Dear Mr. Dexter:

This is to confirm, with very best thanks, your report of the reception of our time signal transmitted by the station of Elmshorn, DAM on 6.475.5 kHz on 6 April 1971 from 2355 GMT to 0006 GMT. We are happy to learn that you had fair reception. There is no doubt that what you received was our time signal. Enclosed please find a brochure giving details on the station of Elmshorn as well as on other stations emitting time signals of the Deutsches Hydrographisches Institut.

Yours truly,

H. Enslin
