JAPANESE MEMBERS...HELP!

Last month I received a request for information on NASWA/FRENDX from a gentle in Osaka. He supplied his own mailing label which I put on the envelope, but the package was recently returned marked "INSUFFICIENT ADDRESS". The mailing label read "Hidekazu Hirano, Higashi-Sumiyoshi-ku, Osaka-shi, JAPAN 546. Any help you can give me in contacting this gentleman will be appreciated.

GOOD READING

Publications which might be of interest to NASWA members are:

"Tail Gunner on a Superheterodyne" by Larry Brookwell who is Director of the International DXers Club of San Diego. This is the expanded book form of the "Odyssey of an Aficionado" series which was originally printed in the IDXCSD bulletin and it's quite a story. The book is now available for \$8.95 plus postage (First Class USA/Can/Mex \$2.07. Third Class USA only \$1.15. Overseas rates are higher). Write to Larry Brookwell, 1826 Cypress Street, San Diego, CA 92154-1154.

Electra Company, marketer of the new Bearcat DX-1000 SW radio, has a free eight-page booklet titled "Dial in the World as Easy as Dialing a Phone". The booklet is designed to provide existing and potential new listeners with a quick, digestible overview of SW Radio. For your free copy write to Electra Shortwave Booklet, 300 East County Line Road, Cumberland, IN 46229.

Miller Publishing is the only U.S. company devoted exclusively to producing books on International SW Listening and October marks the availability date of "Radio Nederland" by Robert D. Haslach, "Tune In the World" by Kenneth D. MacHarg, and "Introduction to International Broadcasting" by various contributors. These books measure 8" x 11" and are printed on high-quality paper. They are available only from the publisher at US\$11.99 plus \$1.50 postage in the U.S. and \$2.50 postage outside the U.S. PA residents must add 6% sales tax. For more information write to Miller Publishing, 424 West Jefferson Street, Media, PA 19063.

NO COLLECT CALLS ON THESE ADS, PLEASE

FOR SALE: Hammarlund HQ-180A with matching speaker and KRS digital display unit, complete set of tubes, Mizuho SX-59 Preselector, and original manual and carton. All in mint condition for \$450.00 plus shipping. ALSO R390A URR with cabinet. Comes with manual and SSB adaptor. In very good condition for \$300.00, pick up only. Stephen Leite, 190 Healy Street, Fall River, MA 02723. Phone (617) 675-2830 from 2100 to 0200 GMT.

FOR SALE: Brand new Kenwood R-2000 purchased one month ago from Electronics Equipment Bank who modified the receiver with a mechanical filter. Modified unit sells for \$624.00, I will sell this one for \$495.00. There are still five months left on the combined Kenwood and EEB warranty. Shortly after buying this unit I had the opportunity to acquire a more elaborate system so the Kenwood is now surplus. Manny J. Neff, Gwynedd Plaza 1, Bethlehem Pike, Spring House, PA 19477.

Shortwave Center

October 1983

Editor: John C. Herkimer, 3233 East Avenue, Caledonia, NY 14423

A new season is underway, and to start things off our resident expert on clandestine DX, Steve Reinstein, checks in with a report on the Junta Patriótica Cubana, former SWC editor, Al Sizer, takes on the neglected DX target of Brazil, Bill Plum fills us in on Radio Baha'i in Ecuador, Bob Rankin has more on "that fire", Adrian Peterson, of AWR-Asia, goes in search of our CL, Chuck Oliver reminisces on his years in the hobby, Bill Cole comes through with his program for VIC-20 owners, plus a few tidbits sprinkled here and there....

JUNTA PATRIÓTICA CUBANA

P.O. Box 350-492 - Riverside Sta. Miami, Fla. U.S.A. 33135

Yugo O Estrella

by Steve Reinstein, 7753 Harbour Blvd., Miramar, Florida 33023

The slogan "Yugo o Estrella" ("Slavery or Star") first stimulated my curiosity a couple of years ago, while exiting the Palmetto Expressway, in Hialeah, FL. The slogan, along with a five-pointed star (from the flag of Cuba), was emblazoned upon the wall of the exit overpass. I have recently come to realize the the symbol "la estrella con cinco puntas" is the mark of the Cuban exile organization Junta Patriótica Cubana (Cuban Patriotic Council).

The Junta Patriótica Cubana first gained notoriety in the DX world in the spring of 1980. Their clandestine shortwave radio station "Radio Mambí, La Voz de la Junta Patriótica Cubana" hit the airwaves during the height of the Mariel boatlift, when thousands of Cubans fled their homeland in search of a better life. Radio Mambí continued to operate on an irregular schedule until early 1982. It was then that the FCC closed down their clandestine Miami transmitter site. However, in July 1983 Radio Mambí was reactivated on a fairly regular basis! And, through the end of August, they have operated on weekdays at 0000 GMT, on 7076 kHz. They also announce a broadcast for 1100 GMT but I have yet to hear this one. They give the address as: Apartado 68045, Caracas, Venezuela. After hearing several of their recent broadcasts, I decided to fire off a reception report to the J.P.C. address listed in the Miami Telephone Directory. I wanted to add their QSL to my collection of clandestines, and too, I wanted to alert them of a problem they have with their transmitter. The audio is cracked and garbled, and I've noted huge spurs in the range of 6550-6640 and 7520-7610, equidistant from their nominal frequency.

Two weeks later the QSL package arrived, my "Kenosha" card signed and stamped by Ceferino Pérez, a member of the J.P.C. Permanent Assembly, a letter from the esteemed J.P.C. President, Dr. Manuel A. de Varona, and several brochures in answer to my questions regarding the functions of the J.P.C.

The Junta Patriótica Cubana is a coordinating force within the active Cuban exile community. They are simply a supplement to the organizations (200 of them) by their claim, of which 130 are listed in the brochures) which participate within their sphere of coordination. Ideologically, the J.P.C. and it's members want "social and economic democracy with full national sovereignty, independent from the hegemonous blocks of world power". They reject all totalitarian regimes whether right or left wing. Their primary goal is to bring democracy and free enterprise to Cuba.

As for YUGO O ESTRELLA, let me quote directly from the J.P.C.: "The revolutionary symbol and logo of the CUBAN PATRIOTIC COUNCIL will be able to capture not only the popular attention, but it will be a catchy and easy expression of rejection of international communism which enslaves the Island. Our logo: SLAVERY OR STAR. Our symbol of rebellion is the Cuban five point star. This national symbol should be placed in as many public and private places as possible in Cuba. It should be reproduced, with little risk, by Cubans in the Island. A pencil, a piece of chalk or coal would be sufficient to imprint this symbol of popular rejection and rebellion. It would be a means of expressing solidarity with the cause of so many men and women fighting for freedom in Cuba. With God's help we will salvage our Island, our flag, and our star".

The J.P.C. has representatives in 13 states and 9 countries. The best bet for a QSL is at, P.O. Box 350492, Riverside Station, Miami, FL 33135. *73ds Star*

BRAZIL

by Al Sizer

Maybe it's because it's so formidable. There it stands, its 3,266,470 square miles almost as large as all the rest of South America, its land mass bigger than the contiguous United States. It bulks large.

It bulks even larger as a shortwave target. Of all the countries on the globe it is probably the most neglected when you consider that the 1983 WRTH has 191 shortwave listings for Brazil. (Some of these, of course, represent duplicate listings for the same stations on different frequencies.)

The prime targets for experienced DXers in this country, and perhaps nearly everywhere in the world, are Indonesia, Peru and Bolivia. They all have a lot of shortwave outlets in the tropical bands, many low powered, but Brazil fills all these requirements too.

DXers romanticize about and exult in catches from Indonesia and Peru but not from Brazil. Loggings from the big country are pretty well down the list in the monthly compilations of shortwave club bulletins.

RÁDIO ANHANGUERA
AV. SOARES DE MENDES, TEL. 226-1232 (PARA) TELEFAX 02999. CA. PORTAL 13

As sparse as the loggings are, the quantity of QSLs reported is even scantier. Many of the listeners who log Brazilian stations don't even bother to send in reception reports.

To complete the negative picture, information available and published on Brazilian stations is less in quantity, less accurate and more apt to be out of date than from other countries.

So why is the country not DXed more? Is it just that everyone is intimidated? Let's try to sort out some of the causes.

Undoubtedly, one of the main reasons is the language-Portuguese. Although as a Romance language it is a lot like Spanish, it doesn't sound like it and people in this country, for one, feel a lot more comfortable with Spanish because of the Hispanic immigration and influence. "Portuguese," said a friend of mine, "sounds like someone speaking Russian through his nose."

Have you tried to find a paperback Portuguese dictionary in this country? Not easy. You have to go to a university or very large book store. On the other hand, I can pick up a Spanish dictionary at my neighborhood drug store.

FAX: 22-4857 - CAMPOS RJ

A DX friend of mine explained his admitted poor record with Brazilians, as compared with the rest of Latin America, this way: "I would rather not go after the Brazilians until I have acquired the necessary skills to do it right--basically that means having a working knowledge of Portuguese equivalent to that which I now have in Spanish. When I do finally decide to go for Brazil then I will have the motivation to seriously set out to learn the skills and develop the tools."

RÁDIO CULTURA DE CAMPOS

OM 1.110 KHz 5.000 W - OC 4955 KHz 2.000 W
AV. 24 DE OUTUBRO, 201-B - FONE: 22-8544

Another DXer said: "The part that really turns me off is the Portuguese language. I hate to write Portuguese reports. This even to the point where I frequently had good loggings of a Brazilian station but never got around to writing a report."

The prevalence of the above attitude undoubtedly explains the dearth of Brazilian QSLs reported in club bulletins.

Let's not be too negative about the language, however. I'll admit it's not the most euphonious sound that ever fell on my ears (French and Vietnamese rate high with me) but for conveying raw excitement it can be hard to beat. I've often stopped dead while scanning the bands to hear an announcer describe a "futebol" (soccer) match. The scoring of a goal becomes a thespian masterpiece in his emotional description.

There are other obstacles to Brazilian DXing.

"IDs are hard to come by and hard to understand," reports one DXer. "Multiple stations on the same frequency make it difficult to determine which you are hearing. And there seems to be so much misinformation around about Brazilian shortwave."

"I have a hell of a time identifying Brazilians," complains still another listener, "because of their tendency to go on for hours without giving an ID that I can recognize."

Rádio Difusora Taubaté Ltda.

RUA DR. SOUZA ALVES, 960 - TAUBATÉ - S. P. (DDD 0262) - 33-8065 - PEX 20 RAMAHS
SEDE PRÓPRIA - CEP 15100 - CXC 72 288 028/0001-12

There is still another drawback to Brazilian DX, depending on what part of the country or world you're listening from. That's the time frame.

The best chance to log some of the low powered, low band Brazilians is around sign-on time which is often 0830 UTC and sometimes 0800. In summer this is 4 a.m. EDT and in winter 3 a.m. EST and even earlier if you live to the west.

Even on the West Coast 1 a.m. and 12 midnight are not conducive to intensive day-in, day-out DXing. Says a Californian: "I would have to change my work habits completely to work on them. They also fade in and fade out much earlier than the other Latin American stations."

"In my location a Brazilian can go from S-9 to S-1 in 15 minutes. Many is the time I started to copy one around 0900 with a great signal only to find it was gone completely by 0920 and I didn't even have an ID."

RADIOBRÁS

EMPRESA BRASILEIRA DE RADIODIFUSÃO S/A
Vinculada Ao Ministério Das Comunicações

That pretty much sums up the arguments against DXing Brazil, but the fact remains that there is one hell of a lot of good DXing out there that just isn't being done. I think we should all take a second look at Brazil and try to do better.

A good start would be to seek and publish better information about shortwave in Brazil. We could use a good list of stations, for one thing. And band scans. Better information on how to identify and report to Brazilians and some new Portuguese report forms.

Muito obrigado. I think that means "thank you very much" in Brazil but I wouldn't guarantee it because like almost everyone else I have a great big lack of knowledge about that country, especially when it comes to shortwave.

RADIO BAHÁ'I DEL ECUADOR

"elemento de integración social"

Frecuencias: 1420 kHz MW
4990 kHz SW 60 mts.
Estaciones: HCRN - 1

Teléfono 645
Apartado 14
OTAVALO - IMBABURA - ECUADOR

Radio Bahá'í del Ecuador, Otavalo, Imbabura, Ecuador
by Bill Plum (124 Hillside Terr., Irvington, NJ 07111)

Radio Bahá'í broadcasts on shortwave on the frequency of 4990 kHz. (4996 kHz.), international 60 meter band from Monday to Saturday, 7:00-11:00 p.m. local time (0000-0400 UTC).

Yes, we verify reception reports, says Executive Manager Marcelo Quinteros K., and to confirm the details of your report you will be sent our QSL card and a Radio Bahá'í poster done by the famous Ecuadorian artist, Germán Favón who presents a scene of an indigenous family of Imbabura province listening to Radio Bahá'í on medium wave (this poster is a real beauty!). This radio station is dedicated to the task of rural development operating under the auspices of the National Spiritual Assembly of the Bahá'ís of Ecuador.

Technical information is as follows: power: 1 kw., call signs: HCRN-1 and HCRN-2; antennas are tower type, for medium wave, situated 3100 meters above sea level and for short wave, 3500 metres above sea level; studios and transmitters are linked via microwave system, audio processed.

Now something about Otavalo: Otavalo is in the province of Imbabura and known for its very rich indio-american heritage. The indigenous Imbaburan ethnic groups are commonly called Otavaleans, but there exists more than 20 of them throughout this territory with different customs, dress, and economic, social and cultural systems.

Imbabura has 28 lakes and lagoons. Lake Cuicocha is situated in the southern part of the Cotacachi hills at an elevation of 3068 meters. The lake fills an old mountain crater, in the middle of it two islands rise up by the Dream Canal; the eastern one is very small, the western one is very large and covered with a maze of vegetation where some animals like rabbits and deer reside. Lake Cuicocha is 3.2 km. by 2.3 km. in size, its water level is 3081 meters above sea level.

From the lake's borders you can see Radio Bahá'í's short wave antenna which is 36 meters high and it would be unpardonable if you didn't bring a camera to capture this unforgettable view.

To its historical credits Otavalo celebrated 159 years from its founding this June 25th, the Liberator Simón Bolívar gave it the classification of city on October 31, 1829.

(the above was taken from a letter rec'd. from Radio Baha'i and translated from the Spanish by Bill)

Bill also mentions the reports heard over HCJB regarding erratic mail service in Ecuador, especially the capitol. Yet, Bill has recently received verifications from both Baha'i and Jesús del Gran Poder, the latter in Quito. So what gives? Draw your own conclusions gents, but my own policy is to save the theatrics for the report inside and leave the envelope plain and modest. Mail theft is notoriously spotty in LA. (JH)

Editor's note: It's not often we get a chance (or offer) to profile a DXer and NASWA member. Chuck Oliver, however, has kindly agreed to give us a glimpse of his nearly 60 years in the hobby. Along with his story, he sent a picture (below) plus several QSLs from the '50s. I'm sure Chuck would like to hear from other "veterans"...his address is 1314 Sawdust Road, #4, Spring, Texas 77380.(JH)

My interest in radio DXing started in 1924, when a merchant in the small town where we lived, got the first radio I ever heard. My family was invited over to hear the wonders of the airwaves. I soon graduated to crystal sets, then bought the first real radio I ever owned, a 4-tube Browning-Drake circuit, which used a storage battery plus "trickle" charger for power.

By this time I had moved to Houston, and a neighbor had a homebuilt shortwave radio which I was privileged to listen to. I remember catching EAQ, Madrid, on 9360 KHz, a frequency still used by them. Also caught London, whose call letters began with "G". VK2ME, Melbourne, Australia, and ZL9, Wellington, New Zealand.

(At the right is a photo of Chuck taken in 1936 with his McMurdo-Silver radio)

Before the advent of the VOA, U.S. stations were privately owned. I can remember W8X0, owned by WLW; also stations in Pittsburgh, PA, owned by KDKA; Schenectady, NY, owned by General Electric; and Bound Brook, NJ, owned by then WJZ.

The first shortwave radio I ever owned was a McMurdo-Silver, which I won in a national contest sponsored by Prophylactic Toothbrush, in 1936. Probably my most prized verie was logged on that radio, ZMBJ, a passenger ship plying between the two New Zealand islands. They broadcast from the ship's ballroom. Incidentally, most of my collection of verifications was destroyed when a car ran into and through my garage. I never did rescue them from the rain-drenched ruins.

SOUTH AFRICAN BROADCASTING CORPORATION
P.O. Box 4559, JOHANNESBURG

QSL with
Compliments

SABC

OUR STATION: 2MO
WAS HEARD BY:
YOU ON 30.75 METERS 5-748 c.
AT 5.27 AM on 7th October 1957
By CWF ENGINEER

Other radios which I have owned include a small Hallicrafters, a converted aircraft radio - BC348, and now a Kenwood R-1000.

I was a subscriber and sometimes contributor to the old Radex magazine. Each month I waited for the list of new station construction permits and power changes. Of course, these were medium wave stations. I also belonged to the Canadian DX Relay League.

Since DXing is my hobby, I include TV as well. I have seen almost 50 out-of-town stations, about half of which are verified. These include Denver, Fargo, ND, Minneapolis, Syracuse and Havana. A rotor on my antenna and freakish atmospheric get most of the credit.

At this writing, I am 72 years old, supposedly retired, but do part-time work to keep active, and live in a mobile home in this little town 25 miles north of Houston.

Editor: James G. Herkimer, 3255 South Drive, Caledonia, NY 14423

SONY ICF-6500W Selectivity Modification

The Sony ICF-6500W represents an unusual value in receiver performance among the currently available digital portables. It's major shortcoming is insufficient IF selectivity. What follows are the details for installing a narrower ceramic filter to correct this drawback, as described by Gerry Thomas.

What you'll need

- (1) Communications receiver quality ceramic IF filter. The muRata CFS 455 J is recommended (3 kHz at 6 dB down, 9 kHz at -70 dB) but the Vernitron VTD-4-I (4 kHz at -6 dB, 10 kHz at -50 dB) can be substituted. The former is available at muRata dealers around the country as well as at Gilfer's (I think) and Don Moman's Shortwave Horizons (6815 12th Ave., Edmonton, AB T6K 3J6), while the latter is available (or was) at Radio West as well as from Don Moman. I don't have the prices from the preceding dealers but would guess either filter would be around \$ 30-35.
- (1) DPDT toggle switch (Radio Shack # 275-1546 is ideal because it comes with different colors of toggle covers and the green one perfectly matches the trim of the 6500; \$ 2.65.
 - * About 2 feet of stranded 20-22 gauge wire (the shielded RG-174 U is recommended but unshielded works okay.
 - * About 2 inches of # 18 solid wire.
 - * Razor blade or X-acto knife.
 - * Drill and 1/4-inch bit.
 - * Soldering iron, solder, wire cutters/stripper, Phillips head screw driver.

Procedure

1. Remove batteries and/or unplug 6500.
2. Pull knobs straight off front of the radio. The tuning knob is easy; the others may require wrapping a length of wire (e.g. AC line cord) to provide a better grip. Pry off with a screw driver only as a last resort.
3. Remove the five screws from the back of the cabinet.
4. Carefully lift the back away (there may be some glue offering resistance) and note attached whip antenna wire (blue).
5. Desolder whip antenna wire from circuit board (note location for resoldering).
6. Carefully turn radio over and gently lift off the front panel (glue again could be present).
7. Release the three claws holding in the speaker and remove speaker from mounting hold. (You can desolder the speaker wires if you want, but it isn't necessary if you are careful with the speaker throughout the modification.)

You are now looking down into the chassis of the radio and should see the conductor side of the main circuit board.

8. Look to the upper left of the speaker mounting hole (about the "10 o'clock" position) and find on the circuit board a (printed, vertically bisected) rectangle with a "T3" in the right-hand half. (see Figure 1).
9. Note that there is conductor material running diagonally across the mid-section of the rectangle (connecting points labelled "A" and "E" in Figures 1 and 2).
10. With your razor blade or X-acto knife, cut this conductor at two points (see Figure 2) and carefully scrape away the conductor between the two cut points, thereby creating two "floating" points.

FIGURE 1

FIGURE 2

11. Now carefully solder one end of a 6-8" length of stranded wire to "floating" point "A" and another 6-8" length to "floating" point "B". If you are using shielded wire, you can ground the shields by scarping away the coating on a point on the grounded portion of the PC board (shaded area) and soldering.
12. Now take the ceramic filter you've chosen and solder a short length of bare, solid wire to the filter's ground poles (i.e., a single length of wire gangs (connects) the poles.) On the muRata, the two ground terminals are on the same (lengthwise) side of the filter ("3" and "4" in Figure 3) as the tab ("5") on the shielded case. On the Vernitron, the two grounds are on the lengthwise side opposite the corner of the filter with a notch. (see Figure 3). Allow about a 1/2-1" "tail" of the bare wire to extend from one of the ground poles of the filter so that it can be soldered to a ground point on the circuit board or shield.

13. Now solder a 6-8" length of wire to pole #1 (input) on the filter and another similar length of wire to pole #2 of the filter. The filter is now ready for mounting.

14. I mounted the muRata by laying it on its side on the shield covering the PC board (visible in Figure 1) and spot soldering the tab of the filter to the shield, and the "tail" wire (connecting the ground poles) to a ground point on the board. This was sufficiently sturdy that adhesive wasn't necessary. It might, however, be necessary to glue the Vernitron to the shield because of its plastic casing.

1 = INPUT
 2 = OUTPUT
 3 = GROUND
 4 = GROUND
 5 = GROUND TAB

FIGURE 3 (UNDERSIDE)

15. After you've mounted the filter, there should be four loose wires in the speaker mounting hole (two from the filter, and one each from points "A" and "B". Gather these wires and thread them through the slot in the speaker housing cylinder so that they protrude into the general area of the volume, tone, and band selection controls.
16. Now take the front half of the cabinet and drill a 1/4" hole about 7/8" from the center of the "TONE" control hole and toward the "1 o'clock" position. This will locate the DPDT selectivity switch in the vacant area bordered by the speaker grill, band selector switch, and tone control.
17. Lay the front of the cabinet on top of the chassis to get an idea of how long the four wire leads should be to attach to the DPDT switch. Remove cabinet and trim wires to correct length.
18. Solder the wires to the terminals as shown in Figure 4 (which is an underside view of the DPDT switch). Attach the jumper as illustrated and, if you are using shielded wire, solder the shields together.

19. Replace speaker.
20. Replace cabinet front and mount DPDT switch. (You might attach a length of scrap wire to the switch, thread it through the hole, and pull the switch through.)
21. Resolder whip antenna wire.
22. Secure back, (be careful of power tab on top of the cabinet.) and replace knobs.

FIGURE 4

Now apply power and switch back and forth between wide and narrow positions and you should hear a "darkening" of audio in the narrow mode. To appreciate the improvement provided by the narrow filter, tune to a strong station with the selectivity switch in the narrow mode and continue to tune away from the station until the audio just loses intelligibility. Now switch in the wide filter.....clear as a bell audio. Note the respective frequencies; the narrow filter should be 2-3 kHz narrower per sideband (depending on filter type, strength of signal, etc.)

About the only potential trouble spot with this modification is the mounting of the switch. If the radio is dead in one or both selectivity positions, the switch might be touching the tone control pot and grounding out. If so, loosen switch and rotate until clear. Although I don't find the insertion loss of the narrow filter unduly high (listed at 8 dB), some DX'ers might want to add a single stage of amplification to boost the signal.

After completing the modification, I'm sure you'll find DX'ing a much more enjoyable (and profitable) pastime.

-----Many thanks to Gerry Thomas for providing this modification for us. The Sony 6500W has been listed by 47th St. Photo in N.Y.C. for around \$ 105. With Gerry's modification, this makes the 6500W the best buy in digital portables.

The Electra-Bearcat DX-1000 is another new receiver that will be available soon. Two prototypes were on display at the ANARC Convention in Arlington, VA in July. Initial comments on this new receiver have been enthusiastic. A spec sheet has been received from the manufacturer which mentions

the following: Frequency Range-10 kHz to 30 MHz., receives AM, SSB (selectable USB/LSB), CW, and FM. Sensitivity is 1 uV on AM, 0.5 uV on CW/SSB/FM at 10 dB S/N. Selectivity is 12 kHz at -6 dB, 24 kHz at -50 dB; 6 kHz at -6 dB, 12 kHz at -50 dB; and 2.7 kHz at -6 dB, 4.5 kHz at -50 dB. Frequency stability is less than 100 Hz per hour after 1/2 hour warmup. Image rejection is 70 dB or more, IF rejection is also 70 dB or more. (so they say) Direct Access tuning-via keyboard entry eliminates bandswitching, with fine-tuning providing plus or minus 2 kHz. The tuning knob covers 24 kHz per revolution in 1 kHz steps, or 3 kHz per revolution in 100 Hz steps. AGC has "fast" and "slow" positions (but no OFF). The digital display provides a two-zone 24-hour clock. (for GMT and Local time). 10-channel memory. It also has a tape output jack, external speaker jack, SO-239 coax connector for 50 ohm lines, and screw terminals for high-Z antennas. A built-in timer can be programmed to provide "On" and "Off" up to five different times on five different frequencies.

Dimensions: 14 1/2" W X 5" H X 9 3/8" D, and it weighs 17 lbs. Telescoping antenna and external AC adapter are included.

Right on the heels of their new DX-1000 receiver, Electra is offering a free booklet designed to introduce shortwave listening to the newcomer, and provide a handy reference for the established listener. There are sections on antennas, propagation, reception reports, time conversion, plus an hour by hour listing of English language broadcasts audible in North America. A free copy of "Dial in the World as Easy as Dialing a Phone" can be obtained by writing to Electra Shortwave Booklet, 300 East County Line Road, Cumberland, Indiana 46229.

Many thanks for the letters of encouragement received here, and special thanks to brother John for the extra page this month-- we really needed it. 73-*Jim*

More on the great 60 meter band fire...

by Robert Rankin, 920 Rockledge, Lawrence, Kansas 66044

As 1971 was a hiatus year in my shortwave listening due to the demands of schooling, I was blissfully unaware, until the August 1983 FRENEX appeared, of the Great 60 m. Band Fire. By the time I returned to the hobby in the late '70's much reconstruction had already taken place and the scars left by the fire were scarcely audible. Shaw's excellent, first-hand reporting of the event, however, has helped explain a number of frequency allocations that, as a utilities monitor as well as a SWBC DXer, I have often wondered about.

For example, the frequencies 5904 and 4621.5 kHz. are U.S. Department of Agriculture allocations. Yet I have never heard anything on these channels and have frequently puzzled over their possible function. Thanks to FRENEX, I now know. These are fire breaks! The U.S.D.A. Forest Service has thoughtfully plowed fire breaks above and below 60 meters in order to protect the 49 and 75 meter bands respectively! I don't know why I didn't see this earlier. Further checking in ute frequency listings reveals that some, but not all, of our other bands are similarly protected. (On VHF and UHF fire breaks are not required since flames do not propagate well above the m.u.f.) Let us examine some of the other precautions mounted since the disaster of '71.

Since the fire, 60 m. has merited special treatment. Near the band's edges the Department of Commerce (operators of the National Weather Service) is allocated 4750 and 5100 kHz. in order to keep track of wind velocity and direction on the band--and you know how windy some of those 60 m. outlets can be, especially at night--while 5060 kHz. belongs to the National Science Foundation. To this agency is entrusted the task of producing a Study of the reaction times of government agencies in case of another conflagration. The U.S. Army Corps of Engineers now maintains a very active SSB net on 5015 kHz. and stands ready to divert massive quantities of water from our dammed lakes and rivers directly into the spectrum at a moment's notice. The International Boundary Water Commission (IBWC) up on 5326 kHz. is prepared to perform a similar function for our neighbors to the south.

Rarer stations are even given special protection. I note with satisfaction that the USAF is assigned 3290 kHz. in order to back up the RAF in escorting little Tristan da Cunha Radio if danger threatens. Yes, our bands are well protected now. But it is too late for those who moved too slowly in 1971! An ounce of prevention is worth a pound of cure, so please, please heed Smokey the Bear and be extra careful with those impedance matches when on DXpeditions. Think of the towering infernos that could develop in a crowded slum like the 31 meter band. Think of HCl, Radio Nederland and WRNO reduced to the stumps of blackened masts, their DX programs damaged beyond recovery by smoke and water. Not a pretty sight, is it? With just a little care all this can be avoided. The spectrum is one of our greatest natural resources. Let us all work to maintain it in its un sullied natural beauty.

Where's Bill? I just enjoyed a phone chat with our "Vintage Vignettes" editor, Bill Taylor, who regrets having to take a hiatus from the column. It seems Bill is really swamped with various projects, especially his book on vintage equipment. He did want to thank everyone who supported him with the column and, yes, he'll be back.

Here's Bill Taylor at work

I just flipped through the new White's Radio Log, thanks to the bro', and it's another good reference for the shack. Of course, the NASWA membership had a large part of supplying the info for this, judging by the credits. And Don Jensen has a fascinating preface on the history of the publication. If you missed last month's announcement, just write: Worldwide Publications, Inc., P.O. Box 5206, North Branch, NJ 08876. Cost is \$4.95, plus \$1 for postage and

INDONESIAN UPDATE...Geoff Cosier would like to clarify an item in his Indonesian article in the August SWC. Rayuan Pulau Kelapa (Song of the Coconut Islands) is the song played before the Jakarta news relays. It is not called Love Ambon. This is a completely different song! Love Ambon is the kroncong (Hawaiian guitar melody) played at sign-off by many RRI stations. Thanks, Geoff, for spelling that out.

Charlie is taking the month off. In his place we have a rather amusing story from Adrian Peterson, of AWR-India (and host of "Radio Monitors International" over SLBC) who went in search of the elusive CL....

Just recently, and quite by chance, a copy of a recent issue of *Frendx* came floating onto the DX desk of "radio Monitors International," here in Poona, India. This office is located on the second floor of AWR-Asia, and from our large picture window, we can get an excellent view of the monsoon lashing the palm trees.

When I read this August issue of *Frendx*, I discovered with horror that Charlie Loudenboomer is back and that he gives his QTH as somewhere south of Lhasa, in Tibet. Now, I have been in Tibet on two previous occasions and so I decided that, on my next visit, I would try to track him down. Well, it so happened that I was planning a 3 week itinerary in the Himalayan areas, beginning on the western side and proceeding east, and Tibet would be my last call.

Among the items of technical equipment for this DX expedition were a portable version of the Collins 51J, a mini-version of the original pre-war Grundig wire recorder, and a 120 volt 50 cycle inverter fired by 2 penlite cells as a power supply.

The first port of call on the edge of the high Himalayas was at Muzaffarabad in Azad Kashmir, where the station director showed me the two AKR transmitters, 10 kW on MW and 1 kW on SW. I asked him, "Have you heard anything of Charlie Loudenboomer?" He stated that he had never even heard the name.

Across the international line is Srinagar, the capital city of Kashmir. On the edge of this verdant, productive vale, which is the subject of fable, song, and folk dance, is the SW and MW installation operated by All India Radio. I pointed to the snow-capped Himalayas and asked the chief engineer, "do you know the whereabouts of Charlie Loudenboomer?" "No," he stated, "I have never heard of him."

Some ten days later in the itinerary, while I was over near the Burma border, I did a spot of on-air checking, using the excellent DX equipment afore-mentioned. I discovered that the schedule of "The Voice of Kawthulei," on the Burma/Thai border is exactly as observed by Victor Goonetilleke, in Colombo.

I recorded the sign on routine on the wire-recorder for later use in "Radio Monitors International," but when I got home, I found that the signal was spirally wound around the wire, and therefore, quite useless. Unfortunately however, I was unable to raise the Burmese Army Regional Station in Taunggyi. Either this 1 kW SW transmitter is still off the air or the radiation lobe favors Ceylon and not the Himalayan areas.

Finally, it came time for the entrance to Tibet, via Nepal. While I was in Kathmandu, I asked Mohini Shepherd if she knew the whereabouts of Charlie Loudenboomer. She said that both she and the Chief Engineer of Radio Nepal had heard that he was indeed up in Tibet, somewhere in the border area, but no one seemed to know exactly where.

At the border crossing, I walked over the wooden planks on the red steel bridge, and I asked the two Chinese guards, "Where is Charlie Loudenboomer?" In impeccable English, and with the utmost courtesy, they replied that they had never heard of him.

Somewhat forlornly, I began my return journey by jeep down the narrow winding mountain highway. All this way, without locating Charlie Loudenboomer. As the driver was winding his way down the mountainside, I happened to look up and across the border into Tibet; and lo and behold, up there on the mountain slope was an ice cave, with a bevy of antenna leads. This must be the place. I debarked from the jeep, crossed the narrow swing bridge over the ravine separating the two countries, and hurried up the pathway to the cave. As I neared this unique DX den, carved out of the solid eternal ice, I heard the sign on routine of VOA Philippines in English. "Ha" I thought, "Old Charlie is getting homesick." Only an open doorway to the ice cave, so I peered in, unobserved. No, it wasn't Charlie Loudenboomer, it was just a huge ape-like animal, all covered in cold fur. It was only a yeti, the abominable snowman.

ENGLISH LANGUAGE BROADCASTS TO NORTH AMERICA

by F. William Cole, 107 Charles St., N. Cape May, NJ 08204

A computer program in the BASIC Language of the "COMMODORE VIC-20".

This program was designed to process the data gathered by Roger Legge in the June 1983 issue of FRENEX. It is adaptable to other SWL-DX purposes.

This program may be reproduced and used by others provided due credit is given the author.

Due to typewriter margins not holding, there are several lines that will not duplicate exactly when on the screen. Most, however, will.

The COMMODORE VIC-20 has about 3.5K of usable memory. The text of this program is almost 2K. It will pay to have expanded memory so there will be room for data files. To save room when entering the program, it is not necessary to include lines 10 through 140 as they are only for documentation. The Data Files contain 4 items in this order: time on the air, time off the air, frequency, station. The Data File end statement must be used exactly as given in the sample.

When the program is loaded and the Run command given; the title-menu screen appears. The user is asked to select from 4 functions and hit key A,B,C,D to indicate choice. One of 3 entry screens appears: time, frequency, or station. The fourth ends the program. The entry screens ask for input: GMT Time (up to 4 digits, no colon), FREQUENCY (up to 5 digits no decimal), STATION NAME. Input causes the Data Files to be searched in the following way. If time entered falls within the time on until off, the station will be listed. (The Vic-20 has a peculiar habit of omitting zeros before whole numbers. If 0400 is entered, 400 is printed, 0030 then 30 printed and 0000 then 0 is printed.) If the frequency falls within plus or minus 3KHz of a frequency in the Data File, the station is listed. (This allows for minor frequency variations sometimes found, an idea supplied by Ed Shaw.) If the name entered matches a name in the file, it is listed. When a listing is found, the first line printed gives time on and off the air. The second prints frequency and station name. The computer also asks if the search should continue. If yes, the Data Files are searched for other stations. If no, the menu screen appears. If no station is found, "NOT FOUND" is printed and the user referred to the Menu screen.

As stated, this program was designed to process the data gathered by Roger Legge, ENGLISH LANGUAGE BROADCASTS TO NORTH AMERICA, in the June 1983 FRENEX. There is no reason why it will not process data from LISTENERS NOTEBOOK, UPDATE, or LOG REPORT. Just maintain the Data File format.

This program should also load into other Commodore Computers; 64, PET etc. It will require some modification for the BASIC Languages of other computers. For those who may wish to translate to other BASIC Languages: PRINT is a command to clear the screen. The GET A \$ statement instructs the computer to accept the input of any key on the keyboard. Beyond these hints I cannot be of further help to those with other computers.

I have been working with this program for about 3 weeks. I believe that most of the "bugs" are out of it, but know that it can be improved. I would appreciate user comments or suggestions.

REMARK Don't confuse 0 Zero with 0 "O". Watch punctuation.

Good DX and Happy Computing
 Bill Cole

An interesting month...but then there's the next one: we'll dig deeper into Indonesia, with a "best bets" selection, plus John Meyer has compiled a QSL survey from Indonesia based on material here in FRENEX. Also, Marlin Field updates his ever-popular "Christian Radio Voices", John Campbell looks into computer applications in DXing, Jerry "DX is Always Lurking" Berg (sorry, Jerry!) offers a guide to verifying the Chinese regional stations, and more...so look for us, OK? Until then, 73-

Heck

PROPER CREDIT

Other publications and broadcasters may use material from LN provided due credit is rendered to the original reporter and the NASWA Listeners Notebook. This courtesy does not extend to closed organizations which do not allow reciprocal access to their publication. BBC Monitoring Service items (designated WBI for World Broadcasting Information) are copyright and may not be reproduced without BBCMS permission. The most important items have been broadcast immediately on RCI SWL DIGEST or WRNO WORLD OF RADIO, not otherwise mentioned herein. All contributions to LN are gratefully received, but your editor cannot promise a personal reply because of severe time constraints. Material for LN should be marked as such each time (not just on the envelope), as input for other outlets also comes to Box 6287. Reports to gh should not be cut into little strips. It also helps if you use one side of paper only, and do not mix LN items with other correspondence. All times, dates and days are day/month GMT, u.o.s. Please do not ask me for advice on receivers or other equipment. Thanks (gh)

AFGHANISTAN R Afgh reported that its bcs, which until 27/4'd amounted to 29h per day'd been increased as from 23/8 to 33:30. GDR helped eqp studios. Now Pashto 0200-0300 & Baluchi 0300-0330 on 17820 15255 6230 4450 (another R Afgh report on same subject replaced the first two fqs, possibly erroneously, by 7220 & 5255). S&SEAs svc also incr in FR & EG 0930-1030 on 21460 15255 6230 4450; and FR to WEu/NAf on 15077 & 7200 (no time given, and none of this confirmed yet) (WBI 25/8) 0930-1030 is an hour in EG, no FR; FR is new lang at 1930-2000 on 15077 7200 (WBI 1/9)

ALASKA KNLS [if you can't remember whether it's this or KINS, a problem various editors suffer, think of the slogan "New Life Station"] QSL letter says on half power of 50 kW due to xmtr problems (Bryan Clark, NZ DX Times Aug-Sept) Using linguists and cultural experts, WCBC intends developing and airing pgming in various langs, and featuring nx, mx, sports, info to supplement religious content, to attract and hold the largest possible listening audience. WCBC's future plans are for 2 more strategically located stns--the first to be in SE USA, or Caribbean; 2nd in Indian Ocean area (ibid.) 15/8 at 1156 closing 11820 and move to 9525 instead of 9690 for Chinese 1200-1330 (Bryan Hillier, WA, ADXN) Presumably used 9525 only for remainder of J83--see Sept LN for current sked (gh) Eventually, some pgming will be in EG for Japan & Phil, using antenna slewed to 2700 (ADXN)

ANGOLA R Nacional drifted to 5028 ex-4820, alternatively on 5331. ER do Zaire, Mbango Congo, 0500-1300 & 1700-2000 on 4855. ER do Uige 0400-2300 4848. ER do Lobito 0400-2300 7172. ER da Cabinda 0500-2300 4970, but not obs recently. ER do Moxico irr. on 5192. ER de Namibe back on SW, now 0500-2300 on 5014 (Richard Ginbey, RSA, Sept WRTH Newsletter = NL)

ARGENTINA Telam nx agcy quoted Public Info Secretariat 31/8 that Rdif Buenos Aires S.A. had been granted the right to run LR4-R Splendid for a sesquidecade, as part of the privatization plan (WBI 8/9) The stns LRI Radio El Mundo (15290 11755 9710 6120 on SW), and LR4 Radio Splendid (11880 9740 9985) from 1/9 finished xmsns on SW because of transfer from governmental interveners to new private owners. Fqs previously used by these two stns will probably be used by other govt stns. SW fqs here are used only by govt stns (Gabriel Ivan Barrera)

AUSTRALIA R CBN, Sydney weak on 13995 at 1704 w/test in USB for Nam 14/8 (Andrew Turnbull, NSW, ADXN) So we know they were on. I couldn't hear them and have received no reports of any one else doing so (gh) Plans to re-establish the R Australia, Darwin xmtrs have been deferred as the Natl Bcing Svcs Planning Committee, Sydney, did not make a definite decision to seek the required allocation of \$2 million; despite pressure from ABC Chairman Kenneth Myer, at a meeting in August (Melbourne Age, via Sept ADXN)

BANGLADESH 27/8, R Bang quoted Info Minister that two 250 kW SW xmtrs at Kabirpur nr Dhaka 'd be put into service for worldwide bcing by Oct. 10 to 100 kW xmtrs being installed, or already, in Comilla, Thakurgaon, Dinajpur, Rangpur and Bogra (WBI 8/9) New 250 kW xmtrs registered as follows with IFRB for S83: 9510 0930-2400, 9575 1830-1730, 9610 1200-1230 & 1300-1330, 11720 1315-1345, 11790 0300-0430 & 1500-1530, 11820 1000-1030, 11865 1200-1230, 11875 1600-1630, 11965 1830-1900, 15150 1000-1030 & 1200-1230, 15280 1230-1300, 15285 1645-1915, 15300 1300-1330, 15400 1030-1100, 15430 0300-0900, 17755 1400-1500 & 1600-1630, 17775 1500-1530 & 1645-1815, 17800 1230-1300 & 1700-1915, 17890 0445-0515 & 0930-1030, 21550 1615-1815, 21670

0900-0930 & 1000-1030 & 1500-1530, 21685 1030-1130. Obviously not all of these will be used; however, it seems likely fqs for regular ES pgms will be selected from above (NL)

BELGIUM BRT has suspended regular pgming and may be off the air due to work sanctions. In fact, it appears that the whole country is on strike (Jim Conrad, LA, 18/9) EG sked effective 25/9-5/11: 1400-1445 Mon-Fri FE 21815, NAM 17610. 1910-1930 Sun & 1915-2000 Mon-Sat Af on 15590, Eu 5895 1512. 2200-2245 Af 11975, Eu 5895 1512. 0030-0115 NAM 9880 Sam 11620 (BRT) BRT plans to intro a new 100 kW xmttr in March 1983 (Brussels Calling via Brian Webb, ADKN)
R Atlantique 2000 on 7340 sent sked & QSL in 46 days for 1 IRC and C-10 tape; addr is Box 41, Dedemsvaart 7700, Holland (Novarino, Play-DX, Italy) Previously had French connexion, but PDX has it under BELGIUM heading so presumed xmttr site (gh)

Bolivia - The following list is based on extensive monitoring up to (and including) Sunday, August 21, 1983. Where nominal schedules are not known, or when they differ from those announced over the air, appropriate comments are included in order to make clear the point. In a few cases, sign-off times may vary considerably; this is mainly due to the fact that the final programme consists of musical requests and dedications, the number of which vary from day to day. In addition, sign-on times are often delayed, due to electricity supply problems. Some stations have reduced their schedules from those of earlier years owing to the economic recession which is common to all S. American countries at the present time.

Abbreviations: H-Harmonic; v-variable; n-nominal. Times in UT. All days local.

4090v R. Comarapa, Comarapa (Santa Cruz) 3958n, irregular, or moving around; heard occasionally around 0100.
4420 K. Reyes, Reyes (Beni) 1130-? 2300-0330 (Sun: -0200)
4473 K. Moviza, Santa Ana de Yacuma (Beni) 4835n, 1100-1900v 2200-0300v
4530H K. Mfr. Puerto Suárez, Puerto Suárez (Santa Cruz) x1512 (1511a) 1100-1800 (not Sun.)
4585 R. Litoral, Cochabamba (Cochabamba) very irregular, around 1030 and 0000,
possibly a transmitter fault, as announces 3025 (where it is not heard)
4640 K. 23 de Marzo, Tupiza (Potosí) not heard, and would seem to be inactive.
4697 R. Riberalta, Riberalta (Beni) 1100-0400v; 4770n
4710 Unid., observed two days only, during late July, with irregular transmissions;
possibly K. La Voz de la Frontera (4708n)
4720 R. Abaroa, Riberalta (Beni) 11000-0400v, though often fades in between 1030 and 1100;
sign-off varies 0400/0430, or even later. 4760n. Gives time checks in UTC, local time.
4730v K. Mamoré, Guaymaserin (Beni) 1230-? 2-0300 (Sun: 0100v) 4730n, varies 4730-40.
4756 R. Es. Bolivia, Oruro (Oruro) 0900 (Sun: 1000)-1800, 2200v-0400
sometimes fades-in around 1230; believed to be on continuous schedule on HW, 0900-
0400. 4760 KHz nominal.
4775 K. Los Andes, Tarija (Tarija) *1100, irregular.
4775 K. Trópico, Trinidad (Beni) *1100, irregular.
4785 K. Ballivián, San Borja (Beni) 1200-1800
4797 R. Nueva América, La Paz (La Paz) 1000-0400; Sunday schedule somewhat irregular; 4798n.
4804 K. Santa Ana, Santa Ana de Yacuma (Beni) 1100-1800, 2115-0100v; evening broadcasts
are being extended at present until 0200, weekdays, to include 'radio-teatro';
Saturday and Sunday programming ends at 0100. Nominal frequency: 4805 KHz.
4807 K. Frontera, Yacubta (Tarija) presumed the station heard with weak signal
between 1000 and 1700. Actual frequency is approximately 4805.6, the same as used
in the past by K. Frontera (4805n).
4816 K. Nacional, La Paz (La Paz) *0900 (all days); further reception impossible; 4818n.
4825v R. Grigotá, Santa Cruz de la Sierrita (Santa Cruz) 1000-0300 (Sun: 1100-0000v);
frequency varies 4825-6
4845 K. Fides, La Paz (La Paz) 1000-1730, 2230-0200 (Sun: 1230-1730, 2230-0200) 4845
4856 R. Cobijs, Cobijs (Pando) tent 1100 to past 1630, tent 2200-0300; co-channel
interference makes it difficult to confirm exact schedule.
4860/4870 K. Paititi, Guaymaserin (Beni) - not heard on either of these former frequencies,
possibly moved or inactive.
4876 K. La Cruz del Sur, La Paz (La Paz) 0930-1240 (Mon-Sat), 2200-0100 (Mon-Fri),
0930-1400 (Sun); 4878n.

- 4880 R. Sararenda, Camiri (Santa Cruz) 1400-2200 (Sun:1200-1400/2200) 4885n.
 4937 R. Norte, Montoro (Santa Cruz) 1100-1230, 1600-1800, 2200-0300 (Sun:1200-0200).
 Finally got its act together and stabilized on 4937 on Aug. 4 (ex-4925 KHz); 4935n.
 4945 E. Illimani, La Paz (La Paz) 0900-0400.
 4965 A. Juan XXIII, San Ignacio de Velasco (Santa Cruz) 1000-1330, 2000-0030 (1330* and
 *2000 may be seasonal); Sun:1100-0030v (v-1800/2200, seasonal)
 4980 A. Batallón Topáter, Oruro (Oruro) 1000 (Sun:1100)-1330; later reception not
 possible, as the station operating on reduced power; previously 0500* (Sat. 0400;
 Sun:0000v)
 4990 A. Beni, Magdalena (Beni) not known if active, difficult to check.
 4991 A. Antima, Chocaya (Potosí) 1030-1600, 2100-0400; Sunday schedule 1200-1800
 up to Aug. 14, but extended on Aug. 21, to 2215. This a seasonal change, for fútbol.
 Used old sign-off tape, announcing *1000; also announces 4955 KHz nominal.
 5005 K. Cristal, La Paz (La Paz) currently inactive, though returned briefly on the
 morning of Aug. 4, when heard with usual programming at 1145. Gone by 1500, though.
 5020 K. Dos de Febrero, Kurenabasku (Beni) not known if active.
 5030 K. Cuarto Centenario, Tupiza (Potosí) 1300-1730v (v-1930, especially Sets.),
 2130-0100; Sun:1200-1900v (v-2030); no evening broadcast.
 5045 K. Altiplano, La Paz (La Paz) inactive
 5070v K. Ichilo, Villa Busch (Santa Cruz) 1030-0200 (Sat, Sun:0100v) (v-0100);
 varies 5076-7, nominal freq: 5070.
 5012 K. Koberá, Koberá (Santa Cruz) inactive.
 5450 K. Machupo, San Ramón (Beni) not heard, possibly inactive.
 5581v R. San José, San José de Chiquitos (Santa Cruz) 1115-1630, 2100-0200v (v-0300);
 Sun: 1115-1600 (also 2100-0100 irregular, for sports commentaries); varies 5581-2,
 and announces 5585 KHz.
 5860 R. Corocoro ("La Voz del Corure"), Corocoro (La Paz) full schedule not known,
 but heard at various times, e.g. 1030, 0030, 0200* (weekend) and 1230, 2130 (Sund.)
 5870 KHz nominal.
 5935v K. Gentiñela, Tupiza (Potosí) reactivated, first heard Aug. 13, *1330-2200*;
 Sunday schedule variable. Reception after 2200 impossible, weekday w/on
 sometimes as late as 1400. Still has transmitter problems, with the frequency
 drifting between 5945 and 5932 KHz. Nominal frequency not known, announces "46metros".
 5954 K. Pio Doce, Siglo Veinte (Potosí) currently fading-in circa 1000, so not sure
 if w/on changed from former *0900; schedule now 1000-1305v, 1900-2100*, occasionally
 continuous (e.g. Aug. 17); Sun:1100-2100*, though sometimes gone by 1800. 5955n.
 5965 K. Nacional, Huamán (Potosí) *1000 (Sun:*1100); further monitoring impossible.
 5974 R. Nacional, Cochabamba (Cochabamba) currently fading-in around 1005 (though
 occasionally as early as 0945) with programs in quechua; previously *0900;
 also past former 1600. Current schedule: 1000v-1800v (Sun:1100v-2200v). 5975n.
 5985 K. Loyola, Sucre (Chuquisaca) 1000-2100*; reception not possible after that time.
 6005 K. Progreso, La Paz (La Paz) seemingly inactive.
 6025 K. Illimani, La Paz (La Paz) 0900-0400.
 6060 K. El Cóndor, Oruro (Oruro) irregular at best, and currently inactive. 6070n.
 6082 R. 21 de Diciembre, Catavi (Potosí) 1000-1800 (Sun:1200-1800v), 6055n.
 6100 K. Panamericana, La Paz (La Paz) 1030-0030, 0130v-0400; Sat:1030-0000; Sun:1100-2200
 6105 KHz nominal.
 6137 K. Santa Cruz, Santa Cruz de la Sierra (Santa Cruz) heard with weak signal at
 1430 on August 6, also a weak carrier can be traced at the same time on some
 other days; if active, is operating with extremely low power. 6135n.
 6140 K. Luis de Fuentes, Tarija (Tarija) 1300-2100 (Sun:1300-1600v), 6140n.
 6150 R. Fides, La Paz (La Paz) 1000-1730, 2230-0300 (Sun:1230-1730, 2230-0230). See 4845.
 6175 R. Indomérica, Potosí (Potosí) active, but schedule not known.
 6195 K. Stentor, La Paz (La Paz) 1100-2000v (v-2200), also 2200v-0400 irregular.
 6673 K. Pedro Domingo Murillo, Quime (La Paz) - Aug. 10, one day only - from 1915 tune-in
 until 2035 w/off. Announced next transmission for following day, but no time given,
 nor was a frequency announced, merely that "nuestra estación operó en onda media".
 Presumably a harmonic, though does not correspond to listed 1490 KHz fundamental.
 7000 Unid., heard for several months, but off the air since July 29. Thought to be
 located near or in the city of Santa Cruz de la Sierra.
 7710 K. La Plata, Sucre (Chuquisaca) 1400v-1800. 9715n. (Tony Jones, Asunción, Paraguay)

5910 is a new stn's fq, R El Espectador, La Voz de Betanzos, in Potosí, per the stn; not hrd.

I will try this at 0300, as when I t/in it was roughly 40 mins after their sunrise; SINPO 31332- (Maxfield Greenwood, Sedgwick ME) On 4780

DOMINICAN REPUBLIC R Clarín, 11700, noted 0202 30/8 reading open letter of protest to Dom president Blanco re govt ordered cancellation of LV del CID pgming. Protest was cut off in mid sentence (accidentally??) followed by EG ID, then R Earth (SWNS)

R Clarín reported 19/8 that stn'd been ordered by Genl Directorate of Telecomms (DGT) to stop being pgms of CID Publications Inc., "and of any otherpgms which may be aimed at criticizing any other country or forn govt". Order contained in an offl comm, No. 5131, signed by the DGT, who added it'd watch closely for compliance w/order. Also ordered Clarín not to use unauthorized fqs. Per R Clarín, this was an unusual request since they'd never violated any standing reg on telecomms. In a letter to the DGT, VP of RC said stn'd suspend being CID pgms, as requested, but that the order amounted to an infringement of the Rep's constitution. Monitoring 10-19/8 indicated that Clarín's 11700 xmtr was not operating. But on 23/8, R Earth said stn'd been inop due to lightning strikes on Clarín xmtr, and that Dom Assn of R BCers'd formally protested over the suspension of V of CID pgms sponsored by Cuban exiles, claiming that govt decision wasn't right one and that any claim against the pgms should be taken to court. Then R Clarín xmtr s/off 0312* w/Dom NA (WBI 25/8) Newspaper Listín Diario reported 23/8 that the Secy Genl of CID'd asked the pres of DR to revoke govt decision banning being by R Clarín of his pgm. Req contained in press release from Miami by CID's Intl Rels Secretariat (WBI 1/9) Listín Diario reported that DAB (ADORA)'d asked Dom pres 23/8 to revoke decision. ADORA said it'd been 'very confused and surprised' by the DGT decision;

VP of Clarín said suspension 'clearly violated freedom of expression and dissemination of thought', a 'clumsy violation of Article 8, para 6 of the country's Constitution.' 25/8 Lis-tín Diario said DGT'd justified suspension as "serious violation of Dom laws". They intended 'exclusively to criticize the Cuban govt' and 'interfered w/Cuban being stns'. He added that R Clarín'd been being for CID Publication Corp "which is nothing more than a front for for-igners to conceal their political activities in the DR" on 11700 as well as on unassigned fqs of 7645 7355 5106 4900 [sic] (WBI 8/9) Clarín getting bum rap there as evidence points to those coming from other countries. While all this was going on, R Clarín resumed carrying virulently anti-communist pgms before 0200, but not calling it LV del CID--instead "Por los caminos de América", and yet the CID IS was hrd more than once. Quite a tightrope they must be walking. Dom govt knuckling under to Castro is also rather distasteful. R Earth missed it might change to 0100 but this has apparently been held up by the CID business. They are asking listeners to send in recipes, and in Sept "temporarily" moved HQ from Curaçao to Box 69, Miami. Has been repeating old pgms some nites, and for quite some time was running them a week late; xmsn often missing completely (gh) more, LMI; also see CRANNY & LMI-Cland unID on 6047, 1/9 0100-0147, fast paced SP pgm, F sig, bouncy Latin mx, slow ballads, 0145 nx (Mitch Sams, Wichita KS, OMDX DX Log) unID on 6046.4, 18/8 1008-1030, rapid nx, GMT-4, F (Chuck Bolland, FL) Is R Santiago, 6046v, 1041-1100+, Noti-tiempo mx, 1100 count, ID 3/9, clobbering Australia (Steve Reinstein, FL, DX S Florida) Ex-6120 to escape Brazil powerhouse

ECUADOR HCJB and it was having difficulty w/intl mail, up to 90% of incoming mail lost. Lis-teners asked to refrain from writing to stn for time being. Aerograms and PCs get thru, not letters (Don Rhodes & Tauno Isokangis, ADXN Sept) That's rather astounding, but I suppose mail theft isn't such a big deal there; how about via Opa Locka? (gh) more, LMI

EGYPT Cairo replaced 17920 by 17675 for SAs xmsns (NL) That'd incl EG 1215-1330 ; or had that been retimed... (gh) MENA nx agcy reported from Cairo 21/8 that Minister of State for Info'd stressed need to unify info organs in Egypt & Sudan. Addressing the Popular Organiza-tions Committee of the Nile Valley, he said a study was underway to set up the Nile Valley Broadcasting Stn that'd basically aim to bolster integration between the two peoples (WBI 25/8) FRANCE, LMI

GABON Libreville, 4777 returned to SW after a mysterious absence of a couple of weeks, noted at 2157 13/8 w/FR anmts (Craig Seager, NSW, ADXN)

GAMBIA Twice during first week of April when Reloj and the forever, it seems, present unID o pen carrier on 4827 were both off, and Mauritania was booming in as always and was in its nor mal place, that is 4845--during this time I taped on 4829.5 apx what I am sure is The Gambia, tho I am not sure it is the official The Gambia. Outside of one ID in FR, all other readable words were in EG. Sig very fragile as its tone faded in at 0645 and f/ut by 0715--perfect [timing] for an extreme west coast QTH. Most important, I have the IS. If someone has the Ga mbia IS, send to gh and I will send my tape, and see if we get a match (Maxfield Greenwood, ME)

Communiqué read out criticising the new govt. On 9/8, a day after the coup, bcs from two radio stns in Guat City'd also been interrupted by YOs. In a despatch from Panamá City 19/8, ACAN quoted sources in the four main Guat opposition groups - the Guat Labour Party, the Rebel Armed Forces, the Revly Organization of the People in Arms, and the Poor Peoples' Army - as saying the first rebel radio stn'd be on the air 'next' Sept (WBI 25/8)

GUINEA V of Révolution 15313v, 1750-1830+ 10/9: FR pgm 1750-1800 reminding me of RFI; 1800 LV de la Rév ID, t/out; at 1820 retune to EG, "The voice of the Revolution in the Republic of Guinea". Vy interesting nx items such as interest rates of two banks in Conakry and an upcom-ing mx fest in Guinea. Up to 15314 by 1830 and VOA s/on then on 15315 made futher reception

difficult. One ID taped was "This is Conakry, the Voice of ---" and the last word sounded like Righteousness or something, but not Rev. (Mitch Sams, Wichita KS, OMDC DX Log) more, LMI

GUINEA-BISSAU For those who have not logged this, and especially for west-coasters, unless matters change fast, G.B. has been putting in strongest signal ever, from *0600 to 0720 & beginning to weaken, on 5040. Signal on 10/9, 11/9, 12/9 range from S-9 to +10 db over S9, with free-style mx to 0629, then NA, ID, school lesson in counting, and in lang, then mx or a woman talking in lang, 0658 a breaker, then the G.B. IS and into nx in PT to 0715, more mx; Depending on ute, SINPO has been 43353+ to 44354-. This is a new event I think for the propagation has been G-VG, and do think they actually have their 100 kW xmtr working! Tho I rate it more like 20-50 kW output, but that could be because it doesn't direct to my QTH as well as Yaoundé or Douala, which readout at +20 to +30 over 9, often, in afternoon. There is no evidence of G.B. in afternoon. But for another comparison to G.B., 4890 Sénégal has been at +30 over 9 at same time as G.B. My S-meter has very good rating. I'm still breathing, barely--I have osteomyelitis of my facial bones. I am using a 440' random antenna w/ATU & SX-59, its handles and big gain antenna far better than '7000, and its audio is VG!! (Maxfield Greenwood Sedgwick ME)

ICELAND Utvarp Reykjavík DS is relayed to fishermen on 13797 USB 1830-2000 apx. Main fq is 209 kHz LW, Reykjavík, 100 kW (WBI 1/9) Increased from 50; puts readable signal daytime into N coast of Newfoundland, 2500+ km away, on portable ICF-2001 w/built-in ant (gh, L'Anse-aux-Médeuses & Twillingate, July)

INDIA Delhi, 9675, EG detailed wx 1138-1145* for later re=bc by regionals, only 7140 ancd, 27/8 (Páter Bunn, ADXN) AIR ES S83 in EG: 2245-0115 7215 9595 11765 15110 11875 15270. 2245-2400 9730. 0000-0115 17790. 1000-1100 15320 17387 17855 15170 17705 17875. 1330-1500 11810 15335. 1745-1830 9595 11620. 1800-1900 11830 15265. 1845-2230 9665 11620. 2000-2230 9912. 1945-2045 9755 11865. 2045-2230 9595 9912 11755. U S S R BC in Russian from regional studios of R Leningrad *0715 on 12020 w/IS, ID, pgm summary, nx; seems only on weekends, as other pgms hrd on the fq weekdays (Philip Harrison, Arma dale WA, RA JP DX Time 3/9) R Yerevan has been hrd in AM to SAM 2200-2300 on 15210. They also announce another fq for this, but untranslatable due to hvy QRM. From Oct, some fqs'll change and all xmns except this one'll be an hour later (Andy Jordan, NL)

U K O G B A N I R Clyde hrd 19/7 to 2158* on 3247, EG anmts, commercial mx pgm w/DJ Robert Alex; hvy QRM. Is this a UK pirate? (Mick Blockley, NSW, ADXN) Yes; vy interesting logging (Peter Bunn, ADXN, ed.)

Not unlike US TV, BBCWS is starting a new fall season of programming (The timing, I mean, otherwise there is no resemblance!) One new thing is a Phone-In pgm starting in Oct, Sundays at 1630-1730 w/a break for the news. This month's guests: 2nd, Bobby Charlton, on the team which won the World Cup in 1966; 9th, David Attenborough, presenter of TV series Life on Earth; 16th, Yehudi Menuhin, virtuoso violinist; 23rd, Robert Runcie, Archbishop of Canterbury; 30th, Margaret Thatcher, P.M. Here's how: 1) write ahead w/your question, phone number and location to: World Phone-In, BBC World Service, Bush House, Strand, London WC2B 4PH, or 2) ring in an hour before xmns or during it on London 580-4411 (if dialling direct prefix local intl code, then 44 1.) You may then be rung back to take part. As a result, Letter from America moves back to 1615. From 3/10, the 1800-1830 block is another Newsdesk (as at 0400, 0600) instead of News, News About Britain, Radio Newsreel. Listening Post has been succeeded by Monitor, with perhaps less bias in the items presented, Weds 1709, Thurs 0030 & 1015. Brain of Britain quiz series finally reaches championship by the end of Oct, Sats 0830, Suns 1830, Mons 1215, 2330. U S A At present, WYFR uses five 100 kW and two 50 kW xmtrs, with six log-periodic antennas. By end of 1984, three more 100s will be added, together w/six addl LP ants (WYFR via ADXN) WYFR SB3 fq sked: 5985 335° 2252-0300, 5985 285 0300-0715, 6065 315 0052-0800, 7355 44 0352-0800, 9535 355 2052-2252, 9680 44 0600-0800, 9715 285 2352-0452, 9705 285 0452-0800, 9815 44 0600-0800, 11740 222 0200-0500, 11830 355 1145-2052, 11855 142 2352-0152, 11855 222 0152-0600, 11925 44 2200-2252, 11960 44 0500-0600, 12030 44 0600-0800, 15215 160 2252-0600, 15130 142 2052-0200, 15365 315 1445-0052, 15440 44 1545-2252, 17805 160 2252-0352, 17845 44 1545-2252, 17875 142 2252-2352, 21465 44 1545-1752, 21510 44 1752-2052, 21525 87 1545-2352, 21615 44 1545-2200, Sunday addl xmns: 15385 160 1145-1545, 15440 222 1245-1545, 17730 142 1245-1545, 17785 160 1145-1545, 17875 285 1245-1545 (NL)

VOA on 15480 at 1945 9/9 in Eu lang (Chuck Oliver, Spring TX) Non OOB

Re China [Sept LN], time stations, UTC & UT1: WWV also bcs UT1 once each minute in encoded form. This is done w/ the double seconds ticks near the start of each min. This gives the fraction of a second lead or lag that UT1 has compared to UTC. UT1 is important because it is used in celestial navigation. UT1 is erroneously abbreviated UTI in the WRTH section on time stns. Mr Frost has assured me these typos will be corrected in the next edn. I hope he looks over the whole article as I only pointed it out in reference to CHU, but also see Nauen (Aint [or Clint?], "Anomalous in North Texas")

VANUATU I believe that R Vanuatu save up rpts and answer in a bunch, so don't worry if you have an overdue report to them (Geoff Cosier, Down Under DX Survey 12/9) Once in a while someone asks me where in the world this is. For anyone who has still not gotten the word, Vanuatu are the former New Hebrides (gh)

VATICAN Vatican R, 16/6 *1145 in FR on 21845, ex-21485 (D Houghton, UK, DSWCI) Why not simply a punch-up error? (gh) VR on 6252 at 0530 10/9, anmt in IT, SP, EG // 9625 (C Oliver, TX)

VENEZUELA, LMI

YEMEN NORTHWEST Form letter verie rxd in 56 days for 4853 at *0300; had fq, date, SINPO. Currently 9780 is clear most evenings at armchair levels (Richard A D'Angelo, Wyomissing PA; 11/9)

ZAMBIA Genl Svc from Lusaka, 3346, now reported as inactive by a DXer in Tanzania (AWR-Eu vi a Jonathan Gordon-Till, England, ADXN Sept) S83 official sked of R Zambia: Home Svc: 0500-1615 6060 20 kW, 0600-1530 7220 50 kW. Genl Svc: 0500-1700 6165 20 kW, 0600-1630 7250 120 kW. Extl Svc: 0530-0730 & 1050-1250 on 11880 50 kW 188°, 1530-2130 9505 50 kW 188°, 1730-1930 6060/6165 both 20 kW. Omnidirectional exc as indicated. Due to tech problems, following are sked but inactive now: 0530-0730 7235 50 kW, 0630-1400 9580 2.5 kW, 1050-1250 17895 50 kW. Thus it appears that one 50 kW and a low power 2.5 kW unit are inoperative (NL)

ZIMBABWE ZBC R2 once again on 3308, ex-3306. Has own late night pgm Fri/Sat 2020-2200 (Richard Ginbey, RSA, NL)

CLANDESTINE CRANNY Red Star Station? tentative on 10721, 30/8 1105-1110 fade, woman in orlang speech cadence, maybe Chinese numbers as Crawford previously reported; // 8399 not audible at all. Only morn I had even a trace of this (John Santosuosso, DX South Florida)

Radio Sparks broadcasts every hour and 15 & 30 mins after in the period 0900-1115 on one of: 7170, 7285, 7525. Each xmsn lasts about 10 min. S/on & off w/"The International". Other 'stns' which use these fqs are R Proletariat, or the V of the Liberation Army. These and the following stns are for China (Seiichiro Kiyota, Japan, Sept ADXN--which has just started a cland column, edited by Matthew Francis)

"Central People's Broadcasting Stn" is a phony, obviously trying to mislead listeners. At 1200 & 1400 on one of: 5020, 5200, 7200. Rebroadcasts tapes of the genuine CPBS and adds its own spurious comments (ibid.)

R October Storm, every hour and 15 & 30 after between 2100 & 2300 on one of: 7175, 9675, 9710. The location of the above three stns is believed to be a boat in the East China Sea. However,

Radio 8-1, a fourth stn, is believed to operate from Vladivostok, symbolising August first. Hrd every 27 & 57 mins during 1157-1527 on 12120 for 5 min xmsns. All these are irregular (Seiichiro Kiyota, Japan, Sept ADXN)

V of the Revolutionary Party for Reunification of Korea, 4120, strong in EG 1412-1429 14/8. Ancd being from Seoul but w/fqt ments of "the great Kim Il Sung" I presume this is in North Korea (Andrew Turnbull, NSW, ADXN)

R Tropical on 7295v, last hrd 13/3, EG pop mx, ID 0827 ("C.S.", Apr-May NZDXT) R Tropical, V of the Nuclear Free Pacific; also IDs at "7 Degrees North R.". Gives GMT+12 TCs and greeted listeners thruout Pacific. Location appears to be Majuro, Marshall Islands (Bryan Clark, Ibid)

R Truth "unofficial" gossip around the offices of the Johannesburg Ministry of Transport is: that R Truth is operated by the Ministry of Foreign Affairs & Information! 1730-1930 in Shona & Ndebele on 4902. Aim of pgms is to set the Matebele against the ruling Shona. EG pgms 0400-0430 or 0500-0600, times vary, on 6010. Hrd in Eu, but so far I've only been able to hear the 1730 on 4902 (Michael Robinson, Sept ADXN)

V of the Broad Masses of Eritrea, supporting Eritrea Popular Liberation Front, hrd during its 1430-1630 series of xmsns 5/9 on 14334, 9935, 7421, 6233, 3717, ancd as: 14.34, 9.95, 7.45, 6.25, 3.76 MHz (WBI 8/9)

V of Libyan People, 11988, *0530-0545+ 28/8, AR, unhrd here lately, strong open carrier at 0530, retune at 0537 to AR chants and hvy jamming; no ID (Mitch Sams, KS, OMDC DX Log)

V of Palestine, V of the Palestine Revolution 24/8, Tunisian radio quoted Jordanian nxpaper "ash-Sha'b" as saying that following recent meeting in Tunisia of the Executive Committee of the PLO, a committee'd been formed to supervise setting up a Pal being svc which'd commence its relays shortly (WBI 1/9)

Voice of Truth/Lebanon LMI

Our Radio - V of the Communist Party of Turkey (Turkish: "Bizim Radyo" - "Turkiye Komünist Partisinin Sesi") pgms mainly in Turkish w/occl items in Kurdish. During summer time all xmsns except those on 9500 & 5915 are one hour earlier than shown. These are thought to eman-

ate from Romania; remainder--11820 9585 6200--originate from xmtrs in GDR, BCs from Our Radio which supports the Com. Party of Turkey, first hrd 21/3/58. Xmsns titled "VOCPOT" first hrd 1/71, tho similar monthly xmsn aimed at Turkish workers in the Fedl Rep of Germany by the pro-communist "Freedom Stn 904" began in 1968. SW svc introduced 15/12/74. Twice weekly xmsn on MW from GDR thot to've been discontinued before 23/11/78. VOCPOT bcs on behalf of the Communist Party of Turkey. Skeds: 0200-0250 VOCPOT & 0300-0350 OR both on 11820. 0400-0450 VOCPOT 9585 exc Sun on 11820. 0500-0550 OR 9585, 0600-0630 OR 9500. 0600-0650 VOCPOT 9585, 0700-0750 OR 9585. 0800-0850 VOCPOT, 0900-0950 OR, 1000-1050 VOCPOT 9585. 1015-1045 OR 9500. 1100-1150 (this xmsn also one hour earlier summer) OR 9585. 1200-1245 Sun VOCPOT & 1300-1350 OR Sun both 9585. 1400-1450 VOCPOT 9585. 1445-1515 OR 9500. 1500-1550 OR 9585. 1600-1650 VOCPOT 9585. 1700-1750 OR 6200. 1740-1810 OR 5915. 1800-1850 VOCPOT, 1900-1950 OR, 2000-2050 VOCPOT all 6200. 2000-2030 & 2030-2100 OR 5915. 2100-2150 OR & 2200-2250 VOCPOT 6200 (WBI 1/9)

La Voz del CID via Ecos del Torbes, Venezuela, 4980, 9/9 0214 w/R Antonio Maceo pgm, SIO 3+43+ (Richard A D'Angelo, PA) unID anti-Castro stn on 7352 8/9 0220, nice mx w/short comment between; also 14/9 0215, G (Chuck Oliver, Spring TX) See also DOMINICAN REPUBLIC! more, LMI

LV de Alpha 66, 7038v, 25/8 0102 M&W w/usual anti-Castro tk, several IDs, no sign of my favorite ancr "Old Gravel Throat", hi (W J Parks, FL, DXSF). 7038,8, 27/8 0107-0114, VG at t/in w/M IDs, fairly mellow anti-Castro pgm till clobbered by (& don't confuse w/) R Farabundo Martí 7040v 0113. The anti-Castro & anti-Sandinista groups are pledging cooperation; let's hope fq selection is on the agenda! (Terry L Krueger, DXSF) 7039v, 23/8 *0100-0130*, slightly new IS, theme song, ID "para el pueblo de Cuba que sufre, aquí está LV de Alpha 66". Much talk of "sabotaje y atentado" and plan "Máximo Gómez". "Comentario Editorial" by Dr. Diego Medina. Ancd sked M-F 9 pm 7050. S/off w/"hemos presentado LV de Alpha 66, por un mensaje de libertad para el pueblo de Cuba que sufre". Quite strong but bcs are sporadic (Steve Reinstein, DXSF)

R Mambi, 7076, *0000-0012* 26/8, s/on w/old A66 IS, ID then woman w/sked of daily 7 am & 8 pm on 7070-7080 kcs". Much talk abt Mambi symbol "la estrella con cinco puntas". Huge FM spurs 7605 & 6549 (Steve Reinstein, DXSF) Also received full data Certificado de Sintonia, v/s Cefe rino Pérez; and personal letter, batch of brochures from Dr Manuel A de Varona, president, Junta Patriótica Cubana. Addr: P O Box 350492, Riverside Stn, Miami FL 33135. A much better reply here than the one rxd last year from Cap. Álvarez (ibid.)

R Farabundo Martí, 7046v, 25/8 0112-0133*, strong & jumping to 7057 tho unjammed; // 6930 hea vily jammed. Ancd weekdgy sked 6:30 am, 12:30 pm, 7 pm "desde Chalatenango". S/off w/"muy buenas noches, heroico pueblo salvadoreño" (Reinstein, DXSF) more & R Venceremos, LMI

R Soberanía Nacional, 6960, 24 & 25/8 *0005-0026*. S/on w/NA of El Salvador, ID, sked as 6 am 12 noon, 6 & 8 pm on 6960 & 7050, but not hrd on 7050. Seems to be pro-ruling junta & anti-communist. Perhaps an ES 'black' cland? On 7075 28/8 *1205-1228, powerhouse sig, still ancd as 6960 & 7050. Definitely pro-govt and ment "propaganda del FMLN". Finally some competition for R Venceremos. Wonder if using YSS[S] xmtr? (Steve Reinstein, DX S Florida) Uses both 7075 & 6960 at 0000, 0200, 1200, 1800 in SP, pro-govt. First hrd 14/8; describes self as "v of a free people who resist the slavery of International Marxism, the v of a people who live and respect human rights, who offer their blood to prevent a violation directed from Moscow". (WBI 1/9) Further monitoring shows xmsns apx 25 mins long, and 02, 12, 18 repeat the 00 (WBI)

R Miskús, 6965, 10/8 2255-2316* G lvl w/campesino tunes, Indian lang talk, ID in SP as "R Miskús, la voz de los Miskitos, Sumos y Ramas", s/off after Nic NA (Steve Reinstein, DXSF) On 6965 20/8 2233-2317* mostly political talk in SP & presumed Miskito; s/off w/guitar melody & anthem. Clear IDs (Henry Lazarus, IA, DXSF) less, LMI

LV de Sandino & LV de Nicaragua Libre, the two ARDE stns seem to be again sharing a single xmtr which varies around 6220; still begins at 0000 or shortly thereafter (Aug-Sept SWNS) /+ LMI

Spy Numbers Bill Whitacre on the 18/8 Media Network said DF by US govt has traced the 4765 Mayak relay to a site near Habana. Meanwhile, SP #s stn operates on 4665-a every Mon & Thu GMT at 0300 and often also at 0200. Thus we had unique opportunity to compare propagational behavior of a #s stn with that of a xmtr on nearby fq known w/reasonable certainty to be nr Habana. We did this with our "Fraud Finder" technique: if stns are at same site, or in same area on nearby fqs, & sig strengths are measured on two different rx antennas, the two sigs will increase or decrease by the same amount when switching from one ant to another. This assumes accuracy of measurement and HF sig strengths are constantly fluxuating; thus consistency of result is the key to reliability. For this experiment, we used a 30m N/S longwire and a 10m vertical. 22/8 0205-0245 the #s stn showed a consistently greater drop in sig strength when switching from the longwire to the vertical than did Mayak. Similar results were noted on other dates but not for the same length of time. This experiment did not take into account possible error due to cross polarization effects (i.e. one transmitting array vertically polarized and the other horizontal). Generally it is assumed that once an HF sig has been propagated by the ionosphere, polarization, with respect to the receiving antenna, becomes random. Nevertheless, to eliminate entirely polarization as a factor, a second set of observations was conducted using only a single receiving antenna, the horizontal longwire. If

two stns on nearby fqs operated from the same xmtr site, or nearby ones, the difference in average signal strengths will be the same from nite to nite (assuming no change in power or transmitting antennas) because they will be subject to exactly the same changes in propagation condx. During the period 0310-0335 8/8 the #s signal averaged 9 db weaker than Mayak, 0250-0300 11/8 (prior to start of xmsn) was at least 9 db stronger than Mayak, 0155-0200 15/8 #s averaged 9 db weaker than Mayak, 0205-0245 22/8, 0300-0305 25/8 and 0200-0215 29/8 - on these three dates #s varied between 0 and 3 db weaker. Based on both sets of observations, we can see absolutely no reason to believe the SP #s xmsn on apx 4665 emanates from R Habana Cuba's xmtr site. (C M Stanbury II, Ridgeway Ont, SWNS)

NORTH AMERICAN PIRATES

KPRC, 1616 kHz, 12/8 0515-0643*, 55445. Played lots of rock, phone caller. Pirate Joe said aim of KPRC was to promote the idea and be a small but active force in the cause of world peace. Commented that it was scary to think of laser weapons in space. Took calls at 212-352-9906 and announced Exeter NH addr. Also ancd being on 6210 SW but not hrd--I don't think it was even operating. Pirate Joe also requested people to send in records to play over the air. S/off 0639 then into "Good Night, Irene" and off 0643* (Nolan Stephany, Williamson NY) KPRC hrd 10/9 0439-0512 on 6210 //1610, both 343 but SW better. Rock mx hosted by Pirate Ed Armstrong who interviewed an unID 'guest' that spent summer in Europe. Spent a good 20 mins in light conversation, no phone calls because Ed didn't know how to operate console (Richard A D'Angelo, Wyoming PA)

V of Tomorrow, LMI

The Crystal Ship Full data QSL card signed by The Poet rec'd in 61 days for SASE. Note: not Radio Crystal Ship (Richard A D'Angelo, PA)

Radio USA, 7430 LSB 0206-0223 t/out when having modulation problems. Rock, mentn they weren't normally on this fq, recorded promo, more rock. G until tech problems. QSL appreciated (Gerry Dexter, Lake Geneva WI, 22/8) Was that also the date of reception? When I put the date in the credit () it means the date of correspondence or publication, which may or may not be the same as date of reception. Otherwise, I feel dates belong next to times, and can't understand why so many DX editors like to put them next to reporter credits instead (gh)

R Clandestine this time on 15220, 17/9 1645-1700*, G w/rock, R. F. Burns. At first thought it was Nederland (Jim Conrad, Waterloo LA)

UNIDENTIFIED

15045 What is the purpose of the jammer I have heard so often since 18/6? Consists of at least two simultaneous, superimposed all-talk pgms in a Slavic lang w/no ID. DSB w/reduced or suppressed carrier. Jamming modulation starts abruptly (both speakers, usually a man and a woman) just after 1500 UTC and ends abruptly around 1545-1550. Jammer ID "GI" is sent in Morse twice, each 30 secs as is the Soviet custom. There is no noise modulation, only the voices, and there is no apparent voice identification. Strength is fair to excellent, depending on conditions that day. I have never hrd a victim or target broadcast, tho I can sometimes hear R Moscow w/their Mayak IS on same fq just before 1500 when the jamming begins. Jammer can be hrd on both my R4C and SB310 rx, so I doubt it is a receiver spuriousity. ??? (Martin Potter, Limoges Ont, 30/8) 20/9

10073 Spanish political speeches, some march mx. Close to old "Mother of Vietnam" fq; many ments of Chile but no ID; hrd to 1400 past 1450 f/out. Could be Vietnam, but prop suggests a different location, 8/8 (Mike Willis, Vic., ADKN)

9545 Spanish Castro-like ranter at 1015 9/9, battling w/Solomon Islands. Couldn't understand either (Chuck Oliver, Spring TX)

6228 Strange stn or pirate at 0430 GMT Sat 30/7; last 12 notes of US anthem repeated over & over to 0433*, back at 0443 w/pop songs & closed w/African-type mx to 0504*; good sig, but some distortion & QRN; Scottish R Freedom was listed on this fq July LN-23, but seems rather unlikely (Ernie Behr, Kenora Ont)

5982 Weak signal 0225 8/9 w/EZL vocals, sounded like SP ancr between songs. Possibly Mexican XEUJ? (Mitch Sams, Wichita KS, OMDC DX Log)

5340 Relay of Ft Lauderdale's "97 FM" hrd in Texas around 0200 22/8; clandestine (SWNS)

5325.2 Peruvian, too weak to copy 14/9; R Santa Cruz? (Richard Stoller, Bogota DE, Colombia) Closest one to this reported by Juan Carlos Codina, Lima, in Sept RIB is 5324.9, R Nueva Acobamba, or just R Acobamba, w/more powerful xmtr since 12/7 (gh)

4820 In FR, poor w/a bonjour at 0510, then mx until 0550* apx; it gets stronger after 0510. Angola unlikely (Maxfield Greenwood, Sedgwick ME)

LAST MINUTE ITEMS

BOLIVIA R Fides, 4845, slick operation for a 'religious' stn, 0200 pgm called "La Hora 22"; slogan: "LV de Bolivia" (sic!). Bucaramanga is inactive. R (Nueva) (?) Cobiya, 4855a, "Cobiya, Pando, Bolivia", w/romántica/pop & slick ads for stuff you wouldn't expect to find in Cobiya, which is as isolated as can be. Seemed to give AM, FM(!), & "4855, banda internacional de 60 metros" (Richard Stoller, Bogotá DE, Colombia, 14/9)

BRAZIL R Cruzeiro do Sul, 4115a, most evenings at poor level, urban mx fare and lots of "atenção"s (Richard Stoller, Colombia, 14/9) R Clube, Rondonópolis, on new 4955 ex-2480, 13/8 *0900-1000+ P-F in Aug; till 0930 religious pgm, then PY mx; 0932 ID w/4955 & 930 (Aoi & Inoue, Japan, Radio Nuevo Mundo) R Gazeta, 5954.9, sked w/SQL: ZYE692 5955 2330-1900; ZYE693 9685 2330-1400; ZYE694 15325 1800-2300 (Inoue, RNM)

CAMEROON R Douala, 4800 3/9 2159-2200*, then 4795 *2201-2300 w/local pgm (P L Calligaro, Udine, Italy, Play-DX)

COLOMBIA "Emisora Nuevos Horizontes, La Onda Musical", 5750a, V*0000-0255*. No call sign, fq given as "52 metros". QTH is: "José María Hernández", which is probably a barrio of Ipiales (Dpto. Nariño), since JMI doesn't exist on any maps, and some references to Ipiales. Folksy opn, no AM xmsns; 12/9 (Richard Stoller, Bogotá DE, Colombia)

CUBA Mayak relay hrd on 3345 2200- 6/9; earlier that day had been on 4765 to 2000* (WBI 15/9)

CZECHOSLOVAKIA In a despatch 5/9 quoting ČTK, TASS reported that Cz R bcs pgms for listeners abroad in AR, EG, SP & FR for about 40h a day. R Prague maintained stable contacts w/listeners and had rxd over 146 kiloletters in 1982 (WBI 15/9)

DOMINICAN REPUBLIC Since the ending of V of CID bcs on 10/8, R Clarín has been hrd carrying a SP ES 1700-0200apx on 11700; R Earth in EG 0200-0300 continues. In its 31/8 issue, Listín Diario reported that the Executive Branch's Legal Dept had determined that the Genl Directorate of Telecomms--DGT--had the legal authority to suspend a radio pgm produced by R Clarín aimed at criticising the Cuban govt. DGT did not have to go thru courts to suspend pgm in question. It was not a simple case of exercising the freedom of expression but of a systematic political activity against a forn govt by using the DR, regardless of the consequences. An offl added that RC had been violating the country's constitution, the criminal code, the law on expressing and disseminating thought and the telecomms law. The Executive Branch's legal advisor had said that the law even authorizes the DGT to cancel the licence or permit of any being stn for violating the law; therefore "it was obviously authorized to suspend one pgm" (WBI 15/9) Whew! R Clarín was back on air 21/9 GMT 0200 w/Earth, citing electrical failures keeping it off for a while; played Sat nite pgm on Tues instead (gh)

ECUADOR LV del Río Tarqui, 3285, hrd AM & FM here, F-G but smeared by LV del Napo 3280. Mixed bag of mx, HC folksy in morning, romántica/pop eves. Lotsa "atención" anmts, esp. to Armed Forces personnel in the Oriente. I would guess this is different from the Rdif Tarqui reported on 4973, unhrd here; 12/9. 4995, [R Bahaf], addr give as Apartado #10, Otavalo (Richard Stoller, Bogotá DE, Colombia)

PUBLICATIONS

Goliath of the Andes, in July 1983 Popular Communications, by Gerry L Dexter, pp. 12-14, outlining history and growth of HCJB. Several photos, incl one of Helen & Clayton Howard, hosts of DX Party Line. Other pixs of HCJB pgm ctrl center, engineering staff w/a 500 kW output tube, the Spanish pgm staff, power plant, recording control room, and one of Alex Kuushnikov "presenting a pgm in Russian". On p. 14, the complete pgming operation is outlined, plus details on xmtr and antennas at Pifo, Mt Pichincha and Guayaquil. Vy interesting & informative, well worth reading (Rufus Jordan, Pittsburgh PA)

Down Under DX Survey #21 was published 12/9. 16 legal-sized yellow pages, chockablock with Indonesian info gathered by David Foster, primarily from visits to various islands, mainly Sumatera. Incredible amount of research on both MW & SW. Key to Indo lang abbrs. Article on languages of the Indian Sub-Continent. Misc. other loggings. Issued irregularly and due to a move by the Fosters, the next edition might be as much as 12 months away. 6 IRCs by air-mail worldwide, from Down Under DX Circle, 7 Donald Road, Burwood, Victoria, Australia 3125. (In ANZ, 3 IRCs or 70c in mint Aust stamps) (via Geoff Cosier)

Review of International Broadcasting The September issue, some copies of which may still be available, includes: cover photo of Dick Speekman & Co, at R. Australia Spectrum; "The Saga of Paul the Shortwave Transmitter" by R E Wood; 3-page Report from Perú by Juan Carlos Codina; 4-page Radio Equipment Forum; 10 page DX Listening Digest; 12 page Listener Insights on Programming, w/skeds, comments, press clippings; VOA at the Crossroads, provocative article by Arthur S Getzel; The Radio Schools of Latin America, by Michiel Schaay. Specify this issue if you want it in particular when ordering a sample. \$1.25 in NAM, \$2 elsewhere or 7 IRCs, from R.I.B., Box 6287, Knoxville TN 37914. A 12-issue subscription is \$15 in NAM. US funds only and drawn on a US bank, please & thanks (gh)

QSL REPORTS

Sam Barto
47 Prospect Place
Bristol, Conn. 06010 USA

NASWA being non-political in structure I felt it necessary to dedicate this column to the country of Korea. This is one of the ways that I, and I believe I can speak for the members of NASWA, can voice our outrage at a barbaric and outrageous affront to the peoples of the civilized world...Sam.

SEPTEMBER 1983

Hello to all our old friends and new contributors. Welcome to another edition of Scoreboard. This Scoreboard features the Spotlight on North America. C/H = countries heard and C/V = countries verified. Remember that all totals for NASWA Scoreboard should be counted in accordance with the NASWA Radio Country List that is available from headquarters.

The next deadline will be 15 November for the December issue of FRENEX. The Spotlight at that time will be on Oceania. Also, we have not indicated Antarctica in some time. Therefore reception and verification of Antarctica will be indicated by * in the appropriate columns. Thanks to all who contribute to Scoreboard. Remember, you must update at least once a year to remain on the Scoreboard list. If your name was recently removed from the list, it means you need to update. We are looking forward to hearing from you before 15 November, so we can get your totals in the Winter Scoreboard. Remember Oceania and Antarctica.

Among the favorite QSLs for North America, Turks and the Canadian relay stations seem to be the most popular, with a few opting for Greenland and others. I suggest that you update all continent totals when sending in a contribution. That way all totals are reasonably up to date, if you miss a quarter. Thanks to all our contributors for this issue. Please share your totals with us through Scoreboard. Remember that the next deadline is 15 November for the December issue. 73 *fat*

- BRAZIL** R. Nat. Sao Gabriel, 3375, in PT 0225-54; IDs w/ freq, Radiobras plugs, ads and Brazilian ballads. (Brian Alexander, PA 9-11)
- CHINA** RB, 3960//4960, in JP 1030-43; strong. Thought I'd take a quick check for Falklands on 3958 and found this very strong. No ARO trouble, either. (Sam Barto, CT 9-4)
- CLANDESTINE** LV de Sandino, 6215, in SP 0034-0111*. Revolutionary talk by M and W, revolutionary mx plus reville on bugle. S/off w/ anthem. (Alexander, PA 9-12)***LV Alpha 66, 7039, in SP 0059-0129 8-25; good. QSLed by postpaid card from usual Miami address in one week: Box 420067, Miami, FL 33142. (Ralphus Perry, TX)***Welcome back, OM.
- COLOMBIA** Ecos del Combeima, 4785, in SP 0100 9-5; noted w/ prgm using as its theme a pleasant Ecuadorian song! Confusing and perhaps this is what started those bum reports of Latacunga being active here. . . . Actually, Combeima does play a surprising amount of HC mx. (Ralphus)
- COSTA RICA** R. Impacto, 6150, in SP 0615-0700; ballads, pop mx, Michael Jackson mx, many IDs and annmcs. (Alexander, PA)
- CUBA** Mayak, 3345, in RS *1030. Interval signal opened 1027. ID by W after s/on. (Barto, CT 9-7)
- ECUADOR** LV Rio Tarqui, 3285, in SP daily after 1030 w/ exceptionally good signals. Must have upgraded things when they reactivated SW xmr. (Ralphus, TX)***R. Zaracay, 3395, in SP 0200; ballads, ID, annmcs and ads. (Alexander, PA 9-11)***R. Popular, 4799.7, in SP 0604-0700; nice HC mx, ID and TC. (Alexander, PA 9-3)
- NEW BRITAIN** R. E. New Britain, 3385, in PD 1030-45; nice island type vocals and several instrumentals. Noted almost daily w/ fair signals. (Barto, CT 9-4)
- NICARAGUA** VoNicaragua, 5949.5, in EG 0105-35; stories on how US citizens can visit Nicaragua, LA mx, excerpts from Ortega speech, "This is Nicaragua" prgm. (Alexander, PA 9-12)
- NIGERIA** PRNC Lagos, 3326//4990, in EG 2350-0000. Nx by W. 90m actually stronger than 4990. (Barto, CT)
- PERU** R. Bagua, 3310, w/ wonderful signal 9-8 at 1104. Noted daily nominal *1100v. (Ralphus) ***R. Atlantida, 4790, in SP 0545-0604*; US rock mx, ID/TC, anthem at s/off. (Alexander, PA 9-3)***R. Andins, 4995.8, in SP 0520-28*; folk mx, ID 0526, s/off w/ NA. (Alexander, PA 9-10) ***R. Eco, 5112, in SP 0155-0225; weak. OA style mx, ID 0201, M dj and some RTTY QRM. (Alexander, PA 9-12)***R. Nuevo Continente, 5190.6, in SP 0320 9-6; booming signal. Truly amazing. One ID went: "la hora en todo el Peru...en Super Exitos de la Semana en Nuevo Continente." Also, "Nuevo Continente, la onda corta de Cajamarca," and "R. Nuevo Continente, la emisora del pueblo...programa." Tnx Juan Carlos Codina for this. (Ralphus)---Same, 0915-1005 9-8. M anncr, slow local mx. ID and frequencies 0930. Freq on taped annmct not the same as that on live annmcs. IDs and slogans 0920 and 1000. Then W w/ talk and mx. Text: "del espectaculo envisions nuevo arocobo R. Nuevo Continente. Desde Cajamarca, America del Sur en la banda de sesenta metros cinco mil doscientos kHz. Ya mamba mamba mil cuarento kHz. Es la primario R. Nuevo Continente. Perultima corte ponce." (Nathan Murff, NM)***5560.5 not R. Pucara. Fooler at first was R. 15 del Sept., noted 1130 on 9-8 down from usual 5565. Drat! (Ralphus)***I'd give a whole lot to be able to say "drat" because I'd heard that. tba ***La Voz de Huamanga, 6199.8, in SP many mornings recently but especially well on 8-29 tnx Juan Carlos Codina. 1059 OC, 1102 quena solo began, some sort of stn theme. This followed by opening annmct by M, mentioning, I believe, LV Huamanga. Into quenas and drums, then 6:07 tc. Prgm of OA campo mx followed, heavy on guitar huaynos, not really in the Ayacucho style, oddly. At 1124, OC from Cam clandestine wipes this out. Usually LVHuamanga is weak on modulation on reasonably good carrier, so no definite ID possible even on best morning. ID completely attributed to Juan. (Ralphus)***R. Satellite, 6724.8, in SP 0230; good sigs through static crashes. Prgm of dedications w/ W anncr and folkloric selections. Occasionally swamped by Cam clandestine and its pursuing jammer which sporadically settled on freq. (Ralphus)
- TOGO** Lome, 5047, in FR *0527; tune-in to chimes IS, anthem 0528, hymn 0530 and talk 0532. (Alexander, PA 9-3)
- VANUATU** R. Vanuatu, 3945//7260, from 1047-1100; several pop selections, instrumental mx, talks by W and finally ID by M 1100. 80m signal very good. (Barto, CT 9-6)
- VENEZUELA** LVde el Tigre, 3255, in SP 0215; ballads, ID as R. 980, annmcs and ads. (Alexander, PA 9-11)***R. Mil Cuarenta, 6009.8, in SP 1000-20; fair sigs w/ US pops, spill from Reloj 6006. At first thought something new as didn't hear the pattern of 1040 IDs every few minutes, but it eventually IDed. Some mornings very bad het, probably from R. America. (Ralphus)

In the SCAN section this issue we continue with Takayuki Inoue's regular report from Japan:

PERU R. Sicuani, 4827.3, in SP and Quechua. 1000-1100 often in August. Nice folklore en Cusco and talk by M w/ many ads. 1030 Canned ID: "La Voz de Canchis, R. Sicuani, OAX7T, 4835 kC banda de 60m onda corta y OAX7R 1395 banda de 225m onda media...R. Sicuani. Slogan is La Voz de Canchis.

R. Huancavelica, 4885.3, in SP *0910v. S/on w/ NA, fair-poor often in August. Local folk mx and talk by M. Sometimes IDs as "La senal de Huancavelica." Better reception in USB and fades out by 1130.

R. Los Andes, 5030.1, in SP *0900 fair to good until baaècked out by R. Malaysia at 1030. Opening anncmt: "Senoras y senores tengan todos ustedes., muy buenos dias. Estamos inciendo su transmision correspondiente de miercoles, 10 de agosto de 1983, ano de bicentario de natalico del Lãbertador, su general Simon Bolivar. Estamos transmitiendo en la siguiente frecuencia: OAZ2A 5030 kHz banda internacional de 60m, onda corta en amplitud modulada. Transmite para Uds. Radio Los Andes, desde Huamacucho, Peru." Then huayno mx prgm, "Buenos dias, Peru," Mon-Fri and "Domingo Vernacular" on Sun. Slogan; "La frecuencia internacional."

COLOMBIA R. Sutatenza, 5075 rf, in SP *0900-1130+ fair-poor 8-15 and 16 only. Since 8-17 has returned to 5095. Mx and information prgm, "Buenos Dias, 1100 on is "Noticiero Sutatenza" followed by "Mundo Noticias." Canned ID every 30 minutes: Esta es Sutatenza Bogota, otra emisora de la Cadena Sutatenza de Colombia." Slogan for '83 is: "Ejemplo de buena radio, de una gran radio para America y el mundo."

Ondas del Meta, 4885, in SP 0800-1100. Per anncmt, this is 24 hr. Canned ID every hour: "En el aire Ondas del Meta desde la hermosa ciudad de Villavicencio. HJBX 1200 kHz onda larga, 4885 kHz onda corta. Otra potente emisora de la cadena Super, orglosamente Colombiana." Local mx prgm "R. Norte del Llano." Sometimes IDs as, "En Ondas del Meta, la emisora Super, alegre." "En la mejor musica, Ondas del Meta."

R. Super del Medellin, 4875, in SP 0830-0930; HJ mx and information often heard in August. ID: "En el aire R. Super desde la hermosa ciudad de Medellin. HJNX 710 kHz onda larga, 4875 kHz onda corta, banda de 61 mts. Emisora fundamental de la Cadena Super, orgulosamente colombiano." La Cruz del Sur Bolivia noted on 4875.5 at same time.

La Voz del Centauros, 5954.8, in SP 0900+; Prgm is "Maduragada Campesino. Nice IDs 0900 and 0930: "Esta es La Voz del Centauro, HJKW, 1140 kHz de Villavicencio, Colombia. La Voz del Centauros, emisora afiliada la primera cadena radial colombiana, Caracol, Caracol, radiodifusion de prostigio."

We'll have more from Takayuki in coming issues, as well as a monitored look at the BBC and other features as the DX season approaches.

In the meantime, to all,

Best 73.

LOG REPORT

section A

2000 to 4899 kHz

Editor: Mike Nikolich, 2137 West Farwell Ave., Chicago, IL 60645

I don't know if this is a bad omen or not, but as I began my first column for NASWA, the video display terminal on my computer blew. So, it looks like I'll edit on the old typewriter. My name is Mike Nikolich, and it is with great pleasure that I take over the reigns of LRA from Stu Klein. I've been in the hobby since 1969, have heard just over 200 countries on shortwave, and previously edited a column for SPEEDX. Your comments, critiques, etc., would be appreciated.

- 2340 PAPUA NEW GUINEA, R. West New Britain; Pidgin, several IDs, movie theme mx, TC for "28½ to 9" and Rod Stewart mx, into some Saturday nite px (Moman, 8/13)

Well, that wraps it up for October. Logs were a little lighter than expected. Now that fall's here, it's time to get going behind those dials. Temperatures in Chicago have gone from 90° to 50° in about a week. I don't know about you, but I'm freezing. Hopefully, the computer will function a bit nicer next month. Until then, I'll let Bill fill out the space. 73.

NOTICE, PLEASE

Dave Walcutt, editor of Log Report "C", reports that the logging slips were never delivered to his residence and we can only assume that they have been lost in the mail. With the kind assistance of the U.S. Postal Service, LR-C will return next month. We are sorry for the inconvenience.

- 6060 AUSTRALIA RA, stock market rpts at 1612 on 8-12, EG (Lare-MI).
- 6065 USA WYFR, religious mx 0132 on 9-6, talk on loneliness, very good sig (McLemore).
- 6070 CANADA CFRX-Toronto, C&W format 1020 8-27, TCs, Disneyworld ad, nx on half hr (Bolland-FL); mx at 1617 8-12, very good sig (Lare-MI).
- 6085 COLOMBIA Ondas del Darien, 1002-1030 9-7, NA, march, long intro, LA mx (Falkenhan).
- 6085 FRANCE RFI, *2200, into nx, 8-9 (Alcorn).
- 6085 W. GERMANY DW, 0100 8-24, IS, ID, world nx, "Mike on Eur," press rvw, etc. (Stanley-AZ); "Germany Today" 0129 8-26, "People and Places," very good sig (McLemore).
- 6090 LIBERIA ELBC, 0706 on 8-15, man with ID, African nx 0715, ID, ads, police rpt (Bobb-MN).
- 6090 LUXEMBOURG R. Luxembourg, "Midnight Memories" pop tunes 2345 8-27, EG (Alcorn).
- 6095 PERU R. Nacional, almost daily, good with OA mx at *1100 (Yoshida-JPN).
- 6105 BOLIVIA R. Panamericana, man with armts at 1025 8-26, instr.mx with flutes, guitar, piano, ID by gal (Thunberg-FA); ID 1054 8-15, armts, mx to 1100 (Jones).
- 6105 MEXICO XEQM, "Su Pantera," bookstore ads 1306 8-31, one for insecticide, EG pops, fair-good sig (McLemore); ID 1327 8-14, SP and 60's/70's US tunes (Jones).
- 6110 MALTA R. Mediterraneo, EG at *2230 8-30, ID as "This is R. Med," by gal, then nx headlines, mx, wx, "All About Malta" prgm (Krist-VA).
- 6120 ARGENTINA R. El Mundo, poor 0932 8-13, occas. fading in under Brazil (Bolland-FL).
- 6120 BRAZIL R. Nacional da Amazonas, 0927-0953 8-13, M&W using reverb mike, then mx; lengthy discourse by man 0933, ads 0937, distorted ID 0940, 0947, //11780 (Bolland-FL).
- 6120 CANADA BBC relay, WS in EG, "off the Label" 2315 8-30, Big Ben 2330 (Krist-VA).
- 6120 NICARAGUA R. Zunica, good sig 9-4 with EG and SP mx, ID 0340 (Plum-NJ).
- 6130 CANADA CHNX-Halifax, 2010 8-20, pops, coke ad, talk abt Portuguese in Canada (Alcorn); pop mx 2246 8-25, ads, nx by gal on the hour, fair sig (Bolland-FL).
- 6130 USA VOA-Greenville, *0000, IS, ID, nx, sports, wx, "Now MX, USA," good 8-12 (Mayer-PA).
- 6135 BRAZIL R. Gaucha, 0949-0958 8-18, talk, R.Bras ID, fair sig (Bolland-FL).
- 6135 SWITZERLAND SRI, 0145 on 8-19 and 8-24, IS, ID, nx, features (Stanley-AZ); EG, with Swiss nx to 0050, then prgm on St. Gallen, 8-14 (Jones).
- 6135 TAHITI Papeete, poor on 8-14 at 0814, pop and island mx, //11825 exc at this time, and 15170, 9750 and 738 MW all audible also (Moman-ALB).
- 6136.5 UNID. There's a SP stn in here some AMs arnd 0930-1000, but cannot ID (JB).
- 6150 COSTA RICA R. Impacto, SP 2345 on 8-10, ID by male anncr, ballads (Pappas-PA); ID giver at 0500 8-13, fqys, also hrd with ID at 0500 (Moman-ALB); lively LA pops at 0705 8-13, clever IDs, quick spots by gal, falling bomb sound effects, real commercial format (Jordan); mx 1001 followed by ID, then more mx, good on 8-13 (Bolland-FL); hrd with EG nx at 1145 8-6 (Weinhold). First time I recall seeing EG nx rptd. (JB).
- 6150 COLOMBIA LV del Huila, many IDs arnd 0455, after each tune, nice HJ pops, part of Caracol net; fair on 9-4 (Konen-WI).
- 6160 COLOMBIA Em. Nueva Grenada, 1001 8-13, mx, ads, ID, long talk by two men, fair (Bolland-FL).
- 6160 CANADA CKZN-St. John's, man with marine wx at 0925 on 8-30, nx of the region, movie rvw prgm, pops, TCs GMT-2, fair (Bobb-MN); CBC nx at 1000 on 9-6, comment on high prices, ID as CBC radio, light pops (Falkenhan).
- 6165 BRAZIL R. Cultura de S.F., fair at *0900 on 8-17 with mx, full ID (Yoshida-JPN).
- 6165 NETH. ANTILLES RN-Bonaire, 0230 on 8-22, IS, ID, nx, Mon Rpt, //9590, good (Stanley-AZ).
- 6170 PHILIPPINES Maharlika E/C System seems the one here AMs arnd 1000-1100; no ID as such, tho a 7:00 TC at 1100, all EG programming, much EZ ltrng mx; just on the high side of the fqy, Cayenne on low side (JB).
- 6175 COSTA RICA TIFC, SP at 1059 8-5, ID, fqys, into religious talk, local QRM soon (Valko).
- 6175 ENGLAND BBC, "Brain of Britain" panel game 2330 9-5, question on initials SSB (McLemore).
- 6180 CYPRUS BBC relay, world nx at 2300 on 8-30, to 2315* (Krist-VA).
- 6185 USA WRNO, "World of Radio" 0313 8-21, started late due to football (Lare-MI); ID at 0430 8-20, then "World of Radio" (Krist-VA).
- 6190 PERU R. Oriente, *1038 on 8-5, NA, s/on armts by man, 3 IDs, mentions of Peru, into OA flute and guitar mx; severe het and QRM; BBC OC on 6195 at 1050 didn't help (Valko).
- 6200 PERU Unid. OA stn hrd 8-21 at 1106-1130, OA mx, man talking, fair; seemed like ID at 1117 but not sure. (Yoshida-JPN). Said to be LV de Huamanga, 6199.5 (JB).

Fairwell to LR-A editor Stu Klein, and "welcome" to Mike Nikolich. +++ With the DX season coming, and the increase in fall tropical band activity, I offer the following suggestions for reporting to LR-B: (1) please include the date of your logging, and remember that if it's 2100 EDT on 10-5, it's 0100 GMT on 10-6, so the date should be 10-6, to correspond to the GMT date; (2) list your state next to your name; (3) don't report stns as unidentified or tentative if you've just listened to them for five minutes; spend enough time on the logging to try and identify it; report it as unid. or tent. only after you've tried to identify the station and spent some effort on it; and (4) report loggings for the period starting with the 1st day of the month prior to the month containing the deadline; for the October 12 deadline (for items to be published in the November bulletin), send in any loggings made on or after September 1. +++ Finally, thanks to our regulars and others who contribute every month. Whether you've been listening for ten years or ten days, your items are welcomed and appreciated.

LOG FRENDX REPORTERS

Nick Pappas, 251 S. Olds Blvd., Apt. 243 Fairless Hills, PA 19030

Hello and welcome to the October '83 issue of FRENDX. Thanks to the following fifty members for their contributions:

P. Barta, Toronto, Ontario (RF2800); Sam Barto, Bristol, CT; Jerry Berg, Lexington, MA (HQ180A, R390A); Jeff Berryman, Bronxville, NY (5X190mod); Marion Blanchette, Thonotosassa, FL (DX160, RF260, R600); Norman Bobb, Minneapolis, MN (R600, XCR30); Charles Bolland, Lakewood, FL (R70, FRG7000); Richard D'Angelo, Wyomissing, PA; Kurt Enkenhus, Silver Spring, MD (NRD515); Eric Falkenhan, Baltimore, MD (R2000, 515-1); David Fodge, Coralville, IA (FRG7); Ray Forsgren, Chippewa Falls, WI; Bob Fraser, Cohasset, MA (XCR30); Josh Gaffin, New York, NY (RF3100); Michael Hawk, Hampton, VA (GE World Monitor II, XCR30); Harold Hodgson, Buxton, NC (R7); Brian L. Jones, Houston, TX (DX302); Rufus Jordan, Pittsburgh, PA (DX302, Zenith Transoceanic); Kraig Krist, Falls Church, VA (FRG7700); Terry Krueger, Casselberry, FL (IC-R70, RF4900, RF2900); Steven Lare, Holland, MI (2-B, FRG7700mod); Arnold Lausevich, Milwaukee, WI (HQ180C, RF4800); Jerry Lineback, Conroe, TX (R-7); Rick Lucas, Stockton, CA (R1000); Michael Martin, Plainfield, IN (RF2600); Bill Mayer, Allentown, PA (DX200, TCS-12); Tom Mazeltine, Seattle, WA (FRG7, ICF5900W); Don Moman, Edmonton, Alberta (R70, TS430, ICF5900); Nick Pappas, Fairless Hills, PA (SPR-4); Sheryl Paszkiewicz, Manitowoc, WI (DX302); J. Gary Pate, Baltimore, MD (R1000); Wilder A. Pickard, Evanston, IL (R7, XCR30); Bill Plum, Irvington, NJ (FRG7700mod); Gene Purdum, East Lansing, MI (FRG7700mod); Stewart Reed, Baton Rouge, LA (IC-R70); Steve Reinstein, Miramar, FL (R70); Bryan P. Sharpe, Castro Valley, CA (DX302); Todd Smith, Wilton, CT (Astro-15); Trevor Stanley, Flagstaff, AZ (NRD515); Nolan Stephany, Williamson, NY (R392); Bob Thunberg, DuBois, PA (SSR-1, HQ200); Bruce Tindall, Chapel Hill, NC (ICF2001); George Vadino, Bellevue, WA (SX110, RF4800); Dave Valko, Dunlo, PA (DX160, FRG7); Terry Weinhold, East Earl, PA (R1000); Eric Witzig, Annandale, VA (R1000); Bob Woods, Front Royal, VA (RF4900); Akira Yoshida, Iwate, Japan (RFB-30); Robert Zilmer, Rio Rancho, NM (R1000, ICF5900W).

Quite a few new reporters this time around. Nice to have you, folks.

As always, the deadline for contributions is the twelfth of the month. Please remember to cut your contributions apart and to include your signature slips.

Until next month, 73's and good DX,

Nick

=====
 WELL, THUS ENDETH ANOTHER COLUMN, NOT TOO BAD A TURN-OUT THIS MONTH. THIS MONTH MARKS THE START OF MY 5TH YEAR AS LOG EDITOR IN THE UPPER FREQ'S. ITS BEEN FUN TO DO, BUT I WOULD LIKE TO GIVE SOME RECOGNITION TO THE GUY WHO PUTS THE WHOLE BULLETIN TOGETHER -- BILL OLIVER. WITH OUT HIM, THERE WOULDN'T BE THIS FINE MAGAZINE IN YOUR MAILBOX EVERY MONTH! GET OUT AND SUPPORT YOUR SHORTWAVE CLUB---CONTRIBUTE!!!!!!!

73.

BRETT

ANTENNAS/ACCESSORIES

EDITOR: MIKE AGNER 301 N. PROGRESS AVE. APT. G10 HARRISBURG PA. 17109

Hi everyone. I just cleaned my typewriter and put in a new ribbon so I should have more readable copy. Now I have a problem with which all 2200+ of you can help- my contribution file is quite empty! Maybe now is a good time to review what this column is supposed to do. Here is the place to come if you would like to showcase your antennas and accessories used directly related to the hobby of DX. Particular interest is on the use of shortened antennas for people that don't have an acre or two to string up Beveridges, unusual accessories that enhance your listening abilities, ect. But just because you have an ordinary setup, don't let that stop you from sending in a contribution. If you do have something unusual it might be very helpful if the manufacturer's QTH is included in whatever description you send in. This column appears on a 1 page space-available basis, so do be brief and conise. Remember- don't think that your setup is ho-hum just an ordinary type- I had one guy who had a stereo amp setup that he used to hear whatever he had in the shack throughout the house. What made this kinda unusual was the power output- 60 watts! Just think, the Soviet woodpecker at 60 watts! Oh well, I think you get the picture. How about some help from you people out there? Maybe send in something like the following:

Don Hosmer, Mi.

102 foot random wire
RAK 17 meter folded
antenna
EOC antenna/booster
(see WRTH 83 p.61 for the
QTH of this manu. mja)
Yaesu YH55 headphones
Archer 20210 mono head-
phones
Grove MiniTuner 3
Ameco PLF2 preamp
MFJ102 24 hr. clock
Realistic CTR51 cassette
Sony AN60 10 meter long
portable antenna

(Don also says that he has a Sinclair ZX81 that he is getting ready to use on copying RTTY. Now while I really don't want to be a clearing house for data, there was a request a couple of months ago for people that had been using programs in their DXing. So Don, and others who have personal computers, why don't you go through the issues and get in touch with that person? mja)

My buddy Chuck Bolland has forwarded an interesting item that he has drawn up... a coax trap. He says he made it from a piece of PVC about 7 inches long. He says that at one end of the trap, you connect the braid of the coax trap to the antenna, and at the other end of the trap you just connect up the center conductor. Kinda interesting, no?
73s until later.....

SPECIAL *feature*

The following article is published with the permission of Radio Japan. It appeared in a booklet sent out by NHK entitled "HOW TO LISTEN TO RADIO JAPAN" and is probably the best information available on the SINPO code.

HOW TO WRITE A RECEPTION REPORT

Various kinds of code are used for writing reception reports. The most widely used code today is the SINPO code, which stands for the initials of Signal Strength, Interference, Noise, Propagation Disturbance and Overall Rating. Each item is classified into five scales. Best is given as 5, and worst as 1. For example, 5 in Item "S" means the signals received are fairly powerful. 1 in Item "S" means signals are barely audible. Likewise, 5 in Item "I" means no interference, and 1 extreme interference. All these are shown in the table below.

Rating Scale	S	Degrading effect of			O
	Signal Strength	Interference	Static Noise	Propagation Disturbance	Overall Rating
5	Excellent	Nil	Nil	Nil	Excellent
4	Good	Slight	Slight	Slight	Good
3	Fair	Moderate	Moderate	Moderate	Fair
2	Poor	Severe	Severe	Severe	Poor
1	Barely Audible	Extreme	Extreme	Extreme	Unusable

In entering a reception report using the SINPO Code, you are asked to begin with Item "O", which indicates how clearly the broadcast you are listening to is audible. Each of the five scales in this item can be given as follows:

5. Excellent. Comparable to the reception of local broadcasts.
4. Good. Speech intelligible, perfectly and easily.
3. Fair. With some effort speech is intelligible.
2. Poor. With considerable effort speech is intelligible.
1. Unusable. Barely audible.
- X. Entirely inaudible.

Here are some examples of entry:

If you think reception conditions were perfect, then you write in 5 outright in each of the S, I, N, and P columns as in the "O" column:

SINPO
55555

If you think they were good, you write 4 in the "O" column, and think over the reason why you could not give the best marks. Although you have no measure, you may think the signal is strong enough and there is no static or fading, but you cannot give full marks as there is a slight interference from another station between speech. In that case the form should be filled in thusly:

SINPO
54554

If you thing the reception was not good and considerable effort was required to understand speech, the overall rating will be 2. Then let us investigate the reason why you have given a 2. The signal does not seem to be so strong and the interference is heavy; in addition there is some fading which introduces some noise. If this is the case, you should complete it thus:

SINPO
32332
