U.S.A.

Dear Gerry,

My apologies for the delay in replying to your reception reports. Similar reports from you ~~Group~~ are probably still with us, but due to recent change over of management positions, I cannot as yet track them down. However I am pleased to confirm your reception report on the 4th of October onwards at 1126 GMT on 3905 kHz.

For your information, Radio Manus was then testing its' new machines just ^{before} it was Officially opened on ~~the~~ November the 7th 1975. It is at present transmitting on the same frequencies.

Your past reports to Morobe was not replied to because Radio Morobe is just another provincial station as Radio Manus. Our Head Quarters is at Boroko in Port Moresby.

Thank you once again for your interests in radio reception reporting and I apologize for any inconveniences caused by us.

Happy Listening from the staff of Radio Manus.

Yours sincerely

Peter Sohia (a/ Assistant Station Manager
for Manager)
