Garry S. Decker
 1986 ANARC
 North American RR of the Year

RAY BRIEM SHOW//ABC TALKRADIO

3RD ANNUAL "D X SPECIAL"--SATURDAY JANUARY 10, 1987--0806 UTC

HERE'S YOUR CHANCE TO PLUG YOUR FAVORITE CLUB AND AIR YOUR FAVORITE DX-RELATED TOPIC ON NATIONAL RADIO! OUR IN-STUDIO GUESTS WILL BE PAUL SWEARINGEN, "MONITORING TIMES" COLUMNIST AND "MUSINGS" EDITOR FOR THE NATIONAL RADIO CLUB--AND STEWART MACKENZIE, PRESIDENT OF THE AMERICAN SHORTWAVE LISTENERS' CLUB---JOINING US BY PHONE ARE BOB GROVE, PUBLISHER OF "MONITORING TIMES", AND DR. BRUCE ELVING, PUBLISHER OF THE "FM ATLAS". LATER IN THE MORNING, WE'LL ALSO SPEAK WITH TOM KNEITEL, EDITOR OF "POPULAR COMMUNICATIONS", AND GEORGE JACOBS, WORLDWIDE RADIO ENGINEERING SPECIALIST--AMONG OTHER NOTABLE PERSONALITIES FROM THE DX WORLD. WE WOULD ALSO LIKE TO HEAR FROM YOU-- IF YOU'RE OUTSIDE THE LOS ANGELES AREA, JUST DIAL 1-(213)-879-8255 DURING THE SHOW. WHEN YOU DIAL IN, JUST LET THE PHONE KEEP RINGING-- WE'LL SAVE YOU A FEW BUCKS, AND ANSWER JUST BEFORE YOUR TURN TO GO ON THE AIR! THIS PROGRAM WILL BE HEARD NATIONALLY--SOME KEY STATIONS INCLUDE WABC/770; WPRO/630; WTKN/970; WERC/960; WJBO/1150; WKIS/740; KPRC/950; KRNN/930; KTAR/620; KABC/790; KFBK/1530; KXL/750 & KGU/760. PROGRAM TIMES MAY VARY A BIT, SO BE SURE TO CHECK YOUR LOCAL SCHEDULE. ANY INFORMATION, INQUIRIES, IDEAS, ETC. ARE WELCOME--JUST SEND THEM TO: GREG HARDISON
KABC RADIO
P.O. BOX 79
LOS ANGELES, CALIF. 90016

NO COLLECT CALLS ON THESE ADS, PLEASE.

FOR SALE: 1. Info-Tech M-200F CW/RTTY decoder with manuals, \$299.00. 2. Drake SPR-4 with 24 crystals covering all LW, MW and SW broadcast frequencies plus most utility bands. Very well maintained and clean. A fine receiver, \$335.00. 3. Extra crystals for SPR-4: 4.0, 5.0, 7.5, 8.0, 9.0, 10.0, 12.0, 14.0, 15.5, 25.5, \$75.00 for the set. 4. DC adapter for SPR-4 in mint condition, \$9.50. Jim Uerlings, 1437 Pacific Terrace, Klamath Falls, OR. 97601. Phone (503) 884-7659 after 0145 GMT.

FOR SALE: Radio West 22" ferrite loop antenna with coils for LW, MW, and Tropical Bands, \$80.00 plus postage. ALSO: R390A receiver. Recently retubed and aligned. In good shape. Will trade for FRG-7, R4-C, or other solid state receiver of comparable value. Shipping in U.S. free with trade or will sell for \$190.00 plus $\frac{1}{2}$ shipping costs. Shipping by UPS in two boxes with easy reassembly. Fritz Mellberg, 1505 Central, Hawarden, IA 51023. Phone (712) 552-2458 evenings.

Welcome to the last CONTACT of 1986. We will be taking a look at the CONTACT BOOKSHELF a little later on, but first a few correspondence matters to attend to...

From CONTACT regular and friend *Duke Alexander* (Radio Earth International, Texas Bureau, 14113 Stoneshire, Houdton, Texas, 77060) comes an interesting observation on listening to the Ham bands (also please note the RE broadcast schedule):

I'd like to take this opportunity to thank Thom Giella (League City, TX) for mentioning me in October CONTACT -- most especially appreciate his listening to AM Hams.

It is appropriate, then, to mention that there is an organization specifically for SWLs who listen to Hams using the AM mode. We feel that Hams using the AM mode are doing more than just enjoying their hobby. In a way, it is the AMer who is "publicizing" Ham radio far more than those on the other various modes, because A-ers can be heard on very simple receivers. Anything from the 1931 Zenith to the "boom box" portable can pick them up. The Society for Promotion of AM (abbreviated S.P.A.M.) has an auxiliary membership for SWLs. Free info can be obtained (send s.a.s.e. please) from: S.P.A.M. SWL INFO, 14113 Stoneshire, Houston, TX 77060. For those who enjoy DXing, an attractive certificate (S.P.A.M. 100 Award) is available for those who get 100 confirmations from AMers.

From the DXer's point of view, Hams can offer QSLs from countries where no SWBC stations exist. But the program listener wants more, so I tend to agree with the view that if there were some way to get more "exotic" countries on SWBC, it would be ideal for all concerned. I don't need to remind anyone that we hope to put Curaçao "on that map" so to speak.

In closing, I'd like to mention that Radio Earth broadcasts continue via WHRI nightly (except Sundays) 0300 to 0400 UTC. Our frequency has changed to 7400kHz since the 27th of October. Thanks! & 73

Duke was good enough to send along a schedule which I am pleased to pass along to you:

Program # 1 -- Thursday, rebroadcast Monday

Ham Notes - Duke Alexander

Sweden Calling DXers - George Wood

Swiss Shortwave Merry-Go-Round - Bob Thomann and Bob Zanotti
Mailbag

Program #2 -- Friday, rebroadcast Teusday

Skyline - Dave Rosenthal

MUSIC:

This is the Caribbean - Rudy Espinal

Jazz Connection - Scott Marinoff

Best in the Country - George Nicholas

Slipped Disks - Isa Helderman

US Rock - Bill Parris

Program #3 -- Saturday, rebroadcast Wednesday
Shortwave Pandemonium - Max Thomas and Jack Widner
And one of our other features:
Canadian Bureau - James Careless and Cindy Ellen Morgan
Commentary - David Monson or Michael Poulos
A Closer Look - A report on a topic of special interest

Continuing for just a moment with the Ham bands discussion, we have a letter from *Bill McDowell* (Raleigh, North Carolina). Coincidentally, he reinforces the point made above by Duke Alexander about monitoring Ham AM transmissions:

I have been following the column regarding listening to Amateur radio operator transmissions. Having been an active Ham for over thirty years and having started out as a shortwave listener in the early 50s, I assumed that SWLs still enjoyed listening to Hams as much as I did then. But after thinking about it I realized the primary mode for Amateur voice transmissions in those days was AM, which could easily be heard on relatively inexpensive receivers. Beginning in the mid 60s the shift to single side band (SSB) undoubtedly accounted for the acute drop in amateur listening by SWLs because of the difficulty in tuning the SSB mode on simple receivers. I assume many, and especially newcomers to the shortwave listening ranks, ignored Amateur bands in favor of the SWBC bands because of the ease in tuning on simple receivers. As the QSL manager for a very active amateur in Hong Kong -- VS6DO -- rest assured that a great many SWLs do indeed monitor the Ham bands on SSB and CW. I receive literally hundreds of listener cards for VS6DO from all over the world with the greatest concentration from the USSR. Many, if not all, of the Communist Bloc countries require a SWL "apprenticeship" before a person can participate in Amateur radio with a personal license or as an operator in a radio club.

CONTACT BOOKSHELF

Permit me to quote *Fred Osterman* from a recent catalogue (devoted almost entirely to books -- and very good, it is indeed; it is called *FALL BOOK BONANZA* and can be obtained from Universal Shortwave Radio): "Frankly, a knowledgeable listener with modest equipment will hear more than a 'super equipped' neophyte every time! Books can make your monitoring more interesting and productive." Very well said, indeed! Even the most casual listener will agree that there is too much to know (simply in order to make some kind of rudimentary sense of the pandemonium on SW) to be without at least a few of the SW guides and reference works. Note that this installment of the BOOKSHELF is very conveniently timed with respect to Christmas: simply leave FRENCH lying about, open (seemingly at random) to the appropriate page -- which page is heavily annotated (preferably in red) with heavy underlining, and remarks such as: *must get!* (don't forget the exclamation point); *not to be missed!*; *essential reference!* Works every time...

For the purposes of this column we will divide the literature into the following categories:

1. Introductory and general books
2. Station/schedule reference
3. Technical
4. Advanced listener topics

(NB: Sources of books, their names and addresses, will be given at the end of this column.)

1. Books of an introductory nature are not as common as you might think at first. The basic work is still *The Complete Shortwave Listener's Handbook* by Hank Bennett and Harry Helms (Tab Books Inc.) now in a second edition. It was my introduction to SW and has continued to be a useful reference. Its style is easygoing with a bare minimum of in-depth technical details which might serve only to discourage the beginner. At around \$12-13 it is very good value. Another book with a similar title -- *Shortwave Listener's Handbook* -- is a smaller, less encyclopedic treatment of SWL but this may be a more attractive feature for some people. There is a very good, if brief, chapter at the end of the book which outlines some basic and useful antenna construction projects. A newer work is *Shortwave Radio Listening with the Experts* written and edited by noted DXer/QSLer Gerry Dexter. This large book (about 500 pages) contains articles by experts in their various fields and range from introductory articles for those just getting started, to more advanced materials. If you or someone you know is in search of a good receiver, then the ideal book for you to have or give is *Radio Receiver -- Chance or Choice* by Rainer Lichte. In the space of about 260 pages, Lichte discusses in great detail (backed-up with actual bench tests) just about every obtainable receiver. It is an excellent book and well worth \$18.50. As far as I know it is obtainable only from Gilfer Shortwave (Address and telephone number -- see below)

2.a The *sine qua non* of frequency/broadcaster directories is the *World Radio TV Handbook*. It is an annual publication 600+ pages contain a staggering amount of information and represents an enormous labor. There is almost no question that it cannot answer. Notice that its organization is geographical: first by world area, then by country. Information is given about broadcast times, languages and frequencies (not only for SW but for LW, MW and TV as well); transmitter power and location; information about essential station personnel (essential for QSLing, about which there is also some information). There is a section devoted to programs specifically of interest to DXers and SWLs. Also included are equipment reviews by Larry Magne. Because it appears but once a year (and may not, therefore, be as accurate towards the end of the year for which it was prepared) there is also *WRTH Newsletter* which serves to update the *WRTH* proper. The *WRTH* is available from almost every SW retailer, but the newsletter must be ordered directly from *WRTH*.

2.b. The *Radio Database International* (edited by Larry Magne) is yet another enormous store of information. Unlike the *WRTH*, *RDI* is organized entirely by frequency. The extremely easy to use format includes information about language, times, target areas of transmissions; if the transmission is jammed; and the location of the transmitter and its power. All of this information taken together allows you to make a very well informed estimate of what you are listening to at any given time: which is, after all, the whole point. The data are given largely by means of a graphics format which is very clear and easy to use.

2.c. The *International Listening Guide* is a neat, compact (±50 pages) frequency guide that is issued (roughly) quarterly. It is in two sections, the first is a listing, essentially by time, of all broadcasts in English -- the format is extremely compact and a wealth of information is given in the space of 19 pages: time, broadcaster, and frequency of English broadcasts, and of general - or world services as well; times and broadcasters of current events programs such as news and commentaries; last, and by no means least, there is a listing of *DX PROGRAMS* (in English) -- you will find that there are a lot of them and you could spend a large part of your listening day just tracking them down -- and this is a feature that I find among the most valuable. The second part is a listing by frequency of all SW broadcasters. In a graphics format, data are given about broadcaster, target area, time and language. When space permits, the listing begins with the tropical bands, and when this is the case, information is also given about transmitter power -- an essential piece of information in minimum useable frequency calculations. The *ILG* must be ordered directly from: *ILG*, Merianstrasse 2, D-3588 Homberg, West Germany. The price for a year's subscription of 4 issues is US\$15 or 30 W-German DM.

2.d. Finally, I have just received a copy of the August '86 edition of the *Guide to English Shortwave Broadcasts* by Dan Ferguson. The overall structure of the work is in two parts: the first is devoted to world broadcasts in English, with an indication of the target area; the second gives broadcasts directed specifically to North America. Each large listing is broken down into two smaller listings, first by time, and then by the broadcasting country. More compact than any of the previously mentioned sources, this one has the obvious advantage of simplicity of use: it is extremely easy to read and to use, even when you are in a hurry. The only thing that I miss (and I think that it would be a useful and welcome addition) is a listing of SWL/DX programs. Still, it is very good and well worth the investment if it sounds like what you want. It must be obtained directly from: Dan Ferguson, P.O. Box 44866, Washington, DC 20026. The price is \$15 for a year's subscription of 6 issues; single copies are \$3.50.

2.e. From *Gilfer Shortwave* you can obtain the *Tropical Bands Survey* compiled by Bernhard Gründl and published by the Danish Short Wave Clubs International. It is a compact but nonetheless quite informative listing which details frequency, transmitter power (where it is known), name of the station and its location, and notes including times of broadcast, languages, jamming etc. This is an annual publication, and costs \$4.50. In the same format (but obtainable only from *DSWCI*, Tavlaeger 31, DK-2670 Greve Strand, Denmark) is another annual publication entitled *Homeservice stations Outside the Tropical Bands* -- which serves as a companion volume to the *TBS*. It too is excellent and is well worth the 9 International Reply Coupons that it costs.

3. For the technically minded, the offerings of the American Radio Relay League are among the very best. For general reference there is the *Radio Data Reference Book* by G.R. Jessop, which contains all kinds of information of use to anyone who is interested in the technical aspects of radio; cost is \$15. Three excellent books are devoted to antennas. 1) The *ARRL Antenna Book* is one of the best and most easily obtainable books on that subject now in print. All kinds of antennas are treated, from both theoretical and practical standpoints. At \$8 it is a great value. 2) The *Antenna Compendium* is an interesting collection of articles taken from *QST* magazine; \$10. 3) *HF Antennas for all Locations* (L.A. Moxon) comes from the Radio Society of Great Britain and treats antennas that would specifically be of interest to SWLs; \$12. Those interested in the rôle of computers in radio will want to look at *Amateur Radio Software*; this book contains, for instance, propagation/signal strength programs, and data base programs. Programs are given both in BASIC and assembly language -- \$15.

4. Probably the most popular topic in SWLing is that of the QSL and how to get one. Without much question, the king of the QSL is Gerry Dexter. From his pen has come two very useful books: 1) *Secrets of Successful QSLing* details all of the most useful techniques in eliciting QSLs from even the most stubborn station; around \$10. 2) *Language*

Lab gives you what you need to submit a winning reception report in Spanish, even if you know barely a word of the language; about \$8.

If your interests center on utility stations, there are a number of interesting books to choose from. From Jörg Kligenfuss comes an enormous compilation of frequencies -- *Guide to Utility Stations* (\$25; on sale until 25 XII 86 from Universal Shortwave Radio for \$18.89) If aeronautical communications are of interest to you Universal Shortwave Radio also offers the *Worldwide Air Traffic Frequency Directory* (usually \$4.75, on sale for \$3.89). *World Press Services -- Frequency List and Manual* is a listing of English-language press RTTY services by time, frequency, and country of origin (Universal Shortwave Radio \$8.95/5.89)

ADDRESSES, TELEPHONE NUMBERS, ETC.: You might want to move quickly and take advantage of Universal Shortwave Radio's *Fall Book Bonanza*, which extends until 25 XII 86. Most of the books listed above are available from Universal at a substantial savings. Their catalogue for the sale can be obtained from them: Universal Shortwave Radio, 1280 Aida Drive, Reynoldsburg, Ohio 43068. Universal's complete catalogue is available for \$1 (refundable). Telephone: [614] 866-4267

Gilfer Shortwave stocks a great many books and you can receive a copy of their flyer (if you send them a #10 SASE) if you write to them at: 52 Park Avenue, Park Ridge, New Jersey 07656. Telephone: [201] 391-7887

The Ammerican Radio Relay League (ARRL) can be reached at: 225 Main Street, Newington, Connecticut 06111. Telephone: [203] 666-1541

NOTE: Before you order, be sure to inquire about shipping costs and availability in order to avoid disappointment.

N.B. If you have run across a particularly useful book not mentioned here, write and tell us about it!

I sent out some dozen or so letters to various Senators about the Electronic Communications Privacy Act of 1986, and the replies have begun to come in. On the whole they are a good deal less than inspiring. From *Sen. Edward Kennedy* came a letter which presented both sides of the issue, and ended by saying that, in any case, the bill had been passed. *Sen. John Glenn* replied with a brief note that he said that he would wait for the findings of the Judiciary Committee before making any decision. *Sen. John Chafee* remarked that "the bill as passed by the Senate now includes language making it explicit that it is not unlawful to intercept mobile radio communication that is readily accessible to the general public." Again, this leaves open the matter of definitions with respect to cellular telephone, and certain HF (i.e., SW) transmissions. He also promised that if the present bill posed problems that "the Senate will undoubtedly revisit the this issue in the 100th Congress." Now, just why don't I find that particularly reassuring? From *Sen. Barry Goldwater* came an odd missive that began: "The possible sweep of criminal penalties to dish antenna owners under the Electronic Privacy Bill troubles me as much as it does you." His entire letter, in fact, is taken up with the reception of satellite transmissions: nothing about cellular telephones, scanners, or possible HF restrictions. Hmmm....

What I miss in these letters is an appreciation of the overall implications of this bill. Nowhere is there a sense of the importance of the precedents set by this piece of legislation.

There is just enough space left to wish you the very merriest of Christmases, and a happy, healthy and productive New Year. My special thanks to all of those who have taken the time to write. To readers I also extend my thanks for your interest. See you in '87! Meanwhile -- WRITE!!

73-

Easy Listening

Editor: Alex Batman, 4618 Alvin Dark, Apt. 34, Baton Rouge, LA 70820

SUNDAY

1130-1145: "Music Album" (Radio Beijing). Usually features classical Chinese music, sometimes selected around a special theme, such as Chinese classical music played on western instruments or featured instruments of the classical Chinese orchestra. Usually plays two songs per program. Commentary is kept to a minimum, just enough to establish the theme of the program (9.535. Repeated at 1230 on 9.535/11.650 and at 0030 on 15.445).

1940-1955: "Your Top Tune" (Radio Moscow). Each week the program plays three Russian songs, mostly popular, and listeners are invited to vote on their favorite piece. On the last Sunday of the month, the three most popular songs for that month are played. Those who voted for one of the favorites are eligible to have their name placed "in the barrel" and win special prizes, winner selected by the "spin of the wheel". (11.840)

MONDAY

2300-2310: "Time Out for Sports" (Radio Sofia). A run down of the most important sports news concerning Bulgaria, especially soccer, but also other sports as well, including gymnastics, wrestling, auto racing, or any sport in which Bulgarians have participated recently. (9.700/11.720. Repeated at 0030 on 6.070 and at 0430 on 7.115).

0250-0325: "Monday Documentary" (Radio Netherlands). This is not a single program, but a continued series of programs specially produced. The current series is a thirteen week series on the history of Africa entitled "We Made a Hoe and Went Along". It began with the history of man emergent in Africa in prehistoric times and has continued to document the history of Africa in subsequent programs. The series before this was "Portrait of the Past" which selected the major news events and music of recent past years, such as 1968 or 1969. (6.165/9.590. Repeated at 0550 on 6.165/9.715).

TUESDAY

0130-0145: "Report on Religion" (BBC). This program features news about church activities (Christian and other religions), such as as meeting of the Pentecostals for World Peace or efforts of the Indian government to stop the burying of the dead in the Ganges river. The emphasis here is religious news rather than evangelism. (6.175/5.995)

0140-0145: "Sports in Argentina" (RAE). This is not a run-down of recent sports news, but rather a program on the history and role of sports in the country. Recent programs have featured a biography of a famous Argentine soccer player of the 1950s and the early history of auto racing in Argentina. (9.690/11.710. Repeated at 0440 on the same frequencies).

WEDNESDAY

1130-1200: "Meridian" (BBC). This is the BBC arts and culture program, and past features have included the plays at "The Fringe" in the

WEDNESDAY (continued)

Edinburgh festival, a biography of the recently deceased sculptor Henry Moore, recent films, and an art exhibit by the Boyle family. (6.195/11.775)

1120-1125: "In the Third World" (Radio Beijing). Features news stories exclusively concerning Third World countries, such as a new Tanzanian airline, plans to dam a river in Zaire, the drug trade in the "golden triangle", etc. (9.535. Repeated at 1220 on 9.535/11.650 and at 0020 on 15.445).

THURSDAY

1345-1350: "Philately" (BRT): I have a confession to make with this program, and that is that I haven't been able to find it recently. When BRT still had their hour schedule, this alternated with "QSLs" on Thursdays. Now, I believe, it alternates with "QSLs" and "Sciences" so is only on every third week, but I may be wrong about this. In any event, as the name implies, it is a stamp oriented program, sometimes featuring special issues of Belgian stamps and other special features of interest to stamp collectors, such as the history and mechanics of stamp forgery. (15.590. Broadcast earlier on Wednesday at 0045 on 5.910). Every third week?

0045-0100: "The Making of a Nation" (VOA). This is a program on American history, and a pretty thoroughly researched and exhaustive analysis it is, too. When I first started listening about four or five weeks ago, the program was about Jefferson and the Louisiana purchase. Subsequent programs featured the Federalist opposition to Jefferson, the collapse of the Federalist party in the election of 1804, Aaron Burr's duel with Alexander Hamilton and how it came about, and next week's program with feature the conspiracy for which Burr was convicted of treason (next week being Nov. 27, 1986 as I write this). Warning: This program is in special English. (9.650/5.995. Not on VOA frequencies 9.455/6.135 which carry "NOW MUSIC USA" at this time)

FRIDAY

0045-0100: "American Mosaic" (VOA). A magazine program much like "VOA Magazine" but in special English for listeners in the Caribbean. Past features have included a special Halloween program, a feature on Gallidet College for the Hearing Impaired, ecologists' attempt to save the red wolf, and a definition of bluegrass music. This program also is in special English. (9.650/5.995. Not on 9.455/6.135 which carry "Country Music USA" at this time).

0110-0125: "You Asked for It" (Radio Australia). Radio Australia's mailbag program which answers listeners' questions about Australia, its environment, economy, religious protections, etc. Hosted, as most mailbag programs seem to be, by a male and female announcer. Some programs answer several questions and some programs answer only one in great depth and detail. (15.320/17.795).

SATURDAY

2200-2215: "Give Peace A Chance" (Radio Berlin International). News of the international peace movement wherever these stories happen to be taking place, including the World Peace Congress that recently met in Copenhagen. Interviews, news stories, etc. Good chance to hear John Lennon singing, since his song which give the program its title is played at the beginning and end of the program (6.125. Repeated at 2315 on the same frequency).

0110-0145: "To the Top" (Deutsche Welle). This is the monthly run-down of the top songs on the charts or the songs that are otherwise making news in the German pop music scene. Although most songs are in German, some are in English, and almost always the selection is good. (6.040/6.085/6.145/9.545. Repeated at 0310 on 6.010/9.545/9.565 and at 0510 on 6.120/6.130). Last Saturday of the month.

Technical Topics

Editor: T. J. "Skip" Arey, WB2GHA, P. O. Box C-4, Cinnaminson, NJ 08077

A CHRISTMAS STORY
or
MERRY DX-MAS
by Ebenezer Skip Arey
with apologies to "Chuck" Dickens

Ebenezer Skip was just like so many Dxers. Selfish and self centered, he thought of no one but himself and his own listening pleasures and accomplishments. He had a good job and could afford the best in receivers and hardware. He loved to boast about his working 400 countries (It was rumored he even formented the revolution in one location just to get a new QSL). But, as they say, what goes around comes around...

"OY...What an office party. I don't think that typist will ever talk to me again. Can I help it if she didn't like my 'Christmas Goose' joke?"

Ebenezer Skip entered his dark house and proceeded to fix himself a "Dirty Harry Special" for dinner (2 Chili dogs and a six pack of Coors). He settled in and watched Mr. Magoo's Christmas Carol on the tube as he emptied the bottom half of a bottle of cheap brandy left over from the office party. Feeling reasonably good he stumbled off to bed. He tuned his Sony 2010 at his bedside to a BBC Christmas Music show and pulled the covers over his head, half realizing his head was really going to hurt come Christmas morning.

Then, in the darkness, he heard a voice...

"EBENEZER SKIP!!!!"

"Huh?"

"EBENEZER SKIP WAKE UP AND SMELL THE TOAST BURNING!"

Skip pulled the covers down from his head to behold a spirit clothed in black leather with long glowing hair that lit up the room. "Sheesh" he thought "I haven't had an attack of the sixties like this since that night in Tijuana." "Hi ghosty, whats cookin' besides your hair?"

"I AM THE GHOST OF DX YET TO COME AND I..."

"Yo Spook, turn down the gain a bit, I am a man preparing to nurse a serious hangover, okay?"

"Sorry, I am the Ghost of DX yet to come and I am here to help you see the error of your ways"

"Come again?"

"You must stop your selfish Dxing ways and use your multitude of radio skills to help those less fortunate than you."

"Hey wait a minute, Shouldn't there be a ghost of an old friend like Bob Marley and two other ghosts before your show up?"

"Do you know what labor costs these days? As it is the front office is grouching about paying me overtime to work on a holiday. But that is none of your business. Ebenezer Skip, you must act to improve the lot of your fellow Dxers."

"Yeah. Uhh. Right after the holidays Ghostface. Love your hair. Lets do lunch sometime. Call my secretary if she's still speaking to me." Skip pulled the covers back over his head.

"WHAT HAVE YOU DONE FOR THE HANDICAPPED DXER?????"

Ebenezer Skip pushed the covers back down and looked at the ghost quizzically. "Who? You mean guys still using Frog Sevens?"

"I mean the listener who is physically handicapped?"

"Hey Ghost, Your still off frequency. Just what am I supposed to do anyway?"

"You write for the DX press, write something about it."

"Look Mr. Class Five Free Floating Vapor, My loyal readers are looking for my DX wisdom in each and every column and..."

"WRITE SOMETHING ABOUT THE SUBJECT!!!"

"Okay, okay, Man, who does your special effects? I expect you didn't flop on in here from the nether world without a few ideas. Lay them on me and I'll see what I can do."

The Ghost sat down, lit a cigar, and began to tell his story to Ebenezer Skip.

"There is a group called DX AUDIO SERVICE a project under the direction of FRED UOBBE of the NATIONAL RADIO CLUB. This service provides information on audio cassette for blind Dxer's, They provide information on Medium Wave Dxing, profiles of radio stations, news and information of interest to all radio hobbyists including equipment reviews.

"Hey that's on target Ghosty, I ran across Fred at the last NRC convention. He played one of the tapes for me. Real high quality production, very professional."

"So how come you haven't written about it?"

"Well, like its mostly Medium Wave and..."

"Much of the information is generally useful to the unsighted radio listener regardless of area of interest."

"So Mr. Spirit, your so smart, do you have Fred's address?"

"Sample copies of the DX Audio service are available for \$3.00

From:

The National Radio Club
P.O Box 24
Cambridge, WI 53523-0024

Fred also needs help with production and appreciates information for publication. He can be reached at:

DX AUDIO SERVICE
706 Mackenzie
Lima, Ohio 45805-1835

This is a growing organization that has had to depend on word of mouth advertizing until I came here tonight to haunt you"

"Yeah, thanks loads Spook. What else you got?"

"Another good source for information is AUDIO CASSETTES FOR THE BLIND, they can be reached at 1-800-221-4792."

"Great, but you woke me up to help all the handicapped DXers not just the folks who are blind, so dig deep Ghosty and give me some other stuff or I'm rolling over and chalking you up as a bit of undigested beef"

"I've heard that line before. Besides, those were chicken dogs you ate tonight. Anyway there is an organization who takes a wider perspective in bringing the radio hobby to the handicapped. The HANDI-HAM SYSTEM is an international organization of able-bodied and disabled amateur radio operators who help people with physical disabilities expand their world through the radio hobby. They match people up on a one to one basis and are able to provide instruction, support and equipment. They make a serious effort to open up the radio hobby to all people. They can be reached at:

W025W at Courage Center
3915 Golden Valley Road
Golden Valley, Minnesota 55422
Phone (612) 588-0811

So you see there are groups out there you can tell people about"

"I see, but Mr. Ghost, None of these organizations work directly with the Shortwave Hobby. What have you got for my readers?"

"These are the only organizations on file at Spook Central."

"But somebody has to pick up the slack here. I have been to ANARC conventions and I have met many handicapped SWL's. You mean there is no one out there specifically providing services for these folks anymore?"

"Sadly, Ebenezer Skip, It looks that way. Maybe you can write about this problem too."

"You bet Ghostface. I'll lay the whole story out. This hobby has room for everybody. Anybody can get involved, maybe they just need a little help getting started. Radio folks are very creative and can rise to the task if they are given the opportunity. Maybe people can contact the organizations you told me about to get some idea on how to get started. You can count on me to spread the word in my column. This may not be technical information but it sure is important."

"Now you've got the 'spirit' Ebenezer Skip. But I must be off to haunt the members of the U.S. Senate who voted for S.2575. See you in

the Funny papers."

And with that the spirit vanished just as the first light of Christmas morning crept through Ebenezer Skip's window.

"Morning, Oh well...May as well go over to Tiny Tim's house and see if he has any worcestershire sauce for making Bloody Mary's"

POSTSCRIPT: If you have any information on organizations or individuals who are taking an active role in helping the handicapped radio hobbyist please send this data to Tech Topics and Good Old Uncle Skip will see it gets published ASAP. Keep those cards and letters coming folks and may everyone have a joyous and peaceful holiday season. GOD BLESS US EVERYONE!

NASWA Awards Program:

Awards Chairman: John M. Kapinos, 86 S. Quinsigamond Ave., Shrewsbury, MA 01545

Greetings and welcome to the final edition of the Awards Page for 1986. The following folks were issued NASSWA Awards during the month of October

Dr. Harold CONZS, Newport News, VA: Master British Commonwealth DXer

Richard D'ANGELO, Wyomissing, PA: Arab World DXer

Steve FOREST, Cincinnati, OH: European Continental DXer; World Wide DXer

Rick Krzemien, Walnut Creek, CA: Arab World DXPert

Dave TWIGGS, Bristol, CT: DX Centurian; Arab World DXer; DXer de Pacifica; All Continent "QRP" DXer (25 Kw); Senior Ecclesiastic DXer

Also, to correct an oversight, the following received endorsement stickers for their Senior DX Centurian Award:

Chris GIBBS, Surrey, England: 160, 170, 180 and 190 countries

Rich DAVIS, Portales, NM: 160 and 170 countries

C. Vernon HYSON, Matthews, NC: 175 countries

Dr. Harold CONES, Newport News, VA: 160 and 170 countries

Roland SCHULZE, Stuttgart, West Germany: 160, 170 and 180 countries

*****KAP'S KOMMENTS*****

Shortly after our November column went to press we received a copy of the latest UHN Newsletter. Several other readers also got theirs. Hopefully everything is back on track there.

The Country List and Awards Program booklet is still available for \$2.00 in North America, \$3.00 elsewhere.

We're pleased to announce that our Awards Program promo which appeared in the October issue of CQ Magazine has elicited some very favorable response from the HAM community. We also understand that the Program has recently been publicized in several foreign publications including Practical Wireless in England and the ADDX club bulleting in Germany.

We're still looking for radio related IBM PC Compatible radio related software. We know have 3 "Public Domain" disks available for trade. If you don't have anything to trade, send along blank DSDD disks and we'll copy them up for you. We also have 3 game disks available (color monitor and board required) that we'll be glad to share.

Gerry Dexter of Tiare Publications advises that the French edition of the Language Lab series will be available shortly. This is a companion to the Spanish version recently released. SASE (IRC) to Gerry at PO Box 493, Lake Geneva, WI 53147 will get you full details.

A word to the wise, when reporting to Radio Botswana, make sure your reports are complete and accurate. The station stopped QSLing a decade or more ago due to an influx of questionable reports. A minimum of 30 minutes program details should be included. A "I heard your station, send me a QSL" approach just won't work here and may cause their policy to revert to no QSLs again. It would be a shame if several folks' hard work negotiating with Radio Botswana over several years go down the drain. Actually, this caveat applies to ANY station.

For those interested, ye olde KAP finally logged and QSLd KNLS. Now for the real toughie, WMLK.

We've received several notes regarding our "Letter to the Editor" in the November issue of Monitoring Times. We want to make it perfectly clear that this was MY opinion and not that of NASWA. Also, we meant the letter not as a bash against ANARC but instead that a change of scenery might be in order. As most folks are aware, I am more inclined to be a "DXer" rather than program listener and by necessity ANARC Conventions tend to be more listener oriented.

Also on the subject of ANARC, our sincere congratulations to Terry Colgan and Robert Horovitz for getting the Privacy in Communications Act amended so that the next time I listen to U.S. Coast Guard COMSTA Boston on 5696 I won't have to worry about the "Radio Police" knocking on the door. It's our understanding that the Act, as amended and signed by President Reagan only prohibits monitoring of mobile telephones (both cellular and conventional) and cordless phones.

Muriel (Mrs. Kap) and I would like to take this opportunity to wish everyone a Merry Christmas and Happy Chanukkah. Till next year

BEST COPY 11/23/80

NO COLLECT CALLS ON THESE ADS, PLEASE.

WANTED: Monitors of RBI, BRT, R. Prague and R. Kiev. I'll post your reception reports with those of others, in bulk. Send me a 22¢ stamp and reports to two stations. Reception reports only! I'll mail every three weeks. Bill Plum, 12 Glen Road, Flemington, NJ 08822.

FOR SALE OR TRADE: Regency D-310 thirty-channel programmable scanner in mint condition with manual and box. Will consider a trade for RF-2600, RF-2900, or similar SW portable in good condition. Steven Johnson, 6409 Hartman, Omaha, NE 68104. Phone (402) 572-6880.

FOR SALE: Sony ICF-6700W, \$150.00. Customized Beam Headings (from/to) and Distances (Mi/Km) to over 355 WRTH transmitter sites. Useful in picking alternate transmissions and selecting listening times based on distances. ITU Country Codes included. Send your location/coordinates, \$5.85. PRENDX, complete '84 or '85, \$5.00 each. WRTH '85, \$6.00. All items include shipping. Cashiers check or money order, please. Al Drehmann, Route 2, Box 3-B, Tryon, NC 28782. Phone (704) 894-3398.

WANTED: Old Radio Shack catalogs and any issues of Elementary Electronics and Communications. George Coppen, P.O. Box 2654 H.O., Winnipeg, Manitoba Canada R3C 4B3. Phone (204) 475-9258.

Ye Olde Computer Corner

Tom McElvy, Editor

If you are like me, once in awhile you get sick of computing and hearing about computers, and want to direct your attention to something else. With that in mind, this month's column has nothing to do with computers and will give you a chance to relax your mind a bit.

A word of caution is in order now: everything you are about to read is true!

If you live in Virginia and have a bathtub in your house, you are breaking the law! The statute is still on the books that says all bathtubs must be kept outside in the yard.

Bet you don't know a word with one vowel repeated six times! Try "indivisibility".

America is the only country in the world where they let the prisoners go home and lock up the jury.

The average two year old has a vocabulary of 272 words.

If you are a housewife & move to California, make sure you boil your dustrag....if you don't, you could be imprisoned.

Also, it's against the law to play hopscotch on a Sunday afternoon in Missouri, or to fall asleep under a hairdryer in Florida. Wonder what you would get for software piracy in some of these states?

Nowhere in the Bible does it refer to Jesus Christ ever laughing nor does it mention Him smiling. That seems strange!

continued...

(continued)

If you put all the fish, reptiles, birds and mammals on one side of a scale, and all the insects on the other side, the insects would weigh more than three times as much. If you don't believe me, try it yourself!

If you own a canary and it is of average size, it has approximately 2,200 feathers. Wonder who went to the trouble of counting these?

Did you ever notice that some things never come out even; envelopes and paper, spaghetti and sauce, stamps and letters, and a hole and its refill dirt.

Hope you enjoyed this little break from computing. Have a great Holiday season, and see ya in '87!

73!

Happy
Holidays!

Tom

Listeners Notebook

GLENN HAUSER, P.O. Box 490756, Fort Lauderdale, FL 33349

PROPER CREDIT Other publications and broadcasters may use material from LN, provided due credit be rendered to the original reporter and the NASWA Listeners Notebook. This courtesy doesn't extend to closed organizations which do not allow reciprocal access to their publication. BBC Monitoring Service items (designated WBI for World Broadcasting Information) are copyright and may not be reproduced without BBCMS permission. The most important items have been broadcast immediately on SWL DIGEST or WORLD OF RADIO, not otherwise mentioned herein. All contributions to LN are gratefully received, but your editor cannot promise a personal reply because of severe time constraints. Material for LN should be marked as such each time, not just on the envelope, as input for other outlets also comes to Box 490756. Reports to gh should not be cut into little strips. It also helps if you use one side of paper only, and do not mix LN items with other correspondence. All times, dates and days are day/month GMT = UTC, u.o.s. A F G H A N I S T A N DS-1 in Dari/Pashtu on 7198v hrd *0125 w/melodious flute/pipe IS, // 4740 3965; 7198v is direct from Kabul while others are USSR relays; pgm-2 in Pushtu & Baluchi again on 9755 *0130 ex-11825 27/9 (Sarath Weerakoon and/or Victor Goonetilleke, Sri Lanka, Oct Union of Asian DXers)
R Afgh in EG 09-1030 S/SEAs/FE on 6085 9635 15255 17650; ex-17655 to avoid Islamabad 17660; and 15360 instead which was unusable due to BBC on it; 15255 is unusable because of jammer "L8" from *0600. 6125 carries Urdu svc 1330-1430 --pgming consists of nx and Hindi film songs (not Urdu songs, maybe because they are from Pakistani films). HS *0130 on 7200 4740 4450; 4450 is ex-3965 morns and carries a diff pgm. Monitoring RA is tricky because of multiplying fqs and alt pgms vary. At 1500 these fqs noted: 7200 4740 3965 9755 carrying one pgm in //; 4450 & 6085 w/a diff // pgm. 17655 & 15255 *0500 Pashto // 7200--all three very clear then; at 0700 7200 changes to diff pgm. Most days HS has nonstop EG pop mx 1830-1900 on 7200 6125 4740 4450 3965--unusual (Supratik Sanatani, Indian DX Club International's Asian DX Review, Oct) see also USSR

A L B A N I A Gjrokastër reactivated, noted 15/11 2201-2258* on 5057 w/continuous mx to 2230 nx; 2254 s/off routine & anthem; F but mixing w/CR on 5055 (Richard A D'Angelo, Wyomissing PA) RTV Shqiptar, 20228, 13/9 1140-1205: light mx, 1200 ID, HS 4 x 5057, fund inaudible as was the often hrd 5th on 25285; also checked 10114 but nothing there; SINPO 35433 (Andy Sennitt, Denmark, DSWCI)
Monitoring 10-31 Oct: R Tirana has reorganised ES, possibly from 28/9; probably reduced output by as much as 20% since only 448h of weekly external being traced so far vs 588h in previous sked. BCing in all langs exc GK, IT, Persian & PT appears reduced. New sked we've built up solely from monitoring and believe to be practically complete. In addn, at peak periods, RT now hrd using max 10 fqs simultaneously (8 SW & 2 MW) vs about 13. Previously had 16 daily half-hour in EG: only 12 found so far and only 12 are now and, viz:
0230 9754 7065. 0330 9754 7065. 0430 11835 9480. 0630 9500 7065. 08 11835 9500. 1130 11855 9480. 14 11985 9500. 1530 11835 9480. 1830 9480 7065 & 1395. 2030 9480. 2230 9480 7065 1395. 2330 9760 7065 6200 (WBI 7/11) & the following are targeted only to Am: 0230, 0330, 0430, 0800, 1130, 1400, 2030--which may also be on an 11 MHz channel, and 2330. The only Albanian lang bcs are 00-01 9762 7300 6200, 02-03 9791 7300 6200 to Am; 05-06 7090 6200 1215, 15-16 7090 6200 1215, 18-19 7090 6170 Eu. The WOBB Std Chinese are now: 05-06 16230 10510, 13-14 on same (WBI 7/11) Some fqs may vary up to 5 kHz. Target areas for some bcs have been assumed for statistical purposes (ibid.)

ARGENTINA Telam nx agcy, Bs As, reported 29/9 from Viedma: govt has set up LRA-2 R Nacional Viedma after agmt reached betw Natl Comms Secretariat and govt of Rio Negro prov. Also decided that LRA-30 R Nacional San Carlos de Bariloche'll be taken out of the offl radio bcing net, to which it'd been attached by military govt in 1983, and that stn'll readopt old name, LU-8 R Bariloche, 'll come under auspices of presidential Public Info Secretariat as a commercial state radio stn (WBI 24/10)

RAE ES confirmed w/following revised sked on 15345 17-21, per monitoring 23/10: 17-1745 AR, 1745-1845 EG, 1845-1930 GM, 1930-2015 FR, 2015-21 IT. GM reintrod after absence of about a year; xmns in langs exc EG reduced to 45 mins; AR believed to be weekdays only (WBI 31/10)

A U S T R A L I A RA Talkback reported 4/10: Next Sun 12/10, RA'll make major changes in nx & current affairs pgms; TB also resked to Suns only at 0310, 0710 0910, 1240, 1710, 2040 (WBI 10/10)

RA reported 11/11: Merger of ABC and multicultural Spl BCing Svc (SBS) due to take place in 7+ weeks is now in jeopardy. Fedl opposition decided to oppose merger, a position already adopted by Democrats. RA Canberra says opposition and Demos have numbers in Senate to block the bill. Says bill was approved today by Au Labour Party [govt party] caucus but not w/out some opposition. Libl spoxeman on comms, Mr Ian McPhee, believed merger'd be stopped for 3 reasons: they felt ABC was in no condition to take on extra responsibilities; didn't believe integrity of SBS pgming'd be maintained and didn't believe it'd save any money. But MinComm Duffy said bill'd be introed tomorrow; said if bill blocked the govt'd consider options such as administrative merger. But said he was loath to adopt that course and ruled it out as a possibility in the immediate future (WBI 14/11) Affair a really big deal DU, it seems (gh)

B A N G L A D E S H SW HS from Dhaka: 4880 100 kW 00-0305 & 09-12; 4890 100 kW 1130-1715; 6195 7.5 kW 03-0705. ES [partial] 1315-1345 Nepali 7105 9775. 14-15 Urdu 9640 13615. 1515-1545 Hindi same. 16-1630 AR 9945 13670. Bengali for Bengalis abroad: 1630-18 9945 13670, 1915-20 6240 7505 (Sept Assn of Pan Asian Radio Clubs via UADX)

R Bang dropped 7500 for slow EG nx 19-1915; only using 6240 (Supratik Sanatani, India, Oct ADXR) & same situation with normal EG 1815-19? (gh) see IMI

B E L I Z E Radio One, 3285, 0345-0410 4/11 w/BBC pgm relay, ID, TC for 10:00 then pgm from UN Radio, NY starting w/nx, SIO 353 (Richard A D'Angelo, Wyo PA)

B H U T A N BBS dropped 90 mb 3395, which used to radiate from 300 W ute xmtr of Bhutan Wireless. Pgming is on 6035 5 kW only, on previous sked, i.e. Mon-Sat 11-14 (EG 1330-14), Sun 06-09 (EG 0830-09). EG pgm consists of nx, important annts, wx, and the second half is fully devoted to pop mx. The 'annt's' are vey interesting, e.g. 13/10 that the govt fruit store house are full and for the time being purchase of apples are being suspended. It regretted the inconvenience cause to apple growers! For the mx request pgm they have a vey good audience amongst the westernised youths of Darjeeling. Recently I was reading some nx reports that the Chukha Hydel Power is already producing electricity. This means that the 50 kW xmtr to be donated by India will be commissioned soon because the xmtr has been held up due to power shortage at Thimpu. Dropping of the 90mb channel could be to make way for the new xmtr (Supratik Sanatani, India, IDXC1 ADXR Oct)

B O L I V I A Panamericana net, La Paz, reported 27/9: The Permanent Assembly for Human Rights has publicly denounced the closing of R Bermejo in the town of the same name. Interior Ministry has reportedly ordered closing because of its cland & subversive nature. Reports from the district says proprietors of stn, the Church Social Pastoral Committee, were negotiating to obtain an offl permit for the radio at the time it was closed. The Bermejo Prefect, the Interior Ministry and Msgr Abel Costas met after the closing to discuss a letter of warning. The public statement released by the Human Rights Assembly says it asks for respect for the freedom of expression and protests against hasty actions, such as the closing of a means of social comm (WBI 10/10)

B O T S W A N A R Botswana, 7255, hrd from *0345 w/cowbell IS & NA, 0400 vernac pgm & pop mx; vey strong 3/11 & other nights on Philips D1835 mini-portable w/30" whip, my only SW rx since Drake SPR-4 broke down (Ernie Behr, Kenora Ont)

Rec'd F/D QSL card in 25 days for EG report and 2 IRCs; v/s Ted Makgekgenene CE (Richard A D'Angelo, Wyomissing PA) Keep an ear on 6712 for that 2nd harmonic

B R A Z I L R Liberal, Belém, on 3326 0445-0506 8/11 w/ Braz pops & ID 0446; F when RTTY subsided (Richard A D'Angelo, Wyomissing PA)

R Clube do Pará, 4885, 0150-0220 2/11 live comedy show to 0200 ID & fq anmt. Pgm of Braz love songs w/IDs & performers' names between items (D'Angelo too)

R Globo, Rio, 6030.9, 1950-1955 21/9 sports talks (Vashek Kofinek, South Africa, Nov DSWCI SW News)

Fantastic reception of R Bras at 1750 w/10 mins of tuning sig consisting of 16 notes; 1800 start EG Eu; I never tire of listening to their tuning sig almost daily because it's about the best signal on 15 MHz at the time and the next item to listen to. 15265 ex-15155 after 27/9; only the whip ant is needed. Also a stn on 3235, weak in PT at 0040 14/9; difficult to get ID; first Braz I hear on 90m for about 3 yrs; unlike those days when we used to hear a Braz almost every 10 kHz on 90 and 60 mb (Victor Goonetilleke, Sri Lanka, Oct UADX)

B U L G A R I A R Sofia in EG, complete: 00-01 Am 11720 6070. 04-05 Af 11765 9595 7280. 0730-08 Eu 11720 9700. 1530-1630 Af 11835 11735 9740. 1830-1930 Af/Am 11835 11735 9740. 1930-20 Eu 11720 7155 6070. 2130-22 Eu/Am 7155 7115 6070. 2230-2330 Eu/Am 11720 6070 (WBI 14/11) Note that the 04 to NAM has apparently been dropped, but NAM added as a target to the 1830 bc (gh) + IMI

B U R M A Burmese Army Stn at Taunggi, 5058 in BM 1130 w/talk by lady, mixed w/unID stn playing flute, 333 (Supratik Sanatani, Sept IDXC I Asian DX Review) Attn IDXC I: Pages 8-9 of the Sept issue missing in my copy; please replace(gh)

C A M E R O O N R Bertoua, 4750, inactive since Oct 1985, per DSWCI TBS, is now active, hrd 20/10 1845+ w/FR pgm, clear ID, Af folk mx, before 1900 w/3 IS, following nx // 5010 via Yaoundé, sport, political reports; nom fq 4795 was not used (Roland Schulze, Stuttgart, Federal Republic de Alemania)

Bertoua on 4750 0446-0507 15/11 w/FR nx to 0459 when brief 3-min EG nx report was given by M; F (Richard A D'Angelo, Wyomissing PA)

C A N A D A RCI 1986-87 pgm sked reports: RCI goes satellite! Our pgms now relayed from producion studios in Montréal to SW xmtrs in Sackville NB by comsat. Previously used microwave facilities [guess what: satellite fqs are also microwave; the term has come to mean 'terrestrial point-to-point microwave' -gh]. A 4.5 m parabolic ant at Sackville downlinks sigs from Anik-D. With its 'foot-print' covering NAM, this satl capability promises a new flexibility in intl distribution of RCI pgming (WBI 31/10) Hinting at the truth that you don't have to rely on SW anymore to hear RCI? Loren Cox tells how to intercept this and BECWS in RIB 114... (gh)

SWL Digest is now sked: Sat 2116 on 15325 11960, and via Daventry, England on 7185 and 5995--these are now 300 kW xmtrs beamed 110 and 160 degrees resp, and may be useful in RCI's skip zone in the New England area where it is difficult to hear any of the SWLD bcs direct from Sackville; 2137 on 17820 15150 and 11945. Sun 0108 on 9755 and 5960, 2308 on 9755 and 11710. (gh)

C H I N A Jianguo PBS, Nanjing reported 26/9: A new stn'll begin bcng to Taiwan 12/11. The "Voice of News" will bc nx abt economic and cultural development and social life in Jianguo and its neighbouring provs & cities; views of people on peaceful reunification--the stn'll also invite people from Taiwan to give their views on reunification--and various principles and policies; and pgms on local condx, customs, health and increasing wealth. No further details were given; in fact, Jianguo PBS inaugurated two daily bcs to Taiwan 1/7/82--on 702 kHz 16-1630 & 2045-2110 (WBI 10/10) on SW too--see IMI--Last Minute Items @ end

Zhejiang PBS, Hangzhou reported 25/9: An AM stereo xmtr, on MW has been successfully installed at the Zhejiang PBS; the first step forward by a stn in AM stereo xmsn in China (WBI 10/10) Wish I'd known about that when I was there, as guest of the stn! But AM\$ rx no easier to find in China than here (gh) It's C-QUAM, on 1530 kHz (C-QUAM worldwide listing as of 2/9 via Tom Gavaras, MN)

China Daily, Peking reported 3/10 from Shenzhen: The Shenzhen Special Economic Zone [SEZ] is Guangdong prov has become the first of the four SEZs--the others are Zhuhai and Shantou in Guangdong, and Xiamen in Fujian prov--to run its own radio stn. Shenzhen bcng stn off'ly launched 1/10, natl day. With 10

kw, stn is second largest \$ stn in prov, the largest being in Guangzhou. Listeners w/in 80-km radius of Shenzhen spanning Hong Kong, Macao and part of the Pearl river delta can turn to its xmsn on 89.8 MHz FM. Sked is 2255-0530 daily. Pgmng includes Shenzhen nx, spl report of the 8th Asian table tennis competition (to be hosted in the city starting 6/10), literature and arts, and ads (WBI 17/10) Wish I'd known about this when I was in the area; certainly not hrd when passing thru Shenzhen on train, but that was in the evening; during a week in Hong Kong, mid-Oct and early Nov, constantly tuning around the FM band, never hrd either tho from hi-rise hotel in Kowloon Guangzhou-99.2 and Macau-98 could be hrd (gh)

Guangdong PBS, Canton reported 8/10: Today the genl office of the prov govt issued a circular promulgating regs on protecting radio & TV facilities; impose following demands on all admn organs, mass organisations, army units, enterprises, institutions and individual citizens: (1) They may not build large things w/in 0.5 km of radio and TV ants. (2) They may not shoot, burn grass on waste land, dig earth, build ditches, carry out blasting, raise domestic animals or place inflammable and explosive materials and sundry other items in areas near antennas. (3) They may not dry their clothes on radio and TV facilities, tie their animals to them, connect their own electrical lines, loudspeakers or other receivers to them, or use the radio stns' hi-fq radiated energy as a source of light [1]. (4) They may not move or dismantle radio & TV facilities w/out au thorisation. They may not obstruct the use and maintenance of radio & TV facilities. (5) The establishment of facilities, which may result in a relatively strong electromagnetic field w/in 3 km of the boundary line of an antenna area, must be approved by radio & TV mgt depts and the wireless mgt committee. Who-soever violate the regs must be given admn & econ punishment by radio & TV dept mgt in conjunxion w/other depts concerned. Those who violate laws must be dealt with by judicial depts (WBI 17/10) #3 is especially important, since in south China, and even more so in Hong Kong, anything resembling a wire or a pole will promptly be covered by drying laundry (gh)

Monitoring 25/10: R Beijing's 15-16 Bengali svc on 25/10 now contains a 10-min segment in Bengali produced by UN Radio, on 7080 7065 6550 at 1506-1516, de scribed as "Newsreel--the weekly nx from UN Radio". Normal RB nx was reduced from usual 15 mins to 5 on this occasion. Similar weekly segments from UNR also believed to be w/in one of RB's EG & Std CH svcs to As but not yet confirmed (WBI 31/10) [more below] & see also UNITED NATIONS

Kyodo nx agcy, Tokyo, reported 5/11: USSR has stopped jamming Russian bcs of R Beijing for first time in 20 yrs, in an apparent move to improve rels w/ China, Japanese sources said 5/11. R Beijing's RS svc has not been electronically blocked by Sov jamming since 12/10. USSR has also suspended jamming bcs in RS by Albania and South Korea. USSR & China began jamming each other's bcs in the 1960s when sharp ideological diffs emerged. China stopped its jamming of Chinese-lang bcs by R Moscow 4 yrs ago. USSR continues to sabotage bcs in RS by VOA, BBC, Kol Israel and R Liberty. Sov's current systematic jamming of W bcs in RS was resumed in Aug 1980 when labour unrest spread in Poland (WBI)

Monitoring 27/10 to 6/11: The only remaining xmsn (at 0300) of a recording of a R Beijing Russian svc pgm played backwards was hrd in 'forwards' mode on 27/10. Channels which had carried it (9335 and 8260) were // conventional bc, 15435 11755 11515. "Backwards" bcs were first discovered in spring 1967. There had been up to four of them a day but they had dwindled to one by May 1985. A survey of RB's RS svc on 5/11 & 6/11 reveals there are currently thirteen 55-min xmsns a day. No jamming or intentional interference to this svc was hrd during the survey period. A new sked'll be published shortly (WBI 14/11) While visiting R Beijing 20/10, I brought up Backwards Russian and asked them why they did it. No one in the English section could explain it. Fortunately, while in Xian 22/10, I monitored and taped a sample of this at 0318 on 9335 // 8260 (gh)

Xinhua reported 11/11 from the UN: China has expressed firm support for the establishment of a new world info & comms order. China's deputy permanent rep to the UN, Liang Yugan, told a spl committee of the Genl Assembly that serious imbalances still exist and NWIO is winning support of more & more countries... Liang also told the committee that China's R Beijing, in response to a UN request, began regular SW bcs 19/9 of the UN Radio pgm in Bengali, Chinese and English to NEAs, SAs, SEAs, and the SPac (WBI 14/11) The only EG bc previously reported doing this is the Sat 1200 to SEAs on 11600 11755 15280, presumably not // the simultaneous NAm svc on 9645 and 9535 (gh) & see above & UNITED N

 1416-1803 2055-0103. (S. Suga)

V of the Strait BS shortwave transmission schedule effective from Sep. 14 is monitored as follows.

1st Program: 1000-1756 & 2100-0026 overall;
 6765 1000-1155 2331-0026, 3200 1000-1756
 2100-0026, 2490 1156-1756 2100-2330

2nd Program: 0400-1626 overall; 9540
 0400-0958, 6400 0400-1100, 5770 0400-1200, 5240
 0400-1159, 4840 0400-1626, 4045 1000-1626, 3535
 1200-1626, 3300 1101-1626 (S. Suga)

Hubei Province Meteorological BS is currently observed on the following frequencies: 1100-1105 Standard Chinese 5991, 4886kHz. (S. Suga)

Hunan Province Meteorological BS continues to be heard on 10945 & 7950kHz at 0820-0835 & 2310-2330. The frq 5175kHz shown in the letter from this station can be not observed. (S. Suga)

CHINA (PEOPLE'S REPUBLIC OF)

(November 5 issue)

Guangxi PBS new service which was reported as its new educational radio by BBC-MS can be heard daily. Exactly the service is announced as "3rd Program". It is broadcast at 0955-1230 and in the daytime (in China) on 5920kHz only.

(Isami Hyuga)

According to the recent Chinese Radio Journal, Central PBS would renew a shortwave transmitting schedule on November 2. And it will change the program schedule widely on January 1, 1987.

(T. Yamashita)

The first day broadcast of English "City News & Weather" from Shanghai PBS could be heard on Sep. 15. The program preview showed the program timetable: 0610-0615 (exc. Sa.) 990kHz

1115-1120 990kHz

1300-1305 103.7MHz

1430-1435 1296kHz

(Tatsuo Gima)

CPBS on 4905 (Beijing) and 5860 (Shijiazhuang) with talk & ID at 2245; over Brazilian at tune 2238 but f/out by 2257 8/11. Sites per R Database Intl; CPBS 5075 at 2224 16/11 w/mx, probable mx 2230 by M & W; TBS & WRTH say Beijing while RDI says Urumqi (Richard A D'Angelo, Wyomissing PA)

C O L O M B I A LV de la Selva, VG on 6170 18/10 1055 (Christos Rigas, Chicago) R Sutatenza back? fútbol match 0117 23/10 on 5094, no ID; hvy CW QRM w/F sig (Charles Weiss, S Euclid OH)

Armonías del Caquetá, 4915, could only be rcvd on Sundays on SW during the last 2 months, Aug & Sept, here in Venezuela (Michael Schmitz, Valencia, DSWCI)

C O S T A R I C A Rcvd QSL postcard from R Reloj for 26/9 log on 4832; they claim 2½ kW; reply in 15 days, nicely designed card w/a few misspelled words in the graphics. Sig very clear for only such a paltry amount of kickout watts (Mike Waylonis, Erie PA)

C H I L E R Sistema Nacional for several days now on new 15150 ex-15140 // 9550 and 1140, SP only; also, Chile has gone on DST of UTC -3 (Gabriel Iván Barrera, Buenos Aires, Argentina, 31/10) 1/11 back to 15140 (Barrera) Typical

D O M I N I C A N R E P R Clarín, 11700, P-F sig at 0000 15/10 w/Carib tunes and SP anc; mx ID at 0005; checked again at 0100 to find stronger sig also in the clear w/LAm pops & love songs (Charles Weiss, S Euclid OH) Also hrd it once or twice in early Nov as late as 0230 but inactive again since (gh)

R Discovery, 15045, F-P 2000-2130, first hrd 18/10; probably increased power as never hrd here before (Christos Rigas, Chicago IL, 27/10) RD on 15045, 1840-2030 t/out 11/11, and again at 2130 15/11. Mainly Carib mx. J White w/mbg and later Sto Domingo Journal. On Vet Day a live phone call between Jeff & Rudy. Gave request number 813-360-4505. Mentd considering use of 6245 eves in near future. Said 13-16 on Suns. P at t/in, but steadily improved to G by 2000 (Richard A D'Angelo, Wyomissing PA)

E Q U A T O R I A L G U I N E A R Nacional, Bata, running late for independence day 12/10 weekend celebrations! Tribal mx and live speeches on 5004 2321-0104* 11/10. Usual 1-o-n-g anthem (Richard A D'Angelo, Wyomissing PA)

E S T O N I A N S S R If it were not for the lack of "The Internationale" Russian anthem at s/off [? I thought they used The Soviet Union Hymn -gh], I would say positively that I hrd and taped a remarkable reception from Tallinn 26/10 from 2110 t/in to a 2205* on 5925, F-G levels. What I need is an authority on these regional stns in the USSR on whether they at times s/off with a regional anthem, as the lengthy choral s/off was one I have never hrd--but whatever the case, this was a fascinating reception and I will give a full de-

scription. But let's first add that on 28/10 & 3/11, on checking for it, I was unable to confirm its presence, as what poor signal was there, was being destroyed by some up-frequency splatter--some stn in English. The SIO on 26/10 was 433+. The format from 2110 to 2135 was a M host in unk Eurolang--none of the common ones, not French nor Russian nor Swedish nor Italian nor Polish nor German--and the music was a curious bag of country-western, funk and just plain 'pop', but in this unk lang--so obviously homegrown talent. A pop song played thru 2130 but at 2135 there was a 9-note IS, 2 short, one long with last note quite long, played on an organ. A W then gives an ID that could well be "Sinn Tallinn" as it sounded like "Seen dah-lean". This was followed by another signature song that sounded a bit like a "stein-drinking" song. Then W & M talking about "god knows" w/EZL-breaker mx up to 2200, when the choral anthem commences. The carrier went off at 2205. The format, the 2135 transition, and the 2205* all befit Tallinn--I have old tapes of a Tallinn reception back in 82 on 6085, but not patient enough at moment to search out, and my memory of it is now "d.m." Unlike last year, I am for now not noting a Russian FS on 5925 at 2100 to 2200+ so for the time being this stn, if indeed Estonia, appeared to be in the clear. I should add that when the openings occur this QTH gets absolutely stunning reception from Northern Europe. (I also should note that at this QTH Papuans are almost as rare as the dodo bird--a fine example of what a slight change in longitude and latitude can do, as in SE Pennsylvania, the Papuans were terrific--given an opening) But to sum up, if this 5925 is in fact Estonia, there seems to be a modest chance to log this truly rare one, given 'the breaks'. Would appreciate comment, regards the anthem s/off here from one of our USSR DX-aficionados. Thank you! (Maxfield Greenwood, Sedgwick ME, 40 mi SE from Bangor on the Rocky Shore)

M O Z A M B I Q U E R Moz, Maputo, ancd 7/10: from 9/10/86 to Apr 87, the DS of R Moz 'll op on 25, 31, 41, 60 and 92mbs, 407m MW; due to shortage of spare parts, 19 & 49mb xmtrs will not be in opn (WBI 10/10)

N E P A L Latest sked of 'oft changing in recent times' R Nepal as monitored here is 5005, 7165, 684, 792: 0015-0415, 0715-1045, 1145-1715. No separate ch for commercials as in the past but ads are accommodated in present sked; in EG & NP (Supratik Sanatani, India, Oct IDXCI ADXR)

R Nepal has EG ancd as ES at 1115-1145 on 7165, then NP. Starts w/nx, then spoken pgm on Nepal and some mx. 5005 *1145 becomes //. (Gerhard Werdin, India, Oct UADX) I have a problem getting respectable reception. On 7165 I hear R Singapore's Indian lang svc at this time. Nepal is on 7164.5, and to complicate matters further Laos Xieng Khouang has reappeared after about 2 years, on 7163.5 --on the 5LJ4 even with its ailing condx I can separate the three but certainly not armchair level. I don't think even an NRD-525 can do that! (Victor Goonetilleke, Sri Lanka, Oct UADX)

N E T H E R L A N D S On RNMN 9/10, Jim Vastenhou, a member of the Dutch PTT delegation to next year's WARC was interviewed about the new ITU computer plan for the allocation of SW fqs. Less than half the requirements can be fitted in to existing SW bands. A trial run this year resulted in Holland losing only 22% of present transmissions, but losing all xmsns with more than one fq. Per the plan, one FR, one AR, and one EG xmsn for a certain season is not allowed to be on the air. You're never sure if they will be on the air the next season because the planning system works season by season, which means a big problem

of continuity coming. Under the new plan, even jammed bcs would get no more than 2 fqs (WBI 17/10)

NETHERLANDS ANTILLES TWRs 500 kW MW xmtr has been in use since the beginning, 1964, and has outlived its 20-year life expectancy. Efficiency is decreasing and replacement parts are becoming more difficult to find. A new xmtr'd cost \$1.7 million, but TWR has purchased instead the 500 kW MW xmtr of Capital Radio, Transkei, which is 5 years old and was used only 6 months, for \$800,000 total, including shipping, insurance, installation, and \$300,000 worth of spare parts. TWR beat other bids for the xmtr, from govts in the ME and EEu who wanted it for propaganda purposes. Because it operates at 63% efficiency, rather than 50% as the current one, the newer xmtr should result in a fuel savings of almost \$120,000 a year--enough to pay for the entire price of purchase in just 6 or 7 yrs (TWR Bonaire Update, Oct, via Eric Falkenhan, Baltimore) 800 kHz

NEW ZEALAND RNZN reported 6/11: A Royal Commission presented a survey into being designed to look far into the next century. RNZ Intl has for many years had to put up with two 7.5 kW xmtrs. RNZI mgr Rudi Hill expressed disappointment that tho the comm sat for over a year and the report cost a megabuck plus and runs to 537 pages, RNZ ES just made one page. At least they recommended restoration of funding and expansion of the svc. But w/in 24h the PM said that legislation would be required to implement any of the comm's recommendations, and in his cheque book being had no claim to any priority. So nothing is likely to happen under the current govt but there is a general election next Nov (WBI 14/11)

NICARAGUA Sandinista TV reported 1/10: Nic telecomms and postal svcs (Telcor) is installing two SW radio stns to counter bcs by forn stns that xmit counterrevolutionary propaganda. Telcor Minister Col Leopoldo Rivas ancd 30/9 (WBI 17/10) Contra-contra, eh? Means this bcng, or jamming? (gh)

Manila Times, 2/10 reported: Malacañang will investigate reports that Radyo ng Bayan, a govt radio stn, is being used by left-leaning ancrs to slander the military. Deputy Exec Secy Fulgencio Factoran said 1/10 the govt'll not allow use of its facilities by people out 'to put a wedge betw the mily and the civilian govt'. Factoran was guest spkr at the Philippine Columbian in Paco, Manila, when he was informed that certain Radyo ng Bayan ancrs led by Doy del Castillo, Vice-Mayor of Marikina, were using their pgms to extol virtues of the New People's Army and discredit the military. Factoran was also informed that del Castillo even organised a mvmt seeking to oust Def Min Juan Ponce Enrile from the cabinet [& he was ousted by Aquino around 21/11 -gh]. "That's despicable & very upsetting," Factoran said. Called mgmt of Radyo ng Bayan 'stupid' for allowing use of govt facilities to slander military. "I'll have that immediately investigated," he said. He did not, however, say what disciplinary action the govt'd impose on the stn mgmt and the radio ancrs involved in the alleged anti-mily campaign (WBI 10/10)

Manila Chronicle, 1/11 reported: DZAF the radio stn of the Defence Ministry

and the New Armed Forces of the Philippines [NAFP], has ancd new pgm sked which includes interviews w/top mily leaders and selected bcers explaining the views of the armed forces on the insurgency, peace and order and other problems. Leading the weekend sked is Brig Gen (ret'd) Isidro Agunod, asst secy for plans and pgms of the DefMin with his 'Straight from the Soldier' pgm at 9am Sats. At noontime, 'Lunch Date with a Star' features top mily commander as they explain the opns and policies of the NAFP. MajGen Salvador Mison, deputy chief of the NAFP civil relations svc brings to the air his column 'Honestly Speaking' at 6 pm Sats. [DZAF is on 1134 kHz MW] (WBI 14/11)

P O L A N D AFP reported 2/11: R Solidarity, the pirate stn run by the underground remnants of the banned trade union, bc dissident poems and songs on primetime TV in Warsaw Sat night 1/11, per reports from several parts of the capital. Stn overrode sound signal xmtd on main state TV ch to put out a 15-min audio pgm dedicated to Father Jerzy Popieluszko, the pro-Solidarity priest murdered by 3 policemen in Oct 1984. R Solidarity also bc in the Praga district of Warsaw last week. The pirate stn, which first went on the air at the height of the state of emergency in Apr 82, is the only radio in E Eu to break the monopoly of state control, and bcs primarily union nx and views. One of its leading bcers, Zbigniew Romaszewski, was jailed [sic] in Feb 83 before being released under an amesty in July 84 (WBI 7/11)

P O R T U G A L As a matter of interest, the RDP bcs on 11800 still come from the RFE xmtr site at Glória, per latest sked. All other RDP svcs are via their own xmtr site (Andy Sennitt, Nov DSWCI SWN)

Monitoring 4/11: On 28/9 when Port switched to winter time, RDP Intl started to bc its xmsns to Eu one hour later by GMT than during summer. However, on 4/11, it was noticed that RDPI was being its weekday lunchtime svc in PT to Eu on 11800 at 11-13 instead of 12-14. Anmt stated stn had reverted to its former summertime being period on 3/11 'by popular demand from listeners'. Just before 1300* said Eu svcs'd be back on at 1700, again one hour earlier than the period betw 28/9 & 31/10 (WBI 7/11)

R W A N D A QSL card & letter in 68 days for 2 IRCs & FR report of 3330 (D'Ang.)

SAUDI ARABIA KUNA nx agcy, Kuwait reported 20/9 from Riyadh: Tech committee of V of the Gulf Co-operation Council (GCC) radio has recommended a permanent site for the radio at one of the six Gulf states, the GCC Secretariat and here 30/9. The tech comte concluded its 2nd meeting 29/9 and decided to xfer current venue from Riyadh to Abu Dhabi effective 1/10 in 4th rotation of the change of venue among the 6 GCC states. Recommendations of the comte'll be presented to the undersecretaries' meeting due 14-15/10 in Riyadh for consideration (WBI 10/10)

SPA Nx agcy, Riyadh, reported 26/10 on the development of radio in the Kingdom: On 4th Dhu al-Qi'dah 1382 H (1962), a Royal Decree was issued establishing the Info Ministry; but that did not mean there was no dept prior to that responsible for bcng. Dir Gen of Bcing, Press & Publication was defined by royal decree in 1953. W/in 2 yrs of establishment of InfoMin, bcng xmsn power was increased tenfold. The first bcng stn was established arnd 1949, attached at the beginning to the Finance Ministry; 1957 became DirGen BCPressPub. First test xmsn from Jeddah studio 18/7/49. King Abd al-Aziz decreed a bcng system. On the evening of Sunday 9th Dhu al-Hijjah 1368 H, the first radio xmsn went on the air. Bcing at the beginning was restricted to Jeddah radio studios, and on the first day of Ramadan 1384, corresponding to 3 Jan 1965, xmsn of pgms began from studios in Riyadh. On the 1st Shawwal 1399 H (1979), bcng was coordinated betw Jeddah & Riyadh radios, and new stn began xmtng at 0530-02 local. On first day of new year 1403 H (18/10/82), Saudi bcng took a new step--Genl Pgm independent from Riyadh, while 2nd pgm from Jeddah. Holy Koran radio also rationalised and began xmitting from Riyadh, Eu pgm became the Eu Pgm R w/FR & EG from Riyadh. A morning 2-h xmsn was added to the Call of Islam R, i.e. 04-06 local.

BSKSA now xmits several pgms from Riyadh & Jeddah: (1) Genl pgm from Riyadh on MW, SW, FM, 20h a day; total pgm output is 108 [hours of diff pgms a day?? -gh --or maybe distinct pgm titles], all locally produced. (2) 2nd Pgm, from Jeddah on MW 06-2359 local. (3) Bcs beamed abroad: Urdu & Indo *1950; Swahili, Persian, Turkish *1965; Somali *1976, Bengali *1979. Turkistani, Malaysian, Bambara *1982; intends to start xmsns in due course in Albanian, Spanish, Hausa. (4) Call of Islam R: from beginning of the month of Muharram 1403 H, xmsns began from 04-05 daily on fqs of Holy Koran R and 18-20 on fqs of the Genl pgm. Info Min is planning to make this radio independent, having own xmtrs and amalgamating it w/bcs beamed abroad. (5) Holy Koran Radios began from Mecca & Riyadh on 1st Safar 1392 H (1972) w/6-h daily pgm; now reaching 18h from the HKR in Riyadh and 13h from HKR in Mecca. (6) Eu langs sexion used to be EG & FR daily from Riyadh & Jeddah. From beginning of Muharram 1403 H, the rationalised xmsns of the Eu sexion w/EG & FR began from Riyadh as follows: FR 11-13 & 17-19. EG: 12h a day: morn 3 h, noon 4 h, eve 5 h (WBI 14/11)

Capital R, Umtata, reported 29/10: Business Day newspaper reports that the Dept of Porn Affairs is to give up control of the SABC. Paper says that there is speculation that control will go to a technical ministry, possibly Posts & Telecomms. Porn Minister Pik Botha is said to regard his responsibility for the SABC as a no-win situation subject to political attack from the left and from the right (WBI 7/11)

SPAIN, LMI

SRI LANKA Flash! TWR on shortwave. Very soon TWR will start testing on SW from Ekala to India using 35 kW on 3mb, and 10 kW on 4mb. Times either 0030-0230 or 0230-0430; evenings 1230-1430 or 1430-1630. This will not be like the AWR SAs operations which more or less go on like pgms of the All Asia beam of SLBC, but will be a completely independent operation. At the moment TWR goes on MW 882 from Puttalam 400 kW. Look out for the "Viswawani Sri Lanka" ID (Victor Goonetilleke, Sri Lanka, UADX Oct)

SWEDEN RSI reported 7/11: The Board of the Swedish Being Co [Sveriges R] has appointed Lars Hamberg to succeed Bengt Gustafsson as head of its overseas svc [RSI]. Lars Hamberg is currently District Director of R in Malmö, and '11 take up his post at the overseas svc in the New Year (WBI 14/11)

SWITZERLAND ICRC/Red Cross Being Svc on 6135 at 0318-0327* 31/10 w/ monthly xmsn. ID "International Committee Red Cross, Geneva, transmitted by Swiss R Intl" // 9725, 9885 and inaudible 12035 (Richard A D'Angelo, PA)

TADZHIKISTAN Tentative, but nonetheless highly likely, on 4635 at SIO 322 in heavy ute QRM, from 0105 t/in to 0140 fading. M in Russian to 0127 break, then W ID, 6-note IS on xylophone-like instrument, W ID in lang, with tentative read on Dushanbe QTH. Russian propagation good this night 21/10 in active geomagnetic condx, so almost surely it. First time I've noted it since recommencing DXing a year ago--which proves once again that even in the pits of low solar activity, an active GM condx will bring the distant signal, if in the zone of opening. SAM DX the same night was uneventful, for instance (Maxfield Greenwood, Sedgwick ME)

TAIWAN VOFC, ancd beginning of German svc 10/10, 2057-2157 on 11890 & 9455 (Mitsuo Yamada, ABI) Via WYFR, I believe (gh) WYFR sked monitored partially via Taiwan: 1205-1605 9845 (and 4lm ancd), 21-23 Chinese 9955 to 2200, 6565, 6300. 23-24 EG 9930 6300 (Kunihiro Nishida, ABI) "Double Tenth Natl Day" Oct 10 spl bc from VOFC was hrd 01-0350: Chinese 15345 9575 5980; Cantonese 15270 9685; Amoy 17720, 15370, 11860; Japanese 11745, 7130; English 11825, 9610 (Mitsuo Yamada, ABI)

THAILAND Bangkok Post reported 3/10: House of Reps voted unanimously 2/10 to accept an urgent motion that parliament set up a radio stn of its own. Motion, sponsored by MP Anan Suksan (Chat Thai/Chai Nat), said parl must have its own radio stn to promote its activities and democracy. Cost of setting up a radio stn is estimated at 12 megabaht. Prachakon Thai party leader Samak Sunthorawet said there should be no problem in setting up another radio stn because there were still several fqs available. But house Speaker Chuan Likphal warned that financing the project might pose a problem. Govt might reject it due to lack of funds, he said. Said actual cost of setting up such a stn might be higher than the 12 megabaht estimate because many relay stns would also be needed in diff parts of country. MP Chawarin Lathasaksiri (Chat Thai/Ratchaburi) suggested a cutback of 40 kilobaht from a 2.5 megabaht [sic] for each MP. Amt saved'd then be used to fund the stn, he said. After the vote, the house agreed to send the motion to the House Parliamentary Affairs Committee & the Budget Scrutiny Committee (WBI 10/10)

TOGO On 25/10 on 5047, EG nx, ID "This news coming to you from R Togo". Nx was given in EG 1950-1959; at 2003 following FR pgm w/Af folk mx. EG is not listed; this is the first time for me to hear from them English! (Roland Schultze, Stuttgart FRG) Maybe this month in ENAm audible?

TURKEY Ankara on new 11805, also new time for EG to SW As 1330 3/11, ex-17880 (Mick Ogrizek, ADXN) Turkish R, Ankara, reported 5/10 on TV programming skeds; the second channel ends at 2130 after EG mx bulletin (WBI 10/10)

U S S R New unlisted fq of R Moskau is 5055, first hrd 15/10 2035-2102* in RS but no positive ID; 25/10 again 1925+ in RS, clear ID & TC, concert by Alexander Chirowa; SINFO at 2020 was 44444; xmtr site unk (Roland Schulze, Stuttgart FRG)

On SWLD 1/11 Don Jensen gave a list of the world's far northern SW stns, w/ Anadyr on 4030 as being the northernmost; that honor actually belongs to Murmansk on 5930, which is about 250 mi further N and is, without doubt, the world's northernmost SWBC stn; hrd here several times since 1978 w/local RS pgms at 0430 & 0515. Greenland's SW xmtr only ranks about 5th in latitude (E Behr, Ont)

Arkhangelsk, tent w/Mayak pgm & IS arnd 0800 on 5015; lack a SS/SR chart to see the situation at this time relative to Vladivostok but guessing it favors Arkhangelsk--I understand this to be a difficult one, but my QTH would favor it --on 26/10 (Maxfield Greenwood in Maine)

27/10 at 1711 on RMWS, while reviewing Gorbachov's speech made on Soviet TV, following Reykjavik meeting, ancr mentd that Gorbachov proposed to Reagan that USSR would stop jamming forn bcs, if USSR was allowed to bc its views from sites w/in or near US borders (Christos Rigas, Chicago IL) Later clarified as applying only to VOA, but USG cannot provide such an exchange and USIA was trying to persuade domestic net to carry RM; in NY Times, Wm Safire blasted USIA dir Wick for even considering this, since jamming is illegal; amounts to extortion (gh)

How about the French sked for R Moscow? (Chris Sweitzer, Gainesville FL) OK, but it's so long since the last sked was published by BBCMS that we should wait for the next one; perhaps this will remind me (gh)

Monitoring 28/9 to 6/10: R Stn Peace & Progress, Moscow, started bcs in Persian and Azeri [Azerbaijani] on 28/9. Persian 1630-17 on 15320 15210 11765 and 5915, Azeri 17-1730 on 15210 11690 6135 6110 5915. The fqs 6135 & 6110 emanate from xmtrs in Baku, Azerbaijan SSR and are also used for that republic's DS & ES. 5915 is currently also in use for ES of Kazakh R, Alma Ata, and R Tashkent. Too, this ch used by Natl V of Iran stn, pro-commie in Persian & Azeri from xmtrs in Baku since spring 1959. This stn, however, not obs on usual fqs & times since intro of RSP&P svc in PS & AZ. Tootoo, one of the RSP&P Azeri svc ancrs is that to be same as one who previously read commentaries on NVOI (WBI 10/10) More in CRANNY under NVOI

Monitoring 2-4 Nov: Preliminary survey of R Moscow ES since D86 shifts shows increased use of 4 MHz channels for ES to Eu; this winter 6 fqs in use as opposed to 4 last winter. They are: 4895 16-2230 Romania & Albania, 4860 16-2230 Czechoslovakia & Hungary, 4795 17-23 Yugoslavia & Greece, 4060 0430-0630 & 14-23 Poland, 4045 16-2230 Poland, 4030 1530-22 Scandinavia. In recent years R Afghanistan ES to Eu relayed via USSR and since 2/11 1730-1930 on 4920 //6020. Pashto/Dari, GM, EG at 1730, 1830, 1900 resp (WBI 7/11) 6020 blox Netherlands

Monitoring 7/11: Soviet radio's coverage of Red Square parade on anniv of Great Oct Socialist Rev consisted of live report in RS for home & abroad on All-Union R. Also in EG, FR, Std CH for RM ES. Live Russian, audible on some 70 SW fqs betw 5900 & 17900, began at 0650 on all DS and Fifth Pgm for Soviet seamen and compatriots abroad, which had all linked up at 0630; ended at 0909. A comtry on proceedings in EG by RMWS 0650-0756 on 39 SW ch. FR R Moscow Intl stayed on air beyond normal 0800* and bc from Red Square 0650-0811 on some 15 SW fqs which stayed on until 0825 w/mx & nx. Std CH on a similar period via 8 channels (WBI 14/11)

R Moscow is holding a contest on the Russian lang. Winners will be invited to make a free trip to the SU. Contestants who give good answers to some of the questions will receive RM souvenirs. Qs are: 1. What Russian words are understood in your country w/out a xltn? 2. What event in Soviet life in 1957 aroused addl interest in RS studies in your country? 3. What is the most popular surname in the RS lang? We'd also be very interested in learning what your first encounter w/the RS lang was like? Answers should be mailed before 15/12/86 to: N American Svc, R Moscow, Moscow USSR (via Charles Weiss, OH)

The 2 offls discussed greater coop in the bcng sector, especially thru exch of mx pgms between OZRT & VOA (WBI 17/10)

Z A M B I A On 4911 7/11 *0345, and 8/11 *0350, F at peaks; one day had orch anthem, next day choral. After s/on 7/11 played Herman's Hermits tune--traditional Zambian mx? (Richard A D'Angelo, Wyomissing PA)

Z I M B A B W E ZBC Harare reported 13/10: Zimb govt planning to establish extl radio svc to addr crucial questions in southern Af. Min of Info, Posts, Telecomms, Comrade Nathan Shamyarira, speaking on weekly TV pgm The Nation 12/10 said govt seeking setting up finances. Agreed there are insufficient internal resources, and this has prompted govt to negotiate w/local companies to produce cheap radios & TVs. Said Mozambique has managed to establish a cheap radio set, which can be carried on bicycles and helps to disseminate info to the people. Com. Shamyarira said Bulawayo-based Supersonic radio co has been approached by govt to produce cheap radios and produce a sample which [words indistinct] (WBI 17/10) Uh, er, someone changed the subject in midstream..(gh)

CLANDESTINE CRANNY

(East Asian DX News from the Asian BCing Institute, via Tetsuya Kondo)

The 4th clandestine radio in the Korean Peninsula has been born.

"Voice of the People (Inmin-e Sori in Korean)" was first found on October 8 on 4027VkHz by a Japanese DXer Akira Shibuta, WJDXC. This Korean language station is on the air everyday from 2200-2300, and repeated 0400-0500 and 1300-1400.

An opening announcement says as follows:

"This is the Voice of the People broadcasting from Pyongyang. Today we, the

people and the masses in Korea are under many suppressions and exploitations, and live in gloomy day after day. An effort made by comrades who have devoted life before for construction of homeland of Marxism-Leninism and real communism has been left [words indistinct], and Korea now continues that an anti Marxism-Leninism theory, called Juche Idea justifies the personal worship for Kim Il Sung and suppressed politics and still more the theory and practice of communist movement is destroyed and to be twisted. We have been not able to endure to watch such a historical fact, and united tightly to the root of working classes across the country. Radio Voice of the People, needless to say, overthrows Kim Il Sung and its [words indistinct] and supports and encourages the people who groan in iron chains to become real masters in this land and swears to take the lead of speaking for your right and benefit.

The Voice of the People is broadcasting three times a daily, morning 05-06, day 01-02, and night 10-11 on shortwave 4025kc. Now the Voice of the People begin to broadcast this transmission."

This station can be thought to be operated by South Korea or an anti Kim Il Sung group in North Korea. In the broadcast pronunciations and words are used such as North Korean, however they are not always perfect. Therefore there is less possibility for the latter view than the former. It says "all struggles is developed over the guideline of the General Union of Korean Workers". The presence of "Union" is not yet identified, in either case this must be a black-propaganda station. South Korea may build up the station for opposition to a North Korean black clandestine station Echo of the Masses.

The reception condition is not so good. The transmitting power must be less than 5kW. The modulation is not satisfied and the frequency is unstable.

ID: Yoginun Pyongyang-eso ponaedurinun Inmin-
Sori pangsong-umnida.

(Toru Yamashita, Hiroyuki Hirao)

V of People of Khmer, in Kampuchean on 6325, 23-24 & 10-14. This station supports King Norodom Sihanouk. One may hear his recorded speeches, but the program is very lively w/mx, religious chantings, etc. Noted here w/vy strong sigs and good mod. I suppose they are using a 250 kW transmitter in Thailand but a report to the KPRLF General Staff has not brought me a reply. Try FNLJK, 2 Passage Frequel, F-75020 Paris, France. S/on w/clock chimes after IS. Stn ID is too complicated to reproduce here (Supratik Sanatani, India, Oct ADXR)

V of the People of Burma Monitoring 31/10 - 8/11: station being on behalf of Burma Communist Party, not heard on 5110 since 31/10 (WBI 14/11) Monitoring 14/11: heard again on 5110 14/11 w/normal sked 1200+ (21/11)

V of Tamil Eelam 7015, 3/8 0215 talk in Tamil on Reagan's policy, SIO 544 (R Sreedhar, Madras, India, Sept IDXC1 ADXR) VOTE heard for first time on 31mb [freq not given] at 0430 21/9. No jamming; not very strong and clear, but // 40m outlet. Aged transmitters only at 05 & 14, no freqs given; continued to 0530. 40m severely jammed while 31m healthy I once again tried at 0400. Didn't find station on 40m but monitored 31 at 14-1422 after which only jamming heard to 1430. Same station heard from 1030 w/TM programs, jammed, a very good hide & seek game on 40m. 1050 heard another station of Tamil group, to 1105, by Tamil Eelam Liberation Tigers.

It must be a stn operated by other Tamil group. Weak and ended xmsn at 1105* I am sure pgms of the 2 stns were entirely different (G R Prahlada, Oct IDXC1)

PTI nx agcy, Delhi, reported 6/11: A Sri Lankan Tamil militant group today claimed that a pirate radio stn had been beaming anti-India, "pro-Khalistan" [Sikh separatist] propaganda into S India for past 4 months. "The govt of India is aware of this," the Eelam Peoples Revolutionary Liberation Front (EPRLF) said. L. Keetheeswaran, spokesman for EPRLF, told nxmen here the clandestine xmtmr seemed located somewhere outside India and putting out on 41m two 30-min Tamil & EG bcs each morn & eve. "The bc is aimed at creating problems among Sri Lanka Tamils based in S India and driving a wedge between them and the Indian govt," he said. "The radio carries on very rabid anti-India prop to the extent of supporting 'Khalistan' terrorists"... Monitoring 6/11: Stn calling itself in EG the V of Tamil Eelam was hrd 6/11 in TM & EG on 7010 at 1030-1130 & 1315-1430. Nx in Tamil 1030-1035, 11-1115, 1315-1335, 14-1415. Nx in EG at 1035-1045 & 1335-1345. An item in the 1035 EG nx contained an anmt by 'the Communist Party of Tamil Eelam' on the death of an 'area commander for Muttur,' which was also preceded by the words "sources here in Madras..." (WBI 14/11)

Pseudo V of Tamil Eelam A stn calling itself VOTE has for the past 4 weeks been on the air daily 0430-0530 on 41 & 31m, and on 41m at 0130-0230; being 3rd class Tamil film songs. 0500 & 0200 nx. Otherpgm is only commentary just after xmsn opens. Pgms center on anti-Indian and anti-Eelam. For instance, the pgms support Khalistan and justify the recent assassination of Gen A S Vaidya. Pgms are presented in the sweet coated tablet format. As none of the Tamil militant groups support or recognize Khalistan, it is sure that this Pseudo VOTE is the product of Sri Lankan govt to form anti-Indian and anti-Eelam propaganda. The reception is excellent in our part of the world. The pseudo VOTE does not give the name of the Tamil militant group it belongs to. Just from the 24/8/86. English contry is included in the Tamil bc itself. I obs for the past 10 days that is gone from 31m for morn bc. Exact location of stn is not known; probably uses facilities of SLBC (M K Shaikh Jawahar, Sept IDXC1 ADXR) Times don't match, but seems to be same stn referred to in previous para by WBI. Why don't UAAD people, familiar with SLBC/VOA xmtmr usage, confirm whether this comes from SLBC/VOA facilities? (gh)

V of Mujahadee/Mujahadeen e Khalq pgming hostile to Khomeni, in Farsi on 3935v, 4235v, 5960, 7110. 4235 first noted 13/10; varies a few kHz to avoid the bubble jammer. 7110 & 5960 are 24h; 3935 & 4235 noted 18-20+. Last time I reported this stn, they were using 5 xmtms. That leaves one xmtmr unaccounted for. All the ch are bubble-jammed but from this part of the world 7110 at 16 will give you a clear copy. ID: "Sedyee Mujahed...Mujahed-e-Khalq" (Supratik Sanatani, India, Oct IDXC1 ADXR)

R Iran Toilers Monitoring 5-8 Oct: This Iranian Tudeh Party stn which has been via xmtms in Afghanistan, now hrd on 10870, at 0230-03 & 1530-1630 in Persian (WBI 10/10)

R Iran pgm hostile to Khomeni regime is hrd 1835-1935 on 7075 & 9850. S/on w/ IS and anthem which incidently is same as one used by V of Liberation of Iran, and Free V of Iran. ID as Injo Radyo Irona. Also noted 1330-1430 on 9525 & 9695. Latter ch is weaker and also has bubble jammer (Supratik Sanatani, India, Oct IDXC1 ADXR)

V of Liberation of Iran (Inje Sedyee Nejat e Iran) continues steady w/previous sked, i.e. 0330-0530 on 9027-weak, and 1555-strong; 1630-1830 on 7070-strong & 9027-weak, w/Farsi pgm hostile to regime of Khomeni (Sanatani, Oct IDXC1 ADXR)

National V of Iran Monitoring 6-15 Oct: NVOI, which has bc pro-communist material in Persian & Azeri from xmtms in Baku, Azerbaijan SSR, since spring 1959, continues untraced on 6025 & 5915 at 1730-1815 & 1930-20. Experienced monitors are convinced that the ancrs now appearing on the new R Stn Peace & Progress xmsns in Persian & Azeri are the same as those who used to present pgms on NVOI.. Therefor it may be assumed that the disappearance of NVOI is connected w/intro of the new RSP&P xmsns from Moscow at end of Sept (WBI 17/10) & see USSR (gh) Monitoring 13/9 to 21/10: NVOI was last positively IDed carrying its sked bcs on 6025 & 5915 on 13/9. Its bcs in PS & AZ now believed to have been replaced by new bcs in same langs from RSP&P in Moscow (WBI 24/10)

Free V of Iran Inje Sedyee Irone - Azad e Iran, like R Iran is also on 9525 and 9695 at 15-16. The carrier with a pure tone is kept on between the two pgms. These give an addr in Rotterdam. Some reports say that Baghdad Radio pgms are carried on above fqs after the end of the pgm but I did not note any such. Any info, anyone? All pgming in Farsi (Supratik Sanatini, Oct IDXC I ADXR)

V of Palestine ID as "Idhat'l Fillistine-Saut-e-Soura ti Fillistine" hrd over S Yemen 5970 at 1815-1900 in AR. For a reply try Sadoon, P O Box 3122, Baghdad Iraq --cf WRTVH 1976 page 65 in Listen to the World (Supratik Sanatani, India, Oct IDXC I ADXR)

Radio SPLA V of the Sudanese Revolution, 9530 ex-9705, believed to be from Ethiopia, F in EG 13-1330 18/9, uninteresting pgming. ID as R SPLA (Victor Gonetilleke, Sri Lanka, Oct UADX)

Monitoring 30/9 to 3/10: Radio SPLA, supporting the Sudanese People's Liberation Army and Movement, from a xmtr in Ethiopia, continues daily bcs in EG & AR 13-14 on 9530. The anti-SPLA radio, which addressed itself to the Sudanese "People's Armed Forces" which had been QRming xmsns of R SPLA, was last hrd 30/9 (WBI 10/9) R SPLA reported 17/10: The [SPLA-SPIM Political Military High Command] spoxeman said the renewed campaign of disseminating lies embarked upon by Khartoum has been made possible by the fact that it [is] now capable thru jamming of R SPLA to deny some listeners accurate info on both political and military developments in the ongoing war... (WBI 24/10) Monitoring 11/11: R SPLA, believed via Ethiopia, now obs in 11-12 vern svc & 13-14 EG/AR on 9550 (WBI 21/11) R SPLA first hrd w/test bcs on 18/10/84. Regular pgms from 2/11/84 via Addis Ababa; Sudanese verns svc began 15/6/85. R SPLA material in AR also began to be bc 5/2/85 from xmtr in Libya on 17940, which also carried the V of the Sudanese Popular Revolution svc; this was withdrawn in Apr 85 when Pres Numayri of Sudan was deposed. The multilingual svc at 11-12 on 9550 includes pgms in Bari, Dinka, Latuka, Muba, Nuer, Shilluk (WBI 21/11)

R Bardai Monitoring 20/10: stn supporting the Transitional National Union Govt under Goukouni Oueddei but which is hostile to the Chadian govt in Ndjamena under Hussein Habré, continues to bc on 6009 at 18-2030 apx. Pgms 20/10 were in FR until 1834, then AR and from 1908 in Chadian verns. 6009 xmtr is believed to be located in Sabha, Libya. In an iv for RFI 17/10, Goukouni Oueddei had said that he was under house arrest and considered himself to be 'a prisoner of the Libyans' (WBI 24/10) Stn was first hrd in Feb 1983; stn has ancd it bcs from Bardai, a town in extreme north Chad, but xmtr is believed to be located in Sabha, Libya. When first hrd, stn ancd as "R Bardai, Chadian Natl Radio, the voice of the liberation". It has also ancd as "R Chad". The verns sked 19-2030 are Sarah and Korah (WBI 31/10)

R Truth bcs material hostile to PM Mugabe and the govt of Zimbabwe. It was first monitored carrying test xmsns on 10/3/83. Its first cuntry hrd 25/3/83. Xmtr believed to be in S Africa. Sked on 5015 0430-05 EG, 17-1730 Shona & Ndebele, 1730-18 EG repeating 0430 xmsn (WBI 24/10)

Netherlands Group set up to support EPLF, FMLN, NDF and Fretilin radios RNMN reported 6/11: A campaign called "Media for Resistance" has been launched by the (?XYSY) group in Amsterdam, which is trying to collect some 60 kilodollars for clandestine media activities around the world. Spoxewoman, Libby Diederer [phonetic], says aim is to raise money for media of and draw attn to 4 mvmts: Eritrean People's Libn Front [EPLF], the Farabundo Martí NLF [FMLN] in El Salvador, the National Democratic Front [NDF] in the Philippines and Fretilin in East Timor. Aim is to raise 35-40 kiloguilders for each mvmt. FMLN radios are set up one at the Guazapa volcano and the other in another part of El Sal. Fretilin, in Indo-controlled E Timor, has SW clandestine PTP xmtr which, she says 'is not meant to be listened to by the public'. However, E Timor is a closed area and the only way for E Timorese to have contact w/outside world is via their own xmtr, R Maubere, nx from which is picked up in Australia and 'brought' to Mozambique, where Fretilin has contacts and thence spread further. Could critics not say that the group is supporting just left-wing clans? She says in this case left wing does not mean anti-American or pro-USSR; rather the group wants to support self-reliance (WBI 14/11)

R Free Surinam xmits its liberation-pgms via LV del CID. At the moment a 'jungle army' has started fighting in Suriname and it claims to have at least 25% of the country under its power. The jungle army will soon start to bc RFS pgms from its own xmtr in the jungle of E Surinam. These pgms will be special ones, to prepare people who are not yet liberated, to their liberation. Also, special msgs will be xmted to 'secret soldiers' in unliberated areas (Marcel Rommerts, Netherlands, Nov DSWCI SWN) R Fri Sranan, full data QSL letter rcvd in 86 days from v/s Johnny Kamperveen, Pgm Dir. Addr: Council for the Liberation of Suriname, P O Box 5517, 3008 AM Rotterdam (Richard A D'Angelo PA)

LV de la Libertad on 6093v, Colombian cland reported in June 86 on SWLD & elsewhere as being from "a Caribbean island" -- in 1984 there was a report of a new stn being planned in the Dominican Rep: LV de la Libertad on 6095!! A strange coincidence, or is this the old stn in Puerto Plata, last hrd on 6218 in 1974? (Ernie Behr, Kenora Ont)

R Camilo Cienfuegos, 9940, 2154-2235 w/IDs, CID IDs and Intl nx; 2230 continued w/own pgm, no more R Free Suriname at 2230? (Richard A D'Angelo, PA, 3/11) In LV del CID entry in Oct 1N, what do you mean by "but sometimes in June"? (Chris Sweitzer, Gainesville FL) "But sometime in June"--the report was not dated & appeared in July NZDXT; I was merely pointing out that the logging itself would have been sometime in the month of June. Just above, is another undated logging--please take care ALWAYS to include dates--the date after the reporter's name in the () is the date of the report to 1N--in this column dates with names or sources are the date of report or publication, not likely date of reception!)

LV de la UNO on 5889, 0220-0301* 2/11 w/numerous refs to Nic & Sandinistas to s/off w/orch anthem, SIO 353; loads of IDs (Richard A D'Angelo, Wyoming PA)

R Miskut Monitoring 25/9 to 20/10: The 21-22 xmsn from stn claiming to bc from somewhere in Nicaragua and which describes itself as a voice against atheist communism, now hrd on 6265; earlier xmsn ending at 1230 remains on 5565. R Miskut's 0130-0230 bc was hrd on 25/9 on 6265, but not traced since (WBI 31/10) 30/10 at 0224-0241* on 5950: anti-Nic & Contadora, and pro-Christian talk in EG 0228-0238. S/off w/possible anthem? or at least a patriotic tune (Chris Sweitzer, Gainesville FL)

R Venceremos Letter to México addr was returned after 5 months w/several unreadable remarks on the envelope. Maybe the only chance to get mail to the stn is now via: Ap. 2363, Telcor Los Escombros [sic --Escombros -gh], Managua, Nicaragua (Mathias Kropf, Germany, Oct DSWCI SWN)

Estimado amigo:

Me es grato dar respuesta a su informe de recepción de la Cnda Corta de nuestra emisora, el cual se ajusta al programa religioso que se transmite diariamente en el horario indicado en su informe.

Radio Santa Rosa es una emisora cultural-educativa y Católica, que el 15 de Octubre cumple 28 años el servicio de la comunidad, en dos frecuencias y a nivel nacional Cnda Corta y Cnda Media. Precisamente el presente año estamos celebrando en el Perú el Centenario del nacimiento de Santa Rosa de Lima, primera Flor de Santidad de América.

Sin otro particular y deseándole éxitos quedamos de Ud. Hasta una nueva ocasión.

Atentamente,

Francisco J. Borja

Apde. Postal No. 713 La Caba, Altamira, Honduras, Centro America

August 12, 1968

OPTIONAL FORM NO. 10

Mr. Ruth Allen
227 June St.
Ponca City, OK 74601

Dear Mr. Allen,

Thank you for your letter of July 13 informing us of receipt of our last transmission of the same date. Our frequency is 475 KHz, as licensed with the government of Honduras at geographical coordinates of 13 degrees 16 minutes North and 83 degrees 46 minutes West in the town of Puerto Lempira, Occidente a Dept. Our call letters are W8E2 and we are called "SARCO RADIO".

Our purpose is to provide bilingual (Spanish/Haitian) educational and public service broadcasts to the Haitian Indian population of the area.

Our transmitter is a Sironex SI-40-10 with 10 KW of power and we use a simple dipole antenna of 50 ft. which is probably around 90 ft. above sea level.

We are financed by funds from the United States Agency for International Development and will have our grant opening on August 15, 1968 after which we will transmit daily from 0600 to 1900 hours local time. Should you choose to monitor us we would be happy to hear your comments especially as to daytime reception as we are hoping to get good national coverage here in Honduras for possible merger next year with nationwide educational programming.

Thank you also for the technical information which I will pass on to our field engineer.

I hope this information serves as a Q.C. as we do not have cards printed up as yet.

Sincerely,

David A. Pittzer

UKRAINIAN SSR: Radio Moscow 11860 via Lvov f/d cd. in 2 mo. (Allem). Radio Kiev 9685 f/d "Flower/Birds" cd. in 122 ds. (Levison).

UNITED ARAB EMIRATES: UAE Radio Dubai 11955 f/d cd. in 23 ds. (Engelberts). 15320 f/d "Map" cd. w/ schedule in 44 ds. (Kashiwabara).

USA: KCBI 11735 f/d cd. in 18 ds. for ms. (Kashiwabara). Radio Earth 7355 via WHRI f/d cd. in 69 ds. for ms. (Kashiwabara). WINE 15185 f/d cd. w/ schedule in 16 ds. for ms. (Weber).

USA (Pirate): WGUT 1620 f/d "Logo" cd. in 3 1/2 yrs: * after re-submitting my rpt. to the program director who, quite by chance, became a member of my engineering staff in NYC!!! (Tutak). TNPM 7473 f/d cd. in 84 ds. for 1 IRC. (Pasz).

USSR: Radio Moscow 9880/9610 kiewicz-WI). cd. in 2 mo. for a SP rpt. (Field). 11860 cd.

* in 34 ds. (Levison). Radiostation Rodina 13755 cd. in 52 ds. for a RS rpt. (Levison).

VIETNAM: Voice of Vietnam 10040 f/d cd. in 46 ds for 1 IRC. (Engelberts).

YEMEN: PDRYBS 7190 f/d pink "Antenna" cd. in 9 mo. on 3rd try. v/s Faiza A. Rakeeb. (Palmerheim).

I KNOW ITS NOT SWBC. BUT... Our man in the Philippines Gerry Bishop reports a QSL from **WSZB 1584** on **Palau**. This was for an "Airborne" reception at 20,000 feet 600 miles west of Guam!

NOTES: Bill Plum of 12 Glenn Rd., in Flemington, N.J. 08822 carries a full line of ms., reception report cards, prepared QSL cards, airmail envelopes and personalized QSL/DX pennants. It is a very reliable service. Write to Bill for a complete listing of his service...Sam.

Ron Howard reports that DXing and QSLing is looking up. He has used Gerry Dexter's "Language Lab" for his reports. It works quite well.

F. Engelberts is a new contributor to the column. He uses an FRG 8800 with an active antenna. Nice to have you with us.

Kirk Allen write that he is very pleased with the recent QSLs from Jordan and Galapagos. He has 6 more countries to go for #150. Also received letters from Charles Fox, Jr. and from Peter Tutak who recently moved from New Jersey to Seattle, Washington.

Till next time...73s

Confirming your reception report of this station.

DECEMBER 1986

Happy Holiday Greetings and welcome again to NASWA's Scoreboard. In this column, you have the opportunity to share your DXing progress with everyone. This month the Spotlight is on Oceana. C/H = Countries heard and C/V = Countries verified. Country counts are by the official NASWA Country List. Please note that HQ has a 1986 edition of the NASWA Radio Country List available for \$2.00. The next Scoreboard will appear in the March issue of FRENEX and the Deadline for submitting Scoreboard updates will be 14 February 1987. The Spotlight for the March issue will be on South America. You must update at least once a year or your entry will be deleted. If your totals have been deleted from the list due to failure to update, please send me your complete totals for each continent when you resubmit because the computer wipes out all data when your file is deleted. Many thanks to all who have contributed to this month's Scoreboard.

| Name, State | Total | | Oceana | | Best Oceana | QSL |

Thanks to all our contributors this month. Please share your totals with your fellow NASWA members through Scoreboard. Remember the Spotlight next time will be on South America and that the deadline will be February 14. If your name is missing from our list this time, you probably have not updated in the past year. Happy Holiday Cheer and Good DX to all. Merry 73s.

J. A. J.

WANTED: Older military radio equipment in portable, vehicle, or aircraft types and all related items. Old shortwave two-way equipment. Simple 1, 2, or 3 tube or transistor radios - Knight Spanmaster, Philmore, Meissner, etc. Early transoceanic-like transistor portables. Sony CRF-150/160. ALSO: Will pass along free my radio and electronics magazines to an interested hobbyist overseas. Preferable the recipient would be in a situation where such items are unavailable or overly expensive. Offer could include used serviceable electronics parts. Open to recommendations - nominations: East Europe, South America, Africa? Hugh Miller, 11206-1 NE, Seattle, WA 98125.

- 21605 UNITED ARAB EMIRATES R. Dubai in EG *1330, world nx, local wx, mailbag (Hill MA)

 A much better number of loggings this month. Of particular interest to members are station changes, e.g. new frequencies, new stations, changes in hours of xmsn etc. not to mention the unusually rare DX that is reported only occasionally in FRENEX or elsewhere. Thanks to all of this month's contributors and happy holidays to all.

FRENDX LOG REPORTERS

Distributing Editor: John F. Hensult, 55 Lincoln St., Abington, MA 02351

FRENDX CONTRIBUTORS LIST **** DECEMBER 1986 ISSUE **** DEADLINE = 12th Month

Brian ALEXANDER, Mechanicsburg, PA. (?); Norman BOBB, Minneapolis, MN. (R1000-R600-XCR30); Arthur BONNET, W. Lafayette, IN. (DX400); Richard D'ANGELO, Wyomissing, PA. (R70); Peter DILLON, Columbia, MD. (DX400); Marlin FIELD, Hillsdale, MI. (SPR4); John FISHER, Chelmsford, MA. (R2000); Kenneth HILL, Somerville, MA. (DX1000-ICF2010); Lynn HOLLERMAN, Huntsville, AL. (DX302); Hans JOHNSON, Monterrey, CA. (R71A-RF2200); Brian JONES, San Antonio, TX. (R70); Rufus JORDAN, Pittsburg, PA. (DX302-Zenith Trans-Oceanic); Ken KASHIWABARA, Panorama City, CA. (ICF2010-RF2800); Kevin J. KLEIN, Appleton, WI. (R71A-ICF2002); Tom LASKOWSKI, South Bend, IN. (ICF2001); Harold LEVISON, Philadelphia, PA. (R70); Sheryl PASZKIEWICZ, Manitowoc, WI. (NRD515); Wilder A. PICKARD II, Evanston, IL. (SPR4-R4B-R7); Ronald PURDUE, Byron, MN. (FRG8800); Christos RIGAS, Chicago, IL. (R2000-ICF2002); Wayne SCHANKE, Kiel, WI. (R2000-DX400); Roland SCHULZE, Stuttgart, West Germany. (R4C-SPR4-R70A); Raymond SLAGT, Aruba, W. Indies. (FRG8800-R2000-ICF7600D-DR28); Bob THUNBERG, DuBoise, PA. (R1000-CR2021-S40B-SPR4); Ron TROTTO, St. Cloud, FL. (Cr2021-Zenith-Transoceanic); John TUCHSCHERER, Neenah, WI. (R70-FRG7700); Cathy TURNER, Yonkers, NY. (R2000); Pete TUTAK, Seattle, WA. (R70); David TWIGGS, Bristol, CT. (R70); Steve WALLACE, Fleetwood, PA. (HQ180); Eric WITZIG, Annandale, VA. (R1000-Zenith "Big Black Dial").

Here we are at the end of another months column my friends. It seems that our contributors are slightly down in numbers, however those that have been submitting loggings through ye editor, have been plentiful.

I have very few comments to make this month, however as usual, I respectfully request that contributors, PLEASE cut your loggings into strips, and wherever possible, please use the Logging forms available from Headquarters and perhaps more importantly, Make sure you either print clearly or type your logs. This has no effect on me as the editor of this column, however it does weigh heavily on use of a logging by the respective column editors, if they are unable to read your log information, why should they strain their eyes and nerves, trying to decipher some of the hydroglyphics that pass through their hands. As previously stated ladies and gentlemen, without these devoted editors, there would be no such thing as the FRENDX News Bulletin each month!.

Contributor Raymond SLAGT, Aruba, West Indies, has a newly purchased FRG8800 and is seeking a copy of Computer program to interface with his Commodore C-64 and the FRG8800, anyone able to help Raymond out, please contact ye editor for the mailing address.

DXer Bob Hill is generously filling in this month for Log "C" section editor Joe Freeborn, while Joe and family vacation in Nebraska. Our thanks to Bob Hill and best wishes to Joe and family for a good vacation.

Finally in ending this column for the month, and the end of another year, I would like to take this time to wish each and every member of NASWA and their families, the very best of Holiday Wishes. May you all have a plentiful Christmas and a Happy and Bountiful New Year.

Until Next Month.

Best Wishes

The Marketplace Report is published monthly in the ANARC NEWSLETTER by the ANARC DX Equipment Information Committee, P.O. Box 161, Station A, Willowdale, Ontario M2N 5S8, Canada: Harold Sellers, Chairman. News and information on equipment, companies and services of interest to radio listening enthusiasts is presented and contributions of such, from readers, are welcome.

Scanners

Cobra has entered the scanner market with the SR-16 and SR-10, 16 and 10-channel handheld units, and the SR-925 and SR-900 desk-top models. Information is available from Cobra Consumer Electronics Group, 6500 W.Cortland, Chicago, IL 60635 or telephone 1-800-COBRA 22.

The new Regency R806 mobile scanner is compact in size to fit smaller cars, but covers eight channels and six bands (30-50, 144-148, 148-174, 440-450, 450-470 and 470-512 or optional 406-420 MHz). Other features are programmable priority control, dual scan speeds, channel lockout and scan/manual control. Further information is available from Regency Electronics Inc., 7707 Records St., Indianapolis, IN 46226.

Autek Ceases Operation

Autek has gone out of business, according to our sources. Autek produced the QF1A active audio filter.

Eskab Elektronik A-B

This company, formed by Eddy Visser of the former Eska Elektronik, now offers the Phase Locked AM (PLAM) option for the Icom IC-R71 receiver. The circuit card reduces distortion caused by selective fading and also makes ECSS (or, in this case, Non-Synchronous Heterodyne Detection) almost automatic. The option was reviewed by Don Moman in the October 1986 CIDX "Messenger" bulletin, a reprint of which is available for an SASE from CIDX, #61 52152 Range Road 210, Sherwood Park, Alberta T8G 1A5, tel. 403 922-2872. Moman also operates Shortwave Horizons, a shortwave equipment retailer, and he is selling the PLAM for Cdn\$229. Also available for the Icom is a 4 kHz crystal filter, costing Cdn\$79.

EQUIPMENT REVIEW

HAMMARLUND HQ-180 SERIES

The Hammarlund HQ-180, in its several versions, was a very popular receiver during the 1960's. Even today it commands a great deal of respect and is a treasured possession of many seasoned DXers. The HQ-180 still ranks as an excellent receiver, even when compared to today's modern equipment.

The HQ-180 was manufactured from 1958 to 1970. In 1959 it cost US\$429.00. It is a triple conversion superhetrodyne using 18 tubes and it tunes 540 kHz to 30 MHz. The HQ-180C was the same receiver, but with a Telecron clock timer costing an additional \$10.

In 1963 the HQ-180A version was introduced. The "A" version differed from the plain 180 in that it had reduced initial warm-up drift because a separate filament transformer was added to keep the heaters of the high frequency oscillator and first converter tubes on all the time, even when the set was turned off. Other differences were two rear panel accessory sockets, three instead of two-position BFO switch, and a 500 ohm audio output in addition to the 3.2 ohm output. It also ran a bit cooler, because the rectifier tube had been replaced by diodes.

The HQ-180AC had the clock-timer and the HQ-180AX had an 11-position, fixed frequency, crystal oscillator assembly in place of the clock. This crystal assembly allowed the then equivalent of memory. The crystals were for most-tuned or favourite frequencies: the channel was selected and just fine tuned. An "N" in the suffix of the model indicated the presence of a noise blanker.

An uncommon version was the HQ-180AE, the E indicating that the power supply was adaptable to both European and American systems.

The price of the HQ-180A was US\$440 in the mid-60's and went up to US\$575 by the time Hammarlund and the HQ-180A disappeared in the early 70's. Prices for used HQ-180AC's, the most common version, are now around \$200 in both Canada and the United States.

Below is a picture of an HQ-180 and the specifications for the HQ-180A.

Operation and Features

The HQ-180 is dual-conversion up to 7.85 MHz and triple-conversion above that. A main tuning dial performs general tuning and a bandspread knob fine tunes. The tuning knobs connect directly to the tuning capacitors, the main dial having a 20 to 1 gear ratio. The bandspread dial may be used on the shortwave ranges (above 2.05 MHz) and has 5 kHz segments for ham bands and a 0-100 logging scale. A Vernier Tuning permits extra fine tuning +/-3 kHz off the centre of the passband, when using the SSB mode.

HQ180A

Frequency Range Covered: .54-1.05mc/s;
1.05-2.05mc/s; 2.05-4.04mc/s; 4.0-7.85mc/s;
7.85-15.35mc/s; 15.35-30.0mc/s.
Bandspread Calibration: Dial markings every 5 kc/s on 15, 20, 40 and 80 meter bands; every 10kc/s on 10 meter band; plus arbitrary 0-100 logging scale.
Maximum Audio Output: 1.0 Watt (Undistorted)
Passband Tuning Range: plus minus 3KCS with calibration every 1 KC. 8:1 vernier tuning ratio.
Output impedance: 3.2 Ohms (EIA Standard) plus 500 Ohms.

Frequency readout is very good for such an older-style receiver.

There are RF Gain and AF Gain controls and an Antenna Trimmer to peak the signal strength. A 100 kHz crystal calibrator is built-in to permit the accuracy of the dial readout to be checked. When using the calibrator it is best to manually disconnect the antenna to prevent received signals from overshadowing the calibrator signal. The BFO pitch control adjusts +/-2 kHz. An AGC control allows slow, medium, fast AGC or off. An adjustable noise limiter works on local electrical pulse interference. The S-meter is large, easy to read and accurate.

Antennas using coaxial cable, twin or single wire feeder may be connected to the coaxial socket or terminal strip on the receiver's back panel.

Headphones with a 2000 ohm impedance are required on the Hammarlund. If these are not available, common 8 ohm phones may be used in conjunction with an impedance matching transformer.

For owners of the HQ-180, this recommendation from Hammarlund: remove the metal shields from around the tubes, if there are any. This will extend the tube life and should not degrade performance.

Sensitivity, Selectivity and Stability

In the 180A, stability is good due to the separate filament transformer mentioned previously. Sensitivity is very good and if the set is properly aligned, the receiver is capable of excellent DX reception. One reviewer particularly noted excellent sensitivity on 120 meters, something not found in many receivers. Sensitivity above the 19 meter (15 MHz) band is somewhat reduced, but still satisfactory. Overloading can be a problem in the presence of high-powered mediumwave stations, but certainly much less a problem than on many modern solid-state receivers. Adjustment of the Antenna Trimmer may eliminate overloading at certain times. Dallas Lankford also reports that models containing the noise blanker have poor strong signal handling performance on the AM (BCB) band. He suggests removing the noise blanker.

Selectivity is very good. The sideband switch permits selection of LSB, USB or DSB and since the BFO control is separate, AM mode may be used while listening to a separate sideband. This helps to avoid adjacent channel interference. Bandwidths of 0.5, 1, 2 and 3 kHz are available in SSB and 1, 2, 4 or 6 kHz in DSB (normal AM reception mode). Crystal filters are used. A Slot Frequency control performs the function of an audio notch filter, with 60 dB of rejection, being adjustable to remove heterodyne whistles and such.

Conclusions

The HQ-180 has many of the features a DXer desires today and which manufacturers, such as Icom, are now putting back on their receivers. It's major disadvantage would be the lack of digital frequency display, but this can be added via one of the add-on or kit displays available. Universal Shortwave (1280 Aida Dr., Reynoldsburg, OH 43068) sells the Torrestronics WIK-1 digital display for US\$135 plus shipping and Grand Systems, P.O. Box 2171, Blaine, WA 98230 also manufactures a display.

HQ-180 review continued:

The receiver is too heavy and large to want to move around, but once you've found a home for it, you'll find it very flexible and versatile. You should be prepared to pay out \$20 or more each year for tubes that need replacing and you'll need to obtain a separate speaker, since none is built-in. There is no recorder jack.

The Hammarlund HQ-180 has received many favourable comments over the years. It has been a standard upon which many newer receivers have been compared. If you can obtain an HQ-180AC and add digital readout to it for US\$400-\$500, you've got yourself a good set-up and a good deal. However, remember you'll have to deal with tubes, maintenance and weight. The HQ-180A is best suited to be used for DXing, with a solid state receiver available for casual listening, tape recording and such.

A very useful publication for the HQ-180 owner is "HQ-180 Series Manual Supplement" by Dallas Lankford. This nine-page article has many tips and is available for US\$2 plus an SASE from Dallas Lankford, P.O. Box 6145, Ruston, LA 71272-0018.

Although Hammarlund is no longer in business, spare parts can still be obtained from Pax Manufacturing Corp., 100 East Montauk Highway, Lindenhurst, NY 11757, phone (516)957-7200.

continued :

According to Radio Netherlands Media Network on October 17th, Eskab will also have a modification available for the Japan Radio NRD-525 soon. The mod will reduce an IF hissing sound, improve selectivity, add PLAM and possibly add a VHF converter covering 87 to 130 MHz. The mod will not be in kit form, so Eskab will market, in Europe and possibly North America, the receiver already modified. Further information may be obtained from Edvis, Box 32001, S-20064, Malmoe, Sweden.

Panasonic RF-B20 Receiver

This receiver has replaced the RF-B50 model and is selling for a suggested list price of US\$99.95 or Cdn\$169.95.

Features include: six shortwave bands (49,41,31,25,19,16 meters), FM/MW/LW, power lock switch, double superheterodyne circuit, 3 "AA" batteries, 0.32 kg weight and 9.0x16.5x2.8 cm dimensions.

Latest Information

Both the Kenwood R-5000 and Ten-Tec RX-325 are expected to be on the market shortly, as this is written (early November).

Sony AIR-8

This handheld receiver is being sold by Spectronics, Inc., 1009 Garfield St., Oak Park, IL 60304, (312)848-6777 for US\$270.
