Subject: Replyment on your reception report dated 6th March, 1983.

Dear Sir,

Your confirmation, was corrected without any error when I checked up with our programme source department. The mentioned time and every details which you have mention was correct as well.

However sir I couldn't be able to send you a QSL card due to no cards available here. All of the cards were send away to other overseas country and also lisiteners through out PNG during the reception tests of our meduim wave service during 1980 5th September.

Anyway sir, I am glad to recieve such letter from Lake Geneva, which in-fact I couldn't believe that Radio Enga short-wave service could reach that end. Sir Congreatualations for the very nice letter, which was recieved but couldn't be replied earlier, cause I was away on recreation leave at that time when your letter arrived. Anyway sir, your letter plus other overseas letters were pending replment when I arrived after my leave.

Sir I hope that your now have been confirmed with regards from PNG, Engg Pro vince Wabag.

For your information and action,

Yours Faithfully,  
I, remain

  
PHILLIP S. MAIK.  
TECHNICIAN  
NBC WABAG PNG.
