

The 100 kW transmitter you have heard.

The Finnish Short Wave Broadcasting Transmitter at Pori, Suomi (Finland)

Geogr. loc. 21° 52' E, 61° 28' N

Mr. Gerry Dexter

We acknowledge with thanks your report on our short wave transmissions. It checks well with our own log and we would be pleased to receive further reports from you of the audibility of our other wavelengths. They are:

	M.	Kc.	kW.	Station
OIX1.	49,02	6120		
OIX2.	31,40	9555		
	-	-		
OIX4.	19,75	15190		
OIX5.	16,85	17800		
	-	-		

Our short wave transmitters are daily on the air.
