Dear Sir?

With many thanks we received your report on the reception of our time signals. Our time-signal-transmitter is broadcasting on 4.525 mc/cs with a pause from 8.15 to 9.45 GMT. The minute is marked by a extended pulse and the hour by three extended pulses at the seconds 58, 59 and 60. The QRA of the transmitter is Nauen and the transmitters power is 5 kW.

We are a commercial post and we don't send QSL-cards, but we hope you can use this informations.

Dr. Meinig

(Dr.-Ing. M. Meinig)
Stellv. Leiter der
Abt. Geodätische Astronomie
