

A tall, lattice-structured radio tower stands prominently against a clear blue sky. At the top of the tower is a long, horizontal cross-arm, also made of lattice, with several thin wires extending from it. The tower is supported by several guy wires that stretch across the sky. At the base of the tower is a small, single-story brick building with a dark door and a window. The entire structure is situated on a grassy hill and is enclosed by a chain-link fence in the foreground.

Dear Gerry:

Thank you for your reception report of AWR-Europe broadcasts over 6205 kHz. We have enclosed a QSL card to verify your report.

Also enclosed is the AWR newsletter, CURRENT. You will find the schedule listed on the back. We have added your name to our mailing list to receive the newsletter for one year. If you do not wish to receive it, please let me know. However, we hope you will enjoy the articles and will be able to tune into AWR again.

We appreciate hearing from our listeners and hope that you can write in again.

Sincerely,

Sandy Hodgson  
Secretary
