NASWA

HEADQUARTERS REPORT

NORTH AMERICAN SHORT WAVE ASSOCIATION

45 WILDFLOWER ROAD, LEVITTOWN, PA. 19067

I would like to thank those who offered congratulations on my new job. I do not regard this move as a change of authority, but as a more even distribution of the NASWA/FRENDX work. Few people realize how much effort Mac Leonhardt put into NASWA the past six years. I worked with Mac most of that time and even I couldn't begin to list the many things he did. To illustrate, let me quote from a letter he sent to the FRENDX editors to announce the change. He wrote....

"As Business Manager I will continue to handle processing of new members, membership renewals, publication of special pamphlets and the like, handle membership inquiries, mailing of samples, preparation of financial reports to the Executive Council, pay bills, plus a number of other things required to keep everything going."

Please remember that this is what Mac is still going to do....and while he was doing all this and the Executive Director work the membership rose from 850 to 2100.

Mac Leonhardt is a hard act to follow!

Bill

NOTICE

NOTICE

NOTICE

NOTICE

We have a new Distributing Editor! Effective immediately, Terry Colgan, 8120 Ripplewood Drive, Austin, TX 78758 will be the Distributing Editor for FRENDX Log Reports. Please send all items to Terry at that address in time to arrive not later than the 12th of the month.

We would like to thank Gregg Bares who served as Distributing Editor for the past 18 months and we hope to see Gregg back on the staff when he finishes his college education.

LOG REPORT EDITOR CHANGES:

As Terry Colgan, our former Section "D" editor, will now be the new Distributing Editor, his position will be filled by Steven Wiseblood who now serves as Section "B" editor. Steve, in turn, will be replaced by Jerry Berg, 38 Eastern Avenue, Lexington, MA 02173. Jerry is well-known in the DX/SWL hobby and his articles have appeared in ShortWave Center. He is no stranger to the FRENDX Log Reports either. For a period up to April of 1972 Jerry did the entire Log Report by himself!

To recap the changes:

Distributing Editor - Terry Colgan, 8120 Ripplewood Drive, Austin, TX 78758.
Log Report "B" - Jerry Berg, 38 Eastern Avenue, Lexington, MA 02173.
Log Report "D" - Steven Wiseblood, 707 Loma Way, Santa Maria, CA 93454.

THE COVER

Featured on this month's cover is Radio France International which has just completed, under various names, fifty years of shortwave broadcasting. Congratulations!

Another 50th Anniversary celebrant is HCJB, the famous religious broadcasting station in Quito, Ecuador. For stamp collectors, a first day cover is available which is franked with Ecuador's HCJB stamps and dated December 1, 1980. The price is \$2.50 in US dollars from HCJB-50, Box 3000, Cpa Locka, FL 33055, or HCJB, Casilla 691, Quito, Ecuador.

June of this year marks the 16th Anniversary of the Australian Radio DX Club. This organization has served Australia and the surrounding area well over the years and we wish those involved many more years of good DX. An item in the May issue of the ARDXC bulletin, Australian DX News, which might be of interest to North American DXers reports on 8 cassettes covering Latin American stations. Two of the cassettes, those on Bolivia and Paraguay, were recorded in the studios of the stations concerned during a DXpedition of the Asociacion DX del Litoral in Argentina. The price of each cassette (C60) is US\$10 or 28 IRCs. No address of ADXL is given but information can be obtained

from ARDXC, P.O. Box 227, Box Hill, Victoria, 3128, Australia. For information please include return postage.

If you are interested in old radios, NAEWA member Don Dickey suggests that you contact Vestal Press, Ltd, Vestal, NY 14816. They reprint old catalogs like RCA's "Radio Enters the Home" originally issued in 1922. Other titles include "The Saga of the Vacuum Tube" and the 1922-1923 catalog of the Robertson Contract Electric Company of New York, a radio equipment supplier.

KAP III:

KAP I started everything off with a bang!...KAP II was even better!...and now it's time for KAP III! June 28, 1981 at 86 South Quinsigamond Avenue, Shrewsbury, MA 01545. This get-together, hosted by John Kapinos, is fast becoming one of the important East Coast "meets". A \$2.00 donation will keep you fed for the day. On the schedule is a HAF auction with Sam Barto presiding. Beginning SWLs and DXers are especially invited to attend....this is the type of get-together where you'll feel welcome. Remember, June 28!

THE GWDXA CONVENTION:

The Golden West DX Association is holding its third annual convention June 25-28 in Chicago, IL. More details on this meet appeared on page 43 of the May FRENEX but if you missed them, details are available for a SASE to Mark Strickert, 2507 North Kimball, Chicago, IL 60647.

AND THE BIG ONE.....ANARC '81:

DATES: July 17, 18, and 19, 1981.

PLACE: All convention sessions will be held at the Airline Motor Hotel in Thunder Bay, Ontario, Canada.

Information on ANARC '81 is available from ANARC '81, P.O. Box 142, Thunder Bay, Ontario, Canada F7C 4V5 for a SASE with either Canadian or US postage. Since an assured hotel reservation is possible only for reservations received no later than June 15, 1981, a list of hotel rates might be in order. Single: \$32.50 Canadian or \$27.50 US. Double: \$38.50 Canadian or \$32.75 US. Further, the Convention Registration Fee is \$15.00 Canadian or \$12.75 US. This includes the Sunday morning buffet breakfast. The same price applies to the Friday evening banquet.

An interesting program is planned beginning with the "Ice-breaker" on Thursday evening for early arrivals and ending with a possible two-hour boat trip in Thunder Bay Harbor on Monday, July 20 if enough people are on hand.

Further information on this convention and a registration form appear on page 56 of this FRENEX.

AND YET ANOTHER ONE!...

The New England Area DXers Outing isn't until September 13 but it's never too early to make plans. This is the sixth NEAD XO and advance reports say it's going to be the best yet! The outing is held at Black Rock State Park around Watertown, CT and there will be a banquet the previous evening (Saturday, September 12) at the Preston Hill Inn in Middlebury, CT. Space at the banquet is limited so if you intend to attend, write for a registration form to Sam Barto, 460 Emmett Street B-19, Bristol, CT 06010.

WHAT TO SEND TO WHOM DEPARTMENT

To reduce any confusion caused by the recent change in the NASWA Headquarters location, I would like to mention that a good rule to follow is: If you are sending money with your letter, send it to P.O. Box 13, Liberty, IN 47353. This includes new memberships, renewals, orders for special publications, etc. Membership inquiries should also be sent to Liberty. Almost everything else, FRENEX material, club notices, other items for announcement, Helping Hand notices, etc. and also letters on NASWA matters should be sent to 45 Wildflower Road, Levittown, PA 19057. Change-of-address notices can be sent to either or both because they have to be recorded at both locations.

shortwave CENTER

THE JUNE 1981 CHRONICLE OF DX ARTICLES, INTERVIEWS, AND OPINION

GERENTE: John J. Moritz Jr., 4779 Pine Trace, Youngstown, Ohio 44515

Amigos mios! This month we start off with a Special Feature on the history of NASWA! A three-part series compiled and edited by Don Jensen, it takes us from the founding of NASWA in 1961, right on up to the present and our 20th anniversary in November of this year. It is truly a first of sorts; since we have no actual recorded history of our club in print. Old and new will surely enjoy it, and our thanks to Don for his efforts. A lot of time and labor went into the making of this series, and despite all the conflicts and arguments that took place throughout our history it only points up the fact that NASWA is still the best club, with the best publication in existence today. I am truly happy and proud to take part in this special 20th anniversary celebration, and along with Mac and Bill, and the rest of my co-editors, we promise to keep on bringing you the best that this hobby has to offer. As Tony Beretta used to say, "You can take that to the bank"! On to the goodies...

A History of the North American Shortwave Association, By Don Jensen

PART 1, NASWA, THE EARLY YEARS -- 1961-1966

NASWA -- it was just NASA, the North American Short Wave Association then -- was founded in November 1961. And because, to my knowledge, there is no complete collection existing of all issues of FRENEX, the full history of the club may never be compiled. What is known of the earliest era has to be pieced together from several sources, but mostly from comments in later FRENEX issues.

In terms of membership, it seems safe to say that Californian Don Erickson has been a part of NASWA longer than anyone else now a member of the club. The author of this review didn't come along in the club until the fall of 1963.

In November of that year, NASA was struggling to recover from a major blow...Its publisher/printer (read: the guy with access to the mimeo machine), Rick Roll resigned in July. Operation of the club fell on the shoulders of editor William P. Eddings, an easygoing, goodhearted, thin-skinned fellow from Altoona, Pa. He found he liked to run a club more than he liked to tune shortwave, so the switch in hobby emphasis was easy -- though the work was long and hard.

Eddings had no money for the club, no mimeo to print it. The July and August issues had been missed. September, on an emergency basis, member Erickson ran it off on his mimeo. A pleas for funds for a mimeograph was sounded. Some dollars came in, Eddings added to the total his own funds. The November 1963 issue was the first printed in Altoona on a new machine -- which cost a total of 69.39, including tax and shipping. And there was still 42.75 in the treasury for things like paper, ink and postage to mail the next issue.

FRENEX scarcely resembled today's "magazine." It was standard 8 1/2 by 11 size, no illustrations and with a much different content. NASA was a general club, then, with coverage of medium wave, ham band listening, something called "Outer Space," edited by an Army Sergeant Nick Vrettos, and a "Friendship Corner," devoted to a hobby spinoff very popular in those days, exchanging SWL cards...sometimes called simply, cardswapping.

There were a few familiar features, though, a brief Logging Section, rarely more than two or three pages, the predecessor of our current Log Reports, and something called Newsroom which would evolve into Listener's Notebook. The former was edited by Robert Newhart, a young GI, who took over from Eddings after the former compiler admitted members were complaining about his "errors." Newsroom was edited by an Ohio listener, Ron Luyster. (Newhart at one time would have the distinction of providing the only U.S. bulletin that featured at least some tips in Swedish for European readers--

that, however, was in a bulletin other than FRENEX).

In June 1964, after six months of trying to elect a board of directors, Eddings announced that the BoD: LeVoyd Kunej, John Arthur and Don Jensen. Arthur, after an absence of some years, recently rejoined NASWA, returning to the club he once served as director, a decade and a half ago.

In 1964, it cost just 3.00 for a membership to the club. The club's headquarters, as described by Eddings, was a 2-room, 2-window apartment on the third floor of a building "on the other side of the tracks" in Altoona. There Eddings worked in a cramped corner of one room, at least forty hours a month, cranking out a bulletin and administering a club that was growing over 200 members.

A new column was begun in November of 1964...Shortwave Center. Edited by Eddings, it was mostly members letters and short comments.

The editorial staff of FRENEX, as noted in the January 1965 issue, consisted of Bill Eddings, Joseph Fela Jr., Rihhard Little, Alan Herrington and Larry Marshall. Other new features began showing up that year, notably short station articles and Scoreboard. There also were features about members and other well known DXers, including "DXing Dean" August Balbi and "Space Buff" Louie Stober of Oregon. Stober had become a director, when Kunej had resigned.

A fellow named Doug Benson, a professional radio newsman in New York, later New Hampshire, became an active part of NASWA operations. He took over Newsroom from Luyster and added a professional newsman's touch, plus a bit of humor.

For about a half year in mid-1965, NASA ran a captionless cartoon, inviting members to send in their contributions to caption it. The prize was a transistor portable.

There was continuing concern in the hobby about inter-club squabbling. A desire to bring peace to the hobby led to the formation of the Association of North American Radio Clubs (ANARC) in 1964, but, like the United Nations, it could only try to use reason and goodwill to promote peace. ANARC struggled along; some critics openly doubted its value because it had no real power to end the widespread bickering. By 1966, an observer in a national radio magazine wrote: "Despite the facade of friendliness...(the clubs) hate each other like poison." In a February 1966 editorial, Eddings reluctantly agreed with that observation, and urged a peaceful solution to the problems between clubs...apparently the result of jealousy and a competition to grow.

"We need not see eye to eye to stand shoulder to shoulder," Eddings wrote. He would editorialize on that theme many times over several years.

Relative peace did settle on the clubs in the next year or two. One reason, it seemed, was that things sorted themselves out, various clubs found their own particular niches to fill.

Eddings, in a page one FRENEX editorial in the October 1965 bulletin saw the future might be in the "coming age of 'specialistic' clubs." He was not convinced then, though. "Are they needed? Can they succeed?" he asked. He also promised that "should members show...interest in...an era of specialization, that is the course we will take." Seven months later the question of going "all -SW" was put to members.

Shortwave was taking on greater emphasis in NASA. The logging section through 1965 grew from about three pages to 5, then 6, even eight or more. But in November 1965, the small scoreboard had only five DXers with over 100 countries verified. The top score was 180 countries heard on shortwave.

In that same month, a flamboyant 14-year-old Connecticut youth burst upon the DX scene. He took over one smaller club, picked fights with others, showed much enthusiasm and considerable talent, although unbridled. For a couple of years he burned like a minor meteor. And a few years later, hobbyists learned, the young man committed a murder while hitchhiking from Florida, was convicted and imprisoned -- reportedly for life. The hobby, over the years, has been peopled by all sorts of characters -- perhaps a subject for an article in its own right, someday.

In December 1965, in response to chiding from another DX club that promoted itself as the only democratic organization in the hobby, Eddings offered a draft of a constitution to club members.

January 1966 brought the debut of a character who would become a hobby fixture for years, Charlie Loudenboomer. Ol CL was a satirical columnist with a wicked pen, poking fun at the foibles and fakes in the hobby. He could be very funny, or fall flat, he was at times a boor, sometimes a bore, disliked by some, loved by others. He was a FRENEX exclusive, but was occasionally reprinted in other club bulletins. He never revealed his identity. Some readers spent years trying to figure out who Charlie really was. Many names were suggested. No one confessed. Some said they were just as happy not knowing.

Eddings, who presumably knew CLs identity, initially expressed reservations. Loudenboomer sought confrontation, controversy, something with which Bill Eddings was never comfortable. But he became proud of CL, when other clubs praised the column as "best satire ever to appear in a club publication," or similar. In later years, after Eddings' death, Loudenboomer's columns reached subsequent FRENEX publishers via circuitous routes, apparently, and they maintained they did not know the real identity of their unusual columnist.

Charles's subsequent departure from NASWA will be told in a later segment of the club history.

The April 1966 FRENEX promoted the first annual ANARC convention which was scheduled for July 29-31 at the Muehlbach Hotel in Kansas City, MO.

The same bulletin also offered a special discount price on the 1966 WRTVH for members: 3.80, a reduction from the cover price of 4.95.

The slowly developing emphasis on shortwave in the club reached the point in May that a proposal to devote the entire bulletin to SW, and abandon the other aspects of coverage, medium wave BCX, hams, TV and VHF/Space, cardswapping, etc. was put to the membership. Members with other interests were offered a deal. They could switch to the all BCX club, IPCA, or the broad-based Canadian DX Club for the remainder of their membership, with their fees paid by NASWA, or they could get a cash refund.

About 70% of the membership voted, a rather startlingly high percentage. The vote was 196 to 102 in favor of converting NASA to an all-SWEX club. The result, announced in July, 1966, was not really a surprise, but a few did complain in the bulletin that they were being exiled from a club they'd long supported. But many who voted "no" stayed on as members.

Don Jensen became shortwave editor, with Luyster and a Canadian member, Gregg Calkin (now a Canadian diplomat) as assistant editors. Calkin developed the QSL section. Soon the Log Section had its own editor, Texan Del Hirst, recently rejoined member again. The section was now 10 to 12 pages long with many contributions. Dan Henderson took over as Newsroom editor. Bob Hill became contest editor/manager.

Though still a mimeographed bulletin, FRENEX had taken on most of the features that make it what it is today.

The switch came in August 1966. Eddings announced "NASA Now New Era Club for SWEXers!"

Membership in the new NASA cost four dollars a year.

Two months later, the club completed five years of existence.

(To be continued)

THE SHORTWAVE CENTER INTERVIEW: CARSTEN WIEDEMANN, RADIO DENMARK

(Editor's notes: I went to Carsten Wiedemann, one of the key people in the shortwave section of Radio Denmark for some answers as to the future of this fine station. Over the past year many rumors have surfaced about Radio Denmark; a possible new English service, more power, and new equipment. Mr. Wiedemann kindly consented to give me the facts. What follows and emerges is the true story of just what is happening at Radio Denmark.)

SWC: Welcome to Shortwave Center. How is the progress going on the new 50kw transmitter? Will it be ready shortly?

Wiedemann: Two months ago a contract was signed with the Swiss firm Brown-Boveri. For approx. 500,000 dollars we'll get a 100 kw-transmitter, semi-automatic and synthesizer-tuned. It will be delivered here in Denmark in September and will be ready for operation around January 1982. Unfortunately we'll be unable to use its full effect, since the present antenna (log-periodic) will not allow more than 50 kw.

SWC: So, it turns out to be 100kw and not 50 as I had understood. Are there any plans for resumption of an English service once the new transmitter is installed? Radio Denmark had one of the nicest English programs going a number of years back. Whatever became of that exotic lady with the very sexy voice who used to do the English broadcasts? Her name escapes me at the moment.

Wiedemann: We have lots of plans in order to reestablish an English Service. We feel that it is a shame to broadcast in Danish only, but as you may know the transmissions in foreign languages was stopped by the Radio Council, and this decision can only be altered by the Council itself. So far it has been impossible for us to get through to this top of Radio Denmark. But we sure hope that we'll have a comeback in English with our new facilities. The exotic lady with the sexy voice could have been Susanne Jackson, working with Christian Flagstad on the "DX-Window" a very popular program in former days. Whatever became of her I frankly don't know.

SWC: We notice from the new WRTVH that two 500 kW transmitters are also in

the works, to be installed by 1985. Can you tell us anything about these, and will there be some additional frequencies?

Wiedemann: The 500 kW-transmitters are still in the foggy future. But as far as we know two antennas will be ordered this year. Most likely they will be rotatable curtain-antennas. Of course we'll be able to broadcast in a number of different frequencies with these transmitters, but that also goes for the Brown-Boveri transmitter.

SWC: While many of the major broadcasters have gone over to QSLing only once a year, Radio Denmark continues to openly request reception reports and QSL on a regular basis. Why do you think this is? By the way, we congratulate you on it!

Wiedemann: Three reasons why we still QSL regularly is that the number of reports we receive is not very large, naturally because we broadcast in Danish only. We receive approx. 1000 reports per year. So until we reestablish broadcasts in foreign languages I think that we'll maintain the present QSL policy.

SWC: What one thing, or event, would you like to see take place in the world of international shortwave broadcasting? Thanks so much for giving of your time.

Wiedemann: The most happy thing to happen in the Shortwave-world for a small station like the Danish would of course be that there could be established some sort of control or limit so that the larger (propaganda) stations should not be allowed to occupy so many frequencies. We don't think it fair for instance that one station should broadcast on several frequencies in the same band at the same time. It leaves very little to the minor stations. I hope that you have been able to learn something from this, and I wish you a lot of success with your club and its magazine.

SWC: Thanks for the kind words and the fine information. We wish you the best of luck in your future broadcasting endeavors.

RADIO BAHAI. By Marlin A. Field

Radio Baha'i is operated by the National Spiritual Assembly of the Baha'is of Ecuador. The medium wave station, on 1420 kcs., was launched on December 12, 1977. It is a non-commercial, cultural, educational, religious station, which serves principally the rural, indigenous populations of the Andean valleys of Otavalo and Cayambe in northern Ecuador. The station transmits from four a.m. to seven p.m. local time (0900 to 0000 GMT) with the power of one kilowatt.

Radio Baha'i shortwave, on 2340 kcs., was launched on November 12, 1979, also operating with one kilowatt. During its first year the station repeated the medium wave service from 0900 to 1300 GMT. However, a new independent program schedule was initiated on December 19, 1980, with broadcasts nightly, except Sundays, from 2400 to 0100 GMT.

Both stations serve as a pilot project for further ventures into broadcasting by Baha'is in other locations. They have received much publicity in the Baha'i press around the world, and more recently, in DX publications. The staff is small and largely Ecuadorian, but there are several North Americans who are assisting in technical, programming, and management capacities, mostly in a training role.

My verification, in the form of a personal letter written in Spanish and English, was signed by Michael J. Stokes, secretary for the Commission for Radio Baha'i. A copy of the letter was sent to Baha'i World Center, Haifa, Israel; Sr. Raul Pavan; National Spiritual Assembly of Ecuador, and Mr. K. Dean Stephens.

QSL cards are being printed. The station's address is Radio Baha'i, Apartado fourteen, Atavalo, Ecuador.

(Additional info: your SWC editor recently received a letter from Mr. Stokes indicating that the station is considering a move to the 90, 75, or 60 meter band, providing they can get an assignment. He indicated that at the time of their original application only 120 meters was available. The station went to Shortwave in an attempt to get national coverage in Ecuador. Also, the QSL cards are printed, and are very striking with a picture of Cuycocha lake and the Cotacachi in the background.)

RANDOM THOUGHTS AND CRIPES FROM ALBERT A. MILLER

The decision some years ago by VOA to eliminate the identification of its various transmitter sites at s/on and s/off was not necessary. I don't accept their reason that the host countries were objecting to the practice. All governments in the world know where the VOA has transmitters!

DXING FEVER! CATCH IT IN THE PAGES OF SHORTWAVE CENTER!!!

VINTAGE VIGNETTES

WDX3UPA Bill Taylor, Box 132, Unionville, PA 19375

DXing With McMurdo Silver's Masterpieces
(produced from 1932 - 1938)
by Hardy Trolander

Following the meteoric rise and fall of Silver-Marshall, Inc. (1924-'31), Bill Halligan picked up its bankrupt pieces, used its name (Silver Marshall by the Hallicrafters) for a brief period, and then went on to write his own place into radio history. While Halligan was switching the Hallicrafters from home to ham receivers, McMurdo Silver was modestly beginning over again by switching his endeavors from mass production to top-of-the-market "custom built" home sets. In reality, from Masterpiece I through Masterpiece VI and bankruptcy again, the sets are more accurately characterized as being of limited production; for, though some were built to order, others were built on speculation. All of the sets, from model change to model change, followed nearly identical circuits, tubes and parts. The Masterpiece IV was an exception; as it was switched to many octal based tubes in mid-run. The Masterpiece I appeared in 1932. In late 1937, the Masterpiece VI (the finest of them all) turned out to be the harbinger of another business failure, and the end of the series.

All of the Masterpieces were designed and built to appeal to those who had the money to spend on superlatives; to those who wanted a radio that went beyond the more commonplace RCA, Sparton and Zenith sets. These receivers had to clearly establish their presence, and this was achieved in part by chrome plating everything on the chassis! They employed the most powerful speakers of their time; provided by Peter Jensen, a personal friend of Mr. Silver. While E. H. Scott's receivers got along perfectly well with somewhat hum-drum Magnavox products, Jensen adapted his then awesome eighteen inch electrodynamic theater speakers for home use as standard equipment on the Masterpiece V's and VI's. Thus, their speakers alone make these sets collector's items.

The Masterpiece V (below) rests on a Clifton cabinet ... art-deco at close to its best. The eighteen inch Jensen is inside, slightly offset to accommodate the power amplifier and power supply (two 6C5's, two 6L6's and two 5Z3's). Lift off the chromed cover of its RF chassis, and everything underneath is also chromed (the RF and IF cans, Variable condenser shield, and all of the grid cap shields atop its metal tubes). There are fourteen tubes in this part of the set, including the magic eye at the apex of the tuning dial.

But the guts of this set make it yet a great DX machine forty-five years after it was produced. Its tuning range is .14 to .12 Mc CW and .54 to 70.0 Mc covered in five additional bands. A single conversion superhet, it employs two-position IF selectivity at 5 and 12 Kc. Two tuned RF stages, with 6K7's in ceramic sockets, cover all but the highest band. A 6L7 mixer and 6J7 local oscillator feed the three stage (6K7's) IF amplifier at 465 Kc; while separate 6K7 and 6H6 tubes amplify and rectify the AGC voltage and provide the signal to the 6C5 magic eye. Almost without exception, all trimmers and padders in the RF, IF and AGC stages are air-tuned; hence, re-alignment of these sets is rarely, if ever, needed. A 6Q7, functioning as the second detector and EFO, is followed by a 6L7, 6C5, and 6H6 in audio amplifier/volume expander configuration. The expander, which widens the volume range by boosting the strong portions and mulling down the weaker segments, is for the SWL but of no use to the scribbus DXer. From there, the signal goes to the 6C5's of the power amplifier. Turn the volume control full up, and they drive the push-pull 6L6's (in class AB amp) to deliver 35 watts into the high-efficiency Jensen. From the standpoint of pure noise, if not fidelity, the audio output is awesome, and its sound pressure exceeds the threshold of pain for a considerable distance from the speaker.

Other features of interest to the DXer include a phone jack that kills the speaker, separate bass and treble tone controls that go from telephone sharp to wide range bass and treble boost, and mechanical band spread dialing through planetary ball bearings and split gears that are able to resolve, for example, 18Mc to a couple of hundred hertz with almost

imperceptible backlash.

The other side of the coin, briefly, is that this set is huge, heavy (more than 100 lbs.), and whatever else it does or does not do ... when the AC switch is turned on, it is a twenty tube, 195 watt electric room heater. There is no battery option.

But, how does the Masterpiece V fare in 1981? Should, or should not, a DXer who is also a fancier of old radios rush out and try to acquire one of these chrome-plated monsters? The following table represents my attempt to rate the Masterpiece V with several other sets of various ages, currently in my possession, in side-by-side comparison. The antenna used for this purpose is a seventy foot long-wire, oriented NE/SW in the attic of my house, and about fifteen feet above ground. The sets, listed alphabetically, are all in first-rate condition, and all comparisons were recently done on the shortwave broadcast bands.

MANUFACTURER & MODEL NO. OR NAME	Sensitivity	Selectivity	Background Noise	Freq. Stability	Audio Clarity	Birdies	RF Overload	Audio Output Power	Tuning Ease	Construction Quality	Level of Technology	Production Data	Overall Rating	KEY TO RATINGS
Barlow-Wadley XCR-30	F	G	F	G	F	P	P	G	F	V	F*			* - Xtal Filter
Drake SSR-1	G	G	G	V	F	P	P	F	V	G	G	G		V - Very Good
National HRO-50T	V	V*	G	F	F	V	V	G	F	V	P	G		G - Good
1938 Scott Phantom	P	F	F	F	F	P	V	G	P	P	F	F		F - Fair
1936 McMurdo Silver V	V	G	V	F	V	V	V	V	F	V	V	V		P - Poor

It is recognized that these ratings, done by a single person, are likely not to be without personal bias. One or two additional comments may be in order. The Scott, for example, is an otherwise fairly high quality receiver if one discounts its cheap friction and string dialing system; hence, it cannot be given serious consideration as a DX machine. Furthermore, its ill-conceived, cats-cradle underchassis layout of parts and wiring destroys any appearance of care in design and assembly. The high static friction characteristic of the HRO dial system earns an otherwise very precise dial a fair rating for ease of tuning. The Silver is the only receiver in the group equipped with a bass tone control, and it is capable of extreme attenuation of the lower audio frequencies.

Although in this author's opinion, the Scott Phantom is somewhat disappointing, all of the receivers in the group are worth the attention of collectors and several are worthy DX machines as well.

Mr. Trolander began DXing shortwave broadcasts in 1934 with a homemade regenerative two-tube receiver. He is a Senior Member of the Institute of Electrical & Electronic Engineers.

TUBE OF THE MONTH

27/227 MEDIUM-MU TRIODE

The UX-227 triode tube was the end-product of research and development for a tube capable of operating its filament from AC line current. RCA requested this development in 1926 and several versions were forthcoming from the kind folks at Westinghouse. The prototypes were basically 6L-A triodes (with minor differences in loads, capacity, etc.) and were called the UX-226. These valves, however, could not be used as detectors. Coincidentally, the UX-225 was developed utilizing an indirectly heated cathode rather than a filament. In order to eliminate the need for a grid cap on the top of the tube, Westinghouse suggested the use of a five pin base. The UX-225 designation then proceeded through a series of changes that included AY-225, AY-227, and finally the UX-227. The earliest 227 tubes were plagued by grid emissions due to their sheet metal anodes. These were soon changed to mesh plates; production bugs were eliminated; and the AC age was then under way.

MEDIUM-MU TRIODE

Glass type used as voltage amplifier or detector in unoperated receivers. Outline 28. OUTLINES SECTION. Tube requires five-contact socket. Heater volts (ac/dc), 2.5; amperes, 1.75. This type is used principally for renewal purposes.

27

I wish to thank you all for your warm reception and response. Without you; people like Hardy Trolander, Henry Shaw, John Vogelman and Ed Insinger; I'd feel like a voice in the wilderness. Remember, gang; you don't have to be old to be an olds tymer. 73 de *Siel*

KING

A SHORTWAVE SHORT, By Al Sizer

A new shortwave station in Lebanon has been heard since early February on 6215 kHz despite opposition from the U.S. State Department.

The station is KING, "The King of Hope" operated in simulcast with a medium wave station on 945 kHz called WORD, "The Voice of Hope" and TV Station HOPE, Channel 12, called "The Star of Hope" by High Adventure Ministries, Van Nuys, CA, as part of its Holyland Broadcasting Network. (Since the program is simulcast the only IDs that have been heard on SW are for WORD and "The Voice of Hope".) Do not confuse with the Voice of Hope program broadcast on nearby 6220 kHz on the facilities of Radio Andorra.

The medium wave outlet began broadcasting September 8, 1980. The stations operate with 30 kilowatts of power and are located in "Free Lebanon" in Marjayoun on the road from Metullah to El-Khiam in a mine field, according to George Otis, president of High Adventure. The location is called "Valley of the Springs" and its low level protects the station from shelling. The twin broadcasting towers are decorated with white peace doves.

Otis says the purpose of the station is "to help bring peace and give encouragement to the people under the guns of the PLO." The format has been country-western, gospelmusic, news, United Nations material and children's programs. Special selected and edited religious oriented programs in English Arabic and Russian round out the format. News every hour on the hour is in English, five times daily in Arabic and once a day in French.

There is also one other unique feature which Otis calls "God's commercials". At the end of each 15 minutes of music there is 60 seconds of reading from the Old Testament.

The station is not intended as a propaganda stage for politicians but as a voice of God who loves peace, according to Otis. Despite this intention the project ran into flak from the U.S. State Department at the start. The U.S. asked for a postponement of broadcasting because of the lack of U.S. recognition of Free Lebanon and its fears for the station's staff's security.

However, Otis said the U.S. request arrived two days after test broadcasts had already begun and since the station "in no way interferes with U.S. or Canadian foreign affairs; it would proceed on schedule."

Further information on the disagreement comes from a series of articles in William Loeb's right wing Union Leader in Manchester, N.H. by Ray Sidel. Sidel said he was in the room when Otis received a call from a U.S. official in the embassy in Israel which, Otis charged, suggested that Otis was endangering the tax exempt status of his ministry by going ahead with the station. Sidel says he relayed the story to major newspapers and wire services in the U.S. but no one except his paper has printed it.

"It isn't pleasant", comments Sidel, "to have your government try to bulldoze you into shutting down a project you consider of great human and moral value."

Permission for building the station was given by Major Sa'ad Haddad, Free Lebanese military leader, who participated in the first broadcast. The station is located in a former Lebanese customs house. A Pat Boone rendition from the movie "Exodus" was among the first songs played.

Since Otis is a known friend of Israel and an enemy of the PLO the station received good publicity in the Israeli press and obviously did not displease the Israeli government when it began operations.

- 30 -

(Editor's notes* broadcast times for the 6215 kHz outlet have been noted as *0400-2200* GMT, varying a bit on either end. QSLs have been received from both Van Nuys, California, and Metulla, Israel.)

ANTENNA RESTORATION AND PRESERVATION by Andy Robins

Severe weather and man-made pollution are hard on shortwave antennas. Here in Michigan we have both in abundance. High humidity and corrosive compounds usually require replacing wire and coaxial cable every year, a practice I've followed for almost a decade. However, the rising cost of nearly everything, including wire and cable, forced me to think about ways of economizing. Here are a few tips I've learned that may be useful if you use uninsulated copper wire as an aerial.

When that year-old antenna comes down, it's difficult to remember that the black wire was once shiny, and that the coax efficiently conducted signals to your receiver. The soldered connections have been degraded by corrosion while the rot also was sabotaging the dielectric in the cable. Instead of

buying more of each once a year, think about restoring the wire you have and preventing damage to the lead-in.

Take that ugly black wire and let it soak a few days in a mild corrosive like distilled white vinegar. The Heintz variety sells here for about 70¢/qt. Your wire will look almost brand new. This isn't important for aesthetic reasons; those who've tried know it's almost impossible to get a decent soldered connection with wire that's not clean.

Prevent deterioration of the coax by sealing the end connected to the antenna. Instead of silicone gel, use a hardening compound of the "plastic rubber" kind. It stays flexible but keeps water out of the dielectric, stopping corrosion before it starts.

The cost of copper used in wire and cable, like all basic metals, is continually rising. Save money by recycling as much as possible. It'll help pay for that new Drake R-7.

FAVORITE QSL by Martin Foltz

Picking out a most prized QSL is fairly difficult when you have several nice ones. Like many, some of my best are plain looking, including several prepared cards. But the most prized is sometimes one you never expected to get. My first Peruvian report was to Radio Andina in Huancayo. It wasn't until a couple months later that I found out how hard it was to verify them. When I heard this, I put them on the "I've sent them a report" list and quickly forgot about the report. But 11 months later I received a form letter and their beautiful hand painted pennant. A nice surprise and my best Latin verie.

(Editor's note: Indeed, to this day your SWC editor's QSL from Andina ranks as his most favorite. The hand painted pennant? Well, I just think it cannot be topped, anywhere! I spent a good many years and many more reports to get that Gerente at Andina to answer my letters. It was well worth it!)

MORE PLAIN TALK ABOUT ANTENNAS by Neal A. Perdue

6. Dipoles are fine if you are interested in directive reception (broadside to it's plane), but for general nondirective reception I recommend the inverted-V with a center angle of as close to 90 degrees as possible. Orientation of this antenna is essentially unimportant. I recently placed 60M inverted-Vs at right angles to each other just for a test of directivity. The difference between the two was undetectable. This test was run for over two weeks, at all times of day and night, with reception from many areas of the world. I consider the results to be conclusive. If you'll feel better placing your inverted-V broadside to your favorite target area, do so. But, if you can't, don't give it a second thought. Put it wherever it will fit. The ends of the inverted-V can be as low as 10 feet above GND.
7. An inverted-V should be fed with 50 ohm coax such as RG-58/U, a dipole with 75 ohm coax such as RG-59/U.
8. Insulated wire in no way impedes signal transfer in an antenna, and will greatly extend the life of the antenna.

DX SMORGASBORD

Dan Ferguson
P. O. Box 8452
South Charleston, WV 25303

ON DXING: CENTRAL AMERICA

In April we looked briefly at several of the Central American countries. We'll finish that tour this month.

HONDURAS A couple of newer stations in Honduras were mentioned in April. Probably the Honduran first heard by most listeners is HRVC, La Voz Evangelica, broadcasting from Tegucigalpa on 4820 kHz. The station operates in Spanish from 1100 to 0300, and in English from 0300 to 0500 daily, according to a schedule recently received directly from the station. Observations indicate the sign off will vary 5-10 minutes either side of 0500. Reports in English are acceptable and they will verify, usually within a month.

R. Juticalpa is widely heard around 1100 and evenings to around 0600 on 4780 kHz. You'll do better to report to this one in Spanish. Try the NASWA Spanish language reporting guide.

There are other Honduran stations, but the last one we'll mention here is Radio Lux, in Olanchito. This station operates on 4890 kHz, and is most often heard in the evenings, to sign off around 0300.

As with all stations in the 60 meter band, or any other band, be sure you've got the station you think you have before reporting reception to the station or to the log report. The bands are crowded, stations change operating schedules, even frequencies, at times without notice.

NICARAGUA There are presently two stations known to be operating from Nicaragua. La Voz de Nicaragua, Managua, on 5950 kHz, is widely heard with its 50 kw transmitter. Try for them mornings after 1100, and evenings till around 0600. The station is being received with a strong signal as this is being typed, though with an annoying heterodyne. There have been some indications the station is also operating on the 25 meter band. A recent sked from the station quoted 11870 kHz (5kHz down from the frequency in use a few years ago). 11837 is another frequency sometimes mentioned. Whether they operate on 25 meters or not, those needing to hear Nicaragua can hear them easily on 5950. They QSL rather quickly, too; report in Spanish.

Another Nicaraguan known to be active is Radio Zinica, in Bluefields, on 6120 kHz. Try them after 1100. This one runs much less power (1 kw) than Lv de Nicaragua (50 kw), and is more difficult to hear. It is operating, though, so keep trying.

Yet another Nicaraguan known to have been operating in the recent past is Radio Hernandez de Cordoba, reported by Ernie Behr in the February Listener's Notebook to have been heard Christmas Eve 0440-0618*. This one seldom operates at times that it will propagate into NA. So, as Ernie suggested in February, try for it next Christmas. If you get it be sure to report it to Log Report.

PANAMA There is nothing currently operating from this country on the shortwave broadcast bands. The last station known to operate from Panama was La Voz del Baru, David, on 6045 kHz. It has been off the air for several years.

COORDINATED MONITORING EVENT

A Coordinated Monitoring Event is an effort, by concentrated simultaneous (or nearly so) monitoring by many DX'ers, to obtain a picture of shortwave broadcasting activity in a particular band, or from a particular region of the world....

This time the C.M.E. is one covering the 13 meter international broadcasting band, 21450 - 21750 kHz. To participate merely supply me with notes on reception of stations between 21450 and 21750 kHz from the time you receive this bulletin until the end of June.

Information needed, preferably in the order given, is: Frequency, Country, Station, Language, Time (in GMT), Target Area (if known), Date(s). Sign On, Sign Off, Fade In, and Fade Out times are of particular importance, as they help give an accurate picture of activity in the band. When you send your notes, send also a self addressed stamped envelope with postage attached for one ounce of weight. You will receive in return a computer printed summary of broadcasting activity noted by all who participate.

Overseas members may send 2 IRC's instead of the postage. I have mail for a number of different DX/SWL activities, including the bi-monthly computerized list of English Shortwave Programs (esp), personal DX correspondence, etc., arriving at my Post Office Box, so it would help me to keep things organized if you would note "CME" on the lower left corner of your envelope.... Be sure also to report appropriate loggings to the Log Report.... Back next month.

Dan F.

IT SOUNDS TO ME!

BY ALVIN V. SIZER, 22 COUNTRY WAY, NORTH HAVEN, CT 06473

The text for this month's sermon is from an UPDATE logging:
"UAE RCTV DUBAI, 11755.. 'Breakfast Show' w/insipid McCartney tune and after I cursed the ubiquity of western pop mx it broke suddenly into AR lang and mx, praise be to Allah."

John Hedstrom, IL, from mid-February issue. John's logging spurred me to comment. I have been long meaning to speak out about the deplorable trend of shortwave stations to forgo their own native, indigenous music in favor of Western pops. And by "Western", of course, I am not referring exclusively to country music, although that is also part of the problem, but rock, show tunes and what we call MOR or "middle of the road" music.

It isn't that I have anything against these types of music per se but when I turn on my shortwave receiver I am looking for something apart from my usual listening experience. If not, I would be content with local radio, TV, tapes and records. If I dial an Arabic station then I am looking for Arabic music' if I tune in Venezuela I hope for music of that country; if I'm lucky enough to get Indonesia then I'm seeking gamelan or some other local musical fare.

Instead, what do I get? Well, Hedstrom has pointed out what you're apt to find on an Arab station. From Venezuela or Colombia I might well hear the same selections I could hear in this country. Indonesia might well give me the "oldies but goodies" of a past generation that are being featured full-time on one of our New Haven outlets.

To cap it all, a Papuan station might beam back at me country music from the U.S. instead of the exciting ethnic output from its own terrain.

I'll concede this is not always true. There is still a good deal of interesting native music to be heard on SW. But the trend is there.

I first became conscious of this several years ago in listening to Radio Juventud, Barquisimeto, Venezuela, a powerhouse on 4900 kilohertz. It was featuring nothing but rock and its QSL card showed a teenaged couple dancing to disco stuff and bore the motto, "Une Emisora Joven para la Gente Joven" (A Young Station for Young People.)

You may object that Juventud, or the Papuans, are not international SW stations. O.K., even more regrettable. The home folks are giving up their own native music. Now Juventud seems to have vanished from SW. Is this coincidental or related?

Other S.A. stations are beginning to follow the new musical trend. Even in cases where they haven't gone for rock, they have increasingly deserted the more exotic for the more conventional. In this connection Stu Klein, N.J. noted in mid-April UPDATE noted that he had logged the Peruvian R. Atlantida on 4790 with power but "the trouble was they were playing Latin pops not the great local stuff I prefer."

There is another side to this question, of course. International stations might tell me that if they are to influence other peoples it makes sense to play the listeners' kind of music. An Arabic station like Dubai might well feel that to get their message across they have to play the kind of music that says, "Look, we're up to date, modern and not all that different from you folks."

On the other hand, the Voice of America, R. Liberty and Free Europe by sending our kind of music into tightly-controlled countries like Russia have built up an audience of eager listeners and forced the Soviets, for example, to loosen up their musical curbs somewhat. Russian music on the VOA wouldn't have the same effect.

To recap, speaking for myself and possibly for many of you, I do not go to my SW receiver for music I can hear at home. I tune in to be entertained and informed by something off the beaten track of my day-to-day routine. If I can't find it there, I will probably turn off my set.

Hey, I can hear the kind of music some of these shortwave stations in other countries are playing by opening my window wide and listening to the teenagers around my neighborhood playing their records!

Send those comments, whether you agree or not, to the address given above.

A PERSONAL NOTE: After 37 years in newspapers I have packed it in only to have my paper, The New Haven Register, ask me to continue part-time on my own terms. One of the things I'm doing is writing a weekly column, "Second Round", about people of the "retirement set" into interesting second careers, hobbies and volunteer work. I'm glad I have an interesting hobby like shortwave!

This Is The Way It Sounds To Them!

Feedback from April on Namibia and Paul Theroux as a Travel Writer

Two items in my miscellany column in April have brought comment: my criticism of approval of Namibia as a country on the NASWA list and my defense of Paul Theroux as a travel writer.

NAMIBIA: I said that the NASWA Country Committee had "rightly" decided Transkei, Ciskei, etc. were nothing but South African satellites and denied them country status but should not have made an exception for Namibia. Note that I said nothing about apartheid or political philosophy.

However, Joseph H. Udelson, Nashville, TN, accuses me of being a "biased" editor and severely criticizes the decision not to include the above named countries as "unwarranted politicizing of DXing by the NASWA and as a member I protest vigorously against it as a violation of members' personal liberty and a distortion of the hobby." Udelson cites evidence to back his claim Transkei, Venda, Bophutswana, etc. are legitimate radio countries.

Don Jensen, chairman of the NASWA Country committee, in a five-page letter to Udelson, has explained the committee's action. This position is well summarized at the beginning of the NASWA "Radio Country List and Awards Program" booklet. Although Don's letter is too long to use here I'm sure he would send you a copy if you're interested or if there is enough demand we might have a separate article in SWC.

In an accompanying note to me Don emphasizes that apartheid, racial policies, et al have no bearing on the country list committee decision. "We have come in for some totally unwarranted 'praise' for our wise decision. Counting or not counting a country has nothing to do with whether its leaders wear white hats."

The decision to exempt Namibia was because of its history. It was a former German colony mandated to South Africa as a trust territory and not an integral part of South Africa.

Other comments :

CHRIS LEITHNER, Brentwood, TN: "I disagree in your assertion that Namibia does not have country status. I presume you mean radio country as there is a big difference between the two terms." Chris cites the historical factor noted above and concludes: "There are cultural, historical and linguistic differences between Namibia and the Republic of South Africa and for that reason the Country List Committee was correct in giving it 'radio country' status."

DON MOORE, Bellefonte, PA: "What I don't understand is the double standard of the NASWA Country Committee. The various 'republics' of the USSR are separate countries yet they are certainly no more independent than Transkei, etc. I would be interested in the committee's justification of this double standard." (I believe hobby history and tradition is the criterion here.)

JOHN C. HERKIMER, Caledonia, NY: "Your comments on Namibia were well expressed and certainly relevant in light of the committee's recognition of this as a legit radio country while snubbing Transkei."

Two comments came on my defense of Paul Theroux as a travel writer:

GEORGE SCHNABEL, Rochester, NY: "The book by Theroux ('The Old Patagonian Express').. I too looked into it for a travel guide and found instead blather about obscure books written by 19th Century scribbler. How he could concentrate on reading those things while passing across some of the most interesting countries in the world I will never be able to grasp. The only great scene in the book is the futbol game in San Salvador." (Editor's Note: Paul Theroux does not write travel guides.)

DAVID L. WALCUTT, Houston, TX: "I was pleased to see your comments regarding Paul Theroux as I share your opinion. As a matter of fact, what is interesting is that Theroux is one of the few writers who gives passing attention to shortwave in a few of his works. Walcutt enclosed excerpts and I regret I don't have room to run them. But here are the references: "The Consul's File" (but Dave didn't have a copy to refer to); "Girls at Play" in the chapter entitled "Silence"; "The Great Railway Bazaar", Chapter 15 and "Saint Jack", Part II, Chapter 4.

Theroux in the last named mentions the "BBC Overseas Service" and David comments, "The use of the word 'Overseas' rather than 'World' shows that Theroux, at any rate, is not a fanatic SWL. Nevertheless, it is interesting to see somebody mention the subject of shortwave at all. He has a very dry sense of humor which must be taken into account in reading the excerpts I cite, all of which are really quite satirical."

Theroux in the "Girls at Play" excerpt cites "Big Ben booming an intro to a BBC quiz", "the familiar harridan screeching the thoughts of Mao on Radio Peking", "the platitudes of the gospel station in Ethiopia", "vowelly Portugese from God-knows-where" and "a loudmouth on what B.J. privately thought of as the Poice of Chermany."

ON THE ROAD IN SOUTH AMERICA

Juliaca -- by Pitt McNeil

(Editor's notes: During the past two years Pitt McNeil has spent a good deal of time in Peru, visiting various sites along with many radio stations. Starting this month, and continuing during the coming months, we will be running Pitt's impressions of the places he visited.)

Juliaca is a small, dirty, spread-out town in southern Peru, the connection point for the railroad going between Cusco to Arequipa. Juliaca's claim to fame is its supposed cheap alpaca goods. Notice the "supposed." The market women have caught onto the game and are charging a higher-than-Huancayo price now.

There is little to see in Juliaca outside of the market. The countryside is boring landscape -- barren flat puna; so about the only thing to occupy time is to visit the stations.

Radio Juliaca, one of ENRAD's representatives in town, is located a block up from the square, in a small one-story abode-based building. A small sign, barely noticeable, announcing the station, is over the doorway. Through the door is the waiting area/auditorium, to the right a small office, and up ahead the small studios. The director invited me to sit down in his small portion of the office. It turned out that this gent was quite interested in reports, or so it seemed. He had his folder with all the reception reports received this year, in his top desk drawer. Beside each was the carbon copy of the station's reply.

Radio Juliaca became part of the ENRAD net in '72 or '73, I was told. It is running 1 kw on MW and SW, 1100-0400. Their antennas are located on a hill outside of town. (Editor's note: Pitt's visit took place about a year and a half ago, and since then the operation of Juliaca has been somewhat irregular. It was last noted at 0100 GMT by Jack Perolo in November of 1980.)

The studios were compact. The announcer, with one of those bassy Top Forty DJ type voices, was reading a series of ads (for businesses, called anuncios) which, while going across the air were also being taped on cassette in the other part of the studio for future use. After being shown around the studios by the DJ, a remarkably short process, by the way, I did a special interview, including an ID announcement, saying, in effect, that when I'm in Juliaca, I listen to Radio Juliaca, and you should too.

After filling out my customary postcard of DJ for friendly stations visited, I went out in search of Radio El Sol de los Andes, which announces itself on the air as "the most powerful station in southern Peru." After being totally misled by two well meaning Juliacenos, I found the station, basically on the other side of town, in a more spacious building near a small park. As one enters, there is a large waiting room, with the offices--real offices this time, unlike Radio Juliaca's partitioned room--to the right, and the studio to the left, up on a platform. One looks in on the studio directly. There were a couple of turntables, a modest record collection, and a tape recorder or two. An LP of huaynos was playing. The only thing missing in the studio was the DJ, and one never appeared during my short visit.

The gerente's office was closed up for the day, I was told. And the secretaria's office had a long line of people waiting to give their mensajes (messages) or musical requests. Forseeing a long wait with a result of little more than a few minute's words with the secretary, I split, after looking at the list of the latest Top 20 per the Sun of the Andes. About five US disco tunes, whose names were unfamiliar to me--like all the disco tunes, for that matter, were on the list. Cultural imperialism strikes again!

Back near the square I found the last of the stations I'd planned to visit. Radio Collasuyo, named after the southern west quarter of the Tahuantinsuyo, the Four Quarters of the Inca Empire, has a colorful sign over the entranceway to the station. Like El Sol de los Andes, the station was running short of staff, at 10:30 a.m. a case of either being late for work or taking an early siesta. My introductory spiel about being a radioaficionado was cut short by the young man holding down the fort, who remarked that the station didn't broadcast on SW, and hadn't for quite some time. Asked when the station was planning to return to the shortwaves, he said "in a couple of months," which I take to mean any time between a couple of months and seven years. (Editor's note: indeed, at last look Collasuyo was still inactive on its 3250 frequency, and will most likely remain so. This, despite a letter to John Tuchscherer from the station indicating that it would return in January of 1980 on 3250 kHz, with more power. This is the basic norm experienced. Ask them and they will always tell you they are coming back on SW. It is usually the other way around!)

A Short But Very Efficient 60M Antenna, by Neal A. Perdue

A bet project of mine through the years has been to try to develop short antennas for use on the Tropical bands by those dxers with limited space. Many base-loaded and helically-wound vertical designs have been tried, some pretty decent, but I have never found a vertical which really approached the performance of a full size inverted-V or dipole on those bands.

Originally, when I came upon this antenna, I was trying out a 1/10 wave design which I had reason to believe might work. It didn't. In the course of the experiment, I disconnected the GND side of the antenna and there was an immediate and dramatic increase in signal strength. Using only one side of the inverted-V antenna, which is only 9 1/2 ft. long for 60M operation, signal strength was within 1 S-unit of that on the full size 96 ft. inverted-V. An added bonus was significant noise-reduction properties.

I frankly do not understand exactly why this antenna performs so well in a region of the RF spectrum where "plenty of wire" has always been the accepted rule of thumb. But, it stands to reason that if you can't get 1/2 wave of wire up (two 1/4 wave sections for a dipole or inverted-V) some length of wire must be better than some other length. "Get as much wire up as possible" is not a viable theory, especially now that most receivers have 50 ohm antenna impedance networks. Too much wire can actually hurt your reception. My 90M inverted-V is pathetic, without a tuner, on 60M.

This antenna is non-directional. It can be used, on the band it is cut for, without a tuner, but an inexpensive random wire tuner is recommended for optimum performance. Only the center-conductor of the coax is connected at the receiver or at the antenna switch, so the more expensive coax-tuner is not required. This antenna is not recommended for image prone receivers. It is definitely recommended for receivers with 50-ohms antenna input circuits, although the impedance of the antenna is not 50 ohms. Image prone receivers need resonant antennas to help them out. This antenna is not resonant, but provides the best performance of any antenna I've ever tried out which is not resonant. It is truly a remarkable performer, considering it's size. Typically, a loss of about 1 S-unit will be observed compared to a full size dipole. This is certainly negligible to DXers with limited space. Excellent results have been obtained here with a height of only 25 feet at the feed point. With a 90-degree included angle at the apex, at this height, only 55 feet of ground space is needed for the inverted-V, with rope coming right down to takes at GND level.

Regardless of location of the antenna, I would suggest forty feet of RG-58/U coax since that is the length used successfully here. It is questionable whether or not this section acts as part of the antenna when used as a "floating GND" as it is in this design. Actually, it's more like a shielded downlead. The shield of the coax is connected at the feedpoint as with a dipole to one leg of the antenna. The center conductor is connected to the other leg. The difference is that only the center conductor is connected to the receiver. For 60M operation, each leg is 10 feet long, with 6 inches folded back on the insulator. For 90M, use 14 ft., 9 inches on each side also with 6 inches of it folded back. A difference of an inch or two is no big deal.

I see no reason why this antenna could not be used indoors, in either a dipole or inverted-V configuration. Don't coil the coax, though as this will effectively load the antenna to a different resonance. Yes, it will, even tho' it's shielded! If space limitations are all that are keeping you from Tropical band DX, don't pass this up. I've worked 12 years to come up with this one. It's a good one. Please use it, someone.

To those of you whose only hobby writing is to send criticizing letters to those who contribute to these columns, I say- don't knock this one on the basis of theory- try it out before you write and tell me it won't work. Also, try writing up your own experiences sometime rather than just pick apart the efforts of those who take the time to contribute.

SHORTWAVE CENTER SPOTLIGHT: The ANARC NEWSLETTER

The ANARC Newsletter is the monthly publication of the Association of North American Radio Clubs. Each month's newsletter is jam-packed with info about each member club, new equipment on the market, and a monthy HAP-report. It is edited in fine style by Jeff White, with able assistance from executive secretary Dave Browne, publisher Joe Barr, and auditor Mike Maghakaian. If you are interested in what is available from the various dx clubs in the U.S. and what they have to offer, then this is the bulletin for you. An annual subscription is only 5.00. It can be had by writing to ANARC Newsletter, 409 Laconia Lane, Schaumburg, Illinois 60193. Tell them SWC sent you! Why not pick up on a subscription today and enjoy yourself?

CQD... CQD... CQD...

The CQD, general call distress, was the equivalent to our modern S.O.S. call. In the very early days of radio; when wireless communications were of a purely utilitarian nature; this call immediately commanded respect.

Now that Mr. Peabody has repaired the "Way Back Machine", its time to take another trip back through radio history.

One of the main uses of early wireless was to provide a link between ships at sea, as well as between ships and land installations. Just eight years after Marconi's trans-Atlantic QSO, there occurred an incident which established the true value of radio contact. The year was 1909. Across the waters off Nantucket Island, the S.S. Florida plowed through the fog. She was destined to ram the S.S. Republic with a grinding crash.

A new toy had recently been installed aboard the doomed ship. A man named Jack Binns, the Republic's wireless operator, began to pound out a CQD distress call as his ship settled ever deeper in the waters of the north Atlantic. His call got out. His message was read on shore; and, more importantly, he was copied by other ships in the area. A rescue was effected with a loss of only six men.

This widely hailed incident was recalled just three years later. As the "unsinkable" Titanic slipped beneath the waves, the S.S. California passed by her unnoticed and unknowing. Her radio officer was "off duty". Other ships had heard the distress call, but they were unable to respond in time. One of the results of this tragedy was the mandating of 24-hour radio operations.

Today, operators observe two silent periods to monitor distress calls. Special clocks are kept by naval and maritime radio operators that show two three minute pie slices (h15 to h18 & h45 to h48). During these "silent" periods, the officers take a break from rag chewin' to listen to the distress frequencies (500khz, 2182khz, and 156.8mhz FM). The combination of 24-hour monitor service and the silent periods virtually assures the quickest aid in an emergency.

TUBE OF THE MONTH

TYPE 80 FULL WAVE RECTIFIER

One of the most indispensable tubes in the history of radio is the 80 rectifier. This tube was originally developed by Westinghouse (1927) as the UX-280. The 280 was designed for use in battery eliminators which permitted battery sets to be operated from AC current. The type 80 tube saw wide service in radio power supplies throughout the thirties and forties.

Full wave rectifiers, as the 80, have a filament and two plates. As the AC cycle flows positive, the electrons are collected by plate # 1. In the negative half, plate #2 does the collecting. This fairly rough DC current from the transformer and rectifier is then rippled & smoothed by chokes and capacitors before leaving the power unit.

FULL-WAVE VACUUM RECTIFIER

Glass type used in power supply of radio equipment having moderate direct-current requirements. Outline 29, OUTLINES SECTION. Tube requires four-contact socket and should

80

be mounted preferably in a vertical position. Horizontal mounting is permissible if pins 1 and 4 are in a horizontal plane. Filament volts (ac), 6.0; amperes, 2.0. For filament operation, refer to type 5U4-G. Type 80 is electrically identical with glass-octal type 5Y3-GT.

AC	Half waves	Rectified DC	Rippled DC	Filtered DC

* * * * *

Just a quick note. Thank to all of you who have written. Your cards and letters are what really make it all worth it. Special thank go to the guys who have offered to help with reviews, old magazine articles, anecdotes, etc. I can't promise to use every one in French; I received about fifteen offers in the first ten days; but it appears that there may be more than ample interest to warrant a NASWA booklet at some later date (membership, Board and publisher willing). I would like to ask a favor of you. If you would like a response, please send me a SASE or postcard. There are about 2000 of us; and only one of me.

Coming up in future issues we'll have more nifty little stories and reviews of Trans-Oceanics, SP-400-X, SX-100, S-M Masterpieces, and much more. Don't touch that dial. Don't go away.

- ✓ **ALBANIA** R Tirana DS hrd *0300 on 5057 (WBI 16/4) Ex-*0500, partially due to DST there (gh)
✓ **ALGERIA** Alg R and 21/4 that DST of GMT+1 would begin at midnite 23/4, so all DS & ES pgms T hrd 1 hr earlier from 26/4 (WBI 23/4) EG ES hrd 25/4 2000-2030 on 25700 17745 15215 1304 & E 251 kHz (WBI 30/4) Good on 17745 6/5, not among fqs and; search 16m for them (Wolfson, NY)
✓ **ANDORRA** [Cf May LN-1] Sud R continued daily BC on 819 since 6/4 but R Andorra 702 and AWR pgm M on 6221 did not return until 8/4, but 10/4 at next check and subsequently, neither was on X the air (WBI 16/4) Police closed R Andorra down 9/4 at 1900. The Amitté-DX pgm [in FR] has P been suspended but is considering using the RTE [Portugal] xmtr on 9760 [sic; usually 9670] (many reporters, SCDX 28/4) R Andorra still off, hope back soon (RN Espacio Dixista 16/5)
✓ **ANGOLA** All the RNA EG xmsns now obs: Mon-Sat 1130-1155, Mon-Fri 2230-2255 in the ES; Sun/LN-E 1600-1700, Mon-Sat 1630-1700 V of Namibia; D 1730-1800 R Freedom errand pgms, all on 7245 /14 9535 (announced as 9660) and 11955 (QTH Africa 10/5) Lobito 7000 erratic (Ginbey, RNMN 14/5)
✓ **ANGUILLA** The Caribbean Beacon, 1610 kHz has a Spanish gospel show at 0300-0330, obviously M evangelical, all other times (during darkness anyway) in EG; don't confuse with another stn on 1610, non-evangelical SP, looping further west, believed Ecuador harmonic [qv]. Here's E their s/off at 0400: "This is the Caribbean Beacon, broadcasting from the beautiful island of Anguilla, West Indies. It is now midnight..." (then they give 690 & 1610 fqs) "...and at this time we are bringing to a close today's transmission. From 6 am this morning we have been broadcasting... (then they say they serve the community and anyone seeking to have public amts carried, please write) "... on behalf of the management and staff of The Caribbean Beacon, we say good evening and have a pleasant night. And as we leave you, we leave a special evening hymn." Then starts a long "Goodbye--Goodnight" hymn, sung by a man to 0405*. Per phone conversation, has been hrd well in Toronto; nice people (Maxfield Greenwood, 9/5)
✓ **ANTARCTICA** R Nacional Arcángel San Gabriel hrd on 6030 but also on 11955 & 15476 testing as and, best here around 0100 with IDs each 3 mins giving fqs 2/4 & 29/3 (Emilio Pedro Povrzenic, Rosario, Argentina, May ADXN & Play-DX 27/4) Have checked 15476 often for 2 weeks at 0100, but no trace of it in May; not much chance of getting thru on 11955 due Lisbon (gh)
✓ **ANTIGUA** [Cf May LN-2] Finally something in the press about VOA stn, an AP story 30/4 in San M Juan's "El Nuevo Día" (Antonio Fernández, PR) Also similar story from AP in Tampa Times 7/5 P saying US reception is temporary until directional ant installed; VOA spokesman said it was necessary as some people have SW but nearly everyone has MW rx; "it's been long needed" to serve English-language Caribbean nations (via Rusty Serenberg, FL) Good & clear even on a pocket radio indoors, high quality signal into SAM, 10/4 0215. With lack of imaginative and varied pgms on some regional MW stns, this VOA stn could have a large and ready audience (Ian Millett, Port of Spain, Trinidad) VOA J81 sked shows it sked only at 0000-0400 (gh)
Q Got QSL from Washington but they claimed I heard Marathon 1180! (John Santosuosso, RIB) Now that AP has carried the story, perhaps VOA-Washington will acknowledge it properly? (gh)
✓ **ARGENTINA** R Municipal de Malargüe, unlisted in WRTH 81, believed the stn hrd 19/4 1017 w/Arg folk mx (mainly sambas) mixed with GMT-3 TCs; bad adjacent channel QRM and obliterated by R Provincia de Misiones at 1056; not Misiones at earlier hour as the 6160 pgm not //620 (Tony Jones, Paraguay, 22/4) That's it, on 6160 31/3 1030 ancng net w/R Nac in BA then abrupt s/off w/SP amnts (Povrzenic, ADXN) New stn, 3 kW LW19, R Malargüe, address E. Aldao 350, 5613 Malargüe, Ma; MW is 1120, 5 kW (Povrzenic, WRTH-LA 15/4) R Nac Mendoza, 6180 now 24h on E all days incl Suns (Tony Jones) RAE 11710 0100 26/3 in SP, not EG, u/Moscow splatter (Mike Shockley, NV, SPEEDXGRAM) A Thu, probably just running a few mins late; not hrd here since January; look at Brasil-17830 to see what 16m would do for them! (gh)
✓ **AUSTRALIA** In a letter to Arne Skoog, former Netherland DX Juke Box host Dick Speekman says X he will be doing a DX pgm on R Australia, from late May or early June, monthly at first but

P maybe biweekly or weekly later (SCDX 12/5) Art Cushen told NZ Calling listeners 18/5 that RA plans to put a DX pgm w/Speakman into xmsn sked possibly as early as 1/6 (Phil Ternahan, Kent WA) Dick Speakman was on hand with recording gear from RA during the ARDX DXPO-81 in April interviewing those present; some may be on RA soon; plans are well in hand for a new L DX/SWL pgm on RA (May ADXN) RA pgm changes with J81 include weekly instead of daily shows on business and editorials; former Sun 0312 0512 1110 1312; latter Sat 0212 0412 1110 1312. Further changes as of 1/7: International Report replaced by Four Corners, Mon-Fri 1812 2012 2212 [Tue-Sat, presumably:] 0012 0212 1212; Focus on Australia becomes Australian Insight, E 1110 1312 1512 1712 1912 2312 (via Woody Seymour, NC) R Australia J81 EG: 1800-1900 on 5995 6045 6060 6080 9505 9580 11725 17795 21630. 1900-2000 same plus 11790 and 6060 to 1930 only. 2000-2100 9505(to 2030) 9580 11725 11790 17795 11770 6080(to 2030). 2100-2200 9580 11725(to 2130) 11790 15160 15240 17795 11770 21650 6035 1820. 2200-2400 15160 15240 17795 17890 21650; 6035 to 2230, 15310 from 2230; 11820 to 2330. 0000-0100 15160 15240 17890 21650 15310 21680. 0100-0330 15160 15240 17795 17890 21740 21650 21680; 17725 & 17870 from 0130. 0330-0400 15160 15240 17795 17890 17725 21650 17870 21680. 0400-0500 15160 15240 15320 17795 17890 17725 21650 17870 21680. 0500-0600 15160 15240 17890 17725 21650(to 0530) 17870 21680. 0600-0630 15160 15240 17795 11820 17725 17870 21680 17755 21525. 0630-0700 15115 15160 15240 11820 17725 17870 21680. 0700-0800 9570 11740 15115 15240(to 0730) 17725 17870 21680. 0800-0900 6045 9570 11740 15115 17725 15410 21570 21680. 0900-1000 6045 15115 17725 21570 21680(to 0930). 1000-1100 5995 6045 15160(to 1030) 11820 9770 11705 21570. 1100-1300 5995 6045 6080(from 1230) 9710(from 1130) 11820(to 1200) 17795 9770 11705 9580. 1300-1500 5995 6045 6060(from 1330) 6080 9710(from 1400) 17795(from 1400) 9640(from 1400) 9770 11705. 1500-1730 5995 6045 6060 6080 9710 17795 6035(from 1530) 9770. 1730-1800 5995 6045 6060 6080 (RA via ADXN) Regular xmsns commence this month from Au's first stn for the blind, "3RPH" [Radio for the Print Handicapped], Melbourne on 1705 kHz; initial budget \$35,000, P run by volunteers; more such stns shortly in Brisbane, Sydney, Hobart; sked local evenings but plans 24h (Melbourne Age 30/4 via ADXN) First test was 7/4, 500 watts, 1130 (Cushen, NZ, SCDX 19/5) Should make quite a DX target up over (gh)

✓ **AUSTRIA** ORF's Austrian SW Panorama pgm is indeed carried at 0434 now GMT Mons on 12015 17745. X More often than not it contains some feature/DX material from gh you will not have heard on other DX pgms; everyone's invited to listen and send ORF your comments (gh)

✓ **BAHRAIN** Gulf News Agency says Info Min said a new radio stn would be built for Bahrain in two P months, audible all over Gulf since new xmtrs would be 5 times more powerful (WBI 7/5)

✓ **BANGLADESH** EG on 9575 0445-0515, hvy QRM, Saudi? (S Abeyesinghe, UADX Apr//21685 (Goonetilleke, ibid) Varies, announces 9550, *0600-1000* Bengali; move to avoid Bombay? (Sarith Weerakoon, Sri Lanka, DUDXS) Dacca also on 6145 1230-1315*, 5 mins EG 1255-1300; Delhi *1430 on this channel (David Foster & Geoff Cosier, DUDXS) Reception a lot easier for 1815 EG rx now that drifted to 11768 from 11765 (Finn Krone, Denmark, 23/4)

✓ **BHUTAN** Per an ISI report, talks on greater economic coop w/India 1/5 in New Delhi included P discussion of plans by Bhutan to set up a 20 kW SWBC xmtxr (WBI 7/5)

✓ **BOLIVIA** R Machupo, 5431 definite ID 0115 & 0118 7/5, very weak & marginal but just enough to confirm it; about 400 Hz high (Maxfield Greenwood, Devon PA) R Illimani, 6025 & 4945, both very strong 0132 ID, light mx; did not move as predicted in May LN, but power seems much higher (Ernie Behr, Ont, 6/5) R Florida on 3262 ex-4868 (Stig Hartvig Nielsen, Denmark, WRTH LA 15/4) R Panamericana is on 6105 as authorized fq, not xmtxr problem, 1030-0500; opens w/"Buenos Días, Bolivia" pgm (Chris Martin, Sydney NSW, RNMN [R Nederland Media Network] 21/5) 6100, hrd at 0200 25/3 & 30/3 (Povrzenic & Ink, Argentina, Play-DX 27/4) Cf May LN-2 & 3, some updating info: 3480 R Padilla 2300-0200 daily. 4708 R La Voz de la Frontera, irregular, some morns 0930- (nominally *0900), to 1100V, occasionally eves from about 0000 to 0330*. 4875 R La Cruz del Sur, *1000 (ex-*0930) since early Apr; rest of sked same. 4980 R Batallón Topáter, often f/in later than nom *1000 (Sun *1100); s/off remains 0500* Mon-Fri, 0400* Sat, 2400V*0030* Sun (local days). 5265 R Centinela, *1130, 0230* (Sun tent *1230 & 2400*, tho both may vary, further checks needed). 6146 R Luís de Fuentes *1130 daily but Sun s/off is variable, 1800/1830/1845/1900*; weekday s/off unknown (Tony Jones, 22/4)

✓ **BOTSWANA** Reports that 9590 inactive are wrong; hrd daily 0635-1415; but during school holidays is used Mon to Wed only at 0900-1415; 10 kW; also active are 3356 4845 5965 (QTH Africa 30/4) 4845 hrd 27/4 during big Af opening, 0428-0448 IDs, Am soul mx, pop, hi-life (Max G) 0232*. R Record is using all 4 SW xmtrs Sats only, hrd 2330-0230 Brz mx & IDs on 6055 9505 11965 15135, all strong 26/4; anecd 50 yrs on air. R Clube Ribeirao Preto, 15414.75, 26/4 from 0030, fair w/PT sports. R Transamazônica, Acre, 3525 and R Jornal da [Estrada] Transamazônica, Altamira, 5025, are two different stns, often confused, cf May LN-3 (Ernie Behr, Kenora Ont) R Dif Poços de Caldas; 4945, *0800, not 0830 as in WRTH (Tony Jones, Paraguay) R Timbira do Maranhão, still on 15215 days; R Marajoara back on 4955 to 0400* after tech problems (Djarcy Frank Silva, Belém, MUY SPEEDXGRAM) R Timbira, 4975 from 0840, rustic Braz mx, IDs, SIO 423 with EGSSB to dodge a ute (Maxfield Greenwood, ME) Hrd at poor level are R Por um Mundo Melhor, 4855, almost daily after 2300; 6/5 R Alvorada 3335 0135-0200+; R Clube Marília, got an ID at 0105 peak 6/5 on 3235; R Cultura Poços de Caldas, 3265, 0110-0132 SIO 232, much chatter, rustic ranchera, mx typical of Mato Grosso (Maxfield Greenwood, PA) The SW site of R Brasil 4785 is Campinas, 1 kW on 4785, while their MW 1270 is in Valinhos. SW Q sked is 0500-0100 local; director Dr Symélio Pedroso says they answer all reports if return

- postage is sent. Pgm is mx, info, nx, sports; PD is Dr Ralfo Pedrosa; Tech Dir is Sérgio Erick Schmidt de Andrade. Addr is Rua Benjamin Constant, 1214, 5º Andar, Caixa Postal 625, 13100 Campinas, São Paulo (Torre Ekblom, DSWCI Apr) R Nacional, Brasília and 6/5 that they had begun the day before a daily 15-min PT ncast for Brazilians abroad, immediately preceding all EG xmsns, i.e. 1845, 2045, 0430(?) 11750; RND Sunday Specials alternate music and talk features: 7/6 Precious Stones Industry, 14/6 Instrumental Mx, 21/6 Alcohol as Fuel, 28/6 Roberto Carlos, the Singer (from a sked thru August via Munz & Munster in June RIB) LN-14
- ✓ BULGARIA R Sofia and 22/5 this revised sked for the xmsns carrying its DX program: FRI X 2130 on 11720 11750 15135; Sat 0000 15110 15330, 0730 9590 11790 [had it as 11970 in May LN] E and 15160; Sun & Wed(?) 0000 & 0430(?) 11750; 2230 15110 15330 (gh) [Cf May LN-14] another Af svc is at 1830-1930 on same fqs as 2030 (WBI 14/5) R Sofia is running a contest; post-mark deadline is 14/6; first prize a week in Bulgaria; listen for details but only if you know whether buffaloes, tuna-fish or dingoes live in Bulgaria (via Rowland Archer, June RIB)
- ✓ BURMA Indigenous lang svc on 4725 seems to s/off at 1445 daily, ex-1545 (Goonetilleke UADX)
- ✓ BURUNDI LWR says two diff xmtrs are used on 6140, one 10 kW, other 25. Sked: 3300 25 kW at 0330-0600 & 1600-2100. 6140 25 kW 0600-1600 & 10 kW 1600-2100. No mention of EG (Paul Kara E gians, UK, QTH Af 10/4) EG is 1645-1700 on 6140; now both xmtrs on 6140 rather than one on 6142, and the switch occurs at 1700 after EG (Miki Vželař, QTH Af ed)
- ✓ CAMEROON Stn on 3762 thought to be Garoua, EG & FR from around 1600 to 2130 fade; distorted signal (Craig Seager, Bathurst, RA DX 10/5) 25/4, not // 5010 (Craig Seager, Bawley Point, ADXN) Sounds like rx fault, or xmtr fault; doubt a sked opn (Peter Bunn, ADXN ed.) INDO LN-5
- ✓ CANADA RCI strikes have spread from journalists to other unions resulting in disruptions of programming and/or transmissions around Mayday and again from 19/5. If this occurs on a X Friday, gh's DX news cannot be taped; the rest of DX Digest could only be carried because Ian McFarland re-recorded it before leaving for a month in Europe. When NABET strikes nationally against CBC, the Sackville xmtrs themselves are closed down. Unless all this is P settled soon, which seems unlikely, RCI and its listeners are in for a very bad and frustrating time. Not to mention continuing propagation disturbances often making RCI hard to hear even in NAM even when it is operating normally (gh) CFCX 6005 hrd as early as 2000, 18/5, SIO 454, but I suspect it could be heard earlier (Joe Hanlon, Philadelphia) Yes, within a certain radius of Montréal, local noise level permitting, CFCX should be audible all day long, perhaps with CFRX the only signal on the 49mb at midday (gh) Window for CHNX 6130 reception is around 2335 to 2350 when VOA carrier on; and must wait till VOA [Munich] 2230*; however there can be QRM from Laos (Paul Karigianis, UK, SCDX 19/5) Tsk, tsk (gh)
- ✓ CANARY ISLANDS [Cf May LN-4] The DX pgm starts earlier than sked 2205 and appears to be a X repeat of last night's one from Madrid, not locally produced (gh) CHAD LN-14
- ✓ CHINA On 24/4 R Moscow DS reported that the "Peking authorities" had agreed to construction of a VOA stn in China, based in Canton "against USSR, Vietnam, Korean PDR, Kampuchea, Laos, Afghanistan, India". RMWS carried a similar report claiming unambiguously that VOA xmtrs themselves would be in Canton. V of Vietnam also quoted Nhân Dân newspaper 25/4 on this (WBI 30/4) CPBS Peking reported 30/4 that TASS & Pravda had "fabricated more sensational news" charging that China had agreed to VOA stn. CPBS then quoted acting VOA director as saying 24/4 that VOA had no plans to build a stn in China (WBI 7/5) RFE/RL does not plan either to broadcast from China; most of our audience is in EU & W USSR; I hear from an emigré that R Liberty is now audible in Moscow since some of the jammers are used against VOA (Stanley Leinwoll, RFE=RL, RNMN 21/5) Inner Mongolian PBS, Hohhot Std Ch svc on 7300 is at 2130-1530 Mon-Fri; Sat S Un 2130-0540 & 0930-1550, per obs & anmts (WBI 14/5) QSL via R Peking for Xinjiang PBS, 5800, hrd at 1900 27/3 says 30 kW (Allen Hughes, Sunnyvale CA)
- H Fuzhou pgm I at 1145-1230*, 2130-2330f on incredible 11th harmonic of 2340, 25740; also hrd on 2nd, 3rd and 9th harmonics, 4680, 7020, 21060 (Geoff Cosier & David Foster, Australia, E Down Under DX Survey 27/4) Std Fq stn BPM on 15000 has added EG anmts to Chinese, hrd at 0859 & 0929; also the times are not listed in WRTH (Pinn Krone, Denmark, 23/4) Some R Peking pgm highlights for June from a longer listing in June RIB: 7/6, Chinese Idioms and Their Origins; 9/6 a bamboo museum; 18/6 puppet shows (gh)
- ✓ COLOMBIA R Nac, 15495 0405 28/4 // 15333, classical mx, mushy, harmonic? (Chuck Oliver, TX) No (gh) 15496a, half AM, half SSB, Haydn 2100, ID 2130 for 570; strong Arab QRM 15495 to 2110 (Steven H Reinstein, FL) Obviously a feeder to other R Nac stns in the country (Chris Martin, Australia, RNMN 21/5) Not so obvious; a rather high fq for close-in coverage (gh) R Nac on 6377, 1102 6/4 (Craig Seager, ADXN) They've FM net; SSB maybe for San Andres (gh)
- ✓ COMORO ISLANDS No EG at 1600 on 3331 as in WRTH 81 (Victor Goonetilleke, RN DXJB 23/4)
- ✓ CONGO Af unID stn on 15190 in FR 2200, Congo back? (Rolf Gunnar, CO, 10/5) LVRC Brazzaville, E 15190 2135 EG talk, 2200 Af mx, FR ID, NA to 2300*, strong carrier but weak mod, 16/4 (Ernie Behr, Ont) Reactivated, 25/4 2250 (Padula, ADXN) Maybe extended sked 11/4 to 2300*, not hrd since (Craig Seager, ADXN) Pointe-Noire, presumed, dead-on 4843 just below Botswana, 27/4 0449-0520 fade, SIO 232, traditional & hi-life mx; 4 kW (Maxfield Greenwood, PA)
- ✓ COOK ISLANDS Rarotonga more or less regular on 11760; Thu 2/4 0811 request pgm (Craig Seager ADXN) 27/3 to 0900*, good (Gerry Rosam, NSW, ADXN) RCI on 11760 0548 full ID, 0600 RA nx relay, island mx and phone calls to 0910* 26/4; almost as strong as Tahiti (Behr, Ont) 30/4 on 11760 0659-0908*, fair strength but somewhat undermodulated; low-pitched het to about 0755, then fq wide open; TCs, IDs always buried in middle of DJ chatter; island & US pop mx; off 0908 w/choral anthem. Also 1/5 0735-0906*, talk to 0800, YL ID, ABC world mx, pop mx to 0906*. Many tnx to Bares for tip (Scott McClellan, MI) Not audible 3/5 tho fq open; wonder if certain days only or if they've left 11760 (ibid) Nor audible 2/5 (ibid) 11760, 10/5 E 0730 fade in w/M ancr, Maori w/phone reqs, South Sea Is mx, all Maori until EG ID 0912, cho-

ral anthem, 0915* Maori ID, carrier off 0918; good carrier but weak audio (Chris Lobdell, MA E) 10/5 0615 past 0908 t/out; lady host to 0700 w/some EG, IDs 0634, 0700, then M host, mostly in Maori; poor sig; 11/5 far superior 0615-0818, pop mx, TCs to 0630, then classical or vocal mx, 0659 drums, 0700 ID, US pop, disco, SPac; 0815 ID, mention 25mb, then Sherlock Holmes drama (Mike Bolitho & Neil Wolfish, Toronto, Ont) 11759.5, 10/5 & 11/5, 0630-0818, Maori w/some EG, numerous IDs; poor to fairly good; 0815 Sherlock maybe RNZ or BBC tape; hrd on a makeshift window-to-window antenna rather than a 420' FIBS beverage. I'm sure Nooroo will get writers cramp signing all the veries on this one--Cook is no longer rare DX, even in Toronto! First heard about 11760 from Arthur Cushen on RNNN [7/5]; probably the strike delayed gh's usually prompt info on this one (Syd Osterman, Ont) Tsk, tsk, I had it on DX Digest 25/4; you must pay closer attention, hi. Taped 11760 11/5 0750-0800, guess it's it (gh) I don't doubt these reports are all correct, but beware of Swaziland, listeners closer to Africa, cf LN-9 (gh) & BBC Cyprus on 11760 (Newton, GA) Yes: WS *0600 past Cook s/off (gh)

✓ **COSTA RICA** On 16/4 R Nacional hrd on new 6035 as ancd //575 & 101.5 (WBI 30/4) 16/4 0150 on 6035, saying 6035 was for abroad, thanking people for listening; maybe using Faro del Caribe xmtx? ("MAC", Play-DX, Italy) R Nac suddenly on 6035, just 5 weeks after R Noticias del Centinente xmtx vanished; from 0100 SP talks, many IDs to 0300 VOA s/on; strong. Strange things happening down there, 6/5. Cf May LN-4, don't know what RCI has to do with a Marxist "net of solidarity" in Cam, but they better not waste my tax dollars on such schemes (Ernie Behr, Ont) TIRN, R Nacional on 6035 since 15/4, 1000-0600 (Sun 1200-0600); also plans to go on 9615 [former R Noticias fj] (Giovanni ---, Québec, SCDX 12/5) R Sandino in Managua failed to carry pgms made by Intl Net of Solidarity w/RNC on 7/4 and subsequently; had been Tue-Sat 0530-0600, 0615-0645, 0730-0800 (WBI 16/4) Mx and SP annts 1200-1300 28/3 on 9643, presumed E/TIFC (Mike Willis, Vic., ADKN) R Casino, 19/4 on 5954, comedy in EG (Mike Westphal) Time?

✓ **CUBA** RHC playing musical fqs for 2050-2140 EG xmsn; last week on 15230 & 17705; 10/5 today E on 15155 only (Rolf Gunnar, CO) Mostly on 15155, others probably switching error (gh) RHC on 17480 at 1840 18/4 (Chuck Oliver, TX) Mix or spur (gh) Awful mess from RHC; 1900 24/4 I tuned for FR on 11920; strong but also hrd on 11950 11940 11930 11910 11900 11890 11860 11800, all of which carried identical RTTY-like QRM. Hrd on 3 different rx and ants. All this hash hrd four times this week on 25m, and previously on 31m; combine all this debris with J Soviet jammers and you have a nearly useless band. A commie plot? (Steve Reinstein, FL)

✓ **ECYPRUS** Due to DST since Mar, R Bayrak EG nx at 1115 & 1730; GK 1100 & 1700 on 6150v(WBI30/4)

✓ **CHILE** [Cf Mar LN-4] The report that R Patagonia Chilena was on 6105 is completely incorrect -- it is still on 6080, and it did not come from me (Carlos Maslatón, Argentina) Very sorry--the WRTH LA editor has the annoying habit of identifying contributors by initials and not explaining them--this was from "CMA" which I took to be you (gh) R Agricultura well hrd at J 1015 on 9630 w/political contry, the jammer on fq (Don Moore, Bellefonte PA)

✓ **DENMARK** R Denmark sked, all in Danish on 15165: 0900-0955 SEU/WAF. 1000-1050 Greenland/Pac DS relay. 1100-1155 FE/Au. 1200-1255 SA/PG. 1300-1355 ENAM/Carib/Grnd. 1630-1730 Grnd /Pac DS relay. 1800-1955[sic, means 1855] NAM/Grnd. 1900-1955 ME/EAF. 2000-2055 SAM/Carib 2100-2155 SEU/Af. 2200-2255 FE/Au. 2300-2355 NAM/Grnd (WBI 14/5) Besides being one hour earlier due to DST, this is considerably at variance with WRTH 81 which i.a. omitted the 0000 broadcast to NAM, and shewed xmsns in the 1500-1655 gap; and targets differ (gh)

✓ **DOECANESE ISLANDS** VOA Rhodes extracted from J81 sked, all 50 kW to NAF/Eu/ME, 5965 0400-0600 6015 1620-2200. 6080 0320-0400. 7205 1620-2100. 11805 1500-1720. 15195 0330-0600. Times are apx from graph bars, but beware other sites immediately following on some fqs: 6080 Wooterton, 7205 Tangier, 15195 Tangier; 11805 simultaneous with AFRTS-Delano (gh)

✓ **DOMINICAN REPUBLIC** [Cf May LN-11] Tentative ID for the 2720 stn is R Rutas Musical, La Romana H on 2nd harmonic of 1360; can still hear carrier but no audio since I was in Maine (Greenwood)

✓ **ECUADOR** Letter from Clayton Howard says he will be going back to US on leave for a while, so P we'll be hearing a new voice on DXPL in the near future (Lani Pettit, IA, 3/5) HCJB J81 EG: X NAM 1200-1600 15115, 1200-1430 11740, 1230-1600 17890. 0030-0700 9745 26020, 0030-0200 E 15155, 0030-0230 17885, 0030-0500 15360, 0500-0700 11915 & 6095. SAM 1200-1600 15115 26020, 2330-2400 15180. Eu 0600-0730 15235 11835, 1700-1730 21480 17835. 1900-2000 26020 21480 17835. 2130-2200 26020 21480 17835 15295. SPac 0700-1030 11900 9745 6130 26020; however at 0800-0930 9745 and 11900 carry a separate pgm (HCJB) 17835 quickly went back to 17790 after J they realized there was jamming on 17835. 26020 more like 26021; QRming SRI from 2200 in SP on 15305 (gh) R Ondas de [l] Zamora, 4858, 0940-1010 fade 8/5, poor and fading but positive ID; listed s/on is 1130; I don't see this being logged. Listening to Caribbean Beacon on H 1610 21/4 0100-0400 I picked up a Lam stn in SP w/ID containing the syllable "cal", looping 10-15° west of Anguilla, and since 805 kHz is the only possible fundamental I tentatively ID this as R Canal Tropical; don't confuse with Beacon's SP at 0300-0330 only (Maxfield Greenwood, PA) R Melodia, Quito on 3375 ex-3370 (Stig Hartvig Nielsen, WRTH-LA 15/4) [Escuelas] Radiofónicas Populares, Riobamba still hrd on 3985 despite reports it intends to switch to 60m; hrd from *1000 to 1130 fade; sometimes Indonesian co-channel (Craig Seager, RA DX) R Circuito de Emisoras Iris is new name for 3381 stn, hrd 5/2 0140, 522. (Povřenic, UADX)

✓ **EGYPT** Tnx to tip from Ken Zichi, R Cairo noted again on 12000 in AR 0000-0200, EG 0200-0330 E to NAM (Andy Newton, GA, 29/4) Maybe moved from 12005? (Chuck Oliver, TX, 28/4), No, 12050 (gh) 12000 0230 4/5 (Joe Hanlon, PA) EG and other Eu langs one hour earlier on 9805; EG at 2115 (Tony Legendre, France, SCDX 28/4) -2245 (gh) Rest of R Cairo xmsns seem un changed in time (QTH Africa 30/4) V of Africa EG pgm of R Cairo, 1730-1930, as well as EG 1630 on 15257 H instead of 15255 (QTH Af 20/4) R Cairo EG to Eu hrd on 19610 (2 x 9805), and in AR on 19358 (presume Cairo 2 x 9675v) both at 2215 (Don Moore, Bellefonte PA)

✓ **EL SALVADOR** ACAN reported 7/4 that the natl radio net imposed on Sal stns by the govt 10/1

- has been reduced to a 20-min pgm daily at 1830-1850. It had been at 1300-1400, 1800-1900 and 0200-0300 (WBI 16/4) YSS still active on 9553, e.g. around 0100 (gh) EQ GUINEA LN-14
- FINLAND R Finland and it would add 17800 for the 1200 EG to Nam, instead of using the xmt r E for Eu/Af (Sam Ward, OH, 29/4) ex-15265 (SCDX 12/5) Much-needed improvement as // 15400 gets absorbed (gh) On 11830 ex-11755 for FN to Nam 0335 25/4 (Bob Padula, Australia, ADXN)
- FRANCE RFI on unlisted 15125 at 2210-2300 with election returns 26/4 (Ralf Munster, GA) Used E it again 10/5 // Gabon 15435 (gh) Paris Calling Africa J81 1600-1700: 15300 11845 15315 17850 17720 21515 21580 21620 25820 (via Charles George, TX) Reports elsewhere that certain of these are Sunday only result from misinterpreting the sked; the Sun-only business applies only to the 1500-1600 period (gh)
- GABON TDF fq sked for J81 shows RFI in FR to Af via Moyabi 1800-2130 on 15435 & 7170 (WBI 23/4) RFI relay obs on 11930 & 15435 since 12/3, probably ANO, 1900-2130* in FR (Ernie Behr, 14/4) Africa Number One, 15435 is the only audible RFI relay, 1900-2130* 22/4, a split second behind numerous Paris fqs such as 15425 15300 11930 11805, correcting above report. No sign of ANO on 21680, cf May LN-5; another SCDX fantasy item? (Ernie Behr, Ont) No GM is hrd --indications are it is not carried at all via Gabon (SCDX 12/5)
- GERMANY EAST RFI again noted on 11975 ex-11970 for WNA 0230-0315 (gh)
- GERMANY WEST An informed source tells me that DW will expand its Nam svc in EG to 50 mins as E of 6/9 (Kim Andrew Elliott, MA) DW EG to Nam for J81: 0120-0150 from German sites: 6085 500 kW 300°, 6145 500 285, 9565 2 x 100 kW 295 & 320°, 11865 100 295. Malta is also on 11865 250 kW 275°, and 250 kW 290° on 9590 & 15105. 6040 Antigua 250 kW 340°. 9545 is sked as 50 kW, 0/180°, therefore Montserrat, but not hrd in months. At 0530-0550: Germany 500 kW on 5960 2850, 6100 3150, 9650 330°, 11905 300°. On 11905 a second German xmt r with 100 kW beams 320°. Antigua 9545 250 kW 340° & 50 kW 11705 180/360° (Montserrat) Previous reports of G.G. Thiele's retirement were premature, but he was expected to retire in June (Ralf F Munster, GA)
- GUAM After 3/5, KTRW QSL policy modified--minimum of 30 minutes program content must be reported. And for airmail replies, 3 IRCs are now required (KTRW via Bob Reinecker, PA) But X we still QSL year round and do not limit them to one per listener. Celebrate the first anniversary of DX Listeners' Log by reporting it during June; if you request it, we will send a photo of the DXLL staff (Gary Whitmore, KTRW, 3/4) Domestic US postal rates apply to and from Guam, so the 3 IRC bit is for others (gh) Tentative J81 sked: Xmt r One: 0458-0700 on 17830, 0815-0957 11735, 0958-1057 15240, 1058-1429 11735, 1430-1600 11895, 2058-2158 11800, 2159-0130 17800. Xmt r Two: 0457-0700 15150, 0745-1059 11840, 1100-1358 15350, 1359-1600 on E 9510, 2058-2129 11945, 2130-2229 15135, 2230-0140 17770. - ✓ **MALAWI** Elusive 3380 in best ever at 42+3 0335-0405 tune in & out times 27/4, excellent tribal mx & vern talk, but IDs & TCs in EG; have they fixed a waning xmtmr? only 2nd time ever noted here in 2 years; signal better than Zimbabwe this day (Maxfield Greenwood, PA) J81 sked revision drops 7130: 3380 0300-1110 & 1300-2210, 5995 0400-1615; pgms of the Intl Svc E in EG & vern are sked 1600-1800 (QTH Af 20/4)
- ✓ **MEXICO** E German news agcy ADN reported 16/4 that a SW xmtmr centre, which would improve Mex P natl & intl EC was under construction near Tecitlucan [sic] w/GDR assistance. When completed it would be "one of the most important installations of its kind in Lam". Main supplier was Funk & Fernmeldeanlagenbau Berlin, part of the Leipzig Nachrichtenelektronik Kombinat. SW xmtms being produced by radio works in Berlin-Koepenick. Coop agmt includes training Mexican techs in the GDR (WBI 23/4) XERMX operates 2000-0330 on 17765 15430 11770 9705 5985. All E pgms in SP exc Mexico in one Minute in EG, FR, IT, JP, SP (WBI 30/4) Oh? BBCMS ignores half-X and one-hr EG pgms, cf Feb LN-7, which I have often heard (gh) DK pgm in SP, "Visión DX desde México", first Mon & Fri [vLN-14] and between 2000-2200 15430 is only fq (Chris Rogers, MONGOLIA Ulan Bator DS continues appearing on unassigned fqs during *2200 xmsns: 30/3 ADXN) vly strong 4818 // 4750 at 2345; 2/4 on 4751 & 4830 only at 2245, 4/4 audible on 4750 & 4761.5 but by 2340, 4750 had become 4751 and 4761.5 was gone (Paul Karagianis, UK, UADX) UB noted on new HS outlet, 4895.7, Pgm I in Mongolian (Takasaki, NDXC via May ADXN) From RUB comes this info: Stn started 1/9/34, from a 2-storey house which is now the Yugoslavian embassy. Started with 3 person-staff, 2h per day; now has 2 editorial boards and 10 sections for HS & FS, 3 depts (art & culture, technical & pgm, mailing). Two HS pgms, 24hpd. First EG was in 1965, first FR 1970. Xmtmr site for FS is Khonkhoryn, 25 km from UB, where one 250 kW and two 100 kW are used. HS uses different xmtms, 25 to 100 kW. When I queried them in Feb 1979 they said "2 new xmtms are being erected now near UB in Khonkhoryn, one 250 and one 100". Hence, the 2nd 100 kW must have been there previously or is add since 2/79. They also noted that relays were erected by specialists at Altai & Choybalsan City. One can only assume by Russians, and that these are the newer ones on 4995, 4830, etc. But ITU THFBS geog coords for Mongolia SW say 92.00 E, 50.00 N, right near the far western border, nowhere near UB. In the 1960s two sites were listed, both in this western zone: Bain-Ulgei (20 kW) and Tsagaanuur (5 kW at 89.20E, 49.30N). Still in use? And what has been their primary site in past years, before Russian-aided sites? Could be R Moscow uses some of these high power xmtms for themselves; do we really know? Unfortunately, WRTH is out of P touch; FR xmsns never been listed tho started 11 yrs ago! And RUB is slated for yet another 4 high-power xmtms. Still much to be learned, DX-wise about Mongolia (Geoff Cosier, DUDXS)
- ✓ **MOZAMBIQUE** Maputo 6975 moved back to 7108, QRming Swazi Comm R 7105, days GMT (Richard Ginbey, RSA, RNMN 14/5) 7110 ex-6980v, Interprovincial pgm; also on new 9435 // 9541 daytimes. Maputo Nacional pgm back on 4858 after short spell on 4871. All fqs drift considerably; currently used with nominals parenthesized: 3208(3210), 4858(4865), 7241(7240), 9618(9620), 11818(11820), 15297(15295), all for Natl Pgm in PT. Interprov: 3342(3338), 4812(ex 4925), 7110(ex 6980v), 9435(ex 6050?), 9541(9600). External: 3265 4855 9541 11818 (QTH Af 10/5).

- ✓ **NEW ZEALAND** RNZ dropped 6105 in Jan due to problems of QRM to TV sets in the Titahi Bay area P so it's unlikely this fq can be used again. Plans to use thir⁰⁰⁰ fq, 9885 in Sept 1800-2105 ex-15485, 30° to Pac. NZ Cabinet is considering RNZ prop^o establish a new SW xmtmr site with 4 x 50 kW in the centre of North Island, at Waiouru, where NZ Navy has a large xmtmr stn. Issue may not be settled until Nov election. If proposal is shelved, RNZ is not anxious to continue with the present SW svc after the end of 1981, due to lack of funds from the Foreign Affairs Dept. SW svc previously closed for 5 weeks in May/June 1976 due to a similar situation (Robert Jones, Sydney, Australia, May ADXN) Tho missing in J81 sked, VOA noted on 17860 in EG 0300 23/5 blocking RNZ; keep checking // 15485; sometimes the ute is off early, especially weekends(?), or is it weird propagation lately? The insensitivity VOA shows toward struggling stns in friendly countries, and their would-be listeners within USA, is depressing (gh)
- ✓ **NORWAY** R Norway noted on 17875 to NAm 1300-1430 & 1700-1830, Instead of listed 17840; not / E sure why, as 17875 is co-channel WYFR on Sundays, and RCI after 1800; EG Suns 1400 & 1800. NEPAL & NIGERIA LN-14 (gh)

- ✓ **OMAN** R Oman, Muscat, sked rxd w/QL: 1890, 0200-0805 AR, 0900-1100 EG, 1100-2115 AR, I sent a report in EG on their AR xmsn hrd on 1889.5 (Vladimir Cucura, Jr, Reading PA) 9773 was noted // 1890 at 1430 (Victor Goonetilleke, March UADX)
- ✓ **PAKISTAN** R Pakistan EG slow nx to Eu 1100-1115 on 17665 & 21782.5 (May WDXC) And at 1600-1615 noted varying from 21755 to 21757.2 3/5 (gh) 21755v also at 0230-0245 ex-21590 (Bryan Clark, NZ, DUDXS) Karachi presumed on 9776½ down from 9780 0435-0615+ (Victor Goonetilleke, DUDXS) Karachi on ven 6590 +1300-1700, probably SW feeder, Peking QRM (Sarath Weerakoon, Sri Lanka, DUDXS 27/4) 6950v, 1400-1730+ 3/3 (Weerakoon, UADX) One of those is a typo; WRTH puts Peking on 6590 not 6950 (gh) R Pak ES in Dari obs 20/4 1600-1800 on 7375 & 5091.5, but next day 7375 was in Urdu and the other had drifted to 5093 (WBI 23/4) Letter from PBC Deputy Controller for Research confirms 5095 carries Dari, "an ES for a near target" 1600-1800 & HS 1145-1600 (Paul Karagianis, UADX) 2023 21590 & 21755 (WRTHV Newsletter)
- ✓ **PAPUA NEW GUINEA** R New Ireland, UADX, 22 kW V/S J. Malisa, Provincial Stn Mgr, expresses a favorable view of QSLing, via accurate reception reports, as they wish to know just where in remote parts of the world they are heard (Maxfield Greenwood, PA)
- ✓ **PARAGUAY** R Mac xmttr on 11914 apx currently 40 kW; started off around 28 kW. Reports have been rxd from many countries, incl France, Germany, Italy, Canada, most of SAm, but the vast majority are from Finland, Sweden, Japan and the USA. I spent an hour going thru the reports, paying special attn to those rxd from NASWans, and am pleased to say that the reporting quality was relatively high (tho one Canadian forgot to put the SINPO rating!) Tho the Chief Tech was away when the new eqp was installed, the Am personnel responsible later informed him that the rhombic used w/new xmttr has beam centred on NY; intention was always that HF relay of MW DS provide max coverage possible in target area, the Ams. All reports will be answered, tho this may take some time, due to large number rxd. Please do not send f/ups for time being; and no, stn has no pennants; in fact, pennants are practically non-existent at Pgy stns now (Tony Jones, Asunción, 22/4) All stns must relay R Mac nx at 1230 L & 1930 local [GMT-4 S winters, -3 summers], and most carry Colorados (govt party) pgm at 2000 local. Opposition party Liberales also has weekly pgm on some stns. 50% of mx pgms must be Paraguayan. MinCom considers entire country non-tropical despite geography so no use of tropical bands and non-govt stns not allowed above 6.2 MHz, putting them all in the crowded 49mb. Main reason for what SWBC there is, is for migrants beyond stn's local area inside & outside the country: LV del Kmambay, 5995 is for people in Asunción. It is estimated that more than half the Paraguayan nation works abroad [!]. R Primero de Marzo, one of the most modern & prestigious stns in LAm, is interested in installing SW, but the trend is toward FM & higher-powered Am which cover flat Paraguay well (Jones, RNMN 21/5) R Centenario, 6090, 0230 21/2, football Pgy/Ugy in SP; and 11950 for southern part of country, but unhrd; first time on SW? (Stig Hartvig, Peru, DSWCI) Sure this wasn't relay by some other stn, like Argentina? & there's a non-SW Centenario in Uruguay too (gh)
- ✓ **PERU** R Mac back on 9562 since 1/4 0100-0230+ w/Peruv songs & IDs, but not daily (Ernie Behr, Ont) LV del Valle de Mantaro, Jauja, 3386 0233 9/2, SIO 422, mx for lovers and pgm "El poema central de la niche" [sic] (Emilio Pedro Povrzenic, Argentina, UADX Mar) more, LN-14
- ✓ **PHILIPPINES** R Veritas Asia plans to boost xmsns to China since it rxd 4000 letters from there last year, compared to 100 from SEAs, 90 from Taiwan; total power is now 300 kW; ordered 6 new xmttrs to raise total to 1500 kW (Keith Dalton, Manila, RNMN 14/5) Latest monitored sked for RVA EG: 1130-1200 15215 11770 9605. 1430-1500 15215 11955 9605. 0030-0100 17705 15280 15135. 0300-0330 17705 15280 15210 (Hayashi, JADX, May ADXN) We will be making some minor fq changes 10/5; xmttr powers are 100 kW on all fq's except 15280 15285 15215 which is 50 kW Gates ex-SEARV, permanently tied to 260° log-periodic antenna. The 100 kW is a Siemens (Victor Goonetilleke, UADX Apr) For FEBC nx in EG try 1890, 0830 usually clearer than 0930 (Darryl Holland, Riverdale NY, 29/4)
- ✓ **POLAND** Polish R reported 17/4 that per agmt betw State & Church, a Holy Mass'd be BC for first time at 1300 19/4 for seamen & fishermen on board Polish ships @ sea--Suns 1300-1355, and so it was, per anmts on these beams: 9675 Medic/GuineaGulf/SAT1, 7285 Baltic/North/NAT1/Carib, 6095 IndOc, 1503 Baltic/North Seas. Third Pgm obs on SW: 9755 0357-1400, 9570 unconfirmed, 7180 0500-1300, 7110 1400-2300, 6035 0357-0500 & 1300-2300. (SUN *0457-) [Some of these were previously reported to be relays via USSR]. Polish Pathfinders Stn on 11800 & X 6195 1000-1600 Tue-Sat, 0800-1600 Sun (WBI 23/4) R Polonia DX Club pgm to Nam is on Sun & Thu at 0200 (J81 sked via George Munz, NJ) GMT Mon & Fri, I think; 15120, 11815 etc (gh)
- ✓ **PORTUGAL** R Portugal letter says they are unable to use taped reports, as they do not have a Q tape recorder at hand (!) (Manfred Wilhelm, GFR, Apr WDXC) RP noted 4/5 at 0300 on 6155 E [EG] (Charles George, TX) Tho still ancing 6025 3/5, and said 0500 EG to WNAM would move to 0530; 6155 //11925 also applies to 0100-0300 PT, and I presume 0030-0100 FR (Kevin W Davidson Easley SC) Nonsense, they must tape shows 3 days in advance, as not till 6/5 did they get around to airing their J81 sked, hi: 0300-0330 6155 11925, 0530-0600 6155 9575, 1600-1630 (not Sun) 21475. 1800-1830 17770 21530 (Sun 1700-1730 on 17770 only). 2030-2100 6010 9605 11775. Trying to one-up WRNO's projected usage of 6155? (gh) New 21590 Af FR 2030-2100 13/4 P (Bob Padua, Victoria) RDP plans to add 2 x 250 kW xmttrs; there are now 7 x 100 kW and 2 x X 50 kW SSB (Carlos Relvas de Assunção, Portugal, SCDX 28/4) AWR DX retimed to 0830 ex-0930 [Sun] on 9670 (Tony Legendre, France, SCDX 28/4) 9665 (Allen Dean & Edwin Southwell, WDXC) R Renascença an hour earlier due to DST, *1730 on 11745; RDP Sun to Nam 1400-1800 on 15270/ex-15295 (Roberto Levinstein, Madrid, RN PT DX 7/5)
- ✓ **QATAR** [Cf May LN-8] QBS testing since 14/4 1300-1500 15315, 1600-2000 11730--pop mx mbrd w/stn anmts in AR, EG, FR, reports invited (WBI 23/4) First hrd 16/4 1800-1835 on 11730; sked 1745-1915 (Don Rhodes, Vic., ADXN) 17/4 1817 EG ID, poor sig, way down in mud, but

- ✓ THAILAND R Thailand noted w/dramatically increased sig strength on 11900 (Mike Hardestor, CA) E [sic] kHz and some retiming of pgms--12/4 onward, strong in Kuala Lumpur & Singapore but carrier has loud hum effectively ruining listenability. "Midday" EG noted +0500-0600*, no FR as in WRTVH. Aned "eve" EG 1130-1230 (vs WRTVH 1055-1155). Lao apparently still *0915. 9655 also noted, weaker sigs than 11905[sic] and no distortion (SWNS May) 2nd harmonic of H 7115 on 14230 noted in Thai 0630 (Victor Goonettilleke, Sri Lanka, March UADX)
- ✓ TURKEY VOT J81 EG 2030-2130 again on 9725 ex-9615; 2200-2300 continues 7215 9725 but 11770 E ex-11895 (VOT anmt via gh) 11805 ex-11770 at 2200 since 14/5 due to Moscow QRM (Adrian Childs, UK, BRT DX 25/5) Only sign I get of Turkey is IS at 1425 on 15125; I recall an interview on their DX pgm w/the guy who chooses fqs; he explained the lengths they go thru deciding what propagates best. They either don't know the characteristics of SW or they don't care. Any [censored] can tell you that 9725 is a lousy fq to Nam mid afternoon (Rolf Gunnar, CO) Except to the E in winter. Let us be charitable and assume for technical reasons they cannot use 15 MHz or higher bands on their Nam antenna currently (gh) QSL from Turkish State Meteorological Svc says they have 2.5 kW xmtr for V of Meteorology; ant is delta matched open wire balanced 500-600 ohms, 28 meters long by a height of 17m from the ground. Pgms are mx and wx nx for public: 0358-0600, 0700-0840, 1100-1550, all on 6900 (John M Fisher, Chelmsford MA, 4/5)
- ✓ U A E UAE Radio, Dubai, obs 14/4, apx times: 0230-0400 17775 15320. 0430-0600 17810. 0615-0900 21700 21625. 0900-1100 21695 21625. 1100-1315 21695 21655. 1315-1430 21700 21655. 1430-1550 21655 17710. 1550-2050 21655 (WBI 16/4) 1800-2050* since 27/4 on 17710 21655 L (Andy Newton, 29/4) World of Arab Music pgm 22/4 1620 on 21655, very well done (Steven H E Reinstein, FL, RIB) So this one retimed to before nx (1630) instead of after (gh) Hrd 3/5 1615 Arab mx, 1630 nx on 21655 17710 but announcing 21700 17710 15320; obviously a lack of communication between engineers and programmers; bodes ill (gh) Same 10/5 1615-1700, perfect EG, good listening (George J. Munz, NJ) The SWBC xmtr site is 45km from Dubai city, reached by narrow tarmac road thru rolling sand dunes. Sometimes, heavy ground mist in morning is balanced by blinding sandstorm in afternoon, requiring oilbath air filter to protect bldg which is fully air-conditioned against day temps as high as 50°C (120°F). Three 300 kW xmtrs are Marconi type B6124, high level class B modulation; xmtr control uses C-MOS logic, containing memory to store tuning settings for 32 preset fqs. Ants: 15 Marconi 4-band folded dipole curtain arrays w/fixed wire screen reflectors; each can op on 4 adjacent SW bands; slewable +30°; this info per their data sheet (Mike Nikolich, May SPEEDX) QSL from V of UAE, Abu Dhabi, 9695, hrd in Jan included sked: 9695 120 kW 1600-2130, but has been u/Cairo since Mar (Ernie Behr, Ont, 23/4)
- ✓ UGANDA R Uganda seems to have discontinued in mid-Apr use of ES Soroti xmtr for DS purposes; HS had been hrd on 9730 or 6030 for some time, but now on 4976 only (WBI 23/4) Contrary to the above, intermittent use of 9730 for DS resumed 22/4 (WBI 30/4) verna f/in 0440 on 9730, E 0515-0545 EG; *0600 Af langs on 9730 to 1600*; SAF svc unhrd (Richard Gineby, RNMN 14/5)
- ✓ U K O G B A N I BBC WS has three pgms on possible futures, "What If...?" drawing on SF literature, weeks of 15/6, 22/6, 29/6, Mons 0100, Tues 2030, Fris 1330. "Trooping the Colour", the Queen's Birthday parade will be described 13/6 1215, 14/6 0130. REVIEW OF INTERNATIONAL BROADCASTING now carries extensive advance BBC pgm details each month (gh)
- ✓ UNITED NATIONS [Cf May IN-10] I have been unable to confirm the new UNR pgm in EG Fri 1900-E 1945--15410 definitely had VOA as usual, 15305 inaudible. Fri 2215-2230 Carib ancd on 15305 & 11830 but hrd on 15240! VOA J81 sked little help, but shows Tangier 15120 35 kW at 1830-1900 (gh) 1830 EG Fri 11900 15410 15305; SEU Sat 0737-0745 9680 & 11770 Tan, fed from Gvl 11735 & 15125; also 0800-0815 // Monrovia 15235 17860 (UNR via May WDXC)
- ✓ UPPER VOLTA Took 8 tentatives over 9 yrs to get a mimeo QSL for MW 747 (D Monferini, PlayDX)

- ✓ **URUGUAY** SODRE Intl Svc in SP & EG has two 10 kW xmtrs, 4 parabolic ants for Eu/Nam/Au[?], EG 2245 & 0015 on 11855 [sic--surely 11885], and 0145 & 0315 on 9515 (Nelson Maudlin, SFR DX 11/5 quoting Daniel Faccioli, Uruguay) LW de Artigas 60m PTP Sns & holidays with sports only, 5 kW(?), is on 4955 ex-4945 (Tony Jones, Paraguay, SCDX 12/5)
- ✓ **U S A** NBS stns WWV, WWVH & WWVB will add a leap second to their xmsns at 2359:60 UTC 30/6; T details of this are given every hour at :04 (Joe Hanlon, PA & gh) After counting the 61-second minute, you can further amuse yourself by determining how long it takes various other timesig and BC stns to catch 'up' (gh) Reagan's choice for VOA Director is James B. Conkling, 66, a recording industry pioneer who has been involved in Bonneville Intl, LDS Church broadcast arm. Also has been pres of Columbia Records, and VP of CBS, a perfectionist and workaholic born in NJ, now living in CA, married to ex-Donna King, of the King Sisters; expected to be officially appointed shortly (SIC Deseret News 13/5 via Lamont Jensen) The US hardly needs another missionary station (gh) Jack Anderson's 14/4 column accused R Liberty of many sins such as criticizing Pope John Paul, parroting R Moscow, siding with the Kremlin on Polish issues, anti-democratic and anti-western BCs criticizing WEu 'political freedom' as responsible for terrorism, Russian Orthodox broadcasts slurring Catholics, quoting an P eyes-only memo by James Critchlow who visited RL in Jan (gh, RIB) WYFR's 7th 100 kW xmtr is P to start tests during J81 for W Canada (ADKX) Not following their sked for J81 printed far M in advance--Can svc on 9535 to 1700, then 11830; 5985 on earlier than sked (gh) KERE 710 X Denver CO has retimed gh's "World of Radio" to GMT Mon 0500; they assure me it will stay there for a while (Rolf Gunnar, CO) And perhaps reach wider nighttime audience within KERE's 15/6 directional pattern slightly counterclockwise from NE/SW (gh) KGEI has DX contest P WRNO, FCC has two apps pending, for Saipan to Japan and Florida to SA; FCC makes no distinction between commercial & religious (Charles Brady, FCC, RMN 21/5) Though awfully vague, I suspect this refers to FEBC Saipan, and WYFR FL to add another service, rather H than a totally new stn (gh) QSL from WCOU Lewiston ME for 2480; they were very appreciative and are trying to locate & correct the problem; 250 watts night (Max Greenwood, PA) So by reporting reception to stn, you succeed eventually in ruining a harmonic DX possibility(gh) H AFRIS 12060, 0325 29/4 baseball, probably Delano (Chuck Oliver, TX) Never on this fq (gh) U S S R R Moscow & associated ES made extensive fq changes with effect from 2000 [midnight P in Moscow] 4/5. Now seems they'll make major time & pgm changes 1/4 & 1/10 w/coming and going of DST in USSR, but major fq changes left until first Sun in May & Nov or shortly E thereafter; interim fq ch 6/9 (WBI 7/5) RM Nam svc *2200 6/5 and: 17.70 15.45 15.42 15.50 [?] 15.13 15.10 12.05 11.96 11.92 11.78 11.77 11.75 11.72 11.70 0.60; hrd on 15455 15135 11920 11780 11770 11750 11720; at 2300 close 15.45 & 15.13, add 12.03 & 11.71, but it takes until 2330 for pgm to come up on 12030; thereafter it's the best fq generally; at 0100 they add 9.66[5]; at 0200 close 11.70, add 15.40 & 9.70[0]=Sofia, actually *0130; Meanwhile, RMWS pgm back on 21530 instead of NAM svc during this time period; from 0300 5/5, RMWS hrd on it plus 11920 11750 11735 11720 9785 9700 9665; back at 0000, drop 11.78, add 9.60[0]=Havana. R Kiev 2330-2400 hrd on 12060=best, 11735 9800; 0200-0230 on 17870 1735=best, 9800 9765(gh) R Vilnius 2200-2230 and on 17870 17805 15180 12060 11735 (Tony W Campbell, VA) But hrd here only on last two (gh) Those two are best; R Vilnius is having a listeners' competition, L deadline 1/12/81--listen for Q&A (Dean Rekich, PA) R Moscow Nam svc has revived 10-part series on Sov/Am relations, this one in the 1917+ period, Mon+GMT Tue last half of alternate hours; alt weeks too? (gh) 1/5 RM DS carried May Day parade reportage +0550-0730 on some 70 HF channels in Russian; RMWS had it in EG 0545-0630 on some 27 channels, Chinese at same time on about 10 (WBI 7/5) RM GB&I svc in a Radio Day talk 6/5 said that Soviet external BC was in 77 foreign langs, with an output of 262 h per day [that's an average of 11 pro grams at once...]. Last year the ES received some 300,000 letters (WBI 14/5) RM's Cuban svc has essentially been merged into the general Lam svc in SP 2230-0500 w/some Cuban hold- H overs in the 0100-0200 period (WBI 16/4) Vladivostok hrd at 1240 w/Chinese FS on 2952, 2 x V 1476 (David Foster, Australia, DUDXS) [Cf Mar LN-11] It now appears that the "Ekran" satellite TV system (as opposed to the "Orbita" which uses microwave frequencies) operates on ordinary UHF TV channels and has been underway for some time. Here are latest references to it by BBCMS, included here because of its implications in intl BC (gh) While Orbita satellite rx stns require sophisticated rx eqp and 12m diameter dishes to track Molniya satellites, Ekran is to provide TV to low-density population areas with inexpensive and simple eqp. Power is higher, 200 W instead of 40, and is from geostationary position at 99°E, on 714 MHz FM, covering 40% of USSR territory; first Ekran satl launched 26/9/76. Ekran installations are being expanded especially in remote far northern areas (WBI 23/4) Ekran operates in aband from 620 to 790 MHz to over 800 rx stns. Another system in between Ekran & Orbita is just starting up, called "Moskva", at 3675 ± 17 MHz with 40 W, narrower beam, requiring 2.5m parabolic dish to receive (WBI 30/4) I heard a report somewhere, I think on RMN or ASPW, that BBCMS is belatedly installing at Caversham a TV satl rx dish for this et al (gh) Russian satl stn on TV ch 51 [Eu std] changed times, to about 0445-1700 (B Padaki, Mar ADXR) ✓ **VANUATU** Ex R Vemarana ancr Robert J Schnell (air name Derek Hodding) QSLed my taped report. Q Initially was 350 W, then 1000 W on 3577, both cases halfwave E/W dipole; xmtr QTH varied but mostly nearby Luganville, Espiritu Santo (Bryan Clark, NZ, DUDXS) Schnell admits he was the Australian ancr nicknamed Lord Paw-paw by the left-wing Englishman, John Beasant (Fr. Walter Lin's govt spokesman, adviser & chief policy maker). Schnell's addr is 10 Halmon Ave, Ewerat Park SA 5035, Australia (David Foster, DUDXS 27/4) ✓ **VATICAN** R Vat EG sked: 0445-0500 6190, 1345-1400 7250 9645 11740, 1930-1945 6190 7250 9645 E to Eu; ANZ 1500-1515 weekdays 11810 15110 17825; 2210-2230 9615 11830 15120. FCC angry over dropped charges

WASHINGTON (AP) — The Federal Communications Commission has filed a strong letter of protest and demanded the Justice Department explain the decision of Miami's U.S. attorney to drop charges against an anti-Castro Cuban accused of operating pirate radio stations. The decision by U.S. Attorney Atlee W. Wampler to dismiss charges against Jose Gomeles was made April 14, just minutes before his trial was to begin. According to informed sources, Wampler's action came as a complete surprise to FCC officials, and their frantic efforts on the afternoon of April 14 to contact his superiors in Washington proved fruitless.

(Houston Post 5/5, via Chuck Oliver)

mins) can legitimately claim to have been misled by one of its relays. Self-proclaimed pirate DXperts cannot expect Syncom to assume any degree of responsibility for their own failure to recognize an actual Eu pirate when they hear one. Since Syncom was not even on the air 18/1, was never known to use 6270 and apparently has never misled anyone but Foxworth, he must lack DXing skill. Syncom has always been very careful to give IDs frequently. Careful DXers who listen for stn IDs thus should have no worries about Syncom. We've always accepted constructive criticism but ultimatums are totally unacceptable. Syncom pgm relays were never intended to be "funny"--some were at request of the Eu stn, some to provide Syncom listeners w/taste of Eu pgming; the 11/1 airing was the Impact 7-3-4-0 Show-tape, IDed itself as a tape several times and lasted less than 20 min. The final 5 mins contain repetitions of 7340 jingles; should not have been hard to deduce it was a relay, since aired on 6265. Since US pirates are not BC stns, not of legitimate interest, not of legit purpose and don't care about their listeners, why do people who feel that way want our QSL so much? P.S.: We require a report on signal quality and rx/ant info before we QSL (Chuck Felcher, stn mgr of a martyred operation) Jolly Roger Radio What do you get when you're a pirate with intelligence, faith in your work, dedication, spunk and downright luck? An application for a license! While other pirates of late were served with fines, all JRR rxd was an application for a license within a letter from George Sklom, FCC

Chicago CE and the man who personally busted the stn. Incredible--the stn rxd respect. (Jack Widner, SWNS) Bruce Quinn of JRR says they are considering applying for 1 kW on 600 kHz at Greenfield, about 10 mi E of Indy. May sell stock to raise money for project (SWNS May) KDOR, Los Angeles was reportedly busted for the 5th time in early Apr; but FCC gave them 24h to broadcast after the bust. Run by a severely handicapped person (gh) 830 kHz "WPOT" hrd 19/4 *0055-0235+ on 7435, F-G, lots of QRN. Gave Yonkers box number for reports. Similar to WARG the WPOT sounds "slicker" (Scott McClellan, MI) "WTBJ Radio 7000" new pirate circa 7000 kHz, local Sats 6-10 pm CT, offbeat mx, wrestling, mx by local groups from ND, SD, MN, WI, IA (John Santosuosso, FL) R Confusion 22/3 BC resulted in around 20 reports from USA, one each from Denmark, W Germany, S Africa (McClellan) R Indiana hrd 6990 0550-0600 3/5, really poor behind utes, CW maybe jamming him, SIO 322, long time since they've been on. Radio Direction Finder To Be Used by F.C.C.

An automatic radio direction finding system, patented this week for the Field Operations Bureau of the Federal Communications Commission, discloses the direction of an incoming signal from any point around 360 degrees. It has an extremely wide frequency capability and does not interfere with modulation that carries information on the signal.

Patent 4,263,597 was granted William F. Bentley, Arthur Luedtke and James E. Scott, staff members at the F.C.C. office in Powder Springs, Ga. The system is described as displaying an accurate bearing in less than half a second. It is said to be small and capable of carrying an antenna unobtrusively on an automobile. A patent drawing shows one installed under the roof of a car.

The direction finder is being installed in 23 vehicles. The bureau enforces national and international radio laws and treaties, tracing clandestine radio stations and locating sources of radio and television interference.

(NY Times via Foxworth)
Chicago CE and the man who personally busted the stn. Incredible--the stn rxd respect. (Jack Widner, SWNS) Bruce Quinn of JRR says they are considering applying for 1 kW on 600 kHz at Greenfield, about 10 mi E of Indy. May sell stock to raise money for project (SWNS May)

QSL REPORT

Sam Barto, NASWA QSL Editor
460 Emmett St. B-19 Bristol, CT. 06010

NEAD XO: The Sixth Annual New England Area DXers Outing is scheduled for Sept. 12th and 13th. The banquet will take place on Saturday Sept. 12th at the Preston Hill Inn in Middlebury, CT. The outing will once again be held at Black Rock State Park in Watertown, CT. Write to me for further information. If you thought the past few outings were good you haven't seen anything!!!

This month we had our second highest total ever...129 NASWA List countries reported!!!
 I believe that our highest total was 132 countries....Pretty good for the Spring!...Sam.

NOTES: William Krause and others have noted that the NBC at Boroko has a new verification
 signer, namely N. Gevina, Reception Clerk. The NBC, in the past, has been extremely
 good in QSLing our reports. Bill plans to express his thanks to the NBC and hope
 that the new v/s will be as responsive to our reports and carry on in the same
 tradition...Good idea Bill!
John Fisher in Ontario says that he has just finished 5 years at the University and
 will shortly be vacationing in the Mariti e Provincas...Nice place to visit, wish I
 could be with you...Sam.

NEADXXO: This years outing promises to be the best yet. Once again we expect somewhere
 around 100 people to attend. I have the feeling that we are going to get many more
 this year. Every quality item that you have seen in the HAP Page since Sept. of last
 year will be available at the outing!!! The banquet will be at the Preston Hill Inn.
 The room accommodations are cheaper that last year! Sorry no pool but lots of other
 wet stuff! You may write to me or call (203) 589-0083 for further information...Sam.

I saved the best for last. I was planning to have an all Latin column, but I had to put this one in. This is the first one I've seen or heard about in something like 10 years! Congratulations to Mr. Paul Buer!!! Like the card, my hand goes out to you Paul!

Till next time,

Sam

(816) 931-5943 7-10p.m. Central Time ONLY

UPCOMING DEADLINES: 10 June (Mid-June) 21 June (July) 10 July (Mid-July)

Reproduction permitted provided credit is given original reporter and NASWA UPDATE. Dates, times and days are GMT; freqs are kHz.

- ALBANIA** RT, 7065, in PT 0135-47; long lecture abt prosperity in People's Albania. Do not confuse w/ Cuban clandestines. (Bob Rankin, KS 5-20)
- BOLIVIA** R. Illimani, 6025, in SP/Ind 1028; good. Talk in Ind., fine ID by W in SP, freqs "desde La Paz." Good despite AFRTS 5 kHz up. (Jack Jones, MS 5-1)---same, 2350-0114 9 May in SP w/ long futbol game and many ments of team "los rojos de Santa Cruz." Mixing w/ Budapest 0026. Freqs 0135 and into US top 40 stuff. Strong. (Steve Reinsteine, FL)+++R. Panamerica, 6105, in SP 1045-49; fair. Folk mx, ID 1052, and into "Presente Bolivia" by M. Deteriorated fast. (Reinsteine, FL 5-9)
- BOTSWANA** RB, 4845, in EG 0430; fair. M w/ nx summary and into verns w/ presumed same. (Stu Klein, NJ)---Same is a regular here. tba
- BRAZIL** Rdf Maranhao, 4755, in PT 0110; poor. Futbol w/ anncr screaming gooooal. Clear ID by M. Het w/ UTE and fading. (Reinsteine, FL 5-13)+++RN Cruzeiro do Sul, 4765, in PT 0233-50; weak. Slow ballads, light instr mx, sloppy audio, many mentions "Nacional" by M. (Reinsteine, FL 5-11)+++Rdf do Amazonas, 4801, in PT 0925; very good. Rhythmic local mx, M anncr w/ freqs, ID, QTH, TC, more mx. (Klein, NJ)+++R. Timbira, 4975, in PT 0830; fair over UTE. PT pops, M anncr, talk, ID/TC over mx, more ballads. (Klein, NJ)+++R. Cult. Cuiba, 5015, in PT 0500; fair. M anncr, talk, ID/TC, calls, freqs, into EZL PT mx. (Klein, NJ)+++R. Guarujá, 5975, presumed at 0903 5-9; long sought but seldom heard by me. Pretty good sig but heavy QRM. Tuned in too late for ID but was a religious message, which is how they open. Must try again for *0900. (Jerry Berg, MA)+++R. Aparecida, 6010, in PT 0009-24; fast talk by M, US top 40, clear ID 0013. Bad het and // 5035. (Reinsteine)
- CANADA** CFCX, 6005, in EG 0900-10; fair. ID, nx, weather, spts. (Frank Orcutt, CA 5-8)
- CHINA** FFB5, 1, 5900, in CH 1040; good. M&W w/ some kind of talk pgm, CH opera mx. (Klein, NJ)+++ Hellongjiang, 5950, in CH 1141-1200; fair // fair 6150. Long talk by M&W, clear ID 1159. 6 pips 1200 and presumed nx. (Reinsteine, FL 5-15)+++FFB5 2, 6000, in CH 1035; good. W w/ vitriolic tirade and several ments of Taiwan. (Klein, NJ)
- ***CLANDESTINE** R. Quince de Septiembre, 5565, in SP 1120-30; fair. Long talk by M&W, ment of "hermanos Nicaraguenses", some campesino mx. (Reinsteine, FL)+++R. Cuba Libre, 6988, in SP *0302-30*; strong but tinny audio. Trumpets and ID: "Atencion Cubanos aqui R. Cuba Libre." Anncd as 6990. Cuban NA, talks by M&W. Also ment as "Cristiana de Cuba." Anti-Castro rhetoric w/ religious slant QTHs in Venez., Costa Rica, Mexico and Puerto Rico. (Reinsteine, FL 5-18)+++R. Trinchera, 7078, in SP 0131-43*; excellent. Talk by M&W, nx pgm 0134, ment of psecial b'cast at 9 p.m. 20 May to commemorate founding of Cuban Constitution. Editorial 0139 w/ many Trinchera IDs, W finishing w/ "Viva Cuba Libre" and gone. (Reinsteine, FL 5-18) +++ R. Ondas Libre, 7080, in SP *0201-33; poor. Long talk by M, some MW type lcl mx. Several clear IDs. Mentioned 40 m. Off and on repeating a 12 min. b'cast for the 3d time. (Reinsteine, FL 5-18)
- ***COOK IS.** RCL, 11759.8, in EG 0801-0903*; vy good. RA nx, ID at 0810, into 50/50 mix of island vocals and MoR w/ DJ. Choral anthem 0901 and off. Hard to believe. (Terry Krueger, FL 5-19)--- Same, 0626-0900*. Island mx, EG pops, W w/ phone request pgm, TC/IDs by M&W to 0900*. Traditional US country mx in the island style. No nx at all. EG/verns. (Vlad Cucura, PA)---Same 0700-0904*; mix of pop and island mx, EG W anncr, many IDs. Talk by M in vern 0730. RA nx 0800, more mx 0810. Full ID 0823. S/off anncmts 0859, carrier off 0904. On other occasions no RA nx at 0800. Fair sigs which improved toward s/off. Tnx John Kegel. (Gregg Bares, DC)---Same presumed 0835-0915 5-9; pretty good carrier but low audio. Island mx and some pops. (Berg, MA 5-9, 10)---Same here several nights 0630-0800 w/ details as above. Fair to good. Now I can retire. Wanted this for years. tba ---Same, 0655-0707. US pops, drums 0700, local nx and sports, many mentions of Cook IS. (Rankin)
- ***COSTA RICA** R. Nacional, 6035, in SP 0155-0207; good. Slick nxcast, "Coo-coos" and many IDs. Into drama // MW 575. Now on SW and sounds like abt 10 kW. (Krueger, FL 5-19)---Same, 0050-0113; QRM from Globo. Slow vocal mx, ID by M 0101 and 0116. World nx 0101. (Rankin, KS 5-20)+++ R. Rumbo, 6078, in SP 0913-40; excellent. Cumbias, ballads, ID/TC by M after each song. (Orcutt, CA 5-8)+++ (out of order) R. Casino, 5954, in EG 0525-35; MoR mx, ID, Nicaragua QRM. (Orcutt, CA)
- DOMINICAN REP.** R. Clarin, 11700, in EG 2228-2300; "This is Sto. Domingo," Rudy Espinal. Said xmr conked out 3 mo. ago and Clarin had no money to repair. Now fixed and using 25 kW. "Maringa" mx, greetings to listeners. Off 2241-51 and back w/ horrible audio. (Reinsteine, FL 5-16)
- EL SALVADOR** R. Nac., 9553, in SP 0326-40; excellent. World nx by M, TCs 2 min. off, pgm sked for tomorrow, marimba jingles, more nx. (Reinsteine, FL 5-9)
- ECUADOR** RN Progreso, 5060, in SP 1010; very good. Local pop mx, M anncr, ID/stn hype, more mx. (Klein, NJ)
- FINLAND** RF, 11755, in EG *0230-0300; IS, nx and commentary. One hour earlier due to DST. (Brian Alexander, PA 5-10)
- FR. GUYANA** FR3, 4972, in lang 0920-0930, poor surfacing briefly w/ FR anncrs, songs and talks // 3385. UTE problems; only second time hrd here. (Krueger, FL 5-19)
- GALAPAGOS IS.** LVG, 4810, in SP 0220-30*; good. S/off anncmts, Ecu NA by band. Rather early. (Reinsteine, FL 5-11)

- HONDURAS** LV Justicia, 4910, in EG 0118-30; fair. Bible talk by M, mention Box 1 Tupelo, MS and said QSLs would take 2 months. (Reinstein, FL) ***Thought this was Mostiquia, tba
- INDONESIA** RRI Ternate, 3345, in IN 1245-1330; good. Local pops, ID, nx, talk by M&W playing parts of an interview. (Orcutt, CA 5-1)
- IRELAND** R, Dublin, 6909, in EG 0545-0605; good. Usual format; "number 3 song, Silence is Golden." (Richard D'Angelo, PA 5-3)
- ISRAEL** Galei Zahal, 14728, in Hebrew from before 2000 to after 0200 regularly. Fair to good and must be more than an internal link. (Berg, MA)---Same 0150-0301. Mx, IS on piano or similar at 0200 and 0300. Two minute nxcast in Hebrew by M each hour. Mostly mx. Reduced carrier USB. (Rankin, KS 5-17)---Same 2235-2330 w/ Israeli pop mx, M anncr. Tnx Agner for tip. Hrd as late as 0300 but w/ weaker sig. Generally good. (Alexander, PA 5-16)
- KOREA (REP)** RK is asking for beautiful and aesthetic postcards from its overseas listeners for a display in Seoul 17-22 June. If your card is used, you get a commemorative medal and another picture post card in return. Deadline: 15 June. (Wilder Pickard, IL)*** No "Greetings from Asbury Park" cards please. tba
- LIBERIA** ELWA, 3260, in vern 0620; fair. M anncr w/ talk, tribal chanting, some static in the band. (Klein, NJ)
- MONGOLIA** RUB, 12070, in EG 1235-49*; tough copy. Comment by W, ID as "You are tuned to RUB," also by W. Local mx w/ strings. (Reinstein, FL 5-8)
- NEW CALEDONIA** Noumea, 1710, in FR 1125-40; ARO QRM. US pops and talk by DJ. Took calls from 2 W listeners. (Reinstein, FL 5-16)
- NICARAGUA** LV Nicaragua, 5950, in SP 0555-0603*. Slight het. ID, talk by WEM. Nx. (Alexander, PA 5-9)+++R. Zinica, 6120, in SP 1138; strong. TC and ID as "La cinco en la manana con treinta och minutos en R. Zinica." (Reinstein, FL 5-11)
- PNG** R, West Sepik, 3205, in PD 1115-45; fair. Local vocals, Island mx, ID by M. CW QRM. (Orcutt, CA 5-6)+++NBC, 9520, in EG 0840; very good. M anncr, racing results and recorded track calls, other norts spews. In well but not even a whisper from 4890. Strange. (Klein, NJ)
- PARAGUAY** RN, 11915, in SP 0120-35; fair to good w/ het. Live futbol coverage. Many IDs by 2 M anncrs. (Orcutt, CA 5-13)
- PERU** R. Oriente, 3285, in SP 1015. Noticed two nights in first week of May w/ 1015 s/on w/ NA and into station ments. Other mornings covered by usual QRM. Fair to good at times w/ clear IDs by M and huayno pgm. (Meyer, KS)+++ R. Coop. Satipo, 4785, in SP 0945; fair. Nice local mx, M anncr, many mentions Satipo but none of Cooperativa. (Klein, NJ)+++R. San Martin, 4810, in SP 0935; fair to good. Really wild nose flute selections (love 'em), M anncr, ID/TC, more mx. (Klein, NJ)+++R. Chinchaycocha, 4860, in SP 0630; good. Nice Andean mx pgm, yipping, stn jingle M anncr, more mx. (Klein, NJ)+++R. Tropical, 4935, in SP 1015; good. Usual pgm of local vocals M anncr, many IDs. (Klein, NJ)---Same 1030-47; long talk by M in SP w/ mention of economics and possibly Peru. Vy weak so mark tentative. (Reinstein, FL 5-13)+++R. Andina, 4996, in SP and tentative 1000-16. High Andes vocals. First time I've noticed anything here in years. (Krueger)+++R. Moyobamba, 5015, in SP 1022; fair under hvy carrier. Huaynos and promos, local notes, political mx. QRM too much at 1045. (Kevin Meyer, KS 5-11)---Same 1008-33; Andean mx, clear ID 1016; fair. (Reinstein, FL 5-10)+++R. Lib. Junin, 5040, in SP 0635; awful mix w/ Cinco. Just got the flutes. (Klein, NJ)+++R. El Sol, 5970, in SP 1030; vy good. M anncr w/ greetings, TC, stn hype, ID and into usual pgm. (Klein, NJ)---Same, 1047, w/ talk, TCs, ads, local mx. Vy good. (Jones, MS)---Same, 1039*; nice local mx, many TCs, local nx by W. Great sig. (Reinstein, FL)+++R. Union, 6115, in SP 1057-1121; fading fast. Andean flutes, long ID/slogan by M, ment Lima, nx to 1108, light pop mx. (Reinstein, FL 5-13)+++R. Tawantinsuyo, 6175, in SP 1020; fair. Andean vocals, M anncr, TC, ID, talk and more mx. (Klein, NJ)+++R. Cuzco, 6195, in SP 0931-58; good w/ M anncr, Andean mx, ID 0950 and peaking. (Krueger, FL 5-19)
- *****QATAR** QBS, 11730, EG/AR/FR, 1935-2003*. Test tx w/ 3 lang segments, one song for each. M anncr. Wants reports. (Reinstein, FL 5-9)---Same, 1840-1908; IDs in EG, FR and AR, "Call Me" EG song, one each in FR and AR. IDs frequently. Reports to Box 3939. (D'Angelo, PA 5-10)***Doha, presumably. tba***Same, 1745-2000 in Ar/EG/FR. Annecd as test xmsn and inviting reports to Box 3939 Doha, Qatar. After each ID in each lang. mx in that lang. Beware of RNederland co-channel 1730-1820 and 1830-1920. Stronger 1912 and by 1930 well over RN FR Ser co channel. S/off 2000. (Cucura PA 5-12)
- SOLOMON IS** SJBC, 5020, in EG 1000; breaking through the muck w/ ID by M anncr and into RA nx. (Klein, NJ)---Same, 0856 in PD/EG. Local nx and sports. (Jones, MS)
- SOUTHWEST AFRICA** SWABC, 4965, in verns 0510; fair-poor. M anncr w/ talks. Over Santa Fe. (Klein) **SWEDEN** RS HS Varberg, 21645, in Swedish 1900-20; excellent. Nx by W and clear ID 1907. Nearly local quality. (Reinstein, FL 5-7)
- TAIWAN** Vof Asia, 5980, in EG 1055-1110: CH Flute mx, nx by M 1100, clear ID though het and QSB. First time for me. (Reinstein, FL 5-11) ---Sked for this from belated QSL: Beamed east 1030-40 EG, 1040-50 IN, 1050-1100 CH, 1100-1200EG, 1200-1300 IN, 1300-1430 CH. (Sun only 1030-40 EG, 1040-1200 CH, 1200-1210 IN, CH to 1430). Westbound: 1430-40 Thai, 1440-50, IN, 1450-1500 CH, 1500 1530 EG, 1530-1700 Thai, 1700-1800 CH, 1800-1900 Indo. (Sun only 1430-40 Thai, Ch to 1700, IN to 1710, CH to 1900.) (Berg, MA)
- URUGUAY** R. Carve, 6155, pretty fair w/ nx 0040 5-2. Het from 6156. ID 0048. (Berg, MA)
- VENEZUELA** R. Juventud, 4900rf, in SP 0145; excellent. Just there suddenly, usual format. Wlcome back. (Klein, NJ)***Same here tnx Klein tip. tba
- VIETNAM** VoV noted on 10010 at 1114 in EG and 15012 at 2026 in EG. Fair to good. (D'Angelo) **OUT OF SPACE.** 73, *TBA*

log report section

TERRY KRUEGER

I hope I can complete this column before the sinkholes suck me in. Very little news to report in this edition. In fact, most of my listening has been above 60 meters. I was very pleased to catch Cook Islands on 11759.8 0800-0903* on May 19.

- 2370 MEXICO UNID; 0350 SP M, mariachi-style mx, IDs given but not understood, but am certain it is bdcst from Nogales, Sonora, as it was definitely part of ID -- no listing in WRTVH. (Bernackle 5-7) New SW, or 790 x 3 MW harmonic? Keep us informed... TK
- 2420H USA MW harmonic here, 90% sure of ID, "WBC nxttime," nx of ABCAM indictments (Leithner) 1210 is Clear Channel; no WBC here. Time?..TK
- 2428 NEW IRELAND RNI; 1100-1106 PD, EG TC/ID, nx and mx (Forth, Leithner)
- 2468 PNG R Northern; 1106 w/ IDs, nx inlang, ments PNG, mx, p (Leithner)
- 3205 BRAZIL R Riberao Preto; 0028 FT M&W singing, ID, nx, g (Eastman)
- 3215 VENEZUELA Ondas Panamericanas; 0020-0331 SP ID/TCs, LAm mx, nx head-lines, bank ads (Michaud, Alexander, Leithner, Novello, Valko)
- 3220 ECUADOR HCJB; 0430 weak w/ EG ID, lang rel pgm (Leithner)
- 3222.5 PNG R North Solomons; 1054 PD anmts, instr. mx, ID 1109, g (Forth)
- 3225 VENEZUELA R Occidente; 0338 SP EZL ballads, ABBA, M ID, ID by SP M (Klein, Michaud) 1025 ID, YV mx under strong OC (J. Jones)
- 3250 S. AFRICA R Five; 0410 p w/ EG ID jingle, TC, pops (Lucas, Michaud)
- 3285 BELIZE RB; 0110-0437 EG pops, IDs, games, nx, SP IDs (J. Jones, Eastman, Michaud, Spiczka, Baker) 1120 EG pops, TC/IDs, g (Hensley)
- 3385 PNG RENB; 1020 PD local anmts, ID/TC, island mx (Posporelis)
- 3287T MADAGASCAR RTM; 0308-0323 Malagasy M w/ tlk and Afro choral mx; f/ out 0323 (Cucura 4-26) ID, OM... TK
- 3300 GUATEMALA TGNA; 0325 EG rel pgming, hymns, ID (Valko, Spiczka)
- 3307T ZIMBABWE ZBC; EG/lang, 0325 w/ drums weak, UTE/het QRM, W 0329 "... ZBC" lettered ID (Lucas 4-8)
- 3325 KALIMANTAN RRI-Palanekaraya; 1234-1250 IN M&W, laughter, mx, IDs by M 1234, 1249, 1250 (Hensley 4-18)
- 3335 BRAZIL R Cl. da Conquista; 0140 PT ballads, ID, g 1vl (Eastman)
- 3355 INDONESIA Re: May, LR-A: Meyer's log of RRI-Sumeneq as Bali is incorrect. Sumeneq is located in Propinsi, Jawa Timur which is in East Java; not Bali. (Al A. Miller, Jr.)
- 3366 GHANA GBC-2; 0535 EG M, Afro tunes, IDs (Alexander)
- 3375 BRAZIL R Nac. SSo Gabriel; 0040-0206 PT ballads, M TCs, ID, ments of Brasil (Klein, Valko)
- 3385 PNG Rabaul; strongest 4-14, PD/EG tlk on development, TC/ID, good (Leithner)
- 3395 ECUADOR R Zaracay; 0419 rapid IDs, SP LAm fast-paced mx (Leithner)

 5565.3 NICARAGUA R. 15 de Septiembre: Anti-Sandinista stn, first noted 4/23, usually has one hour broadcasts beginning at 0400 & 1100, give or take a few minutes. One of the announcers is a rabid female who always yells at the top of her lungs, including on their standard ID tape which is repeated every 3-4 minutes, and although I haven't been able to figure out the complete and exact text of her announcement, I seriously doubt that native speakers of Spanish will have had much better luck! The stn claims to be against Somoziism and communism, for god & the country. BBC-MS reports that this stn, according to R. Sandino, is backed by former members of Somoza's National Guard. Claims to broadcast from somewhere in the fatherland, though a Toronto Globe & Mail report quoted by SWNS puts it over the boarder in Honduras, in a remote and inaccessible jungle location. Condemns growing Cuban/Marxist influence, especially along the Atlantic coast, and has brief segments in an unknown language, which I suspect to be Miskito-4/24 @ 0427. Claims the Sandinistas are trying to abolish religion. Signals have been fairly strong, but not strong enough to overcome atmospheric or QRM from Havana-Miami aeronautical communications on 5568 (Hauser-TN). For a complete text of Hauser's report, I refer you to LN or RIB-Scw. 0404-0504* ID by W shouting in SP, lectures by M&W. (Rankin-KS, Jordan).

 11655 ISRAEL Kol Yisrael; 0015 EG, extra fqy (besides 9815, 11637, 15582) for Independence Day pgms; not jammed during Hebrew pgms(0030-0100); listed i.a. for "D" 0500-0530 but so far in J-81 not heard that time. (Munster)
- 11685 KAMPUCHEA VoKP; *1200-1218 Cambodian, martial anthem, anncmts, pssble ID, then to spirited oriental vocal & instrumental Mx; brief Nk spot by Y1 & OM, mentions of Kampuchea & Vietnam. No // heard (Jordan 4/25)

A very light turnout this month. Students were I'm sure working on last minute papers and cramming for exams. What's the excuse for the rest of you?

I am now using a TRS-80 pocket computer. I hope to put together some programs relative to times, frequencies...schedules and so on. If any of you have any tips or intelligent ideas please pass them along. Perhaps we can share ideas. *PSD*

Let's hope for a larger turn-out in July! Best of 73

NOTICE, PLEASE

The President of the Handicapped Aid Program, HAP-US, requests that all members who have not been in contact with HAP-US Headquarters since the first of the year please write to HAP-US, Route 4, Box 32, Rolla, MO 65401. Thank you.

FOR SALE: Hammarlund HQ-200, 540 kHz to 30 MHz. Has built-in Q-Multiplier
and RF and AF gain and is also set up for frequency counter. Selectivity
variable from 100 Hertz to 3 kHz in one position and 6 kHz in the other
position. In excellent condition with manual. Price \$235.00 UPS to your
door. Steve Leite, 895 Bedford Street, Fall River, MA 02723. Phone (617)
675-2830 from 2200 to 0030 GMT.

FOR SALE: Heath GR-78 general coverage receiver with five bands including
LW, MW and SW to 30 MHz. Bandspread calibrated for International SW bands,
500 kHz calibrator, BFO, internal rechargeable battery or AC operation. Like
new condition, with manual. Price \$55.00. Lawrence Albert, P.O. Box 5394,
Fort Wayne, IN 46895. Phone (219) 485-9240.

FOR SALE: Yaesu FRG-7000 with Gilfer 2.4 modification, DC altered. Price
\$450.00 plus shipping. Also SX-59 preselector, \$50.00 plus shipping. Roger
Bisbee, 1702 Waldemore Street, Sarasota, FL 33579. Phone (813) 955-0234.

FOR SALE: Drake SPR-4 with calibrator and switchable narrow bandwidth. In
excellent condition. Price \$295.00. Jeff Stover, P.O. Box 494, Lock Haven,
PA 17745. Phone (717) 748-6729

ANTENNAS/ACCESSORIES

MIKE AGNER

PA BLUE SHIELD, ERFORD ROAD, BUILDING W6E1, CAMP HILL PA 17111

Hi everyone! Before I get into something new, I want to complete "Jack" Reeder's list of stuff.....

H.L. "Jack" Reeder, Tn.

MFJ901 antenna tuner
GAR7 freq. readout
MFJ signal enhancer II
Yaesu SP901 speaker
Realistic Nova 40 stereo headphones
Telex 610-1 headphones
Lafayette RK85 cassette recorder
homebrew switchbox (plans, Jack? mja)
Mastercrafters 24 hr. clock

Now, let's head into the mail....

Charley Hoffman, Pa.

MFJ752B audio filter
MFJ959 tuner/preamp
B+W model 595 antenna switch
Heath 24hr. clock
Yaesu YH55 headphones
GE portable cassette recorder
Radio West DD2S digital display
KRS active antenna
Palomar tropical band loop
1 Horihel, 32 foot of wire
1 Horihel, 50 foot of wire
20 foot random wire, indoors
150 foot random wire, outdoor
23 metre long inverted-L, running E-W, 60 MB dipole running NW-SE, Phillips Continental 420 stereo recorder, Superscope C190 cassette recorder.

Mike Bolitho, Canada

++++I've had a couple of suggestions regarding the survey format. Do you prefer the format I used for Charley's stuff, or for Mike's stuff? I think the format I used for Mike's stuff is a tad crowded, but I will go with the majority decision. Comments, anyone??++++

.....
Impedance and You- Part III (or, you and the ATU)...or transmatch, or matcher or tuner.....they all mean the same thing. The last time, you'll recall, we said that tuners allow the use of an antenna whose impedance is characteristically not ideal for a given front-end. It does this by "fooling" the front-end into thinking it "sees" a good match.

Yes, I'm being vague and somewhat elusive. There's a good reason for it. Tuners are not miracle devices. They work on solid physical laws which are well defined. However, I must stress that no actual conversion takes place. If you have a mismatch somewhere in your antenna system, it is still there even if a tuner is being used. A tuner allows you to get the most RF from the antenna, as it is, into the front-end of your receiver. Period. That's all it does.

There are a great many different circuits for tuners, each having advantages and disadvantages. For example, a pi-network circuit (a good example is given in DXATN) is very fine when working with single wire feeders, but falls apart at the seams when trying to work with a coaxial antenna, such as a dipole. For coaxial antennas (actually, an unbalanced antenna is a better word), it might be more appropriate to use a L-network, examples of which can be found in the ARRL Antenna Handbook, among others.

Personally speaking (yes, this is only a comment!), I rather favor any circuit that allows you to switch from one type of tuner to another without much hassle. This way, if one circuit doesn't seem to work so well, with just a flick of a switch (or an addition of a jumper, etc.) you can try still another. It tends to lend flexibility to the system, particularly if you happen to be an antenna tinkerer.

Tuners can be a great help, particularly if you are in a tight spot. I highly recommend their proper use as they certainly can make the difference between the ID made or lost!

ANARC 1981 CONVENTION
THUNDER BAY ONTARIO
JULY 17, 18 & 19
RESERVATION FORM

NAME (please print) _____
ADDRESS _____ CITY _____
STATE OR PROV. _____ POSTAL OR ZIP CODE _____

I would like to reserve a room at the Airline Motor Hotel
_____ Single (CDN\$32.50 or US\$27.50) _____ Double (CDN\$38.50 or US\$32.75)
_____ extra person(s) in room (\$2.00/night)

If sharing a room expected room-mate _____
First night deposit required for hotel..... _____
Convention Registration Fee (CDN\$15.00 or US\$12.75)..... _____
Banquet Fee (CDN\$15.00 or US\$12.75)..... _____
TOTAL AMOUNT ENCLOSED..... _____

Please remit by cheque or money order. US cheques are acceptable.
Make cheques payable to ANARC '81. Do not send cash in the mail.

Reservation forms should be received no later than June 15th. After that date hotel accommodations cannot be guaranteed.

Date of arrival in Thunder Bay _____ Date of departure _____
Mode of transportation: Car _____, Plane _____ Flight No. _____,
Train _____, Bus _____, Other _____

Do you require any special accommodations _____ If so please indicate.

Please circle the ANARC Clubs, if any, of which you are a member
ASWIC AIDK ASDA CIDR C:WLI COCQ IRCA LMCA MVDXC NRC NHRC
NANMA ODKA RCMA S:PE:DA WFFLA CDXQ MDXC SDDXC SDXA U:MXC
WAL:A M:LDG HAP CHAP

(Note membership is not necessary to attend the convention)

PLEASE RETURN THIS FORM AS SOON AS POSSIBLE TO:

ANARC '81
P.O. BOX 142
THUNDER BAY, ONTARIO
P7C 4V5 CANADA

We will be looking forward to seeing you in Thunder Bay in July at
ANARC '81

NOTE - Hotel reservations and convention registration will be confirmed
when fees are received. Please allow 2-3 weeks for confirmation.

"Remember", David K. Maxfield points out, "the world of SW is ANARCy!"
