NASWA

NORTH AMERICAN SHORT WAVE ASSOCIATION

WILLIAM E. OLIVER
Executive Director/
Publisher - NASWA
45 Wildflower Road
Levittown, Pa. 19067

NEW UPDATE EDITOR NAMED

First of all, my apologies to UPDATE subscribers who haven't received the recent issues. Former editor Tom Alleman's case load became too heavy to allow him to continue with UPDATE and locating a new editor and discussing proposed changes took longer than I expected. I should have notified subscribers of the situation. My fault.

The new editor of UPDATE will be Robert J. Hill whose address is 71 Beach Street, Sharon, MA 02067. Bob is well known in DXing circles and I'm sure he'll do a fine job with UPDATE. I hope you'll give him all possible cooperation. Many thanks to Tom Alleman for the fine job he's done over the years.

HCJB FROM HAWAII?

Marlin A. Field writes that HCJB is seeking permission from the FCC to build a station in Hawaii and the World Fellowship Board of Trustees is asking for a permit for shortwave.

NO COLLECT CALLS ON THESE ADS, PLEASE

FOR SALE: Uniden CR-2021 AM/FM/SW portable in very good condition. Price \$95.00 plus shipping. Mike Levintow, 2829 Connecticut Avenue NW, Washington, DC 20008. Phone (202) 387-4312 evenings.

FOR SALE: Drake SSR-1, usable but need alignment, \$75.00, Heath HX-1681 transmitter, PS23 power supply, \$75.00. Knight T-150 transceiver, \$50.00. Nostalgia collectables: Grundig table radio, WW2 Navy RBS 2-20 MHz, \$25.00, Navy ARB, \$15.00. Several USAF BC-348. Knight Space Spanner, \$15.00. Heath GR-81, \$10.00. SASE for list of other equipment. Hugh Miller, 11206-1 NE, Seattle, WA 98125. Phone (206) 365-3684 from 10:am to 1:00pm local time.

WANTED: Zenith Transoceanic Model R-7000. Circa early 1980's. Must be mint. Larry Rosenberg, 127 Corliss Drive, Moraga, CA 94556. Please call (415) 376-1272 evenings.

FOR SALE: Sanserino 2' "box" loop antenna with FET amplifier for BCB DXing. Fully assembled with stained hardwood frame and base. This antenna has netted me 47 states on the broadcast band. One year old. Works great and is in good condition, \$75.00 by UPS. Rick Krzemien, 550-A North Civic Drive, Walnut Creek, CA 94596-3250. Phone (415) 944-9589.

FOR SALE: Drake TR-4 transceiver with MS-4 power supply and vertical antenna. Excellent condition, \$250.00. R-390A, restored, works perfectly. Modified with solid state power supply. Clean, not scratched. Manual included, \$250.00. Prices negotiable. Prefer to sell in NYC area. Herb Shatz, 65-09 99 Street, Apt. 6T, Forest Hills, NY 11374. Phone (718) 275-9215. evenings until 0300 GMT and weekends.

FOR SALE: Sony CRF-1 super portable. Just checked by Sony Corporation Service Center in New Jersey. Covers LW to 30 MHz. Still rated best in WRTH. Price \$700.00 (over 1400.00 new). M. Stutterheim, 510 Main Street #732, Roosevelt Island, NY 10044. Phone (212) 888-7416 Or (516) 668-5757 weekends.

FOR SALE: Sony ICF 6700W, \$150.00. Customized Beam Headings (from/to) and distances (MI/KM) to over 355 WRTH transmitter sites. Useful in picking alternate transmissions and selecting listening times based on distances. ITU Country Codes included. Send your location/coordinates, \$5.85. FRENEX complete '84 or '85, \$5.00 each. WRTVH '85, \$6.00. All items include shipping. Cashiers check or money order, please. Al Drehmann, Route 2, Box 3-B, Tryon, NC 28782. Phone (704) 894-3398.

Editor:

Stephen G. Moye
178 Bartlett Ave.
Cranston, RI 02905
[401] 941-6497

Greetings to the first CONTACT of 1987. I hope that you and your families have had a very pleasant, happy -- and, above all -- safe holiday season. Although the change will not be immediately apparent to you, this column is being prepared on a new (both to me and to the software world) program by the name of *ReadySetGo3*. It is a desktop publishing program made by Manhattan Graphics Corporation (163 Varick Street, NY, NY 10013-9990), and it is absolutely superb -- quite the equal of programs costing quite a bit more. I recommend it very highly indeed. Now on to the first letters of the New Year. . .

From *Cathy Turner* (Yonkers, New York) comes a wonderful letter to start off with; she is the first to take me up on an invitation I issued to all NASWAers -- but read on. . .

Seasons Greetings and all that stuff!

I've had my "DX-mas" stocking (cute, huh?) filled a little early this year. I heard radio Korea clearly for twenty minutes before it started playing hide and seek in the static!! Now some SWLs/DXers will say "big deal." It's a big deal for me, as I have a lowly indoor active antenna, unlike some people who have multi-meter long wires. . . Which brings up the subject of the new Radio Japan Sackville Relay. Honestly, don't you think it takes a little fun out of SWL? I mean, wasn't it something special when you first heard Radio Japan (or New Zealand, Korea, or anything a trifle more exotic than VOA or Moscow) come crackling with delight over your receiver? Oh, sure, I'll listen to Radio Japan on 6120. . . but it's not as exciting as sitting in the dark, yelling at the kids to turn off the kitchen lights, cable TV, and the computer, just so that you can hear something that may be your imagination. Give me "snap, crackle, and pop," I'm a purist.

Several months ago, you requested humor associated with the hobby. Not having seen any stories, here are two anecdotes:

#1. One night last week I was listening to Botswana (on 7255). My seven year old son, Chris, passed by my door on a nocturnal pit stop. He peered in at me, as I sat curled up on the sofa, earphones on my head, notepad on my lap. He asked me what I was listening to. "Botswana. It's in Africa," I replied. He nodded and continued on his way to the bathroom. On his way back to bed, he came into the room for a quick snuggle. He took the phones from me, put them on and sat quietly listening. After a few minutes, he very seriously removed them and looked up at me. "Mommy," he said, "I think you'd better go to sleep. You're listening to cows." I didn't have the heart to tell him that when the cows were done, and people sang, THEN the program would begin! I tucked him into bed and thanked him.

#2. Several months ago, I went to a magazine shop for a copy of HAM radio magazine that had an article on SWL. I asked the clerk if he had a copy. He looked at me and asked if I was a HAM. I smiled and said maybe someday, but now I was interested in short wave radio. With that, a little old lady spins around, spouting about a communist spy and short wave radio, etc. It was only my DAR membership card that saved me from her umbrella. I think we need better press!

I get a kick out of your computer rambles. We have a TRS Color Computer 3 (525K) that we use mostly for business, but we have a lot of fun with it, too. I was wondering if you were on CompuServe. If you are, I (and fellow compu-freaks) could send letters by "E-MAIL." If you are, and ever wish to contact me, our user number is #76456, 17.

The invitation is still open for any stories that you might have that show some evidence of a lighter side to SWL -- Cathy has made a fine start. No, I'm not on CompuServe yet

(Santa Clause was not so generous as to provide me with a modem -- in spite of numerous and, I must confess, any number of rather heavy-handed hints) but hopefully by the Spring. . . I wonder if my being on CompuServe would increase the ease or attractiveness of access to CONTACT? Any comments? (This is beginning to sound like a computer column - and I really don't mean it: we've already got one, and a very good one at that.)

News of an interesting source of information comes from *Mike Magick* (Glendale, Arizona):

Enclosed is an offer almost too good to be believed. The Embassy of India publishes a weekly newspaper called *India News*. An annual subscription is only \$5.00!

I find that most SWLers are interested in international affairs, and *India News* is a real bargain. Perhaps you can share this info in the CONTACT section of FRENEX. [...] It would be nice to know if other NASWA members know of other such bargains from other embassies, or where ever.

If this sounds intriguing to you, then just write to: The Information Service, Embassy of India, 2107 Massachusetts Ave., N.W. Washington, D.C. 20008; telephone (202) 939-7048. Are there, indeed, any other such offers known to NASWAers?

I am not quite sure what to make of the following letter (actually, letter within a letter) which comes from *Roland Schulze* (Stuttgart, West Germany). His letter is in the form of a carbon copy, with my name and address typed afresh at the top of the first page. Obviously, this letter has been circulated more or less widely, and you may very possibly see it elsewhere:

I wish to share with you an experience which will serve as an alarm to other shortwave listeners and DXers. For almost 13 years of shortwave listening, receiving a QSL for my reception reports has always been fun and a thrill. But this time the QSLs and letters I received from some stations were rather a shock and a nuisance. I couldn't help but think that something 'fishy' was going on in some radio stations when it comes to QSL.

I have just received a very strange and alarming letter from Radio Uganda, a station alleged not to answer any reception reports of their home service in the tropical bands. I heard this station last October 7, 1986 at [Roland leaves a space here for the frequency which he does not supply; I note, however, that in December FRENEX Log Report B, he reports hearing Uganda on 4976khz {listed in RDI and ILG as a domestic service} -- sgm] _____ khz and sent them a report with a personal letter, postcard, and one U.S. dollar for postage and enclosures. This was my very first time to insert a dollar in a letter. It is because an IRC is more expensive that the dollar here in West Germany; that is, one IRC costs DM2.20 and one dollar U.S. costs only DM1.98.

To my surprise came this handwritten two-page letter from the above mentioned station signed by Leopold B. Lubega with a photo of himself and his wife. His letter which is self-explanatory reads as follows [Roland has transcribed the letter into typescript, and has also enclosed a photocopy of the original -- sgm]:

Dear sir,

Your reception report dated 7 October 1986 was received here. I was very happy to learn that as a shortwave listener you got so interested in our station, it is also surprising that our Home Service could reach you so far away from us.

According to our station logging of that date, I would like to confirm to you that you listened to our station, Radio Uganda. This is a 10kW transmitter NEC make just installed. It uses a vertical incidence log-periodic antenna omnidirectional. This is achieved by arranging two similar antennae in quadrature. It is made by TCI of America. This transmission is intended for Home Service, but we are encouraged that we can reach you.

Uganda is a small country as large as U.K. with a population of about 13 million people. This country popularly known as the source of the Pearl of Africa is the source of River Nile and has the second largest fresh water lake in the world, Lake Victoria. The capitol is Kampala.

About myself. I am aged 44 years married with six children, I have many hobbies but the first is travelling. My problem is always finance. Most of my travels abroad are sponsored by Government on official duties. I have not visited many countries and I have not been to Germany but I hope one day I will.

Our country has gone through three terrible civil wars as you have heard, I believe. In September last year I had a chance to go to Japan for one month on official duties. During that period I saved money and bought a reconditioned car

at about \$1500 U.S. Dollars. This was the family dream coming true; they were very happy. Unfortunately the car was destroyed during the last year so we remained a miserable family again. Here in Uganda it is very difficult for a civil servant to buy a car -- we are very poor.

When I read your letter I got the impression that you are a kind man and have enough money to sacrifice and assist a black family somewhere in Africa -- Uganda. I and my wife have been thinking of a kind person through whom our dreams can come through like Mr. Roland Schulze to fund raise at least \$1500 U.S. Dollars and send it to:

MITOSHI MIYAZAKI
Machinery Trade
E-3 Amenity - 35,1-12-22
Saido Konan-kyu
Yokohama 233 Japan

to acknowledge receipt of that
money to us at the address below:

P.O. Box 8226
Kampala

This man can send me another car J.O.B. I will try to raise shipping charges. Please let your friends have this appeal to fundraise for the same cause. I can tell you a car is very important in Uganda as we have no public buses or trains as in your country. One day I pray when you visit Uganda you will see for yourself. I intend to send you a full picture of my family of four daughters and two boys: Josephine, Cathy, Olivia, Sylvia, Daniel and William.

Here in Uganda we hear that the kindest people who give the biggest assistance are Germans from West because you are hard-working and kind people. Please under any circumstances never send money to Uganda by Post -- it gets lost. I prefer that in any future correspondence you use my personal address of: P.O. Box 8226, Kampala.

Enclosed are photographs of myself and my wife. Sorry for inconveniencing you. We look forward to hear a happy answer from you and your family.

I remain
(Sgd.) Lubega

This letter is absurd! I really don't know whether to laugh or be angry to the v/s but I feel sad about it for this person doesn't know that he is destroying the image of his station.

What can you say about it? Has anyone received the same letter too? If so, then it will be fine if you share them for the benefit of us DXers so that we can find ways how to beat the v/s's 'tricks' and get a QSL.

Please print entirely my letter in the section of your club's magazine you think it is most appropriate. I can only say, watch out, v/s might put you into trouble.

I, for one, was absolutely and completely charmed by this whimsical and thoroughly amusing letter (the above is an exact transcription of the original): anger, in this instance, would be completely out of place. While not for a moment doubting the sincerity of Mr. Lubega's intentions, and realizing that he certainly did not intend to invoke humor (quite the reverse), there is a great deal of humor to be derived from an appreciation of how we must appear to a large part of the world. Does anyone else have a similar experience to tell us about? Indeed, has Mr. Lubega contacted anyone else about his problem. Above all, *who* is MITOSHI MIYAZAKI?

Finally, a nice letter from Log Report Distributing Editor *John Henault* (Abington, Massachusetts). He enclosed a letter from "SANI RADIO" which acknowledges a reception report from *Harold Levison*. Writes John: "I especially liked the writer's comments about station personnel using the transmitter for 'personal use' after regular transmission hours end." Here then is the letter, which gives some interesting insights into SW broadcasting:

Our frequency is 4755kHz, as licensed with the government of Honduras at geographical coordinates of 15 degrees and 16 minutes north and 83 degrees 46 minutes west in the town of Puerto Lempira, Gracias a Dios. Our call letters are HRFI and we are called "SANI RADIO" (which some listeners have confused as "Family Radio"). Our administrative and operations center is in the coastal town of La Ceiba, Honduras.

Fuerto Lempira, with a population of some 2,000 and, La Ceiba, with a population of around 60,000 are the departmental capitals of Gracias a Dios and Atlántida.

The name Sani comes from a Miskito Indian word for the "majao" vine which is native to the area and is an important source of string. Many years ago, the children of the area invented a game to imitate the missionary radio services whereby they made their own "radios" by connecting two dried coconut halves with a stretched piece of sani string. These were the first "sani radios" and since then the phrase has evolved into a slang expression for oral transmission of information like the English expression of "through the grapevine."

Our purpose is to provide bilingual (Spanish/Miskito) educational and public service broadcasts to the Miskito Indian population of the area. [¶] Our transmitter is a Sintronic SI-A-10 with 10kW of power and we use a simple 30 meter long dipole antenna at a height of 15 meters which is probably around 20 meters above sea level.

Presently, we are financed by funds from the United States Agency for International Development. [¶] The International Rescue Committee was founded in 1933 during the rise of facsimism in Germany. Since then, the IRC has been dedicated to assisting refugee and needy populations through educational and health programs around the world.

The grand opening of "Sani Radio" was on August 25, 1986 which went over very well, was broadcast live, and attended by more than 200 local persons, as well as guests from the Honduran Ministry of Education, Ministry of the Interior, and the United States AID mission.

Over the next year we hope to commercialize the station to some extent in order to cover basic operational costs as well as possibly to enter into a cooperative agreement for national educational broadcasting and will seek funding from private and public sectors both nationally and internationally. We are expressly prohibited from transmitting partisan political or religious programs.[¶] Our programming will be in Spanish, Miskito, and Sumo languages and initially will cover cultural, informative, and entertainment programs which will evolve rapidly to include extensive bilingual primary and adult education programs. The target audience for the educational programs will primarily be from refugee settlements incorporating some 40 village study centers in remote areas each being supplied with a radio, battery, solar panel, nails, blackboard, and student supplies.

We presently have a large staff of some 30 persons including educational script writers, producers, announcers, studio operators, and administrative personnel. [¶] Occasionally we have English transmissions in the evenings after normal sign-off which gives myself and technical staff as well as friends the chance to enjoy radio broadcasting and tell about our project.[¶]Our hours of transmission in indigenous languages will be from 0600 to 1000, and 1600 to 2000 *local Honduran time*. Every Thursday evening from 1800 to 1900 we read international letters over the air. To date we have received letters from New Zealand, USA, Norway, England, Wales, Scotland, Hungary, Panama, Australia, Spain, France, Holland, India, Japan, Italy, El Salvador, and Luxemburg. --- Thank you once again [signed], Edward A. Pfister, Program Manager for Operations, International Rescue Committee

Contact Notes

Just enough room left to wish everyone a happy and healthy New Year, & to thank all of you who have taken the time to write. 73--

I received a nice note from *Jerry Dexter*. He requests that I clarify one or two points about the books he has published: "Thanks for your kind mention of *Secrets of Successful QSLing* and *Language Lab* in your December column. Just to clarify -- *Secrets* is \$9.95 plus \$1 shipping (\$2 foreign) -- *Language Lab* is \$12.95 + \$1 shipping (\$2 foreign) -- U.S. funds. The French edition of *Language Lab* is now available and both the French and Spanish editions may be obtained at a combo price of \$23 plus \$2 s/h (\$4 foreign) from dealers or Tiare, P.O.Box 493, Lake Geneva, Wisconsin 53147"

Easy Listening

Editor: Alex Batman, 4618 Alvin Dark, Apt. 34, Baton Rouge, LA 70820

SUNDAY

1630-1640v: "P.O. Box 9516" (Radio France International). This is a regular feature of the Sunday edition of "Paris Calling Africa". It is a typical mailbag program with man and woman co-hosts reading letters from listeners in Africa, North and South America, and Asia. The length of the program varies from week to week and on the longer editions they answer listeners' questions. (11.705/15.315)

0025-0035: "Calling DX-ers" (Spanish Foreign Radio). A good but not outstanding DX program featuring news items of interest to hams and DX-ers--such as the newly proposed television cable system in France or satellite communications--ending up with a few brief DX tips taken from Spanish or other European DX publications (9.630/6.125. Repeated at 0125 and 0525 on the same frequencies).

MONDAY

1240-1255: "Innovations" (Radio Australia). This program features the invention, development and marketing of new scientific innovations of Australian origin--including a satellite mapping system, a rock crusher used in gold mining and a portable work bench for the home hobbyist. Features interviews with the inventors. (9.580/6.060)

0045-0100: "This is America" (VOA). A fifteen minute look at some topic of relevance to life in America. Past programs have featured the opera in the United States, advertising, and special programs featuring the customs and traditions of Thanksgiving and Christmas. This program is in Special English. (9.650/5.995. Not on 9.455 or 6.135 which carry "Music USA: Standards" at this time).

TUESDAY

1145-1200: "Asia Now" (Radio Japan). The program is divided into two parts, the first part being brief news items from the Asian region, and the second being a single feature story relative to Asia, such as the 6th Party Congress in Hanoi or Japanese effort to help underdeveloped Asian nations. Other areas of Asia than Japan figure prominently in the special feature segment (6.120).

2215-2230: "Kaleidoscope" (Radio Berlin International). A potpourri of features about Germany (East) including interviews with German trade union members who are undergoing retraining, art exhibits, and German film festivals. Usually three or four segments per program, the content of which is widely varied. (6.125. Repeated at 2225 on the same frequency).

WEDNESDAY

1130-1135: "Martha in Beijing" (Radio Beijing). A trip around the People's Republic of China through the eyes of an American correspondent featuring Chinese medicine, traditional and modern, and other topics of interest. (9.535/ Repeated at 1230 on 9.535/11.650 and at 0030 on 15.445)

1805-1830: "Pop Scene" (Radio Kuwait). A man and woman host introduce in chatty, informal style the pop hits of England and America,

WEDNESDAY (contined)

largely rock oriented, but also playing some C & W and other pops, including soul and reggae (11.675).

THURSDAY

1120-1130: "China in Construction" (Radio Beijing). A program featuring the economic reforms now under way in China and the industrial and financial development that have resulted from the reforms instituted by D'eng and the new Chinese Communist Party. The emphasis is on the new China being built from the old. (9.535. Repeated at 1220 on 9.535/11.650 and at 0020 on 15.445).

0145-0150: "DX Microphone" (Radio Prague). A technically oriented DX program featuring a weekly talk on some technical subject related to DX-ing, such as propagation, aerials, or receivers. No DX tips. (5.930/7.345/9.740/11.990).

FRIDAY

0010-0030: "Top Priority" (Radio Moscow). This is a panel discussion show featuring an announcer and two regular weekly guests from Institute for North American Studies. Topics in the past have included Star Wars, the American decision to violate the SALT II agreement, and the implications of the November congressional elections in the United States. (7.115/7.310/5.915. Repeated at 0210 on the same frequencies).

0230-0245: "Chinese Old Songs" (Voice of Free China). This program features Chinese songs from the 30's, 40's, and 50's, some programs concentrating on a single songwriter or a singer, others including a mixed bag of singers and songwriters. Some of the music is quite melodious even if the lyrics are in Chinese, those these are sometimes translated by the program host, Lili Lil (5.985. Repeated at 0730 and 0330 on Saturday on the same frequency).

SATURDAY

1240-1255: "Focus"(Radio Austria). This program varies from week to week, some programs being devoted to music (largely classical) while others are devoted to political or social topics, such as the recent Austrian elections or a vacation spot in the Tyrol (15.320).

1300-1330: "Compass North" (Radio Finland International). This program is divided into two parts, the first five or ten minutes of the program devoted to current international or Nordic news, the second twenty minutes or so devoted to the biggest stories of the week in Finland. (11.945/15.400. Repeated at 1400 on the same frequencies. Also broadcast earlier at 1200 on 11.945/15.400)

Soundwaves

SoundWaves

Editor: Paul Lannuier 25 MacArthur Ave. Closter NJ 07624

Greetings. Since my last column in August, I've been relatively inactive as far as monitoring goes, except for my daily dose of BBC news. So I haven't noticed too much on the bands that's new and/or unusual.

South Africa: New, but not too unusual, is the South African Broadcasting Corporation's **Radio 5** service, on a new frequency of 4880 kHz from 0400 UTC. I've also heard it at around 2130 UTC. It was noted by Al Quaglieri in Glenn Hauser's **Listener's Notebook** (October) that the former frequency, 3250 kHz, has been dropped. I assume Radio 5 is still on 7170 kHz from 0520 UTC, but I haven't heard it there. Anyway, Radio 5 is definitely a departure from what one usually hears on the rather stuffy Radio RSA external service. The programming is targeted at teenagers and young adults, and consists mainly of music. It is broadcast on B medium wave stations throughout South Africa and relayed on shortwave. Besides the music, which is mostly pop, I love the commercials. Cigarette advertisements are not prohibited in broadcasting in South Africa, and commercials are common for brands such as 'Paul Revere' cigarettes. You can also hear local merchant advertisements, ("Early Bird TV Repair" and such), as well commercials in local languages.

While we're down on 60 meters, I should note that **Radio RSA's** 4990 kHz transmission at 0300 UTC has been audible here, but not nearly as well as on the higher bands so I've yet to recommend this frequency to anyone. Also, 4835 kHz has supposedly been dropped. This frequency was for the SABC National Service, **Springbok Radio**. This station was my first QSL for 60 meters, as well as for the African continent, so its being dropped strikes a nostalgic chord for me. I wonder if anyone has heard the service on its higher frequencies, 9695 & 11790 kHz.

HCJB: Saludos Amigos. HCJB's "program of international friendship" will re-broadcast its ANARC special recorded live last July at the ANARC convention in Montreal. Host Ken MacHarg was joined by HCJB personality John Beck in interviewing various guests, including Arthur Cushen, Ian McFarland, WRTH editor Jens Frost, and a number of others attending the convention. The re-broadcast can be heard on Sunday, February 1 1987 (0800 UTC on 11925, 9745, and 6130 kHz; and 1900 UTC on 17790, 15270, and 11740 kHz); and on Wednesday February 4, 1987 (0200 UTC on 9870 and 6230 kHz; and 0630 UTC on 9870, 6230, and 11910 kHz). **Saludos Amigos** can be heard each week on these same days and times. Usual programming consists of inspirational music, letters, and various features and topics. The address for the show is: **Saludos Amigos, HCJB, Box 1345, Jeffersonville, Indiana 47131.**

BBC: The World Service's Popular Music Organizer Dave Tate has recently begun a new series called **Multitrack**. This show has been in the works since early 1986, and features three different editions every week, each with a different host. **Multitrack 1** is hosted by Richard Allinson. It airs on Mondays at 1830 and 2330 UTC, and on Tuesdays at 1215 UTC. Richard's show specializes in new releases, studio guests, music news, and competitions and quizzes. **Multitrack 2**, on Wednesdays at 1830 and 2330 UTC, and Thursdays at 1215 UTC, features Paul Burnett of the BBC's Top 20 program. This edition goes a bit further, covering the British Top 40 chart. The final edition called, of course, **Multitrack 3** is devoted to "interviews with Britain's newest young bands, a look at pop films and books, a word about fashions in music and style." The host of this edition is Sarah Ward, otherwise known for her show, **Sarah and Company.**

According to **London Calling**, the aim of the show is to "streamline the World Service's popular music programming and, it is hoped, nicely compliment the zany antics of Dave Lee Travis and **A Jolly Good Show**; **Rock Salad** hosted by the irrepressible Tommy Vance; Tony Myatt and Sandi Jones and their Sunday request shows; not to mention **Counterpoint** with former Manfred Mann star Paul Jones and Bob Holness with **Anything Goes**." I think this is a really good concept. From what I've heard of the show so far, I think it will go on to become one of the more popular pop-music programs offered by the BBC.

Publications: The 1987 edition of **Radio Database International** arrived a while back. I'd have to say it's quite a bit better than the last 2 editions. Its helpful now that all the stations and frequencies (from Indonesia on 2260 kHz, to Belgium on 21810 kHz) can be found under one cover instead of in separate volumes for tropical and domestic bands. This book is becoming more and more competitive the **World Radio TV Handbook** with each edition, and may even be considered better suited to the ardent DX chaser since its listings are the result of actual monitoring of the bands and include clandestine stations and jammers not found in the WRTH. The book is available from its publishers, International Broadcasting Services, Ltd. (Box 300, Penns Park, PA 18943), as well as from any number of other outlets.

Another publication recently acquired is Dan Ferguson's **Guide to English Shortwave Broadcasts**. It is a data base listing of, you guessed it, English language shortwave broadcasts. It has four sections:

1. All broadcasts, by time (including target areas).
2. All broadcasts, by country (including target areas).
3. Broadcasts to North America only, by time.
4. Broadcasts to North America only, by country.

The format is similar to that used by Tom Sundstrom in **FRENDX**, with start & end times, country and station name, target area, and frequencies, plus short notes on additional languages and day-of-week. I'm not sure if this is the first issue (August 1986), but I've not seen it before. Its pretty comprehensive and accurate, and about the same size as the **FRENDX** bulletin in your hands right now. Subscription rate is \$15.00 for 6 issues (single copies available for \$3.50, postpaid) from Dan Ferguson, P.O. Box 44866, Washington, D.C. 20026. (Checks and money orders should be payable to Dan.)

♪♪ **other notes:** I would like to mention that I may now be reached by electric mail (E-mail) via Source Telecomputing. If anyone out there subscribes to The Source, please feel free to contact me through the SourceMail service. My ID is BEQ269. And while we're on the subject of telecomputing, can anyone tell me why, every time I try to access the WRTH BBS at the number listed in Computer Corner, as well as other publications, I reach not the BBS but an answering machine for some advertising agency? Hmmmm....

Finally, I'm just delirious with joy: Santa Claus came a bit early this year and dropped an FRG 8800 down my chimney. Its a wonder that I pulled myself away from it long enough to write this column. Since this won't be published until '87, I wish everyone a belated holiday greetings.

So there you have it. I'll be back soon, if I can manage to dig myself out of the piles of contributions I've been getting. (Pun most certainly intended.) So until next time, '73's,

Paul

Technical Topics

Editor: T. J. "Skip" Arey, WB2GHA, P. O. Box C-4, Cinnaminson, NJ 08077

HOW DOES HE DO IT? OR DEADLY DECEMBER DX DEADLINE!

Deftly our humble editor drops a Talking Heads disc in the CD player and dons his headphones.

There is that repeating phrase coming through the headset.
YOU MIGHT ASK YOURSELF... YOU MIGHT ASK YOURSELF...

YOU MIGHT ASK YOURSELF...How is your humble editor able to bring you all this technical wonderfulness armed with a BA in Sociology and a Master of Divinity as opposed to a BSEE or even a certificate from Lincoln Tech?

The answer is simple buckaroo. All that book learnin' in the humanities taught me that knowledge is power. So when I set my sights on becoming an SWL legend I simply went out and bought a large dose of knowledge. And here's the kicker...You can do it too! A trip or two to the bookshelf and you will be able to venture into the wonderful world inside your radio. The neat thing about technical topics (is there an echo in here?) is that technical material can usually be presented in a logical manner that lends itself to easy discovery by the uninitiated. In other words, its a whole lot easier to learn transistor theory then to figure out how many angels dance on the head of a pin. Technical stuff becomes all the easier when you discover you don't really need ALL the stuff an Electrical Engineer learns, only a few select chapters and your on the ball. You won't be designing your own receivers, but you will be able to diagnose most troubles and even fix some things yourself.

In other words, this looks like a perfect lead in for...(You guessed it)

UNCLE SKIP'S GUIDE TO ELECTRONIC KNOWLEDGE OR BOOKS YOU CAN USE

ELECTRONIC COMMUNICATION

By Robert L. Shrader

If you can only afford one book in your radio library this is the one to have. Shrader's work has long been acknowledged as the best single text to have to lead to an understanding of radio. I know several folks who used this book alone to master the knowledge necessary to acquire the good old FCC First Class Radiotelephone license. Just pick it up and start on page one and by the end (with the help of the little quizzes spaced throughout the book) you will have enough information to pass most amateur exams and skunk all but professional engineers on radio theory. Also, the book's table of contents in set up in a manner that makes it easy to look up individual subjects as needed. Shrader's is the standard by which all others are judged. I have the fourth edition which suits me just fine but if Bob is out there reading this I think the well deserved plug is worth a copy of his latest edition don't you think? Published by McGraw Hill's Gregg Division ISBN 0-07-057150-3

RADIO HANDBOOK

By William I. Orr, W6SA1

As the call sign might indicate, Bill Orr is one of us and his Radio Handbook is in its twenty-third edition. Bill is best known for his antenna theory but this book is a great source of overall knowledge geared toward the amateur and the experimenter. Chapter 13 even includes construction information on a High performance communications receiver. If you want state of the art information useful in modifying your equipment or for some serious antenna work, you must have Bill Orr's book handy. Published by Howard W. Sams & Co., a division of Macmillan, Inc. ISBN 0-672-22424-0

THE ARRL HANDBOOK FOR THE RADIO AMATEUR

By The American Radio Relay League

This is probably the most accessible of the useful texts in that you can pick up a used copy for a song at any hamfest. Since it has been published yearly for the last sixtythree years, you can get away with one that is a few years old if your not into the most state of the art hardware. Every edition brings enough new information to make the serious experimenter put his money on the table, but the casual user will be just as happy with the 1984 edition. As most of you know I am very wrapped up in some old tube type gear and I even seek out positively antique copies of the handbook. I would be lost without my 1960 edition of The Handbook. So maybe a good policy would be to check out the year your rig was made and seek that edition of the handbook. Published by the American Radio Relay League ISBN 0-87259-062-3

THE COMPLETE HANDBOOK OF RADIO RECEIVERS & TRANSMITTERS

By Joseph J. Carr

If you want to understand your rig and do real troubleshooting and repair you must add this book to your collection. Originally published in two volumes, it is now available bound in a single edition. It covers all areas of radio theory, taking the reader through the guts of some of the most popular equipment in use today. This book will show you the actual mechanics of using test gear and technique to bring your tired and broken gear into shape. Carr makes some very sticky subjects understandable to the rank novice. Published by TAB Books Inc. ISBN 0-8306-8224-4.

If you run out to your local book dealer and force him to dig through Books In Print and order all these titles, and if you really give them a good read, you will find yourself able to attack all manner of radio difficulties. In using these books it helps to remember that old engineering axiom that a large problem is often best solved by breaking it down into its component smaller problems. Good turn of a phrase because, very often, "components" are the problem in electronics. So you really need to acquire at least one more book.

SEMICONDUCTOR REPLACEMENT GUIDE

By Radio Shack

Every now and then a part will go PHHFFFFFFIIITII!!! When this happens, Murphy's Law always indicates that the original replacement is only available from a camel trader in Swaziland. Enter the Semiconductor Replacement Guide. Actually you can use anybody's guide but Radio Shack's is the easiest to get your hands on. After you have used the guide a few times you will discover you can cross reference not just for RS parts but most any semiconductor you will need. Also if you are interested in tube gear you will need to scour the hamfests for an old Tube Substitution Guide for the same reasons. Radio Shack Catalog #276-4009

Another good source of cheap data is to send for all those free catalogs in the back of radio magazines. By glancing over component catalogs, you will get a feel for what is available and how to go about getting the parts you need with the best speed and service. Not such a bad idea when your Humpler 4NK8 receiver goes dim in the middle of a dead of winter DX session.

One final point...

If you have not written the manufacturer of your receiver to obtain the factory repair manual you are a very silly person. Even if you never intend to lift the covers of your rig yourself you will find this to be a useful document to have around when repair and alignment does become necessary. If you do intend to repair or modify your equipment you will find such documents invaluable. If your gear is older and out of production you can obtain schematics and service data through Howard W. Sams PHOTOFACIS system. Ask your local TV repair supplier about how to get Photofacts.

Well there you have it folks. Armed with this knowledge you will rival even the great Baba Ram Grid Bias in radio information.

We have been running a little short on receiver reviews folks so lets get writing out there. Keep those cards and letters coming folks.

Good Night Elsa Lanchester
Where ever you are!

73,

Computer Corner

Editor: Tom McElvy, P.O. Box 9645, Norfolk, VA 23505-0645

Welcome to 1987! To get the year started, our first contribution comes from none other than the former editor of Computer Corner, Bill Cole. So, without further delay, here is;

The ANARC BBS

A Brief History by Bill Cole

The origins of the ANARC BBS can be traced to December 1984. Bill Krause of the ANARC Computer Information Committee and I had several conversations about the value of a BBS for making DX information available on a timely basis. We decided to try to put a shortwave BBS on-line and over the next few months we tried to find some software that would meet our needs.

By May of 1985 we hadn't found any software that we liked. It was at that point I decided that the only way to have the BBS we wanted was to write it myself. Fortunately, Bill had collected a couple of disks full of public domain telecommunications software. One of the programs, The CHIPS BBS, held promise. After a thorough rewrite, which reduced the program size by 15% but retained all features, something called the FRENEX BBS emerged in early July 1985. Bill and I decided that we were far enough along to exhibit the BBS at ANARCON 85. As can be deduced from the name, the features of the board loosely followed FRENEX with Log Reports A-D, Technical Topics, QSL Reports, and Computer Corner message bases. The exhibit was a success, however, the software was far from perfect. We spent the first hour of the exhibit working out a bug discovered at the last minute.

Encouraged by the enthusiasm generated, especially by George Wood of Radio Sweden International, Bill set September 1, 1985 as the target on-line date for a BBS sponsored by the ANARC Computer Information Committee. The board was to be named The ANARC Shortwave BBS and would use the, hopefully, debugged FRENEX BBS software. The original BBS did not facilitate the Up or Downloading of text or program files. We decided, mistakenly as it turned out, that these features were necessary for the success of the board. I spent most of my free time in the month of August adding and trying to debug an Up/Download feature.

Within a week of the target date, Bill Krause had the BBS on-line. The original board was operated using a Commodore 64, 1702 Monitor, Commodore 1650 Modem, C-Itoh printer and two Commodore 1541 drives for about 340k of storage. Unfortunately, there were still a few hidden 'bugs' in the program. Our friend, George Wood, developed an uncanny knack of finding them. Every time poor George called from Sweden, the board would lock-up or crash.

By the end of November 1985, the ANARC BBS had logged a substantial number of callers. We were using a password access system and had over 50 registered users. We also had sufficient user feedback to begin to evaluate the system. Once the software bugs were worked out, the major criticism was one of speed. Most of our users called long distance and were mindful of charges. Several program modifications brought speed increases. We decided that we could save further time by doing away with passwords and becoming an open board. This was a good decision. With only one exception, there has not been any trouble with giving all callers full immediate access to the board.

Two other areas needing modification were discovered. For some unknown reason, most users were more interested in reading from the board than in posting messages on the board. The other being that only one user had downloaded from the library and no one had uploaded to the library. To correct the first, we arranged to carry Radio Nederland's Programme News and RCI's Program Previews. Later, RSI's Sweden Calling DXers was added and these features were incorporated into the International Forum. These were an immediate success drawing much user attention. We took a long hard look at the Up/Download feature since it utilized one whole disk drive and received no use. The decision was made that it must go and in its place the North American Database was created.

The last major change to the board came in February and March of 1986. By that time it had outgrown the 340k of storage available in two 1541 drives. The system was upgraded to a Commodore 128 with two 1571 drives each containing 340k thereby doubling the capacity of the system. The faster speed of the 128 with its enhanced basic also led to a major program rewrite.

At this time, the ANARC BBS operates in the 300/300 baud, 8 bit, no parity, full duplex protocol. The ANARC BBS is an open board; a user does NOT need a password to get on-line and everyone has full access to the board. Since it went on-line the BBS has logged over 1300 callers. Use has gradually built up and over 150 calls per month are now being taken.

As regular features of the International Forum, the ANARC BBS carries Radio Nederland's monthly bulletin, Programme News; Radio Canada International's Program Previews and the electronic version of Radio Sweden International's, Sweden Calling DXers. The European DX Council's (EDXC) bulletin is also featured. We have recently made an inquiry to HCJB about the availability of advanced program informaton.

For our users, the system has available 12 public Bulletin Boards as well as private E-Mail. Public Bulletin Boards include:

1. Mail Box, the main message center.
2. Help-Me, for DXers with questions and problems.
3. Data-Update, for posting corrections & additions to the database.
4. Log Report A, for loggings & DX tips, 2000-4899 kHz.
5. Log Report B, for loggings & DX tips, 4900-6199 kHz.
6. Log Report C, for loggings & DX tips, 6200-11699 kHz.
7. Log Report D, for loggings & DX tips, 11700 and above.
8. QSL Reports, latest QSL information.
9. Computer Corner, latest computer info. and tips.
10. Technical Topics, receiver reviews & other tech-info.
11. Buy & Sell, all the GOOD BUYS.
12. Club News, users may post their radio club's news.

The ANARC BBS has features not found in all radio specialty bulletin boards. The first is the NORTH AMERICAN DATABASE which contains schedules for stations broadcasting to North America in English. Information contained in the database includes: station name & location, times on the air, frequencies, target areas and days heard. The North Ammerican Database is compiled from Dan Ferguson's GUIDE TO ENGLISH SHORTWAVE BROADCASTS. Dan will shortly be supporting the BBS with interim updates to increase the database accuracy.

The second feature, which is unique to the ANARC BBS, is the ability to make propagation predictions for any station in the database. Users have access to routines that give: solar flux & sunspot numbers, A & Boulder K indices, solar & geomagnetic activity, station distance & bearing, sunrise & sunset times for the user's & station's locations as well as the times of darkness path to the station. In addition, the user can access a routine to predict the LUF, MUF & HPF for the 24 hour period.

The ANARC BBS is online 24 hours per day at 1-217-368-3124. We welcome user feedback so that we can continue to improve the service. Users can leave their feedback on the FEEDBACK section of the BBS or by writing to us at: Bill Ktause;, ANARC SW BBS; 401 E. Walnut; Greenfield, IL 62044.

For all you Commodore users, a new program has become available from Ronald Pokatiloff. The program, SHORTWAVE PROGRAMS DATABASE, provides the computerized SWL with a prime time guide to over 2500 daily programs covering 20 subjects. Your editor has not had the opportunity to evaluate the program, but as soon as I get my hands on it, I will provide you with a detailed review. Further info can be obtained from Ron at 2661 Sheridan Road, Zion, Illinois 60099, or call at (312) 872-3633 after 0200 UTC.

LAST MINUTE NEWS DEPT!

The ANARC BBS has added two new features: HCJB ENGLISH SERVICE NEWS, and a CUMULATIVE file of indices from WWV. This cumulative file will provide data to make propagation predictions.

ANARC BBS is online 24 hrs at (217) 368-3124, 300 baud, 8-N-1. No password is needed.

WHEW! Had alot of material this month, and no more room. Well, next month will feature word processors, and how they can be used by the SWL. So get out the pad and start taking notes! Also, please feel free to contact me with information, articles and/or comments. This is YOUR column, and we need all the input we can get from you folks. Happy Computing!

REAL LAST MINUTE DEPT.

For those who were listening, the flight of the VOYAGER aircraft was fascinating. The main freqs used were 8822 & 6550, both USB. My thanks to my good friend, John Heinault for the info. Now, who do I write for the QSL??

THOSE BBS NUMBERS AGAIN:

ACE BBS	(913) 677-1288	NEVERBOARD	(412) 733-4842
ANARC BBS	(217) 368-3124	ODDX BBS	(804) 596-2710
BOARDS GALORE	(416) 598-1934	UBIX BBS	(614) 866-4392
DX LOGBOOK	(816) 228-2882		

Well, the end of another month is here. Hope to hear from you soon! Any questions or comments can be sent to me at P.O. Box 9645, Norfolk, VA 23505-0645, or by calling me at (804) 497-5151, but PLEASE, not later than 0300 UTC!

Until next month, 73!

NASWA Awards Program

Awards Chairman: John M. Kapinos, 86 S. Quinsigamond Ave., Shrewsbury, MA 01545

Greetings and welcome to the January 1987 Awards Page. The following folks earned NASWA Awards during the month of November 1986:

John M. KAPINOS, Shrewsbury, MA (who): North American Continental DXpert

Ken KASHIWABARA, Panorama City, CA: South American Continental DXer

Kevin MIKELL, Park Ridge, IL: Master Pacifica DXer, Australian DXer, Senior Radio Moscow DXer

Roland SCHULZE, Stuttgart, FRG: Senior DX Centurian with 180 country endorsement, Senior Tropical Band DXer, Master Papua New Guinea DXer

Bob STURGEON, Richmond, BC: European Continental DXer, Ecclesiastic DXer, Australian DXer

Shawn SYLVESTER, Great Falls, NT: World Wide DXer, Ecclesiastic DXer

Dave TWIGGS, Bristol, CT: North American Continental DXer

*****KAP'S KOMMENTS*****

Muriel (Mrs. kap) and I wish to thank those kind folks who took the time to send us Seasons Greetings. Greatly appreciated. Hopefully Santa brought us all at least an NRD-525.

A correction to our Privacy in Communications Act piece last month, it seems that it just might be OK to listen to the radio portion of cordless phones, but not cellular phones. I'm as confused about all of this as must be the folks who drafted the amendments to the original Act. Kindly don't tell the Radio Police that I just got a Regency MX-4000 scanner.

A word to the wise, computer wise, don't go out and spend \$500.00 for one of the "Big Name" Word Processors. The "Public Domain" programs work just as well for 5% (or less) of the cost.

Our colleagues at SPEEDX have finally seen the light and now offer their Awards Program to non-members. An SASE and an extra stamp or two will get you full details. The QTH is 7738 East Hampton Street, Tucson, AZ 85715. Tell them that kap sent you. Folks might remember my tenure as SPEEDX QSL Editor, which had to end due to some rather complicated personal and professional considerations.

No, VOA does not have a SWBC site on Antigua, and since it does not exist it is not eligible for the Awards.

Finally a comprehensive listing of those countries eligible for the British Commonwealth Awards will be available soon. We will have it ready for inclusion in the February Awards Page. A hint, it will be based on the Scotts Postage Stamp Catalogue, thanks to a tip from a reader, whose name I unfortunately misplaced.

The 1987 World Radio and TV Handbook will be available from several sources by the time you read this. I cannot emphasize enough how valuable this annual publication is. Every now and then we get a note from someone stating that \$20 is a lot of \$\$\$ to spend on a book. Balderdash, just consider how much your receiver cost you. As mentioned in previous columns, don't forget the software after you buy the hardware.

Effective immediately there will be a couple of minor changes to the Awards Program. All Awards will cost \$25.00 US, or 100 IRC. No, no, no, I'm just kidding.

Actually, we do have some enhancements. Several "Old Timers" have requested that their pre 1945 QSLs be counted. Until now we have been handling these on a case by case basis. Now we'll make it official, any QSL, whenever dated, is eligible. The Country List will be adhered to based on the September 1, 1945 cutoff.

The other immediate enhancement will be the issuance of endorsement stickers for the Senior Ecclesiastic DXer, in multiples of 5 stations. The only cost will be an SASE/IRC.

Until

next

time,

BFST, Kap 12/15/86

Tiare Publications

P.O. Box 493 • Lake Geneva, WI 53147

The road to 100 countries can be a long one. It can be tough. Seems to take forever. Now there's some help...in the form of "How to Log 100 Countries on Shortwave Broadcast"...a new Tiara Publication designed to help those who haven't yet done so to bag to bag that 100th country sooner. The booklet includes tips on hearing the 100 easiest countries and a ten-page log to enter receptions as they are made. There's also an introduction and an application form and explanation of the Tiara Century Club. The booklet is priced at just \$5.00 plus 75¢ mailing and handling in U.S. funds. Available right now...from Tiara.

AUSTRALIA Monitoring 24/11: per new pgm sked, RA bcs world nx every two hours starting at 01. These alternate with International Report, every 2 hours exc 16 & 18 when 3-min nx. Au nx now every two hours starting at 0030 (WBI 28/11)

RA reported 2/12: RA's forn-lang staff will strike for 24h tomorrow to protest a decision by ABC to abolish end-of-contract overseas leave and pgm assignments. The strike, which'll begin at 19 UTC Tue, 'll involve radio programmers from Thailand, China, Japan, Vietnam, Indonesia, PNG, and the French Pacific Is. The Victorian secy of the ABC staff union, Mr Neil Wilson [phonetic] said his union recognised that RA faced budgetary problems but he said this should not justify and attack on one of the lang staff's fundamental working condx. Mr Wilson said the staff had signed their contract ingood faith w/the expectation that at the end of their 2-yr contracts they'd be granted home leave or a pgm assignment. He warned that abolition of the condx could lead to a higher staff turnover resulting in rate of repatriation [sic] and recruitment costs for replacement staff. This is the first time fornlang staff have gone on strike since RA was established in 1939 (WBI 5/12)

BOLIVIA La Cruz del Sur noted w/solid & G sig on 4876, relig pgm & ID @ 1002, m/b 10 kW xmtr, 12/13 (Maxfield Greenwood, ME)

BULGARIA Monitoring 25/11: A further R Sofia xmsn in EG to NAM should be added to the sked in WBI 14/11. It's at 04-05 on 7115 (WBI 28/11) Cf Dec LN

E S T O N I A [Cf Dec LN-18] Almost 100% sure that Max Greenwood's logging on 5925 until 2205* 26/10 was, in fact, Tallinn. No recent reception here but hrd them in 1972 on 6085 w/identical pgm format in Estonian (similar to Finnish) & long choral anthem to 2205*. Rcvd QSL & correct ID is "Siin Tallinn". Riga on 5935 shd be audible at same time, if clear (Ernie Behr, Kenora Ont, 11/12)

Oh! (referring to gh's comment in Dec LN). That then means the lack of "The Internationale" at end of bc is no problem--and the choral anthem hrd is most probably the Soviet Union Hymn, which I confess to not being able to recognize --in fact, I was 'blissfully' ignorant to its existence--oh my! But that cinches it--what I taped on 26/10 is 99.99% surely Tallin. I have since tuned in 5925 on roughly 12 occasions at 2100+ since 26/10, with no tangible reception--nothing I could 'read', that is. So I chalk up the 433+ reception on 26/10 to the DX law of "he who tunes in xxxxx fq over & over again, for lack of anything better to do, will eventually say Eureka!" Now if I only had a detailed computer readout of all the propagational variables for 26/10--then maybe I could understand what variable or variables set up these propagational phenomena (W Maxfield Greenwood, Sedgwick ME, 13/12)

F R A N C E 25/11 1044 on 11670, both France and French Guiana at same time, FR to Ams & Eu, 3-way propagation mode to EAu: Guiana via short path across Pacific, France via SP across Ams, France via longpath over Asia/ME. All this gave a weird 'reverber' echo effect, due time lag for satellite link (Bob Padula, Vic, ADXN)

France Inter reported 13/11: Latest report by Médiamétrie, audience rating svc, shows more people are listening to France Inter [on 162 kHz]. FI is now the 2nd most popular radio stn in F after RTL [236] and ahead of Eu No 1 [183]. FI does particularly well for all the nx slots betw 07 & 0845, and at 13 & 19. Betw 08 & 0830, 2.2 megapeople listen to us (WBI 21/11)

RFI EG at 0315-0330 & 0345-04 ME/Af/Am 9800 9790 9535 7135 6175 6055; 0415-0430 & 0445-05 ME/Af/Am 9800 9790 9550 9535 7135 6175 6055 1233-Cyprus. RFI is bc on 738 kHz from a 4.5 kW xmtr in Romanville for listeners in the Paris area. Daily 04-23 w/RFI FR WS except: 11-1130 SP, 16-17 EG PCA, Suns also carries spl svc in FR 0830-11 & 15-16; SP 14-1430, Creole 1430-15 (WBI 21/11)

France Inter reported 3/12: New chairmen and managing directors [French: Président Directeur Général (PDG)] have been appointed to the public svc radio and TV bodies, including Henri Tezenas du Montcel for RFI (WBI 12/12)

GERMANY EAST RBI in EG: 45 min xmsns: 00 AM & 0045 Am 9730 6080. 0215 Am 9730 6080. 0245 Am 6165 6125. 03 Am 9560 6010. 0430 Am 9560 6010. 0445 Af 11795 9730. 0445 Eu 5965. 0645 As 21540 21465 15240 11920. 07 Eu/ME 11810 5965. 0815 As 21540. 0815 Sat/Sun Eu 9730 7185 6040. 0945 As on 21540. 1215 As 21540 21465 15445 11920. 1245 ME/Af 17755 15240 11890 11705 & 9665. 1330 As 21540 21465 11920. 1515 As 17880 15240. 1545 ME/Af 15255 15170 11785. 1615 Eu 9730 7295 6115. 1745 Eu 9730 7260 6115. 1815 Af 15170 15145 9665. 1915 Eu 6115 6080 1359. 1945 Af 15170 11750 9665. 2145 Eu 5965. 2145 Am 6125. 23 Am 6165 6125 6070. 23 Eu 7295 5965 1359.

Total weekly output in all langs is 451 hours; EG is by far the #1 lang with 138 hpw, with GM at 50:45 only in 3rd place, outdistanced by FR 59:15. While the stn has a strong 3rd-world image, little of this is conducted in local langs: Hindi 14 hpw, AR 28 hpw, Swahili 10:30 hpw. By target area in all langs 77 hpw to ME, 82:15 Af, 54:15 As. (WBI 12/12, gh comments) BBCMS routinely provides these totals, but I usually skip them here; are you interested? (gh)

Of the xmsns to E&WNA, the only usable xmsn here is 2145 on 6125 (Charles Weiss, OH) Typical, at least in the winter. But also try some of the svcs to elsewhere after local sunrise; if 13m opens up, RBI is usually there (gh)

G H A N A Monitoring 1-2/12: GBC obs 1/12 0600 EG nx on new 3350, //usual 4915 & 3366. 3350 xmsns ceased 0615 after nx when 4915 & 3366 separated into the GBC -1 & -2 svcs. 2/12, 3350 *0525 GBC-2 //4915 to 0615* (WBI 5/12)

H O N G K O N G Xinhua reported 26/11: HK govt is to extend TV viewing hours during which ads for tobacco products will be banned. New reg will come into effect from Dec 1988, and a total ban'll be introed from Dec 1990 [great! must keep killing people for another couple years! -gh] Other major policies which are to form backbone of new govt strategies on bcng: establishment of bcng authority w/responsibility over TV, radio, cable TV; licence extension for a 12-year term for existing two TV licensees and retention of RTVHK w/in the public svc but as an executive arm of a Board of Governors (WBI 5/12)

I N D I A AIR reported 17/11: 18 new radio stns are proposed to be set up in border areas during current plan. Info & BC Minister, Mr Ajir Panja, told the Lower House of Parliament that the stns'd be located in 11 (WBI 21/11) That's where the item ended--something obviously cut off (gh)

AIR reported 17/11: [oh, here's the whole thing] ...Panja, told the Lok Sabha that the stns'll be located in 11 states. Said no proposal to shift the AIR xmtr from Ajmer. However, present 20 kW'll be replaced to 200 kW xmtrs. About AIR's requirements for SW xmtrs, he said these'll be imported since they are not manufactured indigenously. Re Doordarshan [TV svc], Mr Panja said there is provision in 7th plan for replacement of eqp, upgradation of production facilities, and setting up of new production centres. Said on completion of ongoing schemes, total number of TV xmtrs in country'll go up to 372 from present 185 (WBI 28/11)

I R A Q Monitoring 23/11: 0705, V of Masses DS in AR began to relay the opening of the 7th annual 'al-Mirbad' poetry festival in Baghdad. Ancr referred to the radio as the 'al-Mirbad' radio stn bcng especially for this occasion which 'd last a week. Festival opening ceremonies bc on all VOM fqs: 15440 15175 15105 11770 9665 6125 684. However, at 1000 23/11 ancd: 'al-Mirbad' radio stn, whose xmsn extends from 12 to 24 [09-21 gmt] can be hrd as follows [utc:] 693 09-15, 11705 09-15, 6205 15-21 (WBI 28/11)

I S R A E L V of Israel, Jerusalem in EG: 00-0030, 01-0125, 02-0225 Eu/Am 98 60 9435 7465 5883. 05-0515 Eu/ME/As/Au/Am 17685 17630 11700 9855 9435 9012 7460 7410 7355. 11-1130 Eu/ME/As/Au/Am 17685 17630 15640 15095 13725 12080 11 700 11655 11585. 18-1815 Eu/ME/Am 11655 9930 9860 9385. 20-2030 Eu/Af/Am 117 00 9815 9435 9012 7465 7410 7355 5885. 2230-23 Eu/Am 9435 9012 7465 5885 (WBI 12/12) Total hours per week for ES in all langs to all areas: 118:55 (ibid)

I V O R Y C O A S T R Côte d'Ivoire not hrd on 9620 or 9670 since early Nov; was on 1920 instead, 2030-2402* w/NA, vy strong 18/11; on 6015 2200 FR nx 24/11; again on 11920 same time 7/12 (Ernie Behr, Kenora Ont)

L A O S Monitoring 25/11: Laotian Natl R extl svc pgm in FR is now being bc from xmtrs in USSR. 25/11, 11870 which had carried R Moscow GM svc 10-11 stayed on air and started to bc LNR FR ES from Vientiane. In addn to stating that there were bcs daily in FR at 0030, 0530, 13 on 41 & 291m, opening anmt also said daily to Eu at 11. A break in what was obviously a satellite feed prevented full transcription of ancd fqs. But also bc on 15190 which had started just before 1100 w/line-up tones typical of those used by Soviet xmtrs (WBI 28/11)

L E B A N O N R Free Lebanon [a Lebanese Forces radio] reported 2/12: In view of the fact that al-Sana'i radio [the R Lebanon govt-controlled stn] continues to concoct nx and bc commentaries damaging to natl interests and unity and beneficial only to the cause of partition, info circles have begun to question the role of Info Min Joseph Skaf in this phenomenon. These circles attribute Skaf's inaction on this matter either to his coordination w/the parties manipulated from abroad or to his indifference to this critical national issue. Same info circles reiterate their demand that Min Skaf assume his responsibility and abolish the official status of the al-Sana'i radio. This stn is controlled by the remnants of [Minister Nabih] Birri's followers. Min Skaf is called upon to make up his mind whether he wants to collaborate w/subversive foreign parties or behave in accordance w/Leb's natl interests and his constitutional responsibilities as Min of Info (WBI 12/12)

L I B E R I A ELWA Monrovia, 11860, from *2015 IS & AR pgm to 2120*, G 16/11; on this fq since Dec 85 but not listed in the new RDI (Ernie Behr, Kenora)

M É X I C O XERMX R México Intl, 5985, hrd from *1257 w/mx IS, long NA & SP pgm, strong 30/11 & other days; //11770 also strong but distorted; AWR Guatemala on 5981 now until 1300*: as if to avoid XE-QRM, XEUW Vera Cruz, 6020, also G from 1300 w/SP nx; all hrd on Philips D1835 (Ernie Behr, Kenora Ont)

N E P A L R Nepal ancd 16/11: In accordance w/its regular pgm of [word indistinct] SW xmsns to suit weather [sic] condx, R Nepal has made certain changes in SW xmsns effective from 1/12: first & third xmsns on 5005 and 3230. second on 5005 & 7165. ES pgm on 5005. MW on 792 and 684 unchanged (WBI 5/12) No times given

N E T H E R L A N D S RNMN reported 13/11: Dutch domestic MW xmr 1008 s/off as early as 2100 and careful observers say if we had any sense we'd be using that channel late at night instead of trying to battle it out w/the rest of the 49mb. Look at how well it works for Belgium and Britain, say the letters, and they're right. Problem preventing us grabbing that MW airtime immediately is partly a matter of finance, plus xmr is used for DS pgms not signing off at same time each night. Mr Dijkstra, RN Dir-Gen says stn wants to use MW but no immediate plans, and discussions w/DS not yet taken place. May be a couple of years before this can be implemented; perhaps not only in EG but DT, FR, and if we had a GM svc, in that lang (WBI 21/11)

N I G E R I A R Nigeria, Lagos reported 24/11: Four xmtrs to serve as booster stns for the Kwara State Bcing Corp have been delivered in Ilorin. The 10 kW-ers, valued at 1.4 meganaira, will be installed at 3 diff locations in the state. Speaking while taking delivery of eqp, Corp's shairman said xmtrs'd give better reception thruout state. Commended FRCN for acting as clearing agent for R Kwara in order to reduce costs (WBI 28/11) & who cares if they're SW? We do!

P A R A G U A Y AFP reported 2/12 from Asunción: The combative R Nanduti 1/12 was being only cl mx because of almost uninterrupted jamming by individuals who support the govt. More than ever the jamming stopped being of nx and ads. Humberto Rubín, stn owner, told AFP the because of pro-govt censorship, half of RN's advertisers have withdrawn, deepening economic crisis stn experiences; even endangers normal salary payments of its apx 70 employees. Rubín is visibly affected by his impotence to save stn from attack; this day's jamming the worst since it started 7 months ago. Rubín said for some months he has been selling his personal assets to maintain the stn; planning to raffle off two

plots of land in a solidarity raffle in order to pay employees yearend bonus. Promises by Intl foundations two months ago to help him survive are unfulfilled. (WBI 12/12)

PORTUGAL RDP Intl reported 13/11: Council of Ministers meeting 12/11 adopted a number of measures concerning state owned nx media, including: RDP's SW svc should be a self-administering bcng stn in order to bring about necessary improvements in quality of reception of its pgms. RDP SW serves our emigrants, providing a sort of permanent contact between them and their Port homeland, main reason for improvements. Meeting also decided to make major investments designed to boost the quality of poor reception caused by ageing xmtrs. In 1987 we propose to invest 100,000 contos [100 million escudos] and further investments in subsequent years until all Port emigrants are able to receive Port radio pgms in good condx. And RDP Intl reported 15/11: Govt took a decision seeking to provide RDP's SW svc w/autonomy in administration, finance, programming w/in the state-owned enterprise RDP (WBI 21/11)

SOUTH AFRICA Radio 5 in EG 3/12 on 4880, mx by The Doors, M DJ giving previews of upcoming spls featuring ZZ Top, Doors, etc; 2200*, F-P. 5/12 0358 in EG ads for Valvoline and cigs. Rock mx w/call-in show hosted by M, F-G (Charles Weiss, OH)

SWAZILAND RSA reported 14/11: Danish govt has agreed to loan 9.7 megadollars to Swaziland to finance 3 major development projects incl 2.9 M\$ for Dept of Posts & Telecomms for modernisation and expansion of country's radio net. Remainder to be used in rehab of infrastruxure damaged or destroyed by cyclone Domoina [in Feb 1984] and to expand electricity power distrib system (WBI 21/11) Ever notice how little reportage we get of cyclones not affecting NAM? I thought I was pretty well-informed, but never hrd of that one(gh)

UAE V of UAE, Abu Dhabi, hrd on new 13765 since 23/11, from 1400 AR mx & ID past 1500; just below R Ned on 13770; hrd on D1835 rx (Ernie Behr, Kenora Ont)

USA [Cf Dec 1N-29] V of Free China via WYFR now hrd on 9852.5 & 11805, from 2200 FR, 2057 GM to 2157*, 3/12 (Ernie Behr, Kenora Ont, 11/12)

WINB, first time noted on 15295, 29/11 1915 Holy Temple Church of God, 1930 Russian, 2000* after EG ID, switching to 15145 (Bob Padula, Vic, ADXN)

VOA-Europe svc to continue; RNMN interview 27/11 w/dir Frank Scott: budget cut but pgming to remain essentially the same; however, regular EG nx to replace spl nx done before. Listeners should not notice much change. Plans to add FR, GM and other langs, shelved. Still plans to go stereo via Germany; and tentative agreement to add 5 stns in Tuscany (WBI 5/12)

Monitoring 3-10/12: Since 3/12, the 24h RMWS in EG has replaced its daily
'Focus on Asia' pgm w/a new one 'Focus on Asia and the Pacific'. Ex-FoA pgm had
been just under 30mins thrice daily at 0131 1531 2331. New pgm also apx 30m 4x
daily at 0110 1010 1510 2310 weekdays. Exact weekend being pattern has yet to
settle down. New pgm has 20 mins comtry, reports, then As & Pac regional nx.
RM has separate EG svcs for Af, SAf, NAm, GB&I but in recent years has incorpor-
ated pgms for As in WS; pgms in EG specifically for Pac audience are new (WBI
12/12)

TASS reported 5/12: Tentative step towards establishing Sov/Am coop in TV--
Depy Ghm of USSR State Committee for TV & RBC, Vladimir Popov thus describes
agreement just signed; envisages experimental showing in USA for a fortnight of
bcs of 2nd Pgm of USSR Central TV. For US side, agmt signed by rep of Orbita
Technology Corp of NY. This is not spl bcs for Am viewers but merely beaming
pgms from Moscow as seen by Soviets; will be in Feb-Mar and if successful will
lead to commercial agreement. Orbita corp counts mainly on interest of people
who know or study Russian. Sov rep said doesn't plan to purchase Am pgms since
there is a diff approach to contents and structuring of TV bcng in USA. But
this does not preclude fruitful exch of separate, most interesting pgms. All-
Union R reported 5/12: Orbita Tech Corp has already gained experience in relay-
ing Sov TV bcs to a number of Am universities for academic purposes. Will be
picked up from a comsat for FE USSR. TASS reported 5/12 that OTC has proposed
that the showing of Sov TV 'be extended to several cable TV nets' (WBI 12/12)

R Vilnius in EG: 2230-23 Eu 6100 666. 23-2330 Am 11860 11790 9765 7165 6200.
2230 bc also irr on 1557 & 1107. All 3 stns one hour earlier during DST (WBI
28/11)

V A T I C A N Vat R reported in Croatian 29/11: as from 1/12, bcs in Croatian
at 18 & 04 on 1530 kHz will be considerably improved by a new xmtr. DPA repor-
ted 1/12: From 1/12 it'll be possible to receive Vat R considerably better in
GM-speaking countries. Stn and GM via newly erected MW ant. But in southern
Italy, Greece, Spain, it'll only be possible to rx GM pgms on SW; mediumwave no
longer possible. Like GM, pgms in SP, PT, HG, AB, RM and most Slavonic langs,
will from now on be xmtd only to target countries. FR, EG, IT still omni on MW
(WBI 5/12)

VENEZUELA next page

V I E T N A M VOV reported 24/11: The Vung Tau integrated microwave comms stn

has been officially put into opn. Stn, built w/Sov assistance, responsible for ensuring all types of comms betw Vung Tau and other localities in the country & world. Stn receives and relays pgms from USSR CTV to serve Sov experts and Viet cadres and people in Vung Tau [some 40 mi SE of Ho Chi Minh city] (WBI 5/12) Vung Tau used to be site of Australian forces stn on MW

VENEZUELA [oops] R Maturin, F-G 13/12 0915 t/in w/two 'noisy' ancrs hyping and IDING, on 5040 (Max in Maine)

Ecos del Torbes, 4980, 0340-04* 4/12, SP pops & ballads, addr & phone #; state & natl anthems, G. Many trnx for R Nacional on 11852 tip; hrd every day w/tremendous sig; 9/12 w/countdown of pop mx at 2140 (Chuck Weiss, OH)

R Nacional, 11852.5, vy strong all day, 16-2310 when WYFR s/on; mostly LAM pop mx, at 2200 Ven NA & SP mx; hrd since 15/11, but not daily (E Behr, Ont)

CLANDESTINE CRANNY V of Democratic Kampuchea (Cambodian: Samleng Kampuchea Pracheathipatei) bcs in support of former Khmer Rouge regime; first obs 16/1/79; xmtrs believed in PR China. Daily one hour in Cambodian: 04 17680 15110, 09 11870 11695 8345, 13 15360 11675 5250 4130, 2330 9440 8345 7350 (WBI 28/11)

V of Tamil Eelam operated by PLOT: in EG, Sinhala, Tamil; Wed, Sat, Sun. TM pgms contain revly songs and packed w/info about their Libn mvmt. VM 0230-03, 1030-11, 1330-14; suffers severe jamming. Gives addr in Madras: VOTE, No. 11 Des? illegiblejkar St, Vadapalari, Madras. Anmts say on 41 & 49mb. Reception on 49m is generally poor and sometimes not available (G R Prahlada, Nov IDXCI)

VOTE in Tamil 1/12: Beloved countrymen, on various occasions in the course of the history of our Tamil Eelam freedom struggle, the stooges of imperialists and the reactionary organisations which represent them have been trying to hamper the progress of our revolution by resorting to various evil trix. It is quite clear the mentor of these hooligans, the fascist Sri Lankan JR [Jayewardene] govt which is vexed by the progress of our struggle, is getting counsel for conspiracy from forn spy organisations. The govt, which is not capable of confronting the mily activities of the Tamil Eelam freedom fighters who are working w/the strength of the people, is under the wrong impression that it can succeed by sowing confusion among the people of Tamil Eelam. What else can the capitalist demons do, that have no political insight or prudence? The SL govt succeeded in disrupting the VOTE bc betw 1530 & 1630 [10-11 gmt] last Sun [30/11]. This coincided w/problems w/our xmtr. Henceforth, the Tamil Eelam Communist Party will take steps for counteraxion in case the SL govt attempts to indulge in creating such complications.

Altho VOTE shifted fq from 7010, a SL stn continued its attempt at disruption thruout. At this time, there was a fake bc using the name of the VOTE, the authentic info media of the CP of TE, using the same fq of 7010 either by the Sri Lankan govt or some reactionary groups. In this bc certain very mean calumnies which are far from the truth were unleashed against the leader of our fraternal organisation. Those who lack the knowledge of history despite showering despicable lies and that the bc was from our sacred info media. People are well aware of the conspiracies of such reactionary forces. However, if such fake bcs would be repeated in future we will let the people know about the truth at least in a few sentences in our news bulletin on the very next day. VOTE, which was launched w/the aim of providing political awareness to the people, has a sound, unshakable faith in the might of the people. VOTE bcs are being carried out keeping in mind the prosperous future of the Eelam revolutionaries and the freedom fighters. Requesting all to analyse the commentaries of its bcs, VOTE calls upon every revolutionary to undertake activities for political advancement as much as possible in order to lead our people toward the path of progress. As said by comrade [name indistinct]; healthy comments are not graves before us but are sharp tools to mend history.

Monitoring 2-4/12: VOTE ancd at 1410 2/12 that from 3/12 it'd bc on 7010 at 0430-0530 & 1330-1430 only; monitoring 3/12 & 4/12 confirmed no more bcs at 02-03 & 10-11. VOTE now bcs nx in Tamil 0430-0440 & 1330-1340; occl commentaries and spl anmts are in EG (WBI 12/12)

V of Tamil Eelam (pseudo stn operated by Sri Lankan govt): Puts in vy strong sig on 9705 at 0430-0530 & 1330-1430; 6/10 ancd soon bc in Punjabi especially for 'suffering people of Khalistan' (IDXCI member #266, Nov ADXR)

The other stn IDING as VOTE is hrd 04[30? illegible]-0530 & 1330-1430 on

41 mb. Previously also 31mb. Sig is very strong and suffers no jamming. Now uses 41mb only. anmt: "You can hear our Tamil news daily at 10:30 am [05 UTC] and 7:30 pm [1400 utc]. Start w/spl report in Tamil for 3-5 mins then EG pgm for 5 mins and Tamil Film songs (for popular movies of Kamal Hasan) or devotional songs, then TM nx for 10 mins or 15 mins followed by EG songs by Michael Jackson and others, finally EG nx. 5/10, 6/10, 7/10, I hrd this w/following slogans: 1) Khalistan is our brother country. 2) We are going to intro new xmsns in Punjabi lang and many other langs. These are intended for north Indian listeners and foreign listeners. Our EG bc helps many overseas listeners get correct info. 3) We deeply mourn for death of Sikh terrorist [sic] who were shot dead by Indian Border Security Forces. 4) the intro of Punjabi pgms will be a mark of solidarity to Punjab people. This stn rarely uses 49mb and was hrd w/weak sigs. Pgm content for night xmsn is same as morn; now hrd at unlisted time 02-03 (G R Prahlada, Nov ADXR of IDXCI)

Edu Puligalin Kural, operation by Liberation Tiger of Tamil Eelam, hrd w/TM pgms only; previously from 5/10 had sked daily 1030-11 & test xmsn 1330-14. Has revly talks, songs, mourns for dead libn tigers. As per anmts using 6150 & 7010. Previously did not suffer jamming, but severe now. Anmt between pgms: "our xmsn is disturbed in a pre-planned manner by SL govt, so we will change our fqs to avoid disturbances. Please excuse us." "We are very sorry to inform you that we are unable to bc on 6150 due to some problems." Asks listeners to give their letters to life members of LITE [if you can find one] or send direct to: Mr A Rajaram, No 928, Adayar, Madras 600020, India. Stn reqs listeners not to write their addr on the letter. Using new sked now: 1030-11 & 1545-1615 on 7010 6150. On 28/10 ancd: "Stn IDing itself as VOTE run by SL govt is xmtg at 0430 & 1330. This stn xmts all false nx. We request listeners not to listen to this stn. This stn ends w/following words: Puligalin Paasam Tamil Eelam Taya-kam"

Besides these 3 stns, an unID stn w/Sinhalese songs is hrd on 41mb; no anmts during or at end, hrd 09-11 & 1330-1430 (G R Prahlada, IDXCI ADXR, Nov) Very fine monitoring observations, tho we would hope for more detail on the exact frequencies used by these various operations (gh)

V of Unity Monitoring 20/11: VOU, formerly known as V of the United Muslim Fighters (Mojahedin) of Afghanistan, and which now gives a PO box addr in Hamburg, hrd on its sked 1530-1625 xmsn in Pashto/Dari on 11490 9905 9215. VOU s/ off at 1625 but xmtr on 9215 stayed on the air; at 1630 it started to carry opening anmts for V of the Liberation of Iran [Persian: Sada-ye Jebhe-ye Nejat-e Iran] which carries material hostile to Khomeyni and the govt of Iran. 9215 was // VOLI usual fqs 9027 7080. After few mins, 9215 ceased abruptly. The xmtrs for these two radios are believed to be in Egypt (WBI 28/11)

V of Unity (Pashto: De Wahdat Ghazh; Dari: Inja Sada-ye Wahdat ast) first hrd under old name May/June 1980; addr given as: V of Unity, Radio Muslim Mujahideen of Afghanistan, P O Box 2605, 2000 Hamburg 60, W Germany. Sked in Pashto/Dari daily 0130-0225 & 1530-1625 11490 9905 9215 (WBI 28/11)

V of Libya, 10/11 2052 on 15195, AR talk, repeatedly mentg Iraq, SIO 454 (Kanwarjit Sandhu, Nov IDXCI ADXR) Is that the correct name of stn?

R Bardai Monitoring 7-9/12: Stn opposing Chadian govt in Ndjamena under leadership of Hissein Habré, continues on 6009; but xmsn of FR/AR/Chad lang 18-2030 currently completely mixed w/relay of Libyan radio's ES in AR V of the Greater Arab Homeland; the two bcs are radiated from one and the same xmtr; 9/12 6009 was unmodulated (WBI 12/12) Oops [not an acronym]

UNIDENTIFIED 9760 AR stn hrd since 4/12 w/talk & AR mx 19-22 when RCI s/on; possibly R Kuwait per unclear ID; also mixes w/R Nac da Amazônia from 2200, and RCI should get off that fq fast (Behr, Kenora Ont, 7/12)

PUBLICATION DX Listening Digest "Issue No. 7 is the best DX magazine issue ever received by me during my 30+ years as a DXer/SWler. I spent several hours reading and rereading this issue in order to digest everything" (Lars Rydén, Sweden) Some copies of #7, as well as 6, 10 and the new #11 are still available to start your sub @ \$20 for 10 issues in N Am; samples \$2. LOG REPORT

section B

4900 to 6199 kHz

Editor: Jerry Berg, 38 Eastern Avenue, Lexington, MA 02173

Interesting Colombian activity this month; see 5569, 5991, 6015 . . .

- 4900 GUINEA Conakry, in FR at 0645, ID 0647, Afr mx interlude, maybe nx, Maputo mentioned 0649; 11-22 (Swaringen-NC); on 11-10, local talk and mx, maybe nx 2350, guitar instr.mx, rapid drums, two IDs 2358, s/off armts, NA to 0002, plug; poor-fair (Tutak-WA).
- 4905 BRAZIL R. Religio Federal, time signals 0659 11-28, ID; New s/on time?24 hrs?(Schulze).
- 4905 CHINA CPBS, CH talk 2238 11-8, possible ID 2245, gal anncr; over Br.at tune-in, but faded 2257; poor, deep fades; RDI says this is Beijing, //5860 (very poor)(D'Angelo-PA).
- 4910 ZAMBIA Lusaka, eagle IS 0340 11-22, NA 0355, ZBS ID 0358 in EG (Swaringen-NC); *0345 11-7, NA, ID, into US pops; lang nx 0400; fair sometimes but mostly poor (D'Angelo-PA); IS 0348 11-12, NA, ID as Z.B/Cing Svc, very weak, bad modulation (Fisher-MA).
- 4915 BRAZIL R. Anhanguera, catchy foot-stompin vocals at 0135 11-19, ads, promos, a song in EG, TC (Dickson); PT vocals 0743-0805, TCs, IDs, fair signal 11-25 (Kashiwabara-CA).
- 4915 GHANA Accra, in lang at 2131 on 11-27, high-life mx, usual style, loud (Rippel); in EG at 2240 on 11-21, ID 2300, reading of Koran, into NA to 2304* (Swaringen-NC).
- 4919.5 PERU R. Central de Bellavista, hrd 1034 on 11-15 with "Amanecer" prgm, slow guitar numbers, ads for Libreria Carmencita and others; hrd to 1119 fade-out (Wilkins-CO).
- 4920 USSR R. Afghanistan relay, //6020; vernac.ID at 1742 11-27, nx; also hrd 1825 on 11-9 with GM prgm, political rpts, external svc; weaker than 6020, so maybe from Afg?(Schulze)
- 4920 AUSTRALIA ABC-Brisbane, world nx 0805 11-25, ID, fair signal (Kashiwabara-CA); M&W discussing foreign relations at 1240 on 12-3 (Rippel).
- 4920 ECUADOR R. Quito, LA mx, echo IDs, armts, 0325 11-27, fair signal (Kashiwabara-CA).
- 4930 HAITI Tent. 4VEH, in SP at 2224-2230* 12-1, religious programming, CA address given, mention of "transmundial," Xmas carol; poor-fair (Bobb-MN).
- 4932 JAVA RRI-Surakarta, hrd at 1459 on 11-25, RRI IS, into Jakarta nx; fair in Indonesian (Wilkins-CO); 1611-1626 11-18, tent. Surakarta, drama prgm in presumed Indonesian, Javanese-type orch mx between segments, poor signal (Tutak-WA).
- 4934 PERU R. Tropical, hrd 1031 11-15, Tarapoto ads, ID, fair signal (Wilkins-CO).
- 4945 COLOMBIA Caracol Neiva, 0225 11-26, ID 0228, Coke ads, promos, pop-style LA mx, strong sig (Dickson); SP pops and Andes mx 0650 11-22, nx and sports 0700, vy good (Weiss-OH).
- 4950 PERU R. Madre de Dios, just fair with LA mx at 0135-0200* 11-29 (Tuchscherer-WI).
- 4952.5 UNLD. Hrd 0104-0121 11-18 in PT, nx, jingles, hi-life type mx, radio "Nacional" seemed mentioned, guitar. Luanda? Didn't seem like Brazil. (Paszkievicz-WI).
- 4954.7 INDONESIA RRI-Banda Aceh, man with recitation at 1117 11-26, Koran or very similar, Islamic and also pop mx; Jakarta nx relay 1200, pos.ID; poor, faded 1215 (Allen-OK).
- 4955 BRAZIL R. Cult. do Campos, 0109 on 11-3, armts, ID, jingles, TC, interview, whistles, shouted "Cultura" (Paszkievicz-WI).
- 4960.5 MALAGASY R. Madagasikara, in vernac.0204-0235 11-24, nice variety of mx, record stuck once, clear ID 0229, then bells; great sig (Allen-OK); opening mx in FR 0214 on 12-5, slow, strange mx (pops) past 0245; strong signal (Wilkins-CO).
- 4965 BRAZIL R. Poti, hrd 0240-0302* on 11-7, big band swing mx, EZL mx, mostly non-stop, good sig on this and other days, ID as "R. Poti, Natal" (Dickeon); hrd 0835 11-16, religious prgram, ID and fays at 0845 plus three time pips (Alexander-PA).
- 4970 VENEZUELA R. Rumbos, hrd 0402 on 11-27 with full ID, sked, YV mx (Kashiwabara-CA);
- 4980 VENEZUELA Ecos del Torbes, "Silent Night" 0219-11-25, ID, TC, LA mx, ads, fair signal (Dillon-MD); 0336-0401* 11-27, EZL mx, s/off ID with M&W, seemingly state anthem, YV NA, good sig (Kashiwabara-CA); 0340-0400* 12-4, mx, address, fays, NA, good (Weiss-OH).
- 4990 NIGERIA Lagos, EG 2134 11-11, export talks, ID (Cucura).
- 4996 PERU R. Andina, 0320-0455 11-26, mx, armts, ID, NA, good to 0457* (Burlew-PA).
- 5004 EQUATORIAL GUINEA Bata, hrd with NA at 0459 tune-in 11-26, ID 0501, into mx, good sig (Burlew-PA); 2130-2202* 11-23, Afr high-life mx, talk by man, long/slow NA at 2159 (Alexander-PA); 2146 11-11, talk, local mx, ID and NA to 2200* (Cucura); 5006, hrd 2138-2202* 12-5, talk on Congo and Chad, SP pops, ballads, NA 2158; excel sig (Weiss-OH).
- 5005 SURINAM Tent. R. Apintie at 0220-0302 11-10, seemed Dutch, mostly classical mx, moderate to heavy static; couldn't get most of the armts (Dickson).
- 5015 USSR Vladivostok, 11-22 at 1558 cutting through Arkhangelsk with man talking, IS, then nx by gal at 1600, fair signal (Harms-FRG).
- 5020 SOLOMON IS. Honiara, 0815 11-30, ID, TCs, PSAs, C&W mx, poor signal (Kashiwabara-CA).
- 5025 CUBA R. Rebelde, typical Cuban mx 0250 11-18, phone calls, ID, fair sig (Kashiwabara-CA).
- 5030 PERU R. Los Andes, 0015-0202* 11-27, SP pops, ads, IDs, armts, NA (Alexander-PA);

- US and LA pops at 0131 12-5, s/off armt and NA at 0151 (Wilkins-CC).
- 5035 BRAZIL R. Aparecida presumed, 2350 11-21 to 0030, mostly EZL mx, talk, etc; poor (Bobb-MN).
- 5040 VENEZUELA R. Maturin, 0910 11-29, LA mx, ads, IDs, jingles, good sig (Alexander-PA); 0931 talking by man, IDs, children singing LA songs, fair sig (Bobb-MN); 0355 11-21, nx, chimes between items, //4970; Maturin ID 0338, ad, back to Rumbos nx (D'Angelo-PA); short talking 0348 11-23, closing annms, IDs, NA, 0357* (Tuchscherer-WI).
- 5040 ECUADOR LV del Upano, Andean mx 1119-1134 12-1, mentions of Upano, strong sig (Bobb-MN); HC mx 2310 12-3, armts, ID 2314 (Alexander-PA).
- 5047 TOGO Lome, unlisted EG nx 1950-2000 11-9 ("This nx coming to you from R. Togo"), into FR 2003 (Schulze); FR 0549 11-27, Afr mx, armts, good sig (Kashiwbara-CA).
- 5055 ECUADOR R. Catolica Nacional, chime IS 1025 12-1, IDs, greetings, NA, talk in Quechua, then Andean flute mx, good signal (Bobb-MN).
- 5057 ALBANIA Gjrokraster, 2201 11-15, reactivated here, continuous mx to 2230 nx, more mx to 2254 s/off routine, NA to 2258*; fair signal (D'Angelo-PA).
- 5060.6 ECUADOR R. Nacl. Progreso, ID, ballads, 0404 on 11-8 (Schulze).
- 5065.2 UNID. SP ballads 0240-0300 11-27, fairly strong, but soft-spoken annor (Alexander-PA); tent. R. Nacl. Progreso here 0155 11-19, LA pops, F-G but can't quite get ID (Dickson).
- 5075 CHINA Presumed CPBS, distinctive CH mx to 2230 11-16, then talk by M&W, maybe nx; TBS/WRTR say Beijing, RRI says Urumqi; poor signal (D'Angelo-PA).
- 5095 COLOMBIA R. Sutatenza, 0213 11-30 w/"Cadena Sutatenza" ID, mx, good sig (Kashiwbara-CA).
- 5286 CHAD R. Moundou, vernac. mx 1700 11-5, FR 1729, ID, political talks, 1831*; also hrd at 1640 11-8, early fade-in, "Radiodiffusion Moundou" ID at 1710 (Schulze).
- 5310 UNID. Latin 0420 11-9, sporting events, no breaks, fair but fady; lost 0447 (D'Angelo-PA).
- 5500 W. IRIAN RRI Biak, Koran chants 0854 11-30 at Biak sunset, nx 0910, then pop mx; here after brief return to 5451 (Wilkins-CC).
- 5569 COLOMBIA R. Nueva Vida, here now, ex-5533, *1015 11-25 with religious prgmg, "palabra de Dios," etc, ID 1050, poor (Allen-OK); couple times arnd 1000-1100, fady (JB).
- 5864 USA "Voice of Communism" pirate, 0601 11-12, seeking rpts to B. Creek address (Swaringen-NC).
- 5885 UNID. Likely Echo of the Masses or RRI-Pekanbaru, 1234-1300 11-23 in unid. lang, talk, lots of clas. mx, ID 1300 but too poor to copy; no RRI IS hrd (Paszkiwicz-WI).
- 5945 UZBEK SSR R. Tashkent, EG nx 1201 12-8, cmtry, IDs, fast-vy fast fading; 1228* (Pickard).
- 5970 BRAZIL R. Itatiaia, fair in PT 0757 11-15, ID, Br. mx (Rigas-IL).
- 5975 ENGLAND BBC WS, F-G w/talk 2247 12-1 (Smith); world nx, press, 0200-0215 11-24 (Dillon-MD).
- 5979.7 MEXICO XEUJ (not Union R), SP relig. prgm with Indiana address at 1457 on 12-7, gal with call letters, tech trouble with next prgm at 1500; good signal (Allen-OK).
- 5980 TAIWAN Voice of Asia, 1530-1601 11-12, EG nx, cmtry, IDs, "Mx Gallery," fair (Tutak-WA).

Euclid,OH.(RFB600).

There we are for the start of a whole new year in this section of FRENDX my friends.

I would like to thank all of you who have helped us through the year just past, and sincerely look forward to your continued support of this and other columns of FRENDX for the year 1987. It has been a real pleasure for the most part.

As usual, I'd like to once again, ask you to PLEASE, cut those loggings up into useable strips, and PLEASE use the standard NASWA Log Sheets for all of your loggings. It really helps to make them clear and understandable folks, the editors use all that they can, however some of the entries are pretty bad to read and I can't blame any editor for by-passing those types of loggings. So lets all try to make their job a whole lot easier during 1987.

With nothing more to say, other than to again thank you all for your kind support and letters through out 1986. I am sure that 1987 will be better.

Happy New Year !

THE 1987 NORTH AMERICAN DX CHAMPIONSHIPS
(NADXC) SPONSORED BY NUMERO UNO

ELIGIBILITY

The 1987 DX Championship is open to all DXers residing in North America (as defined by the country list of the North American Shortwave Association (NASWA)). Members of the NADXC Administrative Committee and the judges are excluded from participation.

LISTENING PERIOD

The contest listening period will commence at 0000 UTC on March 14, (Friday evening local time) and end at 0000 UTC on March 16 (Sunday evening local time). The DXer can choose any continuous or noncontinuous 24 hours within the contest listening period. Any portion of a one-hour period counts as a full hour, therefore the period 2150 to 2210 UTC counts as two hours. Contestants should submit a summary of time periods listened.

PRIZES

Trophies will be awarded to the Top 3 finishers in the DX Championships. All entrants will receive a participation certificate indicating that they competed in the 1987 North American DX Championship. The certificates for the Top 20 will have their place of finish in the DX Championships indicated on their certificates by Numero Uno's resident artistic designer-John Herkimer.

SCORING

Contestants are to log as many stations as possible from as many countries as possible within the prescribed listening period. A station is a shortwave broadcaster whose transmissions are intended for reception by the general public. Each transmitter site of a broadcasting organization will count as a separate station. Different services of the same broadcast organization do not count as separate stations. Transmissions of a single broadcast organization on various frequencies may only be counted once. The use of multiple frequencies does not create as many new stations as frequencies used. For country counting and station counting purposes, the country list of the North American Shortwave Association (45 Wildflower Road, Levittown, PA 19057) will be the sole criterion.

The 1987 NADXC will utilize the 31-49-60 meter bands. These bands are defined for contest purposes as follows:

31 meter band = 9.4 to 10.0 MHZ
49 meter band = 5.9 to 6.3 MHZ
60 meter band = 4.7 to 5.2 MHZ

Participants are required to submit a running log to include country, station, frequency, time, date, SINPO, and the basis of station identification (i.e. spoken ID, interval signal, language, program, known // frequency checked, etc.)

- Points: The first station logged from each country = 5 points. Each additional station from that country = 1 point.
- Bonus: Ten stations from one country earns 10 bonus points.
- Bonus: The "Continental Achievements" provides an opportunity to earn additional points for significant country accumulations.

<u>Continent</u>	<u>Number of Countries</u>	<u>Bonus Points</u>
Africa	25	50
Asia	25	50
Europe	25	50
North America	12	25
South America	10	20
Oceania	8	20

For contest purposes, all clandestine stations and hobby pirate transmissions will be considered one "country". The clandestine/pirate "country" will not count for the "Continental Achievements". Although Antarctica counts for country counting purposes, it will not count for the "Continental Achievements".

Each contestant is required to total his own entry and provide a summary of the number of countries, stations, and continents claimed to support the point totals. Logs will be judged on accuracy, completeness and neatness. If the judges cannot read a log, that log will not be counted for scoring purposes. The decision of the judges is final.

FEES

A small administrative fee of \$2.00 plus a business size SASE must be provided for each contest entry. All entries must be postmarked by Monday, March 30, 1986 and sent to:

Kent Corson
4015 Tanglefoot Terrace
Bettendorf, IA 52722
USA

Results of the contest should be available in July. Notification of the winners will be sent to each of the ANARC member clubs for publication.

GOOD LUCK from the 1987 NADXC Administrative Committee-Kent Corson, Richard D'Angelo, Gerry Dexter and Bob Hill.

NEWS

P.O. Box 493 • Lake Geneva, WI 53147

The first 100 countries logged represent an important milestone in the career of any DX'er - whether on the shortwave broadcast bands, the utilities, hams or medium wave.

Tiare Publications has organized the Tiare Century Club to recognize all of those who have reached this 100 country level.

Upon application and checking of submitted logs, Tiare will issue a distinctive, 11 by 14 inch Century Club Certificate - a beautiful addition to any shack wall.

Logs should include the country, station name, frequency, date, time (in UTC) and a description of the content or type of transmission heard.

Logs should contain only SWBC or only utility or only ham stations, etc., i.e. they should not be mixed. Applications for certificates covering reception of 100 countries in more than one type of transmission (SWBC, ham, ute, medium wave) will be accepted seperately.

There is a \$10 fee for each certificate applied for. Logs, the fee (in US funds only) and complete name and address of the applicant should be sent to:

Century Club
Tiare Publications
P.O. Box 493
Lake Geneva, WI 53147

Please allow 4 weeks for delivery. Certificates will be mailed flat, via first class mail.

Now Available -
The French Edition of
LANGUAGE LAB

The Foreign Language Reporting Guide

Hundreds of sentences, phrases and words provide the user with an endless variety of ways to individualize reception reports and letters. There are 17 ways to ask for the QSL, 15 letter openings, hundreds of program descriptions. Over 50 pages of material, organized by category for easy, convenient use!

The French edition of Language Lab has been translated by Yvan Paquette, VE2IB, former president of the Clube Ondes Courtes du Quebec.

"The finest reception report writing guide we've ever seen." (John M. Kapinos, NASWA Awards Chairman)

"Get it!" (Ron Hopkins, QSL Report, DX Ontario.)

Just \$12.95 plus \$1 shipping/handling, \$2 s/h overseas. Spanish and French editions for \$23.00 plus \$1 per book s/h (\$2 per book, foreign) US Funds only.

Thanks to Dan Robertson for a tip on an undocumented feature of the NRD-525. Sometime this past summer, J&C modified the RUN button to toggle the main tuning knob between a rate of 2 kHz and 20 kHz per revolution. It also affects the frequency stepping increments of the UP and DOWN arrow keys. This was in response to the initial criticism that the tuning rate was too slow. Four weeks later, Media Network announced this change and said that on the latest units shipped, the word "improved" has been added to the J&C label. The manual should reflect this addition. If you bought an NRD-525 in the last few months, check it out. My unit, shipped in late August, has the improvement... but no label change.

Other notes: Radio Tirana sent along a program schedule in early December listing times, target areas, and meter bands... but no exact frequencies. The fit between what I received and the frequency information in Hauser's column last month matches up well, based upon what I have checked so far. Some listings have been dropped because I cannot determine by listening if the schedules are still good. This includes Iraq and Nigeria on 15120 kHz. There is nothing on that frequency from 1900 UTC on... until the VOA signs on at 2130 UTC with Creole to the Caribbean. Where did Iraq and Nigeria move to? SCDX recently reported that Belgium changed from 5910 to 5900 for its 0030 UTC broadcast and RAI, Italy, retired its English from 0100-20 to 0120-40, but on December 25 Belgium is still on 5910 and RAI still runs English at 0100 UTC. I found DX shows from Argentina on Thursdays and Fridays: they are now included in the list.

I wonder how many of you noticed Radio Havana on the morning of November 18th tearing up 31m. At 1200 I was trying to listen to Radio Beijing on 9535 kHz, and severe interference around 9533 kHz limited reception. I finally traced it to Havana on 9550, radiating spurs plus-and-minus 17 kHz.

Jonathan Marks of Radio Nederland interviewed Jeff White of Radio Discovery, Santo Domingo, on November 27's Media Network. Jeff indicated Radio Discovery was considering a new schedule effective December 2: 0000-0400 Tue-Sat on 6245 kHz, 1800-2400 Sat-Sun on 15045 kHz with programming in both English and Spanish. Transmitter power is 1 kw. I haven't heard it yet...

I have put up a BBS and you are welcome to use it. The board supports public and private messaging and conferencing. The first time caller can read bulletins, read and write messages, list files available for download, and upload files. For now, downloading files and joining conferences are only permitted after the security level is changed, usually within 24 hours. Leave a Comment to request the security level change. Aside from text files, the BBS's files are oriented to the IBM PC, compatibles and clones.

If you would like to arrange a schedule on HF, I am back in operation on the low bands. Drop me a note electronically or via the USPO.

QSL PROTECTORS!

DISPLAY 250 QSLs WITH
COMPLETE PROTECTION

Protect and organize your valuable QSL collection in these heavy-duty vinyl pages. They're made of the finest quality vinyl - guaranteed not to crack or yellow - for sturdy protection against dust, fingerprints and scratches. The slip-in pockets make organizing and rearranging your QSLs quick and easy - much more versatile than expensive first-day cover albums - such safer than the "magnetic" photo pages - and their crystal clarity actually brightens and enhances the color of your cards!

All pages are three-hole punched for standard binders, and with every 50 pages ordered, you get a handsome DeLuxe Album FREE! Each slot is 4x6 inches.

Each order of fifty pages comes with 25 pages of each type, so you can mix and match to make your own custom album. Or, you can order 50 pages alike.

Order TODAY, so that your valuable QSLs retain their beauty throughout the years, yet be readily accessible for display to your friends!

TWO TYPES AVAILABLE:

TYPE VH46
holds 2 horiz.
4 vertically

TYPE V46
holds 4 cards
horizontally

Please ship me the following QSL pages:

_____ Mixed Sets (25 ea type, total 50)	\$30.00	\$ _____
_____ sets Type VH46 (50/set)	\$30.00	\$ _____
_____ sets Type V46 (50/set)	\$30.00	\$ _____
_____ Total Sets Postage	\$2.50/50	\$ _____
	TOTAL ENCLOSED	\$ _____
