Mr. Gerry L. Dexter
Rt. 1, Maple Road
Lake Geneva, Wisc. 53147

Dear Mr. Dexter:

Thank you very much for your letter of May 25th, written in Spanish, and addressed to the director of Radio del Pacifico. It is my privilege to execute the duties of this office, and since it is more convenient for me to answer you in English, and since I presume this is also your native tongue, I am taking this liberty. I appreciate the report that you have given on listening conditions for our short wave station and am particularly grateful for the detailed information regarding the power of our signal strength, etc. in Wisconsin.

It was interesting for me to learn that you are the director of programs at WMIR in Lake Geneva. Our home offices are located in Wheaton, Illinois, and we have many contacts and friends up your way.

We also operate on long wave and on FM here in Lima. I will enclose a pennant and also one of our recent propaganda pieces.

Again, many thanks for your letter and for your report, also for the coverage map and the pennant which you sent to us. If you are ever down this way, be sure and look us up.

Very cordially yours,

Norman F. Mydske
Station Manager

Radio del Pacífico

La única emisora en su dial
que le ofrece transmisión simultánea
en 3 potentes transmisores
