Dear Sir,

Concerning your letter of the 18 March 1972 we inform you that at the time in question (5 Jan 72 / 0412-0429 GMT) we were broadcasting on 6000 our regional-programme. Enclosed you will find details of it. On 6155 (0410-0455 GMT) there was our broadcasting "Klingendes Alpenland".

Our programme on 6000 and 6155 is different, you were probably misled because, as it happens, both frequencies, you mentioned were broadcasting similar programmes of country music.

We like to confirm your reception on 6000 with our regional-programme but we had to rectify that there is a difference between the two frequencies.

Sincerely yours

AUSLANDSDIENST AUF KURZWELLE
