NASWA

HEADQUARTERS REPORT

NORTH AMERICAN SHORT WAVE ASSOCIATION

46 WILDFLOWER ROAD, LEVITTOWN, PA. 19067

SPECIAL ATTENTION NASWA MEMBERS

NASWA owns two Pitney Bowes Model 5830 Postage Machines. One machine is at club HQ in Levittown, PA and the other has been used in the Business Office in Liberty, IN. Because of the transfer of most of the mail activity to Levittown, we find we no longer need the second machine.

The machine in Liberty was purchased new from Pitney Bowes in April, 1979 for \$567.00. This does not include the Postage Meter which is also needed to form the complete unit. The meter unit has to be leased on a quarterly basis since they are never sold outright. The lease rate is determined by the users mail volume. Meters are available for lease through any of the Pitney Bowes Sales Offices located in principal cities throughout the country.

We are offering the machine unit to NASWA's membership first at a cash price of \$250.00 including shipping. We can guarantee the machine to be in first class condition since it has been covered by service and maintenance agreements from date of purchase. For any small business owner who would like the convenience and advantages of using metered mail, this is an excellent opportunity to go in that direction at a modest price. Any NASWA member who might be interested in knowing more about the machine or what other costs might be involved can drop a note to M.R. Leonhardt, NASWA's Business Manager, at P.O. Box 13, Liberty, IN 47353 giving your phone number and a convenient time to call and he will contact you to discuss the matter further and answer any questions about the machine.

SHORTWAVE NETWORKS BULLETIN BOARD

The new Shortwave Networks Bulletin Board will be on the air by Nov. 1, 1983. Membership will be open to all, but the board will give preference to messages of interest to SWL's and hams. Topics will include everything from 10 kHz to 10 GHz. At the present time the board will be considered on an experimental basis and there will be no membership fees. The operators wish to evaluate the demand for such a board, and the mix between local calls of general interest and calls from anywhere that deal with the general topic of radio. They welcome your participation and suggestions. Temporary hours will be from 11:00 P.M. Central Time until about 9:00 A.M. the following morning. All that is necessary is a 300 Baud Modem capable of operating in Full Duplex. If there is no answer during these hours, please be patient and try again. The number is (701) 746-4814. For further information, please contact Ken Reiss, 2605 South 17th Street, Grand Forks, ND 58201 or call the number given.

ASIAN AREA TAPES AVAILABLE

A letter from the Japanese Association of DXers states that Toshiyuki Watanabe, a JADX member, has compiled two tapes (one 90 minute and one 60 minute cassette) of Asian area stations including Burma, Kampuchea, Laos, Thai, Vietnam, and some clandestine stations. The tapes also include many local stations and languages like Meo, Lao Soung, etc. The price for both cassettes is 2400 Yen Airmail and 2000 Yen Surface Mail. Payment should be by International Money Order (available at most Post Offices) and the address is Mr. Toshiyuke Watanabe, 24-26 3-chome Hiyoshidai, Yahatanishi-ku, Kitakyushu, 807 Japan. Payment may be made in US\$'s, but the price of \$13.00 Airmail and \$11.00 Surface Mail does not take into consideration the floating exchange rate or exchange charges.

Verifying Chinese Regional Stations

新疆人民广播电台
XINJIANG HOKL RADIYO ISTANSISI

by Jerry Berg, 38 Eastern Avenue, Lexington, Massachusetts 02173

To the dismay of many DXers, it was virtually impossible for many years to verify stations other than Radio Peking on the Chinese mainland. This situation has changed, however, thanks to the work of Gerry L. Dexter and others, and it is now possible to verify transmissions from the Chinese regional "People's Broadcasting Stations". The simplest avenue to this objective is to send reports on these stations to Radio Peking, which has been willing to respond with full-data, English-language QSL-cards bearing the "signature" of the regional station itself, e.g. "Nei Menggu People's Broadcasting Station" (though not the actual city where the station is located). Most DXers would probably agree, however, that Radio Peking is not able to actually check the correctness of such reports, but issues the verifications as a courtesy to DXers.

A more satisfying method of verifying the regional stations is by way of reporting direct to those stations. The experience of the last four years indicates that many of the regionals will now verify direct. To examine this development more closely, in 1981 I distributed a questionnaire to a small number of DXers who were known or thought to have received direct verifications from Chinese stations. A total of eleven DXers participated in the survey, of whom six had received a total of 26 such direct verifications. The survey was intended to be exploratory, not comprehensive. Certainly these are not the only DXers who have verified Chinese stations directly. On the other hand, the data supplied by the survey participants was sufficiently consistent to suggest the general applicability of the findings offered below. This article contains the results of the 1981 survey, updated based on results since then. (Little appears to have changed since 1981.)

Which stations will verify direct?

The following People's Broadcasting Stations (PBS) have verified direct to one or more of the DXers surveyed:

Hunan PBS, Changsha
Nei Menggu PBS, Hohhot
Qinghai PBS, Xining
Yunnan PBS, Kunming
Xinjiang PBS, Urumqi
Gansu PBS, Langzhou
Fujian PBS, Fuzhou
Xizang PBS, Lhasa
Guangxi PBS, Nanning
Hubei PBS, Wuhan
Shaanxi PBS, Xian

我们收听情况。

QINGHAI PBS

It has also been reported in club bulletins that Liaoning PBS, Shenyang; Zhejiang PBS, Hangzhou; and Shandong PBS, Jinan (MW) have verified direct to other DXers. Given this rather large number of stations that have verified direct, it is clear that the policy to verify direct is one that has been made by Chinese broadcasting authorities on a countrywide basis and is not simply idiosyncratic with a few stations.

The following stations have not yet responded to reports sent by the DXers surveyed nor have I seen reports of direct QSLs from these stations (or others) in the hobby press:

- Heilongjiang PBS, Haerbin and Hailaer
- People's Liberation Army Radio Station
- Sichuan PBS, Chengdu
- Jiangxi PBS, Nanchang

Heilongjiang PBS and the PLA Radio Station (Fujian Front Station) in particular have been the QSL targets of several of the survey participants, but without results (although I have seen one report of a PLA QSL received by way of Fujian PBS). Heilongjiang PBS is of special significance because it, along with Xizang PBS, represent stations in locations (Manchuria and Tibet respectively) that are considered separate radio "countries" in some lists, such as the NASWA country list. My guess is that the above listed four stations, with the possible exception of the PLA station to which special military considerations may apply, will join the ranks of the verifiers eventually. Indeed, a few isolated verifications were received from the PLA station a number of years ago, long before the PBS stations began verifying.

Time signal station BPM has also responded to many reports with its own full-data QSL card.

Types of QSLs: The PBS QSL is often in the form of a printed white card, 4" by 6", containing a Chinese verification statement, roughly translated as follows: "Verification of Reception. Dear friend: This is to prove that the station you received on _____ (date) on _____ kHz is our station. We welcome your further comments on your reception of our station." The date and frequency are filled in by hand. At the bottom of the card the station name is either pre-printed, or the "PBS" is pre-printed and the station identifier is added by hand. Some of the cards have black and white pictures on the reverse side, and some do not.

There is some further variation in the style of the verifications, however. Some stations send typed or handwritten personal letters along with or in place of the card. Sometimes the letters are in English, and sometimes in Chinese. One station typed the verification statement contained above on a small square of paper. Another translated the verification statement into English and wrote it on the back of a color postcard. Sometimes the letters and cards bear a red station handstamp consisting of a circle with a star in the center and the station name around the perimeter. One station sent a folding card.

The stations often enclose small souvenirs with the verifications such as picture postcards, Chinese program schedules, cancelled stamps and small Chinese pocket calendars.

Method of reporting: Most of the DXers surveyed followed the more or less traditional method for reporting to the stations. Reports were in English and usually contained no return postage. One DXer who has had good luck in obtaining direct Chinese verifications followed the practice of sending taped reports, by registered airmail, and including an IRC with each. Whether his success is related to this reporting technique or plain old perseverance is unknown.

明信片 POST CARD 广播收听证 RUC 100001	日期 DATE 8-10

Yunnan People's Broadcasting Station

YUNNAN PBS

Often enclosed with reports were postcards, cancelled stamps, rig photos, etc. - the usual things one sends with reports. I like to send newspaper articles about China (as long as they are non-political) and constructive in nature). I have also sent advertising brochures from a department store that was featuring a special fair of goods from China. Another successful DXer cautioned against sending too many souvenirs, however, as he felt that this created some risk that the report and its main purpose - obtaining a QSL - might get overlooked at the station and that the QSL itself might be forgotten in the stations's reply.

Reports were addressed to the station using just the city and province, e.g. "Qinghai People's Broadcasting Station, Xining, Qinghai Province, People's Republic of China". This is apparently enough to get the report to its destination. Some of the replies contain return addresses that are themselves no more detailed than that. Others, however, bear what appear to be return addresses containing both Chinese characters and Arabic numerals. As far as I know, however, these addresses have not been translated into the Chinese Phonetic Alphabet, as they would have to be in order to be useable.

One of the most troublesome aspects of reporting to Chinese stations is providing good program details. Unfortunately, unless he is schooled in Chinese, the DXer who wants to provide verifiable details is reduced to counting time pips or hoping to catch a western song that he might know or a Chinese drama (which is generally identifiable as such even if one knows no Chinese). It would seem to be a big help to report one of the English language lessons that are broadcast over some of the Chinese regional stations (though at my location, where reception of Chinese regionals is only fair at best, this is not possible at the times the lessons are broadcast). The difficulty in providing solid program details and the inevitable boredom that accompanies listening to programming about which you have not a clue has probably worked to limit the number of reports sent direct to Chinese regional stations by DXers.

Response time: It is difficult to generalize as to response times.

Some of the first direct QSLs were received one or two years after the reports were sent. More recently, however, it appears that when responses are forthcoming without the need for a follow-up, they are received within two to four months of the report. There are exceptions, however, and it seems not unusual for a report, not followed-up, to take more than four months for a reply. My advice is to wait three months and then send a follow-up. As with stations reporting generally, follow-ups do make a difference. With some Chinese stations a follow-up will yield two separate verifications, one for the original report and one for the follow-up, even if the second report is just a copy of the former.

POST CARD	
<p>Your first reception report is correct, and we have sent you a verification before. And we send you an address for the second letter. Thank you for your reports, and hope you send us more.</p> <p>Sincerely, Radio Fujian</p> <p>1982 China Post</p>	<p>Mr. Jerry Wong</p> <p>_____</p> <p>_____</p> <p style="text-align: right;">FUJIAN PBS</p>

The wait is worth it, however. To those of us who know a little about China, these handwritten replies in brownish envelopes bearing exotic looking Chinese characters and attractive Chinese stamps are among the most unique that a DXer will receive. Hopefully, the stations will continue to respond. My guess is that that will depend more on international political developments than on factors over which shortwave hobbyists have any control, however.

A recent letter from Andy Robins explains in part the mysterious disappearance of "Contact". As is so often the case these days, support was down--only two submissions, in fact. So, Andy offers an alternative: Andy will suggest a topic for comment each month and the response, if any, will appear in the following issue. Fair enough? Here goes: "The U.S.-led invasion of Grenada provided a golden opportunity for shortwave listeners to follow events as they happened. What did you hear, and what did you think about it? Emphasis here is on SWBC, but monitoring of ARO and military HF traffic will be considered if compelling and relevant."

LET'S SHOW ANDY SOME SUPPORT!! Your comments to 2850 Cleveland, Apt. 318, St. Joseph, MI 49085

Editor: James G. Herkimer, 3255 South Drive, Caledonia, NY 14423

More On Loop Antennas

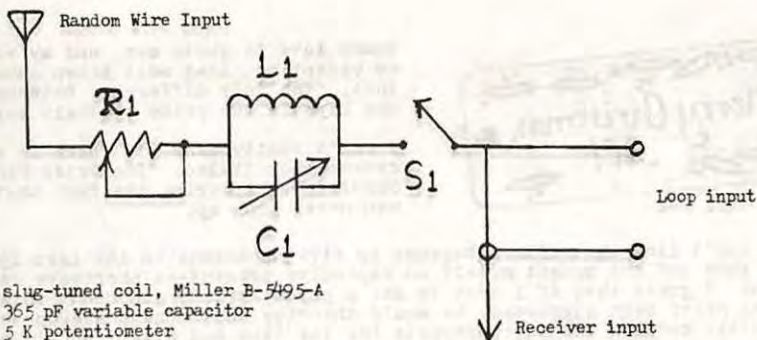

At the conclusion of last month's column, an alternative method of coupling the loop to the receiver (link coupling) was described. There will be somewhat less gain using this method than by using a preamp and direct-coupling, but generally most receivers have more than enough gain at tropical band frequencies to compensate for this loss. Some have found reduced tank loading and therefore increased signal transfer on a spiral loop by placing the coupling link on the inside of the tank winding. Gain may be further increased by using several turns at this point as opposed to a single winding, so some experimenting is in order. Additionally, the spiral loop has a lower distributed capacitance and therefore will provide greater frequency coverage with a single section 365 pF variable capacitor. With the addition of a few extra turns on the tank winding it should be relatively easy to provide 120 meter coverage as well as 90 and 60 meters with a spiral loop.

To clear up any confusion on the two types of loops, the spiral loop has its windings in the same plane as the frame, with each consecutive turn becoming smaller as you wind towards the center. This allows a spiral loop to be mounted flat on a wall, but this will limit the loop to a fixed direction. A box loop has its windings around the outside of the loop frame, with each turn exactly the same in length. Frequency coverage for both loops is determined by the diameter of the windings (size of the frame), the number of turns, and spacing between turns. The larger the loop's diameter, the fewer the number of turns required, and the greater the spacing between turns. As the diameter becomes smaller, more turns are needed, with less spacing between turns.

There is some controversy in regards to nulling effectiveness and accurate direct finding when using loops at shortwave frequencies. It is possible to obtain satisfactory nulls on the tropical bands on some stations, however, depending upon the path of the station to be nulled in relation to the desired station, and their arrival angles. One method to increase nulling effectiveness is to make the loop tiltable. This is accomplished by modification of the loop's supporting structure to provide a fork in which the coil frame rests, and tension is made on the fork via a wing nut once the desired pitch is reached. Slight movement of the loop (left and right) while tilting should reveal a position where nulling is dramatically increased. This position is very touchy and any slight movement out of this position will lose the null. The position on the loop's supporting structure where the coil frame rests will have a center of gravity several inches below the center of the windings. This point is somewhat critical, as we do not want the tilting function to be awkward.

A second method to increase nulling capability is to use another antenna to deliberately alter the response pattern of the loop. A loop normally has a figure-8 pattern, which can become one-sided through the addition of a second current into the system. The second antenna used to provide the necessary phase shift can be just about any type at the DXer's disposal, however most people have some kind of a random wire. A variable wave-trap is used, consisting of a coil covering the desired frequency range (90 and 60 meters) and a variable capacitor. The slug on the coil is adjusted to provide a "dip" at any point of the desired frequency range with the variable capacitor. A toggle switch is needed to disable the random wire and wave trap when adjusting the loop.

The random wire may produce a greater current than the link-coupled box loop even after a "dip" is achieved, and it may be advantageous to include a small pot (5 K) to reduce the level further. This pot should be located between the random wire input and the variable wave-trap.

The slug-tuned coil is available from Circuit Specialists, Inc., P.O. Box 3047, Scottsdale, AZ 85257.

Random wires used by members will probably vary widely, from a length of wire hastily tossed on the floor to more elaborate outdoor installations. If satisfactory nulls do not occur with this circuit, you might try placing the coil and variable capacitor in series:

There are a few shortcomings to this relatively simple circuit. First, with S1 open (Off) C1 will still affect the loop tuning. Second, use of a single inductor will limit nulling ability with some random wires. An alternative provided by Mark Connelly of Billerica, MA is to use a switchable inductance scheme, similar to that used by Ed Shaw in his "Indoors Whipperoo" (described in [DXing According to NASWA](#)). Mark, who is a member of the National Radio Club, and International Radio Club of America, has probably written more on the subject of phasing systems than anyone, and recommends that one side of each inductor (in the switchable inductance scheme) and the rotor side of the variable capacitor be grounded. (More on this next time.)

A couple of interesting items in the mail: The R-390 Newsletter has provided considerable information on restoration, modification, and parts sources for the R-390 and R-398 series of receivers. This newsletter is being expanded to cover all tube receivers, called the "Hollow-State Newsletter". All inquiries, subscriptions, and back issue requests should be sent to Chris Hansen, P.O. Box 1226 Madison Square Station, New York, NY 10159. All editorial material should be sent to: Skip Arey, P.O. Box 421, Mount Holly, NJ 08060.

Galaxy Electronics, Box 1202, 67 Eber Ave., Akron, Ohio 44309 sends a comprehensive catalog of shortwave and scanner equipment, including Sony, Panasonic, Kenwood, and Yaesu receivers.

Once again I would like to say thanks for the fine letters received here, and I wish everyone a pleasant holiday season and a Happy New Year. 73-*Jim*

Women love to quote men, and my wife is no exception, that well known observation that, "The only difference between men and boys is the price of their toys".

I can't really deny it. There is also a recent book titled, "The Peter Pan Syndrome", exploring the fact that some men never grow up.

I can't deny that either because on five occasions in the last 15 years I have gone out and bought myself an expensive present--a shortwave radio receiver. I guess that if I went to see a psychiatrist, and don't think that has never been suggested, he would theorize that I have a deep-seated inferiority complex and to compensate for the love and attention I'm not getting, I shower love upon myself with expensive gifts.

To hell with the psychiatrist. I just know that one of the big thrills in my life is bringing home, or receiving from UPS, a receiver and opening it up. And yes, I know I wrote a column in FRENEX awhile back taking to task these hobbyists who are always buying new equipment. You didn't really think I meant it, did you?

I love opening the box, removing the synthetic insulation and checking the contents. But aren't those new, small, shell-like bits of styrofoam they're using a chore to handle? Last time they were all over the house for days.

After checking the contents, you read the manual. At least I do. I fight off impatience to get going and make myself read every word first. That might even mean putting off installation to the following day.

Then you install the set, switch it on and cautiously begin to maneuver around the wave bands. Oh, sweet ecstasy! My wife doesn't know what she is missing.

Of course, you just don't go out and buy a receiver like that. You find out what Larry Magne has to say, you read the reviews in FRENEX and elsewhere, you communicate with your DX friends. This is part of the pleasure because you feel the excitement mounting in you. Should I? Can I really afford it? Should I wait for the next receiver?

No, by gum, I'm going to do it now!

The first irresistible impulse to buy a receiver came over me in 1968. I had been teaching a journalism course at a nearby college and I had some spending money. I wouldn't ordinarily have had. I saw a Radio Shack ad for a DX-150. I believe it was \$119.95 then.

Visions of my long ago teenage era came into my mind. I had been a MW DXer of sorts. That might be fun again but the main appeal was that I could listen to news broadcasts from around the world.

Suddenly, there I was at Radio Shack buying the set and bringing home my first carton to unpack. I went ga-ga when I saw all the dials and the shiny chrome. I was hooked and soon I was becoming a member of NASWA, corresponding with DXers and really getting into the hobby.

The DX-150 served me well, bringing me in over 100 countries and Kenya, on 4915 kHz, the last night I had the set, but I began to realize there were better receivers.

In January 1970 I was in Hartford and on the way back stopped in at Hatry's, a big amateur radio store. Did they have a second hand Hammarlund HQ-180-A? They did; it was being overhauled at a repair shop two miles away where I could see it if desired. I did and bought it for \$200 with a \$25 trade-in on the DX-150.

There was no box to open this time but a manual that required close reading. Soon I was in business. A great receiver!

But I got itchy again. In November, 1971, I stopped in at Hatry's, saw a barely used SPR-4 on the counter for \$400 and before I knew it I had gotten out my Master Charge card and was the owner of a new receiver. I sold the HQ to another DXer eventually.

No box again to open but loads of excitement learning how to operate the new marvel.

I fought off buying impulses for three years but was seduced in 1974 by the Barlow-Wadley which I convinced myself I needed as a second, portable receiver. Another great carton to open!

A year later I tired of the Barlow-Wadley and sold it off. I kept out of the buying market until July 1976 when I had a couple of breakdowns with the SPR-4. While it was at the factory I plunged for the new Yaesu FRG-7 at Gilfer's. Again, I was ecstatically delving into a new carton.

The SPR-4 was sold in 1979 and for four years I beat down the buying impulses that sporadically surfaced.

But in September of this year I could no longer resist the deep primal urge. I ordered an ICOM IC-R70 modified from Electronic Equipment Bank, Vienna, Virginia.

Oh, the joy of receiving that big box from UPS! The rhapsody of unwrapping, checking and putting it into operation! What a present I had given myself! There should have been a holly-decorated card inside reading:

"Merry Christmas, Al! You deserve it."

"From your best friend."

Christian Radio Voices

by Marlin Field, 128 Oak, Hillsdale, MI 49242

Back in 1967 I was sitting in the house when the telephone rang. I answered and the person on the other end said, "Hello, this is Doug Peters from HCJB." I didn't know what to say. I wondered why he was calling me from Ecuador. He was as loud as if he were in Benton Harbor, Michigan, where we lived at the time. As it turned out, he was in Benton Harbor, Michigan. He was in the states for a few weeks; he was speaking at a church in Bridgman, about twenty miles away, and he wanted to come by and get personally acquainted. At the time he was in charge of Radio Circle, a project of HCJB to place pretuned radios into the hands of as many Ecuadorians as possible. Doug knew of me through my reception reports to HCJB and my financial contributions to Radio Circle.

If I'd heard those same words of Peters before 1960--the year I began DXing--I really would have been dumbfounded, because before I started this hobby, I'd never heard of HCJB, or TGNA, or FEBC, or any of the other Christian shortwave radio stations functioning at the time.

This aspect of shortwave broadcasting all started close to thirty years before that, on December 25, 1931, to be specific, when a 250 watt station started broadcasting religious messages in Spanish from high in the Andes Mountains. That station--the first station I heard when I started DXing--was one familiar to all of us today, La Voz de los Andes, HCJB.

HCJB

The number of Christian stations has increased considerably in these fifty years, as can be seen by the list accompanying this article. One of the newest is Emisora Armonias del Caqueta in Florencia, Colombia, a Catholic station which started broadcasting on November 23, 1982. The Far East Broadcasting Co. will soon have a station broadcasting from Saipan. With the lifting by the Federal Communications Commission, the U.S. regulatory agency, of its ban on licenses for private shortwave stations, we may expect to see the number of such stations on American soil to increase. KNLS is now broadcasting from Alaska.

Broadcasting from American soil is more feasible today than it has been in the past, because with the powerful transmitters which are now available, stations can now reach audiences which formerly could be reached only by a nearby broadcasting station.

There's still another reason for broadcasting from within the territorial jurisdiction of the United States. In some countries, the government has interfered with the operations of stations. In June, 1977, after a coup in Seychelles, FEBA announced, "For a temporary period this station will not be broadcasting at the request of the provincial government, for security reasons." The interruption lasted for about two weeks; Radio Pio XII in Bolivia was off for a longer period of time.

Radio Cordac was not so fortunate. Like FEBA, Cordac had been off the air once before because of political problems in Burundi, but on February 21, 1977, the station was informed that only government stations would be allowed to broadcast in the country. CORDAC had been operating in Burundi since 1963, a joint project of the Kansas Yearly Meeting of Friends, the Free Methodist Church, and the World Gospel Mission. ETLF, the station of the Lutheran World Federation Broadcasting Service, suffered a similar fate; it was nationalized by the Ethiopian Revolutionary Government at about the same time. ETLF is now broadcasting from Africa No. 1 in Gabon. A few years ago 4VEH, to avoid entanglement in local politics, refused to meet the broadcast demands of rebels who landed on the Haitian coast near Cape Haitien.

The stations not nationalized by the government have been affected by the nationalistic feeling prevalent now in countries at one time dominated by outsiders. They are hiring nationals for positions once held primarily by Americans. FEBC in Manila and 4VEH, to mention just two, now have nationals as managers. One, TIPC in San Jose, Costa Rica, has been turned over completely to the local inhabitants, and the Latin American Mission, which once held local responsibility for the operation of the station, no longer has an office in Central America.

Like other stations, more so government than commercial ones, a number of the Christian broadcasters now use more than one frequency. This is especially true of the more powerful ones, such as TWR, FEBC and HCJB. The 1962 World Radio-Television Handbook, the oldest I have, lists HCJB on three frequencies; today, the total is ten times that. In 1962 KGEI was operating on the single frequency of 15225 kHz; the most recent WRTH gives seven frequencies. TGNA in Guatemala, a not-so-powerful station, uses frequencies in the 31, 49 and 90 meter bands. A station with even less power, TIPC, also operates in three bands.

The Christian voices have also increased in power. HCJB no longer operates at 250 watts. In fact, most of them don't. The FEBC has a number of 50,000 watt transmitters in Philippines as well as a 250,000 watt one for its Latin American voice, KGEI. The most powerful is HCJB with a 500,000 watt transmitter, which was built in Elkhart, Indiana, USA.

The Christian broadcasters today do not limit themselves to one language as HCJB did during its first six years of existence. HCJB became a bilingual station in 1937 with the addition of English language programming. Around fifteen other languages may also be heard on that station today. Some international broadcasters use close to twice as many languages and dialects as HCJB, such as FEBC. A number of Latin American stations transmit not only in the Spanish language but in the languages of the Indians in their broadcast area, as Radio Maya in Guatemala and Radio Rio Amazonas in Ecuador.

The programs on the Christian radio voices are not, as one might think, all of a religious nature. In addition, to the religious programs, some of which are entirely music, stations broadcast news, classical music and DX information. More and more the stations are diversifying their programming in an effort to increase the size of their audiences. Now one can hear about the culture of Ecuador along with some beautiful flute music from the Andes on HCJB, or marimba music on TGNA. I think one of my biggest surprises was to hear a commercial in English over Radio del Pacifico in Lima, Peru. It caused me to question at the time whether the station was operated by TEAM. I think I've heard one other Protestant station, WINB, with commercials. I don't know why it is that the Catholic stations are more likely to have commercial announcements.

DXers are constantly reminded to send return postage when requesting a verification from a station, for courtesy if for no other reason. For the religious oriented station there is a far more important reason--and that's all tied up in the financial support of the station. With the exception of one, Vatican Radio, none receives monetary support from a government, and as has just been pointed out, very very few receive revenue from commercials.

Most of their income is in the form of individual contributions that reach the station through various channels. It may be that individuals contribute to their church and the money is then forwarded to the station. Or individuals may make their contributions directly to the station or to the headquarters of the missionary group operating the station. Most of these, for the more powerful and best known broadcasters, are located in the United States. WYFR, TWR, FEBC, HCJB, 4VEH, HRVC, TGNA and ELWA all fall into this category. HCJB holds "radiothons" on Christian stations on the broadcast band in the United States as one means of raising money for its missionary work. The addresses of the headquarters may be found in the World Radio-Television Handbook.

The individual in contributing to a missionary organization should specify if he wants his money used for radio work; otherwise, it may be used as the organization sees the need. This means, for example, that if one contributes to the Sudan Interior Mission, the money may be used for its station in Africa, ELWA, for the mission hospital in Liberia, for its African periodicals, or for some of its other projects. One may even specify that he wants to sponsor a certain program in a certain language on the station. Two well known sponsors on ELWA were Mr. and Mrs. W.R. Tobert, the late President and First Lady of Liberia. Some years ago I heard of a DXer who was a sponsor of a program on a FEBC station in the Philippines; the cost now is \$2 per minute.

• TO MAKE CHRIST KNOWN TO AFRICA •

Occasionally the stations spell out their needs in the literature they send to DXers and others on their mailing list. It may be that the station needs money to repair a transmitter, or money to buy a new one, or money to pay for the increased cost of station operation brought on by inflation. On one occasion, two DXers responded to the need of ELWA by buying a reel-to-reel tape recorder and sending it to Monrovia.

Another source of income for the religious oriented station is the religious organizations that sponsor programs on that station, such as the Pacific Garden Mission, the Billy Graham Evangelistic Association, and the Good News Broadcasting Association to mention a few.

Something else that I've learned in my years of DXing the Christian stations is that they are concerned with both the spiritual and nonspiritual lives of their listeners. Most of us remember the earthquake in Guatemala a few years ago. TGNA turned over its facilities to the Guatemalan government when the government station was knocked off the air. Some of us heard messages about survivors being broadcast by not only TGNA but also by KGEI as well. After that, TGNA and the Central American Mission (now called CAM International), which operates TGNA, were deeply involved in rebuilding what the earthquake had torn down.

Some of the stations, such as Radio Chortis in Guatemala and Escuelas Radiofonicas Populares in Ecuador, operate radio schools through pretuned receivers located in their listening area. The purpose of the schools is to reduce the illiteracy rate of their adult listeners. Another Guatemalan station, La Voz de Nahuala, has had what it called the "Seed Project". Through its classes over its pretuned radios, adults received instruction in how and when to plant certain garden seeds, which they obtained from the station. After the harvest, the women were taught different ways of preparing the vegetables they had grown. Probably the most well known station, and also one of the oldest with radio schools, is Radio Sutatenza in Bogota, Colombia. It has been estimated that its broadcasts reach 12 million in that country and its neighbors.

For me, DXing the Christian radio voices has been one of the most rewarding aspects of the hobby. It has been in part because it has brought into my home visits from station personnel (HCJB and ELWA) as well as telephone calls (TGNA); it has brought me into contact with them through my church (TWR, HCJB and ELWA); and it has brought me into contact with them at my work. One hot, muggy day in late August a few years ago, I was pleased to have a visit from the program director of HRVC. On furlough from his position in Tegucigalpa, Honduras, he, his wife, and children were on their way with a U-Haul trailer behind their car to Iowa, where they would live for one year before returning to Central America. Reminders of that visit are on the walls of my radio room--a large pennant and two pieces of Mayan art work.

A summary statement might be that by listening to, corresponding with, and reading about the missionary stations, one can increase his knowledge of what Christians are doing around the world through radio. It seems to me that the words of Christ are truly being fulfilled, "Go ye into all the world and preach the Gospel."

A List Of Christian Stations on Shortwave

- KNLS, Anchor Point, Alaska
- Caribbean Beacon, Anguilla
- Radio Cruz del Sur, La Paz, Bolivia
- Radioemisoras Bolivia, Oruro, Bolivia
- Radio Santa Ana, Santa Ana de Yacuma, Bolivia
- Radio Pio XII, Oruro, Bolivia
- Radio Marumby, Florianopolis, Brazil
- Radio Aparecida, Aparecida, Brazil
- Radio Sociedad de Feira de Santana, Feira de Santana, Brazil
- Radio Educadora de Braganca, Braganca, Brazil
- Radio Educacao Rural de Coari LTDA, Coari, Brazil
- Emisora Armonias del Caqueta, Florencia, Colombia
- Emisora Kennedy (La Voz de Maria), Bogota, Colombia
- Radio Sutatenza, Bogota, Colombia
- TIFC, San Jose, Costa Rica
- La voz del Napo, Tena, Ecuador
- HCJB, Quito, Ecuador
- Radio Paz y Bien, Ambato, Ecuador
- Radio Luz y Vida, Loja, Ecuador
- Radio Rio Amazonas, Macuma, Ecuador
- Radio Federacion Sucua, Sucua, Ecuador
- Radio Jesus del Gran Poder, Quito, Ecuador
- La Voz del Santuario, Banos, Ecuador
- Escuelas Radiofonicas Populares, Riobamba, Ecuador
- Radio Catolica, Quito, Ecuador (in WRTH but not reported in years)
- La Voz de Galapagos, Puerto Baquerizo Moreno, Galapagos
- TWR, Agana, Guam
- Radio Tezulutlan, Coban, Guatemala
- Radio Chortis, Jocatan, Guatemala

ICR International Christian Radio

Emisora Armonias del Caqueta

RADIOFONIA JESUS DEL GRAN PODER

EMISORA CATOLICA CULTURAL "LUZ Y VIDA"

CHRISTIAN STATION LIST (cont'd)

Union Radio, Guatemala, Guatemala
La Voz de Nahuala, Nahuala, Guatemala
TGNA, Guatemala, Guatemala
TGBA, Radio Maya, Huehuetenango, Guatemala
Radio Mam, Cabrican Huitan, Guatemala
4VEH, Cape Haitien, Haiti
Radio Luz y Vida, San Pedro Sula, Honduras
HRVC, Tegucigalpa, Honduras
Radio Progreso, El Progreso, Honduras
Radio San Isidro, La Ceiba, Honduras
La Voz de la Mosquitia, Puerto Lempira, Honduras
Radiolandia, Comayagua, Honduras (listed in WRTH as only on medium wave)
Voice of Hope, Lebanon (address in Israel)
ELWA, Monrovia, Liberia
Radio Huayacocotla, Mexico
TWR, Monte Carlo, Monaco
TWR, Bonaire, Netherlands Antilles
Radio Charitas, Asuncion, Paraguay
Radio del Pacifico, Lima, Peru
La Voz de la Selva, Iquitos, Peru
Radio Cultural Amauta, Huanta, Peru
Radio Santa Rosa, Lima, Peru
Radio Veritas, Manila, Philippines
SEARV, Manila, Philippines
FEBC, Manila, Philippines
Radio Renascentia, Lisbon, Portugal
FEBC, Saipan
FEBA, Mahe, Seychelles
TWR, Manzini, Swaziland
WINB, Red Lion, PA, USA
KGEI, Redwood City, CA, USA
WYFR, Oakland, CA, USA (transmitters at Okeechobee, Florida)
Vatican Radio, Vatican City, Vatican

FEBA - Seychelles

World Inter-National Broadcasters

Transmitter Power: 50,000 Watts - ERP in Target Area 10 Watts CH 1,000,000 Watts
Transmitter Site: 800 W. 12th St., U. S. A.

HIGH ADVENTURE BROADCASTING NETWORK
814 7th St. San Mateo, California 94404

Stations No Longer Broadcasting

Radio Ecclesia, Luanda, Angola
Radio Cordac, Burundi
ETLF, Addis Ababa, Ethiopia (now uses Africa No. 1 facilities)
Radio Pax, Mozambique

(Editor's note...Marlin's article first appeared in the December 1974 Shortwave Center and quite a bit has happened since then. That article listed roughly 49 "active" SWBC religious-oriented stations. The head count now is 62, though some are presumed inactive, such as LV del Santuario, Emisora Kennedy, R. Catolica, etc. If you are into awards, NASWA offers two in this area: the Ecclesiastic DXer award is available for verification of 15 religious-oriented stations, and the Senior Ecclesiastic DXer award for verification of 25.-JH)

RF INTERFERENCE AND THE HOME COMPUTER

by Bill Krause, 6700 153rd Lane NW, Anoka, MN 55303

The home computer is one of the best friends the radio hobbyist has. But like a lot of our best friends, it has one very annoying bad habit: the home computer's a source of RF interference. All home computers, from the most expensive to the least expensive, are guilty to some extent. How much interference the computer generates, generally speaking, is not so much a reflection of cost as it is date of purchase. While, for reasons to be explained shortly, the more expensive units do have some tendency to be less of a problem, the tightening of regulations governing RF emissions of newer computers is a more significant factor. Let's have a look at what in a computer causes the interference, and some possible ways of managing the problem.

The most significant source of RF interference related to the use of home computers comes from the TV set that they are usually hooked up to and the RF modulator which transmits the computer's video and audio signals to the TV. Monitors, commonly used with more expensive setups and sometimes with less expensive ones, do not generate as much RF interference because they don't make use of the RF modulator, which is a miniature TV transmitter, and because they do not have a tuner stage. However, while monitors create significantly less interference than do conventional TVs, they still must be considered a serious cause of RF interference. A second very significant source of RF is the electrical line noise generated by the power supply of the computer and any peripherals such as printers that must also be hooked up. Finally, there is the computer itself. There are usually crystal oscillating circuits and their electronic components within the computer itself that generates considerable RF interference.

So how do we minimize the impact of all this RF on our ability to enjoy the radio hobby? Well, let's briefly look at each source of RF and deal with them in turn. First let's look at the TV and RF modulator associated with it. The cost of black and white monitors now begins at \$50 and color monitors begin at \$200. If the computer is viewed more as a serious tool rather than primarily as a game machine with only minor side benefits, then even the user of less expensive computers such as the VIC-20 or Timex-Sinclair would be well advised to seriously consider a monitor. Besides making less trouble for your radio, the monitor will provide considerably better readability for the computer. Another thing that can be done in this area is to use the best possible connecting cables, using the most shielding. Also keep the length of the cables as short as is practical for your particular setup. These suggestions will help you deal with the most significant source of RF from the home computers.

Another big source of RF interference is the power supply of the computer itself and some of its associated peripherals such as a printer. There really is only one thing you can do about this and that is to keep your computer and its attachments as far away as possible from your radio. But, of course, if you are going to use the two together in any sort of meaningful way, there will be real limitations as to just how far you can go. However, it should be possible to plug the radio and computer in on different outlets, at opposite ends of the room if possible. I have found that this can make an appreciable difference.

Finally, there is the computer itself and its own electronic circuitry. This is a tougher problem, but a problem you can deal with to some extent. First, as I mentioned earlier, newer editions of computers, even of the same make and model, have been forced by FCC regulation to reduce their RF emissions. Generally speaking, they have accomplished this by adding more internal shielding, but sometimes simply by using newer and higher grade electronic components. One manufacturer was able to reduce the number of components by 2/3rds while producing a machine that worked just as the original did. This undoubtedly reduced RF emissions in their computer. But how can you approach the problem? Again, keeping the radio and computer as far apart as possible will help. Another approach is to provide your own additional shielding. Wrapping as much of your computer as possible in a couple layers of aluminum foil will make quite a difference. It won't do anything for the aesthetics, but it will make your radio a lot happier.

It's an unavoidable fact that your home computer is going to cause RF interference that will affect your radio, and probably the family TV too. It is, though, a problem which can be managed in a manner so as to reduce the impact of the RF interference to a minimum. A home computer and a radio can co-exist in the same home, indeed even in the same room, and they can even work together for the enjoyment of their user.

My thanks to everyone for a fine month! A special welcome to Nick Pappas who will be editing his own column directed to SWBC program enthusiasts.

Here's wishing you all a very happy Christmas and loads of good DX in '84. Be good and 73,

HUKERIN

"Herky"

All contributions to LN are gratefully received, but your editor cannot promise a personal reply because of severe time constraints. Material for LN should be marked as such each time (not just on the envelope), as input for other outlets also comes to Box 6287. Reports to gh should not be cut into little strips. It also helps if you use one side of paper only, and do not mix LN items with other correspondence. All times, dates and days are day/month GMT, u.o.s. Please do not ask me for advice on receivers or other equipment. Thanks (gh)

AFGHANISTAN 24/10 R Afgh appeared to have difficulties in feeding DS to xmters. Pgm feed became more & more intermittent from 1536 apx and was lost completely around 1555. Xmters remained on open carrier. 1601, two RA channels, 4740 & 4450 came back w/pgms not of R Afgh, but of the DS of the V of the Islamic Rep of Iran in Tehran; other audible xmters remained unmod. This lasted til apx 1615 when 4740 & 4450 xmters returned to OC. Normal RA pgming restored just before 1620. After some mx, a RA ancr apologised to listeners, saying pgms'd been lost for a few moments due to a power cut (WBI 27/10) So how did Iran pgms get into this? Off-air relays? (gh) Since 1/11, RA ES in AR 1700-1725 hrd on 9705 & 7295 (WBI 10/11)

ALGERIA Since 17/10, Alg R's AR svc hrd on 981 instead of 891 kHz, //other MW & 6160 (WBI 27/10) Alg R AR svc obs returned to 981, //6160 & MW 5/11; second high power xmt on 891 hrd 7/11 w/FR svc // 17745 15215 9685 9640 9510 254 (WBI 10/11)

ARGENTINA Since beginning of Nov, RAE in EG on 15345 2200-2230 ex-2230-2300 (WBI 10/11) R Nacional Mendoza, 6180 audible Sundays, t/in 0925-0950, best ever; because Turismo, Venezuela signs on around 1010 or 1015 instead of 0905 weekdays (Maxfield Greenwood, Sedgwick ME)

BOTSWANA R Botswana, 4848 *0340 w/18 mins of animal farm (Dario Monferini, Milano, Italy, Play-DX) R Botswana quoted Bots President on 3/11 at commissioning ceremony of the first of four 50 kW SW xmters, that the SW expansion pgm'd be complete by mid-1984, when remaining three xmters installed. This'd represent a big step forward in Bots rbc development. All radio listeners'd be able to pick up sigs clearly allwhen. Now, outside Gabarone, there were new SW aeriels, which'd carry sig further than it had reached before. R RSA reported that the four xmters were being installed at a cost of just over three megadollars. One xmt, donated by a W German company, just commissioned. Remaining three, still being installed, 'd been bought by Bots (WBI)

COLOMBIA El Tiempo newspaper reported 8/10 that the govt'd ancd that from 9/10, all new radio stns to be established 'd be subjected to a bidding process. Also ancd that 100 radio stns, which'd failed to keep licences up to date, 'd be closed. In addn, R Nacional and offl or private institutions offering strictly cultural pgming 'd be given precedence in allocation of available AM & FM fqs. Per Comms Ministry, decision to close 100 radio stns was made cause they'd not bothered to renew permits in past pentayear. Tho there were cases when Ministry'd unjustly delayed processing of documents, 'absolute negligence' on part of radio stns was common and Comms Ministry was determined to establish order. Per "Nat'l RBCing Plan" decree signed by Pres & Comm Minister 30/9, new radio stns could only be established in the following areas: a) border areas, b) natl terrs & islands, c) municipalities having no radio stns, d) municipalities w/no more than three AM and two FM stns, providing they comply w/strict rules regarding population size. Decree also says at opening of each bidding process, a list of regs'd determine fq, power, other tech & ec requirements, plus pgm nature. El Tiempo added that govt was seeking to end serious irregularities which'd existed for many years. These included: lack of order and favouritism in issuing of permits; proliferation of radio stns to such an extent that to keep going they had systematically violated their programming commitments by giving airtime to people "who swindle the public, such as sorcerers and quacks", and irregularities such as individuals who apply for a licence to run a radio stn of a certain power but who immediately purchase equipment for a much more powerful stn. Therefore, this problem'd be subjected to a more strict system of controls (WBI 20/10)

[Cf Nov LN, LMI] LV de Samaniego, 6350, still active erratically, eg 24/10 0125, weak mixing utes. New on 6534v is LV Cultural de Guamalito, in Norte de Santander, erratic sked *2000-2230v*, loud in Bogotá, rel talk, HJ ppps. Hrd for a month but only Ided 20/10 2050-2200*. Rel stn, talk on local religious events, sermon on evang elization, HJ pop chosen for non-sexual nature. Asks listeners to "informenos de su sintonfa". Not hrd every day, lousy signal. Another new one: LV del Cauca, Puerto Leguizamo, Putumayo, 5225v, in the jungle on the HC border. Hrd for 3 weeks but only Ided 25/10 due to laziness & vicious QRM. f/in 2200, lost after 0200; 2230-2330 mx

pgm sponsored by "best almacén in Pto Leguízamo". Yet another unofficial Colombian. On. 3780, another mixing product, R Cinco 5040-1260, vy loud 24/10 2335. Also an un-ID perhaps Colombian on 5740. Reactivated R Nacional de Colombia 49m xmtr is on 5979.8v, ex-5932, 6260 etc. Not very loud even in Bogotá, e.g. 9 /11 2330; ID is for HJND-570. Zipping around the hot, flat and dull countryside west of Espinal (Tolima) I passed LV del Centro, and a 49m dipole about 3m off the ground. I almost wanted to get off the bus, but it did not seem like a good place to be left without making arrangements in advance, hi. Maybe next week, hi (Richard Stoller, Bogotá DE)

COSTA RICA TIRI, R Impacto, 6150 now has a newblock from 1100, lasting apx 50-80 mins, consisting mostly of interviews and commentaries attacking Nic govt, Fidel Castro, Communism, etc. Per anmts, similar xmsn at 0300 (C M Stanbury, Ont, Nov SWNS) This is neutrality? (gh) Anmts on R Colombia [sic] indicate it carries a svc called 'Free Nicaragua' 0100-0130 every Monday. Produced by Nic Info Centre of the Communication Dept of ANUDE--the Nic Assembly of Democratic Unity. Since 31/10, R Colombia [sic] hrd on 4825 in addn to 1320 (WBI 10/11) Not only BBCMS, but numerous other DX bulletins insist on running this as R Colombia, in some cases assuming it is in the country of the same name, instead of the proper R Columbia, a long-established CR stn on Mf. "Oh" and "oo" sound rather different to me--why do so many have such a problem keeping this straight? (gh)

CUBA RHC in SP on 15525 0200-0600*, VG, maybe USSR xmtr (Bob Padula, RA JP DX 12/11) Doubt it; other times of day obviously from Cuba on this fq, and no USSR relays previously during this time period (gh) RHC on 7385, 0415 22/10, usual stuff, talk on Socialism (Chuck Oliver, Spring TX) Language?

CHILE R Patagonia Chilena, *0930 w/different s/ons different days; & love-song-like anthem "O Patagonia"; but window is narrowing; f/out by 0950 (Maxfield Greenwood, ME) Presumably 6080

ECUADOR Rdif Casa de la Cultura, reactivated on new 3205 after eons. First hrd 22/10 & IDed 25/10 at 2235, phone interviews w/lcl bigwigs praising reactivation of RCC-- Dir. of Caja Agraria, Dir of Casa de la Cultura, etc. All HC mx later on, tho sig getting progressively worse. Also on 3134v, an unID religious stn 2200-0000+ 24/10+ samepgm every day, no IDs or recorded mx, Ecuador? (Richard Stoller, Bogotá C_olombia)

EL SALVADOR R El Salvador, I guess on 9553 at 0032 9/11, class mx, finished number & pulld switch 0034 w/out a word (Chuck Oliver, Spring TX)

FRANCE RFI now testing to SEAs, daily 2230-2400 on 9715 7205, in FR relaying F-Int er. Requested reports to Box 9516 (WBI 27/10) See GULIANA FRENCH

GABON AFP reported 25/10 that Gab authorities'd banned local media from reporting any mx from or about France in protest at the publicity given in F to a critical book about Gabon. First effect of the ban was that the natl radio & TV nets, as well as Africa Number One--the most powerful intl radio stn on the continent--made absolutely no mention on 24/10 of the attack on French troops in Lebanon, while giving extensive coverage to the one against American marines (WBI 3/11) Hmmm, did this apply too to ANO relays of RFI?? This now jeopardized? 'D love to see that book (gh)

GERMANY WEST Sked from DW shows tests in SSB & DSB 'd be conducted on a number of fqs 6/11-12/11. Further long-term xmsns in SSB'd be bc from 13/11 as follows: 0415-0550 6045 150° AR, 0600-1000 9700 255 GM, 1130-1230 11820 045 JP, 1245-1350 15400 75 IN, 1400-1555 11855 090 GM, 1600-1755 11765 090 GM, 1800-2155 7225 150 GM, 2200-0400 9700 255 GM. The xmsns from Wertachtal 'd've SSB PEP of 300 kW, -6dB carrier suppression (WBI 10/11)

GREENLAND After checking for many months, 3999 finally hrd again since 1/11, t/in 1017, probably *1015; rapid f/out 1027-1029, becoming one minute later per day w/LSR at both places. Woman in GL, ments of Godthab, ham QRM; 1045 ID, single pip, ham QRM worsening, but cl mx audible to 1105 (Maxfield Greenwood, Sedgwick ME, 8/11) Later had a remarkable opening, heard every note of music and every syllable of speech (Maxfield Greenwood, 19/11) The SW xmtr of Grønlands Radio at Nuuk on 3999 is at present inactive due to erection of the new omnidirectional antenna. When operating again it should be easier for SWLs in NAM to hear GR (Erik Kåie, p.t. Greenland, WRTH NL) Passing thru? Hardly a std abbr (gh)

GRENADA On 5/11, CANA mx agcy referred to a bc from 'Spice Isle Radio', which'd been monitored in St Vincent. Stn had replaced R Free Grenada, destroyed during last month's invasion (WBI 10/11) Hmm, so Grenadians no longer consider selves free?

GUIANA FRENCH Fq sked published by TDF, French controlling authority for bc xmtrs, for period starting 4th March 1984 shows this sked for new SW relay stn in Montsinery: 0900-1000 11880 9575, 1000-1100 17860 11880 9575, 1100-1200 17860 15435, 1200-1800 21580 17860 15435, 1800-2200 17860 15435, 2200-0200 15300 11790 9605. A fq sked for D83 has not been rxd and use of relay stn during this time cannot be established(WBI)

GUINEA unID on 15313 at 2015 9/11, guess Af; native mx till 2016 man speaking unk lang, covered by Paris 15315; 2038* (Chuck Oliver, Spring TX)

HONDURAS stn on 4965 around 1140, first thought Asian; not Colombian; but TC for GMT-6 at 5:45, "Esta es Comayagua Ranchera.."; ID starting with "Radio --" also hrd; Radio Landia formerly listed but "Landia" not hrd and not sure if this stn; but definitely in Comayagua. Nothing but ranchera format; in Spanish only, no Indian (Maxfield Greenwood, Sedgwick ME, 19/11)

IRAN VOIRI DS quoted Managing Dir of V & Vision of the Islamic Rep of Iran (VVIRI) as saying 23/10 that there was already a SW net, which became operational in Feb/Mar 1982, comprising six 500 kW xmtrs, 16 aerials, covering 2/3 of world. A powerful SW xmtr, purchased from Switzerland recently, 'd become opl soon. VIRI EG ES added 24/10 that 'world svc' pgms of the VVIRI 'd be increased to '25 pgms'. VVIRI was also endeavouring to increase output of AR to 24h (presumably per day). Duration of EG, GM, FR pgms 'd also be increased (WBI 27/10) VIRI anmt 25/10 said 0330-2030 AR ES now sked: 15315 0330-1300, 15084 1730-2030, 7230 1530-2030, 7215 0330-1500 + MW & FM. Monitoring reveals the ancd SW fq usage is accurate unlike MW & FM (WBI 3/11) AR svc is hrd on 11745 instead of 15315 despite anmts (WBI 10/11)

IRAQ R Baghdad Persian svc obs: 0600-1300 11775 or 11765, 9595 or 9585, 7180 or 7170, 3367. 1600-2300 9595 or 9585, 7180 or 7170, 3367(not 1900-2000). 11, 9 and 7 MHz outlets subject to constant variation (WBI 20/12) R Baghdad 9745 xmtr monitored: 1100-1425 Turkmen svc ancd, but appears to be in Turkish; 1430-1525 Turkish to Turkey; 1600-2100 V of the Masses in AR to Eu. After 2100 carries the domestic WOM svc (WBI 3/11)

ITALY Between 0700 & 0930 apx on 18/10 & 19/10, a stn mainly in IT called "R Time" hrd on 7104.7. EG anmt 0703 19/10 gave sked for Eu: 0600-1500 7105, 1500-0600 7110, 0000-2400 6145. Also said Sat & Sun on 7145. Addr: R Time, P O Box 79, 50018 Scandicci, Florence, Italy (WBI 20/10) R Europa Intl, 9420, hrd 27/9 // 97.25 MHz, so there is no doubt it comes from Italy, near the French border. Exact addr not known yet; the P O Box 1, Perinaldo is no longer valid (G Mennella, Italy, Play-DX)

JAPAN Audible here most nights I stay up late enough is AIA stn JJD, Tokyo on 10415.15950, sending "solar & Geomagnetic reports" per CFL#5, and that's what the few-making-sense alphabetics therein reflect, but the main is alphanumeric cipher. Anyone with more details on this stn and its xmsns? *0700-0750v* (David Newkirk, Seattle WA)

LEBANON V of Lebanon, pro-Phalangist; AR ID: Huna Sawt Lebnan, Sawt al-Hurriyah wa al-Karamah; English: This is the V of Lebanon, the V of Freedom & Dignity; on 6550 0415-2125, all pgms in AR except 1315-1320 FR nx, 1400-1405 EG nx, 1800-1810 FR nx, 1815-1825 EG nx. Believed to bc from Al-Ashrafiyah, first hrd 24/9-29/9/75. Xmsns resumed 22/1/76 but may've been suspended some time later. VOL hrd w/regular pgms in AR, FR, EG, and at one time Armenian & Italian since 1/77. Stn ancs this addr: P O Box 165271, Al-Ashrafiyah, Beirut, Lebanon (WBI 27/10)

Newspaper 'As-Safir' reported 26/10 that the Islamic Unification Movement in Tripoli, 45 mi NNE Béirut, 'd started expl bcs (WBI 3/11) Recent monitoring of V of Truth, supporting Progressive Socialist Party of Leb, show it's on 1080 0700-1130 & 1415+ apx (WBI 3/11) 2/11, V of Arab Lebanon, supporting al-Murabitun Independent Nasirite Movement, quoted 'security reports' that Israeli experts were strengthening radio and TV xmsn masts on the high hills of Jabal Safi--E of Jba', Jazzin hills-- and on the eastern hills overlooking Sidon and its coastal area. Techs'd installed eqp for a spl bcng stn for the local Israeli admn in S Lebanon in case the 17/5 accord was annulled. BC stn named "R 17th May" (AR: Idha'at as-Sabi' 'ashar min Ayyar') (WBI 10/11)

LIBERIA ELWA, Monrovia ES for Sudan Interior Mission stn: 0630-0700 AR Naf 11940, 0630-0845 Sat EG/Waf langs WCAf 11830, 0630-0900 Sun EG/Waf langs WCAf 11830, 1215-1315 FR/Waf langs Waf 9550, 1300-1630 Sun EG/FR/Waf langs WCAf 11830. 1630(Sat 1700)-2120 EG/FR/Waf langs WCAf 11830. 1815-1945 FR/Waf langs Fri/Sun Waf 6070; 1815-2000 FR/Waf langs Waf not Fri/Sun 6070. 2015-2115 AR Naf 11850 (WBI 3/11) DS in EG: 0600(Sun 0700)-(0802 Mon-Thu, 0817 Fri) 4765, Sun 0830-1530 6070, Sat on 4765 to 2302. Mon-Fri 1530-1757 6070, daily 1730-2302(Sun 2247) 4765 (WBI 3/11) Or something like that; as usual, BBCMS' method of presenting the info is different and rather confusing (gh)

MALI Rdif Nationale du Mali, Bamako DS sked is also very confusing; instead of showing Mon-Fri sked in one sequence, Sat in another and Sun in another, times thruout day are given w/different s/on times mixed in, some fqs used certain days only, etc. However, I have rearranged it into this: Mon-Sat 0600-1000 5995 4838 4783, 1200-1800 11960 9635 7110, 1800-2400 5995 4838 4783. Sun 0700-1800 11960 9635 7110, 1800-2400 5995 4838 4783 (WBI 3/11 & gh)

MEXICO XEUJ, Linares, on 5979 at 2120 25/10, typical Mex mx, vy good sig. XEQM, Mérida, 6105, same as above--rather hear this than R&R stuff many stns put out (Chuck Oliver, Spring TX)

MOROCCO RIM DS, Rabat, Net A in AR: 0600 11805 9865, 0700 15335 9865, 0800 17815 15335, 1100 17815 15595 15335, 1400 17595 15595 15335, 1700 17595 15335 15330, 1800 15335 15330 9865, 2000 15335 15105 9865, 2100 15105 11960 9865 (WBI 27/10) Given this way as BBCMS appears to check fqs on the hour for nx w/out necessarily specifying exact times of fq changes (gh)

NEPAL 5005 strong 14/11 thru 18/11, *1147 mx, ID, IS, ID again, charming man w/little children talking/teaching/singing in NP, recitations, giggles to 1205 nx, mx, 1220 IS & f/out. Berg thinks I shouldn't be able to hear it that late, but there it is. Different format from 9589 a couple years ago which had EG IDs; this is entirely DS; not Sibiu, Sarawak; checked 9590 but nothing besides KTWK; no carrier on 3425; on 19/11 had carrier only on 5005 which could've been Sibiu (Maxfield Greenwood, Sedgwick ME)

NIGERIA Monitoring since 13/10 shows R Nigeria testing new xmtr & fq for its proposed Educational Svc. Tests hrd on 4932 w/local timespan of 0500-2400 ancd. At times 4932 // R Nigeria Lagos on 4990 for news; Requested reports to G.M., Educational Svc, R Nigeria, Ikoyi, Lagos (WBI 20/10)

OMAN R Oman audible again on 11890, in AR to 2125*. Jamming from 11895 spread a problem but Oman came thru it. 2050 AR mx, 2100 ID, AR nx mentioning "U.S.A.". 2117 Qur'an, 2123 s/off when no ID noted. M vocal chorus, presumably NA, and quick c/off; listed 2130* (Maxfield Greenwood, Sedgwick ME, 19/11)

PERU R Nor Peruana, 9655 usually *1106, one day *1111, YL ID, Andean mx, clear chan nel w/Thai on 9650 (Maxfield Greenwood, ME, 8/11) New addr for R Imagen, per verie, is Jr, Ramón Castilla 255, Tarapoto. Verie rxd in just 641 days. Calls are OAX9M on 5035 (John Wilkins, CO) On 3704v is R Lux, not Luz as I had erroneously thot. G sig 26/10 0030, Peruvian mx, Andean & some Criollo, slogan "tu emisora preferida, tu emisora querida". Fair sig on 3910a from R Nuevo Cajamarca, 26/10 0040, Peruvian mx. M ancr w/indifferent mic mod tho mx sounds OK. Apocalyptic static crashes & bad ham QRM. Also unID Peruvian on 3934v; and on 5811v--R Altiplano? R Tingo María, 4760, 4/11 0920 odd Andean pop mx w/electronic backings; several IDs & bad TCs, same level as R Inca 4762. unID on 6965 9/11 0032-0140*, vy long ballads, mddy sig, also as of 14/11, maybe Altiplano 5812-5815v, 3943 & 3142 still unID, both seem hopeless (Richard Stoller, Bogotá DE, Colombia) R Los Andes, 5030, finally QSLed 2nd report after 85 days or more. Personal letter in which they propose to start a DX pgm for foreign listeners; write soon supporting the idea. Had sent a C-10 cassette and a US greenback plus several Italian stamps. (Richard Stoller, Bogotá DE, Colombia)

CLANDESTINE CRANNY R Liberté, a new cland, appears every Sun & Wed on 9610 to Haiti, in Creole w/ID in FR, 2100-2200 & repeated at 2300-2400 (Frantz Volton, Martinique, Nov DSWCI SW News) I wonder if that's actually a Moscow pgm; latest BBCMS survey of RM not in yet (gh)

Liberty The Nov Popular Communications (via Jack Widner, IN) contains an article on Liberty by Don Jensen. Among other things, it states "One Canadian, with a straight face, interpreted an ambiguous remark by Liberty to mean she was broadcasting from Ottawa. A critic later observed that the improbable interpretation did result in the Canadian monitor being interviewed by a couple of his local TV stations". Aside from this obviously dishonest attack on CMS, and not explaining why Liberty made her bizarre Canadian claim in the first place, Jensen writes that Liberty was a television newscaster named Silvia Fernández Barito and that "Argentine broadcasting insiders confirmed that the stn indeed broadcast from a secret xmtr at a military base in the northern part of the country". All of which might be absolutely true, but one would be inclined to take Jensen's claim of reliable inside sources much more seriously had he explained and identified the crossmodulation -both with another Argentine bc stn and a jammer - so often hrd on Liberty's xmtr. On the other hand, one must take this article in the overall context of contemporary cland bing, what is being written about it, and who is publishing these articles (C M Stanbury II, SWNS)

R Free Surinam, hostile to govt of Surinam, hrd 0106-0135 16/10 on fq varying arnd 6905; not traced agn til 20/10, when found back on 6850 (WBI 27/10)

October Storm Radio /China. In a nx report 1/11, V of Vietnam quoted info which it said came from clandestine station of this name which'd recently started in China. VOV said a bc from the stn 20/10 'd been hostile to Deng Xiaoping (WBI 10/11)

Kawthulay Radio As reported last month, stn tested 22/10 & 23/10 0030-0150 on 9775. In Sgaw and Pwo Karen 0030-0130, in Burmese 0130-0140, EG 0140-0150. EG segment, addressed 'to all Karen natls and the entire people of the country' and that the test'd be made twice a week, Sats & Suns, 0030-0200 (WBI 27/10)

V of the Tamil State In a report from New Delhi 6/11, AFP reported that xmsns from this new stn, possibly from somewhere in Sri Lanka, 'd been picked up in Madras. AFP quoted the United News of India (UNI) that an inaugural bc 4/11 'd opened with the song "Love Live Tamil State" (Tamil: Vazhgha Tamil Eelam). UNI said SL Tamils in Madras'd indicated stn'd been set up by a militant youth organization calling itself "People's Liberation Organization of the Tamil State", using equipment bought from W Germany. Exact location of stn, on 4lmb, unk, but Tamils in Madras said it was not on Indian terr. Report in Dubai-based newspaper Khaleej Times, 8/11 said SL Govt'd ordered navy & air force to scan the Indian Ocean to track down a mystery ship which has been being illegal radio pgms. First pgms'd been upicked in SL & S India on 4lm 6/11, began w/EG & Tamil songs supporting separate Tamil state in SL. Per Khaleej Times, SL gov't believed eqp used to xmit pgms was of W German manufacture and was extremely powerful. Had IDed as v of a separate Tamil State in SL. Said pgms'd be bc weekends for two hours and promised being hours'd be extended (WBI 10/11)

Free Voice of Iran (Persian: Seday-e Azad-e Iran), hostile to Khomeyni and his followers, on constantly varying fqs 0300-0400 Persian; 1500-1550 Persian and irregularly in Azeri, on 11765 9585 7180 3367. First hrd 29/5/80; thru facilities of R Baghdad, Iraq (WBI 20/10)

V of Iraqi Revolution, 7006 kHz, hostile to Iraqi govt, favouring Kurdish autonomy, and that from 30/10, AR at 0400 will be retimed to 1230 (WBI 3/11)

V of Palestine, 3925, in EG w/a somewhat yankee accent, hrd 31/10 1645-1740*, P-G. No idea from where--Lebanon? (V De Tomasi, Italy, Play-DX) Euro pirate shenanigan?

V of Palestine / Lebanon / V of the Palestine Revolution. VOPVOPR, 1412 kHz, supporting Yasir Arafat, abruptly went off the air w/out explanation 0617 3/11; but 0848 5/11, unID stn on 1412 hrd playing recordings of pop AR mx; operated intermittently til 1115; hrd same day 1730-1930. The unID returned 6/11, 7/11, 0500-0700 apx; again 7/11 *0750, ID as "V of the Palestine Revolution, V of the Palestine Liberation Organization" (Arabic: Huna Sawt ath-Thawrah al-Filistiniyah, Sawt Munazzamat at-Tahrir al-Filistiniyah). Brief talks bc by stn at 0850, 0900, 0912 indicated it was now carrying material hostile to Yasir Arafat. 0908 also IDed as "VOP, VOPLD, V of the Palestinian Natl Unity". Continued most of the rest of the day. 8/11, VOPR hrd 0505-0535, 0700+; 0752, told listeners it was the voice representing Pal natl unity. Xmt from Turbul from the radio the "Arafat mercenaries" left behind, from same place, same means, same eqp. R Lebanon reported 3/11 that residents of Tripoli and vicinity had woken up that day at 0300 to sound of artillery shelling and explosives. Violent battle'd begun between the Abu Musa Pal forces and the pro-Arafat forces. Initial reports stated that Abu Musa forces were able to take control of several positions in the area, incl VOPR, which stopped xmiting at 0620 (WBI 10/11)

Our Radio / V of the Communist Party of Turkey 3/11 until 1400, these stns which share a xmt'r believed to be in the GDR, operated jointly to carry a spl pgm on the 5th Congress of the Communist Party of Turkey. After 1400, OR & VOCPOT carried their own separate pgms (WBI 10/11)

V of Sudanese Popular Revolution, 17940, 9/11 1705, native mx, on and on; good S5 sig (Chuck Oliver, Spring TX) ID? Presumably from Libya

NORTH AMERICAN PIRATES V of Democracy hrd 1/11 on 7415 w/ SINPO 23222 but good audio. 0353 anc'r ment'd phone 212 283 9977, and "the greatest country in the world", then "live xmsn from the USSR" but nothing happened. Played IS (last 2 bars of NA on organ) w/ID repeated several times. Then tried again for 'live xmsn' but anc'r ment'd "technical difficulties" until 0400 when the 'xmsn' came thru, a commentary on the Beirut bomb-

ing (RM spoof), t/out 0402 (Travid D McLemore Jr, Clearwater FL)

Jolly Roger Radio noted w/good sigs on 12040 1/11--Halloween night NAM time--in Indianapolis until abruptly leaving the air at 0233 due to tech problems (Jack Widner, SWNS)

R Clandestine, 4889.5a, 4/11 0435-0506*: usual pgm of raucous rock tunes, R. F. Bumms w/canned slogans, and a test of the Universal Spaceship and Flying Machine Imperative Locator; G sig, but lots of QRN, no QRM; s/off w/out fanfare 0506 (John Wilkins, CO)

KPRC, 6280, 10/10 on at 0501 past 0545 taking phone calls from WDX who said they'd be back around Thanksgiving on 1620, NYC, Ohio, and Jackson Heights NY. Sig sounded like trans [? -gh] because of QRN. KPRC on 1616, 24/10--the evening of the bombing in Beirut--44444, *0230 w/"Who's afraid of the Big Bad Wolf" followed by a statement by host Pirate Joe that Ronnie Reagan was the b.b.w. Several IDs hrd, along with well-done jingles. Many war protest songs played and he said millions of people should demonstrate so the US will pull out of Lebanon. At 0332 phone calls taken to 212-352-9906 w/calls from Jackson Hts NY, Williamson NY--guess who, Ohio, Colombia [sic] Crossroads PA; Pirate Mike of WDX; Wilmington DE, Montreal PQ, Burlington VT, Ottawa & Toronto Ont. At 0530 he played the famous parody of "electric Avenue" called "Stupid Avenue" which I had requested. Also claimed to be on 6280 SW (not hrd) and 91.5 FM stereo. Gave Exeter.NH addr (Nolan Stephany, Williamson NY)

Free Radio Directory, Third Edition, Dec 1983, (C) 1983 John T. Arthur. These are known mailing addrs of recently active NAM Free Radio Stns, accurate to 15/11/83. In an attempt at completeness, this list includes some inactive stns, but those inactive for more than one year have been purged here. Entire list published in December ACE.

Box 144, Riverside NJ 08075: KHO

*=known to be inactive or busted...

Box 245, Moorhead MN 56560: WDX-1620, KMJC, New Wave Radio Intl, The Crystal Ship

Box 302, Levittown PA 19057: WRAM*

Box 747, Exeter NH 03433: KPRC-1616

Box 982, Battle Creek MI 49016: WOIS, WOOF*, WPOT-1610*, KTGR, Radio Alpha Corona*, Radio Amity*, Radio Clandestine, Radio Confusion, Radio Free Wombat, Radio Flying Dutchman, Radio Indiana, Radio Laryngitis, Radio Northstar International*, Radio Paradise International, Radio Toronto*, Radio Xenon*, Voice of the Pyramids, Voice of Sincow.

Box 5074, Hilo HI 96720 (formerly Box 4948, Arcata CA 95521): KCFR*, KFAT-1560, KMTL-750, KQSB, Radio Free San Francisco*, Radio USA.

Box 40554, Washington DC 20016: Pirate Radio New England.

When contacting a Free Radio station: (1) Use the addr announced on the air; if none is ancd, try the one listed above. If all else fails, send a report to one of the main maildrops and hope for the best; allow longer for additional forwarding, of course. (Note: Many stns can be reached thru other addrs than these; some stns that no longer operate can be reached thru Battle Creek, e.g. KVHF. Some older boxes may be closed, w/no forwarding addr on file at the PO).

(2) Enclose adequate postage for forwarding and reply; three 20c stamps will cover everything. Do not expect a maildrop to pay for your QSL! Remember that announcing a maildrop is NOT guaranteeing anything; there are other reasons to want audience contact. And don't blame the maildrop if you never get a QSL. We are not QSL managers; we simply forward mail; the Operators are supposed to live up to the '100% QSL' promises they make.

Stns are requested to confirm addr info and active status prior to 1 May 84 for inclusion in the Fourth Edition, to be published in June 1984. Reader additions and corrections are also solicited; send all input to Box 5074, Hilo HI 96720. This list may not be reproduced for commercial use w/out written permission from the author. Non-profit use unrestricted (John T Arthur, HI)

UNIDENTIFIED

15008 Timesig stn hrd at 1300 18/10, lang in Chinese or Japanese by woman,

time pips similar to YVTO (David Swaringen, NC)

11395 Arab stn at 1910 1/11, M speaking until 1915, then flute notes followed by a shout about America, mention of Khadafy; AR mx, 1928 mil mx, short slogans(?) My guess is Libya (Chuck Oliver, Spring TX) Or cland V of Libyan People

7430, 1/11, SINPO 34323, t/in 0250 w/"Devil Woman" by Cliff Richard, "Rhiannon" by

Fleetwood Mac and "Swamp Queen of New Orleans". At 0257, what sounded like an anti-rock preacher came on and mentd "and around and around..." but w/poor audio. 0300, hrd part of a movie soundtrack ("...aliens have reached Chicago south side and suburbs..") and a mortar's[?] version of nursery rhymes set to 50's mx. Supposed ID at 0303 "...WCFE, Pelham, Mass." (checked the Broadcasting Annual Directory, but it didn't exist in the 1982 edition, so must be new stn). Peter Gunn theme followed, accompanied by screams, dogs barking and dogs howling. Another ID at 0309, then "Riders of the Storm" by the Doors w/same sound effects. F/out 0313. Probably R Clandestine, or R USA? (Travis D McLemore Jr, Clearwater FL)

7415_0, The Laugher; Pirate? 29/10 & 3/10 0413-0430* & 0325-0331* respectively. SINPO 55555 & 45433 resp. Was a continuous tape loop of a man laughing/haunting, much similar to those mechanical clowns in fun houses at amusement parks, for an IS, followed by a chant (kind of weird) on the Funny Farm, which was quite pro. Note the s/off times change with the local time so came undoubtedly from USA/Canada. On 31/10 GMT, southern condx enhanced so sigs weaker. My guess is this came from Willard Psychiatric Center, Willard NY (hi). Like a tape? (Nolan Stephany, Williamson NY)

6800, 22/10 0325. Strong carrier but vy weak mod. Spanish, couldn't make out anything; 0335, excerpts from "Ave Maria", then F anc (Chuck Oliver, Spring TX)

4901, tremendous het w/Juventud noted already at 1045, 1050. Juv generally holds strong to 1140--past their sunrise; now done in by 1110; unthink it's Indo; CAM likely; seems to be M & W in EG and SP (Maxfield Greenwood, Sedgwick ME, 19/11) Lang mix reminds me of Mosquitia--move from 4910? (gh)

3000 & 2850. From 2205 tune in past 2215 9/11, two clear oriental sigs--2850 probably Pyongyang tho lang sounded more like Chinese than Korean, but we're no expert on orlangs. 3000 had what we thought was Chinese mx until 2210, then M & W w/commentary. Conceivably Pyongyang's foreign svc ex-3015. No trace of either sig the following nite (C M Stanbury, II, Ridgeway Ont, SWNS)

PUBLICATIONS Broadcasts in English Audible in North America, based on Oct RIB listing by time, but updated as recorded by David Newkirk, is now available on tape for the blind, in standard Library of Congress 4-track cassette format, both with tone and voice indexing. Is recorded on 3 sides of two C-60s; cost is \$5 from Northwest Foundation for the Blind, 5250 Rainier Ave. S., Seattle WA 98118 (Stewart Russell, WA)

Review of International Broadcasting, the magazine for shortwave listeners, includes in the November issue--cover photo of KFBS Saipan; Report from Paraguay by Tony Jones, a Brazilian survey by frequency, plus Bolivian and other observations; Radio Equipment Forum, edited by David Newkirk, on the RV75 VFO to relieve Drake R7 drift; notes on the ICF-2001; comparison of the Uniden CR-2021 and the Realistic DX-400. They Said it About Lech Wałęsa's Nobel Peace Prize, by Mark Schlesinger. Listener Insights on Programming--reviews and program schedules on Australia, Austria, Brazil, Canada, China (including Beijing feature topics for December), Czechoslovakia, Ecuador, West Germany, Hungary, Ireland, Italy, Japan, Malaysia, Nepal, Norway, Paraguay, Peru, Spain, USA. Complete BBC programming for December including Christmas specials. 5-page DX-Listening Digest similar to LN main section w/largely unduplicated info. 1-page Report from Peru by Juan Carlos Codina; and more. Samples are offered only for the purpose of introducing potential subscribers to the magazine; repeated orders for individual copies are not desired! Samples are \$1.25 in North America; \$2 or 7 IRCs elsewhere. Subscriptions are \$15 in North America (i.e., USA, Canada, Mexico, US overseas possessions, APO & FPO) by first class; \$20 to Caribbean, Central America, Venezuela & Colombia; \$22 to rest of South America, Western Europe, North Africa; \$24 to rest of Africa, Europe, USSR, Asia, Pacific, by airmail. Remittances must be in US\$ and on a US bank w/standard US magnetic banking code imprints; or by international postal money order. Prices valid through 1983. Order from R.I.B., Box 6287, Knoxville, TN 37914, USA (gh)

Directory of World Band Radio, gh's introductory book on shortwave listening, has just been published in its revised 2nd edition, by Sony Corporation of America. Check with your Sony SW dealer for a copy, list \$7.95. It should also soon be available through Sony's Kansas City address previously publicized, tho the part number, which must be specified when ordering, will probably be different from the 1st edition. We hope to have details on how to mailorder it next month. In the meantime, info from Chris Davis, Sony Corporation of America, Sony Drive, Park Ridge NJ 07656. The 128-page softbound book emphasizes programming, with schedules by country, time and frequency; intro to propagation; glossary of abbrs. and SW/DX terms, and much more (gh)

1984 World Radio TV Handbook The 1984 WRTVH will be published in Jan. or Feb. 1984 and retail at \$17.50 in the US; orders are being taken at \$15 USPS book rate, worldwide, or United Parcel Service, US only (please specify) or \$16 first class mail, US only. Calif. residents must add 6% sales tax. Orders, with an SASE for confirmation of shipment, and a check or money order in \$US on a US bank, payable to CENTURY PRINT SHOP, should be mailed as soon as possible (no deadline) to: Century Print Shop, Don Erickson, 6059 Essex St., Riverside, CA 92504-1599. Inquiries welcome, (714) 687-5910. In Canada, please include \$21 fourth class or \$23.50 special delivery and mail orders for receipt no later than Jan. 7 to: Canadian International DX Club, Don Moman, 6815 12th Avenue, Edmonton, Alberta, Canada T6K 3J6 (Don Erickson)

LAST-MINUTE INFO BANGLADESH R. Bang, heard at *1355 w/IS, some days much better than others depending on Peking(?) QRM, varying 11946-11945, usually closer to 11946. Usually stronger than China, and ECSS/USB gets it. Very good 19/11, no ECSS needed; YL ID believed to be in Urdu (Maxfield Greenwood, Sedgwick ME)

BELGIUM I arranged with pirate KBC to test for North America on 27/11 at 0500-0600 on 6262; they tested last year on this fq, and were logged with fair signals by me and several others. KBC's xmtr operates from a location in Belgium; however, reception reports can be sent to KBC, Box 725, Arnhem, Netherlands. This station is an excellent verifier and also produces an informative newsletter, "Goed Nieuws", every month detailing listeners' reports and other pirate broadcasting activity (William J Martin, Wilmington DE) RCI listeners were tipped off about this in time (gh)

BRAZIL At first seemed to be a new stn on 4750, strong, frequently mentioning Amapá; Christian fundamentalist pgms, as early as 2105--remember how far east I am--17/11--not Bertoua or Luanda wandering. Strong at 2110 and Cuiabá was very strong by 2210; but this one gone by 2200 when nat'l pgm'd've //ed as Brazil. Checked 0910 18/11, & also in w/religious mx in PT, EG, PT preaching, refs to Amapá; sunset is currently at the same time in Amapá and Sedgwick, so there's a gray-line path. However, stn on 4750 at 0215 20/11 seemed to São Luiz, Maranhão, down from 4755 (Maxfield Greenwood ME)

NEW SHORTWAVE SCHEDULE PUBLICATION

A new softbound 200-page computer printout of shortwave broadcasting schedules will be published in December and made available to individuals, international broadcasters and research organizations in January 1984.

Titled RADIO DATABASE INTERNATIONAL, the printout is designed to provide a convenient reference source to frequencies in use, target areas, and schedules of all shortwave broadcasters between 2.3 and 30 MHz.

The presentation will be in the form of visually-appealing computer generated bar charts that completely eliminate the need to search text material for schedules and frequencies. Key-language programs are identified by easily recognizable symbols.

RADIO DATABASE INTERNATIONAL is being developed by International Broadcasting Services, Ltd. and compiled/edited by Larry Magne. The editorial staff of RDI includes world-reknown SWL's such as: Sarath L. Amukotwa (Chief African Monitor), Victor T. Goontilleke (Chief Asian Monitor), Noel R. Green (Chief European Monitor), Don Jensen (Tropical Bands Editor), Tony Jones (Chief Latin American Monitor) and Professor David D. Meisel (Propagation Editor).

Sales and distribution of RDI will be through GILFER SHORTWAVE (a subsidiary of GILFER Associates, Inc.) A Special pre-publication price of \$9.95 will be available until 31 December 1983. The 1984 cover price will be \$11.95. A Summer Edition will be published in June. Further details on RDI available from GILFER SHORTWAVE.

52 Park Avenue, P. O. Box 239, Park Ridge, N.J. 07656 (Area Code 201 391-7887)

NOTE: That's it for another month. This time we had @ 99 countries reported. A little bit below our average but with quite a few good QSLs...

I sincerely hope that everyone has a verie good holiday season. Best of DX, best wishes for the coming year and may Bhutan and Tristan be heard by everyone... Sam. John Sgrulletta of RR #1, Box 128, Mahopac, NY 10541 needs addresses for hams WR6KY and KV4CD. Any help? Jay Florian advises us that he has just reorganized his shack after getting married. He hope to be very active in DXing this winter season. Don't spend all your time at the dials. Hi! Steve Leite informs us that he is now using the ICOM IC-R70 receiver. Santa Claus came early! A big welcome to C.J. Orekar a new reporter to the QSL Column. Also to Al Sizer who is back after an illness. Peter Dillon is busying studying for mid-term exams in Philadelphia, PA. Hope you pass all of them. Ray Niekamp says that he is starting to enjoy the benefits of QSLing the Latin stations. He is especially pleased with the QSL from Pablo Cardenas Valverde of Radio Los Andes in Peru.

Bill Mayer says that he is presently employed as a DJ at campus radio station WKSC. Its not RSA or SRI but its something.

As I said above the best of this season to everyone.

Sam

DECEMBER 1983

Greetings to all. We welcome several new contributors this month. This issue of Scoreboard spotlights Oceania and Antarctica. C/H = countries heard and C/V = countries verified. Country counts are by the rules established in the NASWA Radio Countries List and Awards Program booklet. An * after the total C/H = Antarctica heard and an * after the total C/V = Antarctica verified.

The deadline for the next Scoreboard will be 15 February, 1984, for the March issue of FRENEX. NOTE: Publisher Bill Oliver may have to delay the appearance of Scoreboard until the following month due to space limitations in FRENEX. If Scoreboard is delayed, the deadlines do not change. Deadlines are always the 15th of February, May, August, and November, regardless of when Scoreboard appears in FRENEX. This way we can keep everyone's updates on schedule. The next Scoreboard will Spotlight South America.

Thanks to all our contributors. Remember that you must update your totals at least once a year to remain in Scoreboard. If your name has recently disappeared from Scoreboard, it is probably due to your failure to send an update in the past year. Please share your totals with us in the next Scoreboard.

UPCOMING DEADLINES: 10 December (Mid-Dec) 20 December (January) 10 January (Mid-Jan)

Reproduction permitted. Credit original reporter and NASWA UPDATE. Dates, times and days GMT: freqs kHz.

- ALASKA** KNLS, 6170, in after 1200; fater many tries, finally noted w/ prgm of classical mx. Freq clear before 1200. (Field, MI 11-16)
- CHILE** No local ID on this which did ID as part of R. Nacional net, 9550, in SP 0040-0300; this is R. Portales old freq. "Futbol in Chile" prgm. (Field, MI 11-13)
- CHINA** CPBS-1, 5915, at 2143 w/ W in CH. Dual 5860 and was inferior and had echo. Undoubtedly two different and widely separated xmtr sites. (11-3) CPBS-1 also noted on 4460 at 2127 w/ wake-up exercises; much weaker than // 4905. (11-9) Heilongjiang PBS fair around 2145 w/ modern-style Chinese songs, brief anncmts in Korean by W; this on 4925 during an extraordinary low band opening to the Far East on 11-9. FFBS-1, 3000, weak at 2157 w/ CH mx and talk past 2200; pips on hour, if any, were inaudible. (11-9) Also could hear faint audio from the PRC stns on 2310, 2340 and 2490 around this time. Amazing! (An understatement that. tba) On 6015, an unlisted BBS stn was observed w/ usual pips (5+1) at 1200, then CPBS ID in CH. Not dual 6075. At first I thought this was the Korean that operates here and is very strong in WCNA. (All from Bob Hill, MA)
- CLANDESTINE** V. of Free Nicaragua (tent on ID), 6210, in EG 1200-09; fair poor. M talking about crimes and exterminations committed by the Managua government, martial mx and then off. (Hewitt, MI 11-12)++R. Free Surinam, 6851, in lang 0056-0128:55*. Technician corrected freq to 6850 at 0119. Fascinating prgm but it's all Greek (Sranantongo?) to me, hi! I particularly enjoy their theme song, sort of a disco-military-Hindu sort of ditty. (Ralphus, TX 10-22)++R. Nejat Iran (Liberation Radio/Radio Salvation of Iran), 11659.2, in lang 1902-25*; heard well 11-6. A variety of exotic Persian mx selections, M&W anncrs, a number of IDs with "Nejat" clearly heard in Farsi talks. At one point gave address letter by letter, but tough in reception and couldn't copy. (Ralphus, TX)
- COSTA RICA** R. Rumbo, 6075, in SP 1150; poor. latin mx and ID at 1150 by M anncr. (Hewitt, MI 11-12)
- ECUADOR** R. Panamericana de Quero, 3289.7, in SP 1028-1042; poor and rough tuning 10-18. Sig a bit too unstable for ECSS. Bad QRM from ever-present OC on channel. M gabbling in SP at t/in, clear mentions of Quero and TC as "las 5 de la manana y 29 minutos en R. Panamericana." Into HC folklore show w/ organ mx. Was hoping for the Peruvian actually but nice to hear this one again after a couple of years. (Ralphus, TX)++R. Zaracuy, 3395, in SP 0235+ 11-17; mx prgm w/ ID 0242 and 0250 as "R. Zaracuy, la voz de Santo Domingo de los Colorado en Republica de Ecuador." (Field, MI)++Presumed Em. Gran Colombia, 4910, in SP *1145 10-30 weak but unmistakable HC anthem noted, in big het. Couldn't pull ID but fairly sure this is it. (Ralphus, TX)
- GRENADE** Nx report in USA Today stated stn R. Free Grenada now renamed Spice Island Radio and b¹ asking request to remaining Cubans to turn selves in and for island commerce to get back to "business as usual." (Ralphus, TX)
- GUATEMALA** R. Tesulutlan, 3370.5, in SP 1015-25; very deceptive since rather weak and not // 4835. Guitar selections and clear ID as Emisoras Tesulutlan at 1025, whence I promptly tuned out. Hankering for R. Florida, actually. (Ralphus, TX)
- INDIA** AIR Hyderabad, 4800, in lang 1158-1215; buried in QRN. OC 1158, *1200, anncmts, station ID, Indian instr mx. (Barto, CT 10-22)
- INDONESIA** Bulungan, 2977, in IN 1245 11-6 1245, but none of the Indo cohorts noted this date. Followed to SCI 1300 when long dead air as they waited for Jakarta. (Ralphus, TX) ++RKFDTI Jawa Timur, 3000, noted w/ nice sig 10-20 1227; the Indo season is at hand! Also noted an Indo unID on 2987 1225-51; hoping it's Ngawi. Went there once, and now hope to add it to the "visited and QSLed" category. (Ralphus, TX)++RRI Ambon, 4845, in IN 1130-45; station ID and talks, instr mx, vocals and mention of Ambon. (Barto, CT)++RRI Palembang, 4856, tentative 1130-42 10-22; seeming short nx prgm followed by pause, station ID and vocal tune by M. RRI ID heard but not site. (Barto, CT)++RRI Surakarta, 4899, in IN 1120-33 w/ anncmts by W, station ID and instr mx. Weak to fair. (Barto, CT)
- JAPAN** R. Tanpa/NSB showed well two consecutive afternoons on 3925; first noted from 2104 on 11-8 w/ JP dialogue between M and W; peaked at fair level around 2120 and faded out completely by 2130 or so. Next day hrd same time w/ even better signal. (Hill, MA)
- KOREA (DPR)** Pyongyang, 2850, sometimes at strong level around 2150 on both 11-8 and 9 w/ usual Korean exhortations and revolutionary mx. On latter date also fair were 3032 dual 2850, 3015 in JP and 4557 (VoRev. Party for Reunification) all around 2130 to 2200. No trace of any of them since 11-9 however. (Hill, MA)
- MEXICO** XEWX, 6165, in SP 1130 various mornings w/ local ads. (Field, MI)++R. Universidad Nacional de Mexico, 9600.7-9601.2 reactivated (finally!!!). After several years of checking only to find RMWS, EUNM popped up 10-30 1303-21* on local Sunday. Gone abruptly in mid-

stream due to technical problem. Retuned 1731 and noted them again through 1825 t/out, sometimes w/ good power. Bad het at times but RM not noted until check at 0200 when RMWS blotting out channel. During 1731+ period, medieval flavor Latin choir selections, fabulous and moving mx. Several times, sequence of 4 chimes, ID and 4 more chimes. At 1804, choral prgm ended w/ W back-ID of prgm, then M mentioning: "Senoras y Senores, la programacion correspondiente al dia de hoy de Radio Universidad Nacional de Mexico... orgullosamente ahora presentamos a las doce con 4 minutos La Orquesta Filarmonica de la Universidad Nacional--muy buenos tardes." Then live anncr from concert haal did play-by play of maestro's arrival. Gave ID at same time as "transmisor de onda corta...R. Universidad Nacional de Mexico en 9600 kHz banda internacional de 31 metros de onda corta...y...de frecuencia modulada estereofonica." Then into symphony w/ fine sigs to 1825 t/out. At 1851 recheck M interviewing W about unique instrumental variations of University symphony. (Ralphus, TX)

NIGERIA VoN, 7225, in EG 11-12 0500-0600; included nx and into FR at 0600. ID as West African Service of VoN. (Field, MI)

PERU R. El Sol en Los Andes, 3230s, marvelously strong 10-30 at 1005+. Cumbias (yes!) and 2 anncmts mentioning LV de Qollosuyo. Thought I had something dandy cooking but then at 1008 came mellow queenas tema and then OM anncmts in eco, followed by different anncr saying, "A traves de R. El Sol en los Andes, muy buenos dias." Into huaynos. Always happy to hear this one. (Ralphus, TX)+++R. Bagua as follows: 3309.9 hrd *0957 w/ NA, then fast s/on by M: La hora en Bagua, 5 de la manana." Then jazzy mx, M&W canned s/on anncmts. Vy strong now that s/on is an hour earlier. Also noted 10-30 on 3310.4 rather early at 1013 w/ best signal yet. Many IDs by W&M, she w/ theme), 1014 full ID w/ MW, SW freqs and calls, 5:15 t/c. Obviously former *1045 s/on no longer applies w/ expansion of b'cast day. (Ralphus, TX)+++R. Concordia, 9580.3, in SP 1005 10-22; located in Arequipa. Folklore prgm w/ W anncr, and reasonably good at 1030 recheck. Have only hrd this on weekends so far. No QRM this time. unlike prior log. (Ralphus, TX)+++R. Norperuana, Chachapoyas, 9655, in SP *1055 10-22; anthen then W w/ quick ad libbed opening anncmt, not canned version. Into queenas and drums tune. Good sig. (Ralphus, TX)+++Estacion 2000-Radio, Rioja, 9988: lowdown per lengthy QSL from v/s Sr. Pedro Rojas Melendez, gerente. QTH as reported by Codina, Jiron Faustino Maldonado #731, Rioja. Slogan is "La Radio con Personalidad," and is small enterprise w/ 7 employees. Stn uses Royce brand xmtr of 12 (yes, 12) watts output, "with a view to raise this to 50 watts in the future." Antenna is "coaxial w/ two towers 17 meters high." Transmissions thus far in test mode. Station has recently added a Royce brand mobile unit to its growing equipment base w/ a range of 15 km. Sr. Rojas is intrigued about the possibility of importing a 500 or 1kw commercial grade xmtr. Current Mon-Sat sked projection for local audienees is: 1130-1200 APERTURA DE PROGRAMACION, con musica del Folklore Internacional; 1200-1300 PANORAMA ESTUDIANTIL, temas de cultura general y mxs OA folklorico; 1300-1700 LA MANNA ESPECIAL, programa cultural, consejos familiares, horoscopos del dia, musica varida; 1700-1800; PERU CRIOLLO, valse peruana; 1800-1900, LOS INSTRUMENTALES DE LA HORA, musica clasica; 1900-2200, LOS CONSA GRADOS DE LA TARDE, musica variada; 2200-2300 LA JUVENTUD Y SU DISCOS, musica pop; 2300-2400, RECUERDOS JUVENILES, musica del recuerdos; 2400-0100; MUNDO DEPORTIVO, noticias deportivo nacional y internacional; 0100-0200, LOS SUPER EXCITOS, las ultimas en baladas; 0200-0300, TU YO Y EL AMOR, baladas y poemas romanticas. 0330-0400, DESPIDDIDA DE PROGRAMACION, musica peruana. Sunday prgms are completely different and prgm days is 1100-0200. (Ralphus, TX)

SCOTLAND (I hope) R. Freedom Int., 15040, caught on 11-6 at 1148 w/ several IDs. Also gave mailing address and freq. Also gave mailing address and freq then apparently went off air 1152, although a BFO note could still be heard. Tnx to the ever-vigilant Jerry Berg for calling me w/ this one. (Hill, MA)

SOUTH AFRICA R. South Africa, 3995, in EG 2255; 11-6. Lots of ARO QRM; talks. (Field, MI)

SUDAN On 5039, Omdurman found at very weak volume from 2104 w/ AR nx. good quality audio. Into slow-tempo Somali-type mx at 2111. So Sudan lives, but is in intensive care unit. (Hill, MA 11-9)

TURKEY Turkish State Meteorological Service, 6900, fair but with unusually bad band noise *0359 w/ NA (which I remember well from the year I spent there); 0400 anncmts by W whose voice was so high-pitched as to be beyond understanding; 0404 into Turkish vocal w/ instrumental back-up. Gone 0440 recheck. (Hill, MA 11-7)

USA VOA Dixon, 6040, strong as would be expected 1255-1325 t/out in SP. (Ralphus, TX)

USSR Vladivostok, 4040, in at 2127, easy listening mx, Mayak IS 2129 then W in RS 2130. Fair then, strong by 2150 on 11-8. Tbilisi, 5040, in weakly 2100 w/ Kremlin bells, clock striking 12 and USSR anthem to 2102*. het QRM from Sudan (!) on low side. TBS shows Tbilisi to 2400*. (Hill, MA 11-8)

About out of room for this edition. My very best to you and yours for a joyful and prosperous holiday season and new year. Hope Santa brings you that QSL or receiver you've been wanting.

Hope everybody had a wonderful Thanksgiving. Hey, is anyone out there looking for a Hammarlund HQ-180? Mine is on the block. I'm selling it with a KRS Digital Frequency Display for the bargain price of \$450 or best offer. If you're interested, call me at (312) 761-0470. It makes the perfect stocking stuffer...and I want an NRD-515! Just to be different, we begin this month with a (gasp!) mediumwave log.

- *****
1555 CAYMAN ISLANDS, R. Cayman; 2324-0015, EG, road closings, wx, ads for Rumpoint Club, Marlboro, Toyota (Alcorn, 10/20)**Not shortwave, but interesting nonetheless. Let's see if the purists crucify me.
- 1610 ANGUILLA, Caribbean Beacon; 2300, EG religious px (Alcorn 10/24)
- 1616 USA/Pirate, KPRC; 0557, EG, Pirate Joe and Pirate Ed, oldies, taking phone calls at 212/352-9906, better than //6280 (Fields 10/10)
- 2390 MEXICO, R. Huayacocolta; news from 0045, complete ID, "2390, R. Huayacocolta...potencia," NA, 0109* (Field, 11/2); 0047, SP, nx w/Star Wars interlude, 0107* (McDaniel 11/5)
- 2410 BRAZIL, R. Tranzamazonica; 2335-0020, Brazilian and US pops w/IDs by OM every other song and canned IDs, even a song by the Police! (McDaniel)
- 2800H HONDURAS, El Eco de Honduras/San Pedro Sula; 0104, 2x1400, great sig w/relay of sister station R. Variedades (Krueger 10/19)
- 2850 NORTH KOREA, R. Pyongyang; 2200, nx, tx over Taiwan (Schulze 10/13)
- 2977P INDONESIA, PRDT2/Bulungan; 1345, pop mx, YL singer, listed in TBS (Moman 9/23)
- 3205 BRAZIL, R. Riberao Preto; 0035, PT very weak (Weinbold 10/25)
- 3205 PAPUA NEW GUINEA, R. West Sepik; 1134, PD w/sining mx and comments (Bolland 10/9)
- 3215 INDONESIA, RRI/Manado; 1122, IN, comments along w/mx (Bolland 10/1); 1358, ID by YL into pop (Moman 9/23)
- 3220 UNID, SP, YL tx, TC in EG, "The time is now...", strange but I had to clear "R. Nacional de Espana IDs after 0400, first by YL w/fanfare, second by OM in tx. I'm confused! (Moman 9/26)
- 3230 PERU, R. El Sol de Los Andes; 1002, SP, OM/YL w/comments which sound like ADS w/many mentions of Iquitos (Bolland 10/7)
- 3230 SOUTH AFRICA, RSA; 0300, mocking bird IS just prior to s/on, EG serv. of RSA, //9585, 7270, 5980 and 4990 (Desrosiers 10/29)
- 3250 SOUTH AFRICA, R. Five; 0053, rock mx (Rigas 10/30); U.S. pop and adult contemp. mx 0320-0350 (Jordan, Dillman)
- 3255 LIBERIA, ELWA; EG, lite classical mx, s/off anmts at 2358 w/ID (Moman 10/11)
- 3255 VENEZUELA, LV de El Tigre/R. 980; SP, lots of fun trying to catch ID on this even tho they ID's after every song, trouble was every one sounded different! Some like "R. Melodia..." blanks sometimes like Sutatenza, some mentions of "El Tigre", 0157 (Moman 9/25); 0348-0424* (Burke 10/19, Jordan 10/30); *0957, SP, caught NA, s/on into morning report (Gliksman 10/29)
- 3265 RRI/Gorontalo; 1359, another ID, possible nx (Moman 9/23); UNID, 1114, IN w/tx by OM, pop mx, ballads, a few vocals in IN (Barto 10/9)
- 3275 VENEZUELA, R. Mara; 0315, SP, LA mx, vocals, ID at 0320 (Stanley 10/1); 0315, LA pops, OM (Plotnick 10/30); AA px previously reported by Krueger to 0012, then SP (Gliksman 10/3); positive ID by OM 0219 (Desrosiers 10/8)
- 3285 BELIZE, RB; 0300, EG, ID among het from ute, poss. BBC nx, TC-2 hrs EDT (Burke 10/26); 0311, EG/SP (McLemore 10/18); 1220-1230, EG, OM w/greetings, TC, Neil Diamond mx (Trotto 10/21); 0015, SP, nice inst mx (Prath 10/24); EG "Caribbean Mag" (Alcorn 10/26)
- 3295 NAMIBIA, SWABC; 0435-0452*, AK, EZL mx, into '40s style mx

- (Jordan 10/30); 0230, mx px (Field 10/26); tent. 0248(Plotnick)
- 3310 PERU, R. Bagua; 1013, SP, mx, TC and cmty, ID by YL during mx, OM ID after, this format has been noted on other Peruvian stations such as R. Los Andes on 5030 and R. Imagen on 5035 kHz (Bolland 10/15); *0958, finally got a couple of IDs, pretty good sig, but big OC on top means you have to tune the low side (Berg 11/1+); 1030, s/on w/ID and Peruvian mx, faded by 1050, anyone have an address? (Field 10/18)
- 3315 ECUADOR, R. Pastaza; 0230, mx w/ID 0235 (Field 10/29)
- 3325 GUATEMALA, R. Maya; 1132, ID by OM followed by "Church Chimes" played by a chorus (Jones 10/18)
- 3339.7 ZANZIBAR, RTZ; 0314-0326, believed the one here w/OM chanting til 0316, then tx by OM, some afro mx at 0321, faded badly by then, wish I could have been on freq 0300 (Valko 10/4); 0304, tuned in to hear continuous Koran chants, f/out 0319 (McDaniel 11/8)**Thanks for the call, Shawn. Appreciated the tip. mln.
- 3366 GHANA, R. Ghana; exc. signal 0540 w/male DJ, Afro mx, interview w/EG record producer (DiBiase 11/2)
- 3370 GUATEMALA, R. Tezulutlan; 0212, SP, nice marimbas, tx by OM w/ID at 0212 and 0225 (Valko 10/27)
- 3381 ECUADOR, R. Iris; 0023, nx and cmty w/IDs to 0035, Latin ballads at 0340 to s/off (Gliksman 10/2)**Glad to hear you're back in commission, Sholom. Hope you're feeling better. 0235, LA mx w/YL vocals (Plotnick 10/30); 0230, OM w/what sounded like nx, ID several times, into mx (Desrosiers 10/8)
- 3385 INDONESIA, RRI/Kupang; 0932, IN, YL w/nx, after nx at 0940, mx, by 0948, signal lost its strength (Bolland 10/15)
- 3385 PAPUA NEW GUINEA, R.E.N.B.; 0932, OM, PD mx and comments, XMAS songs played, faded by 0951 (Bolland 10/15)**Interesting. Here in Chicago, PNGs are in well past 1230. They don't fade in until approximately 1130, although that changes with the darkness pattern. Surprised there is this much of a difference between the Midwest and Florida, mln.
- 3394 ECUADOR, R. Zaracay; 0235, SP, combo of LA mx and rock, lots of CW QRM (Plotnick 10/30)
- 3669 CLANDESTINE, V. of the Broad Masses of Eritrea; 1815, Oromo, anti-Dergue tx, chased by jammer. Freq varied to 3707.5 (Wood, Saudi Arabia 10/15)
- 3830 VENEZUELA, R. Tachira; SP, 1007, much LA lively vocal mx, OM w/ID and ment. of Venez. Also hrd on 5830 (Valko 10/2 --at Vladimir Cucura DX session)
- 3905 INDONESIA, RRI/Banda Aceh; 1703*, IN s/off w/soft island mx, WRTH says 1600* (Wood 10/1)
- 3915 SINGAPORE, BBC; 1200, "EG by Radio" (Moore, Honduras 10/5)
- 3935 INDONESIA/JAVA, RRI/Semerang; 1150, IN, YL vocal mx, ID by YL, tuning sig (Moore 10/11)
- 3958 FALKLAND ISLANDS, FIBS; tent nx nx in EG by OM, tx about Grenada, time 0325, tent. ID (Plotnick 10/30)**Hmmm...mln.
- 3965 FRANCE, RFI; 0530, FR, nx by YL, ID, ARO QRM (Trotto 10/16)

15040 * SCOTLAND R Freedom Int'l; noted from 1121 on 11-6 with light rock, EG test ancmnt's. Sig poor at first, but improved until blocked by RTTY on freq at 1130. FR ID hrd thru mess at 1139. RTTY stopped at 1144, by which time this one was really holding forth quite well. Asking for reports to (published) address of Dept. R, 67 Elm Row, Edinburgh EH7 4AQ, offering QSL, requesting IRC's. Giving location as 56.12°30'N, 3.25°W, which would put them at or near a place called Kinross, abt 20 mi NW of Edinburgh. Only unusual thing was that they said their 'proper program' would begin at 0900 GMT on 11-6, with 15040 in // with 6230 and (I think) 97.5 FM, but that ancmnt was hrd at 1123. Wonder if they were on 15040 pre-0900 as well? Sig on this made me wonder if perhaps this wasn't a relay by a NA pirate, but I'm quite convinced that it was direct. Have sent report so we'll see. Went off 1151* (Berg) Exc report. Hope we will find out if the site is actually in Scotland. Pls keep us posted....bs

15050 USA KQSB Int'l, pirate; *1856-1908, carrier on, IS, ancmnt 'you are under arrest for conspiracy for listening to a pirate station', sing on by Frank Furter, rock mx. Fantastic signal for only 100 watts (Arthur, HI 10-30)
