Station.

The aim of Radio Veritas is to serve all the peoples of Asia. We have uppermost in our minds, therefore, to please and make all our listeners happy in our small humble way of providing them the most entertaining fare we possibly can put out. You notice that we do not have commercials. We only put on good music and those which we think our dear listeners may be happy to hear about.

The reception report you sent us, Mr. Dexter, had been of great assistance to us in determining the effectivity of our present antennas beamed to the different parts of Asia. Please find enclosed herewith our SW Transmission Schedule and our QSL card.

Thank you very much and please do write to us again.

Very sincerely yours,

JESUS S. TORRES
Technical Director
