** Welcome back to NASWA after a short absence!

TRANSKEI AND NAMIBIA CLARIFIED: Don Jensen, NASWA Country List Committee chairman and his committee have recently acted upon the matter of NASWA country status for these African nations as far as our own purposes are concerned. Don's report is as follows:

"Just after Christmas, a new station, Capital Radio began broadcasting on shortwave from Umtata, capital of Transkei, one of the so-called Homelands, to which South Africa says it has granted independence. The station is apparently a commercial, pop music broadcaster.

"It has been reliably reported that another area in the southern African region will shortly have a shortwave broadcasting station operation. This is in what traditionally has been called South West Africa, now generally known as Namibia. A German territory prior to WW-I, the League of Nations mandated it to South Africa to administer. After a period of time when South Africa refused United Nations demands to move toward granting independence to the territory, Namibia now seems on its way toward that goal.

"The Country List Committee has studied the two cases and voted the following actions:

1. Transkei, and other so-called Homelands, Ciskei, Bophuthatswana, Lebowa, Kwazulu, Gazankulu, Venda, Basotho-OwaQwa, Swazi Territory, and South Ndebele, will not be considered as separate countries for the purposes of the NASWA Country List. Stations in these regions may be counted as South African stations only.

2. That when a shortwave broadcasting station begins operation in South West Africa (Namibia), separate country status will be granted for purposes of the NASWA Country List.

"For those who may be interested in the basic reasons for the above decisions, the following summary may help.

"Transkei and the other homelands are not recognized as independent by any nation other than South Africa. They are not colonies with discontinuity with the mother country. But neither do they have full powers normally considered part of independence; power to conduct foreign affairs, self defense, etc. Of course other 'countries' on the NASWA list might also fail by these standards. However, the final test is that historical/traditional factors, special cases in which separate country list status is granted. The Homelands are artificial creations, geographically, with no historic or traditional basis for considering them separate countries for purposes of the NASWA Country List.

"Namibia is a different matter, with a well defined historical separateness. It is, in fact, almost exactly like the status of Papua New Guinea, both before and after independence."

IN CASE YOUR FRENDX IS NOT COMPLETE: We have had some complaints recently about blank pages in some of the copies of FRENDX which we have mailed. Our publisher and printer are aware of this situation and efforts are being made to correct it.

Anyone receiving a copy of FRENDX which may have blank pages should notify HQ mentioning the page numbers that are blank. We will either furnish a new copy or provide replacement pages by return mail.

THE GAMES PEOPLE PLAY: We regret we have to use this space for this item since we have more positive matters that could be reported.

In the January FRENDX Log Report, five log items appeared in the LR-A Log Report section which were credited to a "Ralph Jensen" of Toronto. For the record, there is no "Ralph Jensen" as far as NASWA is concerned, and the items were intentionally false and planted for reasons we have not yet determined. Since no similar items appeared in any of the other LR sections, we are not sure if the hoax was intended to discredit our LR-A editor, or if the person used a combination of names similar to other NASWA persons to embarrass them, or if it may have been a case of someones distorted sense of humor.

Needless to say, we regret very much that someone would use our publication for such a scheme, whatever its purpose may have been.

MARCH 1980

DXing 60 m

SIXTY ON SIXTY, An Hour in the 60 Meter Band

by Al Sizer, 22 Country Way, North Haven, CT 06473

It is 20 December 1979, one of the shortest days of the year in Connecticut. The weather is clear and very cold--minus 3 Celsius. It is 2100 Greenwich Mean Time, 4 p.m. Eastern Standard Time, and the sunshine is still bright, but coming obliquely out of the west as daylight heads into its final hour.

The A Index is 5, Solar Flux 193, K Index 2, solar conditions are high but the geomagnetic field is quiet. There was a major solar flare at 0559 GMT.

This is the setting as I adjust my headphones, turn on the FRG-7, the Gilfer A-20 preselector, the DCR 30 frequency counter and switch-select a 30 meter inverted L antenna, oriented southeast-northwest. I turn to the 60 meter band, the true DXer's band, the band of all shortwave bands I love the most. This is what I hear and my comments.

2100: Rio Muni (4925 kHz where by pure chance I begin) has happy, bubbling hi-life music from Equatorial Guinea. No matter that this little country has suffered under a hellish regime until a recent purge. No matter, as with other West Africans I shall hear, that the people have come through slavery, oppression, exploitation and have a myriad of current problems, the jazz-like music is joyous. It is 10 p.m. in Bata.

2101: It is midnight in the Georgian SSR and Tblisi (4930) has an announcer giving in Russian what I think is the news.

2102: From Abidjan, Ivory Coast (4940), a French dialogue is heard.

2103: Yaounde, Cameroon (4972) also has French talk, but a strong ute is spoiling it.

2104: It's the news in English on the Iranian situation from Lagos in Nigeria (4990).

2105: I have dropped down the dial to catch part of the Koranic prayer call from San'a, Yemen Arab Republic (4853) as it signs off (Midnight there). This has always had a fascination for me and I have heard it from many parts of the world, thanks to shortwave.

2106: I am back up here (5010) to find Garoua, Cameroon, with a man and woman in conversation in an African dialect I can't hope to identify.

2107: There are few times of the year when I can hear Archangelsk (5015) on the White Sea of northern European Russia at this time of day and this is one of them. The news in Russian is fairly strong.

2108: Possibly Niger (5020) but weak and ute-plagued.

2109: A hash of signals on 5035, possibly Alma Ata and the Central African Republic.

2110: A man and woman are emotional in an African dialect in an obvious drama from Lome, Togo (5047).

2111: There is African music, but weak (5060) and I think it is probably Emissora Regional do Huambo, Angola.

2112: I have dropped down to the other end of the dial and Bertoua, Cameroon (4750) has an announcer in French.

2113: ELWA, Liberia's religious talk (4770) in English is bedeviled by a ute.

2114: The same case for Yaounde, Cameroon (4777) where I can barely hear music. The proliferation of the utes has been a distressing 60 meter band development.

2115: No problem with reception here. A Russian baritone is booming out a folk song from Baku, Azerbaidjan SSR (4785).

2116: It's an excited announcer in Portuguese with a futebol match from Luanda, Angola (4820).

2117: The Russians are coming in strong and clear. A musical comedy kind of song is being sung from Starobelsk, Ukraine SSR (4825). I pause a moment or two to reflect. What a wealth of languages, cultures, and ethnic heritages are available to me in these 60 minutes in the 60 meter band! And what a span of geography I am covering!

2119-2120: Radio South Africa (4835) is finishing a prayer in English, the announcer says it is "twenty minutes past 11" and the station goes into a sign-off anthem.

2121: Arabic talk from Mauritania (4845), to me one of the most unusual of African countries, source of much strange chanting.

2122: In their closing hour or so of the night the African musical tempo picks up. There is jazz, American style, from Yaounde, Cameroon (4850).

2123: A popular song is the fare from weak Maputo, Mozambique (4865).

2124: Cotonou, Benin (4870) is strong with French talk.

2125: But Dakar, Senegal (4890) is coming through weakly with a man in a soft French accent.

2126: I can't identify the source of light classical music (4895) but believe it is Ashkabad, Turkmen SSR.

2127: Chad (4904) is also speaking French but the 100 kW Ndjama transmitter seems to have lost its zip lately.

2128-2129: Accra, Ghana (4915) has spirited classical music.

2130: A woman is speaking in Russian from Starobelsk (4920) and a quick check shows it is in parallel with the Ukraine outlet on 4825.

Now we have passed through the band once and it is time to spot check on what we have missed or wasn't there before.

2132: It is 5:30 a.m., daybreak, in Sulawesi and it is sometimes possible to catch an Indonesian station here at this time. I move to 4753 where I have found it before and sure enough Ujung Pandang is coming through with an announcer in Indonesian.

2134: Bertoua (4750) now has happy African rhythms.

2135: Why did I miss, first round, Sao Tome (4807) which is singing pop songs in Portugese?

2137: Cotonou has joined the musical parade with happy African singing (4870).

2140: Ditto for Ghana (4915).

2141: Hi-life in full swing from Rio Muni (4925), heading for sign-off.

2142: Wild (to me) native singing from Garoua (5010) now. Its music seems most primitive of African outlets.

2143: Joyous piano, drums, and singing from Ivory Coast (4940). The Africans are at their peak in strength.

2145: An operatic aria from Ashkabad (4895).

2146: Weird native singing from Nouakchott (4895) now.

2147: ELWA (4770) has shaken the ute and "Joy to the World" resounds gloriously.

2149: Already Ujung Pandang (4753) is fading out.

2150: It is almost dark out my window as some of the Russians and Africans prepare to leave the air. Within the next hour they will all be gone. But now . . .

2152: Like breaking through a window from silence to complete audibility, Radio Universo (4880) is suddenly here in Spanish from Venezuela.

2154: Ditto Ecos del Torbes (4980), San Cristobal.

2155: And Radio Reloj Continente (5030), Caracas.

2157: There are Portugese murmurings from Radio Brazil Central, Goiana (4985).

2158: And from Radio Clube do Para, Belem (4855).

2159: Rio Muni (4925) has begun its long anthem as it winds down.

2200: And the Russian voice stills as Baku (4785) leaves the air.

Darkness is now complete in Connecticut. What Russians and Africans are left are quickly losing out to the Venezuelans and Brazilians. The Latin Americans are storming in with fire and enthusiasm. One chapter is ending and yet another is beginning in the endless, fascinating saga of the 60 meter band.

DX. Shack

SOME THOUGHTS ON SHACKS FOR APARTMENT DWELLERS

by Mike Agner, Editor for "Antennas and Accessories"

Not too long ago, two articles have come out in SWC regarding "ultimate" shacks. But good as many of their suggestions may be, some of these simply cannot be done for people in areas where space for a shack is necessarily limited.

Such is the case with this author. I presently live in an apartment where outdoor antennas are verboten and space is limited. However, in a space about 6 feet by 4 feet, in a bedroom, I have been able to set up 3 receivers, feeders for 5 antennas, 2 antenna tuners, a crystal calibrator, an audio filter, 2 cassette recorders and a patchbox to do all sorts of interesting things (to be described later). In addition, there is also a pair of FM rabbit ears for when I wish to fool around with FM DX. The hows are relatively simple, the whys are a matter of personal taste.

1. Antennas--There have been many designs written in the past 2 or 3 years in issues of FRENDX (see Sept. 1977 issue) and also some electronics publications have been devoted to this subject (see William Orr's excellent book *Wire Antennas for Radio Amateurs*, for example. With indoor antennas, in many cases, antenna efficiency leaves much to be desired.

This is where antenna tuners come into play. Not too long ago, Bob Zanotti of SRI called this item the "DXers best friend," and this is especially true of cave dwellers. The function of the tuner can best be explained as, "making the antenna more efficient at a wider range of frequencies than is possible with the same antenna without the tuner." There are a few antenna designs which don't require a tuner - active antennas being a notable example - but the majority will benefit from their use. A design that is well known to DXers is the Pi network tuner, suitable for use with random wires and similar antennas. There are many schematics for this circuit available. Just compare HCJB's antenna handbook, "Give your Antenna Some Air" by Radio Nederland, and the circuit depicted in DXing According to NASWA and you will find they are just about the same. There are many other circuits; some simple like the L-tuning/series tuner in Mr. Orr's book (figure 1), others complex, like the Ultima antenna tuner depicted in an article by Dan Richardson in the July 1973 FRENDX (figure 2). There are also many commercial circuits available from stores and dealers which specialize in amateur gear. All different types of tuners have their advantages and disadvantages, and the prospective user should find out from knowledgeable sources just what they are and how they will affect their antennas.

Operation: Place wire jumper on one coil. To start, place a short jumper between B and C. Plug antenna into A and tune. If no result, remove jumper from B-C and place antenna in B. Tune for highest signal gain.

Figure 1: L-tuning/series antenna tuner from W. Orr, *Wire Antennas for Radio Amateurs*, 1972, Radio Publications Inc., Wilton, CT., p. 99.

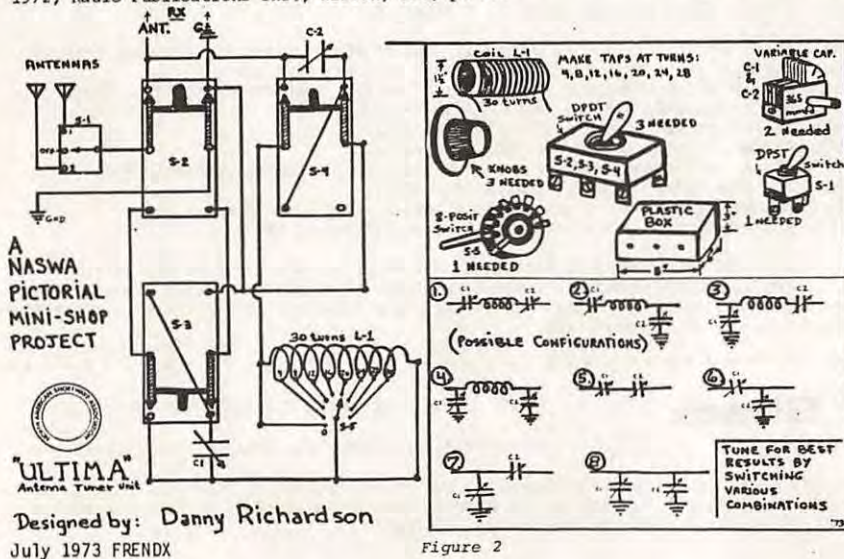

Figure 2

2. Grounds--This is an area often neglected by many, thinking they don't need it because their antennas are indoors. This is a fallacy that would be proven by the first near lightning strike! Don't get caught without a ground, you may not like the results or may not be around to debate the question.

Unfortunately, this is easier said than done. The quick and dirty way is to make sure that all equipment is grounded to the electrical ground system of your electrical wiring. You may have to examine the wiring system of your dwelling or consult with the building operator or an electrician to make sure the system is working as required by the U.S. Electrical code. This is particularly true of older dwellings. If your equipment is not attached to a grounded outlet by a three-wire plug, a ground wire can be run to the grounding screw of the outlet and attached with a spade lug. Make sure you know what you are doing before messing with the outlet and turn off the juice while working on it.

The better way takes a little more doing. If you can get to a cold water pipe, investigate the couplings. If they are made of copper, run a short, thick piece of wire to a C-clamp which is attached to the pipe. If the coupling is made of iron or plastics, forget it; the iron will rust to nothingness comparatively soon and it is a questionable conductor when rusted and plastics rot to zilch and we all know how plastic is as a conductor -- so if you must, stick with the above and you should be OK.

Now, if you're like me, and have two or three receivers and a host of things you want grounded, you will need some way of getting that done neatly. The best way I found is to create a ground bus. This is easy to construct, all you need is a good solid piece of wire long enough to go totally around the shack. Take short pieces of wire, and ground everything by attaching one end to the ground lug(s) of the gear you want grounded, and solder firmly the other end to the bus. This makes a nice neat arrangement which keeps everything in order - just make sure one end of the bus is grounded with one of the methods outlined earlier. Nail down the wire so it doesn't move around and you have a ground.

3. Power Supplies--Using a fused multiplug that is advocated in Mr. Creamer's article is the best way to go. However, use your head when buying them. Find out what the total current consumption is for all items in the shack, then compare that with the dwelling's current handling capability. The total current drain better be less than the current capability of the line or you may be risking a serious fire hazard.

Also check out the current handling capability of the plug you're interested in against the line current. Make sure this is less than the house line, that way the fuse/circuit breaker in the plug will pop before the dwelling's, preventing a potentially dangerous condition. For example, in my dwelling, the standard circuit breaker is 20 amps. In my bedroom, I have a 15 amp fused power supply, having a relative safety margin of about 20% against my line current. The total current drain with everything on in my shack is less than 6 amps, with lights and clocks included. The shack itself runs on half that. I therefore have an approximate safety margin of 85% against the power supply, and about 90% on the line current. (Electricians may disagree on the figures, but they are being used as an illustration only. The calculations may differ as much as 10% in reality.) Leave yourself plenty of room for safety and maybe mother nature will have some respect for you!

4. Wiring--This is a real problem for those who have two or three receivers, recorders, and other accessories. Separate switches in different locations may be fine for some, but it is a stickler for those without the space to take advantage of it.

I considered this many months ago when I realized this would be a problem. So I designed and built a little black box that houses a 100 kHz crystal calibrator, antenna switches, a receiver switch and a tape recorder switch (see figures 3, 4, and 5). The jacks I used are phone jacks only because I had a handful from other projects. Wiring must be short as possible, but don't be afraid to experiment. For example, I decided two of the 4 antennas I was using were working well enough without retuning, so bypass wiring was installed to facilitate patching two antennas to J6 directly instead of J5, which fed the FRG-7 through an antenna tuner. With a larger box, it would be possible to put an antenna tuner within the box, feeding a rotary receiver switch and input coming from toggle switches, each with bypass wiring. A diversity checker could also be built here (see April 79 SWC). Thus in one box, you could conceivably have the following: Antenna tuner, diversity checker, calibrator (if needed), receiver switch, tape recorder switch, tuner bypass abilities in toggle switches which switch antennas in or out.

5. Other--Concerning yourself with furnishings, while important enough if you've got nothing to start with, should take a back seat if you have a comfortable area already set up. These usually are matters of personal taste, and therefore vary so much that while a shack may look spread out to one individual, it may be cramped to another. Just make sure You

(yes I know I put a capital Y there) are comfortable-that's the important thing!

The whole point of this article has been one overriding theme - if you use some common sense, and a little ingenuity, the "ultimate" shack will be looking you straight in the face before too long! Happy DXing, all. If anyone has comments or questions write to me at Delphi Associates, 17 New England Exec. Park, Burlington, MA 01803, enclose a SASE for a quick reply.

Figure 3: Front view of patchbox

Parts:

- Knobs, wire, etc. Box=Radio Shack # 270-269
- S1-4 switches are DPDT-rating unimportant
- R1-2 rotary switches are 2 pole 6 position non-shorting
- J1-8 phone jacks (female); JM1-4 mini phone jacks (female).

Figure 5: Back panel wiring.

Figure 4: View of front panel wiring. Only S1 & S3 wiring shown. S2 wiring identical to S1. S2 uses ant. in J2 for input. R2 wiring is similar to R1, the difference being that wiring here goes to JM 1-4.

Antennas

RIGGING CENTER-FED ANTENNAS WHEN THE TREES AREN'T WHERE THEY SHOULD BE

by Neal A. Perdue, Rt. 1, Box 154, Falkville, AL 35622

Dipole-type antennas (the dipole, inverted-V, V-beam, etc.) are generally superior to single wire types in terms of signal versus noise, and if long enough and used with a tuner are excellent all-band antennas. The inverted-V and V-beam require only one tall support, at the center. However, even if a tall tree is conveniently located fairly near to the shack, three problems still remain. (1) Getting the whole thing up there and properly strung out can be an aggravating experience, (2) More often than not you'll wind up with the radiator wires making contact with some of the limbs, and (3) Putting it back together after an ice or wind storm is usually as much work as was the initial installation.

Telescoping masts are now well over a dollar per foot. This comes out to about \$60 or more for a 50 footer, when tax is added. Obviously, if trees are available, well-they're free. I have many trees on my property, but they're just not where they're supposed to be, as far as antenna erection is concerned. Also, I didn't want any part of the antenna in the tree if I could help it.

Solution: Run a sturdy nylon rope, at least a quarter-inch diameter, from treetop to treetop and position the antenna center-connector in the middle or at a convenient place along its length.

Step-by-step it goes like this. Use enough nylon rope to reach between the trees, droop down to ground level from the tops of both trees, plus an extra length equal to the height of one tree. Use a small inexpensive cotton line to get the "stringer" line up over one treetop by means of tying a small but heavy weight to it (large scrap metal nuts and bolts are ideal), tossing it up and letting it go over the treetop and then fall back down to ground through the limbs. Secure the end of the line that has come down through the limbs,

tie the other end to the heavy nylon rope and pull the nylon up, through, and down, and secure it to the tree trunk. You now have one end of the nylon rope up in one tree and the rest of it on the ground. Now, slip the antenna center connector onto the nylon rope. (I used a homebrew version made with a one inch plastic pipe "tee" and three hose clamps. The clamps go tightly over the two radiator wires and just snugly over the coax downlead so as not to change its impedance by squeezing it too tightly). I also soldered all wires and sealed all joints with silicone sealer. Now, repeat the "stringer," weights and nylon rope procedure in the second tree, pull the whole thing up tight while someone keeps the coax and antenna wire from getting all tangled up, and leave extra nylon rope at the bottom equal to at least the height of the tree, and tie it off. The extra length is so that if you ever need to work on the antenna you can just lower the whole thing from this one end. All that remains to do now is to tie off the ends of the antenna to whatever supports you have previously selected. In the case of the Inverted-V, these end supports need only be ten feet above ground, although I personally prefer fifteen feet. Of course, antenna ends should be insulated from the supports. Note: "V-beam requires only one tall support" applies to TILTED type.

If a dipole type tuner is financially out of reach for you (about \$40) you may want to try a "fan" inverted-V. You simply cut several sets of radiator wires to resonance for your favorite bands (468 divided by center-frequency in MHz yields length in feet). See any antenna book.

I have used a 150 ft single wire with tuner for years. The coax-fed antennas, with tuners, are definitely superior, especially on real DX and on weak stations when the band is not propagating well.

I hope this article will be of help to someone. 73, Neal

Antenna

SHAKESPEARE "Big Stick" CB ANTENNA FOR SW DX'ING

by Josephine Bryan, 2008 Pawnee Way, Stockton, CA 95209

The Big Stick style 176 antenna appears to be almost identical to the Radio Shack antenna, catalog no. 21-965, so the following should apply to both antennas. We mounted the style 176 antenna near the peak of the roof on a single floor duplex. The antenna is mounted on a 30 ft. TV mast and we are using RG-58U coax cable for a lead in. We also have an 8 ft. solid copper ground rod driven into the ground all the way. We have an insulated copper ground lead that enters the house with the coax cable and they both terminate at a set of knife switches.

The switches are used to make connections between the following 5 elements: Receiver antenna terminal, receiver ground terminal, the ground, the antenna, and the antenna shield. We also have a double knife switch between the receiver terminals and the above mentioned switches using audio cable to the FM and mediumwave sections and RG58U to the shortwave section. It is important to have an antenna connected only to the section of a receiver being used (in receivers having multiple antenna inputs) as the additional connections are a leading cause of images and birdies. It is really an efficient system and is the closest thing to an antenna farm that can be obtained without a large amount of space and several antennas.

We have used a similar system for tuning down to 150 kHz, and this one we have used from 540 kHz to 108 MHz, and also on TV it is effective up to channel 6. On FM it takes on decidedly directional characteristics and by throwing a switch or two, one station can in some cases be completely replaced by another on the same frequency.

It is surprising the way some seemingly unlikely connections produce good results. For some situations the ground makes the best antenna, and in many cases the shield used as an antenna rather than as a shield produces quieter reception. When we get into a tight situation, we keep throwing switches back and forth and can at least help bad reception situations and in many cases completely remove the difficulty. The antenna pays its way best on 11, 13, 60 and 90 meters, which have become our favorite bands, although it is equally efficient throughout the range of our RF-4900.

It is interesting to note that the only stations we could receive previously on the 60 meter band in the evening were the like of Radio Rumbos. DX passed by unnoticed. Now the stations we couldn't hear before are just as readable. Although we still pick up noise and interference, it seems to be less annoying and of shorter duration. Our new Panasonic RF-4900 has an antenna trimmer which is very helpful in peaking the antenna input after each change of the antenna switches.

Another tip-when choosing a good DX-location, you want to get far enough from town so that cable TV is not used (so there is no problem erecting an antenna), yet close enough so that there aren't any above ground power lines. This is what we recently did in moving to our new location.

My Husband Jim obtained the Shakespeare "Big Stick" from "Talk about Radio" in Stockton (CA). It was erected by an FCC computer man who installs antennas in his spare time.

It is really a happy feeling in the evening when Bolivia starts coming in about sunset and a little later, Kenya, Tanzania, Rhodesia, etc. appear, you see these stations are real DX here in Stockton. We also do well with Vladivostok, the Indonesians, and Australia.

International Broadcasting

INTERNATIONAL BROADCASTING: EXPLORING CULTURAL FRONTIERS

by Terry L. Krueger, 84 Winter Park Dr., S. Casselberry, FL 32707

With a major in mass media, I have always been interested in radio broadcasting and production techniques. When I was 12 years old living in south Florida, I was amazed at hearing all types of what I thought to be "wierd" stations throughout the day and night on my parents' radios. Later I was to learn that these stations were from the various Caribbean islands and the music I heard was a part of their culture.

Some time later I had the opportunity to play with a classmate's shortwave radio and was again shocked to hear stations, only this time from every corner of the earth. Each station I tuned to reflected their own unique culture and views of the world. From that point onwards I have been deeply involved in the study of cultures on a world wide basis. The shortwave radio has brought nearly every nation within my reach -- only a twist of the dial away!

In addition to serving as a tool in understanding the cultures, shortwave broadcasting has served as an important mode in keeping me in touch with international politics. Indeed, it has sustained my interest in a broadcasting oriented career.

Cultural barriers have always existed. No doubt they are less prevalent today, but nonetheless are still to be found. Fortunately education is slowly bridging the gap between people in our country. Education and experience are truly the key to crumbling the walls between cultures. "From almost the time we're born, each of us is indirectly taught a whole set of roles that we'll be expected to play. In one sense this collection of prescribed parts is necessary because it enables a society to function smoothly and provides the security that comes from knowing what's expected of you. But in another way having roles defined in advance can lead to wide gaps in understanding. When roles become unquestioned and rigid, people tend to see the world from their own viewpoint, having no experiences that show them how other people view it. Naturally, in such a situation, communication suffers" (Alder, R. and N. Towne, 1978, p. 155).

So much is available to the potential shortwave listener today. What could otherwise be a dull Sunday evening in the midst of winter may be spent beside the receiver, certainly a smarter move than choosing the television! How much do you know about the Turkish culture? Drop down to the afternoon broadcast in English of the Voice of Turkey and catch "Turkish Folk Music" or the many other programs available and learn about the daily lives of this Asian country. Or catch the Radio Free Grenada evening airing of "Deaths" in case you're interested in who died the day before on this tiny Caribbean island. Nearing midnight a drop by Tahiti will almost always find nonstop Polynesian singing with a soft-spoken Tahitian language announcer only rarely surfacing.

One of the most requested forms of programming on the large international broadcasters today are foreign language courses. We've been or are about to be treated to everything from "Dutch by Radio" to "Arabic by Radio" to "Russian by Radio." An increasing number of listeners throughout the world are tuning to just such programs, hoping to educate themselves about another culture while at the same time picking up a language tool that will last a lifetime. This includes China, where at Hsi Tan wall, for example, it is not very difficult to discover who is learning English from VoA and who is taking the more orthodox path with Chinese radio and television.

"The official Chinese English-language training adopts a plain but pronounced British accent with fairly clipped phrases. VoA, on the other hand, pushes a sort of folksy, Western

drawl that is horribly accentuated by the "special English" approach.

"As a result, there are some young Chinese one now speaks to whose English sounds a bit like an old Will Rogers 78 rpm recording played at 33 rpm" (Fraser, J., 1979, p. 13).

Radio is clearly an important link in learning about other cultures. For those in the US on foreign study programs, shortwave radio not only keeps them informed on the news back home but can serve as a college classroom tool. A fine example of this is the article by NASWA member Daniel A. Robinson that appeared in the November, 1979, FRENDX "Shortwave Center."

Frequently the shortwave listener can stay on top and even ahead of the local news regarding world events. A classic example is my close following of the Iranian crisis that began in early November of 1979 when over 50 US embassy personnel were taken hostage by student followers of the Shiite Islamic leader the Ayatollah Khomeini. Knowledge of the shortwave bands permitted me to tune in the crisis as it happened. An abbreviated account of what was heard on shortwave is given here:

17 November, Voice of the Islamic Republic (Tehran); the external English service asks the question in reference to the Shah's stay in New York, "Would the US people allow illegal agents, smugglers, and plotters into the (US) nation?"

22 November, Radio Pakistan; English news officially denies Radio Pakistan broadcast the false statement that led to the US embassy in Pakistan being attacked.

2/3 December, United Nations Radio; carries live the special session of the Security Council debating the course of action to be taken against Iran.

The awesome power of radio on people was demonstrated when the Ayatollah first falsely announced that it was the Americans that supervised an attack on Saudi Arabia's Grand Mosque in Mecca. That announcement led to the destruction of the embassy and death of two Americans at the hands of thousands of angry Pakistani people at the US embassy in Pakistan.

Meanwhile, the external service of Iran daily broadcast information on the revolution and the history of the Islamic culture. Though many may find the crisis in Iran the work of a "crazed and senile leader," it's impossible to deny that this is history in the making. The bitterness of many of the nearly 100 million Islam followers flowed out of shortwave speakers worldwide. And that's just part of the world views I'd hate to miss out on.

Book Review

LIST OF BROADCASTING STATIONS . . . BELOW 5950 kHz

A Review by Michael S. Hardester, San Diego, CA

On returning to the United States, from Okinawa, my wife and I traveled around the country and one place we visited was the United Nations in New York. While there, I checked out the UN Bookstore, in the basement, which offers ITU publications. I had hoped to pick up a couple of current "Lists" for DX purposes, but was more than a little unhappy to note that the selection was poor and outdated. However, I was able to review some "Lists" which I had heard of, but had no idea of the material contained within. So, it was on this occasion that I had the opportunity to look through a, very, dated copy of the ITU publication entitled List of Broadcasting Stations Operating in the Bands Below 5950 kHz.

After looking through the book, I was convinced it had potential value and decided to purchase a copy from the ITU in Geneva. I waited until the Tenth Edition, February 1979, was available figuring it would have current information including the changes brought about by the November 1978 switch to a 9 kHz frequency allocation ... was I ever wrong!

The book, printed in French, English, and Spanish, clearly states "The present edition of this list is printed from information recorded in the Master International Frequency Register at 1st February 1979." It went on to mention that a computer had been used in preparation of the material for publication, so I assumed the information would be very current...wrong again.

Before mentioning some of the errors (?) noted, the format should be mentioned. The main section of the book is divided into "Countries" based on the ITU abbreviations for countries. Before the main section are 36 pages, 12 per language, of instructions on how to use the list. After the main section are 24 pages of explanations from the "Remarks" column. Under each country are ten columns: supposed transmitter site (in alphabetical

order); frequency in numerical order for each city; station call-sign (if any is known); geographic coordinates (degree/minute); the area of intended coverage (local, all over the country, etc.); power output in kilowatts; antenna direction (most are listed as non-directional); sign-on/sign-off times of the stations based on GMT/UTC; the operating agency/company; and remarks.

If the information contained in the publication is taken as accurate, it would provide an excellent source by which transmitter sites of European longwave stations, broadcast band, and shortwave broadcast stations (below 5950 kHz) could be confirmed. Additionally, the dispute over transmitter site, by frequency, could be resolved. However, that would be true only if the information is considered as accurate.

The ITU states the information is from information on file, so it is either the error of the ITU computers or the broadcasting agencies involved which allowed, as examples - and not at all totally inclusive, the following errors to be printed: Fiji listed with shortwave stations active on 3230, 3284, 3935, 3980, 4756, and 4785 kHz; Gilbert Islands with a 2kw transmitter on 4912.5 kHz operating at 0400 to 0700 GMT/UTC; or how about this - ZBW on 3940 kHz, with 2000 watts of non-directional power, from 2200-1500 hours GMT/UTC from, are you ready for this?, Hong Kong!! The listings for Okinawa (Ryukyu Islands), Japan, are at least three years old. I could continue, but this is enough.

After reviewing the book, it would appear to have very limited value for most DXers, and at US\$42.00 or so (plus approximately US\$10 shipping) it isn't something you add to your reference shelf simply because someone else has one! With the exception of listing all of the coordinates of the stations listed, the remaining information can be found, in a more up-to-date form, in the current *World Radio-TV Handbook*. If, for what ever reason, you decide you need a copy, it can be ordered direct from the ITU in Geneva. I would, however, suggest you write to the ITU to check on the current availability/price plus the surcharge for airmail postage, if desired. And when sending payment (not to advertise), I have found the most widely accepted form of payment, and least expensive, when a personal check will not be accepted is an American Express Money Order.

THIS & THAT

Edwin A. Gibson of Indianapolis reports that he received a letter from Zenith in response to an inquiry about Zenith's Trans-Oceanic multi-band portable radio that said, "Because of unforeseen production problems, general availability in quantity of the Trans-Oceanic will be delayed until the beginning of the third quarter of 1980."

Tom Toenjes, Rt. 4, Box 74, Leavenworth, KS 66048 reports that he will do service and modifications on all types of shortwave receivers and amateur transceivers.

Clifford Myers of Phoenix, reports that the postoffice is still touchy about country names in the addresses of international mail. He received the following mimeographed sheet that read: Addressing of International Mail-Prohibition of country name abbreviation-Country name listing. The attached listing of country and entity names was prepared in response to many requests from mailer organizations. In addition to providing the listing, mailers are advised of the following:

Abbreviations of country or entity names are prohibited by international treaty.

Mail destined for abroad must bear, as the last item of the address, the name of the country written in full.

A geographic designation added to the address, such as Central America, Africa, Caribbean, South Africa, Western Europe, South America, etc., does not assist the postal service in dispatching mail for abroad.

The listing gives both the common and formal country designations. However, with few exceptions, the short form, e.g., Italy, Burma, Egypt, Hungary, etc., may be used for all mail items.

Exceptions:

Mail destined for the People's Republic of China must bear the full name, not merely "China."

With regard to items for the Republic of China, to avoid confusion and misrouting of mail, it is suggested that either the long form be used or that Taiwan be added, i.e., (Taiwan) China.

Mail for either Germany should bear the long form name, or as the shortform West Germany or East Germany.

North Korea may be used as the shortform name instead of the long version, Democratic People's Republic of Korea.

Mail for South Korea may be addressed Republic of Korea or South Korea. Yemen, with one of the two designations added-either (Aden) or San'a), may be used in lieu of the long form name.

Mike Saley of Cincinnati wrote to note that Gilfer Associates, P. O. Box 239, Park Ridge, NJ, 07656, sells a selectivity modification kit for the FRG-7 receiver. It is relatively easy to switch filters to the 2.4 kHz (at -6 dB) and 8.0 kHz at -60 dB filter that costs \$15.

Gilfer has also notified us that they intend to modify and sell the Kenwood R-1000 receiver. Gilfer will replace the stock filters with their 4.0 and 2.4 kHz ceramic filters, the AGC release time is speeded up on AM, and the attenuator is modified to provide steps of -10, -20, and -30 dB. Probable price is \$515.00 plus shipping. Contact them for availability and price. They are also offering (until 15 March) \$200 off on the Japan Radio NRD-505 model, now only \$2075 plus shipping (memory \$125 more).

Radio West is also offering a modified version of the R-1000. They modify the receiver to use the 6 kHz filter in wide and the ssb filter in narrow on AM and a shorten the AGC release time for \$470.00. Write to confirm availability and price to Radio West, 3417 Purer Rd. Escondido, CA 92025.

Radio West is offering a new active antenna useable on shortwave. They expect to have it ready for market in March. Your editor is now using one of these and we plan to have a review of its operation next month. Write to Radio West for information as we do not have a name or product number yet. It will sell for \$100.00-120.00 when available.

The ANARC DX Equipment Committee, Harold Sellers, 3 Camrose Cres., Scarborough, Ont., CANADA M1L 2B5, is offering a list of addresses of suppliers of clocks and clock equipped receivers with prices. If interested write to Harold and enclose 1 IRC.

The Market Place Report and other ANARC information is available by subscribing to the ANARC Newsletter. ANARC, 557 North Madison Ave., Pasadena, CA 91101. Sample copy 50 cents in NA, overseas send 3 IRCs.

The 1980 ANARC Convention will be held July 18-20 in Newport Beach, CA, just south of LA. For more information send a SASE in North America or 2 IRCs for overseas to ANARC 1980, 16182 Ballad Lane, Huntington Beach, CA 92649.

Several reviews of current receivers were prepared by Larry Magne and published in the 1980 WRTVH. We suggest that you review pages 540-561 for information on the following receivers: RF-4900, RF-4900/Gilfer modified, DX-300, Sony ICF-6700, Sony ICF-6800, Kenwood R-1000, FRG-7, FRG-7/Gilfer, FRG-7/Radio West, Yaesu FRG-7000, FRG-7000/Gilfer, Drake R-7/DR-7, Japan Radio NRD-505, and McKay Dymek DR-33-C. There is also an interesting discussion of Exalted Carrier Selectable Sideband reception under his discussion of the R-7. Larry's reviews of the receivers I am familiar with are very objective.

Regarding receiver reviews, the ANARC DX Equipment Committee (and your editor) suggest the following items be covered in reviews.

INTRODUCTION: Who did the review, under what circumstances, duration of review, other receivers used for comparison, etc. A brief statement of your opinion of the receiver.

RECEIVER FEATURES: Frequency coverage, bands, controls, and other features.

SPECIFICATIONS: Sensitivity and selectivity, give manufacturer's quoted specs. If you measured specs, tell what test equipment was used, or if tested under operating conditions, give conditions and your operational assessment. Frequency stability, image rejection, AGC, AF response - state the manufacturer's quote and also your measured or observational observations.

OPERATION: 1. Use of controls, S meter accuracy, usefulness, range. Noise limiter-type, effectiveness. Frequency display-accuracy, ease of reading, size and number of LEDs. Tuning-dial backlash, ease of tuning. 2. Signal handling: Comment on birdies, spurs, cross mod, overloading, intermods, RF blocking. 3. Audio quality, distortion, effectiveness of controls and filters and internal speakers. 4. Operation, portability, ease of operation, ease of control viewing, appearance.

CONCLUSION AND SUMMARY: Comment on advantages and disadvantages. Give suggestions for improvements. Mention options available. Where can it be bought and approximate price. Be sure to credit any assistance in reviewing or anyone loaning the receiver to you.

73 till next time-JAL

WYFR M80: Sun 1230-1551 21615 17845. Rest daily: 1700-1800 21615 15160. 1800-1900 21615 15425. 1900-2200 21615 21525 15130. 2200-2300 21525 15130 11855. 0100-0500 11740. Note the last, replacing 9715; however VOA is still sked on 11740 to 0200! (gh) URUGUAY LN-3

UNITED NATIONS (Cf Feb LN-4) I have observed the new 0215-0245 UN Radio transmission, now seasonally on Sat only, to contain EG at 0230-0245. However, the M80 VOA fq sked, which does include UNR transmissions, does not show 15240 and 6035 (Monrovia) on the air at this time for M80. It is probably wrong (gh)

U K O C B A N I BBC M80 to NAM & NWSAM: 21710 1100-1745. 21550 1100-1330. 17840-Antigua 2000-2115. 17830-Sackville 1600 (Sat/Sun 1500)-1745. 15400-Ascension 1430-1745. 15260-Ascension 2000-0230. 15215 1100-1330. 15070 1330-1745 & 2000-0230. 11910 2300-0330. 11775-Antigua 1100-1330. 11750-Singapore 1330-1615; UK 2000-2430; Greenville 0030-0330. 9590-Sackville 2300-2430. 9580-Ascension 2300-0330. 9510-Sackville 1100-1330; UK 2200-0430; Antigua 0445-0915. 7325 2300-0330. 6195-Antigua 1100-1330, 0900-0915. 6175-Antigua 2000-0730. 6120-Sackville 2300-0430. 5975 2300-0730. (March London Calling) As usual, they ignore 9410 which is often their best fq here in the evenings; will 11775 actually be on continuously instead of 1100-1130 & 1300-1330 only? (gh)

TURKEY (Cf Feb LN-13) TRT fq sked specifies these targets per fq: 1200-1300 17820 SEAs+Au; 11800 NEAm (that's Northeast America...!). 1330-1430 17820 SWAs. 2030-2130 11955 WEu, 9550 NAF. 2200-2300 9515 7215 WEu, 11955 NEAm, 9550 Au (via Wolfgang Büssel, Stuttgart GFR)

SOUTH AFRICA (Cf Feb LN-2) R. RSA has replaced 21535 with 11900 at 2100-2150 (R. RSA DX 10/2) This may have an effect on the M80 sked as well; or it may not (gh) Here are the 'close' times for SABC DS: Mon-Fri 2120, Sat 2205, Sun 2215 (Richard Ginbey, RN DXJB 14/2) more LN 11

SEYCHELLES FEBA 0700-0800 As on new 17785 ex-17715 //15160 (Alok Das Gupta, India, Feb ADXN)

- PORTUGAL** R. Free Europe weekly English Commentary, Fri 2150-2200 still heard here on 11770 on 15/2 check; reception improving; may change to 15 MHz for M80 (gh) RFE-Glória noted on new 7165 for this Fri 18/1 2145-2200 (Bob Padula, Victoria, ADXN) RFE via Biblis, W. Germany has weekly EG 2145-2200 Fris. Bob Padula says new outlet is 7115 (R. Australia Japanese DX-Time 27/1) Two other stations audible on 7115 here 15/1, but not RFE; in the past RFE skeds have shown this xmsn on only 1 frequency, and I have always heard it starting abruptly at 2150; thus I must question these Australian reports (gh)
- PHILIPPINES** FEBC made several changes late Dec/early Jan. Longtime 21515 2300-0500 2 kW to Au has been canceled, replaced by Indonesian. 50 kW on 17810 now has dual antenna 1500/3300 2355-0100 Au/China; 0100-0500 is 2800 to SEAs. 0800-1000 Au/Ch on 11890 ex-11765, 150/3300 antenna as from Dec. WOA has been trying different antennas to China and Australia; since 27/1, reception much improved in Au with dual rhombic on 17740 2200-0100; continues at 0100-0430 with rhombic 2700 SAs. Tinang dual rhombic also at 1100-1400 on 15415 for Australia and China (Robert Jones, Sydney NSW, Feb ADXN) **PAKISTAN** L N-12
- NORWAY** (Cf Feb LN-2) M80 0200-0230 change 11870 to 9550 (NTA 26/11)
- NICARAGUA** R. Zñica, 6120 EG is daily 1600-1630 & 2200-2300 (WBI 17/1) Also with 'Special Sunday morning pgm in English' 27/1 1237; mix of US country mx and steel drum mx (J.Jones)
- NETHERLANDS** As of 4/2, RN via Malagasy to SEAs 1430-1525 on 11735 ex-17855, //21480 (Frits Greveling, DXJB via SCDX 5/2) RN M80: 0700-0720 Waf/Eu 17605 15235 11720 5955. 0730-0825 NZ/Au B-9770 B-9715. 0830-0925 NZ/Au B-9715. 0930-1020 Eu 17605 11930 9895 6045 5955. 1330-1420 Eu 17605 11930 9895 6045 5955. 1430-1525 SEAs M-21480 M-11735. 1830-1920 C&S&EAF 17605 M-15220 M-6020. 2030-2120 C&EAF B-21640 B-17695 17605 M-15220 M-9715. 0230-0325 ENAm B-9590 B-6165. 0530-0625 WNA M-9715 B-6165. B=Bonaire, M=Madagascar (RN 28/1)
- MOZAMBIQUE** R. Mozambique anc'd 24/1 that it would begin ES in EG to Saf at 1800 26/1, on this sked: 0400-0430 on 4855 and 3265; 1100-1130 on 11815 9605; 1800-1830 on 4855 3265, and so observed. At the same time the Voice of Zimbabwe program was dropped, cf LN-9 (WBI 31/1)
- MALTA** The EG pgm 'Malta Calling' of Xandir Malta, Valetta, has recently again been noted on Sats 0700-0800 on 9670 including news 0713-0720; reports to Box 82, Valetta. Malta Calling had not been observed for some months and it is believed it was not being broadcast (Peter Bunn, R. Australia Japanese DX Time 20/1) **KENYA** LN-12
- ISRAEL** V. of Israel tentative M80: 1200-1230 Eu/ENAm 17560 17615 25625; Eu 11620 17685 21495 25640; As/Au/NZ 17560; ME 738 7465. 2000-2030 Eu/ENAm 9815 11610 17645; Af 9009 17685; Eu 11960 17710 21600. 2230-2300 E&CNA m/Eu 9815 11637 15582; Cam/NSAm/NAF 11637 15582; SSAm/Af 17645; Af 17685; Eu 11960 17710. 0000-0030 & 0100-0125 E/CNA m 9815 11637 15582; Cam/NSAm 11637 15582. 0200-0225 E&CNA m/Cam/NSAm 11637; NAm 9815 15582. 0500-0515 ENAm/Eu 11960 15105 17685; E&CNA m/Eu 11637; NAm 15582; Eu 17710 21600; As 21500; Au/NZ 11637 15105 15582 21500; ME 738 7465 (IBA, PA, 9/2)
- IRELAND** (this could also appear in Clandestine Cranny) R. Condor International, Dublin, is again using the odd fq of 11463, every Sunday at 0900-1400, apparently abandoning 6243.3. Per anmts, stn is hoping to be received in NAm, and reports are welcome at RCI, c/o FRC-Ireland, 53 Charlestown Road, Dublin 6. **Boyneside Radio**, a local stn in Drogheda on the east coast, on 1314 kHz is radiating a harmonic, probably deliberately amplified on 6570 (x 5), hrd at 0700-2100 daily, and there is just a chance it could be heard in NAm at *0700; address is 14, Mill Lane, Drogheda, Co. Louth (Mike Burden, Notts., 24/1) **Tralee Community Radio** is hrd at 1400-1500* 20/1 on 4696 apx, an harmonic? Non-stop Irish folk mx; very weak (Pat Travers, Sheffield, UKOGBANI, WDXC ENS who adds their address is 20 St. John's Park, Tralee, Co. Kerry, Eire) **IRAN** LN-6
- IRAQ** R. Baghdad in EG to NAm at 0300-0400 is on 11945 (Wayne Simms, AL, SCDX 29/1) If so, I could not hear it under Spain; no modulation could be heard on an 11935 carrier (gh)
- INDIA** AIR GOS to ANZ 2045-2230 now on 15110 1755 per anmts (Noel Green, BBC WRC 3/2; SCDX 5/2) A recent survey of Indian regionals hrd in Au reveals the following carrying EG mx at 1530: 4820 Calcutta, 4800 Hyderabad, 3375/3365 Delhi, 3355 Kurseong, 3315 Bhopal, 3305 Ranchi, 3277 Srinagar, 3268 Kohima (Michael Willis, Yarram, Vic.) **ETHIOPIA** IN-4
- CZECHOSLOVAKIA** R. Prague anc'd 13/1 that its 1530-1625 to Af would be testing on 21505 7-20 Jan, replacing the regular 13m channel; this use has been confirmed (WBI 17/1)
- CUBA** has begun EG to NAm/Carib on a powerful MW xmtr. During a 27/12 visit to RHC we wondered why they were using SW only, since Cuba is close enough for MW to be effective. A month later the new service was underway. For a long time Cuba has had a quasi-external service overnight in Spanish on many MW channels, "La Voz de Cuba". This continues except on 600 kHz, which at 0500-1100 (probably an hour earlier during Cuba's DST) carries "The Voice of Cuba" in English. A very pleasant chime IS based on a revolutionary march starts as early as 0445, and this xmtr is either off the air earlier in the evening or on a very different antenna pattern. This is a 'regional' channel on which the power is supposed to be limited to 5 kW; however, Cuba is likely using at least 150, as it has on several other channels in defiance of regional broadcasting agreements with the US, which still observes the limit. It's best heard in east-central US due to a 'hole' left by domestic stns beaming away from that area; and, of course in Florida. Pgm are the same as on RHC shortwave where the programs are produced, but not in // to the 0630-0800 xmsn; VOC announces a different mailing

address even tho one of the pgms it carries is RHC's "P.O. Box 7026". Cuba has broadcast in EG before on MW, but not on this scale. Lower-powered xmters were once known as "The Friendly Voice of Cuba" and "Radio Free Dixie". This development brings home the point that there is nothing to prevent R. Moscow from reaching a US AM-band audience. Cuba already relays Moscow on SW and could easily start doing so on MW. We can't blame the Cubans for taking this step. VOA has been beaming into Cuba on MW 1180 kHz since around 1962 (and indeed into the USSR via European MW sites). But one thing isn't quite fair--Cuba jams the VOA (Glenn Hauser, "Shortwaves", Denver Post 17/2) Why bother listening to 600 kHz, when we can just as easily tune in local level harmonics on 2400, 3600 and 4200 kHz? (Terry Krueger, FL, 6/2)

✓ CHINA (Cf Jan LN-3, Feb LN-1) R. MISCELÁNEA RADIAL

VIETNAM A stn hrd at 1410 in Viet on 9679 //9840, at first thought Tay Nguyen, but WRTH lists Hanoi for 9840 In any event, 9679 is whatever 9840 is! (Mike Willis, Yarram, Victoria, Australia) Oh? (gh)

VATICAN The 6210 xmtr was unstable and noted around 6235-6240v at the time of typing (Andy Sennitt, DSWCI Ed, 1/80; so typing in mid-December) Behaving just like a pirate... (gh)

U S S R Kabul DS hrd on 24760 twice around 1600; must be 4 x 6190 inaudible (Sennitt, DSWCI)

URUGUAY Informed sources say there are no plans to modify the time currently observed here from GMT -2; this will continue indefinitely (Daniel M. Faccioli, Montevideo, ADXL) Absurd! Uruguay's location should put it in the GMT -4 zone, but GMT -3 has long been observed, changing to GMT -2 for summer. They sure must like to pretend the mornings are dark and the evenings are light (gh) ES sked will shift 3/3 with change to GMT -3 (Faccioli, SCDX 19/2) !

U K O G B A N I While listening at the upper reaches of my RF-4900, I heard the BBC WS on the unlikely fq of 30140 at 1514 GMT; faint, fading, still audible past 1600 (David S. Miller Natrona Hts PA, 7/2) Nice catch, 2 x 15070, probably under 100 watts; often hrd here during prevailing high-MUF conditions (gh) BBC R. Rainbow hrd on 6965 0200-0300 in SP with EG language lessons; good 17/1 with light fading, STO 434 (John Findlater, Universal City CA) This was a feeder fq; so "Radio Rainbow" is used as program title for L.L. in Spanish as well as French from BBC. Would also be audible on all //Spanish fqs (gh)

UGANDA No xmns have been hrd from R. Uganda's DS SW channels since 2/1; ES in Soroti was last hrd on 6/1 (WBI 17/1) DS obs again on 4976 25/1, the first time Uganda had been heard on SW for 3 weeks (WBI 31/1) NAM svc 0300 15325 still missing mid-Feb (gh)

TRANSKEI (Cf Feb LN-2) Slightly different sked for Capital Radio: 3950 0300(Sat/Sun 0400)-0515 & 1615-2200(Fri 2300, Sat/Sun 2400). 7160 0515-1615. 10 kW now, but to be raised to 50 by May; and 7160 will shortly move to a 31m channel if not already; there are continuing problems with MW coverage (Richard Ginbey, RN DXJB 14/2) My report of 7150 instead of 7160 was in error (Pieter Martins, RSA DX) more SINGAPORE LN-12 SOMALIA LN-12

SINGAPORE R. Singapore turned up for a few weeks in Jan on 4780 in EG, but has since vanished, as of early Feb; best hrd around 1100 (Mike Willis, Vic.) 4780 heard 19/1 and 20/1 at around 1530, // 5052 but 5010 not audible; 30/1 check 5010 was back and 4780 gone (George J. Poppin, San Francisco CA) The 5010 xmtr was used for a test xmsn on 4780 18, 19 and 20 Jan. We have since restored our xmsn on 5010 (Sim Choon Hin, R. Singapore 7/2 letter to Poppin)

SA'UDI ARABIA (Cf Feb LN-13) Something was bothering me about the Bangladesh item at the time and now I realize what it is--BSKSA is on this freq 11855 in EG at that time, whilst Bangladesh has nothwise been reported on that freq, so a mis-ID is likely (gh) Jeddah hrd in FR on 11857 at 0630; a bit of a mess really (Mike Willis, Vic.) Cf Feb LN-14. Maybe Greenwood's unID is the BSKSA feeder noted irregularly on 5260 around 2230 // 5872v. Alma Ata is alone on 5260 from *0000 (Terry L. Krueger, Casselberry FL, 6/2) more LN-12

PHILIPPINES FEBC has loaned its 9715 xmtr for xmns of the Philippines News Agency, Mon-Fri, well heard here at 0830 in EG, 0900 in RS (Antônio R. da Motta, São José dos Campos, Brasil)

PERU I've spent a large amount of time monitoring the new Peruvian on 5035 (cf Feb LN-ADXL) and on 4/2 after late *1011 with slogan "R. ---ta" hrd ID at 1027 as "R. Imasi" (spelling uncertain), Tarapoto, OXC9A or OCY9A; really pro-sounding, Peruvian and LAm mx; peaks at S9 but fades out every 5 or 6 minutes (Stu Klein, FL) Hrd 28/1 1030-1115 and tape I made sounds like R. Pasco (which is a dept. of Peru) 5/2 not audible at 1015, but in at 1050 check; they do mention San Martín; and it's R. Paco, Tarapoto; 80% positive (M. Greenwood, PA)

PAKISTAN R. Pakistan has made some interesting fq changes: 11640 *1330 Urdu; 7375 Rawalpindi HS at 1415 ending nx in Urdu; 11675 R. Pak with AR ID at *1215 (Willis, Australia) Rawalpindi DS in Urdu hrd on 7335 1300-1500, heavy ute QRM (Bob Padula, RA DX 27/1)

MONGOLIA RUB hrd at *0900 on both 4850 and 4995, both good. EG 1220-1250 good on 6383 and 12070; FS in Chinese & Mongolian is on 4952 at present (Mike Willis, Vic.) Cf Feb LN-6, RUB beautiful clear ID at 1220 on 12070.0, calibrated against VNG-12000 (Gerry Bishop, PA, 25/1) No it isn't! It's definitely on 12068, 2 kHz down from Mayak (Syd Osterman, Ont.) ?? (gh)

- MONACO** TWR noted on 9485 until 1711 in Hungarian, from 1713 in Serbo-Croatian (Böschel, GFR)
- LESUTU** R. Lesutu has been heard on 5355 with distorted modulation on the sked of 0400-2030 (Wed & Sun 2105) (Richard Glnbey, RSA, RN DXJB 14/2) A mistuned 4800 xmr? (gh)
- LAOS** Pakse has been untraceable since mid-Jan on 6599 and not found anywhere else. Something wrong with xmr? They disappeared before, in 11/78 but after a month re-appeared on a nearby fq (Isao Ugusa, Kobe, Japan, Feb DX Front Line)
- KALALLIT NUNAAT** is the spelling of ex-Greenland, not Kalaalit, per Saturday Review 2/2, cf Jan LN-7, and Godthab is spelled Nuuk (gh)
- JAPAN** FEN hrd 11/2 on 11750 //6155 with pop mx, JP lesson, numerous FEN mentions, drowned out by Bow Bells IS from BBC Singapore 0855, but then audible under; 3910 also listed but not hrd; 11750 not listed (Joel M. Rubin, Berkeley CA) In WRTVH 80, I presume, but 11750 is an oldtime FEN fq better forgotten due to BBC et al (gh)
- ITALY** Italian Broadcasting Corp on 6250 ex-6251.5 at 1000/2000. In a few weeks also testing over 6275 and 17940 !!!!! (IBC via Play-DX 28/1) Low-power private/pirate (gh)
- IRAN** VOIRI reported 28/1 that clocks would be advanced an hour from 21/3; winter time would resume on 23/9. Local time will be GMT +4½. All DS nx and ES xmsns will be heard one hour earlier than at present (WBI 31/1) I.e., EG at 1830-1930 on 9022, silly as that is (gh)
- INDIA** AIR Bombay commercial svc on new 11765, clear 1000-1200* (Peter Bunn, RA DX 27/1)
- GRENADA** R. Grenada noted this winter on 15150 around 1000 (Steven D. Feinstein, Framingham MA, 25/1) Would be new freq and new time; can anyone confirm? (gh) 15105 peaks between 2000 and 2030, 18/1 (George Graham, Vic., ADXN Feb) 15045 usually missing at 2309 checks, but was on 16/2, no obita (gh)
- GERMANY WEST** Deutschlandfunk pgms relayed by Sines are audible via DFF-97, Frankfurt, 6975 RCUSB from 0530 in Slovak, 0600 Polish, etc. These are for broadcast later in the day as they begin "Dobry večer" (good evening). Wallpaper collectors might be able to QSL DLF this way, on either Sines or the ute (Bob Rankin, Lawrence KS, 21/1) SC repeat of last nite? (gh)
- GABON** Africa Number One has been completely off the air since 22/12 (Glnbey, RNDXJB 14/2)
- EQUATORIAL GUINEA** At least 2 high power xmrts are at RE's disposal at a given time as evidenced 4/2 0545 when 4925 was //5005 (Terry L. Krueger, FL) But when I checked was on 5005 only at 0550, 0600 ID; nothing detected on 4925 (Maxfield Greenwood, PA) cf LN-8 - NZDXT)
- DUBAI** R. Dubai, excellent 30/12 only with test in FR on 21480 at 0819 (Peter Jones, Jan/)
- DOMINICAN REPUBLIC** R. Clarin first noted at end of Dec at 2325 in Italian, 2335 PT for Brazil, all on 4850. At 2400 in SP but blocked by Tashkent (Michael Shaay, Doorn, Netherlands, SCDX 22/1) Strikes me as a bit doubtful, but you never know with this stn, hi (gh)
- CYPRUS TURKISH** As soon as new crystals have been built into the xmrts, R. Bayrak will be on exact fqs of 1095 1503 and 6150=7.5 kW, around Feb 1980 (Jan WWDXC) At the 18th Congress of the Universal Postal Union (12/9-25/10/79) the stamps issued by the Turkish Federated State of Cyprus were declared illegal and of no validity. The adopted declaration instructed the Int'l Bureau of the UPU to call upon the member countries to refuse to handle any mail bearing the illegal stamps. This is going to make getting a R. Bayrak QSL even more difficult (William A. Matthews, Columbus OH, 30/1)
- CUBA** I just got a QSL from R. Moscow, and they list Havana on the card as the site (16/12 2145 on 11860) (Kevin Mikell, Park Ridge IL, 23/1) Maybe a first! It's registered with ITU now so Moscow can afford to admit it (gh)
- COSTA RICA** R. Reloj, fair at 0140 2/2 on 12012, 2 x 6006 (Dario Monferini, Milan, Italy, PLAY-DX) One of the most erstwhile of longstanding harmonics (gh)
- COLOMBIA** R. Mira, Turmaco on 6015 was destroyed 12/12 by the earthquake (Alfredo Polanco Huertas, Tuluá, Colombia, Play-DX 4/2) /more CHINA LN-12
- CHINA** (CF LN-3) I have listened each evening to R. Peking for about 3½ hours. Consistently, I find that here, 15520 is best, 17680 next best, and 15120 worthless; best times are 0100 & 0200 (S. Davenport, Tuscaloosa AL) Some appearances on interesting channels: 4975 HS in Chinese 1100-1400+, 5960 Chinese HS, 1400-1500+, 7208 Yunnan in Chinese 1330-1500; 7299 Chinese HS 1200-1300+, 8566 Uighur 1300-1355*. The HS outlets are not // anything and so may be regional outlets; 7208 causes a real het. Liaoning in Chinese on 4831 also fades in at the interesting time of 0830 (Mike Willis, Yarram, Vic.) Inner Mongolian PBS hrd with EG ID at 2200 on 6840, a first? (Takahashi, SCDX 29/1) Harbin 4925 EG lessons 0930 QSLed in 15 days giving other fqs as 4840 and 5950--the Heilongjiang PBS. Fuzhou 4975 hrd with classical mx and EG recordings 1330-1400 (Arthur Cushen, Invercargill NZ) Heilongjiang PBS, Harbin reported 25/1 that since ads began to be accepted, the volume of ads had increased rapidly, so from 28/1 a portion of time would be set aside exclusively for ads at 2120-2130, 0250-0300, 1050-1100; besides ads at the end of each wx forecast and during the 'Social Service' pgms. This stn also handles ads for the Xinjiang Regional PBS and other provincial, municipal and autonomous regional stns thruout China--our procedures are simple and our service dependable (WBI 31/1)
- CHANNEL ISLANDS** (pirate) R. Channel International, new stn, received a report from Washington DC that it was hrd 1/1 at 0809 on 6552.5; since moved to 41 & 48m bands (Burden, Notts.)

CANADA CFVP/CFCN is making occasional appearances on 6030 between 0800, when SDR sometimes fades out (more or less) and 0855; 16/1 was very good, first for me since April. Top-40, lots of ads, TCs, IDs; nx on the hour sounds like it's from CBS (not CBC)--same electronic jingle (Bob Rankin, Lawrence KS) Anyone wishing to hear CFCN's SW relay on 6030 should try after 1200 when VOA xmtr goes off. It can be heard peaking thru the noise with Alberta time TCs, IDs as CFCN by male DJ. From 1200 to 1230 a het is there from a few hundred Hz up. This goes off at 1230. Sports 1220. Every time I heard 'em they play Styx' stinking song "Babe I'm Leavin'" around 1245. More readable after 1313 when a loud carrier comes on reducing background noise. But you have to listen for this one. In a week's monitoring I heard them 3 times, once with almost fair copy (Paul Kowalski, Milwaukee WI, 21/1) CFVP 6030 poor at 09:50 with top-40, hrd only on beverage antenna w/VOA absent 4/1 only (Leigh Morris, NZ, ADXN) I know it's a VOA xmtr, but the stn is AFRTS! (gh) 26/1 condx were good enough for logging CFCX Montreal 6005, CFVP Calgary 6030, CFCX Toronto 6070, CKWX Vancouver tentative on 6080, between 0750-0830. CFCX & CFCX poor-to-fair, CFVP poor but definite (Dave Mosier, S. José CA)

CAMEROON An unID hrd on 4000 5/2 2255-2302*, presumed African with Waf pops/disco, ID by man in FR at 2300 but mauled/mutilated/dismembered by an ARO, so just caught 'kHz' then into unfamiliar orch. NA and off. I have no idea on this one; no trace of it since (Terry L. Krueger, FL, 9/2) Cf Oct LN-6 for the answer (gh) Cameroon noted on 4000, EG nx 1830, and various langs including FR from fade-in 1700 past 2200 (Miki Vclaf, RSA, 30/1) Yaoundé on new 4000 1735-1845 10/11, often EG nx 1830, FR 1845 (Gerhard Werdin, Sri Lanka, Jan DSWCI SWN)

BRAZIL Am hearing Radiobrás Amazonian DS in PT on reactivated 15445 // 11780 but much stronger and clearer than the 25m fq. Around 0000-0300* when the Nam svc comes up on 15290; for some reason that is not hrd quite as well as the Amazônia svc on 15445; EG trimmed back to an even 50 mins, by the way (Joe Tangredi, Las Vegas NV, 22/1) RNB testing on 15445 from *1900; they don't announce it regularly, tho. Not the same xmtr as at 0300 on 15290; at 2000 the three of them are hrd, 11780//15445, and 15125. RNB say they have 5 x 250 kW RN Rio believe IS may be expanded but they don't have details yet. One night RNB was on 15435 instead (Roberto Levinstein, Madrid, Spain) Agree, 15445 xmsn heard overlapping with 15290 one. Reception oddity in Nevada may be due to 15290 antenna heading further east than 15445 (gh) 15445 Amazonian svc has enormous level at 2000; // 11780 (Noel Green, UK, BBC WRC 3/2)

BOLIVIA R. Panamericana, La Paz, 6035, anc'd 26/1 that from Mar or Apr, it would form part of a networked xmsn to be hrd simultaneously in Eu and LAm. CREA (Euroamerican Radio Broadcasting Network) from Madrid was setup as result of Euro/LAm stn rep meeting 11/78, and a recent conference attended by Spanish and SAM BCers in Bogotá. CREA will broadcast via satellite 15 min per day and will cover European and LAm nx (WBI 31/1)

BHUTAN (Cf Feb LN-5) Obviously I'm more optimistic than B. Whitacre; no station is impossible to hear--unlikely, maybe (Terry L. Krueger, FL)

BELIZE (Cf Feb LN-5) The stn on 1668 is definitely R. Belize, 2 x 834 (Feb SWNS) T.S., NASWA country hunters--this is no longer 'shortwave' (gh)

ARGENTINA Tnx tip from Larry L. Ledlow, R. Rivadavia logged with strong SSB signal on 10680 4/2 around 0000; off soon afterwards (gh)

ANTARCTICA Nothing but a BFO het from LRA-36 in many moons (Bob Rankin, KS, 21/1) As of 7/2 GMT LRA-36 had apparently been missing from 6029 for at least a week. In Dec & Jan readability had been very difficult due to Soviet QRM (Feb SWNS) Note that for M80 AFRTS resumes a 0200 sign-on, so at least there's an hour less of that QRM (gh)

AFGHANISTAN R. Afghanistan hrd on 3390 1400 past 1600, 4775 1400-1500+, 6230 1200-1600+. Listed 7200 definitely inoperative. Recent developments have made little change on this station (Mike Willis, Yarram, Victoria, Australia)

FUTURE PLANS

YUGOSLAVIA In a 25th anniversary report 25/1 Tanjug news agency said steps were being taken to increase R. Yugoslavia's effectiveness: plans to build a modern xmsn centre to increase coverage to a 4000-6000 km radius. RY would then increase output and intro xmsns in additional langs to those now in the RY ES. Despite its present lack of technical facilities, RY will be introing xmsns next month in various langs spoken in Yugoslavia, produced in coop with other Yugoslav radio stns. RY will also be making its foreign-lang pgms available in the Belgrade area this year (WBI 31/1)

U S A WYFR plans for 1980 include work on at least one more xmtr with five more antennas. Inauguration of an eastern-Canadian service with 24h pgming is also planned. A special high-angle antenna is also being built for broadcast to Cuba (WYFR Newsletter via Charley Hoffman) The President is seeking \$96.1 million for the VOA, \$6.6 million more than was appropriated for it in 1980. For the IGA of which VOA is a part, the President has asked \$429,184,000, an increase of \$26 million. BIB (Board for International Broadcasting = Radio Free Europe/Radio Liberty) would receive more than VOA, \$103,835,000, an increase of \$20 million. But of the total, \$5 million is for currency devaluation--most RFE/RL facilities are in West Germany, where the dollar has lost ground to the German mark, and \$813,000 is for BIB. RFE/RL is seeking additional funds for 1980 to strengthen its broadcasting to Muslim areas of the USSR and Eastern Europe in the wake of the Soviet invasion of Afghanistan. The President last week asked Congress for a \$6.6 million supplemental appropriation to make up for purchasing power lost through devaluation of the dollar (Broadcasting Magazine, 4/2 via M. Kent Sidel, TN)

NIGERIA Per FRCN 27/1, the Muslim community in WAF is to set up a radio stn in Nigeria to propagate the message of Islam. "Voice of Islam" will broadcast news about Islamic achievements and will serve as a school for the education and enlightenment of the people of the WAF sub-region (WBI 31/1) OK Christians, you've been asking for this for 49 years... (gh)

MALAYSIA Two new Thomson-CSF 500 kW SW xmtrs and a four curtain antenna array will be commissioned by the Voice of Malaysia xmtr site Kajang near Kuala Lumpur, in April 1980. Present fqs 11900 and 15295 would be utilized, as well as new European fq 17725 (HCJB via WDXC)

ISRAEL Despite the popularity of SSTV (slow-scan TV, one picture per 7 seconds) on the ham bands, it is felt that not enough SWLs have the equipment to make it worthwhile via SWBC stations; nevertheless, if we receive enough response from people prepared to receive SSTV, we might be able to arrange some such transmissions on the V. of Israel DX Corner (Ben Dal-fen, VOI DX Corner 10/2) Another case of the chicken and the egg (gh)

HONDURAS Besides improvements and repairs of its MW and FM stns, R. Honduras anc'd 8/1 that it would be installing a new SW xmtr to cover the entire country (WBI 17/1) WRTVH 80 lists a stn by this name on 870 and 880 MW; however, the WBI report implies that this stn is the government one, which has been known and is still listed as La Voz de Honduras, formerly active on 5872v (gh)

HAWAII KAIM will increase its power on 870 to 50 kW, becoming the only AM stn in Hawaii with that much power; there's no reference to expanding to SW (Decision, via Marlin A. Field, MI)

GREECE is apparently uptight about VOA using sites there for increased broadcasts to Iran, I'm not sure why (gh) The gov't has turned down an American request to use the two relay bases of the VOA (Kavala, Rhodes) for the VOA's new Iranian service. The reasons for this were Greece's desire to avoid involvement in the current US-Iranian antagonism and the recent malaise in US-Greek relations, which has held up the signing of a new contract ensuring the continuance of the existing VOA relays on Greek soil, per press comments (Mark Ward, WDXC Contact) In spite of the prohibition the VOA is broadcasting to Iran from Rhodes since November, it was revealed in yesterday's Washington Post. The US has made vigorous attempts to find sites for mediumwave broadcasts to Iran, according to a National Security Council policy (El. Demetrakopoulos, Thessaloniki newspaper 28/12 via Dario Monferini, translated by Dr. Geraldine Gesell, University of Tennessee, Knoxville) BBCMS has reported Kavala as one of the sites used for VOA SW BCs to Iran as well, cf Feb LN-14 (gh)

ECUADOR Per a recent Escuelas Radiofónicas Populares, Riobamba, QSL, they will 'soon' start xmsns on 5015. No indication as to whether this is in place of, or in addition to 3985, or of exact date of commencement. Whenever they do start it, reports will be wanted (Don Moore) Tests of HCJB's rotatable antenna, and of the 500 kW xmtr when it finally is installed in Ecuador, will be made without previous announcement in order to assure uninfluenced reception reports (Roger Stubbe, HCJB, BBC WRC 23/1)

DUBAI UK magazine 'Broadcast' recently carried this ad for Dubai Radio & Colour TV: "experienced newscasters are required to carry out news reading and presentations duties in our recently introduced EG language TV service. Duties will also include newsreading on our present radio nets in the MF and VHF bands and on our SW EG lang services to be inaugurated early 1980. News editors are also being sought. Salaries in the range of 9000-17000 pounds sterling per annum and contracts are for two years." At least we might get a decent standard of presentation on this new service, unlike most of the EG pgms from that part of the world! (Andy Sennitt, Jan DSWCI SW News) cf LN-6

CYPRUS TURKISH R. Bayrak will start an European svc when they put their new 100 kw SW xmtr into service in 1981, which has just been ordered from Brown Boveri (Kurt D. Zscherp, WDXC)

CLANDESTINE CRANNY Radio Libertad Cubana was busted by the FCC GMT 7/2. I was listening the night of the final broadcast. At 0130 tune in Radio Abdala was in strong with usual interesting info (a 'congreso Abdala' governs the organization). Just before Abdala 0208* Comandante David began IDing in AM (proving that no less than two sites are/were used). RLC then began its broadcast from 0208, but for reasons unknown in USB. All this activity on 7090v, and nothing out of the ordinary noted that indicated an FCC move. No doubt Top Man, FCC FL Ralph Barlow was upset over this one (Terry L. Krueger, FL, who also supplies the following:) After receiving complaints from hams in the US and abroad about powerful QRM for the last few months, the FCC started investigating with long-range, direction-finding equipment. The investigation ended Thursday, with the confiscation of several thousand dollars in equipment at a Miami home, the release said. A federal court then sealed the case meaning the government could not release any further info about the shutdown of RLC. "In general, they seal a case to protect people's lives or because it's an ongoing investigation and arrests have not been made," said John Sale, chief assistant to the U.S. attorney. (Ivan A. Castro and John Milne, Miami Herald 9/2) FCC officials said no one was arrested. Reps of R. Libertad, which claimed to transmit from Cuba over the past year, could not be reached for comment (another 9/2 clipping) I think I heard that R. Libertad Cubana on 7088 23/1 GMT at 0200. However, reception was poor due to Moscow QRM. R. Moscow now on 7085 in Spanish! Later at 0315 hrd man talking in SP, but seemed to be a 2-way conversation with breaks in xmsns (Stephen Webster, Ont.) RLC did that (gh) RLC hrd 25/1 on 7080, 0158 ID, 0159 march, ID as R. Rebelde, 0200* (Charles Kristan PA)

La Voz de Alpha 66 has been on the air for about a month (unID Miami 9/2 clipping; via Terry L. Krueger) Andrés Nazario Sargén, secretary general of Alpha 66, said he foresees no problems for their anti-Castro broadcasts on the 40m band. He said the station does not broadcast on a regular basis. But the govt doubts there are more illegal broadcast plants aimed at Cuba. "R. Libertad IDED in more than one way. It might be that there are not several stations but one with different IDs," said an FCC-spokesman (Castro & Milne, Miami Herald 9/2) A new anti-Castro Cuban stn was noted at SWNS HQ on 7055a 5/2 from 0140 tune-in until 0147* ID as "La Voz de Alpha (66?--not sure of last word)" (C.M. Stanbury II, Ridgeway Ont)

Radio Abdala, despite the shutdown of R. Libertad, says it will continue broadcasting to Cuba. Marcos Regalado, a member of Abdala said "We have been broadcasting since 1972 and we aren't going to stop now. But we won't admit our plant is in the U.S." He said the station broadcasts on Mon, Wed, Thu, Sun with news, editorials and protest songs (Miami Herald, as above) R. Abdala hrd same date as Alpha 66, 5/2 around 7080 from *0102 to 0126* when it abruptly left the air in mid-program (SWNS)

Radio Revolucionaria del Pueblo The YSKL net reported 21/1 that members of the 'People's Revolutionary Army' had temporarily seized 21 radio stns thruout the country. They used the opportunity to announce i.a. that their own stn would begin broadcasting in the central departments of the country from 1600 22/1, between 1400 and 1600 kHz (WBI 24/1) The inaugural broadcast was hrd 1630 22/1 on 1600 kHz. Amnts said it was 'the official voice and instrument of struggle of the ERP from somewhere in our heroic fatherland in the year of unity and final liberation'. The stn, which broadcasts to the central depts of El Salvador, does not at present have a fixed sked and does not broadcast daily, just amnts and communiqués at odd hours. However on 26/1 listeners were advised to tune in on Tues or Fris at 1830 or 2400. Altho this was the stn's fixed sked, it might not go on the air on those days 'for reasons beyond our control' (WBI 31/1)

Numbers 26/1 until 0215 heard 5-digit numbers on 9975, with a slight German accent. I wonder if it wasn't English (Wheeler Conover, Manchester KY) ?? (gh)

Radio Red Wave, Rome, was shut down in a swift raid by police that netted three suspects on charges of subversive activities. Tapes were also confiscated. Anti-terrorist police shut down all broadcasting operations. Radio Red Wave is one of many private FM stations that regularly broadcast political propaganda (UPI Rome 22/1 via Wash. Post 23/1 via R.L. Foxworth)

V. of Kurdistan Newspaper correspondent Franz Sitte visited this 'wandering' stn, which changes fq often and seems to be on the air irregularly, in hills just over the Iraqi border after travelling a short distance from an Iranian city (probably Mahabad?). It uses a 400-watt Swedish xmtr driven from a generator, and a collapsible 15-m antenna mast. Two one-hr pgms are broadcast daily - in local mornings and evenings - with nx and favourable publicity for the Pesh Merga guerrillas and the Kurdish Democratic Party; and Kurdish mx. Apart from Kurdish, the Turkish, Farsi and Arabic langs are used; the stn must be influential in spreading nx: the rate of Kurdish illiteracy is very high, but there should be at least one transistor radio in every Kurdish village! Kurds always seem to know where to tune to hear their stn, even tho it jumps around, e.g. to the 75m band and to 6990; most recently hrd on 5990 /sic/ at 0500 & 1400 (John Campbell, Jan DSWCI SW News based on an Austrian newspaper article forwarded by Johann Wiespointner)

Free National Voice of Afghanistan hrd since 31/12 at 1745 on 16745 with battle reports; on 14/1 at 1100 around 16520 a pro-rebel stn, perhaps a different one, was hrd with a 10-minute EG broadcast; poor reception (Neal Clark, Great Britain, SCDX 29/1) Smells slightly fishy(gh)

Voice of Palestine, Voice of the Palestine Revolution on 14/1 was observed in Arabic on 1143 kHz instead of its usual channel; thought to be in Lebanon (WBI 17/1) Anc'd 21/1 it was on 1270 with experimental xmsns at 0500-0600 & 1600-1800 to Palestine, Jordan, Syria, Egypt and Lebanon. Hrd 21/1 on 1270 with Palestinian nat'l songs until 0715* (WBI 24/1) more LN-12

Kampuchea etc. The radio transmitter; We are ready, but I must tell you that world opinion doesn't like your radio broadcasts, any more than those of the Thai Communist Party and the Malaysian Communist Party. People hold them up to ridicule as not reflecting the truth. For the moment, don't put the CP in the foreground; rather emphasize patriotism, nationalism and democracy. These banners are more important. How shall we send you money? Via Bangkok? Via Kriangsak? Via the Bank of Thailand? You can draw money at any moment. A fund of five million dollars will be put at your disposal and you can draw from it at any time. This money will be deposited either at the Bank of Thailand, the Chinese embassy or the Kampuchean embassy in Thailand. You can use this money right now. The fund will be renewed as soon as it is exhausted (Deng Xiaoping, in a conversation with Ieng Sary 13/1/79, a captured document made public at the hearings held by the People's Revolutionary Tribunal in Phnom Penh to try Pol Pot and Ieng Sary for genocide, 15-19 August 1979, excerpted from Vietnam Courier 11/79 via DX Front Line Feb) see TANZANIA LN-11

Zimbabwe People's Revolutionary Voice hrd at 1700-1900 on 5010 6135 via Madagascar; EG nx at 1715 (Rikard Johansson, Indian Ocean, via SCDX 5/2) This pgm presented by the Patriotic Front thru R. Zambia ES facilities, continues to be broadcast from 0700 on 7250 (WBI 24/1)

Voice of Zimbabwe on the 1200-1230 25/1 pgm said its last BC via R. Mozambique would be that evening at 1800. Had been on since 4/3/76, 'an assertion of Moz's internationalist duty and commitment to Zimbabwe liberation struggle'; replaced by R.Moz ES in EG, cf LN-2 (WBI 31/1)

V. of the Pyramids A reminder of the Mar 8-9 tests, Cf Feb LN-10. The 0400 broadcasts will use a N/S dipole; and another broadcast is planned Fri nite Mar 7 time undecided for 30 min on 1615 kHz. There will also be unannounced tests between Feb. 28 and Mar. 8 on these freqs, \pm 20 kHz: 3240 4670 5825 6250 7470 9330 11650 15020. All reports via FRC-USA (FRC-USA Feb)

R. Indiana will test on 4004 kHz at 0530 GMT the 1st GMT Sunday (Saturday local) in Feb. Power 215 watts RF output; Antenna: 60' longwire. R. Indiana is now in a new location with new management. Freedom for Indiana! (postmarked Aurora IL 21/1) Tuned in at 0546, zilch(gh)

V. of Revolutionary Binco will test this week only, Fri at 0545-0600 GMT on 7420 (Anonymous call from female 2353 24/1) When I asked what Binco meant and tried to clarify whether the day was local or GMT, the caller was unable to explain. "We'll get back to you" (gh) If pirates want RCI or NASWA advance publicity on tests they must provide info far enough in advance to meet our deadlines! (gh)

R. Confusion hrd 20/1 on 7365 (cf Feb LN-10) 0000 sign on to 0045 fadeaway; barely readable, some ham QRM. Pop mx, IDs by M; "This is our first xmsn". Reports invited via FRC-USA (John Fisher, MA) 7365 apx, 20/1 0000-0245, poor-to-good signal. Rock, ancr Crazy Roger, frequent IDs as R. Confusion SW and R. Confusion World Service; game show 0152, nx in Special English at 0202; time checks were accurate, so must have been live (Scott McClellan, Battle Creek MI)

Voice of the Purple Pumpkin on 7360a 19/1 1602-1604*, very good signal; tuned in during nx; quick ID and carrier off; back on about a minute later with 2 widely spaced IDs, said it was a test, with a power of 5 watts. Said 'all QSLs /sic/ are to be sent to the normal QSL routes'. Also said would be back tomorrow night at approximately 0500 hours. Ancr sounded like he had a cold; strange time for the freq; pls QSL, address below (McClellan)

V. of Radio Jolly Roger, 7360a, 20/1 0459 tune in to 0558*, very good sig, EZ listening vocal mx. Also IDed as R. Jolly Roger. One skit where the captain of the ship made Donna Summer and her disco walk the plank (hooray!) Ancl'd coming from the 'great northeast'. Ancl used disguised voice. Pse QSL to Scott McClellan, 127 N. Broad, Battle Creek MI 49017.

"WRAG" hrd again 10/2 at 0700, same as before, same phone number, "Ray Haber" promised QSLs but no details on QTH or power; was on 6953 apx; said it was first time on since 14/1; trying to vary broadcasts (Derek Lowe, AR) Also hrd 10/2*0800-0925*, rock including LedZep, Bob Dylan and Fleetwood Mac. Many IDs such as "This is WRAG, somewhere on the East Coast; Making Shortwave History"; S10 222. I called at 0830 and was promised a 'SWL card' (John Fisher, MA) 21/1 I monitored 6965 at 0130-0630. At 0146 an S-7 carrier came on, then male with "This is WRAG testing" several times, nothing more heard from 0149 to 0630! Level and copy were excellent. Positively "WRAG" this time (Paul Kowalski, Milwaukee WI)

Green River Radio Cf Feb LN-11, the phone number reported is not in San Francisco but in San José. The 269 prefix serves the Almadén Valley in south-central San José, south of Blossom Hill Road and centered on the Almadén expressway. The Almadén Valley provides the wines and it is one of the elite sections of this area. I've tried calling the number; only result so far is a lot of rings and no answer (Dave Mosier, San Jose CA) Because of the science fiction programming reported and the name "Alderean Broadcasting Co." I have a hunch these are run by a bunch of SF freaks. "Alderean" is from the movie "Star Wars", Princess Leia's home planet which was later destroyed by Darth Vader & Co (Doug McClure, Medina OH)

"KVHF" I was able to obtain the current address of the L.A. FCC Field Office, now in Long Beach, and on 23/1 I wrote another letter trying to find out if they busted KVHF. On 4/2 I got a reply, which said "We have no knowledge of the problem." (Dave Mosier, CA) KVHF 9/2 at 0740 with pop mx, no anmts on 6420 (Derek Lowe, AR)

Radio 12 logged 31/1 on 2400 kHz around 0100; EST time checks; obviously harmonic of a 1200 kHz pirate (C. M. Stanbury II, Ont., SWNS HQ) unID stn hrd 26/1 on 2400v, 0010-0357*, lots of oldies, "Blue Velvet", "Harbour Lights", "I Will Follow Him". One QM DJ, and occasional brief dialogue between OM/YL that appeared to be prerecorded. EST TC. Reception from very poor to good with a lot of fading. Doubt this could be a MW harmonic as not one ad hrd, nor anything resembling an ID on the hour. If your pirate, please QSL (Don Moore, Box 157, RD 5, Bellefonte PA 16823) You mean, not a harmonic of a legal MW stn (gh)

6980 illegal hams, judging from their lingo; IDing as "Number 1", "Number 27", and "Mister X" and at least one of them was mobile, and south of USA by implication; 3 or 4 of them on USB (Derek Lowe, AR, 12/2) Time? (gh) see also CHANNEL ISLANDS LN-6; IRELAND LN-2

European Music Radio's test to Nam Sun 16/12/79 at 0800-0900 on 6235/7325 (actually *0753) was very successful. EMR received a report from Chatham Ont, as well as ten from the USA (4 from CT, 1 MA, 1 NY, 2 DC, 1 PA, 1 MI). The test also received an interesting report from the other direction--Tallinn, Estonia, USSR! (Mike Burden, England, 24/1)

R. Impact will make a special test to Nam Sun 24/2 at 0600-0800 on 7325; reports via Kent Place, Norwell, Newark, Notts, England (Mike Burden) Too late here but you heard me mention this on RCI and RN DX programs, didn't you? VOA-Woofferton sked on 7325 0600-0700! (gh)

R. Caroline, Dublin once in a while may be heard on 5930, 6210, 6250, 6275, 6310 or 6350 with about 20 watts; address is c/o Disk -It, Finglas Village, Dublin 11 (FRC-USA Wavelength Feb)

R. Tic-Tac, French pirate hrd 13/1 0800 on 6240, location? Fair-to-good (Andrea Lawendel, Italy, PLAY-DX)

R. Tonga Tonga continues without problems on 1616 *2100-2230* Suns, and a late night international pgm at weekends around 0100 Suns on 1320 or 1330, one week in every three. The Dutch pgms on 1616 play new records of indigenous Dutch popular mx. Highly recommended! The stn name is indeed connected with the original Tonga: the operator has a great admiration for that Kingdom and its 150 kg King. Shares mailing address of Postbus 10, 7954 ZG Rouveen /Netherlands/ with R. Cloricklanken, the religious pirate (John Campbell, Jan DSWCI SW News)

Italian pirates Azur 102, Radio Midi, Nova International, R. Vintmille /sic/ and Stereo 103 beam transmissions to France. Most, if not all, of these operate on FM and are interfered with by three French govt jamming stns (Feb SWNS quoting Billboard 19/1)

DX PROGRAMS

European Music Radio 1200-1300 broadcast on 6235 observed 30/12 included Al Mick's DX report from FRC-USA (Gordon Darling, WDXC MM)

U S S R R. Moskau's German DX pgm has been changed to Wed 1820, Thu 1650, Sat 2050; the Sat 1000 & Sun 1600 airings have been deleted (Jan WDXC DX Magazine)

U S A gh's DX/SWL program WORLD OF RADIO has added a couple of stations: KERE-710 Denver CO Suns at a time not finalized in the 6-8 pm MST block, *perhaps 6:30; and via new stn WUTC-88.1 Chattanooga TN simulcast with WUOT, Sats 1 pm EST (tho on these stns pre-empted twice in March due to Metropolitan Opera earliness) (gh) When announcer Beba Cardona finishes the DX course, there will be a 5-minute DX segment during the VOA Club de Oyentes program Mons 0110 (Juan Saganichiny, VOA via ADXL) I will be writing this 3-5 minute feature, at first planned biweekly but changed to weekly, most likely starting around 0113-0116 but sometime during the 0108-0145 period, on 1180 6190 9670 11895 15400 17780. It will start out as a basic course in DXing, then expand to include more feature material and interviews, questions from listeners, etc (Jeff White, Schaumburg IL) Probably started 18/2 (ibid.)*KERE at 6:30, yes!

U K O G B A N I I am pleased to note that BBC World Radio Club is making more use of BBC MS Info, in a semi-regular spot voiced by Andrew MacDonald (gh) From Jan 80 BBC will carry a DX program in Spanish, 10 min during the evening pgm to Spain at 2115-2200 on 3970 6030 7235 9825 (REE DX via ADXL) Sundays at 2130; hope they'll put it on the LAm service too (ADXL) Hrd on a Sun at 225-2140; the first program left a lot to be desired (Levinstein, RN 14/2)

POLAND Per anmt on 27/1, the Polish R. DX pgm is on the 2nd and 4th Suns; I hear it at 1225 on 7285 6095; 1625 on 9540; pgm was about all the reception reports they'd gotten (Richard Larson, Bochum, W. Germany) So, cf Jan RIB, may not be on all PR Sunday broadcasts, as they are not otherwise identical; if that's all it's about, not what we'd call a DX pgm (gh)

NEW ZEALAND R. Pacific DX session on MW 1593 kHz has been retimed to Sat 1700 GMT (Sun 6am NZDT) and from 2/3 when std time resumes, will be 1800 GMT Sat (Arthur Cushen, NZ)

GERMANY EAST RBI's 18/12 DX pgm said that from 1980 it would be repeated on Fridays of the week it appears on Mondays (GMT Tues) at 0500 on 6040 (GMT Sats) (Daniel A. DeCarlo, Salta, Argentina, ADXL) This applies to Spanish; are they doing the same in English? (gh)

BELGIUM BRT's Sunday DX program is now on every week, not fortnightly (BRT DX 10/2)

ARGENTINA I heard an anmt on RAE's excellent but Spanish-only DX program that Carlos Maslatoñ, who had been preparing it, was turning it over to another DXer, Roberto H. Iglesias (gh) The ADXL DX program "Diexismo en 1230" due to stn programming reasons on LT2, will go on the air 15-20 minutes later than the fixed time, so stay tuned and be patient (ADXL)

PROGRAM NEWS

U K O G B A N I Among this month's BBC WS Plays of the Week is Oscar Wilde's "The Importance of Being Earnest", Mar 22 1830, 23 0030, 1130 Quiz "Brain of Britain 1980" is back, Tues 1130, Weds 0830, Thurs 1830, Fris 2330. Two special programs "The Road to the White House" may give us some much-needed outside perspective to the presidential race: Mar 15 & 22 1130, 16 & 23 1830, 21 & 28 0230 (gh, from March London Calling)

TANZANIA R. Tanzania ES has now stabilised pgms and fqs 15435 with 9683 infrequently in parallel: 1530 music, 1600 News, 1615 music and/or quiz, 1730 woman's world, 1800 news, followed by 3 semi-clandestine pgms: 1815 Pan African Congress, 1830 V. of Namibia, of SWAPO; 1915 V. of Zimbabwe on behalf of PF/Popular Front/. News at 1900v, 1945* (QTH Africa 20/1)

BELGIUM Beginning Apr. 2 and continuing for five weeks, BRT's Tuesday and Wednesday evening programs will be broadcast live in "Operation Mobile Studio" from different places in Flanders, as part of Belgium's 150th birthday celebration, and to publicize SWBC among the Flemish. Live, presumably on the 1615 GMT broadcast to Africa and tape-delayed at 0015+. More details on this in the March REVIEW OF INTERNATIONAL BROADCASTING (via David Monson)

LAST MINUTE ITEMS

SWEDEN R. Sweden M80 EG to Nam: 0030 11905, 0230 9695 & 11705, 1400 21615, 2300 11705 & 15275. The 0030 xmsn will be deleted from Apr. 6 and be replaced by Portuguese to Brazil (STA 30/1)

SWAZILAND (Cf Feb LN-7 & 13) TWR Manzini testing for As 15150 0000-0100, 11795 0100-0200 (Shigenori Aoki, Nagoya, NDXC via RA DX 10/2) This may replace TWR-Bonaire 11925 0050-0135 xmsn in EG to SAs (Alok das Gupta, Calcutta, ibid.)

SOUTH AFRICA At the suggestion of the IFRB due to Hun... on 15220, for M80 R. RSA to NAM in EG at 0200 is moving to 15265; WAF/Eu at 2100 resumes 21535 from 11900. New sked for domes-

tic SW svcs as of 24/2: Afrikaans morn & eve 4880 3965; daytime 9560 15285. English morn & eve 4835, daytime 11790. R. 5/R. S. Africa 3250 night, 9680 day (R. RSA DX Corner 16/2)

SOMALIA R. Mogadishu hrd on 30474 till past 1210, 5 x 6097; fair to poor (Victor Goonetilleke, Sri Lanka, Feb UADX) Can't be radiating more than a couple of watts here (Gerhard Werdin, UADX Ed) Very interesting, in that I have heard a Colombian 5th harmonic on exactly the same frequency, LV del Centro (gh)

SINGAPORE R. Singapore reported that the Singapore Broadcasting Corp. would come into operation 1/2 and would take over all the functions of Radio & TV Singapore, and the new name has been announced since that date (WBI 7/2)

SA'UDI ARABIA BSKSA has been noted in Arabic after 2030 on 2325 kHz // 15060 (Andrea Sella, Kenya, SCDX 19/2) Wonder if it's a harmonic from MW? Fqs don't seem to fit tho (gh)

PAKISTAN R. Pakistan in EG to UK 1700-1730 now on 11680 9460 (WBI 7/2) Maybe not for M80(gh)

NIGERIA VON broadcasts in FR daily 0700-0800 on 15290 (Marc Labernadière, Nogent sur Marne, France, SCDX 5/2) A rare new fq for them, if correct, and may also affect EG (gh)

KENYA VOK skeds: Nat'l Service in Swahili: Nairobi: 7140 0630-1330; 4915 0300-0630, 1330-2010(Sat 2110). General Service in EG: Nairobi 7125 Mon-Fri 0900-1100; Sat/Sun 0620-1315. 4804 0300-0620, 1300-2010(Sat 2110). Also, Sunday s/on for both services is 0330. The Vernacular services (not broadcast on Sundays or public holidays): Nairobi: 7150 0900-1045, 4950 1430-1900. Langs include Kikuyu, Kikamba, Kimeru, Masai, Hindi. North-eastern & Mombasa stn. 4885 0330-0630 & 1230-2005; 7240/7210 at 0630-1230; no EG, but relays some Nat'l Svc in Swahili and has own pgms in Smali, Turkana, Rendille, Boran (WBI 2/80)

CHINA Some EG lang lesson times on regionals: Yunnan PBS Pgm I 7209 4760 2460 at 2200-2230 & 1300-1330. Sichuan PBS Pgm II on 5900, at 1200-1300 (Nagoya DXers Circle via RA DX 10/2) R. Peking in Khmer noted on 30250 at 1200, 2 x 15125 (Victor Goonetilleke, Feb UADX)

AUSTRALIA R. Australia Feb changes expected to carry over into M80: PNG/NWPac 11770 ex-9625 at 2000-2200; 21650 ex-15355 at 2100-0530; and 17795 extended to 1800-0630 (Noel Green, BBC WRC 17/2)

AFGHANISTAN R. Afghanistan obs since end of Jan with DS Pgm I in Pashto & Dari on 4460 or 3965. The exact pattern of fq usage not yet established; maybe testing. On 1, 3 and 5 Feb obs 1600-1930 on 4460; 2 & 5 Feb hrd on 3965; at all times //usual fqs. The 4775 kHz channel has been varying ± 4 kHz recently, 0125-0335 & 1100-1630 (WBI 7/2) dates sic (gh)

CLANDESTINE VOPVOPR anc'd that from 3/2 it would have 2 xmsn periods (instead of 3), at 0500-0700 & 1500-1800 (WBI 7/2)

PUBLICATIONS

World Radio-TV Handbook 1980 is now available for \$14.95 from GILFER, Box 239, Park Ridge NJ 07656; or for \$15 from Don Erickson, 6059 Essex Pl., Riverside CA 92504. An essential reference book made even more valuable by Larry Magne's extensive receiver review article (covering table model SW receivers only)--a must for anyone in the market for a SW receiver (gh)

UADX Tropical Bands Survey of Afro-Asian-Pacific stations, as monitored in South Asia and South Africa and Australia, 10 pages with main list by frequency, succinctly showing IDed and unID stns, times heard; cross-reference by country. Cost outside S. Asia is US\$2 by airmail (including a sample of the UADX bulletin); may be ordered via Larry Magne, 15 N. Central Ave., Rockledge PA 19111 (Victor Goonetilleke, UADX)

Broadcasting Stations of the World FBIS is still sending out a form letter saying it is no longer published, and recommending the WRTVH instead (via Larry Magne)

Radio-Télé Luxembourg A series of extremely well-written articles commemorating its 50th anniversary appear in the 26/1 Billboard. In-depth analysis of the dynamic quality of CLT's program format, history, future plans, influence on Euro audience, record market (Pappas, PA)

The Allocation of the Radio Spectrum, article by Charles Lee Jackson, in the Feb. Scientific American, pp. 34-39. Article is too brief, ending just as it gets interesting with a discussion of the proposed 'anarchy band'; but includes a very good /US/ spectrum allocations chart. You'll have to buy the issue rather than copying as it is extremely color coded (gh)

Communications World 1980 is now on the stands; contains a lengthy article by Don Jensen on the 'fundamentals' of the hobby. Also, product reviews of the MFJ signal enhancer, McKay-Dymek DR33C and the Realistic DX-300; discussion of the vertical dipole, and the usual Whites Radio Log (Rufus Jordan, PA)

Pirate Tapes, studio quality and excellent off-air quality cassettes of various European and American pirates, including EMR, R. Caroline, WDAB are being sold by FRC-USA to benefit HAP. They aren't cheap but you will be helping HAP by ordering from us. For a complete list, send 25c and a SASE (Al Mick, Free Radio Campaign-USA, R.D.#2, Box 542, Westcosville PA 18106)

Review of International Broadcasting is an excellent publication providing a forum for SWL opinion on programming, etc.; program info, DX tips; well balanced and an absolute 'must' for novices or professionals interested in SW Radio. For those in North America, the subscription rate is \$12 for 12 issues, from GH, RIB, Univ. Radio WUOT, Knoxville TN 37916 (R. Jordan)

IN MY OPINION

(S. David Klein, Gainesville FL): With regard to the phony loggings submitted to Jan. LR-A by the cretinous ass masquerading behind the moniker "Ralph Jensen"; I think most DXers/SWLs will join me in condemning this act of what is obviously a juvenile idiot. There's enough trouble keeping up with real logs -- witness the mess on 15350 (no further comment there) -- we hardly need bogus ones submitted by someone with an axe to grind. I'm sure most club members serious about the hobby feel the way I do about this.

I find it interesting, however, that there are those who are more interested in finding fault with Editor Krueger (cf Feb LN-5) than in condemning this irrational act--obviously what the perpetrator desired--and that in itself makes one think...

I won't lower myself to refute what was said--anyone with a head on his shoulders can see it was balderdash--besides, that's not for me to do. What I am saying is that there is enough difficulty for the editors in putting together a good bulletin; far too few members contribute. It should not be necessary for anyone (even a jackass like "Ralph Jensen") to make the job harder. I feel that if his identity is discovered, he should be bounced from NASWA at the speed of light. We have a good club; we don't need idiots screwing it up!

(John Schmelzer, Albuquerque NM) I'm tired of reading about the "Russian woodpecker". Anyone can tell by the strength and lack of dispersion (stretching) of the pulses that they have travelled only one hop! (Just between you and me, there has been an over-the-horizon radar station operating in Maine for the past five years.)

(Michel Baron, Chicoutimi PQ, Jan COCQ L'Onde) (Cf Feb LN-14) One of our new members, M. Lucien-Albert Dargaud, took seriously the information about propagation-by-phone and called the number (613) 996-4824 to obtain propagation predictions. He gives us his impressions: The number is that of the Ionospheric Section, Telecom Engineering Lab., 1241 Clyde Ave., Ottawa, Ont. Canada K2C 1Y3, a service of the Canadian Government. The call was answered by Mr. Patrick Brown. This service can furnish, upon detailed request, any information concerning propagation conditions (for example, M. Dargaud asked for the MUF to different points in Canada). You will be asked to confirm your verbal request in writing, but the info may come to you by phone a few hours later as well as in writing a few days hence. M. Dargaud points out that this was all conducted in French. Thanks to Pierre Gagnon and Lucien-Albert Dargaud for this information.

(David K. Maxfield, Ann Arbor MI) Regarding Listeners Notebook: 1) Use of day/month dates is misleading. Some people will read it month/day. Why not style it with Roman numerals to prevent misunderstanding? Especially since other FRENDX sections use the month/day system and those who refer to LN in a hurry may infer the wrong date. 2) Rotating countries, with ANDORRA first one month and VATICAN (or YUGOSLAVIA) first the next, may distribute priority in sequence more equitably. However, it sure louses one up when referring to back issues in a hurry to verify schedules! Please give up your ZYX order in alternate months!!!! (Perhaps, you do not realize how much people rely on your work for constant reference in the midst of hectic DX/SWL work. You, sir, are a sine qua non!!!!!!!!!!!!)

gh: Thanks for the nice words and your suggestions. Both these practices are occasionally protested by someone, but there doesn't seem to be any massive dissatisfaction. The day/month system was adopted here to put us in step with the rest of the world, especially since much of the info in LN comes from overseas sources. Yet some point out that the most 'in' method of date rendering now is the computerese 1980-03-05 for March 5, 1980 and advocate that instead (SCDX uses it). I will not use Roman numerals for months because 1) They can be cumbersome and space-consuming (especially August!), 2) They require shifting where otherwise unnecessary and 3) Are used by SWNS which LN must not resemble under any circumstances! I have never been quite satisfied with the ABC/ZYX alternation myself, since the Ls, Ms and Ns always wind up buried in the middle! So perhaps I should start an ABC...XYZ, BCD...YZA, CDE...ZAB progression; reader opinion on this would be welcomed. People also point out that pirates are quite distinct from clandestines and should not be grouped under this heading. While agreeing to a point, there are some stations which are borderline and this saves me from having to decide which they are (they often wind up as the 'transition item' in the ordering of a C.C. list, which you will note does progress from clandestine to pirate or vice versa each month, often in geographical terms).

(Alan Brinkley, Chapel Hill NC) I certainly get some benefits from NASWA membership, and I have found many rank and file members very open and helpful when I wrote them for help of one kind or another (more so than the busy officers, of course). I have begun to think that the hierarchy may well be perpetuating a DXing emphasis which no longer represents a majority of the membership, but since there's not much participatory democracy in policy-making, the chiefs don't have to worry much about that; can just go on sending out whatever smoke signals they are used to.

LAST, LAST MINUTE ITEMS (Not cross-referenced), from Tony Jones, Paraguay, 4/2:
 BOLIVIA 5312, R. Robore, currently on much reduced power and sked 1100-0100 (Sun 2100).
 6034, R. Panamericana, now *1000 (ex-*1030) weekdays. Believed to have changed during December. 6185 R. Batallon Colorados, briefly *1000 during Dec, since 1/1 reverted to *1100; Sundays *1200, tho may be variable.
 PERU 6140, unlisted stn announcing 1590 MW and 6140 brd around 0400 early Feb; from Dept. of Pasco per amnts; unable to make out location (which is also the name of the station).

RESPUESTA A SU INFORME DE SINTONIA.

Señor Christopher R Lobdell

Stoneham, Massachusetts 02180
USA

Su atenta carta de fecha 18 noviembre / 79

1979 ----- une a nuestros pue-

blas al establecer un puente de amistad promovido por este maravilloso invento de la Radio-comunicación. He tomado en cuenta las características de sintonía de RADIO VICTORIA en su onda corta. Las mismas coinciden con reportes que hemos recibido de otros lugares del Hemisferio Occidental y diversos puntos de los otros Continentes. Su mensaje es merecedor de gratitud.

Mr. Henry Ward Jr.,
16 Wellington St. Appt. 17
SHERBROOKE, Quebec, Canada

I feel very honored to be able to present QSLs such as this in our column. Thank you Henry.

Dear Sir,

We acknowledge with many thanks receipt of your letter and card of the 2nd ult. advising that you had been successful in picking up programme broadcast from our M/V "Kanjala" Station VK 9MI on 1st ult. at 6.46 a.m. E.S.T. at which time she was broadcasting a programme to land station 3HA Hamilton, Victoria.

We regret to note that the reception was not altogether satisfactory, but we can only imagine that the interference of Station C.J.C.X. together with atmospheric in your areas was mainly responsible. However, it is very interesting for us to note that you are endeavouring to pick up our programmes from time to time and we hope to hear from you again should you be successful in future.

Once again thanking you and enclosing our Q.S.L. Card for your collection.

Yours faithfully,

McIlwraith McEachern Limited.

(E.G.Lister)

PIRATE TAPES: Al Muick is presently selling 5 different studio quality tapes of European pirates. Half of the proceeds that he raises will be donated to this years HAP fund raising efforts! For additional information, please send an SASE to Al at RD #2, Box 542, Wescosville, Pa. 18106.

NOTES: Connecticut DXer Al Sizer reports that 181 countries were reported to our QSL Column in 1979. Paraguay was one of the missing along with Tristan da Cunha. Hi!

Brandon Jordan of P.O. Box 62, Adamsville, TN. 38310 is looking to buy or trade for a Radio Mira, Radio Japan and a pre 1977 Emisora Gran Colombia pennant. Brandon is also interested in starting a pennant collectors club sounds interesting...Sam.
Thanks for the letter Leslie. Always nice to hear from you....Sam.

(816) 931-5943 0030-0400 GMT only!

UPCOMING DEADLINES: 12 March (Mid-March) 23 March (April) 10 April (Mid-April)

Reproduction permitted provided credit is given original reporter and NASWA UPDATE. Dates, times and days are GMT; freqs are kHz.

- ALGERIA** Algiers, 9610, in EG 2105; nx, tirades against Israel and US. Disco mx after nx. Best ever here w/ little QRM. (Chris Leithner, TN 2-5)
- ARGENTINA** R. Nacional Mendoza, 6180, in SP 0938-58; tango and opera vocals, two clear IDs, TCs by M, and live mass at 1010. New for me. (Terry Krueger, FL 2-10)
- BANGLADESH** RB, 15285, in EG *1230-55; IS under Berlin, ID by W, and world nx by M. Very poor w/ mx to 1254. (Cartwright, PA)
- BOLIVIA** R. Progreso, 6005, in SP *0923-50; s/on w/ annmt, ID, ment of freqs. Slogan--"la palabra de Bolivia para el Mundo". Mx and group of annmts 0930-37 in seeming Aymara or Quechua. Lively local mx, and ID 0938. Reloj off. (Henry Lazarus, LA 2-9)---Same good w/ Reloj off 1010-1036; annmts by M, tinny band mx between each, ID, TC and world nx headlines. (Krueger, FL 2-10)
- BRAZIL** R. Bare, 4895, in PT 0320; live sports w/ fast ID over the live annrs. (tba)
- BURUNDI** LVR, 3330, in almost as well as Cultural 0358; talks by M in Kirundi, Afr mx to 0400. Then into nx w/ several ments of Bujumbura. (Dan Robinson, DC)
- CAMEROON** Yaounde, 4850, in FR 2242; talks w/ US and Afr pops. (Leithner, TN 1-30)
- CANADA** CFCX, 6005, in EG 0850-0923; phone-in talk show, nx 0900. IDs as CFCF Radio 60, annmt for Heart Foundation. Fairly good till overpowered by Progreso at 0923. No Reloj. (Lazarus, LA 2-9)---Same at 0910 w/ phone-in talk show. Various topics, phone number seems to be 790-0741. Many MW but no SW IDs given. Fair w/ no Reloj. Also heard next day 0815 w/ pops, ID, TC, weather. (Leithner, TN)+++CKZU, 6160, in EG 0858; nx, mentions of British Columbia, IDs for MW and SW. Barely there 0910*. (Leithner, TN)
- CENT. AFR. REP.** Bangui, 5035, in FR 0430 s/on. NA, talk by M, guitar bridge, and clear ID. (tba)
- CHILE** LV Chile, 15140, in EG 0018; IDs, talk on local stock exchange, folk mx. (Leithner, TN)
- CHINA** BPV Shanghai, 15000 w/ time pips 1242-1301; pips w/ extended one on top of minute to 1245, then solid tone w/ second omitted on minute, ID in morse 1300. WWV not heard this time but back by 1310. (Cartwright, PA)
- COLOMBIA** LV Yopal, 5050, in SP 1005; M annr, GMT-5 TC, ID, Todelar plug, local mx. (Stu Klein)
- COMORO IS.** Comoro tentative on 3331 in FR 0320-28 w/ talks by M in FR and verns and local mx. (Robinson, DC)
- DOMINICAN REP.** Reports of Radiomar harmonic on 2120 puzzling. Stn booms into Florida w/ characteristics unlike those of harmonic most evenings 0330+ w/ almost every sentence audible. Crosby, Stills Nash & Young tune 2-10. I vote with those who think this is a deliberate tx on this freq. (Serge Neumann, FL)***Welcome aboard, OM. tba
- ECUADOR** Rfoncas Populares, 3985, in SP 1010; IDs, Andean strings, some talks. (Leithner, TN 2-9)
- EQ. GUINEA** Bata, 4925, in SP *0423; anthem, s/on annmts w/ ment of both Bata and Rio Muni. (tba)
- FRANCE** Paris, 21515, in EG 1700; nx to 1717, mx and ID as tx for SAfr. (Elmo Smith, OK 2-13)
- FRANKLAND IS.** FIBS, 2370, in EG 0053-0130*; pop mx pgm to 0100, ID by W, BBC nx including Radio Nxeel to 0128. Annmt by W of pgm sked, ID, TC, s/off annmt, and GSTQ. Surprisingly good. First time. (Lazarus, LA 2-6)---Same at s9+40db. Soccer game w/ ments of Livermore and O'Reilly to 0036 when abruptly off. One local DXer called stn (!!! tba) which confirmed report and fact that their tx had gone off due to trouble at that time. (Robinson, DC)
- GUINEA BISSAU** Finally noted on 5040a at *0558-0605; drum IS, NA and a cappella Afr singing. (Cartwright, PA)
- GUYANA** GBS, 5950, in EG 0933; "Morning Show", pops, TCs, reminder for folks to get their radio licenses. Good. (Leithner, TN)
- INDONESIA** RRI Dili, 2456 listed, presumed at 1245 in Indo. Very weak under growing static. Talks by M. (Neumann, FL 2-14)+++RRI Medan, 4764, in Indo 1142-1219; local mx, w/ few breaks. Warta Berita at 1200. (Cartwright, PA)+++ Indos heard on 2-13 by Stu Klein, FL: 3215 Menado at 1225 w/ local mx, M annr, talks. 3345 Ternate 1212 w/ Jakarta nx realy. 4719 // 4753 Ujung Padang w/ Jakarta nx relay. 4845 Ambon, 1207 same nx realy. 4875 Sorong 1210 more warta berita. 5045 Yogyakarta 1255; through bad het. M annr w/ talks to SCI 1259.
- JAPAN** NHK, 3607, in JP 1124-1200; mx and talks by DJ; JP vocals, more talks, DJ in often, and nx 1200. (Robinson, DC)
- KENYA** VoK 4804, 4915 and 4934 all in at incredible levels during last geomag storm. (Robinson, DC)
- LIBERIA** ELWA, 4770, in EG 2250; sermon. ID, sked and s/off 2300. (Leithner, TN 2-5)
- MALAYSIA** BBC FE Relay, 15345, in EG 0015+; usual World Service pgms to 0030 when into local pgm on EG lang. (D'Angelo, PA)
- MAURITANIA** Nouackchott, in AR 0640. Talks by M and string mx. (Charles George, TX)***Assume freq was 4845. tba
- MEXICO** R. Mexico Int., 15430, in EG/SP 0100; EG IDs 0100, 0133 w/ short EG pgm at latter time. SP mx pgm at 0136. (D'Angelo, PA)

- MONGOLIA** Ulan Bator, 4950, in EG 1223; chimes IS, EG ID by M, short anthem, 2d ID as pgm for SEAsia and nx. (Robinson, DC)
- MOZAMBIQUE** Maputo, 3338 w/ usual format 0414. Poor and hetted by poss Zanzibar on high side. Also noted on 4855 at 0354 w/ IS, intermittent IDs in various langs including EG. Talks by M&W after 0400. (tba)
- NEW HBRIDES** Vila, 7260, in Pidgin 0757; mx to pips on hour, M w/ ID, QTH, and nx. EG nx 0830. FR 0845. (Klein, FL)---Same 0855-1002*. W in FR 0855-0900, local mx like square dance mx w/ AR sounding vocals. This non-stop for an hour w/ applause between songs. FR ID by M 1001, drum IS for 28 seconds and off. (Cartwright, PA)
- PNG** Excellent PNG openings on 2-13,14 as reports from Klein and Neumann show. From Klein: 3205 W Sepik 1220 M w/ talks and local mx. 3220 Morobe 1233 w/ C&W mx under UTE. 3260 Madang 1215: the boys doing the chanting sounded like they had one too many fermented coconuts. 3275 S. Highlands 1230 w/ ads for motorcycles lightbulbs etc. Local mx and fading. 3322.5 No. Solomons 1240. M w/ convenient ID, local mx. 3335 E Sepik 1235. Local mx and ment of NBC. 3385 E New Britain 1245; moldy oldies and M anncr. 3905 Manus 1210 under AROS in lang. 3925 NBC // 4890 both crisp and clear. 2428 New Ireland 1215 chanting style mx and hollow drum mx. (Klein, FL) And from Serge Neumann, Morobe 3220 at 1220; New Ireland 2428 1225; E. Highlands 2610 at 1235; Chimu 2376 w/ uke mx 1230; Northern District 2450 very weak 1240; Western 3305 at 1250; Central 3290 1255 fair; Madang 3260 1253 and Manus 3905 struggling under AR 1257 w/ EG nx 1300. (Neumann, FL)
- PERU** R. Atlantida, 4790, in SP *0900; M anncr after NA w/ annmnts and nice local mx. (Klein, FL) ***R. Tropical, 4935, in SP 0504-0510*; "Desde Tarapoto R. Tropical," calls, and orch NA. (Krueger, FL 2-2)---Same 1100 mixed bag of local and latin mx, ID and TC. (Klein, FL)+++R. Andina 4996, in SP 1015; also some talks in Indian; nice high Andes mx. (Klein, FL)+++ R. Imasi, 5035, in SP *1005-10; NA, ID by M, mention of Tarapoto, local mx. Not yet sure of spelling. (Krueger, FL 2-10)+++R. Libertad de Junin, 5040, in SP 0545-0610; rustic tunes, M w/ ID and TCs. Gone 0630 recheck. (Krueger, FL 2-3)+++R. Loreto, 5050, in SP 1055; M anncr w/ long talk, ID, calls, ads, local mx. (Klein, FL 2-4)---Same 0610-0655*; SP rock, M w/ IDs and TCs; guitar w/ rooster between songs. Vocal NA and off. Excellent. (Krueger, FL 2-3)+++R. Esmeraldas, 5300, in SP 0958-1005; just after s/on w/ ID, huaynos and SP/native lang annmnts. Good. (Krueger, FL 2-10)+++R. Cuzco, 6195, in SP 1039-1055; high Andes vocals, M anncr mentioning Peru but no ID so presumed. (Krueger, FL 2-10)
- RWANDA** R. Rwanda, 6055, in FR 2117-2203; good w/ non-stop Afr high life mx, ID by M 2200. (Cartwright, PA)
- SPAIN** REE, 9675, in SP 2054; IDs, mx. (Leithner, TN)
- SRI LANKA** SLBC, 15425, in EG 0045-0132; pop mx, ID 0000, TC, request pgm, and "Back to the Bible." (D'Angelo, PA)
- TAIWAN** BCC BED-31, 3230 in CH 1245; often heard w/ lots of talking and little mx. (Neumann, FL)
- *THAILAND** RT, 4830, in Thai w/ talks 1215. (Robinson, DC)+++RT, 9654, 1158-1238; on 2-6 very weak w/ 3 pips, IS; 2-7 fair w/ talk in Vietnamese (L) SEA mx 1235+ then talk by M, IS and more talk. (Cartwright, PA)
- TIBET** CH stn 5240 in CH or similar 1057-1101; saw this freq in Victor Jaar's article abt Tibet and found CH speaker weaker than 5170 and 5265 // latter but not former. (Cartwright, PA) *** Did you get ID? tba
- TOGO** RIT, 5047, in FR 2255; "Don't Let Me Cross Over", a Jim Reeves classic recently re-released Surprised to hear such from them. M anncr to hourly IS and sonorous talks by M. Remember hearing James Brown on Benin once. (Jim Weber, PA 2-2)
- *TRANSKEY** Capital R., 7160, first noted tentatively 0438 w/ US rock selections. Heard definitely at 0400 s/on 16 and 17 Feb w/ ID, weather for Southern Africa, and US and SAfr r&r, including "Duke of Earl," "Mellow Yellow," "Please Don't Go," and "On the Radio." DJ in often, but not after every song. Frequent Capital R IDs and many, many TCs. Quite good. (tba)
- TURKEY** VoT, 7215 NF, in EG 2237; talk on economy, folk mx. (Leithner, TN)
- USSR** Petrozavodsk, 4780, in RS 0503; nx by M&W. (tba)---same 0335-0403; classical mx, pips and ID in RS 0400. (Cartwright, PA)+++Baku, 4785, clearly audible under Dar es Salaam 0410. (tba)+++ Tyumen, 4895, in RS 0307; seemingly // 4930 w/ light classical mx. Given format, suspect this is a Mayak outlet. (tba)+++Tbilisi in RS 0335 on 4930 // Yerevan 4990. (tba)+++Kiev HS, 4940, in RS or UK 0445; IS played twice after pgm of RS orch mx. (tba)+++Yerevan, 4990, in RS 0326; piano mx w/ nauseatingly cheerful W on top. Wake up exercises? ID by W on half hour, and poss nx by M. (tba)+++Arkhangelsk, 5015, in RS 0510; light mx under ute, some orch, some vocal by W. Mayak IS 0530. (tba)+++Valdivostok, 5015, in RS 1005; usual HS pgms. (Klein, FL)+++Alma Ata, 5035, relaying Tashkent in Urdu 1228. IS, M&W w/ nx. (Robinson, DC)+++RM, 6100, in CH 1229; IS, M&W anncr w/ ID and talks. (Klein, FL)
- VIETNAM** VoV presumed the one on 4943 in Viet 1320; talks by W, Viet mx 1322. Good but had to leave for work so couldn't ID. (tba)
- *YEMEN (S)** DYBS Aden, 7190, in AR as early as 2100 2-10; excellent mod but some flutter problem. To 2158*. Rather earlier than usually heard. (Neumann, FL)
- *ZAIRE** LV Development, 5066.5, in FR/verns *0358; drum IS, ID as LV du Development, FR nx 0430, and into verns talk 0440 after drums break. (Robinson, DC)
- *ZANZIBAR** RTZ, 3339, nightly above Maputo on 3338; drum IS 0258, ID by W and Koranic chants to 0312 each night heard. ID by W as R. Tanzania, no mention of Zanzibar. More mx and talks. (Robinson, DC)*** Think I'm hearing it w/ Maputo but not sure yet. tba

Best of 73, TOM

log report section

1600-4899

TERRY KRUEGER

Plenty of interesting info this month, including a new Peruvian on 3285, a new Cameroun outlet on 4000 and some interesting African activity. A QSL from Mauritius-9710 finally arrived here, too.

- 2120H DOMINICAN REP. Radiomar; 0435 SP ballads; 2x1060,p (Moore)
2280 UNID SP romantic ballads 1045, M&W wiped out by static, probably a harmonic (Moore)
- *2370 FALKLAND IS. FIBS; 0102 BBC financial nx, Nx About Britain, Radio Nxrøel, sked, ID, GSTQ (Eastman 1-25 & 2-6) Sunday (local) 0015 to 0036* booming signal 24-hours after major solar flare, BBC coverage of soccer match, so clear could hear player names, team (Livermore) and details of game; cut abruptly 0036 w/ no GSTQ or s/off anmts -- best ever reception! (Robinson 1-27, Henderson 1-27) 0115-0129* EG M British accented, GSTQ 0128, carrier off; tent. (Rankin 1-30) 0101-0130* EG BBC nx, deep fades, no ID hrd; did anybody else hear this night? tent. (Word 1-19) aah, such common DX... TK 0105-0130, Nx About Britain and Radio Nxrøel, ID, s/off w/ ID, "...Good night" into GSTQ (Meyer-PERU) couldn't read Kevin, date looked like 1-19... TK
- 2390 MEXICO R Huayacocotla; 0125 SP vocals, ID (Yajko 1-26)
2400 UNID poss. pirate 0010-0357* w/ oldies mx, EG M DJ/TC in EST. Doubtful a MW harmonic as no commercials hrd (Moore 1-26)
- *2480 BRAZIL R Cl. Rondonopolis; 2345 PT, brief but good f/in, M w/ tlk and definite ID, ment of Rondonopolis, down in mud (Perdue)
2490 BRAZIL R Ed. Rural; 0025 PT light instr. mx, M&W, f (Moore 1-22)
2490H USA WEAG-Alcoa, TN; 1102 EG ID, G&W mx, 2x1480 (Moore)
- 3205 BRAZIL R Riberao Preto; 2355 PT M, ID 0005, g (Radcliff 1-21)
3205 PAPUA NEW GUINEA R West Sepik; 0918, vernac. M, island nx (Uerlings)
3215T SULAWESI RRI-Ujung Pandang; 1220 Bee Gees, IN W, no ID (Radcliff)
3220 ECUADOR HCJB; 0146 Quechua talk, HC mx (Yajko 1-13) 0459 lang rel. singing, TC (3 short, 1 long), silence! Presume HCJB (Moman) 0041 SP, huayno mx, SP/Quechua talk, Quechua ID (Meyer-PERU)
- 3225 SUMATERA RRI-Tanjung Pinang; 1427-1433 warta berita, organ mx, new arrangement of NA by chorus w/ electric organ, ID (Poppin 1-7) 1435 good w/ QRM de 3223, IN anmts, light mx (Willis-AUSTRALIA 2-2)
- 3225A SWAZILAND Swazi R; 0335-0400* EG soul and pops, ads for Omo Detergent, Contac, ID/freqs and app. s/off (Clifford 1-25)
- 3227 LIBERIA ELWA; 0620 vernac., drums and horn, tribal dancing mx (Uerlings) 2207 vernac. talk by M, poor (Yajko)
- 3240 PERU 0256-0310 w/ complete s/off anmt and whole staff (app.) giving their 2¢ worth... however still cookin' 0310 but being cut up badly by TWR w/ tacky Zulu evangelism (Sheedy 1-13) 0030 SP back on after off couple of weeks w/ US pops countdown, ID's (Meyer-PERU)
- 3250 SOUTH AFRICA R Five; 0330-0415 EG, pops, ads, ID (four reporters)
3252 ECUADOR LV del Triunfo; 0420 SP slow vocals, M, ID (Rankin 1-30) 1120 SP ads, ID/TC, HC mx (Klein 2-2)
- *3255T INDIA AIR-Delhi; unknown lang M w/ probable nx (Uerlings 1-22)
3260 ECUADOR LV del Rio Carrizal; 0012 SP, criollo mx, ID (Meyer-PERU)
3260 PAPUA NEW GUINEA R Madang; 1242, PD M, local mx, Rodger Whitacker song, xlnr (Radcliff 1-26) 0830 talk, ID, instr mx (Meyer-PERU)
- 3260 NIGER Niamey; readable signal 2148 w/ man in FR, European style mx (Henderson 1-25)
- 3264 CONGO RTVG-Brazzaville; socialist diatribe in FR 2135, under RTTY, poor (Henderson 1-25)
- 3265T SUMATRA RRI-Bengkulu; per J. Young's Indo Survey 1536-1600*, W lang song, IN soft spoken M, M parayer chant until 1556, "Love Ambon" and power off (Poppin 1-1)
- 3275 SWAZILAND TWR; 0330-0345* Shangaan per WRTVH, hymns, M with rel talk, fair (Ottaway 2-3)
- 3280 ECUADOR LV del Napo; 1010, Indian M, HC melodies (Klein 1-16) 0700 SP noticias into "Programa para la Juventud", US pops (Meyer)
- 3285 BELIZE RB; 1131 SP M, MoR mx, TC/ID 1141 (Binau 1-21) 0400 EG nx, calypso-type mx (Clifford 1-19)
- *3285 PERU R Oriente, Yurimaguas, Loreto; stronger than any other Peruvian. Several ID's, "R Oriente. Desde Yurimaguas, Loreto, Peru en mil cuatrocientos veinte kilociclos y el nuevo tres mil doscientos ochenta"

- PERU (cont.) ticinco kilociclos para todo el Peru." "Ecos del Deportes" pgm 0030, "Viva la Noticia" local nx pgm 0145, ads. All mx is LA pop. Bell sound between pgms and before ID's. S/off 0300. S.on varies 0900-1100. Called gov't who confirmed that a R Oriente was on the air w/ 1 kW on 3285. They didn't know address, but I'd assume it was same as MW: Comercio 107, Yurimaguas. 1-30. (Meyer-PERU) different address in WRTVH-80... TK
- 3285 UNID 0352-0400*, SP ballads, echo chamber w/ app. ID into long, LONG unfamiliar NA (Sheedy 1-13)
- 3290 PAPA NEW GUINEA R Central; 0840 local mx w/ vocal accompaniment, sev. interruptions w/ tlk by M (Meyer-PERU)
- *3300 BURUNDI LV Rev.; 1-28, best Afro night in 10 years at almost equal level w/ TGNA w/ local mx, pause before 0400 nx and ID by M in presumed Kirundi, many mentions of "Bujumbura" and "Burundi"; absolutely amazing! (Robinson) I'll say... TK
- 3300 GUATEMALA FGNC; 0245-0337 SP into EG rel pgming, "Back to the Bible" and "Radio Bible Class" (Sellers, Hensley, Mosier)
- 3306 RHODESIA ZRBC-Gwelo; 0340 EG pops, cigarette ads, f (Sellers) 0355 EG M, pops, TC for 6:00, nx, ID, vg (Uerlings)
- 3315 ECUADOR R Pastaza; 0115 SP, lcl nx, ID, LA EZL mx (Meyer-PERU)
- 3322.5 PAPA NEW GUINEA R North Solomons; 1250-1300, PD mx and anmts (Lineback 1-27) 0837 orchestral mx, vocal mx, discussion by W, ID (Meyer-PERU) 1210-1230 PD, oldies, ID, fair; hvy QRN (Crutt)
- 3325 ECUADOR Ondas Quevedenas; 0020 SP crioillo mx, ID by M (Meyer-PERU)
- 3326 NIGERIA FRC-Lagos; 2212, EG entertainer singing, US/Afro pops w/ audience (Yajko) 2140 good w/ pop mx request pgm, ID (Henderson)
- 3330 PERU Ondas del Huallaga; 0118 SP, nat'l nx, ads, TC (Meyer-PERU)
- *3339 ZANZIBAR RT; 0300-0314 Koran chants, Afro mx, SH W ID as "Hi ni sauti ya R Tanzania..." then a ment of Zanzibar. Has app. come back on the air w/ considerably increased power; almost exactly 1 kHz above Mozambique (Robinson 1-28) UNID on 3338.5 0325 M in unknown lang w/ chant, very weak 1-26 under two uts, could be either Mozambique or Zanzibar. If Zanzibar, xmtr probably has been fixed and up to higher power (Henderson)
- 3343T JAVA RDK-Pandeglang; 1516 IN M w/ IN talk (Uerlings 1-22)
- 3345 BORNEO RRI-Pontianak; presumed // 3995 w/ IN M, but usual dawn noise and QRN from Nikolaevsk-3395 prevented anything useful from sneaking in, tsK, tsK 1432-1450 (Sheedy 1-20)
- 3345 MOLUCCAS RRI-Ternate; 1240 IN, EZL mx (Radcliff) 1205 (Klein) 1310-1325 IN, RRI nx // 4845, 4875, 3385 till 1325 (Lineback)
- 3350 GHANA GBC-1 Ejura; 0613 vernac. M w/ tlk or speech (Uerlings)
- 3360 CHINA Beijing; *1300-1310, EIR, time pips, CH M&W (Lineback 1-27)
- 3360 GUATEMALA LV de Nahuala; *1000 daily now, SP, marimbas (Klein)
- 3360 PAPA NEW GUINEA R Milne Bay; 0851 talk by M into drum mx, more tlk and island mx (Meyer-PERU)
- 3365 BRAZIL R Cultura de Araguara; 2330, M in PT, song "Mrs. Jones" and ID, f (Radcliff)
- 3375 ANGOLA R Nacional; 0445 PT W, hilife, ID // 11955 (Krueger 2-2) PT mx and tlk poor, gone by 0450 (Ottaway 2-3)
- 3375 BRAZIL R Cl. de Dourados; presumed 0045 w/ PT M, Brasil pops, ment of Durados, but no full ID hrd yet, g (Krueger) 0210 PT M, soft vocal mx (Uerlings)
- 3375 INDONESIA RRI; probably Medan, but audio is just not punchy enuf to beat noise 1453-1503/1510 IN, usual RRI fare, rel sounding svc (Quran reading, interpretations), ME sounding vocals (Sheedy)
- 3380 ECUADOR R Iris; 0200 SP ID, pop mx, f (J. Jones 1-20) 0140-0352 (Meyer-PERU, Sheedy) 1025 odd reception for mid-summer w/ SP anmts and mx (Willis-AUSTRALIA 12-26)

- 5035nf*PERU R. Imasi: *1007 NA, yipping Peruvian mx, located in Tarapoto in the San Martin province. Possible call is OCK9A. SP tlk, ads, Lam mx. First heard 1/18, ID'd 2/4. Not "Agauri" as erroneously assumed by the LR-B editor in the Feb. 80 Friends (Klein-FL 2/4). Sorry, Stu, actually "Agauri", as you may have already guessed, was actually a misspelled "Ayaviri". The other two reports for Ayaviri should have been listed as tentative unless an ID was heard. With two, and possibly more Peruvians on this freq, please listen for an ID! By the way, a post card recently received from Maxfield Greenwood indicates that he heard the Tarapoto station, presumably R. Imasi, from 1045-1115 w/ID's, QTH & Peruvian mx. This station, of course, is not listed in the WRTH-80. Sorry for the confusion-S&W

log report *section* **C**

6200-11699

PETER SCHIPELLITI

31 BEAVERBROOK ROAD BURLINGTON, MASS. 01803 or phone after 2300 GMT up until 0500 GMT. 617 272-3142. Please note! Log Report C is the official Log Report Column of the 1980 Olympic Games. Hi! Thanks go to Dave Valko our past distribution editor. I hope that you will all support Gregg Beres and have material at his QTH by the 12th of the month. Away...

- 6207.5 UNID: 1204-1220 lang?, Western (as opposed to oriental) songs. Mostly totally unfamiliar vocals w/ piano accompaniment (Rankin 2/11) Anybody? ps.
- 6215 **ANDORRA** R. Scandinavia; 2111 in lang (Dutch?) w/ many taped IDs, interesting pgm of IDs and amnts of famous pirates such as R. Nordsee International, R. Veronics, R. Caroline, World Mx Radio from 2129-2147. EG ID/Address @ 2200 then 2201*. Sked is 2100-2200, first & third Sundays of the month; fair-poor. (Lobdell 1/20) Tnx Chris. ps.
- 6250 **EQUATORIAL GUINEA** R. Malabo; 2145-2200 SP, Afro Pop Mx, ID @ 2157 as R. Malabo, into National Anthem and 2200* (Fischer 1/19)(Braga 1/7); 0547 SP (Eckman 1/28)
- 6280T **IRELAND** Westside Radio (Pirate); Tenatively noted from 1009-1040 f/o w/ pop Mx & EG DJ's. At 1020 possible ID w/ address in Bray County Wicklow Ireland. OM asked IRC's for QSL. Guest snncr from Radio London. Westside is known to operate here w/ same QTH in address. (Bares 1/13)
- 6340T **TURKEY** Turkish Police Radio; 0545-0700 f/o, Turkish Mx & songs, short amnts by Yl. in presumed Turkish. Fair signal. (Bares 1/13)
- 6419v **USA-Bootleg** KVHF; 0815-1000 EG, Disco Pop Mx, Beatles uninterrupted until 0900 ID, "This is Radio K-V-H-F" Identical ID at 0950. on past 1000 (Lattemann 1/6)
- 6550 **LEBANON** Voice of Lebanon; *0405-0430 AR, Music Box like IS, River Kwai, Anthem, ID in AR, 0415-0420 presumed Mx, lots of piano Mx (McClellan 1/28)(No Name) Tenative for (Yoman 1/16)&(Clifford 1/21)
- 6907v **LAOS** Oudom Kay; 1056 Lang?, high voiced Yl w/ cmntry KCed by ute @ 1100. Tenative. poor. (Moore 1/26)
- 6960 **USA?BOOTLEG** WARG; 0630-0728 EG, several IDs among as WARG-"shortwave coming to you from Solimi East Coast" gave snncrs name as Ray Habrow, said that you might get on their mailing list. They had a phone in request rock Mx pem. # as 212 220-9979. As he went off he said that phone lines would be open 1 more hour and if they got enough encore response that they might stay on later that night. mentioned phone calls from Minn. & Toronto. Strong signal in Indiana (Briscoe Date?)
- 6965 **USA?BOOTLEG** WRAG; 0146 EG, "This is WRAG testing" several times then off. No pgm heard. Listened till 0700 (Kowalski 1/21) see Feb'80 page 22/LN-11 FrenDX. ps.
- 6965 **UKOGBANI** "Radio Rainbow"; "RR" strikes again. The unID on this freq last month is simply the name of BBC's language lesson pgm, not a station. And it was on this freq as a feeder to a relay station (he reported it at 0200 1/17; he being John Findlater, CA.) This has all explained some months ago in NASA Listeners Notebook and in my DX reports (Hauser-TN) First heard June 1, 1979 in 7105 BRC Ascension Is, 0645 GMT. FR/EG, lessons. Many IDs "R. Rainbow".QSL dated 6/28/79 usual London Bridge w/ no mentions of R. Rainbow. Heard many times last summer same time & freq. (Witte-CA)
- 6974 **CHINA** Nei Menggu PES; 1300 Mongol. tlks. & Mx to 1530 fade (Behr 1/14)
- 7001 **ANGOLA** Em. Regional do Lobito; *0426-0435 PT, NA, M w/ Nacional ID into Afro Mx. Good (Krueger 1/28)(Valko 2/2)(Bodek 1/29)
- 7025 UNID: 0148 SP, La Voz de..... Anthem, s/off. severe CW QRM (Marker 1/18)
- 7065 **ALBANIA** R. Tirana; 0020 EG, discussion of Albania's Hydro-power resources. (Bauernhuber 1/23)(Eckman 1/18)(Krudde 2/5)
- 7110 **ETHIOPIA** VORE; *0721 FR, March Mx, sign on by OM w/ ID, into pgm of more March Mx. (Ottaway 1/13);Tenatives (Lev 1/19)(Witte 1/2)
- 7110 **MALI** Radiodiffusion Nationale du Mali; 0704-0744 FR, Marches, FR ID "Radiodiffusion Nationale du Mali." at 0717, Mx in vernaculars. FR Mx @ 0732. Not Ethiopia as reported in Jan. issue. s/on @ 0800 daily & 0700 Sundays. (Rankin 2/10) Tnx good rpt, Rob. ps.
- 7120 **ALBANIA** R. Tirana; 0230 EG, Yl w/ Mx (Bauernhuber 1/21)(CIncert 1/23)
- 7125 **POLAND** Polish R.; 2225 EG, IS/ID, Pgm sked, beamed to Australia (Zilmer 1/13)
- 7160 **SARAWAK** R. Malaysia-Kuching; 1021-1100 CH, CH Mx, Apparent CH Mx @ 1030, IDs @ 1045 & 1059, tlks from 1045-1059 (Clifford 1/26) 1/22
- 7165 **USSR** R. Moscow-Lvov; 0321 EG, Cmnty on US Budget (Sellers 1/29)(Thoma 1/9)(McCants 7170T **NEW CALEDONIA** R. Noumea; 0853 FR, Pop Mx, see Gees "Tragedy" good (Lev 1/27)
- 7175 **SICILY**; RAI-Caltanissetta; 0617-0640 IT, OM w/ long talks, heard def. ment. of "Caltanissetta". Accordion Mx, Nix, Pips, ID. Fair (Jordan 1/13)
- 7185 **KAZAKH** S.S.R. R. Moscow-Alma Ata; 1125-1145 VT, IS, EG, ID into Vietnamese. Good w/ slight ARO QRM (Orcutt 1/2)

- 7190 YEMEN DYBS-Aden; 2130-2201* AR, AR Mx, ID & NA. Also heard what sounded like a rooster crowing!! Jammed, but got better towards end of broadcast. Good (Johnston 2/1) (Schimacher 1/8)(Elwood 1/25)(Baker 12/22)(Bauernhuber 1/24)
- 7195 ALGERIA RTVA; French service heard to late fade out time of 1900 when mixing with Radio Japan, with Pops and amnts (Willis 1/2)
- 7195 ROMANIA R. Bucharest; 2015-2023* EG, Listeners Mailbag, s/off w/ IS (Baker 12/24)
- 7208 CHINA Yunnan; 1400 CH, well heard although causing something of a het (Willis 2/2)
- 7215 TURKEY Voice of Turkey; 2200 EG, 'x about the devaluation of the Turkish Lira (now that sounds familiar. ps.) (Grishin 1/25)(Abbey 1/21)(Moore 1/24)
- 7215 USSR R. Vilnius; 2305-2328* EG, Cmnty on US reaction to invasion of Afghanistan. Frequent IDs (Baker 1/8)
- 7215 USSR R. Kiev; *0030-0100* EG, Nx, Cmnty, DX Club Pgm (Fraser 1/24); *0300-0330* EG (Semsky 1/30)(Thoma 1/31)(Chavdarian 1/22)(Sellers 1/29)(Williams 1/18)
- 7240 MOZAMBIQUE RM; 1500 PT, //11815 (ex 11820) & 9617 (willis 1/19)
- 7250 Vatican Vatican Radio; 2039 EG, rel pgm. ID, Fair w/ Ham QRM (Braga 1/26)
- 7255 NIGERIA Voice of Nigeria; 0450 EG, IS & Anthem (Marker 1/20)(Witte 1/15)(Moman 1/13)
- 7260 NEW HEBRIDES 0855-1002* FR, Y1 in Fr 0855-0900. local Mx, like square dancing. OM w/ Radio Vila ID in Fr @ 1001, then Drum IS. (Cartwright 2/6)(Johnson 1/12)
- 7265 GERMANY (WEST) Sudwestfunk; 0420 GM, oompah Mx, 0429 IS twice w/ ID between. Good. (McClellan 1/31)
- 7270 POLAND Polish Radio; *0200-0215 EG, IS, ID, Nx by Y1, Cmnty on Polish United Workers Party Election. Nx of Poland, Review of Polish Press (Baker 1/19)
- 7280 LIBERIA VOA-Monrovia; 0540 EG, "3kfst Show", Mx (Mosier 1/29)(Moman 1/16)
- 7299F CHINA; Peking HS outlet noted here, but // traced and it seems rather irregular. Lots of usual Mx & amnts. Perhaps a regional. Another similar noted on 5960 (Willis 1/2) What Time???? ps. 15)
- 7300 ALBANIA R. Tirana; *0330 EG, Nx, Cmnty on Trade Unions, IDs (Cincert 1/30)(Thoma 1/7)
- 7300.7 CHINA UNID. Regional; 1300 CH Nx, drama & Mx to 1518*, varies to 1521* w/ local ID; very strong; //7106 weaker. Xining? (Behr 1/14)
- 7345 CZECHOSLOVAKIA R. Prague; *0100-0157* EG, Nx, Cmnty, folk Mx, Dx Pgm (Fraser 1/25) (Davenport 1/10); 0300 (Rodle 2/2)
- 7355 USA PIRATE R. Jolly Roger; 0455-0558 EG, Rock Mx & Many IDs (Marker 1/20)
- 7360a USA PIRATE Voice of R. Jolly Roger; 0459-0558* EG, EZ listening Mx, IDs, also used "R. Jolly Roger" IDs, amnr used disguised voice; good-very good (McClellan 1/20)
- 7360a USA PIRATE Voice of the Purple Pumpkin; 1602-1604* EG, Nx, IDs, said power was 5 watts Said that they would be back at 0500 but not heard. Odd time (McClellan 1/19)
- 7363a USA PIRATE R. Confusion; *0000-0245* EG, Many IDs, Rock Mx, game show, Nx in special EG, gave FRC address a lot, poor to fair. SSB QRM (McClellan 1/20)
- 7383 LAOS Savannakhet; Presumed. In presumed Laotian w/ folk Mx, tlks alternating OM/Y1 anncrs @ 1131; fade out by 1210 (Lobdell 1/28)
- 7400 USSR R. Kiev; 0307 EG, Nx, Ukraine Panorama by OM (Marker 1/12)
- 7412 ISRAEL Kol Israel; 0000 EG, Pgm to North America. New service starting tonight. // 11637 & 9815 KHz. also at 0100 and 0200 (Zilmer 2/1) I believe the Pgm are 25 minutes in length. ps. (New prime time pmn- nice freq. Exc. Eckman 2/1) Thanks to all the other reporters but unfortunately they were for the old service. No use in printing. ps.
- 7420T USA-Unknown Voice of Revolutionary?; 0552-0557 EG, per tip from Dave Valko, heard very weak under ute. 'Chicago' song (Cartwright 1/26)
- 7440 USSR RMWS; 2345-0000 EG, interview w/ US student (Sonya) at Moscow U. relating her impressions of life in USSR & contacts with various SSR nationalities, at expense of life in US. Usual B.S. (Baker 1/8); 0250 (Earhart 1/17); 0313 (Orcutt 1/2)
- 7500 AUSTRALIA VMG; 0920-1130 EG, periodic checks found OM w/ amnt, "This is VMG, Lyndhurst, Victoria, Australia...." @ 1130 (Jordan 1/19)(Binu 1/22)(Wentzell 2/2)
- 7550 SOUTH KOREA R. Korea; 2300 EG, Nx. Fair Signal (Zilmer 1/30)
- 9022 IRAN VOIRI; 1930-2030 EG, IDs, Political Cmnty, tlk on US hostages (Gregory 1/11) (Bauernhuber 1/18)(Braga 1/23)(McClellan 2/3)
- 9372.4 ISRAEL Kol Israel; 0417 Hebrew, classical Mx, ID @ 0458 w/ tlks, strong clean signal. 'buzz saw' jamming began @ 0500 (Lattemann 1/23)
- 9390 CHINA R. Peking; 1224 EG, //9820 and weaker than it; 9820 is to Nam, and 9390 to SEA; I vaguely recall that formerly these two EG xmsns were not // (Hauser)
- 9410 GREAT BRITAIN BBC; 0120-0210 EG, Covered a variety of subjects: protection of birds, Comments on Iran, model aircraft flying school. at 0145 "The World Today" (Earhart 1/17)(Wentzell 1/5)
- 9460 PAKISTAN R. Pakistan; 1714 EG, Nx Pgm, ID as "The World Service of Radio Pakistan." (Wentzell 2/3); 1905-1930* Urdu (Jordan 2/2)
- 9475 EGYPT R. Cairo; 0200 EG, News. Fair signal (no name 1/24)
- 9490 USSR R. Moscow; *2300-0000 EG, Nx, Cmnty, DX Pgm, "Moscow Viewpoint", Music from Moscow. (Fraser 1/5) 0100-0200 EG (Semsky 1/18)
- 9495 MONACO TWR; *0721 EG, "Hour of the Bible" (Ottaway 1/13)
- 9510 ANTIQUA BBC-Relay; 0730 EG, now subject to a very annoying het, making listening a pain! (Klein 1/6) Transmitter QTH; 0445-0915 Antigua, 1100-1330 Sackville-Canada. ps.
- 9510 GREAT BRITAIN BBC; 2230 EG, Y1 w/ Nx (Bauernhuber 1/31) from UK at 2000-0330. ps.

- 9510T PERU R. America; 1050 SP, snatches of Peruvian Mx, OM anncr w/ possible ID before BBC open carrier at 1054. f/p (Klein 1/13) that BBC open carrier @ 1054 is BBC-Sacville.
- 9515 TURKEY Voice of Turkey; *2200-2300* EG, Nx, press review, letterbox, "Oldies but Goodies" (US 50's rock Mx) Fair (Fraser 1/23)(Moman 1/15)(Brouillette 1/2)
- 9515 URUGUAY SODRE; *0000 EG, ID heard but completely overwhelmed by Greece (Buer 1/25) (Radcliff 1/17-21) (Behr 2/2)
- 9522v UNID-MONGOLIA??; 1400 drama & Mx, 1515 Mong. Nx to 1527* ;strong; down from 9527.
- 9527v UNID-MONGOLIA??; 1300 Mongol. Nx, local Mx & drama to 1526* daily; freq. varies to 9522; powerhouse signal, probably new high power xtr; if this is RUB, Mongolia is no longer DX. (Behr-Ont 1/18)
- 9530 BULGARIA: Radio Sofia made an unannounced mid-season change from 9765 to 9530 for EG at 2130 & 0430 (as hrd 12/16 & 12/15 respectively), no doubt at the behest of their Soviet masters, as R. Moscow programming now on 9765; at 2130 Sofia is //9665. Sofia also seems to have dropped or rescheduled the DX Pgm repeat on Sun + GMT Mondays; none of these changes reflected in on air announcements, leading one contributor to "correct" my DX broadcast report of the change to 9530! --based on what Sofia says rather than what it does. Probably back up to 11 Mhz in March. (Hauser-TN)
- 9535 RADIO SOFIA @ 2130 in English (Eckman 1/14)(Conover 1/14)
- 9535 ANGOLA?CLANDESTINE V. of Namibia; 1645 African lang & EG II, 1702 EG Tlk, Marxist SWAPO Pgm; weak modulation (Behr 1/9)
- 9535 SWITZERLAND SRI; 0710 EG, "Sunday Tributes". VOA cut out by Collins Filter. Nice! (Witte 1/19); 1100 EG (Klein 1/13)
- 9540T CHINA Fujian Front; *1000 CH, tonal IS, NA of PRC, Y1 anncr w/ presumed ID & long talks, into oriental Mx, CH opera style, etc. 3 weird pips to 1030, OM/Y1 anncrs in CH w/ usual FBBS format. Seems likely them. Freq. noted in Int. Ecstn J. # 1, Jul/79 (Klein 1/6) Tnx for report Stu. ps.
- 9545 ANTIQIA DW Relay; 0530-0550 EG, ID, "In Germany This Week", Computer Chess. // 6040, 6085, 6100, 6145, 9545, 9565, 9605 & 11865 (Fisher 1/20)
- 9545 MONTSERRAT DW Relay; 0135-0142 EG, reports on drinking & drug habits (Conover 1/14)
- 9560 ETHIOPIA VoRE; *1500 EG, OM w/ s/on as per WRTH, EZ western lt jazz Mx, Y1 w/ tlks, local Mx, Regional Nx, ID @ 1523 & 1529, TC & Nx @ 1530. Fair w/ QRM VOA 9565 KHz. (Johnson 1/4)(Hensley 1/25)(Diekman 1/19) 1/14
- 9565 MALTA DW Relay; 0130-0150 EG, Nx magazine Pgm report on alcoholism (Lang 1/15)(Abbey -
- 9570 ROMANIA R. Bucharest; 0405 EG, Nx, Bad QRM (Thoma 1/25); 0132 EG (Abbey 1/7)
- 9575 ITALY RAI; 0110 EG, Nx, //11800 (Bauernhuber 1/8)(Williams 1/21)(Alexander 1/6) (Davenport 1/10) man 1/8
- 9575 GREENLAND: *1012-1053 LL, IS, Tlk-Nx?, Folk songs, occasional beeps. f/o 1053 (Glinks-
- 9580 AUSTRALIA R. Australia; 1155 EG, Pop Mx, Anncr of Cricket Broadcast, ID. Exc. (Sellers 1/31)(Abbey 1/20)(Grishin 1/26)
- 9580 PHILIPPINES R. Pilipinas; 1003-1021 EG, Nx, Philippine Economic Digest, tourist guide (Clifford 1/26)
- 9580 SOUTH AFRICA RSA; 0407-0416 EG, Tlk about Gold Prices, SA economy, Yx, IDs, Adds, & more Mx (Fisher 2/2)
- 9586v NEPAL R. Nepal; 1140 test tone, IS @ 1147, ID by OM @ 1149 as "Yo Nepal...." in Nepalese, mentioned Sri Lanka/SE Asia as target areas. Programming consisted of exotic flute Mx, tlks by OM. Signal S-4-9 and able to cut out het from Russian on 9590 w/ 2.4 KHz filter in FRC-7000. Best reception ever and first definite log of Nepal since '71 (Lobdell 2/5) This is out of order. Sorry! ps.
- 9585 CYPRUS CBC; *2215-2225 GE, IS, ID, OM w/ Nx (Krueger 1/26)(Diekman 1/12)(Johnson 1/11)

22)(D'Angelo 1/15)(Klein 1/21)(Eckman 1/9)(Cincert 1/7)
- 10010.5 PERU: 1210, Certainly my nicest catch lately, the some illogical types will downgrade
it (rather than upgrade it) because it's a harmonic. Jan. 17 @ 1200 heard a broadcast
station talking in Spanish about "la familia peruana". "cooperativas agrarias", no
Viet. QRM, but instead QRM from splattery 7th harmonic of local WPMK-1h30 (WUOT shares
a C.E. with them, so asked him for a bit more harmonic suppression!), and stn lost by
1211. Much better Jan. 22, calling 'atencion' to various people in Jaen, 1219 Bayer ad,
1222 R. Jaen ID & TC for 7:23; not audible at this hour on 5005+ (Hauser)
- 11643 ALGERIA RTVA; 1500 FR, anmts, // 9610. This replaces 11615 (Willis)
- 11646.5 ALGERIA RTVA; 2129 EC/FR, OM w/ ID & freqs. 9610 & 11740. No mention of 11646.5 KHz.
OM & YL, FR Tlks @ 2130. Fair-Good (Johnson 1/12) Tentative at 0012 (Earhart 1/17)
- 11665 KUWAIT R. Kuwait; 1800 EG, Y1 w/ ID, Freq. sked, Pgm sked, Pop Mx. (Hensley 1/10)
(Greenwood 1/17)(Earhart 1/13)(Johnson 1/13)(Kuwait 1/13)(Loh 1/11)(Eckman 1/15)
(Diekman 1/13)(Dunlop 1/11)
- 11690 USSR R. Yerevan; 0354-0359* EG, 0357 "End of News" - OM, Y1 w/ Mx, then off. QRM
From RTTY station, possible jamming. (D'Angelo 1/19)
- 11695 CHINA R. Peking; 1948 EG, Tlk on encouraging competition among factories, then "The
Third World Marches On", ID, then lang. lesson till 2025 (Lattemann 1/23)

That's it for now. Make plans to attend ANARC'80, before you forget. 73's & Good DX!

Peter

That Covers Everything received here through February 15. A couple of issues came up this month that are worth discussing. There were some comments about the accuracy of some totals. Unfortunately I have to rely on you to report honest totals, since I can't check them. So be sure of a stations ID before you count it, don't assume. The second item concerns the fact that the column is in order by countries heard, not verified. It is that way because getting a QSL is a matter of having enough money to send lots of reports, or sometimes it is just luck. The argument that a QSL is proof positive is not true because many of us have sent a report to a station, only to find out later that we had misidentified it. And sure enough the QSL comes to us in the mail. So the column shall remain in countries heard sequence, with your cooperation in keeping them accurate.

The next deadline is May 15, spotlight will be ASIA. Hope to hear from YOU.

M. J. Jones
