Room 258, Union Bldg.
Stonybrook, NY 11794

February 11, 1989

Mr. Gerry L. Dexter
RR4 Box 110
Lake Geneva, WI 53147

Dear Gerry,

It was a pleasure to receive a reception report here at UNITED WORLD RADIO from none other than Gerry Dexter. Your "Listening Post" column and occasional articles on the shortwave listening hobby are always a 'must-read' and are very much appreciated! At last a quality book has been released about the shortwave listening hobby, Shortwave Radio Listening with the Experts, edited by yourself. Your contributions to making the hobby even more enjoyable can not be overstated.

I am sure that our paths will cross at some time in the future as I am an active shortwave listener and I am employed in the electronics industry. I can assure you that the staff of United World Radio will strive continually to improve our programming both to make the hobby more interesting and more importantly to state things which can not be stated enough. In this day and age there is no justification at all for the nations of the world to be at war.

I wish you continued success and look forward to your future contributions to the shortwave listening hobby.

73's,

Harrison Bergeron
