\$9.95

"A most excellent publication. Remarkably accurate. Identification of stations against your listings is quick and easy."

—Adrian Peterson, India

"The serious DX'er has needed a reference like this for years. It's a manual I'll use often!"

—John Herkimer, USA

IT'S HERE . . .

THE SHORTWAVE REFERENCE YOU'VE ALWAYS WANTED!

"One of the really great innovations in shortwave publishing. The information, the layout, the graphics are brilliant. A superb piece of work!"

—Gerry Dexter, USA

"Admirably fills the need for an accurate, readily available research document. Brings a whole new dimension to shortwave listening and DX'ing."

—Jerry Berg, USA

"An excellent publication, very well done, and attractive in every way."

—Clayton Howard, Ecuador

"A superlative publication. You deserve a hearty 'Well done!'"

—Rufus Jordan, USA

"Superb, innovative, and the best thing that has happened to DX'ing in 40 years."

—Rolf Løvstrøm, Norway

"Magnifico! Magnifique! Even magnificent! A great SWL and DX tool, congratulations!"

—Al Sizer, USA

Now, for the first time, you can enjoy the convenience of accurate, at-a-glance information on station schedules, propagation predictions and more . . . all at special introductory discount prices for NASWA members only. It's the new . . .

RADIO DATABASE INTERNATIONAL

Finally . . . a quick, easy way for you to have *accurate, up-to-date* information on shortwave broadcasting schedules—a complete picture of SWBC in both the international and the tropical bands. RADIO DATABASE INTERNATIONAL combines innovative computer design with the professional frequency management databank of International Broadcasting Services, Ltd., to bring you the ultimate in a state-of-the-art reference publication . . . a publication you won't want to be without.

Whether your main interest is program listening, monitoring or DX'ing—or a combination—you'll find the RADIO DATABASE INTERNATIONAL to be the perfect companion to your WORLD RADIO TV HANDBOOK . . . an indispensable addition to your listening post.

- **COMPREHENSIVE** Covers 2 to 30 MHz in two volumes.
- **ACCURATE** Data assembled from worldwide monitoring.
- **AUTHORITATIVE** Expert RDI staff headed by Larry Magne (Editor) includes Don Jensen (Domestic Stations Editor), Dr. David Meisel (Propagation Editor), and worldwide monitoring staff headed by Noel Green (Europe), Sarath Amukotuwa (Africa), Alok Das Gupta (Asia), Tony Jones (South America).
- **UP TO DATE** International Broadcasting Edition revised and reissued every 6 months to cover major seasonal schedule changes . . . Tropical Bands Edition revised and reissued annually.
- **EASY TO USE** Clear, precise computer-generated graphics display station names, country and city/town locations, frequencies, operating times, languages, transmitter powers. Everything in one place . . . all at a glance.
- **PACKED WITH EXTRA FEATURES** Includes computerized propagation predictions; schedules in major languages grouped by broadcasters; broadcasting and jamming statistics by country and band; comprehensive receiver reviews (different from WRTH reviews).
