"FARO DEL CARIBE" Iluminando el Sendero de la Vida

APARTADO 1307
San José, Costa Rica

March 5, 1954

Mr. Gerry Dexter
375 Derbyshire
Waterloo, Iowa

Dear Mr. Dexter:

Thanks so much for your report of our station. We are sorry that we have no QSL cards at present, but as soon as we have some more on hand, you will be receiving one. We are including our new program schedule which just came off the press.

We are operating with 2000 watts power with a pair of 833's in the final. The antenna is a quad without a reflector, and directional north and south. This new transmitter was put on the air December 25, 1953.

Sincerely yours,

David C. Solt
Chief Engineer
