Dear Gerry,

Thank you very much for your letter of 29th April. It is with pleasure we enclose one of our verification pamphlets.

Radio Milne Bay has only been using 10 kW for about seven months; prior to the introduction of high power we had an output of 250 watts. It may also be of interest to you to note that in the last few months several new broadcast stations have been opened in the Highlands regions of New Guinea, the latest is Radio Mendi which has only started testing.

I have also enclosed a car sticker and some Papua New Guinea stamps.

Kindest regards,

*Graham Lever*
