NASWA

A REPORT FROM
HEADQUARTERS

NORTH AMERICAN SHORT WAVE ASSOCIATION POST OFFICE BOX 13 LIBERTY, INDIANA 47353 U.S.A.
April, 1979

ROLL CALL CONTINUED:

| | |
|--------------------------------------|------------------------------------|
| TIBBALS, Thomas, Columbus, OH | WILLIS, David Dean, Louisville, OH |
| TOENJES, Tom, Leavenworth, KS | WIRT, Roger, Brookline, MA ** |
| UNDERDOWN, Bob, Siloam Springs, AR** | WOODWARD, Sutart, N. Pembroke, MA |
| VISCUSI, Gregory, Wallingford, CT | |
| WALKER, Carl M., Davenport, IA | ** Welcome back to NASWA after |
| WHEELER, Jim, Colby, KS | a brief absence. |

NEW GILFER CATALOG: Word from Gilfer Associates, Inc, P.O. Box 239, Park Ridge, NJ 07656 is that they have their new catalog #26 available for distribution. This catalog will cover receivers, calibrators, SWL books, and many new items of interest to the SWL/DXer. While many NASWA members are already on Gilfer's mailing list and will be receiving a copy of this catalog without requesting it, anyone not receiving a copy by mid-April can request a copy by sending a post card to the address given.

1978 BACK ISSUES OF FRENDX OUT OF STOCK: In the March issue of FRENDX, we published an index of articles that had appeared in the 1978 issues of FRENDX. The requests for copies of the various back issues has far exceeded the supply available. This being the case, we cannot accept any additional orders for back issues from the 1978 series. We apologize for the fact we had to send refunds in a lot of cases and that our supply was not adequate to meet the demand.

DX INFORMATION NET: Former FRENDX publisher and NASWA Executive Council member Alan Mayer, P.O. Box 321, Park Forest, IL 60466 advises that he recently obtained his general class ham license (WD9IRV) and that he is seriously considering forming a SWBC DX information net. Since there are quite a few amateur radio station operators who also belong to NASWA, Alan would like to hear from them as to their interest in this means of exchanging fast breaking DX information. Those interested can write Alan at the address given.

ANARC-79: While we have carried earlier announcements about the Association of North American Radio Clubs (ANARC) 1979 convention which will be held in Minneapolis, MN June 22, 23, and 24th, 1979, we feel we should mention it again for the benefit of those newer members who may not have heard about this worthwhile affair.

We are advised by the Convention Committee that complete information and advance registration forms are now available. To obtain this information, send a stamped and addressed business size envelope to Association of North American Radio Clubs, 1979 Convention Committee, P.O. Box 14161, Minneapolis, MN 55414. Those living in Canada may send their envelope to 1979 ANARC Convention Committee, P.O. Box 142, Thunder Bay, Ont. P7C 4V5.

This convention is open to all SWL/DXers regardless of club affiliation or area of interest. An exciting agenda is being scheduled, so plan to attend.

1979 NASWA MEMBERSHIP DIRECTORY: Because the 1978 NASWA membership directory proved to be a success, a revised edition is being planned for publication, probably in July. This will be updated to include names and addresses of our membership as of June 1, 1979. Watch FRENDX for later announcements.

While the distribution of this directory is limited to NASWA members only, and is to serve no commercial purpose whatsoever, we realize some may prefer to remain anonymous and not have their name and address listed for publication. Anyone who does not wish his/her name listed, please drop us a post card, and their name certainly will not be included.

73's

 M.R. Leonhardt, Executive Director

shortwave CENTER

JERRY A. LINEBACK, EDITOR
P. O. Box 325
St. Joseph, IL 61873

APRIL 1979

DX-300

USER REPORTS

The first reports from users of Radio Shack's digital shortwave receiver, the DX-300, have come in. Several people have reported problems with the MHz tuning as I reported in "This 'n That" page 9 of the March FRENEX.

REVIEW OF THE RADIO SHACK DX-300 COMMUNICATIONS RECEIVER by Rob Harrington, President of the Colorado Association of DXers. I purchased the Radio Shack DX-300 communications receiver from our local Radio Shack. After having the receiver for a few days, I found that there was some problem with my new receiver. So I sent in the new receiver for repairs. My receiver needed a small alignment. But the main problem still remained, the main problem is in the MHz tuning. The MHz knob has to be constantly adjusted when tuning the receiver. It drove me up the wall, it is a very annoying problem. Example: If you want to listen to HCJB on 9745 kHz, you first set the kHz knob so the kHz display reads 745 kHz, then you tune the preselector band switch to 9 MHz and set the preselector between 9 and 10 on the preselector dial. Then you tune the MHz knob to 9 MHz. As you turn it you will hear many stations go by, unless you know what HCJB sounds like you could tune in the wrong station and be off frequency. I feel that Radio Shack made a very bad mistake when they designed the receiver. To make the sensitivity better you have to readjust the MHz knob a lot, and will drive you up the wall. That plus not knowing if you are on frequency, unless you know of a station and where it is supposed to be. If you decide to change frequencies after peaking HCJB, you will soon note that you will have to go back and readjust and readjust again and again. You are going to be in for a lot of problems if you buy the DX-300. I just took my DX-300 back to Radio Shack for a refund. I made the mistake of paying by my own check, now I have to wait for 7 to 30 days for my refund to come from Fort Worth. If you decide to buy the DX-300, you may be better off charging it, and if you decide to return it you can get a charge credit in 5 minutes.

Denis E. Wilson, Gloversville, NY, wrote with a similar experience. ". . . I recently purchased a DX-300 and found it to be most unsatisfactory to operate and had to return it for a refund. The problem I experienced was that the MHz control knob was not precise, i.e. it required up to 1/5 of a turn to increase or decrease 1 MHz. I found that inbetween this span it was impossible to know where you were. No explanation from Radio Shack other than 'It just takes a lot of tuning'."

Larry Cunningham, Columbus, OH, wrote the following in a letter to Dave Walcutt. "I'm still having some problems with the DX-300; they may well be related to the Wadley-loop circuit difficulties discussed by Jerry Lineback in the March FRENEX. I'm continuing to work with the local Radio Shack service people and, indirectly, the big boys in Texas. I'm still hoping they can find some resolution to the difficulties. I would greatly appreciate hearing from any other NASWA members who share my experience, especially in regard to possible solutions. When the MHz tuning problems are not in evidence, I would venture to say that the DX-300 is a fairly serviceable receiver, certainly an improvement over my old DX-160. Sensitivity is good; selectivity is not up to professional standards, but probably equal to that on the unmodified FRG-7000 (consider the price differential). Frequency read-out is a dream to behold, except, ofcourse, when the problem crops up!

That brings up an interesting question. The major tuning problem on my DX-300 occurs in the 4.7 to 4.9 MHz area, and in the entire 25 meter band area, whereas I have no problem at all nearly anywhere else. On the other hand, Jerry Lineback (and others) report that the sample he tested showed apparently the same problem in the 19 metre band. With the Wadley-loop design, does the antenna have any influence on this type of problem? . . ."

We have indirectly heard similar complaints from others. Again, we urge that persons interested in the DX-300 examine the receiver they intend to buy under operating conditions and carefully examine its MHz tuning.

LATE NOTE: On 20 March your editor received a phone call from Radio Shack in Fort Worth. They are aware of the problem with the MHz dial (an "oscillating IF") and they are sorry that it happened. Radio Shack is willing to trade a checked out and working receiver for any bad one. Make sure your receiver dial is accurate by tuning stations of known frequency (WWV, CHU, etc.) before you leave the store.

PROPAGATION

David Snyder , President of BDXC
1137 E. 12th St.
Brooklyn, N.Y. 11230

First let me introduce myself : I am a computer science major at Brooklyn College and work as a programmer there. For the past two years I have been conducting research into Radio Wave Propagation Predictions. I have written an article entitled "Radio Wave Propagation Forecasting" , which has appeared in NASWA, ASWLC, and BDXC bulletins. I currently do a Propagation Prediction program on Radio Canada Int. on the first Sunday of the month. I have also written a paper entitled "Prediction of the solar flux index" which has been submitted to the International Solar-Terrestrial Physics Proceedings and Workshop Program sponsored by the National Oceanic and Atmospheric Administration.

Enough about me ; Now to some basic Propagation.

When a radio wave is transmitted, it travels upward from the antenna and out into the ionosphere. The Ionosphere consists of gases which when bombarded by solar radiation are ionized. Ionization is the process of the creation of charged electrons which constitute much of the ionosphere.

The density of the free electrons in each layer is influenced by the level of solar activity (as measured by the solar flux index), time of day, location of the transmitter and the receiver, as well as the frequency transmitted on.

The solar flux index is a measure of the overall level of solar activity. It is closely associated with the well known sunspot number and may soon be preferred to it as a measurement of solar activity.

Using Propagation charts I have developed coupled with my own predictions of the solar flux index , I have listed below the Propagation Outlook for April 1979. The predictions are based on a monthly flux of 149.1 .

| MHZ | Europe | So. Amer. | Asia | Oceania | Africa | North America |

| 15 | 0100-0130 | 2230-2300 0130-0230 | 0430-0500 1200-1230 2130-2230 2330-0300 | 0630-0700 | 0400-0430 1130-1400 1830-1900 2130-2230 | |
| 17 | | | 0430-0500 | | | |
| 21 | 1630-1700 | | | | | |

I would appreciate any comments, questions, or suggestions you might have about Radio Propagation, the Solar Flux Index, or my predictions. I would also appreciate your sending me a Self Addressed Stamped Envelope.

You can obtain a copy of the charts entitled "How To Pick A Band" used in these predictions plus a copy of "Radio Propagation Forecasting for \$1.00. Weekly and monthly predictions of the solar flux index, A index (Geomagnetic Activity), and propagation outlooks can be obtained as a sample copy for 75¢.

Till next month 73's and Good DXing

David Snyder

Editor's Note: David Snyder has volunteered to provide a monthly section on propagation conditions and predictions. He would be happy to have your comments or suggestions.

Diversity Reception

DIVERSITY DX RECEPTION

By Edward C. Shaw, This article first appeared in the November 1973 FRENEX. From time to time

we will reprint articles from out of the FRENEX past. If you have a favorite that you think ought to be reprinted, let your SWC Editor know, and send a copy if it appeared before September 1972.

Big time DX can frequently be detected with two receivers which would otherwise be inaudible or useless on a single more sophisticated receiver. At present, this writer is employing a diversity reception method using SX-190 and SP-600 receivers. The technique calls for listening to both receivers at one time through the use of split (stereo) headphones. Each receiver, using its own antenna, is tuned to the same frequency. By channeling one receiver to the left ear and the other receiver to the right ear, a superior sensitivity and signal quality is realized surpassing that available from either receiver used alone.

The greatest advantage I have found for diversity reception, however, is the ability to locate new, or to confirm reported parallel broadcasts of different frequencies. Recently, I was thrilled with the affirmation of Jordan on the reported frequency of 11,810 kHz at 5 kW - a parallel to its 7155 kHz outlet. The 11,810 kHz outlet was not audible on either of my receivers used separately, but, by tuning the SX-190 to 7155 kHz for the left ear, and tuning the SP-600 to 11,810 kHz for the right ear, I detected the tell-tale resonant echo on 11,810 kHz which can only occur if both ears are hearing the same thing.

To accomplish this easy method all one need to do is use two sets of headphones, one for each receiver, each ear listening to its own headphone. It may be a bit uncomfortable as well as appear ludicrous to wear two sets of phones, however, and to avoid this as well as to make it conveniently easy to switch from receiver to receiver, the writer devised a small black box for installation between receivers which will enable listening to a choice of:

- (1) Signal A with both ears
- (2) Signal A into left ear and signal B into right ear
- (3) Signal B with both ears

The total cost of new parts at Radio Shack came to less than \$8.00, and that was enough to construct two units with parts left over. You can't buy just one of most items - they come in packages of two or three. Otherwise, all else that is needed is a cheap stereo headset. I dislike regular stereo phones though, since they reproduce frequency extremes. So, one can be constructed from two single earphones bought extra and spliced together properly in a stereo phone plug.

Parts List:

- 1- plastic mini-box
- 1- wafer switch (6 posit/2 pole)
- 1- stereo jack
- 2- miniature phone jacks
- 2- miniature phone plugs
- 2- phone plugs (normal $\frac{1}{4}$ " size unless you are using a portable with miniature size jacks)

Supplemental instructions for making stereo headset from two single earphones:

One wire from each phone to the common terminal

This gadget should enhance the season's DX for those having two receivers.

Delta Loop

THE DELTA LOOP ANTENNA

By Chuck Rippel WA4HHg
3229 Turtle Rock Drive, Virginia Beach, VA 23452

Over the past years, many articles have been written and much dialogue has taken place concerning one of the most important yet more easily varied components of the SWL's listening post, the reception antenna. I offer here a very easy to assemble and understand version of the widely used and highly acclaimed Full Wave Loop antenna used by Amateurs.

The Full Wave Loop antenna was invented and first put to use by MR. Charles Moore, W9LZX, one of the engineers of the then infant missionary SWBC station HCJB. The new antenna was comprised of a full wave length of wire formed into a rectangle and suspended in the air between towers. This new antenna came to be known as the Cubical Quad. The first Quads were used by HCJB in the summer of 1942 and proved so effective, that soon other stations in Latin America boasted the new antenna. This was to include a huge rotating giant for 49 meters at TGNA which is still in use today.

Through the amateur activities of Charles Moore, other hams began to ask about the new antenna which was also used at W9LZX/HC near Quito. After the second world war, these new antennas were beginning to crop up spurred on by their reputation of being able to transmit and receive signals as much as 30 minutes before more traditional antennas then in use. I might add that it is still true today; hence the saying, "Quads open and close the bands."

The antenna that this article will be dealing with is not the 4 sided Cubical Quad loop, but a simpler but related version called the Delta Loop (fig 1) which for our purposes, is much more. Electrically, it will work and be effective nearer to the ground and because of its single point of suspension, this version of the Loop antenna is much easier to erect.

The Delta Loop antenna is a natural SWL antenna. It combines some of the virtues of the vertical antenna such as its response to low angle incoming signals, (fig 2) where the Dipole falls short as does the Inverted Vee. However, the Dipole and the Inverted Vee not only do not require the huge radial systems as does the Vertical, but they are not as receptive to man made QRN either. The Delta Loop also has some outstanding qualities of its own to offer such as:

1. Wide Bandwidth (+- 200 kc at 4.8 mhz).
2. Ease of adjustment because of low "Q" factor.
3. Tremendous capture area owing to its full 1 wave length construction at the desired center frequency.
4. A full 1.4db of gain at its resonant frequency when properly matched.

As shown in figure 1, the antenna is bi-directional, that is, it is receptive off of its broad side with deep but wide nulls off the ends. This quality is something that the advanced DX'er might appreciate. Let me give an example of how it might work to an advantage if one were DXing with certain target areas in mind. North American listners could orient the Broad side of the antenna to face about 75°. This would allow the antenna to

Fig 1 Delta loop at λ , corner-down feed

to take in a good part of Africa off of the "front" and the "back" would cover nearly all of the Pacific Islands, Australia, and New Zealand. Interference from South America which would be off of the end of the antenna would be attenuated between 5 and 30 db. The amount of attenuation will depend on the angle of the incoming signal, height of the antenna above ground, and if the antenna is being used within its designed bandwidth. At this point I might add that the Delta Loop can be used with good results on frequencies higher than the ones it has been designed for but please take into account that the characteristics explained above will be altered for reasons that are beyond the realm and scope of this article.

Construction is really very simple. First, the total length of wire needed must be found. The most agreed on formula for the Delta Loop is:

$$L = \frac{1000}{\text{Freq in Mhz}} \quad \text{once the total length (L) is found, the length of each side is needed. This can be found simply by dividing "L" by 3.}$$

Below is an example of a Delta Loop for the 60 meter band whose center frequency will be 4.850 khz.

$$L = \frac{1000}{4.850} \quad \text{or } 206' \text{ of wire}$$

$$\text{side} = \frac{206}{3} \quad \text{or } 68' 7''$$

These are the measurements for a 60 meter Delta Loop. However, we are not quite ready to put our Delta Loop up yet. The impedance of this antenna is around 120 ohms. This would represent a 2/1 mismatch to the 50 ohm inputs in most of today's receivers. Therefore, a simple impedance transformer is needed. A length of RG-59 or still better RG-11 cut according to the following formula and placed between the antenna and the 50 ohm feed line (RG-58 or RG-8) will do quite nicely. The splice can be accomplished with a standard PL-259 connector attached to one end of the 50 ohm feed line and another PL-259 connector attached to one end of the RG-11 or 59 with a standard double female connector in between. Please refer to fig 3. Here is the formula for cutting the the transformer or length of RG-11 or 59.

$$T1 = \frac{162.4}{\text{Freq in mhz}}$$

Below is a completed Delta Loop for the 60 meter band.

When erecting the antenna, care must be exercised to define and mark off each of the 3 corners of the antenna. Insulated wire should be used and the insulators should be installed so that they do not slip up and down the wire when stress is put on them. One method is shown in figure 4 below. You might want to try other methods also.

Fig 1. Vertical folded dipole

Fig 2. Inverted-V at 1/4

When hanging the antenna, the bottom wire should be parallel to the ground and about 8 or 10 feet above it. The feed line will be in one of the bottom corners and note that THE CENTER OF THE COAX FORMING THE TRANSFORMER MUST BE ATTACHED TO THE ASCENDING PORTION OF THE WIRE THE BRAID OF THE COAX IS ATTACHED TO THE WIRE THAT IS PARALLEL TO THE GROUND (fig 3).

For SWL's, this antenna is both useful and versatile. It does not require large amounts of land to string wire enough to obtain useful gain as do antennas of other design. The antenna's only liability is its size when cut to cover the lower bands. For the 60 meter antenna, a tall support such as a large tree is needed to hang the antenna so that its bottom wire is the required 8-10 feet from the ground.

When you operate the Delta Loop, you will note that QRN is down 5 to 10 db from most all antennas. Stations in the target areas sought will be considerably stronger and will be detected sooner as compared to most horizontal antennas. At this QTH, the Delta Loop is consistently 5 to 7 db better than the Inverted Yee and 3 db better than my best vertical which is an amateur tower, 50' tall and gamma matched with a center frequency of 4.800 mhz.

For the purposes of this article, the 60 meter band was chosen to use for an example. The antenna is considerably smaller on the higher frequencies. To cut the antenna to another band, simply substitute the frequencies in mhz in the formulas for a band of your choosing.

Any questions regarding this may be directed to me with an SASE at the following address:

Chuck Rippel
3229 Turtle Rock Drive
Virginia Beach, Virginia 23452

Interest in the FRG-7000 is strong and we have had several letters about the receiver and possible modifications to it. We share the following with you.

FRG-7000

ANOTHER FILTER MODIFICATION FOR THE FRG-7000

By Ken Duke, 5038 Bridgeport Rd.
Columbus, OH 43220

February's SWC had an article by Robert Rankin showing how to wire in a separate switch permitting use of the FRG-7000's 3 kHz filter in the AM mode. Jerry Lineback's review article in the March SWC dramatically shows why such a modification is needed. While I wanted to have the 3 kHz filter available in the AM mode, I did not want to wire in a separate switch as Robert's article described. A look at the 7000's schematic indicated a simple modification involving only a short jumper wire would accomplish my objective. The result makes the 3 kHz filter in the AM-ANL position of the mode switch and leaves the function of the other three positions of this switch unchanged. The ANL, although not very effective, remains functional in the AM-ANL position.

To make this modification, remove the cabinet, set the 7000's chassis on one side, and locate the mode switch on the underside of the chassis. This switch has 5 sections or wafers; the last wafer (nearest the rear of the chassis) controls the selectivity. The white wire with a blue stripe, controls the 6 kHz filter and enters lug 2 and continues to lug 1. Cut the interconnection between lugs 1 and 2. Using a low wattage

soldering pencil and solder wick, remove the solder and remaining wire from lug 1. Leave the connection of the white-blue wire to lug 2 unaltered. Be sure there is no connection between lugs 1 and 2 remaining and be careful not to melt insulation from other nearby wires as you use the soldering pencil. Prepare a 1 1/2-inch insulated #22 jumper wire by stripping 1/4-inch of insulation off each end. Connect one end to lug 1 and the other to the interconnection between lugs 3 and 4, (see figure) and solder the two connections carefully. The work is done. The 3 kHz filter is now available in the AM-ANL position of the mode switch and all the advantages described in Jerry's review article are available.

While this change to the FRG-7000 is simple, some skill in using a soldering iron and working with schematics and circuitry is needed to properly complete it. You may wish to have your dealer do it for you. ALWAYS UNPLUG THE AC POWER CORD BEFORE REMOVING THE CABINET.

REAR VIEW OF MODE SWITCH SHOWING SELECTIVITY MODIFICATIONS

FRG-7000

AN INEXPENSIVE FRG-7000 AUDIO MODIFICATION

by ED INSINGER, 351 North Drive Arms,
Apt. 57, North Plainfield, N. J., 07060

I have found the FRG-7000 to be an impressive communications receiver that reflects the latest developments in digital technology, coupled with an advanced Wadley-loop circuit design.

Despite this, I was disappointed by a low level audio hum present at the speaker while listening at minimum volume settings. Since most of my listening takes place at these low levels of Audio output, and since there was no defect in the circuitry, I felt compelled to correct this irritable problem.

After explaining the problem to a friend, he suggested that I try inserting a "pad" between the audio output and the speaker, as illustrated below:

R1 = 4 ohms rated at 5 W
R2 = 40 ohms rated at 5 W
(Ohmite Wire-wound)

The "pad" shown above consists of two resistors coupled to the output of the receiver. R1 is connected in parallel with the audio output of the receiver, while R2 is connected in series with one side of R1 and one leg of the speaker. This small circuit creates an audio output that is split between a shunt resistor (R1) and a load resistor (R2), which is capable of "padding" the annoying audio hum I encountered, and thereby reducing it to an inaudible level.

Hookup is quite simple. First remove the cabinet of the FRG-7000, and be sure to keep those small cabinet screws in a safe place, as they are easily lost! Next, tilt the receiver chassis upright, keeping the speaker nearest the table, with the bottom side of the chassis facing you. Now there is access to the speaker and audio output cable. This cable is a two-wire brown cord, terminating in a white and black lead soldered to the speaker. Desolder both these wires from the speaker lugs, and insert the two resistors as shown above. Two important tips are suggested here: (1) be sure the receiver is unplugged and (2) connect all wires and resistors before soldering. This allows you to position leads and parts as desired, away from other components. Make sure they do not come in contact with other leads or ground against the chassis or outer case. Sufficient room is provided to neatly insert these two resistors. I suggest you use the cylindrical type Ohmite wire wound resistors rated at 5 watts. These resistors fit inside nicely.

After all connections are made and carefully soldered with a 25 watt pencil-type soldering iron, you may test the receiver before inserting it back into the outer case. Be careful of what you touch, since many hot leads are exposed! You are merely spot-testing your modifications at this point. If all is well, encase the chassis and replace the case screws carefully. Now hook up your antenna and observe the results. You should be very pleased at its performance and the small cost that went into making it that way!

FRG-7000

THE FRG-7000 -- USER COMMENTS

Harry L. Hartsell, Lompoc, CA.-- "I read with interest the FRG-7000 user review and suggested modifications by Robert Rankin in the Feb. 79 FRENEX. I have just received a new FRG-7000, modified by Gilfer Associates. Total cost, including shipping, was \$641.44.

Gilfer modified it by adding a 4 kHz filter. They also redid the mode switch section of the front panel. The LSB-CW and USB positions are the same as before. The original AM now reads AM-wide. A new AM-narrow position is where the AM-ANL used to be. The ANL has been retained and is operated by a switch on the back.

If you are listening to music and switch from AM-wide to AM-narrow, it still sounds good--about like you had turned the tone control down to its lowest position--and adjacent channel interference is pretty well cut down. If you are listening to SSB, you can easily "fine tune" the last kHz with the main tuning knob, so that you don't often need to use the regular fine tuning knob.

Mr. Rankin said it right when he said this receiver was a "dream" to operate. And the digital readout seems to give me a finer touch than I could attain with my old (unmodified) FRG-7.

Ed Insinger, who wrote the earlier article on modifying the FRG-7000 audio, mentions that he compared his Gilfer modified 7000 against a Collins 2.9 kHz mechanical filter (presumably in a FRG-7) and decided that he was "inclined strongly to favor the ceramic over the mechanical. Why? First and foremost, audio intelligibility is far superior on the ceramic, second, the mechanical is too expensive. Just not worth it to me when the ceramic will perform that well, and it does."

Ed also uses a 3 wire line cord with bypass capacitors and resistors across both hot legs to reduce line QRN. He mentions that he too did not like having a clock that could not be turned off and often pulls the plug.

Editors Note: When I compared the 2.9 kHz mechanical added to a FRG-7000 against the 2.4 stock ceramic used in the AM mode, I found a slight audio advantage to the mechanical because of its wider nose, but no real difference in selectivity.

Don Dickey, Minneapolis MN, also wrote about his new Gilfer modified FRG-7000. He thinks it is as good as the other receivers he has (RF-4800, Collins 51J2, Drake SPR-4, SW4A, SX-100). He also appreciates the good service given by Gilfer Associates. Leibschen thinks it is great too.

Solar Eclipse

DXING DURING THE SOLAR ECLIPSE
by Robert Fraser, P. O. Box 501
Cohasset, MA 02025

Keeping in mind Glen Hauser's mention of possible night-time DX reception during the solar eclipse of 26 February 1979 that he made in this Listeners Notebook section of the February FRENEX, I fired up my Barlow Wadley XCR-30 during my lunch time. All I have for an antenna is its 1 metre vertical whip. I had only the period of 1715-1745 GMT to really listen which was the last half of the eclipse. But I did manage to catch some quick time periods one and two hours later to compare signals.

Primarily, I listened to the two WWV frequencies of 5 MHz and 20 MHz. I never got any reception of the 5 MHz transmission, but there was an excellent signal on 20 MHz. The only change I noticed was a sudden drop from excellent to fair on 20 MHz around 1717 GMT which I presume was due to the eclipse. By 1720 GMT, the signal was back up to its former strength.

The other two WWV frequencies received were 15 MHz with a fair signal and 10 MHz with a poor signal. Both remained unchanged. Moving to 49 metres: reception of CFCX on 6005 kHz was good at 1740 and was at the same level at 1840 and 2030 GMT checks. CFRX on 6070 kHz was poor at 1740 GMT, gone by 1840, but back and very poor by 2030. CHNX on 6130 kHz was very good at 1740, almost gone at 1840, and with a fair signal by 2030 GMT. By this time, 2030 GMT, a number of European transmissions were beginning to be picked up.

Reception of New York VOLMET Aeradio on 3001 kHz was poor at 1745 GMT, was improved at 1840, but had gone back to poor by 2030 GMT. The other frequencies: 5652 kHz had a fair signal at 8868 kHz had a good signal - both remained unchanged.

I even tried the mediumwave and some of the powerful distant AM stations, especially WQXR, New York on 1560 kHz. Lately, it has been received hereabouts with a good signal to 10:30 and 11:00 am EST, but I had no luck.

In the other direction, France was loud on 21705 kHz at 1830, but the BBC on 21710 had already signed off. Some Soviet stations between 12.0 and 12.1 MHz could be received with fair to good signals, but nothing I would call spectacular. I never got any overseas stations below 31 metres and these 9 MHz band transmissions were as good as the day before.

I noted the hams tried the lower frequencies. 40 metres was very busy in the 1815-1845 GMT time period, but 80 metres was quiet until about 1840 when a couple locals came on. They made contact with other stations but I didn't remain with them. While I didn't try the higher frequencies until 1945 GMT, I found both 10 and 15 metres busy at that time. I didn't bother with the CB band as this is always busy regardless.

The WWV propagation broadcast at 1818 GMT gave the solar flux at 169, the K-index as 4, and the geomagnetic field as moderately active. At this same time, New England was experiencing a snow/sleet/rain storm from a northeast gale dying somewhere east of Philadelphia. I have never determined whether a weather front does affect radio propagation.

All in all, and with the exception of the short drop in signal strength of WWV on 20 MHz, I felt the eclipse was a disappointment, propagationally speaking.

BRASIL

RADIO CLUBE DE PERNAMBUCO AND RADIO
JORNAL DO COMERCIO

by Ron Howard, 777 Via Hierba,
Santa Barbara, CA 93110

Since 1971, when I had the thrill of hearing and QSLing my first Brazilian station, I have been on the look out for other Brazilians, both to log and QSL. There must be other members who share this interest in Brasil, but I wonder if we all appreciate the history and technical complexities that comprise some of these stations? Take for example Radio Clube de Pernambuco and Radio Jornal do Comercio, two stations located in Recife, a city on the northeast coast of Brasil.

When you tune in Radio Clube de Pernambuco, do you realize you are hearing a bit of Brazilian history? For it was on 17 October 1923 that this station went on the air, the first one in Brasil. Today it operates on mediumwave (720 kHz) with a PEB made transmitter via an omnidirectional antenna, with a standby one kW PEB transmitter. In the 49 metre band (6015 kHz) the station uses a CACIQUE Transmitter that is 40 years old and still going strong. In the 25 metre band (11865 kHz) there is a one kW transmitter that was made by the technical staff at the station sometime around 1949. Both these shortwave frequencies use a DELTA half-wave dipole antenna.

Radio Jornal do Comercio is a more complex station, with a total of eight MARCONI transmitters. Mediumwave (780 kHz) is presently on the air 24 hours a day and has a 5 kW back-up transmitter. The shortwave frequencies are in the 19 metre band (15145 kHz) and 49 metre band (6085 kHz). The station's program format consists of music, news, and major sports events within Brasil (usually futebol).

Radio Jornal do Comercio has two FM transmitters that establish a communications link between the studio building and the "Palace of Radio" where the transmitters are located. The station also has two mobile FM transmitters which are capable of sending a signal back to the studio. Because of this versatile system the station can transmit three different programs over three different frequencies at the same time. Added to this equipment is a unique feature, reportedly the only one in South America. The eight transmitting towers are all illuminated automatically by a system of photoelectric cells.

It is my hope that this article has aroused your interest and will motivate you to try tuning in to these stations. If so, please check the recent log report sections to find out when is the best time for reception in your area. If you should hear these stations and wish a confirmation (QSL), let me offer a few suggestions based upon personal experience. I have found I have more success if I send my reception report directly to an individual at the station. That is one reason why Sam Barto's "QSL Report" is so outstanding. It shows who the verification signer is. With this in mind, you might try a reception report for Radio Clube de Pernambuco, in English, directly to: Edson Montenegro, Cruz Cabugá 394, Recife, PE, CEP50.000, BRASIL. Senhor Montenegro was kind enough to send me a full data letter and has a good command of English. Another engineer at the station is Alberto Moreira, who is a radio amateur (PY 7 DN). I do not know Senhor Moreira's ability with English, so it would be best to write him in Portuguese.

For Radio Jornal do Comercio, send your reception report in English directly to: Arthur S. Miranda, Caixa Postal 1332, Recife, PE., CEP-50.000, BRASIL. I have found Senhor Miranda to be an excellent verifier. He is the chief engineer for the station's transmitters and is also a radio amateur (PY 7 DT). Arthur's wife is a collector of post cards and I am sure they would both be most appreciative of any local post cards received along with your report.

GOOD LUCK AND HAPPY LISTENING!

***** THIS & THAT

John D. Williams, Bloomington, MN, writes that the following persons have manuals for the SP-600 JX receiver: Ken Murley, 13011 Crescent Rd., Surrey, B.C. CANADA V4A 2V7 for \$2.00 each postpaid, and from Sam Consalvo-W3IHD, 7218 Roanne Drive, Washington, DC, 20021. He has them for the R483/FRR + BC 779 - the military version of the SP-600 JX, for \$10.00.

IMPROVE YOUR DX TAPES WITH A QF-1, by Syd Osterman, Toronto, Ont. I use a number of add-on gadgets in my DXing, including a QF-1 Audio Filter. However, I think that my method of using this marginally effective piece of gear differs somewhat from that normally mentioned. My QF-1 is used to remove hets, reduce static, or peak a signal that I have already taped and cannot read to my satisfaction. In other words, the output of my tape recorder (cassette) is fed through the QF-1 and, while listening on phones or speaker, I can, at my leisure, attempt to improve DX signals taped at other less convenient times. In this way I eliminate the possibility of chopping out a vital ID or other relevant speech while fiddling and fumbling with the Filter on a live transmission. Also, I can replay the tape as often as required to obtain the best result. If your receiver is tuned to make the most of a poor signal prior to taping, the use of an Audio Filter after the tape is made will often help to interpret those few vital words needed for an ID.

RETURN OF BRAZIL from Brett Saylor, Altoona, PA. Radio Nacional of Brasilia, Brazil is back with its international service in English. They are now conducting a 90-day experimental broadcast on 15280 kHz from 0200-0255 GMT, playing Portuguese and Brazilian music and with 3 to 4 minute spots on different aspects of Brazil such as the weather, economics, farming, and so on. The announcer, John Morris, talked about the international services two year absence from the air, though they didn't say why they had been gone or why they were now back. But he did encourage listeners to write giving the address: Radio Bras (network name) c/o International Correspondence Service, Post Office Box 040340, Ed. Venancio 2000, 1st Floor, Postal Code 70323, Brasilia, Federal District, Brazil. Write and support their return!

Thanks to our contributors this month. We appreciate your efforts to support SWC.

In the interest of saving energy, I will make some space available in SWC for those wishing to find riders to share transportation and those looking for a ride to ANARC and to other radio meetings being held this summer. Just send me a card briefly stating planned route to Minneapolis and how many riders you can take, or a card stating where you will be in June and that you are looking for a ride. Deadline for May SWC will be 15 April. 73s JAL

ENGLISH SCHEDULES AFGHANISTAN Since 16/2 RA's ES in EG to Eu at 1900-1930 has been on 15140 & 11890 (BBC MS 22/2) Hrd on 15139.5 on 25/2 (Andy Robins, Kalamazoo MI)

AUSTRALIA RA ended its NAm sce on 9580 on 7/3 for a 'major construction project'. It will return as soon as possible (Andrew Blumberg, Brooklyn NY) Came back on 15/3 at 1100-1300 (Steven Shaffer, Hammond IN) And hrd on 17/3 & 18/3, usual excellent sigs (Richard Allen OK)

AUSTRIA My heart leapt with disbelief, relief and great happiness upon encountering ORF in English on 11720 at 0145 19/3, but at 0152 closing only 6155 and 9770 were announced, just as WYFR OC came on prior to their IS at 0154, a nice matchy thought ex-9770 as not heard there, and 6155 as usual was mixing with Bucharest, not the clear shot we had hoped for with WYFR gone from there. Could ORF finally have lost its resolve to make NAm listeners suffer for the benefit of frequency-retention? (gh, Santo Domingo, Dominican Republic) SIO 433 on 10/3 in EG on 11720 0130-0200 the Spanish is listed (Bob Zilmer, Milwaukee WI, SPEEDXGRM) When checked 24/3 this fq was back in SP. A temporary test, or more likely, switching error (gh)

BANGLADESH Dacca in EG 1330 15/2 on 15940, not in published sked (Joe Kelley, AIDXN) LN-13

BELGIUM BRT on 17740 u/o VQA Monrovia, ex-17745, which is clear, exc. for splash from Liberty Jammer on 17750. *1710 after 10 mins of new jazzy IS, played by horns over continuous percussion (Jay Novello, Endwell NY, 20/3) As of 1/4 EG time should change to 1610 (gh)

BENIN noted Suns around 2000 in EG on 4870 (Pablo Tomás Jensen, Mar DSWCI SW News)

BRAZIL R. Nacional de Brasília (Radiobrás) has resumed an IS in EG for a 90-day experimental period on 15280 at 0200-0300 (gh) On 21/2 received letter from Reginaldo Azevedo, Head of the Correspondence Service saying they would resume on 28/2 in EG PR & GM. one hour each at 8 p.m. GMT. No frequency given (Joe Tangredi, Las Vegas NV, March RIB) This had us all hunting for the frequency at 2000-2300, especially on formerly used 11780 and 15245 (gh) Heard long-missed friend John Morris closing at 0255 10/3 on 15280. Gave this new address: Radiobrás, c/o International Correspondence Service, P.O. Box 04-0340, Ed. Venâncio 2000, First Floor, 70323 Brasília, DF, Brasil (Ralph Martínez, IL) Same 10/3 0200-0300, but not there every day since (Conrad Richardson, Lynchburg VA, 14/3) 14/3 GMT they ran an OC o/KGEI at *0142-0158* only, but on 15/3 hrd with former IS 0158 and pgn 0200-0300* o/KGEI. The usually well over 50-kW KGEI here, rather inconsiderate of RNB to have chosen KGEI's long-established LAm channel! Seems to have remained on most or all nights since (gh, 25/3) First hrd 11/3. Listener support will help to have regular EG programs from Brazil. Good programming should be looked into by others (Mark Lukosavich) 12/3 covering KGEI quite well. The announcer was not Brazilian--no accent and a non-Brazilian sounding name (Roger Reini, League City TX) In my opinion, John Morris does have a slight accent, tho not unpleasant (gh) RNB clearly dominates the freq. A lot of Brazilian mx played. At s/off, no sked of other langs (Jerry Pauch, Vandergrift PA, 15/3; pron. FUTT-sue) Unbelievably clear 15/3 (Kevin Carr, Bailey GO) First hrd 15/3; had a pgn on ag & exports (Andrew Blumberg, NY) 19/3 SIO 534, varied styles of Braz. mx intelligently and'd. Requesting reports as often as possible. 20/3 had mini-features on tourism, arts, Brazilian goods abroad, and personalities (Jay Novello, NY) 20/3 good strength, but useless due to KGEI; SIO 411. They would be clear here if they moved 5 or 10 kHz in either direction. What a service they could provide if they would establish an unbiased news policy, because as best I know, there is no such news service from SAm available, where the news is actually gathered and not taken from a wire service like HGJB does. How could they be encouraged to do this? (Bill Smith, Eunice LA) Also hrd by (A. Hywarren, Man.)

BULGARIA R. Sofia new EG sked: EAF 1830-1900 15310 17825. WAF 2030-2100 15310 11735 11765. Eu 1930-2000 11720 9700. Eu/NAm 2130-2200 11860 11920. NAm 0000-0100 9705. 0430-0500 11860 (Two reporters whose names I didn't catch, sorry, SCDX 13/3)

- ✓ **CAMEROON** R. Cameroon IS in EG is on 9745 at 0620-1030 (Sun -0745). 1400-1600, 1805-1945 (Jurgen Mangerich, Frankfurt, DX-Flash 2/79 of WWDXC)
- ✓ **CANADA** RGI is noted to have stayed on 11940 at 0100-0127, instead of shifting to 17865 as planned, for the SA/Caribbean beam; //5960 (gh)
- ✓ **CHILE** Latest EG sked announced on LYCH: 0030, 0200, 1100, 1300, 1400, 1830, contradicting Mar LN-1. Hrd 1100 13/3 on 15115 (Bob Underdown, Siloam Springs AR)
- ✓ **ECUADOR** HGJB M79, as amended per DXPL 24/3, as of 19/3; NA 1200-1430 11740 (tho published as 11745; curtailed to 1200-1300 during hydro power shortage). 1200-1600 15115, 1300-1600 17890, 0030-0700 11915 9745, 0500-0700 6095, SA 1200-1600 15115, Eu 1700-1800 21480 17890 (15295-published as 15310-dropped during power shortage). 1900-2030 21480 17790 and (15295 dropped during power shortage). 0700-0830 11835 15415, SFac 0600-1130 11900 6130, 0700-1030 9745. Note that the so-called 'parallel' xmsn to NA 15115 at 0030-0200 continues to be missing from both broadcast and published HGJB schedules! 21460 was used for a couple weeks, but 21480 was resumed because of mutual QRM with "R. Israel on 21465". However this fq does not appear in the IBA frequency schedule (gh)
- ✓ **EGYPT** R. Cairo is using 15175 instead of 9475 at 0230 (Andrew Blumberg, NY, 15/3) Not when I checked at *0200 24/3, when on the usual announced 12050 and 9475 only (gh)
- ✓ **FINLAND** Despite previous notice to the contrary, R. Finland heeded my advice to use 21 MHz to NA, adding 21485 //15400 at 1430-1500 as of M79. This generally provided a much stronger signal than 15400, suffering from absorption. However, Pakistan also picked this fq, causing a bad het (gh) FIR moved to 21475 (Jay Novello, NY 20/3) A bad choice, squeezed between RN and BC; 21690 would have been a clearer freq. It is interesting to note that this xmsn tho on a 305° beam only (toward NA) is also designated to CA/Eu/NE, a rare instance of a deliberate off-the-back targeting (gh) And we are looking for a channel to replace 11735 at 2330 to avoid the clash with Netherlands (Patrick Humphreys, R Finland) There just are no really clear 11 MHz channels at that time; oh yes, the 2330 NA xmsn was also changed to 11735 and 15265. The latter can be good, but again suffers from a sometime het (gh)
- ✓ **GERMANY EAST** RBI noted on unannounced 9535 to NA at 0330, mixing with RCI (Arthur Cushen, NZ, DXPL 11/3)
- ✓ **GERMANY WEST** DW in SSB on 4882 at 0120-0150 is a feeder to Malta relay, rebroadcast on 6100 and 11865 to NA (Denis Beaugard, Canada, WWDXC 2/79 DX Magazine)
- ✓ **GREECE** VOG now on 21655 at 1200-1250 and on 21455 mixed with jamming at 1500-1550 (Noël Green, BBC WRC 21/3) Actually, I didn't catch the country or station but assume this was it because of characteristic times; EG segments are 1215-1230 and 1515-1530 (gh) 0015-0030 on new 9655, SIO 444, ex-9760, //11730 9515, 20/3 (Jay Novello, NY) At 0015 on 9270 (Martinez y Martinez, SCDX 21/3) Not audible here; perhaps another mixing product, tho a mix of 9655 and 9515 at 140 kHz separation would be on 9375 (gh) **GRENADE** LN-13 (twice; & LN-7)
- ✓ **GUINEA** No English hrd from here at 1815 (William O. Dickerman, Williamsport PA, 2/3) On 15310; possibly is irregular; had been reported on Sun only-amend your April PE (gh)
- ✓ **HAITI** 4VEH EG on 11835 9770 now at 2300-2400* (Ruth Vollrath, Marshall MO, 26/2) ex 2330-2430 per WRTH 79 (gh)
- ✓ **HONG KONG** Ireland isn't the only country available to DXers only by utility stns. Try H.K. VOLMET on 8903 at 1215. They broadcast flight weather at 15-20 and 45-50 past each hour (Bob Underdown, Siloam Springs AR, 13/3)
- ✓ **ISRAEL** IBA tentative J79 (starting 6/5) fqs of interest in NA: 0500-0515 11655 15105 15485 1200-1230 17685 21495 25640, 2000-2030 11655 17645 21625, 2230-2300 9815 11655 15485 17645 21625. However, there is also a possibility of EG at new times. The 1200 xmsn to Au/NZ will probably move to 17565 sometime during M79 and for J79, due to QRM on 15540 (Larry Magne, PA)
- ✓ **ITALY** RAI M79; NA 0100-0120 11800 9575, SAs 0350-0410 21560 17795 15330, Mediterranean 0425-0440 7275 6075, 1935-1955 GB 11800 9710 7275, NE 2025-2045 11800 9575 7235, Japan at 2200-2225 11905 9710 5990 (gh) **KOREA S** EG NA 1600 & 1800 9780; 2000 11600 (Freitag, SCDX)
- ✓ **JAPAN** (Gf Mar LN-2) NSB EG hrd on GMT Mon 5/3 at 1530, so GMT Sun would be the day off (gh) R. Japan M79; ME/NAF 2015-2045 11940 9700, NA 2345-2445 17825 15270, N&L/MAHAW 0130-0230 21640 17825 17725 15195, Eu 0800-0830 21610 17710, Eu 1830-1900 11855 9605, ANZ 0930-1030 15235 11875, SEAs 1115-1145 11875 9675, SAs&AF 1630-1700 11705 9670, General Service of 15 min on the hour, exc. 30 min at 1000, 1400, 2300; Am: 2200-0415 17755, 0500-0715 15105, 0800-1815 9505, 1900-2115 15105, As: 2200-0015 15195, 0100-0715 17880, 0800-1115 15195, 1200-2115 11815, Eu: 0100-0515 15310, 0600-1115 17810, 1200-2415 9585 (via Holmes, CO)
- ✓ **LEBANON** R. Lebanon use of 11925 to NA 0230-0300 changed to QRMed 15440 23/3 (Novello, NY)
- ✓ **MALTA** "Malta Calling" from R. Mediterranean is now on Sats only 0700-0800 on 9670, Evening 2045-2115 not obs in recent weeks. The new pgm is '60 mins of music, nx, and info'. 5-min nx is at 0715. Reports and suggestions requested to Box 82, Valetta (BBC MS 15/3) Two undated skeds from IBRA Radio contradict each other (gh) EG Mon 2100-2115 & Sat 2045-2115 on 9530 (via Dan Prisco, Scranton PA) Same times on 6035 (via Charley Hoffman, PA) Note that as IBRA itself admits, R. Mediterranean is the station; IBRA Radio is a program (gh) 9530 (RVDXX)

- ✓ MOZAMBIQUE** Beira 4895.5 noted at 0358 (sign on?) with EG ID by man with South African accent (Syd Osterman, Toronto, Ont., 4/3) During the non-aligned nations foreign ministers conference in Maputo, R. Mozambique introduced special EG at 2000-2120 on 6005 plus other times on MW/VHF. News at 2100 (Richard Ginbey, RSA, SCDX 13/2) Presumably over and off by now (gh)
- ✓ NETHERLANDS** R. Nederland is putting a good signal into Nam on 21480 (via Madagascar) at 1430-1525, intended for S&EAs; sometimes better than evenings from Bonaire due to QRM and use of too-low frequencies (gh)
- ✓ NETHERLANDS ANTILLES** TWR J79 shows no changes, tentatively, from M79, cf Mar LN-2 (gh)
- ✓ NEW CALEDONIA** R. Nouméa in EG with woman interviewing local figures at 0735 24/1 and 24/6 on 7170 11710 (R. Colin Newell, EG, SPREDX) and on 18/1 (George Zink, CA)
- ✓ NEW ZEALAND** RNZ M79: 1800-2105 11960, 1800-0630 15345, 2115-0815 17770, 0640-1215 6105. (Barry Hartley, Senior Technician, RNZ, 3/3) Slightly different times from RA version (gh)
- ✓ NIGER** Niamey hrd with EG at 1730-1800 on 5020 (G. Victor A. Goonetilleke, Sri Lanka, DXJB)
- ✓ NORWAY** Here are R. Norway's tentative plans for J79: EG Suns plus GMT Mons only; to Nam undelimited: 0800-0830 21655 17775 15135 9590, 1200-1230 21730 17715 15345 6015, 1400-1430 21730 17840 15175 9590, 1600-1630 21730 17755 15175 15345, 1800-1830 21730 15345 15175, 2000-2030 15345 15175 11850, 2200-2230 17795 15345 15175, 0000-0030 15345 11860 9605, 0200-0230 11860 9610, 0400-0430 11895 11860 9645, 0600-0630 21655 15170 11860. (NTA) That 11860 will be a real mess if BEC and Moscow/Sofia are still there too: (gh)
- ✓ PAKISTAN** R. Pakistan slow EG nx 1600-1615 hrd on 17640, giving these: ME 17640 21485 21735, Eaf 21595 17665 (Gerald W. Arrington, CA, 7/3) R. Pakistan DS, some times and freqs for EG nx from Islamabad/Rawalpindi: 0300-0310 9545 7095 6115, 1005-1010 11915 9645, 1700-1715 on 7195 7135 5060. Islamabad 100 kW except 11915 10 kW; 9545 may switch to 10 kW; 7195 Karachi 10 kW as is 6115 (BEC MS 3/79) more, LN-13
- ✓ PORTUGAL** IBERA Radio transmits daily via R. Trans Europe at 1700-2100 on 9670, including EG Thu & Sat at 2030-2100; Fri & Sun at 2045-2100 (undated, via Charley Hoffman & Dan Prieco)
- ✓ SOUTH AFRICA** R. RSA tentative J79: 0200-0250 Nam 11900 *9610 9585 5980, Eaf 0300-0426 9585 *7270 *5980 4990 3995, Waf 0600-0700 21535 *17780 15220, C&Eaf/Eu Mon-Sat 1100-1156 25790 15125, C&Eaf/Eu/ME Mon-Sat 1300-1550 25790 21535 15220, CapriV Sun only, also in Afk 1300-1459 25790 21535 *17780 15220, Sun 1459-1550 C&Eaf/Eu/ME 25790 21535 15220, 2100-2150 Waf/Eu *17780 15155 11900 *9585, * means 500 kW; rest 250 kW (Radio RSA)
- ✓ SPAIN** REE M79: Eur: 2010-2200 on 11840 9505, and from 2110 on 7275, all from 100 kW Arganda on 30° azimuth. C&NAM 0005-0155 & 0515-0615 on 11880 9630, both 350 kW Noblejas on 290° beam (REE DX Section 3/79) This 290° beam is centered thru Wilmington, Charleston, Savannah, Tallahassee, Mexico City, so the 0515 should not be considered to WNA: (gh)
- ✓ SRI LANKA** SLEB to ME/Eaf includes EG 1800-1810 on 11870 15120, 1845-1915 on those plus 15115 17850. Reports to Jimay Barucha, Dir., EG Services, SLEB, Box 574, Colombo (Oliver T. Goonawardena, Sri Lanka, via R. Australia Japanese "DX Time" 25/2)
- ✓ SWEDEN** R. Sweden keeps switching back and forth between 9690 and 9695 at 2300-2330 to Nam. Last part of D78 was on 9690 after season started on 9695, M79 started on 9695, but on 16/3 it was back to 9690. Same date to EAs 1230-1300, 15130 replaced by 15240, and EG at 2100-2130 to ME moved to 11905 //11845 to Af (gh, from STK, Underdown, SCDX 21/3) Last 9/3 (Hynes)
- ✓ SWITZERLAND** Two Bobs 10/3 quoted PTT liaison that SRI on SSB would be expanded in May to include WNA and 12% carrier would be added. They still want reports and people to practice tuning in SSB (Tom Blossom, Austinburg OH; gh) Also SSB will be extended to full duration of all three Nam xmas (1315-1515, 0145-0415, 0430-0630). Definitive fqs not yet known, but may use either 15135 or 15170 at 0145. As for AM, at 0145-0215 6135 11715 15305, and either 9660 or 9725. At 0430-0500 9725 and either 11715 or 15305. At 1315-1345 either 21570 or 21630. The SA beam at 1815-1845 should return to 21585, which served ENAM well last summer (PTT, gh)
- ✓ TAIWAN** VOFQ: 0100-0200 Nam/kuaS 17890 15425 15345 11825, 0300-0350 Nam/kuaS 17890 15345 11825, 2130-2230 Af/ME/Eu 17720 15225 11860 9765 9600, 2140-2240 Nam/kuaS 17890 11825 9685 (BEC MS 1/79)
- ✓ UKOGBANI** At last BBC is registered for the 11m band for J79: 2660 at 0900-1615 from Daventry, two 50 kW xmas to Af & ME (THFBS via Larry Magno) M79 to Nam: 17830-S 1600 (Sat/Sun 1500)-1745, 17830-W 2000-2115, 15420 2115-2430, 15260-A 2000-0230, 15215 1100-1330, 15070 2000-0230, 11955 0545-0915, 11910 2300-0430, 11775-W 1100-1330, 11775-S 1600 (Sat/Sun 1500)-1745, 11750 2000-2430, 11750-K 0030-0330, 9590-S 2300-2430, 9580-K 2300-0330, 9510 2115-0330, 9510-W 0445-0915, 9510-S 1100-1330, 6195-W 0900-0915, 1100-1330, 6175-W 2000-0730, 6120-S 2300-0430, 5975 2245-0730, 7325 2300-0330, A-Ascension, K-Greenville, S-Sackville, W-Antigua. Also check 9410 in evenings, 21710 in mornings, often better (gh)
- ✓ UKRAINE** Since 4/3 R. Kiev at 2000-2030 to Eu on 9640 7400 6020 (BEC MS 8/3) On new 17910 (Oscar Hansson, R. Viking DX World, via Mar DSWGI SWN) This is 3 x 5970, now disused (gh)
- ✓ URUGUAY** SODRE IS eked includes EG nx at 2245-2300 on 9515, alternating with mx and SP nx until 0400*, using 11885 after 0100; 6100 is inactive (Carlos Maslaton, visiting Uruguay, Jan ADXCI Boletin DX) Implying EG is repeated later, but I can't figure out when (gh)

USA (Of Mar LN-1) Here is a presumably more accurate AFRTS sked as announced by them on "Program Notes" at 1835-1845: Eu: 0100-0700 6030, 1100-1400 15430, 1400-1600 15425, 1800-0100 11790. SBu/NAF 1100-1600 15330, 1600-0700 15430. Pac/FE 0400-0700 17765, 0430-0700 15330, 1100-1600 9700, 1100-1800 11805, 1800-0430 21570, 1600-2200 17765, 2200-0400 25620. Carib/Antarctica 0100-0700 5685, 1000-1100 6030, 1100-0100 15330 (via Chris Hynes, Erie Pa.)

VIETNAM VOV ES anc'd that from 5/3 it would broadcast two daily hours in Special English for SEAs & India at 0200 & 0700. 6/3 obs showed the slow EG lasted 40 min each, on 10010, 9840, 7512 (BBC MS 8/3) Same vocabulary as VOA?:(gh)

OTHER SCHEDULES AFGHANISTAN RA non-EG ES: 1300-1400 Urdu SAa 4775. 1630-1700 AR ME 11890. 1700-1730 RS Eu 11890. 1730-1830 Dari/Pashtu Eu 15140 from 1745; 11890. 1830-1900 GM Eu 15140 11890 (BBC MS 2/79)

ARMENIAN SSR R. Yerevan noted in Lxm to SAa 2200 on new 15320 (Bob Padula, RA DX 18/3)

BELGIUM RTBF, La Voix de l'Amitié for 1/4 thru 30/9/79; Mon-Sat 0500-0705 17765 15210, 1000-1230 21460 15210, 1400-1545 21460 5965, 1600-1700 21460 15210, 1700-2100 17730 15210. U S A Believe Ye Not the schedules on KGEI's dun mailers (In PST, of course)--3/79 one shows 15280 switching to 9615 at 7:00PM (GMT 0300) but KGEI is on 15280, still going after Brazil 0300* (gh)

U S S R RID time station obs 0017-0031 22/2 on 15004 USB; format somewhat different from Dec LN-4, viz: 0017-0018 RTTY-type noise. 0018-0019 unmodulated carrier. 0019-0020 Morse code ID "RID" repeated several times. 0020-0030 time pips for seconds and long tone for each minute; double pips at 1st, 2nd, 3rd, 4th, 21st and 22nd second of each minute. Pips ceased at 54th second of 0029; at 0030 resumed RTTY-type noise. Does this format vary with time of day or do they just make frequent changes; RKM-14996 not heard. Is RID allowed to be counted as a new stn under NASWA rules since there are no voice anmts? (Larry Cunningham, Columbus OH) No, but you are certainly under no obligation to follow NASWA rules for your own purposes (gh)

On the Mayak program, usually Tues at 1620-1627 there is a cutaway to a local IS and news-cast from a constituent republic, e.g. Moldavia, Baku, Yerevan. Not certain whether on all Mayak freqs; could be only via xmtrs in that republic, in which case Kishinov could be considered to have some kind of external service on SW (Andrew Coleman, Feb WDXC Contact, RIB)

VIETNAM VOV ES obs in 3rd Feb week show further daily 30-min Std Chinese xmsn, 1630-1700 on 10010 7470, increasing weekly lang output to 52h30m per week (BEC MS 1/3) VOV ES in Cantonese 1530-1600, Std. Chinese 1600-1630 obs on 6435 in addn to 11750 10010 7470 (BEC MS 15/3)

ZAIRE (Cf Feb LN-7) LVZ hrd on 9767, Swahili 1900-2000 (Kouji Uenohara, Japan, SCDX 13/2)

MISCELÁNEA RADIAL AFGHANISTAN RA hrd in brief opening 22/2 on 4775 fair at 0130-0145 w/Koran reading. Fade out till 0205 when back w/ME sitar mx, female ancr; lost to R. Bolívar splash 0215 (Charley Hoffman, Manhelen PA)

ANDORRA The plan of installing a new 10 kW SW xmtr and a new aerial for R. Scandinavia has been postponed until further ("PA", R. Viking DX World 6/2 via WDXC Feb mid-monther) The 25/2 broadcast was hrd with reasonable strength in Scandinavia, but owner Roy Sandgren informs us this was the first and the final xmsn as reception was too noisy in Scandinavia (Paul Foged, DSWCI Mar SW News) Because only 20 reports received, and no advertisers (RVDXW 13/3)

ARGENTINA LT17, R. Provincia de Misiones, since 12/78 is on SW 6160 //620. It is not known whether Malargue is still using this fq (Tony Jones, Jan ADXCI Boletín DX). The station is in Posadas, operates 24h (Vicente Bombardiere, Argentina, SCDX 6/3) R Colón, San Juan, hrd via PTP feeder on approx 4555 16/1 at 0208-0220, hockey; also other days for program feeds, on AM and QRC3 (Sergio Raúl Moscardini, Córdoba, Argentina, Jan ADXCI DX Boletín)

AUSTRALIA RA announced 11/3 13/3 that because of Cyclone Hazel all xmsns from Carnarvon had been shut down, apparently until it would be safe for staff again. Previous week 9580 Shepparton was shut down indefinitely for rebuilding xmttr and antenna array (Tom Blossom, OH) Gf LN-1 (gh) Occasionally recently, RA's 0100-0300 on 21740 has suffered from intermittent noise originating at the Shepparton xmttr; sounds like a loose wire or cable blowing in the wind and occasionally coming in contact with the transmitting aerial (Richard N. Allen, Billings OK, 18/3) Two new Shepparton 100 kW xmttrs (7 & 8) began regular operation 27/1 with VLA & VLB pgms; after some tech troubles the first week, used most days on VLB and VLG pgms. Xmttr 6 (50 kW) sometimes used as daytime replacement on 9580 15180 17725 while one of new 100 kW units undergoes maintenance and xmttr 3 (100 kW) is now taking VLA pgm most days. Speech clip plng used by new units only during news (Robert Jones, Sydney NSW, Mar ADXN)

R. Australia is now offering, on a limited basis, RA T-shirts. You have to name 3 RA announcers on the back of an envelope, addressed to "Midway" (the name of the 0200 pgm on 21740) plus the usual RA addr. A T-shirt or book can be won (Andrew Blumberg, NY, 6/3)

BRAZIL I've been hearing a Braz with fast-paced live soccer commentary almost daily 2300 past 0200, varying around 15325-15370; no definite ID, but think it's R. Gazeta, São Paulo. A lot of talk of Bahia, tho (Joe Tangredi, Las Vegas NV, 21/2) R. Tupi now back on 15370 after several years; not known whether move from 15155 or old xmttr reactivated; best in Europe 2100-2200* (Oscar Hanson, R. Viking DX World 6/2 via WDXC Mid-Monther) R. Bandeirantes hrd on 9647 0920 5/2 (Robert Yeo, Merimbula NSW, ADXN)

Some call-sign changes: 3205 ZYE79 R. Ribeirão Preto. 3235 ZYEB78 R. Clube de Marília. 3250 ZYV315 R. Dif. de Uberlândia (fq anc'd tho WRTH78 list 3255). 3335 ZYEB41 R. Alvorada de Londrina. 4795 R. Dif. de Aquidauana ZYX988. 4875 ZYD688 R. Jornal do Brasil, Rio. 4905 ZYD475 R. Relógio Federal, Rio. 4925 ZYR864 R. Dif. de Taubaté. 4985 ZYX698 R. Brasil Central. 5035 ZYB53 R. Bandeirantes. 11935 ZYB726 R. Cl. Paranaense. 17815 ZYB961 R. Cultura de São Paulo. R. Brasil Central apparently no longer uses 9755 as it is not announced (Emilio Pedro Povrzenic, Argentina, Nov-Dec 78 Acocnagua DX Club)

Besides call changes, there were some other major changes at the end of last year. The "Globo-Excelsior de São Paulo" network was formed, carrying Globo on Excelsior fqs 9585 6125. Also, R. Record is broadcasting instead of R. Panamericana (S.P.) announcing as ZYB951 on 9505, ZYB952 on 11965 and ZYB953 on 15135. R. Record also has raised power from 7.5 to 50 kW. R. Mauá do Rio is on 5055 instead of R. Guanabara/Quitandinha do Rio, sometimes as "R. Nova Mauá". R. Ribeirão Preto signs on at 0730 (Emilio Pedro Povrzenic, Argentina, MARPLA DX Club "DX-Citing" Mar-Apr 79)

CAMBODIA VOKP on 9753 matches fq used by Liberated Saigon Radio, and before that R. Vietnam "G" net of foreign languages, but 7350 is identical to no fq previously used in South Vietnam Still on 9753 4/2. In late Feb hrd on 9693 at *2300 and *1100 with closing usually extended some 15 min past nominal 2400* and 1300* Neither 4907 nor 6088 traced at the moment. Now IDs exclusively as "Thinl Phnom Penh, Vithayu Somlang Procheachon Kampuchea" (Isao Ugusa, Japan, New Far Eastern DX Review 2/3)

CANADA If you notice some programming and personnel changes on CBC or RCI 1/4, that's the date the budget cut goes into effect with a new fiscal year. However, any diminution in Ian McFarland's presence is only due to a vacation (gh)

During the 26/2 eclipse, CPRX-6070 in till nearly 1730. Announcer Bill Deagon was happy to know I could hear the stn that far away during daylight and mentioned it on the air (Jim Conrad, IA)

BBC acquired a new relay station for Africa--Sackville, noted on 15260 & 17820 25/3 1800-1803 with BBC instead of RCI programming until switching error corrected (gh)

COLOMBIA La Voz del Centro hrd 18/3 2018 on 30475, 5 x 6095 (Richard N. Allen, OK) 30474(gh)

COSTA RICA R. Casino *0930 19/3 announcing fq as 5954, a move from 5960, but was on 5955 as after VOA came on, no appreciable het (Jack Jones, MS) There goes our RCI het, trx! (gh)

CUBA RHC in SP 0300 past 0500 on 12055, distorted SIO 343, suspect xmttr problem (Jay Novello NY 20/3) RHC probably the one at 2016* on 30680, 2 x 15340 (Richard N. Allen, OK, 18/3) Summer time of GMT -4 hours was resumed at 0500 18/3, in force until 14/10, per Havana radio (BBC MS 15/3) What's "Havana radio"?? There are lots of SW, MW and ute stns there! (gh)

CYPRUS R. Bayrak hrd with a very strong signal varying between 6205 and 6210, causing a variety of hets with Libya-6206; no longer up higher in the 6200s (Larry Magne, Israel, Feb)

CHILE From mid-Dec to 10/1 apx there were special mx-and-propaganda BCs w/out IDs, *2300 to 1100*, sometimes 1000* or 0900*; perfect on 9630 11715 15115 17800 all variable (Roberto H. Iglesias, et. al., Jan ADXCI Boletín DX)

- DOMINICAN REPUBLIC** Some news obtained during a week's visit the third week of March--(see also FUTURE PLANS)--La Voz del Papagayo has been off the air several years, because it was refused permission to operate on MW, and couldn't make it on SW only. It operated out of a Puerto Rican club. I was told the name came from a freighter ship, tho the dictionary says the name means either a parrot, or a red fish full of venomous prickles. La Romana's other SW stn is also off the air because it's doing OK on MW and the SW was an unnecessary expense. In Puerto Plata, La Voz de la Libertad MW is off freq to about 1244, and produced strong harmonics (locally) on 4976 and 6219, so the latter when occasionally heard, is certainly a 5th harmonic rather than a variant of 6190, which is off the air. In Santiago, R. Exitos has colorful new AM & FM studios and the manager isn't interested in bothering with SW anymore. R. Norte there appears to be active on SW only certain hours--nighttime. In Santo Domingo, La Voz de las Fuerzas Armadas is temporarily off SW because tubes had to be borrowed for a new AM station elsewhere in the country. Due to frequent power failures during a drought causing hydroelectric shortage (a blackout occurred during my visit), stn is looking into installing its own generator within the military compound it inhabits. I was told that as a military activity it can obtain equipment more easily than government or commercial stations. LVFA seems to be enthusiastic about reception reports, and prefers taped reports. R. Comercial's 800-watt SW xtrr gave out, but a new 5 kW unit is on order and should be on in April. RTVD's 5967 and 9505 xtrrs are at different sites, one reason, perhaps, why they are not always on the air at the same time. R. Mil receives lots of reception reports, mostly in English, so they've had to get someone who speaks English to answer them. The only D.R. station I saw with a real newsroom and people working in it. Thx to Teo Veras for transport!
- I also had the great pleasure of meeting Rudy Espinal just before his departure for a new 2-year contract advertising job in Caracas. He was quite pleased and proud to have been invited to the 1979 ANARC Convention and is looking forward to attending. This received quite a bit of coverage in the local press, and really lifted Rudy's spirits after several difficult months following the Clarin cutback. But he's been busy in an advertising business, and as MC of Dominican culture shows at a resort hotel, and carries a pocket pager. One of his regrets is that following numerous delays in getting QSL cards designed and printed, it was not possible to answer all the thousands of reception reports before Clarin's international service came to an end. He really got a charge out of "This is Santo Domingo" and hopes to resume it one day on some station, even if it has to be called "This is Caracas". Rudy is also the president of the Círculo de Locutores Dominicanos; it strives to upgrade the quality of radio announcing in the country, and receives public attention on April 18, "Día de Locutores" More about this in the April REVIEW of INTERNATIONAL BROADCASTING (gh)
- ECUADOR** (Of Mar LN-14) Contrary to the SQDX report, R. Quito is still hrd on 4920; however, they may have been using 4875 irregularly, tentatively noted here in Jan (GMS Telegram 26/2)
- EQUATORIAL GUINEA** Bata is using 11715 kHz (R. Sofia DX 24/3) Oh yeah? I think they were just picking stuff out of an ITU list without checking for activity (gh)
- FALKLAND ISLANDS** FIBS is using a new xtrr from the airport for evening broadcasts, accounting for enhanced strength (Jan Tunér, DX Juke Box 9/3)
- FINLAND** R. Finland program-makers may be on strike as from Tue 27/3. If so, R. Finland will be off the air (R. Finland "Kir Mail" 24/3). What's all this fuss about Finnish International Radio? We haven't changed our name, but still announce as "Radio Finland" because it's shorter and clearer. But we use "FIR" in some of our publications because most foreigners find Yleisradio unpronounceable. FIR refers only to the Yleisradio section that produces external broadcasts. And we didn't like being abbreviated "RF". (Patrick Humphreys, FIR)
- FRANCE** RFI's Paris Calling Africa has changed and limited format for the duration of a strike by some personnel, according to 12/3 broadcast (Tom Blossom, OH) If you have accurate frequency readout, TF-1 audio on 41230 kHz can only come from a 2500 W stn at Bastia, CORSICA while there are three more powerful stations on nominal 41250 at Troyes, Limoges, Caen (Roger Bunney, England, Mar VHF-UHF Digest)
- GERMANY EAST** RRI DX Club is sponsoring an award to mark the XXX anniversary of the GDR next year. Four QSLs can be put together to make up a colorful map of the GDR. They require four correct reports with at least 20 mins programme details (Gec Taylor, Mar WDXG Contact)
- GERMANY WEST** DW feeder noted in German 0300 on approx 6600 LSB //6085 AM (Jim Conrad, IA)
- GUENADA** 21/3 at 0100 on 15105 I-tuned in the voice of Herbert W. Armstrong. I thought at first WINB had changed from 15145. But the sermon abruptly ended and I heard "This is Radio Free Grenada--The Voice of Revolution" followed by speeches from people of the new government--lasted well past 0300 (Arthur S. Getzel, NY) RFG heard 14/3 with cricket commentary, interrupted by RFG ID at 2045 (Syd Osterman, Toronto, Ont.) In New York, ex-Prime Minister Sir Eric Gairy told AP 13/3 that he had not been overthrown and the uprising was limited to the takeover of the radio station by 'a small group of communists'. The rebel broadcasts, spiced with West Indian reggae and calypso songs, assured tourists mostly North Americans, that they would be safe and were welcome to stay (AP via Jackson Clarion-Ledger 14/3 via Jack Jones) A rebel broadcast called Gairy a 'criminal dictator' and said the US would be asked to extradite him. Maurice Bishop, who led the coup, set up HQ in the studios of Radio Grenada and dubbed the station "Radio Free Grenada" (AP 14/3 via Jones) more, LN-13 (twice)
- GUYANA** The last private station here, R. Demerara, has been bought by the government, so ra-

dio here has become a state monopoly. R. Demerara belonged to a British company which will be indemnified by the payment of US\$40,000 over 13 years, and the nullification of \$104,000 in back taxes (from La Presse, 8/1, via Daniel Shields, L'Onde)

HONDURAS LN-13

HAITI I'm hearing 4VEH at 1715 past 1930 on 11835 Sundays only (Andrew Blumberg, NY, 6/3)

INDIA All AIR stns issue full-data QSL cards or letters. Reports should be sent to: The Station Director (or Engineer-in-Charge) c/o the name of the station and name of the State. Or, to Mr. O. P. Khushu, Dir. Frequency Assignments, AIR, Parliament St, New Delhi 110001. Or contact Mr. J. C. Bhargava, Asst. Engineer at the above Dept. They will forward reports to the respective stations (Alok Das Gupta, Calcutta, Mar ADXN)

INDONESIA RRI Padang, 4002 (listed) on 3/2 at 1310 (Bill Whitacre, MI, WDXC MM) This one is getting to be a pain in the **** (sic) as it has been identified (sic) as about a dozen different stations by various people in the US. Noted here on measured 4002.68 on 20/11 with POSITIVE ID at s/off as RRI Tanjungkarang. Or is there more than one RRI here?? (Gordon Darling, WDXC Feb Mid-Monther) HKPD Kota Madya Surabaya (R Gelora Surabaya) runs 500 W with an open dipole on crystal controlled 3164.77 kHz with three 813s in the final; another slogan is "R. Gelora 10 Nopember (Takehara, IDXR) Unlisted in WRTH 79 is RKPDT Tkt II Pasuruan, 600 W on T system antenna on 3462 kHz, two 813s in the final. Programs are 40% entertainment, 50% education and 10% other. Address is Jalan Hayamwuruk 14, Pasuruan, Kabupaten Pasuruan, Jawa Timur (Satoshi Wakasaka, Japan, IDXR)

more IRAN LN-13

IRAN At 1415 11/2 the VOI DS in Persian began to announce "This is Tehran, the genuine voice of the Iranian nation; the voice of revolution". Anns also said former striking employees of NIRT were back at work. At 0110 12/2 VOI called on remaining members still on strike to return to work, and appealed to 'revolutionary strugglers' in Ark Square, Tehran, not to destroy the radio archives held there. At 0405 members of the PARS news agency staff congratulated NIRT's employees on their return to work and said its news service to NIRT was being restored. At 0413 the radio announced that from that moment the voice of the revolution of the Iranian people would be broadcast by local Radio Tehran and the all-Iranian network. At 0430 mention was made of congratulatory messages to the Iranian people from various organizations including "Radio of the Patriots". At 1100 the radio announced the establishment of a board appointed by the PM's office at the R&TV centre to regulate its programs (BEC MS 15/2)

Voice of the Iranian Islamic Revolution announced 13/3 that the Radio & TV Organization wished to inform the Iranian nation that, until the purge of all radio and television centres was completed, they had been instructed to refrain as far as possible from producing local programs. They were to relay instead pgs of the Voice and Profile of the Iranian Islamic Revolution (BEC MS 15/3; ed note: from Tehran) R. Australia news 13/3 reported that the head of NIRT was one of five executed by a firing squad for supporting the shah (Tom Blossom, OH)

A new interval sig noted on the Farsi broadcast at 2100 (Mark Fulwell, Mar WDXC Contact)

KENYA VOK 4934 has nx at 0400 seemingly a mixture of perhaps Swahili and some EG, to 0414 // 4915, 11/3. WRTH says home service (Syd Osterman, Ont.)

KOREA SOUTH KBS hrd in German 0850 on 15770, not in WRTH (Emilio Pedro Povrzenic, CDXAC) ?

KUALA LUMPUR (almost 90% sure) AR at 1130 past 1400 1/2, and some more days. Xmr fault? Not there on 21360 any more but was excellent (Victor Coonstilleke, Sri Lanka, sri Lanka, ADXN)

LESOTHO (Cf Mar LN-14) Has been heard on 4800 at 2000 (Jan Tunér, DX Juice Box 9/3) After several months of inactivity, undoubtedly xmr problems, two parallel fqs can be heard, 4740a with strong signal, extremely bad modulation; 4800 with very weak signal, good modulation (Vaclav Korinek, Mar DSWGI SW News) Best ever, xmr improved? 4800 4/3 1848-1917 (NZDXT)

LIBERIA A series of stamps honouring SIM station ELWA for its 25 years of service will be made on 18/1/79, anniversary of first broadcast in 1954. One reason for this new issue is the popularity of stamps issued in 1974 for ELWA's 20th anniversary. ELWA offers to send a postcard showing the ELWA grounds, and one of the stamps upon request to them at Box 192, Monrovia (Africa Now via Wesley Rogers, WDXC Contact March)

VOA Monrovia on 15920, xmr 21 with 40 kW at 2100 on 18/2 with FR on LSB, RS on USB, directad 400 to Munich relay (Robert Jones, ADXN) So Munich emits a double relay? (gh)

MALDIVES R. Maldives hrd 16/1 on 4740 at 1500, SIO 343 with EG nx, bit of drum mx, ID as "R. Maldeevs", fadeout in mid-word after about 3 minutes. ID was taped. May be due to living north of a large electromagnetic anomaly which gives some very weird propagational effects; digital CRF-320 rx and 8-band dipole (Charles Connell, Ft. Bragg CA, ASWLC) One of the top, if not the top DX log of this season in Nam. Congratulations! (Derek Lowe, ASWLC Ed.)

MEXICO Spanish noted at 1350 5/3, lost to Moscow co-channel 1400, on 6020. At this hour I don't see how it could be anything but Mexico, Veracruz reactivated (gh, OK) La "U" de Veracruz hrd on 6020 after Peru mysteriously disappeared at 1130. Per WRTH, 250 watts, irr.; excellent with classical guitar; ID with harp signature tune at 1230 (Ralph Martinez, IL, 10/3) 10/3 *1130, very surprising, ID as XEU 930, XEUW 6020, anthem, pop mx, ads (S. David Klein, FL) 18/3 first hrd, 19/3 *1130 s/on not mentioning SW; seems more than 250 watts (Jack Jones, MS) Cf Feb LN-13 re 6115 band. XEUDS does sometimes play American rock, as 11/3 0152-0223*, non stop with no annts between songs, except full ID at 0206 and before s/off. Excellent reception; usually quality mx but not always. Caution (Ron Howard, Santa Bárbara)

- MOROCCO** Rabat really jumped out at me on 4/3 at 1605 ID on 15335//15360 Doesn't quite check with Mar LN-3 asked (Jay Novello, Endwell NY)
- MOZAMBIQUE** RNM hrd from *0250 on 11810 to 0300 with multi-lingual annts in PT, FR, EG, 0300 PT nx, 0310 Afro and pop mx (Rainer Herrmann, Sachsenheim GFR, SCDX 20/2) R. Mozambique ch A from Maputo now on 6005 ex-6115 (Richard Ginbey, RSA, SODX 20/2) "A" uses 6000 ex-6115, and 4855 occasionally, but always 4855 for Voice of Zinabawe. Most RM frqs still drifting all over the dial (DSWCI Mar SW News)
- NETHERLANDS ANTILLES** Ever wonder how RN-Bonaire gets such good quality out of a submarine cable feed from Hilversum (which is in regular use rather than satellite) compared to BEC's crummy audio cable fed out of Sackville? RN actually uses 2 separate lines on the Columbus Cable, one carrying audio frequencies of 50-3050 Hz, the other of 2500-5500 Hz but altered to 400-3400 Hz along the cable, split at Hilversum, converted and remixed at Bonaire for broadband audio (DX Juke Box 9/3) Bonaire is one of few places in the world virtually free of lightning, so the antennas need and have no lightning protection. Not so Madagascar! (DX Juke Box 23/3) Bonaire missing from both frqs 0300 25/3 (gh)
- NIGARAGUA** R. Eco, Managua hrd 4/3 at 2355 on 18029, 3 x 6009.67, religious show giving Managua addr; ID at 2356 mentioning 6010 and 102.7 FM. SIO 352; listed 100 watts on fundamental (Jay Novello, Endwell NY) Very nice catch; no sign when I checked except 2155-2230 Mayak on 18030, so watch out for that (gh) more, LN-13
- NIGERIA** VON hrd 10/3 and 14/3 testing sporadically on 15185 at 0600, unannounced and much stronger than //15120/11770 (Ralf Gunnar, Denver CO) VON tests 0835-1030 obs 27/2 on 15185 and 15120. Mx, annts in FR 0835-0910, AR 0910-0933, EG 0933-1030. FR & EG beamed to Eu/Med while AR to Eu/ME. 28/2 15120 again tested similarly, while 15185 & 7275 broadcast a vernacular-lang svc, the Int'l Svc of the VON to Waf (BEC MS 1/3) VON reported 8/3 a decree formally establishing the Federal Radio Corporation of Nigeria (FRCN), effective 1/4/78 (sic), Corp. is exclusively responsible for external EC on SW and the more powerful domestic MW stns in Nigeria, plus provision of an independent and impartial radio broadcasting service for general reception in the country (BEC MS 15/3)
- PAKISTAN** Looking for Finland 18/3 1445, R. Pakistan Urdu here with very good signal, fascinating mx, 1500 good ID and nx; Bethany CG covered 1947 (Jay Novello, Endwell NY) 21485:
- PERU** In case you're wondering where the name "Tawantinsuyo" for 6175 came from, its city, Cuzco is at the four-corners intersection of the old Inca empire, or Tawantinsuyo, "Land of Four Parts". They were: 1) Cuntisuyo, the land of the Guntis (Quechua) people. 2) Kollasuyo, the "altiplano" or high country of Argentina, Chile and Bolivia, the home of the Kollas (Aymaras.) 3) Chinchaysuyo, the warm coastal region from Lima as far north as Quito. 4) Antisuyo (for which the Andes mountains are named) the steamy transandean jungle region, home of the Antis people (Gedric Marshall, DX Ontario)
- PHILIPPINES** From early Feb 79, VOA finally changed its recorded site annts at the start and end of xmsns. For the last few years, the PHL was the only VOA relay still using the old recording IDING the relay country. So all VOA relays now ID as "VOA, Washington, DC". Tinang 250 kW has mx tests 2100-2155 on 11760 15395 17820, 0700-0755 on 11930 11965 15345 15410 15425 17740, the only VOA relay with regular mx tests. Satellite feed was restored in mid-Jan 79 for most langs, and from mid-Feb for EG. Some preshipped tapes used (Chinese 1015-1030, 2315-2400) (Robert Jones, ADXN March)
- PORTUGAL** RDP broadcast 19/2 an account of a press conference by its Administrative Committee on the economic and financial state of RDP. It is in debt to the tune of 1,600 million escudos and by yearend, 2,500 million deficit is expected, but true situation can only be assessed when complete 1977-78 figures are known. At this stage RDP does not have the resources to pay Feb staff salaries. RDP has a staff of about 2,500, of whom 53 are on short-term contracts. The org. employs three orchestras and is the majority shareholder in a recording company. RDP also runs a farm on land occupied by the Porto Alto mxtr and a fishing company in the Algarve. All are loss-making concerns. Its only source of revenue are ads and license fees, which are a veritable drop in the ocean. Ad rates are out of date, having been fixed in 1976 but licence fees are greater problem since they are collected by Portugal's 212 regional electric companies, great majority of which do not collect the fees and some even refuse to do so. Restructuring of RDP, currently underway, is bound to show an excess of personnel, and it is planned to dispose of all RDP concerns not directly related to BC. The Committee intends to ask the Secretariat of State for Culture for help in running its three orchestras and to approach the Ministry of Foreign Affairs with a view to securing financial help for its international SW pgms (BEC MS 22/2) Council of Ministers approved a resolution declaring RDP in a "difficult economic situation" with all the legal consequences that implies (BEC MS 8/3) RDP hrd on 23800 31/3 at 1625, fado; not on fund. 11800 (gh, Dom. Rep.)
- ROMANIA** Sun only to seamen 0822-0912* 4/2, believed to be first use ever of 13mb by Bucharest but mixed with USSR co-channel (Bob Padula, ADXN) 21490!
- RWANDA** DW Kigali hrd on 24640, 4 x 6160 at 1941 18/3; slight QRM (Richard N. Allen, OK)
- SAUDI ARABIA** on USB 15776 around 1530-1700 //15060/21505 some days (Noel Green, WRC 20/2)
- SOUTH AFRICA** Springbok Radio on SW to be dropped after midnight 31/3 (4810 and 15285). As

of 1/4 the "R. South Africa" all-night service at 2200-0300 moves to Radio Five's channel of 3980 (R. RSA DX Corner 25/3). If this trend keeps up, we may have nothing but Radio RSA to listen to on SW from South Africa.... (gh)

SWAZILAND "Radio SR" hrd on 4980 around 0401 after Ecos del Torbes sign-off; in EG with good sig, pop mx and ads à la Springbok, except uses Black announcers (Syd Osterman, Ont., 12/3). Also here at 2215-2300* rather than usual Ghana GEC2; seemed to mention 1400 kHz in s/off smt. Just cuts carrier with no mx at 2300; Ghana still on 4915 at this time with good sig (Syd Osterman, 18/3)

TANZANIA RT Zanzibar obs during the evening of 6/3 on 3339 (BBC MS 8/3)

UGANDA Due to Idi's increasing difficulties, UBC Nam svc checked each nite, and was off the air 16/3 thru 25/3 but resumed at 0300 26/3 on 15325 (Dave Walcutt, TX) Hrd on 15250 Sun at 1850 in FR, under VQA carrier (Andrew Blumberg, Brooklyn NY, 6/3)

UKOGBANI BBC Russian Service has come under more virulent attack by Pravda and other media. American sources suggest that five to six million Soviet citizens listen to the BBC daily, and three times that number hear it at least once a week. Letters protesting proposed External Services cutbacks came from all parts of the world in the hundreds, the largest number coming from Japan (WDXG Contact). BBC WS feeders noted at 2100 & 0800 on 12180 USB, at 1800 on 19460 USB; and BBC French at 1800 on 19460 LSB (Jim Conrad, IA) VQA Woofferton hrd on 24160, 4 x 6040, at 1950 18/3 (Richard N. Allen, OK) Here are some TV audio offset frequencies likely to be more accurate than in my March PE article: (gh) *only xmtx on frequency

| | |
|------------------------------------------|-------------------------------------------------|
| 41466.25 Llanddona (Wales) (1500 W ERP) | 41534.000 Granton (Scotland) (100) |
| 41480.00 Redruth (Cornwall) (2500) * | 48230.000 Rosemarke (5000) |
| 41500.00 Crystal Palace (London) (50 kW) | North Hessary Tor (3750) |
| Divis (N. Ireland) (8500 W) | 48250.000 Holme Moss (25000) |
| Thrusster (Scotland) (1750) | 48270.000 Londonderry (N. Ireland) (375) |
| 41516.875 Ashkirk (Scotland) (4500) | 48281.500 Swingate (375) * (Roger Bunney, UK) |
| Llandrindod (Wales) (350) | 48297.000 Oxford (162.5) * & Pat Dyer, VUD Mar) |

URUGUAY Having visited Uruguayan radio stations in 1974, I found that things had generally deteriorated this year. I could get pennants from only two stations, and stickers from only four. Only two Montevideo stations have printed QSL cards--SODRE and R. Imparcial, but they only send them out irregularly. Last time it was no problem to find out stations' powers, but now they seem to be 'state secrets', and each station believes it is actually operating on its exact assigned frequency. And I was able to confirm with absolute certainty that all the Uruguayan stations heard on the 60 meter band for the past 4-5 years and which appear in the WRTH are not broadcasts, but PTP links, used mostly during sports broadcasts. For instance, R. Durazo said they use shortwave because they still don't have VHF equipment. R. Sarandf even announces that 4990 is a link frequency (Carlos Maslaton, Argentina, ADXCI)

USA R. Liberty cancelled Uighur-language broadcasts last month. The station's Uighur-language editors and broadcasters, based in Munich, West Germany, accuse RL of striking a 'decisive blow' against their compatriots in central Asian regions of the USSR and China by 'depriving them of the opportunity to obtain free information'. The émigré employees believe the cancellation is connected with US recognition of China. But a spokesman for EIB said the timing was 'entirely fortuitous', that RL was not authorized to broadcast to China in the first place, and that the relatively small number of Uighur-speakers in the USSR could be reached in Uzbek or Russian more economically; and that the Uighur broadcasts had amounted to 10 minutes a day (Theodore Shabad, NY Times, 9/3, via Malcolm Kaufman)

Now that AFRIS has moved from 21650 to 21570, RTTY is heard on 21650, I suspect Dixon 50 kW to LAm, at 2130 (Robert Jones, March Australian DX News) Some VQA feeder frequencies noted, rounded to nearest 10 kHz:

| | | | | | |
|----------------|--------------------|-----------------|-------------------|--------------------|------------|
| 6630 L 0300 EG | 7770 U 0300 EG Lf | 10230 L 0300 EG | 10230 L 0300 XX | 10870 U 0800 EG | // 10455 L |
| 6690 L 0730 AR | // 10455 L 10870 U | 10380 U 2000 RS | 19260 U 1800 PT | 19510 L 1800 XX | |
| 6870 U 0300 RS | 10230 L 2000 RS | 10380 L 2000 XX | 19510 U 1700 XX | 19725 AM 1800 RS | |
| 6870 L 0730 AR | 10230 L 2000 XX | 10870 U 0300 EG | // 7770 U 10455 L | (Conrad, IA, 26/2) | |

WFR heard on 23710, 2 x 11855, at 2101 GMT 18/3 (Richard N. Allen, nr Billings OK) Grand Canyon Village AZ TIS (travellers' information service) hrd on 1610 kHz, weak but readable, not bad for 10 watts at 300 miles. Tape began 31/1 0450 "Welcome to Grand Canyon Village..." mentions of facilities available, how to drive around to the North Rim, scenic points (William J. Harms, UT, IRCA DX Monitor) Presumably a TIS station was hrd 18/2 at 0500 with continuous Indian documentary with female announcer, on 1610. Skywave certainly seems to be in excess of what the FCC originally had in mind (Bill Coleman, Jr., NC, Mar SWNS) "HAR", Highway Advisory Radio, hrd on 1610, 5/3 1038, continuous tape repeating every minute or so from Wash. Dept. of Transportation with news of flooded roads. Seattle newspapers reported 3/3 that two stations at North Bend and Cle Elum are now on the air with road condition reports for Snoqualmie Pass area, but not sure if they're parallel (Bruce Portzer, IRCA)

USSR R. Moscow anc'd 5/3 to its GB&I listeners a newly opened mailbox in London--Soviet TV and Radio, P.O. Box 105, London W2 3DX (BBC MS 8/3) 25/2 1550 I heard Moscow on 10 meters 29155, usual ID at 1559 not mentioning this new freq; had heard hams mentioning it on 75m net (Don Coco, Rochester NH) Very likely 3rd harmonic of 9720 on 29160, which I have also hrd on 2nd and 4th multiples. Mayak noted on maritime band, 22210 7/3 1430, still 1530 plus, SIO 242 (gh, OK) R. Moscow ID in unID lang 1330 9/3 on 30750, only harmonic on band then (gh)

R. Kiev 14/3 at 0325 on 10120 USB, 0330 Mayak, SIO 353. Thought Moscow said they didn't BC 14 SSB? (Jay Novello, NY) RM either is ignorant or lies; it is hard to tell which (gh) Yakutsk, presumed on 4800 around 1300 in Chinese, and then at 1227 (sic) Russian anthem, making the usually-reported China here seem unlikely (Syd Osterman, Ont., 12/3)

VATICAN Since Tue 23/1 VR is back on 6210 ex-6221 (Oscar Hansson, RVDXN via WDXC MM, 6/2)

VENEZUELA R. Continente, Caracas stated 13/2 that it requires an explanation for the resolution appearing in the Official Gazette on 12/2, revoking its use of 5030 and 590 kHz as well as two STL frequencies. R. Continente declared, however, that it would remain on the air despite the government decisions (BEC MS 22/2) YVPL R. Nueva Esparta is again active on 2340 (R. Pérez M., Nov-Dec CDXAC) My La Voz de la Fé item Mar LN-6 ECUADOR should have been under VENEZUELA (Charley Hoffman, PA)

VIETNAM A survey of regional stations shows (in order of most recent freq, then others)

| | | |
|---------------------------|-------------------------------|----------------------------|
| 6884 Bac Thai 6882 | 5604 Hoang Lien Son 5592 5594 | 4762 Gia Lai-Cong Tum |
| 6331 Son La | 4881 Thanh Hoa | 4692 Quang Ninh |
| 6280 Nghe Tinh | 4820 Ha Tuyen | 4647 Ha Bac (not in WRTH) |
| 5927 Lai Chau (WRTH 5932) | 4770 Son La | 4248 Vinh Phu (4284-typo?) |

The station on 5604 v continues to relay VOV ES in Std. Chinese at 0900-1000 (BECMS Feb-Mar) Vinh Phu is a new stn. In Vietnamese, Cong Tum is spelled Kon Tum. Hoang Lien Son had the provincial capital occupied by Chinese forces 17/2, but the stn was still hrd until 26/2. Other stations not in the list have not been hrd here either: Cao Lang 6262, Hue 4680v, Son Be 4559 (Isao Ugusa, New Far Eastern DX Review 2/3) Add 6920 Cao Bang (BBC MS 22/3)

ZAMBIA RZ reported 9/2 that MPs recognized the need to allocate more funds to Minfo & BC, but one member said 5,123,000 kwacha was not enough (BBC MS 15/2) RZ reported that the ZES Dir. Gen. said in Kitwe 23/2 a scheme to iron out problems haunting ZES was being worked out. He praised ZES staff for excellent service despite immense operational difficulties such as poor equipment and staff shortage (BECMS 1/3) Per 28/2 'Electronics Weekly', due to xmtx failures, ZES ES has been off air since first Jan week. Since other DS xmtxs are also out of action, ZES has had to use a standby xmtx and combine its General and Home DS (BECMS 8/3) 'Times of Zambia' reported 9/2 that the failed SW xmtx had been built by Chinese experts in 1973. TOZ said in an editorial that the possible demise of R. Zambia was a national disgrace, and that the real reason was a lack of enthusiasm and imagination. For years, pgms had been repetitious, infantile gibberish. Nothing more should be put into TV which only reaches a privileged minority while villagers could not even hear their national radio (BECMS 15/3)

FUTURE PLANS BANGLADESH Under a scheme for the improvement and modernization of its radio net, seven regional stns are to be set up by RB, per AIR 14/2 (BEC MS 15/2)

BRAZIL R. Clube do Pará, Belém, 4865, one of the oldest Brazilian stns, will soon increase power from 2 to 5 kW. Telefonken xmtx; delta aerial to be changed to four dipoles. Per Edyr Proença, Pres. of the stn (Sílvia Ünzer, Brasil, March CAXDX)

BULGARIA This year for the first time--like CCSR--summertime will be introduced 1/8-30/9 and every year on (Karel Honzik, Mar DSWCI SW News)

CANADA (Cf Mar LN-8) Although our CFRX SW outlet is no longer needed to serve remote Canadian areas and is an antiquated xmtx, and we have only a friendly interest to our listeners in the US, we have decided to renew our license and let CFRX limp along with normal repairs and servicing until the poor old xmtx gives up the ghost. Hopefully, that will be several years from now at least (Donald W. Insley, VP & GM, CFRB Toronto, 23/2 letter to Andy Robins, MI, who had protested the proposed closing of CFRX, via March R.I.B.)

CZECHOSLOVAKIA Summertime will be introduced here 1/8 to 30/9/79 (Karel Honzik, DSWCI SWN) R. Prague reported 9/2 that Summer Time would be from 1/4 to 29/9 inclusive, GMT plus 2 (BEC)

DOMINICAN REPUBLIC RTVD's international service has been delayed by studio construction, but it is hoped to get underway in April. It is headed by Teo Veras, a successful local broadcaster at R. Universal and HILX-FM, who together with José Rhadames Cabrera, a DXer and med student in charge of RTVD's international correspondence, were my hosts during a March visit to Santo Domingo (see also LN-7). New studios and offices have been built on the 4th floor of the RTVD building, but some electronics remains to be installed. A staff has been gathered, including Rufo Ayala, an Argentine gentleman formerly with the VOK, who has already written a number of programs ready to be produced; and Victoria ---, English-speaking secretary. The IS will be at 2300-0200 GMT nightly, mostly in Spanish at first, but with some English newscasts and segments in DX program, on 9505 kHz. Veras hopes to get the antenna modified from omni to favor North America. Recent reception reports are being held for the arrival from the printer of a new QSL card in the near future (gh)

ECUADOR It is expected that during the J79 and S79 seasons testing will take place with a 500 kW unit (Roger Stubbe, HGJB, M79 sked)

GERMANY WEST DPA reported 19/2 that the DLF staff, formerly scattered in various parts of Cologne, had moved into a new broadcasting house with 5800 m² of office space and 8600 m² for technical facilities. DW staff are also due to move into an adjoining building 10/1980. Both organizations will jointly run certain facilities, such as data processing, power (BECMS 1/3)

GHANA GEC Ghana QSL recently included this note: "For technical reasons, regular external service transmissions on all frequencies, except 6130 kHz, have been suspended until further notice". (David L. Labossiere, Enfield CT, 1/3) Confirming long-standing situation (gh)

INDIA AIR reported 24/2 that the govt was considering including in its WARC submissions the AIR proposal to use the LW band for broadcasting in India. GE said one longwave fq could cover the whole of India giving a better and clearer service. AIR research had established that LW was entirely feasible in tropical countries, and per its GE, AIR had created an awareness of the possibilities of LWBC among the Asian & African broadcasters (BEC MS 1/3)

ISRAEL IBA reported 7/2 that the Govt had undertaken to resolve the problem of radio transmissions to Jews living abroad within the next five weeks. A commitment to this effect was given to the Knesset immigration committee by the Education Minister. He said a solution would be found either within the framework of the present broadcasting authority or thru some other means. Commencement of the broadcasts had been held up for five years because of a dispute with IBA's sound engineers over the question of night work conditions (BEC MS 15/2) This refers to the proposal to have English and other language transmissions during the Nam 'prime time' between 2300-0500 GMT, now silent (gh) It is planned to add Hebrew news at 1300 GMT on ES xtrs carrying the 1200-1300 EG & FR programs (Larry Magne, PA)

MALTA At the conference of the signatories of the Helsinki agreements on security cooperation in Europe--an east/west group--to discuss the strategic future of the Mediterranean, "Malta will propose the creation of a Mediterranean radio station of the Mediterranean Institute of an international school" (SRI Dateline 13/2 via Tom Blossom, OH) **NEW HEBRIDES/PNG LN13**

UKOGBANI R. Voice of Islam is brainchild of Mohammed Iktal Zachariah, a wealthy Arab businessman in London, who made a fortune selling Islamic records and cassettes. The station is to be privately financed without government involvement. It will have news with 'a fair amount of impartiality' and would present Islam in a positive way in a number of languages including English. "London may be the transmission base" (BEC Report on Religion 7/2 via Joe Tangredi, NV, March REVIEW OF INTERNATIONAL BROADCASTING)

USA/USSR/GERMANY WEST/SPAIN/PORTUGAL A dispute between the Russians and RFE/RL, concerning the 1980 Moscow olympics, has resulted in a delay in the procedure to accredit RFE/RL, so that they may cover the games. The Russians have failed to respond to three USOC cables regarding the dispute, because American electronic accreditation has not yet opened, and it is presumed the USSR has not decided how to handle the RFE/RL requests (from Kenneth Reich, LA Times 23/2, via Terry Concannon, Whittier CA)

DX PROGRAMS ARGENTINA LR3 R. Belgrano will broadcast on SW 6090 and 11780 a DX program to be prepared by Mario J. Safler and Nicolás Eramo on behalf of the Aconcagua DX Club of Mendoza, to be aired within the "QSL" pgn GMT Mons 0000-0100. Those desiring a QSL must address their reports to the 'Servicio QSL' of the station. Foreign expressing interest in the new service will receive souvenirs of Argentina and Belgrano (Nicolás Eramo, ADXCI Jan) Here is the schedule of LU5GBA for March-Oct 1979; Fridays on 3625 kHz at 0100-0300, repeated Saturdays an hour earlier; 0055 IS, 0100 ID, 0105 Boletín semanal del CBA, 0125 IS, ID, QTR local y GMT, 0130 Actividades CBA, 0140 Respondiendo al oyente, 0155 Reporte tiempo, tandas, etc. 0200 "Nuevo Tiempo en Radioafición", 0215 "CQ DX-istas" produced by MARPLA DX Club, 0230 Correspondencia CBA, 0245 Conociendo Nuestra Argentina, 0255 Fin Nuevo Tiempo, ID, 0300 sign off. This 'ham broadcasting station' has a staff of at least 7 licensed hams: LULABT, LU6BBM, LUBAFK, LUSAMH, LU2LHZ, LU9AIR, LU3AIV (MARPLA)

BELGIUM RTBF "DX-ORU" program by Paul Renard (in French) is sked Fri 1830-1900, Sun 1200-1230; frogs on LN-4 (via Guy Marcotte, March L'Onde)

BULGARIA (Gf Feb LN-10) The repetition of R. Sofia's pgn should read GMT Sun/Mon (gh)

CLANDESTINE (Gf Mar LN-13) R. Viking DX World was to return to the air as from Sun 4/3, in the Oscar Hansson Show at 0945 and weekly, on this 48mb pirate (RVDXW 13/2 via WDXC MM)

CANADA During April my deadline is one day earlier than usual for RCI DX news--Wednesday eve or Thu morn at latest for possible inclusion the following Sunday. If necessary, hot tips may be phoned prepaid between 0800 & 2330 ET to me at (615) 522-4497; or weekdays at WUOT, (615) 974-5375. I am certain to be there at 1300-1530 ET (gh)

DOMINICAN REPUBLIC Once RTVD's international service is activated there will be a weekly DX program in SP & EG, probably called "Caribe DX" GMT Thu 0030-0130 on 9505 and/or 5967. Among the contributors are to be a Spanish-speaking Finnish DXer, Simo S. Soininen; Ronald F. Schatz, Miami, on MW topics; and gh has been invited to contribute EG & SP talks alternating weekly. The material will be largely different from that contributed to other DX pgms (gh)

(Gf Jan LN-14) "Rincón DX-ista" is a 10-minute pgn on R. Antillas, 1120 kHz, Sundays during the "El hombre y la ciencia" program produced by Perlandro Delgado Vargas. It's not about ham radio, but about SW & MW DX, in terms designed to catch the attention of new enthusiasts (José Rhadames Cabrera, Sto. Domingo) I heard a tape of this pgn at the Sto. Domingo DX Club HQ at Juan Patricio Salas' place, and it was quite well done. Also, Radio y Técnica is a Dominican ham-radio oriented magazine in which the SDDX has a column (gh)

ECUADOR The sked for my Canadian reports on Jeff White's "Que Pasa" segment on DXPL has been changed--March, June, Sept, Dec (Lynn Campbell, Mississauga Ont., March CANDX "On the Air")

Our Unsaved Audience: We get many letters from unsaved listeners. The Japanese programs bring responses from large numbers of unsaved young people. This is also true of our English programs for DXers (Kasuo & Hisako Ozaki/Clayton & Helen Howard, Feb-Apr HJJB Radio Log)

JAPAN R. Japan will have a SP DX pgm in 1979 per anmt 30/12 (E.P. Povrzanic, MARPLA)

KOREA SOUTH Due to listener requests, R. Korea will begin a DX pgm in SP (KBS via RN Espacio DX-ista 24/3) A real DX pgm, not just a mailbag (REE DX 19/2 via Holmes, CO)

NEW ZEALAND RNZ SW are seeking 2-minute 'tape letters' from listeners overseas for inclusion in my Mailbox pgm (3rd Sun at 1015 on 6105). Object is to get some unusual items on listeners' cities, towns, hobbies, occupations, and distinctive local sounds (Tony King, Mar RIB)

SOUTH AFRICA R. RSA has two different FR "Coin DX" pgms--edition 1 Suns 0500; 0700, 1200, 1800, 2000; 2, Thu 0500, 0700, 1200, Fri 1800, 2000 (Pierre Dostie, L'Onde Mar)

TURKEY VOT DX Corner can now be hrd Thu very soon after *2130, 11955 best (Harry L. Hartsell Lompoc CA). Sked 2135 Mon/Thu/Sat; also at 1210 same days (gh)

UKRAINE R. Kiev's DX pgm is now on GMT Thu at 0045-0055 (Donald Ross, NJ, RIB) And 0315 (gh)

USA Am seriously considering starting an SWBC DX info net--a good way to disseminate fast breaking DX info. Help of other NASWA hams solicited (Al Mayer, WD9IRV, Box 321, Park Forest IL 60466)

LAST MINUTE ITEMS BANGLADESH RB M79 EG 0445-0515 on 21685 17890 15400; 1230-1300 now in Urdu 15340 11925 (via BBC MS 22/3)

✓ GRENADA R. Free Grenada has apparently activated a second more powerful xmt and expanded its NAm svcs with a cagey choice of new freqs to avoid QRM: 15045 at 1945-2245, 15370 at 2315-0100, 15105 at 0115-0230. 15105 was also announced in // when elsewhere, but impossible to tell with QRM. 15370 was last used in 1961, per WRTH (when it was WIBS), and 15045 is 3 x 5015. It might pay to check other old WIBS freqs; noted 26-27/3 (gh) more below

✓ HONDURAS Per Panamanian news agency AGEN, jesuit-owned R. Progreso was closed for ten days from 13/3 by the military govt as a 'warning to the stn to change its attitude'. The sanction was imposed because the stn allegedly engaged in political activities in its newscasts; 4920 (BBC MS 22/3)

✓ IRAN The news editor of NIRT was executed last week, and 75 employees of NIRT were fired for supporting the Shah during the revolution (VOA news via Steve Webster, GMS Telegram 19/3)

✓ NEW HEBRIDES Australia has given NH A\$1.2 million to upgrade the MW and HF BC services, including studio facilities and transmission equipment (Bruce Williams, March NZ DX Times)

✓ NICARAGUA Due to anticipated oil shortage, DST of GMT -5h was decreased in effect from 24/3 to 23/6, to fully exploit daylight hours, per R. Atlantico 16/3 (BBC MS 22/3)

✓ PAKISTAN Since 21/3, R. Pakistan slow EG to Eu 1100-1115 on 21655 ex-21625, //17665 (BBC MS)

✓ PAPUA NEW GUINEA R. West Sepik, Vanimo, is due to start regular BCs next Sept or Oct. The 3205 is tentatively allocated, final choice not yet made (John Campbell, R. Viking DXN 13/3)

✓ PORTUGAL RDP's spl pgm for workers abroad is now xmt'd by RARET, a.k.a. the RFE/RL site, in PT on 15125 Mon-Fri 1100-1300, Sat 0815-1745, 250 kW (Thomas Drescher, R. Viking DXN 13/3)

✓ GRENADA (more) At 0230* this full sked was given: to Jamaica/Canada/US 1200-1430 15045, 2315-0100 15370, 0115-0230 15105. To Eu/UK 1945-2110 15105, 2115-2245 15370 /this should be 15045--not much chance on 15370 at this hour with megawatts of Liberty & Jamming/. Also to Carib early morning and midday on 9550 (gh) Not on 15045 27/3 1330 but Peking was (gh)

✓ ISRAEL had all-night celebration xmsns 26/3 and 27/3 on usual SW freqs. Special holiday pgms are expected during regular EG xmsns at 2000, 2230, 1200 on 23-24/4 For Martyrs & Heroes Remembrance Day; 30/4-5/1 Remembrance Day for Israel's Fallen Soldiers; 1-2/5 Independence Day

✓ MEXICO Since 5/3 R. Mexico has a new pgm of domestic & int'l nx, "Teletipo" daily 0050-0105, exc. Suns; and on Sats also at 2310-2325 (BBC MS 15/3)

CLANDESTINE CRANNY R. Sandino Per R. Hogar, Panamá, 6/2, R. Sandino BCs morn & eve on 41m, and keeps moving to avoid detexion (BBC MS 15/2) Obs 5/3 and 6/3 on 7588 at 2330-0030 and 0500-0600, anti-Somoza, including instruction in use of M-1 rifle and the preparation of Molotov cocktails (BBC MS 8/3) Heard 14/3 on 7587, surprisingly strong signal, 0006 sub-ID as "Voz de la Liberación de Nicaragua" and playing a march already heard too often on RHC; anti-yanqui commentary, ran to 0053* after non-descript anthem (gh) In a 16/3 EG, R. Sandino said that from April power would be increased 12 times to improve reception, and span would be extended to 2100-0500 (BBC MS 22/3)

R. Abdala in its Jan 79 newspaper, accuses Castroites of having burned down the station, causing great damage. In the course of the story it admits that xmsns originated in the US. A comeback is promised, and contributions are invited to Agrupación Abdala, G.P.O. Box 1883, New York, NY 10001. ¡El Futuro Será Nuestro! (via Gervasio Luis García, Río Piedras PR)

La Voz de Cuba pgm is sked on these stns: R. Cenit, Ecuador 3350/4772 1830 M/T/W. R. San Miguel, Bolivia 3355v Thu 1030. R. Iris, Ecuador 3380 Sun 0900. R. El Mundo, Ecuador 4750.

Minería, Chile 9750 Sat 1830. REC Rhodesia daily exc Sun 1900-2000. Irregularly on VORC; R. Quillabamba, Peru; R. Santa Rosa, Peru; RTV Dominicana; R. Clarín; Emisoras Atalaya & Emisoras Gran Colombia, Ecuador (John Campbell, Mar DSWCI SWN) I assume John made sure all these times are GMT (gh)

R. Andacollo is a clandestine in northern Neuquén province, Argentina, broadcasting from the municipal building with donations from neighbors. It also blocks transmissions of the powerful Chilean R. Agricultura. With small means it serves an effective patriotic purpose (clipping in ADXCI Boletín DX) So probably on MW 570 kHz (gh)

R. Magallanes to Chile via Moscow, retimed twice recently from 0930 to 1030 (when on 17880, 17855, 17840, 17790, 15455, 15170, 12070) to 1130-1200 (BEC MS 8/3 and 15/3)

V. of Kurdistan (Arabic: "Huna Sawt al-Kurdistan") hrd 1445-1500* 15/3 in AR on 5990 (BECMS)

R. of the Patriots Persian-lang via Libya 1615-1645 last hrd 20/2; since then all channels previously used have carried Libyan domestic pgms (BEC MS1/3)

Voice of Palestine, Voice of the Palestine Revolution is on 1120 kHz at 0500-0700, 1100-1300, 1600-1800 (BEC MS 8/3 & 15/3) PLO pgs hrd hrd with overwhelmingly strong signal but with loud hum on 9/6/3; evidence points to a new relay from Iraq. Surprised this hasn't been reported elsewhere; watch out for Peking and Yemen clandestine also in Arabic nearby (L. Magne, Israel, Feb)

Democratic National Front Radio of the Yemen Arab Republic (Arabic: Idha'at al-Jabha al-Wataniyah ad-Dimuqratiyah fi al-Jumhuriyah al-'Arabiyyah al-Yamaniyyah) first obs 5/3 on 6005, to 1600* announcing return next day at 1500, hostile to present Sana'a govt (BEC MS 8/3) An Arabic newspaper in London reported from Beirut 22/2 that the Fatah Movement has established a stn in the PDR of Yemen to start operating 1/3 (BEC MS 1/3)

R. Freedom from South Yemen obs 25/2 with increased eve xmsn by 30 min to 1630-2000 on 9955 and 5345, Arabic also at 1130-1430 (BEC MS 1/3)

V. of the Liberation Fronts of West Somalia and Abo via R. Mogadishu on 9585 is in Oromo (Galla) at 0900-0930 & 2000-2030; Somali 0930-1000 & 1930-2000; Arabic 2030-2100 (BEC MS 3/79)

R. Kulmis, Voice of the Front for the Redemption of Somalia, via V. of Revolutionary Ethiopia xmsrs, first noted 8/2 on 9590 1900-2000 with inaugural broadcast, claimed to be mobile; called for holy war against regime of the "anti-Islam gangsters" of Siyad Barre (BEC MS 15/2) As of 21/2 retimed to 1800-1900 and said was also on 41m (BEC MS 22/2) 9595 and 7235 (BECMS 1/3) 14/3 claimed it was being jammed by Somali govt and said would vary plus/minus 5 kHz (BEC MS 22/3) Operated by Le Front de Salut Somalien; announcer is Mustafa Haaaji Nuur, former R. Mogadishu announcer (Le Monde, via Bernard Chenal, France, SCDX 6/3)

Revolutionary Voice of Zimbabwe was annnc'd by VORE to be retimed as of 21/2 to 1900 instead of 1800, on 9615 (BEC MS 22/2) Coinciding with retiming of R. Kulmis, above (gh)

A Voz de Africa Livre via Rhodesia 1020 kHz 1630-1730 is now claimed by "Resistência Nacional Moçambicana". Its nominal hero is the assassinated first president of FRELIMO, Eduardo Mondlane, whose social aims it accuses the govt of having discarded (John Campbell, DSWCI SWN)

United Nations Anti-Apartheid Program On 10/2 FRCN Nigeria tests on 15120 included "UN Radio from Lagos" 0840-0855 in EG, 0855-0906 in Afrikaans. In a Cairo meeting 5/2 African liberation movement heads called for more broadcasts to S/Af, and from closer sites. Possibilities of cooperation between UN and Egypt were also discussed (BEC MS 15/2)

Voice of the Malayan Revolution per anmt from 1/3 the 2200-2245 in Malay will switch from 31 to 19m. That is from 9620 to 15790. This probably applies to other xmsns too (BEC MS 1/3)

Voice of Democratic Kampuchea via R. Peking facilities, has some peculiarities in format: opening always accompanied by theme mx w/ID & sked annt in the 2300, 0400, 1500 xmsns, but without ID or sked annt in the 1200. The 0400 & 1200 close w/out any mx; 1500 closes with an instrumental version of National Anthem; 2300 choral NA. In the 1200 xmsn IDs are given in the course of the pgs (Isac Uguza, NPFDXR 2/3)

Eight-One (std. Chinese: Ba Yi) On 10/3 V. of Vietnam DS claimed it had monitored a stn in China of this name at 1300 the day before in the 19m band. In this nxcast and in EG to SEAs, VOV stated that the stn operated by the Chinese PLA was broadcasting material opposed to China's actions regarding Vietnam. Despite a thorough search, the existence of Radio "8-1" --which means 1 August, the symbol of the PLA--has not been confirmed (BEC MS 15/3)

R. Voice of the Revolutionary Party for Reunification was hrd 15/2 on 4109 kHz at 1404 in EG twice concluding ID with location as "Seoul, South Korea". The first reference, to my knowledge, of its QTH as Seoul. Were we wrong in assuming it was in N. Korea? (George J. Poppin, San Francisco CA) Not necessarily! (gh)

Congo-Brazzaville and Zambia broadcasts of various liberation programmes for southern Africa now seem to have stopped (Vaclav Kofinek, RSA, Mar DSWCI SW News)

R. Liberation, 7425, appears to be somewhere in the SE USA in contrast to the Minnesota hot-bed. "Guy Wire" indicates they may try some broadcasts to LA; latest 'sked' seems to be GMT Sun only from 0200 opening with variable speed music box "Oh, What a Beautiful Morning". Offering pennants first for a financial contribution; then for those sending in a taped reception report via S. David Klein, 1225 S.W. 1 Ave., Apt. 401, Gainesville FL 32601 (gh)

Voice of the Voyageur is apparently off for good, since the FCC is now taking actions to revoke Mike Martin's General Ham and Radiotelephone operator's licenses (Steven Shaffer, IN, 18/3) Martin is also allegedly under prosecution for 'blue-boxing' the phone co (CMS Telegram)

Voice of Venus Scott called me 2/3 and tried a test on 6990, not audible. Pls call again (Dave Twigg, Bristol CT) Sun 4/3 on 21510 USB 2125-2147*; wants to use 21 MHz more often (Gerry Bishop, PA) a.k.a. "Voice of the Northern Prairie", hrd 15/2 0230 on 7465 USB, 19/2 with tape of Hindenburg disaster, very good on 7460 USB; 25/2 0245 on 21510 SSB to west coast w/82 but readable signal. "Fred Charles" of the FCC called in early March, waking me up at midnight. Said they had just caught VOV and wanted to know what I had to do with them. It seems my name was in their log book. In an ominous voice he added "They'll never broadcast again". (Fred Schumacher, Kindred ND) That sounds like a phoney call, not from the FCC; and I've had a report that VOV was heard again on 21/3. An address is via Darren Leno, 309 Valley Ave., Morehead MN 56560 (gh)

"KDHF" or its phonetic equivalent finally an ID caught from the pirate on 6420a, 8/3 0702* after a long string of various types of mx. He has been heard sporadically here with good signals. So. Cal. DXers seem to think he is there judging from strength (Bill Harms, UT) "KVHF" hrd on 6420 GMT Sat 17/3 0410 "From coast to coast this is KVHF" and "When the hits come out in the evening, this is KVHF". Hrd twice before with no ID, both times on a weekend --and at 0541* no annt (Rick Novak, Walnut Creek CA) See also MEXICO, LN-8 April

"KDOR" 830, Los Angeles. I've had an unconfirmed report that this has been busted--and that it was a pirate like all the rest, despite claims of legitimacy (gh)

"WJAM" hrd on apx 28120 in ham band, pop mx, hard rock. Many annts, power as 100 mw but sounded like much more; several Sats around 2300-0100; possibly in northern CT (D. Twigg, CT)

"WEKQ" (cf Mar LN-10) is in Rockaway, Queens, near JFK airport, 40 W, operated by a husband and wife team, Chris Christy and Kevin Scott (Harry Helms, Dallas TX)

"WNCJ" (cf Mar LN-10) is not active; only operated briefly for tests; but there is a pirate active on Staten Island, WISI on 108.5 FM (Harry Helms, Dallas TX)

"WUPQ" Rumors are rampant that a new pirate is planned for 9485 kHz (Harry Helms, Dallas TX)

NYC pirates were off the air in early March due to a NY Times article saying authorities were patrolling the city on weekends with DF gear in an attempt to locate unlicensed broadcasters. Sources within the NYC pirate scene promise the various stations will return as soon as the heat dies down a bit (Harry Helms, Dallas TX)

"WBLO" on 18/2 at 0945 on about 1640 kHz, heard this, weak but readable. Fellow was English, played space mx, talked about ham radio, but every other word he was saying was "-----" (Don Coco, Rochester NH) The word is the call letters, backward, of a former projected Kansas City UHF TV station which Ed Shaw would take great exception to printing despite his naivness (gh)

"WCEN", manned by Colonia High School graduates in their mid-20s, in Woodbridge NJ, has gone off the air after nine years of operation. The FCC never busted them, but the 1000-watt hand built transmitter has been sold and is en route to licensed use in Haiti. There goes the 'evidence'. The station's enthusiastic audience will be missing "Wolfman Bruce", Rick (the mastermind), Lou and Bobby (from a much longer article in the Woodbridge News-Tribune, 6/12/78, via Allen L. Nissen, NRC DX News)

3850-3900 kHz activity has been increasing--about 5 pirates heard in the last month. Most recently, rock mx around 0030 on 3865 GMT 19/2; no announcer hrd; sounded like coming from someplace in the Midwest (Roy Peterkofsky, Rockville MD)

R. Fres Ontario Canada has never had many pirates despite the fact that the local authorities don't worry too much when one appears. "It cost us too much to run them in", per one official. Now, Tim Smith in Toronto has been hearing RFO on several fqs between 23290 and 23590, 5 watts, probably a modified CB rig, irregularly 2300-2345. Mostly mx with few annts; they also give out a loop phone number (CMS Telegram 19/3)

MI Amigo (cf Mar LN-9) did not sink. After it was abandoned, crew returned the next day, got the pumps working again and got most of the water out; it had been up to the turntables in the studio, but not in the mxtr room. So they hope to get back on the air (DSWCI, RVDXW)

R. Condor International (cf Mar LN-9) testing to ENAM on 11463 4/2, 11/2, 18/2, seems every Sunday 1430-1700. QRA is 53, Charleston Rd, Dublin 6. 80 watts; IDs as "Irish Broadcasting Corporation" (Mike Barraclough, England, WDXC Mid-Monther) Also Sundays at 1000-1400 on 11463, and hrd around 2000 on 6240 (Michael Burden, RVDXW; Paul Karagiannis, SGDX 6/3)

R. Enoch, The Voice of the People Against Marxism, attacks the British Labor Party and trade unions, hrd 11/2 around 1100 in SSB on 6246. Probably will be on one Sun morn monthly. It takes pains to point out that it opposes the extremist National Front (John Campbell, DSWCI)

VOICE OF INDONESIA
THE OVERSEAS SERVICE OF
RADIO REPUBLIC INDONESIA

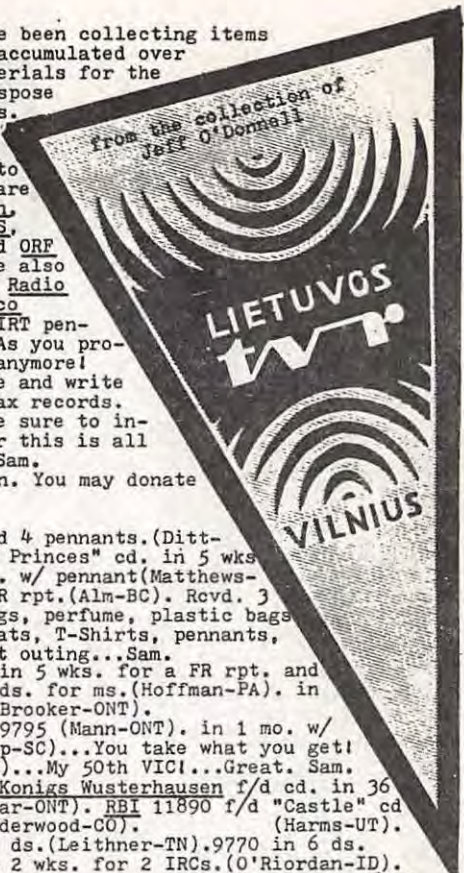

NEXT MONTH:
We will have a very special issue illustrating many pre 1950 QSLs from the collection of Syd Osterman.

REMEMBER:
NASWA QSL Column report forms are available from your QSL Editor for an SASE.

EARLY HAP-NEADKO AUCTION:

As most of our members know, I have been collecting items for our next outing in Sept. We have accumulated over 5000 pennants, stickers and other materials for the HAP Auction. There is no way I can dispose of such an amount in a few short hours. From time to time in this column, I will offer specific items for sale. All monies collected will be donated to the HAP Fund. The following stickers are available for \$.25 each...Radio London, Sender Freies Berlin, CKNW, WDGY, RIAS, Radio Vatican, WHAL, Radio France, and ORF in English. The following pennants are also available...Radio Vatican (\$1.00) and Radio Belgium (\$1.00) along with Radio Mexico the NIRT in Iran at \$2.00 each. The NIRT pennant was pictured in the last issue. As you probably realize, they don't make these anymore! Make all checks payable directly to me and write HAP donation at the bottom for your tax records. Only one of each item per customer. Be sure to include a SASE with your order. Remember this is all for a very good cause in our hobby...Sam. The above prices are only a suggestion. You may donate more to HAP if you desire...Sam.

- FRANCE: RFI 21620 w/ cd. in 39 ds. and 4 pennants. (Ditt-rich-FL). 21580 w/ f/d "LeParc des Princes" cd. in 5 wks. for 1 IRC. YUGOSLAVIA: Radio Beograd 9620 f/d folder cd. in 4 mo. and 2 IRCs. (Golden-IL). same in 102 ds. (Hensley-TX). 15240 w/ f/d "Ohrid Castle" cd. in 89 ds. for ms. My VIC #1001!!! (Wala-CA). same in 3 mo. (O'Riordan-ID).
ZANZIBAR: Radio Tanzania Zanzibar 3339 f/d prepared cd. in 90 ds. after a follow up for a 1975 reception. Station says that they do not broadcast on 3339 anymore... only on 6005. Mint stamps were sent. (Gavaras-MN)... Thanks for the telephone call on this one Tom. Its a real beauty!!! Sam. If anyone wants to call with last minute QSL info the number is 274-1142.

VERIFICATION TECHNIQUES Publication:

I would like to thank the 100s of people who purchased this publication during the past year. The great majority of you wrote back to say that you enjoyed the publication immensely. Many people stated that they implemented some of the QSL techniques and methods with great results!

I would now like to announce that this publication has been completely revised. The main section contains 42 pages and over 160 illustrations. The supplemental section on verifying the Soviets contains 20 pages and over 65 illustrations. The entire publication has been professionally typed and single spaced. I'm sure that the VERIFICATION TECHNIQUES article will help many of our members, especially the newcomers to the hobby, to increase their QSL collections. Due to the increased number of pages and printing costs, I must raise the price of the publication by \$.50 to \$3.00. Your copy can be ordered directly from your NASWA QSL Editor.

Verification Signers: Radio Bucaramanga 4845 Luz Stella Jaimes, Secretaria. Radio Barcelona 3385 Ruffo Jose Vivas, Director. La Cruz del Sur 4875 Jose Caballero Montano. Radio Sociedade Feira de Santana 4865 Maria Luisa Caponi. Radio Londrina 4815 Cesar Augusto Comes. Radio Universidad de Costa Rica 6097 Tasies Solis. La Voz de Nahuala 3360 Juan Fidel Leppe Juarez. Radio Tropical 9710 Juan Pablo Mori. Radio Libertad Sport 6045 Jorge Dubilo... Via PLAY DX and Dario Monferini... Sam.

This month we had @ 105 countries that were reported. We are starting to pick up our country totals once again. Keep up the great reporting. As always, NASWA tries to give you, our members, the finest in QSL reports and illustrations..... Next month I will be offering many more stickers, decals and pennants for the NEADXX-HAP and for your contributions. Since I seem to have a little more space available now I will also offer the following stickers and decals for a minimum of \$.25 each: KXEL, WDRC, WMNI, 120, 32M, 22A, Radio Northland, Radio Belgium, Radio New Zealand, Radio Bremen and Canadian Forces Europe. The following pennants are available for a minimum of \$1.00 each: Radio Budapest, Radio Australia, Radio Berlin International and Deutschlandfunk. These are available for @ \$2.00 each: Voice of Vietnam, CKWX (main station of CKPX-6080) and Radio Argentina. Next month we will have many more and several "bid" items on some very fine articles submitted by radio stations throughout the world. In this month's QSL Column we have offered a total of 20 stickers and decals from different stations and 11 pennants from all over the world. This is just a drop in the bucket. Next month there will be many, many more. If you want any of the above items on a first come first served basis. If I run out of a specific item, your money will be returned. Until next month..... Sam. **SB**

update

April 1979 *** Number 41

Tom Alleman
615 W. 43rd Terr., Apt. 6
Kansas City, MO 64111 USA

(816) 931-5943 0030-0400 GMT only!!!

UPCOMING DEADLINES: 12 April (Mid-April) 23 April (May) 10 May (Mid-May)

Reproduction permitted provided credit is given original reporter and NASWA UPDATE. Dates, times, and days are GMT; freqs are kHz.

AFGHANISTAN Kabul, 4775, tentative at 0145; call to prayer, talk by M and possible ID; then folk mx. Bad het and quick fade around 0200 prevented ID. Also noted in EG w/ ID and start of nx on 11890 at 1900. Quickly covered by jammer. (Chris Lobdell, MA) *** welcome, welcome. tba

ALGERIA (Clandestine) LV de la Resistencia Chilena, 7425, in SP 0004-0036* nightly at good level. (Terry Krueger, FL) *** px details please. tba

ARGENTINA R. Rivadavia, 5882, in SP 0128-33; talks by M&W and fast vocals. (Cartwright, PA 3-17)

AUSTRIA ORF, 9770, in EG 0330; "Shortwave Panorama." (Ruth Vollrath, MO)

BOLIVIA R. Grigota, 4823, in SP 0125-0201*; mostly SP pops and r&r selections, but a couple of ballads too. M in every 15 mins., and ID 0146. Closing annmcts 0200. Bad voice modulation. (Moritz, OH 3-12) +++ R. Stentor, 6094, now here and in the clear at *1015 3-20; other days around 1000. Often has sound of car accelerating. (Jerry Beg, MA)

BRAZIL R. Cl. de Varginha, 3245, tentatively in PT 0025-0105; M w/ talk at t/in, and possible ID 0026, but very noisy. W followed w/ presumed ads, then into dinner hour mx, e.g., a stringy version of "My Sweet Lord". Almost straight mx w/ an occasional word by M every 15 minutes or so. Not very good sig to begin with due to QRN and UTE problems began 0055. (Moritz, OH 3-14) +++ R. Cultura, 3365, tentatively 0040-0102; mixture of PT and U.S. pops; e.g., "La Freak" and "YMCA". M&W annrcs, but suspect that W was taped. Difficult to tell because of QRN. Could not get ID but this is presumed. (Moritz, OH 3-19) +++ Rdf Teresina, 4835, in PT 1005; M w/ long talk, positive ID, ands and local mx. (Stu Klein, FLA 3-6) +++ Many reporters wrote in w/ nx that R. Nac. Brasil has returned to SW in EG. Noted on 15280 after 0200 11 March, RNB's beast is called a 90 day test tx. I'ded as "R. Nac. of Brasilia, Brasil" and gave "RadioBras" as a network ID. Seeking reports to RadioBras International Correspondence Ser., Box 04-0340, Ed. Venancio 2000, First Floor, 70323 Brasilia, Fed. Dist. Brasil. (Brett Saylor, Dan Morrisseau, Ruth Vollrath, Jim Conrad, Cartwright, Robert Woods, Buras, and tba)

BULGARIA Stolnik, 7670 in poss Albanian 0429-0448. IS, *0430, ID and into lang. Relays RS service. (Cartwright, PA 3-17) +++ Sofia, 11920, in EG 2150-2200; local mx w/ talks by M&W. Weak but audible. (J. Findlater, CAL; 3-11)

CANADA CFVP, 6030, in EG 0730-0855 16 and 17 March; pop mx to 0800, nx 0800 w/ ID as "CFCN nx" at 0803. Then back to mx Frequent IDs and TCs. Covered by RJapan carrier at 0855. (Bob Rankin, KS) +++ CFRX, 6070, in EG 2000-2030; pop and county mx, and IDs. (Bob Micciche, NY)

CHINA Xining, Qinghai, 6260, is still audible daily around local sunset, 2345-0015. CH talk to 2358, mx and ID at 2359: "Qinghai ren min guangbo dential." Pips and more talks. This is an unvarying format. Q is pronounced ch, as "chip", E like u in "run." (Bob Rankin, KS) +++ Cland V of Dem Kampuchea, 11600, in lang 1158-1205; anthem, talk, and childrens choir. ID 1204. (Cartwright, PA 3-17)

CHILE R. Univ deconcepcion, 6135, in EG 1102; ID by W, requested reports. Then chorus and into SP. (Jack Jones, MISS)

CLANDESTINE Per BBCMS tip via Glenn Hauser on RCI, R. Sandino heard on 7587 3-16 2300-0000. Fairly good sigs but UTE QRN on the low side. Talks and mx, IDs as "Aqui R. Sandino, La Voz de la Liberacion de Nicaragua, transmitiendo de la ciudad _____ (sounds like TELL-ee, but not Esteli) una transmision electronica. . . en la banda internacional de 40 metros. (Berg, MASS)

COLOMBIA LV de Caqueta, 5035, in SP 1027; ID and latin pops. (Jones, MISS 3-14)

ECUADOR LV del Napo, 3281, in SP 1028; pops, TC and possible ID but too much slop to be sure. (Lobdell, MASS) +++R. Rio Amazonas, 4870, in SP 0217 w/ usual stuff. (Lobdell, MASS)

ETHIOPIA VoRE, 7110, in lang 0354-0419; AR type mx, IS march, ID 0400. (Cartwright, PA)

FR. GULANA FR3 Cayenne, 3385, w/ EG pop and FR closing annmcts, NA and off 0303*. (Lobdell, MASS)

GERMANY (FED REP) Bayerischer Rundfunk, 6085, in GM 0559; gong, ID and into talks. (Klein, FLA)

GRENADA Radio Free Grenada, 15370, at *2328. Pops, EG nx about revolution, statements, policies, kudos. Then international nx, bingo numbers and more pops. (Zilmer, WI) --- RFG also noted on 15105, 2037-2053, w/ cricket comment, Colgate toothpaste ad, ID, and more cricket. Seems like a very quiet revolution to me. (Syd Osterman, ONT) ***Silencers. tba*** From Larry Magne via Dave Walcutt comes word that RFG is using 15045 and 15105 during the 2200a-2300a period. tba

GUATEMALA TGNA, 3300, in EG 0310; "Back to the Bible". (Vollrath, MO) +++ R. Tolutlan, 4835, at *1100, apparently their new s/on time; for those of you who weren't home at 1200, here's your chance to get 'em. (Klein, FLA) +++ R. Nacional, 6180, in SP *1100. NA by kids' chorus, ID, "TGW, R. Nacional, Emis del Pueblo," and "emis. pilota". Then calls, sites of other stns in the net. (Jones, MISS 3-15)--- R. Nac. also noted 0601-0603* in SP; TC, chimes, LV del Pueblo ID and NA. Fair. (Lobdell, MASS)

GUYANA Action R., 5950, at *0745; uninterrupted guitar mx, ID by M, 0755, freqs, m.b.s., then religious talks and mx. (Klein, FLA) --- Action R. also noted 0850 in EG with ID, TC, and a talk on farming and cattle. (Jones, MISS) --- Action R. also noted 0812-0835 in EG and some Hindi. Birthday greetings by DJ, Hindi mx and EG pops. TCs and local chatter. Good. (Osterman, ONT 3-21)

HONDURAS R. Lux, 4890, in SP 0139-58; Pop mx, "Musica con la Juventud". 0158* (Cartwright, PA)

INDONESIA Ujung Pandang, 4719 // 4753, Ambon 4845, and Sorong, 4875, all noted w/ SCI 1159, pips and Jakarta nx. (Klein, FLA) +++ VoI, 11790, in EG, 1418-31, jazz and local mx, M&W anncrs, and ID 1430. (Cartwright, PA)

ISRAEL IBA on continuously during Knesset debate on peace treaty w/ Egypt. Good sigs on 11635, 15585, and 17630 at 0000. 17640 noted w/ poor sigs to 0002*. Others to after 0200. (Zilmer, WI)

JAPAN NSB, 3925, in JP 0842-46; W anncr, seeming // weaker 3945. (Cartwright, PA 3-17)

KUWAIT KRS, 21545, *0500 in EG; pips, ID by W, anthem, px review and EG pops to nx at 0530. Weak but clear. (Lobdell, MASS)

LESOTHO LNBS, 4800, weak nu clear at 0426 under usual UTE. Lang talks and ID. (tba)

MALTA IBRA Radio/ Radio Mediterran, 9530, in EG 2109-15*; religious talk & mx, ID and site to 2115*. (Vlad Cucura, 3-19)

MEXICO XEU Vera Cruz, in SP 1144 on 6020; first noted 3-18 ranchera mx, many IDs, "XEU de Vera Cruz, Oro". Ads, TCs, too. *1130 19 March w/ band mx, freq and power, no mention of SW. Listed as 250 w but seems like more. Also *1130 20 March. (Jones, MISS 3-18) ***tnx for the call.

MISCELLANEOUS During geomagnetic storm 3-11, both ZUO and MSF heard of 5000 at 0000-0100, w/ WWV in background. ID and time for ZUO every 5 minutes, but sometimes time only; ID from MSW every 10 minutes. Not SWBC but interesting. (Berg, MASS)

NEW BRITAIN RENB, 3385, in lang 1135; possible ID, island and local mx. Good ID 1145. (Klein, FL)

NEW CALEDONIA FR 3 Noumea, 3355, in FR 1050; pops, talk between M & W // 7170 (Lobdell, MA)

*** Did you get ID ??? tba

NIGER ORTN, 3260, in FR, 0600-26; excellent w/ ID, nx and local mx. // 5020 (Krueger, FL)

NIGERIA Benin City, 4932, 2238-2305*; EG talk, vern songs, drums and pop song in EG. Short nx pgm 2300 not // 4990. No mention of FRC at s/off, just Nigeria and Benin. (Osterman, ONT 3-15)

+++ Lagos, 15120, in EG 0730-0800; nx and Afr mx. (Micciche, NY)

NORWAY RN, 17797, in EG 2200; "Norway This Week." (Vollrath, MO)

PAKISTAN RP info via Bob Zilmer: 17765 at 1100-1115* e/ EG comment. Effective 23 March // 21655. Dictation speed EG. 17640 at *1327; IS to 1330, lang ID, talk and mx. Fair and // 21485. 21485 at *1212 w/ IS to 1215, lang talk and mx to 1300. Then at 1327 s/on to 1500 and beyond. Finland came on at 1430 11 March causing usual mess, but RF has moved down 10 kHz, clearing this channel. 21740 NF at *1327; IS, ID 1330 and lang talk and mx. Poor but // 17640, 21485 (Zilmer, WI)

PERU R. Atlantida, 4790, in SP 0942; ID, TC, pop and Peruvian mx. (Jones, MISS 3-23) +++ R. Tropical, 4935, in SP 1052; ads, ID and many mentions of Tarapoto. (Jones, MISS 3-15) +++ R. Victoria, 6020, in SP 1050; light classical mx w/ interlude of canned Buenos Dias jingle. M w/ ID. (Klein, FL) --- R. Victoria also noted at 1055 3-16 w/ NA, Beethoven theme mx, and ID. (Jones, MISS) +++ R. Cosco, 6195, in SP 1026; ID string of ads, Peruvian mx. (Jones, MISS 3-23).

PHILIPPINES R. Veritas, 11955, in EG 1220; world nx by M, ID as "Radio Veritas Asia", and into lang px for Sri Lanka 1230. (Jones, MISS 3-18)

RHODESIA RBC, 3396, in EG 0410-20; pop mx, accented ads for cigars, etc. (Cartwright, PA) *** Did you hear ID??? tba

SAUDI ARABIA Riyadh, 4877a, presumed to be the one hrd 0324-0335; M in very nice AR chants to 0330. Then M anncr, prayers and more talks. Strong but not in every night. (Moritz, OH 3-15)

SICILY Caltanissetta, 7175, in IT *0454-0516; pips, IS, piano mx, muzak. (Cartwright, PA)

SOLOMON IS. SIBS noted on 5020 at 1116 3-18; local mx, pop and C&W tunes, M anncr w/ Australian accent. Also noted on 9545 at 0745 3-21; EG by M mentions of Solomons and Australia Much QRM from DW and VOA. (Osterman, ONT)

SWAZILAND Radio SR, 4980, 2211-2300* in EG; anncmts, ads, pop mx. Mentioned 1400 kHz at s/off, which might be new MW freq. No sign of Ghana. (Osterman, ONT)

URUGUAY El Espectador, 11835, in SP 0904-08; M in talk, several mentions of El Espectador. (Cartwright, PA 3-17)

USA (PIRATE) PRN Radio, 1620a, at 1015 3-11 taking calls off air on (212) 626-9906 and preparing for big b'cast after midnight. Still rpomises QSLs, including "low power" cards for those who heard early b'casts. (Berg, MA) +++ VoNorthern Plains, a new pirate, will b'cast on 21510 at 0000 1 April (don't know if GMT or local). VoVenus will appear on same date at 0415 on 6990 or 7460 USB. Received a QSL card from VoVenus the other day. (ED, NOTE: UPDATE does not act as an official QSL outlet or information service for any clandestine b'caster, and publication of this type of information should not be construed as showing my approval of such matters. tba)

VATICAN VR, 21485, in EG 1115-1130 w/ religious nx and comment. Repeated px at 1200. (Zilmer)

VENEZUELA R. Maturin, 5040, in SP *0900; NA, local anthem, M anncr w/ s/on proceedings and usual YV mx. (Klein) +++ R. Los Andes/1040, 6010, in SP 1052; TC, ads, pops ID. (Jones, MISS) +++ R. Rumbos, 9660, in SP *0900; NA, ID, calls, freqs, band mx, slogan, TC, and mx. (Jones, MISS)

OOPS: I have inadvertently made to misattributions during the past few issues. I recently attributed information of R. Liberation's Cuban pgm to Stu Klein, who tells me he didn't know anything about it. As I have lost the original source, I'll chalk it up to a reliable informant. Also, on Jim Conrad's recent report of AIR to NAM, I misstated that Jim was sure it was a test. He wasn't and I goofed. Sorry, gentlemen.

73, *Tom*

DAN ROBINSON

4437 Sedgwick St, N.W.
Washington, D.C. 20016
PH: (202) 686-1119

With the warmer weather comes less favorable conditions on the low frequency bands, but we will certainly benefit in the coming months from some excellent loggings from our reporters in Australia. This month, Mike Willis and Geoff

Cosier went on a DXpedition to Point Lonsdale, about 60 miles west of Melbourne, in the land Down Under. We also welcome a new reporter to IR-A, Kevin Meyer at the U.S. Embassy in Lima, Peru. I hope to hear more from Kevin in the coming months. . . Onward.....

- ***** L R A D X S P O T L I G H T *****
- * **VIETNAM** Ha Tuyen 4821: Sign on at 1130 on 1/13, and hrd past 1340, but not at 1400; still there 1/27 (Willis, Foster-AUS)
 - * **COLOMBIA** Radio Tamboral 4835: 0145-0210* SP; ballads and accordion music, IDs frequently as "... on Radio Tamboral..." Drum music at 0200, full ID 0205, sign off following NA (Pappas 2/13)
 - * **INDONESIA** RRI Wamena 4865: Hrd at 1000 with Jayapura mx at fair level; no sign of Brunei on the 10th of January (Willis, Foster-AUS)
 - * **HONDURAS** Radio Lux 4890: 0130-0142 SP, mainly disco, ID&TC "Radio Lux de Honduras" ... "Several mentions of Olanchito; gone when I returned at 0204 (McVicar 2/27)
- *****
- 1625 **USA PIRATES:** WEGG, New York 1000-1103* DJ named Kevin taking calls on loop; called stn and found that he knew Larry and WFAT, but wasn't connected with it; said was on the air because he felt like it (Saylor) What time was this???--DR/You say "that night" in report..DR PRN RADIO, location announced as "central Mass.." during tests; phone checks out to be Worcester, Mass; hrd 2/10, 17, 18, 26 with hosts Admrll Jolly Roger and Mr. Electricity...WLIE New York City, 0740-0900 w/pops and a few IDs..on 2/25 WFAT 0551 w/McCrea hosting phone-in... NICARAGUA, C. A.

LOGGINGS FOR THE NASWA LOG REPORT SECTIONS SHOULD BE SENT TO OUR DISTRIBUTION EDITOR: DAVE WALCUTT, 1521 RUPLAND #7, HOUSTON, TEXAS 77008

trick for brightening up ones day!!! Please, if at all possible, use the NASWA reporting forms. If you decide to use your own form, please double space between items, don't use onion paper (unless your outside of North America, but try to avoid if possible), and try to keep your report to within an inch or so. I received some reports up to 5 to 7 inches wide, which makes it very hard to work with when I have hundreds of pieces of paper scattered around the room.

Just a reminder that the Information and Registration forms are now ready for this summer's ANARC Convention (June 22-24). A lot of international broadcasters and noted DX-ers will be attending, and we hope to see you there also. For more information, send a large business size SASE to: Association of North American Radio Clubs, 1979 Convention Committee, P. O. Box 14161, Minneapolis, Minnesota 55414.

A lot of interesting items this month with more reports of the Voice of Venus, Radio Liberation and new pirate: KVHF. Also, a lot of reports of Laos, Mongolia, Ethiopia, and a possible time station in Hong Kong! On to the loggings..... *

- 6200v ALBANIA R. Tirana; 0350 English ID & program on Albanian youth (Prisco 2/25). 2240 talk in unidentified language with mention of Tirana (Blumberg 2/18) * I have the language listed as Italian (tgg) *
- 6206 LIBYAN WATERS Mebo Two Radio Ship; 0435 Arabic continuous chanting (Saylor 2/28).

- 7225** TUNISIA RPVT; 0459 African chants & mx with good level (Nikilich 3/6) *What language? (tgg)* 0700 Arabic talk & music (George 2/6, Saylor 2/27). 2329 Arabic(?) talk, chanting till National Anthem and s/off at 2335. (F. Osterman 1/28).
- 7240** AUSTRALIA R. Australia (Carnarvon); 1425 English news & cntry about fishing (Johnson)
- 7262** MONGOLIA R. Ulan Bator; Good level s/off 1050 after presenting a HS program//4995 kHz. This station does not appear here from 1300 to 1500. (Willis, Foster). tent: 0907 Mongolian talk with no music (Brookwell 1/21).
- 7265** GERMANY (WEST) Sudwestfunk; 0715 German talk and vocal music (Klein, Saylor).
- 7270** POLAND Polish Radio; *0200 English news//6095, 9575, 11816, 15120 kHz, 0639-0700* English talk about Polish airlines and Polish music//9675 (Cucura 2/28).
- 7270** GABON RTV Gabonaise; 0740 French ID and lovely local music program (Klein 2/3).
- 7295** MALAYSIA R. Malaysia; 1606 Language with country & pop music (Poppin 3/4).
- 7300** USSR R. Moscow; 0850 Japanese ID and talking (Brookwell 2/2).
- 7320** USSR R. Kiev; 0300 English DX Program and cntry (Prath, Abbey, Saltmarsh).
- 7345** CZECHOSLOVAKIA R. Prague; 0125 English ID, folk music and talk about kids born with heart defects (Boik, Swanson 2/19). *0300-0357* English news & topic of day (Springer).
- 7350** CLANDESTINE V. of the Kampuchean People; 1200-1300 Heard on 1/15, and still on there 1/27. This one could be located in either Hue or the Tay Ninh province, Vietnam. (Willis, Foster).
- 7375t** VIETNAM VOV (Hanoi); 1250 Vietnamese music with poor signal (Robins 2/24).
- 7380** CHINA R. Peking; 0841 Chinese talk and music for dance class//7770 (Brookwell 1/21).
- 7383** LAOS National Radio (Savannakhet); 1235-1315 Laotian on 1/14 & 1/27 (Willis, Foster).
- 7400** BOOTLEG: USA Voice of Venus (Minnesota?); 0203 English announcer talking, followed by Tonto and the record "Love is not always on time." At 0205 they went off the air. (Swanson 2/14).
- 7410** BOOTLEG: USA Voice of Venus; 0245 English. I just got the end of the program "You've been tuned into the VOV, this is Scitt Wild, your announcer. (Koelble 2/16).
- 7412** ISRAEL IBA; *2230-2300* English ID, news, Calling All Listeners (J. Williams, Fraser).
- 7420** CHINA R. Peking; 1220 English cntry about war between China & Vietnam (Swanson 2/17).
- 7420** UNIDENTIFIED; Possible Radio Arthur or Radio Liberation. 0725-0740 with OM singing French anthem-not with words though-he just went "whuu whuu" instead. Some tx & mx afterward. Very poor (McVicar 2/24).
- 7420** USSR R. Minsk; 2133 Belorussian talk and Russian music. MAYAK at 2200 (Valko, Saylor).
- 7420** NUMBER STATION; 0332 German numbers by woman over station w/classical mx (Marker 2/15).
- 7425** BOOTLEG: USA R. Liberation; Noted 2/19 opening at 0248 with "O, What a Beautiful Morning" on music box IS at various speeds, s/on 0253 with Jimi Hendrix's version of the national anthem, 0259 "Pol Pot Exile Show"; off at 0324 with "Deutschland Ueber Alles." Good signal but sometimes an overmodulation problem. Claims to transmit from the "arid marshlands of putrid Louisiana," but I think it's in Florida. Seems to operate intermittently around 0130-0430 GMT Sundays and Mondays. (Hauser). 0347-0545 tuned in to hear George Carlin album. ID, played music by Klatu. At 0500 he played the MAYAK IS & ID was followed by heavy rock music. At 0512 he played "The Rain is coming" (Sierra Leone's s/on music) as well as other stuff from RCI/HAP ID & Interval

- RADIO LIBERATION CONTINUED:** signal tapes. Signal was generally good, but a bit fluttery! If you're out there, please send us each a QSL! Our address is Richard McVicar & Martin Bordt, Box 1048, Prescott, Ontario, Canada KOE 1T0.) 0225 English w/IS, ID as Voice of the American Liberation Army, into Jimi Hendrix NA. (Klein 2/12).
* Hey you guys at Radio Liberation! Next time you plug your transmitter in, would you please give me a call (collect is OK) at 612-255-4321 (weekdays) or 612-473-4515 (occasional weekends). Thanks! (tgg) *
- 7460** BOOTLEG: USA Voice of Venus; *0231 English after call from Scott. Playing pop songs and said they were broadcasting from the Minneapolis area. Strong. Calls themselves Minnesota Pirate Radio System. (Schumacher 2/15, 2/19). 0300 Guitar s/on (anything like the V. of Voyager?(tgg)) followed by announcement: "This is the Voice of Venus Broadcasting from Minnesota. Upper side band. (Swanson 2/12).
- 7488** BOOTLEG: USA Voice of Venus; 15 year old Scott Wyllid phoned me 2/10 proposing to test on 14510 kHz, but this was above the MUF, so he tried 7488 SSB instead. Was weakly audible there from 0615 to 0641* in "Special Broadcast for Glenn Hauser in Knoxville, TN, who is in no way associated with this station." Gave location as Minneapolis, and at 0628 more specifically as "in Bloomington County on Lake Street." Opened with "Nothin' But a Heartache"; 0621 gave power as 170 watts. SIO 222 Heavy UTE QRM. 0623 mentioned DJ friend who had died a few days ago in an auto accident. At 0623 announcement that people born between 1952 and 1962 had been recalled, except for those born in 1959. Minnesota Pirate Radio Service. At 0636 described antenna as "sloping dipole," 0639 as inverted L at 60 feet; off at 0641. (Hauser). * I would also very much like to talk to you, neighbor (?). Please give me a call. My phone numbers are listed towards the top of this page! Thanks much! (tgg). *
- 7504** CHINA CPBS HS-1; 2355 weakly w/CH oration by woman. CW QRM (Robins 2/15).
- 7660** CHINA R. Peking; 2350 Chinese or lang program by woman. Fair (Robins 2/15).
- 7770** CHINA R. Peking; 0825 Chinese talking //7380 kHz (Brookwell 1/21).
- 7925** USSR R. Moscow; *2300 ID, English news. Very poor SSB. CQ Interference (Fraser 2/6).
- 8000** JAPAN JG2AE Time Station; 0800 Morse Code & EG Voice ID by lady as "JYJ" (Underdown).
- 8007** CHINA CPBS HS-2; 2355 Chinese opera and annts...the usual. Poor (Robins 2/15).
- 8760a** UNIDENTIFIED: 0652 Feeder with Spanish talk and music in SSB. I think I remember Chile listed using 8 mhz feeders a couple of years ago. (Underdown 2/21).
- 8903** HONG KONG Hong Kong Time Signal Station; *1215-1218* Time pips, English ID by woman. Time checks for 1215 GMT with weather information. My copy of WRTVH 77 (also 1979) lists this as a time station. Is it? No other VOIMET carries time pips or gives regular time announcements like this station. (Underdown). * Nice catch Bob!!
Don Jensen: Since voice IDs and time are given, could this station be counted as reception of Hong Kong - according to NASWA Country Counting Rules?? (tgg) *
- 9022** IRAN VOI; 1950+ Western instrumental music (John Denver, etc), English talk about PIO, Arafat's visit to Tehran (Blumberg 2/19, Hywarren/UMDX 2/24). 2305 Parsi talk and music//15084 (Reini 3/4). 0130 Parsi talk & instrumental music w/chants (Thompson 2/14). 0350 talk in language with ID & local music (Klein 2/12).
- 9064** CHINA CPBS HS-1; 2340 Chinese talk by woman//7504. Very poor signal (Robins 2/15).
- 9060** UNITED STATES KGA (Spokane); (Harmonic: 6X1510) EG cmntry, mx & ads 0039(Wirsz 1/9).
- 9380** CHINA R. Peking; 0022 Spanish talking by man and woman (McCants 2/16).
- 9420** KOREA (NORTH) R. Pyongyang; 0910 English with revolutionary country (Moon 2/25). *1200 IS, Spanish ID & talk (Saylor 2/28, Valko 3/2). 1705 French news & ID. V.Strong (McVicar)

- 25605 ISRAEL IBA; 1400 Yiddish, IS, fair when not jammed. (Noonan 3/7)
- 25620 USA AFRTS; *2202-0331 EG, Nx, class mx, (Noonan 3/4); 0355, Here nowex-17765 which Mexico has expropriated, Strong eves. (Hauser) 0330 EG, Usual pxs. Quite late for 11meters here. (Higgins 3/16)
- 25640 ISRAEL IBA; 1400-1425 Yiddish, IS, Weak & jammed. (Noonan 3/6)
- 25690 ???? R Liberty; 1647-1899* Lang, ID as R Svoboda, jammed (Noonan 3/5)
- 25800nf FRANCE RFI; 1350-1358* FR.Talk, pop mx, Sched, (Noonan 3/8) 1330 FR, ex-25620, Stronger than RSA on 25790, Allows easy check on Africa vs. Europe paths on 11m. (Hauser 3/5)
- 25880 USA VOA; 1730-1830* PT Tk & Mx to Africa. Site-? (Noonan 3/4)
- 25990 USA VOA; 2258/2330/0200 EG, "Breakfast Show" etc. (Halsema, Higgins)
- 26040 USA VOA; 1630-1645 EG, Request mx show to Africa. (Miller Jr. 2/17) 2040-2245 EG, Nx, Mx, to Af. (Halsema 3/10); 1530-1550, Interesting propagational effects noted here on 2/26 during the total solar eclipse. Normal signal, little fading till about 1630 when darkness was already sweeping across from the west coast. (the partial eclipse began here in Winnipeg at 1536.20) Fades appeared & moved rapidly until totality here at 1647, when this freq faded out completely. At 1649.16 as totality ended this freq faded back in & returned to normal at 1710. (eclipse ended here at 1803). Watch SW Center for an article on the eclipse from Manitoba soon. (Hywarren 2/26)
- 26095 USA VOA; 2250-2310 EG, "Breakfast Show" (Halsema 3/10)
- 30300 CANADA RCI; 2130 EG, IS, This 2x15150 harm heard mixing w/ the usual open carrier which is probably a repeater somewhere. (Hauser 1/3)
- 30630 PORTUGAL RP; 1545 EG.News, 2x15315 (Hauser 2/11)
- 38880 USSR RMWS; 1532 EG, DX PX, Surprised to find this here, 4x9720 or 8x4860, UHN lists 9720 as Riazan or Vinnitsa. (Hauser 2/10)
- 41250 FRANCE RFI; 1325 FR, TF-1 TV Audio, Rock Mx, //13m France-Internat-ional freqs such as 21645, 21580. An article on this type of DXing appears in my March "DX Listening" column in Pop-Tronics (Hauser 2/13)
- 41500 UKOGBANI BBC-1; 1450 EG, QRM-France, Hets from several BBC offset freqs a few khz apart. Two BBC TV audios-must be regional cutaway. "Pink Panther" w/out the usual theme. Wx for Scotland, so maybe Divis. Mickey Mouse Club after Dog Show coverage. (Hauser 2/10)

* * * * *
 If this gas shortage thing comes off this summer all of us will be doing a lot more listening. So here's to a long summer of good DXing.

73's till May *Bob*

Sorry, there just wasn't any space left for the PUBLISHER'S PAGE. It will reappear next month with the list of members who won NASWA decals in the Cover Ident contest last month. The station was Radio Tahiti as many of you knew. One thing I would like to mention here is that Kim Andrew Elliot called to say that Rudy Espinal, the famous Radio Clarin announcer who has done so much for the DX/SWL hobby, is expected to be at ANARC-79. This is a good opportunity to meet him. For information on ANARC-79 write to ANARC at 3320 Grand Avenue South #305, Minneapolis, MN 55408

Bill

FRENDX CREDITS

Deadline is
the 12th of
each month.
