# Monitor more with ICOM receivers from Universal!

**ICOM**

## PCR100

The PCR100 turns your Windows 95/98 PC into a wideband receiver. **SALE \$189\*\***

Prices, specs and offers are subject to change.

## PCR1000

Hear it all with the PCR1000 Windows 3.1/95 PC receiver covering 10 kHz to 1300 MHz (less cellular) in AM/FM-NFM-W/SSB/CW. **SALE \$349\*\***

✓FREE from Universal Radio: "Guide to Military Monitoring" (\*19\*\* value)

## R10

The R10 is a wideband communications receiver you can hold in your hand. It covers 5 to 1300 MHz (less cellular) with 1000 Alpha memories, bandscope and SSB/CW. It comes with four AA NiCad cells, charger, belt clip, strap and flex antenna. **SALE \$299\*\***

✓FREE from Icom (US customers): CSWHHRX Windows software and computer cable (\*39\*\* value)

✓FREE from Universal Radio: "Guide to Military Monitoring" (\*19\*\* value)

## R2

The R2 is a miracle of miniaturization. At only 2.3"x3.4"x1" it tunes from 500 kHz to 1310 MHz (less cellular) in AM/FM/FM-W. The R2 comes complete with two NiCad AA cells, charging tray, antenna, strap and belt clip. **SALE \$179\*\***

✓FREE from Icom (USA customers only): CSWHHRX Software and cable (\*39\*\* value)

## R75A

The new R75A may be the best value today in a communications receiver. Has dual PBT, Sync AM, coverage to 60 MHz, notch and 99 Alpha memories. **SALE \$669\*\***

✓FREE from Icom (USA customers only): UT-106 DSP Noise Reduction Unit (\*139\*\* value)

✓FREE from Universal Radio: "Joe Carr's Receive Antenna Handbook" (\*19\*\* value)

## R8500

The professional-grade Icom R8500 covers 100 kHz to 1999.99 MHz (less cellular). **SALE \$1449\*\***

✓FREE from Universal Radio: "Guide to Military Monitoring" (\*19\*\* value)

## New 2001 Edition!

## PASSPORT TO WORLD BAND RADIO 2001

By Larry Magne. A must-have book for every worldband listener. Here is everything you need to know about when and where to hear the world; hourly by hour, country by country and frequency by frequency. Also includes candid, hard-hitting reviews of current portable and worldband radios. An expanded station address section is also featured. Passport is the world's number one selling shortwave guide. An indispensable reference with over 500 pages. Special early-bird price!

Order #1000 ..... \$49.95 **SALE \$15.90**

## Shortwave Receivers Past & Present Third Edition

This huge 473 page guide covers over 770 receivers from 98 manufacturers, made from 1942-1997. Entry information includes: receiver type, date sold, photograph, size & weight, features, reviews, specifications, new & used values, variants, value rating & availability. 840 Photos.

Become an instant receiver expert! #0003 **SALE \$22.90**

• Communications Receivers - The Vacuum Tube Era

Your guide to the golden era of tube shortwave radios, 1932-1981, Fourth Ed. 141 Pages. #0045 **SALE \$17.90**

• Joe Carr's Receiving Antenna Handbook

Arguably the best book devoted to receiving antennas for longwave through shortwave. #3113 **SALE \$15.90**

• Joe Carr's Loop Antenna Handbook

Here is the low-down on all types of loop antennas for listening and amateur applications. #0016 **SALE \$17.90**

• Pirate Radio By A. Yoder With audio CD!

Here is the incredible saga of America's underground illegal broadcasters (with audio CD). #0036 **SALE \$24.90**

• Worldwide Aeronautical Frequency Directory

The definitive guide to commercial and military, HF and VHF-UHF aeronautical communications including ACARS. Second Ed. 260 Pgs. #0042 **SALE \$15.90**

• Comprehensive Guide To Military Monitoring

Learn how to monitor all kinds of military comms on shortwave, VHF and UHF. 280 Pgs. #3301 **SALE \$11.90**

• Discover DX'ing! By J. Zondio **Second Edition**

How to hear distant AM, FM and TV stations. #0019 **\$5.95**

**TEN-TEC**  
RX-340

The Ten-Tec RX-340 is the ultimate receiver! Advanced D.S.P. technology at under \$4000. Production units started shipping in July. Please see our print catalog or online catalog at [www.universal-radio.com](http://www.universal-radio.com) for full technical details.

## GRUNDIG

The Grundig YB-300PE brings impressive features and performance to the under \$100 price category. Coverage includes: AM, FM stereo plus SW from 2.3-7.3 and 9.5-26.1 MHz. You get 24 memories, keypad entry, DX switch, 24 hour clock and illuminated digital readout. Includes AC adapter, case and earphones. #0300 **\$99.95**

The Grundig YB-400PE has a striking titanium colored case and includes a wind-up antenna, case, SW Guide and AC adapter. You get digital readout, keypad, 40 memories, SSB, two bandwidths, clock and ant. jack! Buy a new (not reconditioned) YB-400PE from Universal and get a FREE Lucite stand! #0400 **\$199.95**

SAVE! We have a limited number of reconditioned YB-300PE and YB-400PE models. Same 1 year warranty with box and all normally supplied accessories. The reconditioned YB-300PE is only \$69.95 and YB-400PE is only \$139.95

The Grundig Satellite 800 combines the technical achievement and features of the Drake SW8 with the rich audio fidelity that Grundig is so famous for. This LW, MW, SW, FM and VHF air receiver sounds like no other. Includes AC supply and headphones. An outstanding broadcast receiver. #0800 **\$499.95**

SAVE! We have a few Satellite 800 radios reconditioned by the R.L. Drake Company. Same 1 year warranty with box and all normally supplied accessories. #0808 **Only \$399.95**

Yikes, it is December already! It looks like we can say another year is down the drain. Yes, it is time to wrap up another year with some seasonal holiday cheer and new years resolutions. If you have not made up your holiday wish list, now might be a good time to take care of making sure someone in your family remembers to get that important radio-related gismo for you this season. Of course, best wishes for the holiday season from your favorite shortwave club to our favorite shortwave club members.

Our first DXpedition of the season is over. I am happy to report that Fred Kohlbrenner, Bob Montgomery, Ed Mauger, Kris Field and I managed to survive yet another outing to French Creek State Park. See the Musings column for more about this adventure.

**Adrian Peterson** announced the winners of AWR "New Millennium" DX Contest: "This year's two winners are located in India and in Germany. They are Jose Jacob VU2JOS at the National Institute of Amateur Radio in Hyderabad India, and Thomas Drescher at Rosrath in Germany. The major requirement in this year's "New Millennium" contest was to indicate the number of different AWR QSL stamps in the listener's collection; each supported by a valid AWR QSL card. Jose Jacob numbers his total collection of AWR QSL stamps at 384, with more than 200 different notations, each supported by a valid AWR QSL card. His collection contains many copies of the first series of AWR QSL stamps as well as the current series. In view of the fact that Jose Jacob is also on the air in "Wavescan" with his Asian DX Report, it was decided to add another First Place Winner. Thomas Drescher of Rosrath in Germany numbers his

total collection of AWR QSL stamps at 120 with all different at 64 each supported by a valid AWR QSL card. Both contestants will receive the 2000 Bronze Medallion, as well as an autographed copy of Jerry Berg's highly acclaimed book, *On the Short Waves*. Another major segment in this year's contest was to make suggestions regarding future AWR DX contests. Many excellent suggestions were given, and we choose one of these for next year's contest, in the year 2001. Jose Jacob suggested that we search for the world's most beautiful QSL cards and next September we will invite contestants to list what they consider are the five most beautiful QSL cards in their collection, in any mode of radio transmission. Watch for the details around midyear 2001."

**Bob Raymond** <bob.raymond@dxtreme.com>, President of Dxtreme Software has informed us that it has released its latest version of a logging software system for Windows based computers, Dxtreme Reception Log 2000 ("RL2000"). It is designed to provide casual and serious listeners and DXers with a straightforward, affordable, and powerful logging and reporting system. Basically, RL2000 lets listeners and DXers: Log the stations they have heard; Record and playback audio clips of the stations they have logged; Create customized paper and electronic reception reports; Scan, import, store, and view paper and electronic QSLs; Track the performance of their monitoring stations; Electronically report loggings and QSL reports to radio clubs and publications. RL2000 retails for US\$59.95 including shipping in North America or US\$61.95 including shipping outside North America. Special pricing exists for Dxtreme Software custom-

---

**Our Motto is - "Unity and Friendship"**

ers upgrading from previous versions of RL2000. You can learn more about or order DXtreme RL2000 by visiting DXtreme Software on the Web at <http://www.dxtreme.com>.

Another useful hobby resource guide is about to be issued. *The 2001 Shortwave Frequency Guide, Fifth Edition*, published by Klingenfuss Publications (Hagenloher Str. 14, D-72070 Tuebingen, Germany or e-mail [klingenfuss@compuserve.com](mailto:klingenfuss@compuserve.com)) is scheduled for release on December 10, 2000. Billed as "simply the most up-to-date worldwide shortwave radio handbook available today," the 500+ page guide is a useful addition to any listening shack. The direct price of 35 Euros, about US\$30.00 depending upon exchange rates, includes worldwide shipping. The use of computer-to-plate technology limits production time to just 10 days. Since Joerg Klingenfuss does not accept paid advertisements from the industry, his guide often contains some sharp opinions. We should have a review of the 2001 Guide in an upcoming Shortwave Center column.

Just a brief reminder to add the following new radio country, Diego Garcia, to the NASWA Country List, under ASIA, BRITISH INDIAN OCEAN TERRITORY. Also, in the Gazetteer section of the list, add the following country and data, BRITISH INDIAN OCEAN TERRITORY (AS)

UK Overseas Dependency formed in 1965, comprising islands of Chagos Archipelago since 1976; Station location: Diego Garcia (AFRTS transmissions activated August, 2000). Thanks to Chairman Don Jensen and Country List Committee members Jerry Berg, John Bryant, David Clark, Harold Cones, John Fisher, and John Herkimer for the Christmas cheer. Speaking of the club's Country List and Awards booklet, it is still available direct from the Company Store for just US\$3.00 in North America or US\$5.00 overseas. Also, thanks to the combined efforts of John Herkimer and webmaster Ralph Brandi you can now find the Country List and Awards booklet available online for downloading at our website in PDF format.

Finally, it is never too early to begin planning to attend a convention or two. The Winter SWL Festival is just around the corner so it is time to make your plans. Also, we just got word the 2001 WTFDA Convention will be held in Boise ID at the Owyhee Plaza Hotel from 27-29 July. Keep watching the Calendar of Events for more details over the coming months or by contacting the organizers directly at [n7sok@aol.com](mailto:n7sok@aol.com) or by writing to 4096 Marcia Place, Boise ID 83704.

That's it for this month. Enjoy this month's edition of the Journal; it's another good one. 

---

## Musings

*This column provides a forum where members can express comments, ideas, and thoughts about NASWA or the SW radio hobby. Please feel free to comment on anything presented this month (or previous months). Opinions expressed here are solely those of the submitters. Please submit all Musings to Richard A. D'Angelo, 2216 Burkey Dr., Wyomissing, PA 19610 or via email: [rdangelo3@aol.com](mailto:rdangelo3@aol.com).*

**Ed Newbury <[newbury@megavision.com](mailto:newbury@megavision.com)>, KC0GDG, Kimball, NE 69145**

### *Reflections on a friend*

I moved to Nebraska in January 1990. I lived in a small town in cattle country called Mullen. It was in the Sandhills, and believe me, it was rural. There were more cattle on one medium size ranch than there were people in the whole county. One morning I was in Big Red's having coffee and chewing the rag with the guys when I overheard Jake the telephone man talking about his shortwave radio. I engaged him in conversation and soon afterward I purchased my DX-440. In the summer of '91 I purchased the Drake R8.

In December I moved to Gordon where I continued my shortwave listening. It must have been that winter that I was talking to another avid shortwave buff that he mentioned that I might enjoy talking with a dedicated DXer and shortwave listener in Lubbock, Texas, Gigi Lytle. Why not, I asked myself. I phoned her. And there started a wonderful friendship.

Over the years I guess we talked by phone about three times a month; sometimes more often. We finally met at the Grove shindig in Atlanta. And it seemed like old friends were meeting. We met a few other times, one or two being at the NASWA Winterfest. Then two summers ago I made the trip to Lubbock and visited Gigi and Tom for a few days.

By phone we talked of many things. Most times we would share our radio and Dxing experiences. But other times there were conversations about bird watching, rock collecting, even cooking. She shared experiences as a Girl Scout leader and a lover of all children. And Gigi shared her passion for the hobby of shortwave. Gigi loved the hobby. She enjoyed it immensely. She had fun with it. And she enjoyed it just for the sake of shortwave listening. Skip Arey in his book, Radio Monitoring, asks "are we still having fun?" Gigi's answer to that in her West Texas draw would be, "of course I am."

Gigi won a trip to China was a result of her listening to China Radio International. Believe me, she had stories to tell about that one! Gigi had radio friends in England, New Zealand, Romania, the United States, and other places as well. One time there was going to be a sign-on for some station she was interested in and there was adjacent signal interference from the Voice of America. So she wrote the station engineer of that relay site telling him the problem and asking if he could wait a minute before signing on so she could get the other station's ID. She promised him a tin of homemade cookies. I understand that the reply was something like, "it was the cookies that did it."

And Gigi was also an authentic human being. One time when I was hurting I called her and shared my pain with her. It was a good conversation. And I was happy I was able to do that as our friendship grew. But Gigi also was friends of domestic and stray cats like Mr. O So Sneaky and Bandit plus a couple of others whose names I've forgotten. Consequently we would share experiences of her felines and my Charlie Magnifi-CAT.

I'm sure I could write more, but you get the idea. Gigi was a true friend. I am grateful to God, my Higher Power, that I had the privilege of knowing her. I'm sure many of us will miss her; I know I will. Rest in God's peace, my friend.

Ed Newbury

**Richard A. D'Angelo <rdangelo3@aol.com>, 2216 Burkey Drive, Wyomissing, PA 19610**

Seasons greetings to all club members. Another great DX filled year is about to end. For me, it has been a good year. The highlight was probably upgrading to a Drake R8B, which I am enjoying very much. I can highly recommend this rig. I have also added the RF Systems Mini-Window antenna to the shack. So far, so good.

Our first DXpedition of the season, and seventh overall, to French Creek State Park is now history. This DXpedition was a Wednesday through Sunday extravaganza with folks coming and going on different days. Fred Kohlbrenner, Bob "Mr. Coffee" Montgomery, Ed Mauger and Kris Field rounded out the group. One Day One, Fred and I began set-up around 3:00 PM with Bob showing up as we began unloading our cars. Ed arrived after dark about six hours later. Kris rounded out the group when he arrived on Thursday evening.

Although overall conditions were only fair, at best, there were some good specialized openings. Thursday morning saw a remarkable late morning opening to Jambi with a fantastic signal past sunrise while the evening saw a nice Horn of Africa opening. Friday morning saw a bundle of Peruvians audible all over the place while Vanuatu made a rare 60-meter band southeast Pennsylvania appearance. Also, Antarctica made welcomed appearances on Thursday and Friday afternoons. Saturday morning ended with nice logs of Myanmar and RRI Biak. Maybe conditions weren't that bad after all?

Most DXpeditions are noted for some famous occurrence and some, like the fire and ice DXpedition, have multiple major events. I recall sliding down a snow-covered hill or being attacked by thorns while doing antenna work. This one was distinctive in that there were no major catastrophes to speak of. We are either getting very good at this or we are getting very dull, boring and predictable.

73-RAD

---

## Calendar Of Events

**Dec 15 Meeting. Philadelphia Area NASWA Chapter.** Kulpsville Holiday Inn, Kulpsville, PA at 7:30 PM. For more information contact Dan Cashin at 610-446-7831.

**Dec 15 Meeting. Boston Area NASWA Chapter.** The Lexington Club, Rts. 4 & 225, Lexington, MA at 7:30 PM. The location is 1/4 mile west of Rt. 128, Exit 31. For more information contact Paul Graveline at 978-470-1971 or Internet: 74007.3434@compuserve.com. The URL for the BADX guys is <<http://www.anarc.org/naswa/badx/>>.

**Jan 12 Meeting. The Cincinnati/Dayton Monitoring Exchange (MONIX)** meet at the Lebanon Citizens National Bank on U.S. Route 42 in Mason at 7:00 PM. For more information contact Mark Meece at 513-743-8089 or e-mail at <[mmeece@siscom.net](mailto:mmeece@siscom.net)>. For additional information about MONIX, check out their web site at <<http://www.siscom.net/~mmeece/monix.html>>

**Mar 9-10 Convention. The 14<sup>th</sup> Annual Winter SWL Festival**, sponsored by NASWA, will be held in Kulpsville, Pennsylvania (Exit 31 on the Northeast Extension of the Pennsylvania Turnpike). Richard Cuff and John Figliozzi co-chair the organizational committee. It's never too early to begin planning. See you there!

**Mar '01 Contest. 2001 North American DX Championships.** For further information you can send a self-addressed stamped envelope to 2001 NADXC, c/o Dr. Harold Cones, 2 Whits Court, Newport News, VA 23606. Rules will also be posted eventually at <<http://www.anarc.org/>>, and are published in the Awards column in the Journal.

**Jul'01 Convention. The 2001 WTFDA Convention** will be held in Boise ID at the Owyhee Plaza Hotel from 27-29 July. More details to come. Inquires can be sent to: [N7SOK@aol.com](mailto:N7SOK@aol.com) or by writing to 4096 Marcia Place, Boise ID 83704.

**Aug '01 Conference.** The annual EDXC Conference is scheduled to be held from 24-27 August 2001 in Budapest, Hungary. All DXers, shortwave listeners, international broadcasters and other radio enthusiasts are cordially invited to attend. Additional information is available from [risto.vahakainu@helsinki.fi](mailto:risto.vahakainu@helsinki.fi).

Members are invited to submit items to be included in this calendar to Rich D'Angelo (Internet: [rdangelo3@aol.com](mailto:rdangelo3@aol.com)) or Ralph Brandi (Internet: [ralph@brandi.org](mailto:ralph@brandi.org)).

## Giving Thanks for Electronic Media

I know, the Thanksgiving holiday in the US was in November, but, hey, that's what's on my mind as I finalize the column over Thanksgiving weekend.

It has been argued that the development of electronic media have caused a decline in shortwave listening activity, as potential newcomers to the hobby get their kicks in other ways, and as broadcasters use the excuse of electronic media development to cut back on shortwave resources and programs. While member counts for those clubs who publish statistics support this argument, other recently published statistics point out that sales of mid-priced portable radios are growing here in the US. In addition, I heard an ad for the Grundig Yacht Boy 400 on the hourly CBS Radio News the other evening.

Why the "will of the voter" may not yet be clear in Florida, the "will of the Fester" at last year's Winter SWL Festival was clear: people did not want to see paper-based publications disappear. However, the near-instant dissemination, turnaround, and feedback possible with the Internet make the Internet a valuable tool in augmenting the listening experience.

Prices of entry-level computers continue to drop, and the availability of used computers with very adequate functionality for Internet connectivity for price tags below \$500 continue to make it easier to add this functionality to your listening shack. If you live in a metropolitan area of 50,000 population or more, you likely now have access to one or more free Internet service providers. Yes, you must endure advertising on your computer screen, and, yes, these providers of free Internet access can track your Internet usage habits, but in my own opinion the benefits outweigh the costs. If you are in an area where free access is not available, Monthly fee-based

Internet access is now less than \$15 for most providers. When you put your gift list together for Santa this year, consider adding a computer to that request for a new radio.

I mention all this because the US election, with its twists and turns, brought about ad-hoc programming and transmitter extensions at broadcasters including the VOA. There is no way a printed publication could have passed along this information. Canada's coming election will bring special programming on **Radio Canada International** that will have come and gone by the time you read this.

Despite this enthusiasm for electronic media, hopefully this column will continue to play a role in your enjoyment of shortwave programming. We'll review upcoming programming when we can, and we'll also review what we've been listening to.

## Christmas and New Year's Programming

As a result of last year's premature celebration of the millenium, it appears most broadcasters are ignoring the real millenium moment in their upcoming programming. However, the upcoming holidays will yield an assortment of special programming. Here is a quick look at some of what's planned for the holidays:

The **Voice of Russia** hasn't yet finalized details, but look for holiday-themed programming on programs including *Music and Musicians*, *Kaleidoscope*, *Folk Box*, and *Jazz Show*, among others. Keep in mind that the Eastern Orthodox faith celebrates Christmas on January 6<sup>th</sup>, so their Christmas specials won't air until January. Check the "What's New" section of the Voice of Russia webpage for updates.

Meanwhile, **Deutsche Welle** will be airing "looking back" editions on *Marks and Markets* and *Cool*.

**Radio Canada International** promises special programming on December 24<sup>th</sup>, December 25<sup>th</sup>, and January 1<sup>st</sup>, but won't have details until mid-December.

The **BBC World Service** will offer these special features:

Thursdays throughout December, 0230, repeated Fridays, 1530: *Pick of the World* features World Service highlights from the past year. Program editions the last two weeks of December will focus on listener input, so send in your nominations, including approximate dates of original airing, to the program at [pick@bbc.co.uk](mailto:pick@bbc.co.uk) or via fax to +44-20-7557-2531. If faxing, remember to include your international access code (011 in North America) before the number.

Sunday, December 24<sup>th</sup>, 1502: *A Festival of Nine Lessons and Carols* airs live from King's College in Cambridge. The College's famous choir leads the congregation in Christmas carols, and the 90-minute service includes the first performance of a carol by the British composer, Jonathan Dove, written for this broadcast. The program airs live to all regions at this time.

Christmas Day, 1430, repeated Tuesday, 0130: *Music Mix* airs a special *Best Albums of 2000* feature with Kevin Greening looking back at the best popular music albums of the past year.

Tuesday, December 26<sup>th</sup>, 0205: Queen Elizabeth's annual *Christmas Message to the Commonwealth* airs to the Americas. The European streams carry this Christmas Day at 2005; African streams at 1805 on Christmas day, if you can't wait.

Tuesday, December 26<sup>th</sup>, through Saturday, December 30<sup>th</sup>, 0445: *Off The Shelf* presents highlights from five classics during Christmas week: *Dolce Domum* from *Wind*

*in the Willows* on Tuesday; *The Flame Trees of Thika* on Wednesday; *A Tree Grows in Brooklyn* on Thursday; *Natasha's First Ball from War and Peace* on Friday, and *The Christmas Truce* on Saturday.

Wednesday, December 27<sup>th</sup>, 0230, repeated Thursday 1505: *Seeing Stars*, in *Science View*, muses on the possibility that Venus, visible as an evening star in December, was the "Star of Bethlehem" chronicled in the Bible 2000 years ago.

Wednesday, December 27<sup>th</sup>, 0230: *Focus on Faith* features Trevor Barnes and how the traditional images of family gatherings at Christmastide match today's reality. Secrets hidden in Nativity paintings will be explored, as will the hopes of Coptic Christians living in the Egyptian town where the Holy Family sought sanctuary from Herod's wrath. Repeated Thursday to the Americas at 1530.

Thursday, December 28<sup>th</sup>, 0205, repeated Friday 1505: *Sports International* airs a special *Year In Focus* program looking back on the year that was, with special emphasis on the 2000 Olympic Games in Sydney. Mike Costello hosts.

Sunday, December 31<sup>st</sup>, 1330: *In Praise of God* offers a special half-hour service from St. Mary's Church, Warwick, in the English midlands. The highlight is a specially-commissioned drama of the Christmas story seen through the eyes of Mary, presented by Playbox Theatre, the national theater company for young people.

## Radio Netherlands Documentaries

Here are some of the upcoming highlights for **Radio Netherlands' Documentary** program, airing to North America Thursdays 0000 and 0500 UTC, and also Saturdays 0030 UTC.

7th & 9th December: *The Rural Renaissance*—One of the charms of small-town America is supposed to be the sleepy

quality of life... but some small-town residents are waking up to a struggle for survival. Their traditional industries are fading away, while the benefits of a technology-driven society are passing them by. Ann-Marie Michel visits one such town, Tifton, Georgia, that's trying to break the mold. It's a rural pocket of activism where the local government is taking a scientific approach to shaping the town's future.

14th & 16th December: *Lifting the Bamboo Curtain*—Last June, North Korea's Supreme leader Kim Jong-il amazed the world by emerging from the shadows. When he embraced South Korean President Kim Dae-Jung at Pyongyang airport in the first ever North-South summit, the reclusive "Dear Leader" stepped into the limelight to reveal a genial statesman bent on reconciliation with the South. Is reunification a real possibility at last? Jane Murphy looks at the legacy of fear and suspicion and what reunification would mean for the long-suffering Korean people.

21<sup>st</sup> & 23<sup>rd</sup> December: *The History of Toys*—From the earliest stone games to the enormous variety in toy warehouses today, children's playthings have always been a barometer of the times. There were chariot games for Roman children and hobby horses for the mini-jousters of the middle ages. In Germany in the Middle Ages, woodcutters produced toy animals, dolls and dolls' houses, perhaps inspired by old fairytales. Parents in 14th century France worried that jousting on rocking horses would instill violent tendencies in their children. Today we worry that computer games and toy guns will turn the next generation into aggressive criminals. Maggie Ayre examines toys and child's play through the ages.

28th & 30th December: *The Delphic Oracle*—In ancient Greece, Delphi was revered as the geographical center of the earth and a fitting site for the shrine of Pythia, Dragon Priestess of Earth—the highest

religious authority in the world for more than two thousand years. The Delphic Oracle has been silent for 1500 years. David Swatling investigates why her ruined home on Mt. Parnassus still holds a magical attraction for thousands of pilgrims each year, who come in search of spiritual guidance.

## Radio Canada International – Oops!

Last month, I mentioned that **Radio Canada International** was reducing its daily hours to North America; that appears not to be the case, after all, as a new three-hour morning broadcast now airs weekdays from 1300 to 1600 UT. Here's what you can expect:

Weekdays, 1300–1600: The domestically produced CBC series *This Morning*, a current affairs magazine and interview program, airs Mondays through Fridays all three hours. The first hour has long been part of the morning North American shortwave broadcast.

Saturdays, 1300–1400: *The House* looks at the week past in Canadian political affairs, behind the scenes from Parliament Hill in Ottawa, with Jason Moscovitz.

Saturdays, 1400–1600: *Basic Black*: The CBC offers the following description of *Basic Black*: Journalist, author, and humorist Arthur Black drives this two hour adventure, featuring people with unusual occupations, bizarre passions, and arcane obsessions. To cap it all off, Arthur takes a quirky squint at the week's events in a monologue that finishes every show.

Sundays, 1300–1600: *This Morning–Sunday Edition* has historically aired one hour later UT, but is now on at this time.

## Summertime in Australia— Cricket, anyone?

John Figliozzi, our resident Aussie expert, mentions that Radio Australia often offers parallel sports programming this time of the year. Australia–West Indies Test cricket is the fare in December, with the following matches offered:

December 1–5: Second Test–Perth, 0230–0930 UT

December 15–19: Third Test–Adelaide, 0030–0730 UT

December 26–30: Fourth Test–Melbourne, 0000–0700 UT

A different set of frequencies will be used for this service than are used for Radio Australia's normal broadcasts. We in North America will most likely achieve success listening to the Pacific-beamed frequencies of 17580 kHz from 0000 to 0758 UT, with a switch to 11630 kHz from 0800 to 1358 UT.

## BBC World Service—Other Highlights

In addition to the offerings mentioned above, here are a couple other items of interest.

Sundays, 0000: *Play of the Week* highlights include:

December 10<sup>th</sup>, *Ghosts* by Henrik Ibsen—One of the seminal plays of world literature, *Ghosts* by Norwegian writer Henrik Ibsen deeply shocked even the liberal theatre-goers of Europe when it first appeared in 1881. Ibsen said he had to write it after his previous play, *The Doll's House*, to show what might have happened when a woman like Nora doesn't walk out of her life of 'duty'. The play is not just about hereditary illness and the sins of the fathers being visited on their helpless children (in this case hereditary syphilis being passed on to young Oswald), but it is also a condemnation

of the rigid and conventional moral code that society forces people to live by.

December 17<sup>th</sup>, *Joyful and Triumphant* by Robert Lord—Robert Lord—a man who died tragically young—was one of New Zealand's most popular playwrights and *Joyful and Triumphant* was his most frequently performed play. It spans thirty years—each scene set on a different Christmas day in a close-knit New Zealand family. We share their triumphs and their tragedies; we watch teenagers grow into adults, and a new generation come along, destined to cause their own fair share of mayhem and heartbreak.

December 24<sup>th</sup>: *The Lady Vanishes* dramatized by Neville Teller—One of Alfred Hitchcock's most famous early film successes was the 1938 comedy adventure thriller, *The Lady Vanishes*, based on the classic novel of suspense by Ethel Lina White, *The Wheel Spins*. It is the late 1930's and the forthcoming world war casts its shadow across Europe. Iris Carr (Jenny Funnell) is travelling alone on the continent, having visited a remote mid-European country, Zabrovinia, and is returning to England on an express train where she meets a pleasant, garrulous, middle-aged Englishwoman in the railway carriage, Miss Froy. (Renee Asherson).

## In Conclusion

May you and your family have a delightful holiday season, no matter how you celebrate it. Remember to pass along any suggestions for column topics, or specific feedback on programs you like, or don't like, to me at one of the contact points shown above.

See you in 2001!

Richard

## Roll Your Own QSL Cards

### A Step-by-step Guide on How to Create Customized QSL Cards

by: George Maroti

One time proven technique for extracting an elusive verification from a broadcaster is the use of the prepared QSL card. More than ever, due to budget cutbacks, changes in station personnel, and overworked station staff, radio stations have fewer resources available for verifying the reception reports of DXers.

Not being content with using the commercially available plain text prepared cards, I set out to try to design my own graphic QSL cards. I felt these more personalized prepared cards might pique the interest of the station, and thus improve my chances of a reply. At the very least, a prepared card with just a few simple images would certainly look more pleasing in my QSL album.

#### Software

As I have almost no artistic ability, I decided to let my computer do all the work for me. I've found that to design something with text and graphics, most software is strong in one area, but weak in the other. As I wasn't planning on any elaborate designs, I decided to compromise and use the graphics capabilities of the Microsoft Word 97 word processing software.

Essentially, text boxes are used to define various areas of the card. Text boxes act as containers for text or graphics that can be positioned on a page and sized. I use one

text box for the card heading, another for the verification text and reception details, and a couple of boxes are used for "holding" the graphics.

#### Getting Started

The first step will be to draw the outline of your card. I try to size my cards around 4" high by 6" wide. To get started, open a new document, select "View" from the menu bar, and click on "Page Layout". Then, select "Insert" from the menu bar, and click on "Text Box". Your mouse pointer will now look like a crosshair. To draw the text box, left mouse click the starting point of the box, and while holding down the left mouse button, "drag" the box to a size that you find suitable. (Don't worry too much about the size of the box at this point, as you can very accurately resize the box to within a hundredth of an inch later.)

Next, I add two more text boxes within the first text box to define the text area for the card heading, and reception details. Your card should now look something like this:

## Adding Text

Now, you can continue nesting even more text boxes to hold your graphical images, or type in the text of your card. To insert text in the text box, position your cursor inside the box and click. Your cursor will be at the starting point for the text. At this point, you would type as you normally would using a word processor. All of Word 97's formatting tools, such as font size, color and margin justification are available to you. Your card now might look something like this:

<p style="text-align:center"><b>RADIO FLEASPECK</b> <i>KINGDOM of NIBI - NIBI</i></p>
<p>Exhalted Listener,</p> <p>We are pleased as punch to verify your excruciatingly detailed reception report as follows:</p> <p>Date: Time: Frequency:</p>

find most maps at <http://www.britannica.com>. The maps found there require some more manipulation, but more about that later.

As an example, visit AFRTS' website at: <http://www.afrts.osd.mil/>. To grab their logo at the top of the page, simply right mouse click on the image to activate a list of options. Depending on the web browser you are using, click on "Save Picture As" or "Save Image As". Now you will have the option to rename the image and store it on your hard

drive in the directory or folder of your choice.

To place the AFRTS logo on the card, create another text box in the upper left hand corner. Click inside the new text box, then select "Insert" from the pull-down menu. Click on "Picture", then "From File", to insert the image stored on your hard drive.

Locate the directory

where the AFRTS logo was stored, select the file, and click on "Insert" to insert the logo on the card.

To re-size the logo, click on the image to activate the borders and sizing handles of the image. You can now either re-size the image by pulling on one of the corner handles, or by right clicking on the border to activate the picture formatting options. If you elect to use the sizing handles, be aware that in order to maintain the original aspect ratio of the image, you must drag one of the corner handles.

## Adding Graphics

Now we're ready to insert some graphics. In order to make the prepared card look as official as possible, I try to find a station logo on the Internet. I first consult Thorsten Koch's "Internet Guide to International Broadcasters" website: <http://www.hardcore-dx.com/iguide/index.html>. If the station's website doesn't turn up there, I use various search engines to search on the station's name. Although the station may not have a website, sometimes images related to the station can still be found.

In the event I can't locate a station logo, I use an outline map of the country or the country's flag. In politically sensitive situations I use generic radio related graphics like an antenna tower. One of my favorite sites is Flags of the World at: <http://www.skalman.nu/fotw/flags/index.html>. Although I don't know any websites that specialize in outline maps of countries, I can

	<b>RADIO BOUGAINVILLE</b> PAPUA NEW GUINEA	
Dear George Marini:		
Thank you for your reception report. We are pleased to verify your reception of our station transmitting from Buka.		
<b>Q</b>	Date of Reception: 27. 03. 2000	 <b>RADIO BOUGAINVILLE</b> P.O. BOX 55 BUKA HSP
<b>S</b>	Time: 19.45 - 21.00	
<b>L</b>	Frequency: 3.325 MHz	
<b>L</b>	Transmitter Power: 5 kW	
Name: _____		
Copyright 1997		

As Microsoft Word's image editing capabilities are limited, I find it necessary at times to use a specialized graphics program, such as Paint Shop Pro by Jasc, Inc. (<http://www.jasc.com>). With Paint Shop Pro, you can change the size of an image by using their "resample" function. I use their "magic wand" function to delineate the outline of a country from a larger map. This powerful tool looks at differences in RGB value, hue, or brightness, to distinguish the outline of an image. Once the country's outline is extracted from the larger map, I use the "flood fill" function to paint the country a solid color.

## Aesthetics

By default, text boxes are created with internal margins. I like to eliminate the margins as it permits more space for text. To do this, active the "Format Text Box" pop-up as before by right clicking on the text box border. Click on the "Text Box" tab where you will have control over the four margins inside the text box. Set all four margins to 0 inches to eliminate the margins.

All that's now left is some "fine tuning" of the card. For example, your card will look more aesthetically pleasing if you make the

borders of your text boxes invisible. To do this, right click on the text box border to activate the pop-up menu, and select "Format Text Box". Click on the "Colors and Lines" tab, and you will have control over the line thickness and color of your text box. To make a box invisible, select "No Line" under the "Color" portion of the menu. Another thing that I like to do is to add some interest to the card's outside edge. Here, I choose a colored double line from the "Style" portion of the "Format Text Box" options.

If you've followed all these steps, your card could look something like this:

Although this may not be the most eye-catching QSL in your collection, it certainly beats any of the commercially available text only prepared cards.

They say that imitation is the highest form of flattery. Several stations now verify reports with photocopies of my prepared cards. However, most valued by me is a letter from the Bhutan Broadcasting Service in March, 2000, stating that they designed their new QSL card based on my prepared card. After many years of not verifying reception reports, the BBS was finally issuing QSL cards again.

# Equipment Reviews

Alan Johnson • 2490 Sharon Way • Reno, NV 89509 • alanjohnson@gbis.com

## Hardware Bits

**MFJ-616 Speech Intelligibility Enhancer**—MFJ Enterprises has recently announced this new product to help hams with high frequency hearing loss, although it looks like it might be useful for SWLs (even with normal hearing) as well. It is essentially a stereo audio equalizer with turnover points at 300, 600, 1200 and 2400 Hertz, allowing for a 20 dB boost or cut at these frequencies. This permits boosting the audio frequencies where most of the speech intelligibility is contained and reducing the frequencies that are mostly noise. The two channel capability allows the use of a balance control to equalize the loudness of each channel to further improve speech intelligibility. The '616 has switches to choose between two inputs, turn the external speakers on or off and bypass the unit to permit comparison of filtered vs. unfiltered audio. It requires an external power supply of 12 volts DC. The suggested list price is \$169.95 and MFJ recommends the use of their MFJ-281 speakers (\$12.95 each) which are optimized for speech frequencies or their MFJ-392 headphones (\$19.95) with the '616. At the time of writing, there was no information on the MFJ-616 on MFJ's website: [www.mfjenterprises.com](http://www.mfjenterprises.com). MFJ may be contacted at: MFJ Enterprises, Inc., P.O. Box 494, Mississippi State, MS 39762; (662) 323-5869. Hopefully, I will obtain one of these units for review in the near future.

**Alpha Delta Delta-4c Antenna Switch Console**—This is a new antenna switch from Alpha Delta that is configured to sit on a table top next to the radio. It is a heavy cast metal enclosure that is designed not to slide around with use. It measures approximately 6 x 6 x 6 inches. It has sockets for 4 antennas and the cables run straight out of the back

of the unit. It includes a replacable Arc-Plug cartridge for lightning protection. The 4C has SO-239 connectors with a list price of \$139.95 and the 4CN has N connectors for ten dollars more. Although it is expensive, it's nice since it will sit on a shelf or desktop and doesn't slide. See it at: [www.alphadeltacom.com/delta4c.html](http://www.alphadeltacom.com/delta4c.html). Alpha Delta's address is P.O. Box 620, Manchester, KY 40962; (606) 598-2029.

**Industrial Communication Engineers (ICE) Beverage/Long Wire Matching Units**—I recently bought one of these units for use with the 220 feet of wire that I have strung along the top of a fence. There are several models in the 180 series available, either with coverage of 50 kHz to 30 MHz or 1.5 to 30 MHz, with either isolation between the antenna and feedline or with DC continuity to permit control voltages on the antenna for switching. The matching units have taps for antenna impedances of 300, 450, 600 and 800 ohms. I.C.E. also offers terminating loads for beverages and mounting fittings for attaching the units directly to ground rods. I purchased the 180A matching unit and 400MA mounting adapter for \$61.00 from Cable X-perts, Inc. I used a MFJ-259 antenna analyzer and found that the antenna (with a 470 ohm terminating resistor) had a relatively flat SWR around 1.5:1 from 1.5 MHz to 10 MHz. I.C.E. has a website at [www.inducomm.net](http://www.inducomm.net), but Ralph Brandt reports having had problems ordering through that site; I.C.E. told him it's actually owned by a contractor. They can be contacted at: I.C.E., P.O. Box 18495, Indianapolis, IN 46218-0495; (800) 423-2666. They have a series of application pamphlets on their products. Cable X-perts website is: [www.cablexperts.com](http://www.cablexperts.com).

\*BBC 2200-2300 (Unknown contributor, or via Andreas Volk-D ?, Oct 24/BC-DX/Bueschel-GER)

**AZERBAIJAN 9155 Radio Dada Gorgud** (t) W speaking in Turkic lang Nov 19 at 0902, 0904 with Turkic song, 0912 with anthem then man in AR. (Liangas-GRC)

**BHUTAN BBC** seems to have introduced a new morning service on 6035 as of Nov-15, \*0100. Noted Nov-16 s/on open carrier at 0053, beautiful signature tune at 0059; Nov-15 beyond 0900; previous s/on time was 0400 on the weekend, 0630 Mo-Fr. (Alok Dasgupta/EDXP/Padula-AUS) 5030 Radio Bhutan, is again on winter time, 1330\* rather than 1230\* (G. Victor Goonetilleke, Sri Lanka, 4S7VK, UADX, via NU Nov 12 via BC-DX via DXLD/Hausser)

**BOLIVIA 3310 Radio Mosoj Chaski**, Cochabamba: This station is currently running 8 kw, although the transmitter is rated for 10 kw. The studio is in Cochabamba, but the transmitter site is located in Cotapacha, about 20 km away. I couldn't go to the transmitter site, but the station director said that the

antenna is only about 7 meters off the ground. They had a big stack of QSL replies ready to send out and invite reports and inquiries.

4830 **Radio Grigota**, Santa Cruz: The station owner, Daniel Artega, says the station is active running half power (500 watts) due to several bad 4-400c tubes. He says new tubes were ordered from California, but never received. The studio is currently undergoing remodeling and is a real mess, although the MW transmission was on the air when I visited. The transmitter location is about 7 km from the center of Santa Cruz. Unfortunately, my monitoring was unable to pick up the station on SW during my stay there and I question whether it is really currently active. I'll try to get another read on the situation in about 2 weeks.

4855 **Radio Centenario**, Santa Cruz: This station is located in a nice, well equipped building on the edge of town just off the highway toward Cochabamba. The station director reports that it is running 4 kw. (WRTH says 5 kw, Passport says 1 kw) It was audible during my stay in Santa Cruz.

5500 **Radio Luz del Oriente**, Santa Cruz: This station (listed in WRTH) does not appear to exist. The address reported in WRTH is a house and the owner said there was a radio transmitter in the back when he moved in a few years ago, which he would be willing to sell fairly cheap. He had never heard of the station, nor had anyone in the vicinity. Interestingly, the current resident has worked in radio and would appear to be knowledgeable.

5974.2 **Radio Nacional**, Cochabamba: This station (listed in WRTH) has apparently gone bankrupt and will not return to the air.

6015 **Radio El Mundo**, Santa Cruz: This station is owned by the El Mundo newspaper and was not on the air during my stay. A visit to the station yielded the information that the station was temporarily off the air due to equipment problems, and that all of the station personnel were on vacation. The representative said he expected the station to be back on the air in a few weeks. We'll see!

6030/9660 **Radio ABC**, Santa Cruz: This station was recently sold and merged into the Radio Antena 1 group. At the moment it is only transmitting on FM, but there are efforts currently underway to re-initiate SW transmissions, hopefully in December 2000 (next month). The local director was not sure of the frequency(s) to be used, but said that it would be "the same as before". No information on power, etc. was available, but I will check back with them in a few weeks to see if more information can be gleaned. (I also mentioned that if they let us know ahead of time by email, it might be possible to get some reception reports from various areas of the world to check their transmission.)

6095 **Radio Cosmos**, Cochabamba: This station has

been off SW for 4-5 years, according to the MW station manager. The primary business was promotion of music recordings and the SW market does not support the business. There are no plans to return to SW, although the station is active on MW.

6135 **Radio Santa Cruz**, Santa Cruz: This station is on the air and often reported, so nothing new here. (Fair-BOL, Cumbre DX Nov 8 via DXLD/Hauser-OK)

4716.8 **Radio Yura**, 2/11 0020-0110 33333 mx LA romantica.. (0100\*) s/off fv dice: "Llegamos al final de la trasmision, sera hasta las 3 de la tarde donde nuevamente nos esc ucharan, llamenos donde se encuentren, estamos para atenderlo.. que tengan muy buenas noches, para despedirnos vamos a escuchar estas canciones , somos radio Yura que se encuentra en Yura, la provincia de Quijano, Potosi.. f/out 0106" (Chasqui DX/Arrunategui-PRU)

4926.0 **Radio San Miguel**, Riberalta (t), Nov 12 0026-0041 Seemed program previews: "Las Noticias, La Semana-La Semana, Mandolines, Msica de Puerto Rico" - all with fanfare. No definite ID. Bolivians peak here 0000-0030 Nov.-Jan. (Bill Flynn, OR, DXLD/Hauser)

**CENTRAL AFRICAN REPUBLIC Radio Ndeke-Luka** (ex-Radio MINURCA) is back on shortwave for the past three or four weeks. Presumably using the same freqs as before. (David Smith at UN HQ, via Jerry Berg, NU Nov 7/BC-DX/Bueschel-GER) [9900 from 1800-2300, if I recall - AQ]

**CHINA Nei Menggu Radio Station**, Hohhot has this new schedule for B-00:

0020-0550	Mongolian	9750 7210 7270
0020-0550	Chinese	9520 7165 7105
0950-1505	Mongolian	6195 4785 4525
0950-1515	Chinese	6045 4620 4000

2150-0015	Chinese	6045 4620 4000

(Nagoya DXers Circle via Bob Padula-AUS, EDXP Nov 18/BC-DX/Bueschel-GER)

**CLANDESTINE - AFRICA Radio Voice of Hope** 12060 and 15320 via Madagascar to Sudan. Very good signal on both freqs for weekly test transmissions for the NEW Sudanese Council of Churches. Nov 11 start at 0427-0500 with IS, then annt by woman in En as you are listening our program on Radio Voice of Hope broadcasting on 15320 (12060 has not been mentioned) on a 19 meter SW band and mentioning her name as Jane Namadi and ID many times as "Radio Voice of Hope for the voiceless in Southern Sudan". (Mahendra Vaghjee, Mauritius, Nov 11, BC-DX via DXLD/Hauser) As of 4 Nov 2000, the Radio Netherlands Madagascar relay station is carrying weekly test transmissions for the New Sudanese Council of Churches, in collaboration with the Dutch domestic public broadcaster NCRV. The station is called **Voice of Hope (VOH)** and transmits every Saturday at 0427-0525 on 12060 and 15320kHz

beamed 335 degrees to East Africa. Although the programs will be in English and Sudanese Arabic, a quick listen to the audio of the first broadcast suggests that it's entirely in English! (Sennitt/HCDX)

**7000 Voice of Freedom and Renewal** (Eritrea/Sudan), verified by email my report from <infosaf@eol.com.er> after I sent them a sound file of the programming which I heard. Getting the QSL involved a few messages back and forth, as they are only able to handle WAV files.

But watch out when you receive an e-mail from them; an attachment sent to me was infected by a virus and had to be deleted. [!]

Transmitter power said to be 10 kW, QTH undisclosed. Schedule every day from 0330-0430 and 1300-1400, exc on Fri, when they are on the air at 0600-0800. V/s Fathi Al Elaziz, SAF Secretary for Culture and Information - SAF meaning Sudan Alliance Forces. They have not responded to my message informing them about their virus infection. (Mika Makelainen-FIN, hcdx Nov 12/BC-DX/Bueschel-GER)

**Voice of Sudan**, which broadcast on behalf of the National Democratic Alliance (NDA) against Sudan from its base in Asmara, Eritrea, has been closed down.

The closure comes on the heels of Eritrean President Issayas Afewerki recent trip to Khartoum in seek of economic trade, and just one month short of planned legislative and presidential elections in Sudan. The elections are being boycotted by nearly the entire democratic opposition.

The Sudanese Minister of Culture and Information, Dr. Ghazi Salah al-Din, told the Sudanese News Agency earlier today that the Voice of Sudan is now officially off the air in a "positive development" that is the result "of the recent contacts between the two countries..."

Without mentioning the closure of the NDA's radio station, Eritrean ambassador to Sudan Eissa Ahmed Eissa told Agence France Press on yesterday (Oct 30) that "No deal was concluded with the Sudanese government during the last visit by... Afewerki to Khartoum for getting rid of the NDA in exchange for certain economic privileges."

Sudanese Minister of External Relations, Dr. Mustafa Osman Ismail, reported to the Sudan News Agency on Monday, however, that he is "following up the meetings currently being held in Asmara between the Eritrean government and elements of the opposition. "(T)he outcome of these meetings would be more obvious during the coming days," he said, "and in the light of which the next step would be defined."

The outcome is clearly the silencing of The Voice of

Sudan.

Since April 2000, the NDA has been increasingly isolated by other opposition groups and was expelled from the Umma Party coalition for its resistance to negotiate with the regime in Khartoum. Reports also indicate that the United States government, which has provided the group with at least US\$20 million in non-military aid, has recently become reluctant to provide the group with additional funding.

The Voice of Sudan, which hit the airwaves in 1995 and was relatively easy to listen to around the world on short wave, maintained warm relations with its overseas listeners and had a good "QSL" verification policy. Recent efforts since August to reach sources within the NDA, who for years had been friendly to CRW, have been unsuccessful. (Simon Davies in Asmara, Eritrea, contributed to this report./Clandestine Radio Watch/Schoech-GER/Nick Grace C.)

**7120 Voice of the People** (from Madagascar to Zimbabwe), 1700-1755 Male and female announcer talks in English and local, occasional musical breaks. (Barraclough, UK/BDXC-UK/Oct 31/Nov 1, Cumbre DX via DXLD/Hauser)

**CLANDESTINE - ASIA Falun Dafa Radio** in Chinese now is on air via Kostinbrod, Bulgaria site:  
2200-2215 12145 or 12140  
2215-2230 12140 or 12135  
2230-2245 12135 or 12130  
2245-2300 12140 or 12135  
All transmissions heavily jammed. ("Observer" Bulgarian Radio, Ivo Ivanov & Anguel Datzinov-BUL, Nov 13/BC-DX/Bueschel-GER)

5101.12 **Voice of Freedom of Jammu Kashmir**, 1401, Usual English segment/commentary beginning w/intro sounding like "This is V.O. Freedom of Jammu and Kashmir. Dear listeners you will hear program Kashmir Panorama". (31 Oct. Valko, Pele DXpedition, BIHI, hard-core-dx via DXLD/Hauser)

7460U **Voice of Tamil Tigers** (p). Open program at 1450 with flute mx, then followed by a song and nx and commentary on Sri Lanka at 1500. 1515-1527 musical program. Just after that Radio Play and abruptly went off at 1535. No ID has been heard but Sri Lanka and Tamils have been mentioned many times (Mahendra Vaghjee, Mauritius, Nov 9, BC-DX via DXLD/Hauser) The station's reappearance on SW seems to be linked to the new peace initiatives launched two weeks back. Station ID "May Kotihanda Kuwanviduyeh Sinhala Pracharaya!". (Goonetilleke-SRI/Hauser)

**CLANDESTINE - LATIN AMERICA** 6261v, Nov 2 **Voz de la Resistencia - Bloque Oriental** (Colombia), back here again, noted at +2154- with very poor signal. (Yimber Gaviria, Colombia/DXLD/Hauser)

**CLANDESTINE - MIDEAST Radio Iran of Tomorrow** in Persian/Farsi from Oct. 29:

1800-1830 5830  
1830-1900 7120

(Observer, Bulgaria, Nov 1 via DXLD/Hauser)

**Radio Voice of Iran:** 11635 via Moldova \*1630-1700 Oct. 26, Noted at 1624 w/ 900 Hertz tone; jammer appeared at 1628 both a tone & warbler type. S/on with orchestra ballad, with clear ID for 'Radyo Seda-ye Iran' followed with political talks with many references to Iran in Farsi. Noted to past 1700 but signal deteriorated quick after that (E. Kusalik, Alberta, for Clandestine Radio Watch via DXLD/Hauser)

Palestinian clandestine? 6200 'Idaatu Shahia ke Palestina', Ar songs, Ar ID by M with references to USA followed by song/hymn and 2002 with ext reports on Palestine. (Liangas-GRC, Nov 8)

**CONGO-DEMOCRATIC REPUBLIC 6828.4v**, at 0359, open carrier, 0401 sudden talk by man but too weak to even ID. 0402 Afr mx, very similar to that hrd on Zimbabwe and Zambia; transmitter drifting, from 6828.5 ... 6828.38, full AM. One too-weak anmt by man at 0415, faded by 0427. Initially thought R Mogadishu, but now my guess would be **Radio Bukavu**; but this is very tent. (Hans Johnson-Hawaii, Cumbre DX via DXLD, Nov 4/BC-DX/Bueschel-GER)

5066 **Radio Bunia** 1500-1600 Continuous African mx and went off immediately after ID and freq given in Fr my man then by woman in Vn and was still there the next day but nothing as from Nov 16, also no trace of 6828. (Mahendra Vaghjee-MAU, Nov 13/BC-DX/Bueschel-GER)

6713usb **Radio Bukavu** very poor at 1755 with mx and talk in local lang man and woman. Nov 13 and still there when checked again on Nov 16 and 18. (Mahendra Vaghjee-MAU, Nov 13/16&18/BC-DX/Bueschel-GER)

**Radio Candip**, Bunia: Ugandan army Chief of Staff, Major-General Jeje Odongo, said on Tue Nov 7th that Ugandan troops had seized R Candip in Bunia. It had been taken over on Nov 3 by supporters of the 1st VP of the Congolese Rally for Democracy-Liberation Movement (RCD-ML), Mbusa Nyamwisa. The movement has been hit by a leadership dispute, and Nyamwisa's supporters used the station to announce the overthrow of the RCD-ML president, Prof. Ernest Wamba dia Wamba.

The Ugandan army said they would not allow Wamba to be overthrown by force, and intervened on Mon to stop the fighting. "The situation is now calm and quiet. The radio is now back under Ugandan control and is playing music," said Odongo. (RNMN via Mike Terry-UK, BDXC-UK, via NU Nov 12/BC-DX/Bueschel-GER) Observed on usual 5066 and 3390, mx at 1700 Nov 8,

communiqué in Swahili, vernac. from Ugandan army commander. (BBCM, DXLD, NU/BC-DX/Bueschel-GER)

**CUBA 4970h Radio Rebelde** 0350-0532 Cuban music, including Guantanamo @ 0528, announcements in Spanish, ID @ 0531, no commercials; 710 x 7, // 710 (under local WOR), 5025 (Brandi-NJ, November 6/HCDX)

**DOMINICAN REPUBLIC 4960.2 Radio Villa**, Santo Domingo, Nov. 10, 0034-0045, Back on the air. LA music, male announcer in Spanish, jingles. Canned ID at 0042. 34343 (Veldhuis-HOL/HCDX)

**ECUADOR HCJB** now on 9775 (ex-9730) for the Japanese service 1130-1200. (Koji Yamada-JPN, edpx Nov 14/BC-DX/Bueschel-GER) 1300-1500 in Spanish on new 17690 (x17670) (R Bulgaria "Observer" Ivo Ivanov & Anguel Datzinov-BUL, Nov 20/BC-DX/Bueschel-GER)

**FRENCH GUIANA** The situation with Montsinry is still unclear. I have been told that the [SRI only?] transmitter is working since November 2, 2000. In fact the first transmissions took place at that date but the transmitter is not working properly. Since this date they transfer the transmission from Montsinry to Issoudun and vice versa. From 15 to 17 November all transmissions were made in Issoudun again. I shall inform you when MSY comes into operation

definitely. Regards, (Wegmueller, SRI, Nov 20,  
WORLD OF RADIO 1059, DXLD/Hauser)

**GEORGIA** Tbilisi now heard in a new lang. French, instead of the usual Georgian program 0800-0830, followed by En 0830-0900 on 11910 beamed to EUR. Renowned for muddy audio, they seem to have solved the problem at long last. Only trouble is, signal is still weak. Only heard Mon-Fri. Not received here in U.K. at other scheduled times. (Holder-UK, DXLD Oct 24/BC-DX/Bueschel-GER)

Three new states were formed in India very recently by dividing existing ones. They are Chhatisgarh from Madhya Pradesh, Jharkhand from Bihar and Uttaranchal from Uttar Pradesh.

This is making interesting changes to the local broadcasting scene.

**AIR Delhi** is now relaying on SW 6030 **AIR Najibabad** which broadcasts only on MW. This is intended for the new state of Uttaranchal. sked is 0200-0310 and 1215-1430. The identification is as AIR Najibabad and when programs originate from other stations like AIR Lucknow its id is given.

For making way for this new transmission, AIR Nepali Service at 0130-0227 on 6045 was discontinued.

Ranchi which has shortwave transmitter is by the way the new capital of Jharkhand. (Jacob-IND/EDXP/Padula-Aus)

#### INDONESIA

3232.14 **RRI Bukittinggi** (p) reactivated? this day only. 1401 unstable carrier, excited woman announcer with short announcements and plenty of musical bridges. Good signal, hadn't noticed this at 1330. Strongest Indo in 90 mb, but fading fast. (Johnson Nov 22/Cumbre)

3325.0 **RRI Palangkaraya**, 1010 Islamic music and reading of Holy Koran. ID at 1035 then lagu lagu hibran. (Nov 11, 2000, Jembatan DX/Yamada-JPN)

**RRI Biak** returned its frequency from 6157vkHz to 6153kHz after short absence in the end of October. (Jembatan DX/Yamada-JPN)

Again **RRI Tanjungkarang** or **RRI Bandarlampung**? At last I received the answer from RRI station on 3395kHz. Although I wrote address as RRI Bandar Lampung, letterhead and station stamp from the station was printed as "RRI Tanjungkarang". Drs. Soewadji, Kepala Seksi Siaran said in the letter that the station called in the programs its name as "RRI Bandarlampung" instead of "RRI Tanjungkarang" because recently Bandar Lampung became popular name of the capital city in Badar Lampung province. Also he wrote consistently its station name as "RRI Tanjungkarang" in his letter. So I decide to say the official name is RRI Tanjungkarang not RRI Bandar Lampung. The name RRI Bandar Lampung is like nickname. In this publication, I will use the name as RRI Tanjungkarang and I recommend to other DX club and DX bulletins to use "RRI Tanjungkarang" because the official name is still RRI Tanjungkarang. (Jembatan DX/Yamada-JPN)

According to the reply, The shortwave frequency on 3985kHz of **RRI Surabaya** is now inactive. (Jembatan DX/Yamada-JPN)

INDONESIA BANDSCAN, October 24-27. This makes 30 active Indo. frequencies logged in SE Australia. Other rpts indicate that these channels are also active: 7173 RRI Serui, 7231 RRI Fak-Fak, 9540 unid. RRI,9614 RRI Samarinda.

2899.1 **RPD2T Ngada**, 1336, extended Jakarta relay with pro Palestinian b/c.

2960.0 **RPD2T Manggarai**, 1335, Jakarta relay, fairly regular but not daily.

3161.0 **RSPDT2 Halmahera Tengah**, 1334, just about the toughest Indo to log.

3214.9 **RRI Manado**, 1333, Jakarta relay, reactivated about a week into October.

3264.7 **RRI Gorontalo**, 1146, Indopops under static.

3325.0 **RRI Palangkaraya**, 1332, Jakarta relay.

3344.8 **RRI Ternate**, 1331, Jakarta relay.

3355.4 **RRI Jambi**, 1330, very low level; on previous better reception occasions it has been observed //4925.

3395.2 **RRI Bandar Lampung**, 1328, Jakarta relay; semi-regular.

3905.0 **RRI Merauke**, 1324, Jakarta relay.

3960.5 **RRI Palu**, 1323, Jakarta relay.

3976.1 **RRI Pontianak**, 1322, Jakarta relay.

3987.2 presumed **RRI Manokwari**, 1046, low level.

4000.2 **RRI Kendari**, 1321, Jakarta relay.

4003.2 **RRI Padang**, 1320, Jakarta relay.

4606.4 **RRI Serui**, 1319, also 1452\* Oct 19.

4696.6 **R. Komunikasi Informasi Pertanian**, 1855, all night wayang; often runs all night and seemingly to compensate is sometimes off air at what would be the normal times. According to IDXC, this ID has replaced R. Khusus Informasi Pertanian.

4753.2 **RRI Makassar**, 1317, Jakarta relay.

4789.2 **RRI Fak-Fak**, 1339, Jakarta relay.

4925.0 **RRI Jambi**, 1318, Jakarta relay.

6069.8 **RRI Jayapura**, 1133, slow Indo ballads.

6070.8 **RRI Jayapura**, 1305, Jakarta relay.

6153.8 **RRI Biak**, 1128, Indo ballads.

9525.0 **Voice of Indonesia**, 0922, swapped from Japanese to Indonesian a minute late.

9552.3 **RRI Makassar**, 0803\*, earlier s/off these days.

11760.0 **RRI Jakarta**, 1345, Jakarta nx barely audible under BBC.

11785.0 **Voice of Indonesia**, 0922, kroncong mx in Bahasa Malaysia svc; usually on 9525 from \*0900.

Also 1920 when it would normally be on 15150.

11860.0 **RRI Jakarta**, 0001, "Dinamika Indonesia" with current events from the Indonesian provinces.

15125.0 **RRI Jakarta**, 0002, nx rpt from Timor; takes Programa Nasional Satu (1).

15149.9 **Voice of Indonesia**, 1906, FR nx with nice signals; sometimes uses 11785 or 9525. This stn gives the impression of being demoralized and disorganized. There's no doubt that they're under funded. (David Foster via Numero Uno No.1603/Jembatan DX/Yamada-JPN)

IRAN New transmission in English of **Voice of Islamic Republic of Iran**: 1900-1927 "Radio Shalom" on 7175, 7255 both registered as EBRI/NEW (Observer, Bulgaria, Nov 15 via DXLD) Another "Ebri" broadcast is at 0430-0457 on 9830, 11985, per previous schedule. "Ebri" apparently means Jewish rather than Hebrew (Hauser)

IRELAND Updated schedule of **RTE Radio One** in English on short waves:

**JORDAN** New schedule of *Radio Jordan* in English:

1100-1530 11690  
1530-1730 17680  
(Observer, Bulgaria, via DXLD/Hauser)

**KAZAKHSTAN** *Kazak Radio* on

[http://www.radio.kz/radio\\_engl.html](http://www.radio.kz/radio_engl.html) "We are broadcasting in FM 101 and 106.5 MHz, AM 1197, USW 66.78 MHz, at the range of Middle waves 250.83 m, Short waves 25.10 m [that mean 11950/11955 kHz?]. Besides you can listen to us in double line network and three-program line being. The Kazak radio's air sounds in 9 lang: Kazak, Ru, En, Ge, Korean, Uygur, Azerbaidzhan, Tatar and Turkish." (Andreas Iwainsky, Austria, A-DX Nov 11 via BC-DX via DXLD/Hauser) I recall listening to Kazakh Radio in the 70s and 80s during our local early evening on 11950. (Salmaniw-BC, Nov 22, DXLD) Doubt really active, but check (Hauser-OK)

**KIRIBATI** 9810 According to RNZI's Technical Manager Adrian Sainsbury, just home from Kiribati, there are no plans at present to repair the SW transmitter, because the Chief Engineer is currently on long term sick leave. (Barry Hartley-NZL, RNZI via Bryan Clark-NZL, Cumbre Nov 7/BC-DX/Bueschel-GER)

**LAOS** 4662.22v *Houa Phan BS*, 1017-1035, SoEaAsian vcl mx w/W unncr host. What sounded very much like and ID by W at 1159 w/ment of meterband, and usual bells as hrd on 6130. Kind of weak but nice audio and clear. Drifting down. Wonder if this was the stn hrd on 4693.52 earlier?? (Dave Valko-Hawaii DXpedition, Cumbre Oct 29/BC-DX/Bueschel-GER)

**Luang Prabang** now seems to be absent from SW. For many months from around June 2000 until late October I was regularly hearing a strong carrier on 6969.5v which was probably them -- same hours as Luang Prabang previously used but with no discernible audio. Perhaps they've finally decided that there's not a lot of point in burning electricity on a transmitter with no modulation (Davies-VTN/Cumbre DX Nov 16 via DXLD/Hauser)

6130 **Lao National Radio** 1159 Seven "Big Ben" gongs, gentle orchestral music, talk by man in presumed Lao. Very weak, but alone on the channel with CHNX currently silent. Don't remember ever hearing Laos from the East Coast before. (Hill, Nov. 19)

**LITHUANIA Radio Vilnius** foreign sec of Lithuanian Radio, to NAM via Juelich, Germany: 0000-0030 in Lith, 0030-0100 in En on 6120. From 1 Jan 2001, these bcs will be moved to the Sitkunai transmitting center in Lithuania. Starting 20 Nov, regular tests will be made with the new NAM antenna at Sitkunai from around 2300-0100 on 6000, alt 9735 with 100 kW of power. The final frequency will depend on the test results (Bernad Trutenau, Lithuania, 8 Nov, BC-DX via DXLD/Hauser)

**MEXICO** Updates from Mexico. In Mexico, Distrito Federal: SW: XERTA 4800 **Radio Transcontinental de America** is still inactive, since April. XERMX 5985 **Radio Mexico Internacional** was broadcasting with 5 kW, yesterday (October 20, 2000) disconnected its transmitter to test other of its old and inactive frequencies. XERMX 9705 **Radio Mexico Internacional** is broadcasting with 6 kW. XERMX 11770 **Radio Mexico Internacional** began its test transmission, I tuned in it from 1500 to 0500 XEOI 6010, **Radio Mil** has a new e-mail to receive reception reports at: radiomil@nrm.com.mx **RADIO UNAM**, XEUN 860, XEYU 9000 (inactive) and XEUN 96.1, the new "Director General" is Fernando Escalante Sobrino. (Bojorge, via TL, SW Bulletin Nov 5 via Thomas Nilsson, DXLD/Hauser-OK)

**MOROCCO** 7185 **RTM** 0100 Three pips and ID in Arabic; powerful signal. So much for any chance of hearing Burma from \*0030, one of the few exotic early-evening DX targets left on 41M. (Hill, Nov. 4)

**MOZAMBIQUE** 15293.96 **Radio Mocambique** (p), 1300-1346, 5+1 time ticks, 3 note NBC-like chime, very brief anmt by W probably TC, pause, 7 note nx signature, M w/nx in definite Portuguese of course to 1306, mx bridge, into mx w/W hosting. A ton of canned anmnts 1340-1345, more soft mx. I'm amazed this can be audible in Hawaii but not in PA!!! Already a het there at 1023 next day 4 Nov. (3 Nov.) (Dave Valko, Pele DXpedition, BIHI,

hard-core-dx via DXLD/Hauser)

**MYANMAR** 4725 **Radio Myanmar**, 1332-1340, English talk by woman about responsibilities of school headmasters to 1339, program outro in another lang., more talk. Gone at 1352. Tnx Hans who reaffirmed my hit list that this English segment is Fridays only. (3 Nov.) (Dave Valko, Pele DXpedition, BIHI, hard-core-dx via DXLD/Hauser)

**RUSSIA Voice of Tatarstan** (Tatarstan Awazy) for B-00.

0500-0600 15105

0700-0800 15105

0900-1000 11915

All via Samara

Send your RRs to: P.O.Box 134, Kazan, Tatarstan 420136, Russia. For return postage, please include: SASE (for RUS), 1 IRC (for ARM, BLR, TJK, UZB, UKR and EST), 2 IRC or \$1 (for all other countries). Taped reports from outside Russia may be accepted only if sent by registered mail, or if there is a customs label on the envelope. Otherwise, your letter may be returned or thrown away by the customs at this side of the border. (info received from Ildus Ibatullin, the stn's QSL manager, via Dmitri Mezin, Kazan-RUS, Nov 2/BC-DX/Bueschel-GER)

The Russian State Radio Broadcasting Company the *Voice of Russia* will soon be moving on to a qualitatively new level of broadcasting in the short wave meter band. On Nov. 14-15 our Radio Company conducted digital AM-broadcasting tests, using a Russian transmitter and equipment from Thomcast company. The signal beamed by a transmitting center in Dubna, near Moscow, was successfully picked up in Europe. According to the Voice of Russia chairman Armen Oganessian, our listeners in the world will be able to receive our short wave programs as clearly as they do FM programs. (From VoR's Nov. 17 News Report/Hauser/HCDX)

All transmitters relay Radio Rossii.\* alternative frequency 6150\*\* was noted on the mentioned frequency even later 1630- transmitter RV-645 (Arman) on the frequency 9600 is switched off-transmitter RV-1001 (Arman) works on the new frequency 5935 (instead of 5940 kHz)-GTRK "Yugoriya" (Khanty-Mansiysk) also relays GTRK "Region- Tyumen". (RUS-DX/Klepov/EDXP/Padula-AUS)

4955 *Radio Retro*, Nov 19 1756 with Russian songs, 1759-1800 with numerous IDs and jingles of station, then immediately with songs. (Liangas-GRC)

SIERRA LEONE Interesting info in from our friend David Smith at UN HQ: *UN Radio* has started on 6140 SW from here. David advises that he has heard from Duncan Robinson, UN chief of communications in Freetown, that they have commenced SW testing from "the Mammy Yoko compound" on this freq. A Barrett Model 950-HF transceiver is being driven by 600 ohm audio direct from the studio mixer with excellent SW voice quality. They are on the air 24 hrs. a day, with mainly mx at night, programs alternating between English and Kriol. David is putting out a call for reception reports, and will try to convince his counterparts in Sierra Leone that it's a good idea to start printing QSL cards. I will try to get more contact information on this; I am not certain what the mail situation is with Sierra Leone these days. I assume that reports can be sent to David for the time being. (Jerry Berg/NU/EDXP/Padula-AUS)

SINGAPORE *Radio Singapore International* in English 9600 (x9590), at best before 1400. (Uwe Volk-D, Nov 14/BC-DX/Bueschel-GER)

SLOVAKIA *Radio Slovakia International*

**SOMALIA** 6847 *Radio Mogadishu VOP*. Recently was on 6828 on the same channel with Radio Bunia (Congo-Kinshasa) poor at 1510 with recital of Koran. (Mahendra Vaghjee-MAU, Nov 13/BC-DX/Bueschel-GER)

6985 *Radio Gaalkacyo*. Thanks Sam Voron tip. (presumed) 1555 flute sounding interval signal. 1557 dead air, then music. Got better at 1635 when English was heard. Sounded like someone from an NGO speaking but will have to review tape. Same IS at 1658 and off so no English at 1700. Strength varies, sometimes just a het, Oct 30 was the best. Full AM signal (Hans Johnson, HI, Oct 29-Nov 2, Cumbre DX via DXLD/Hauser)

7019.9 *Radio Banaadir* (t) Thanks Sam Voron. Sam wasn't able to hear their evening program, but I believe that they have one during the 1600-1700 hours. 1635 with what sounded like talk in Somali, full AM signal. Sporadic jamming going after Voice of Mojahed. Best audio Oct 31, often just a het fading in shortly after 1600. Heard as late as 1756 with what sounded like Somali music. (Hans Johnson, HI, Oct 31-Nov 2, Cumbre DX via DXLD/Hauser)

7530 *Radio Hargeisa* just a carrier at 0400 and 1500, but by 1630 they have usually faded in. USB+carrier Somali music, 1700 same fanfare before the news that I have previously noted. Fading around this time, not sure of exact sign off (Hans Johnson, HI, Oct 29-Nov 2, Cumbre DX via DXLD/Hauser)

*Voice of the People*, reported to use the 11 MHz range and the other Radio Mogadishu have been untraced (Hans Johnson, HI, Oct 29-Nov 2, Cumbre DX via DXLD/Hauser)

**WBCQ2** has just been authorized a new daytime frequency which will begin testing in a couple of weeks: 17495. Hope to sell time to one particular network (Allan Weiner, AW Worldwide, WBCQ Oct 28 via gh, DXLD) Just got authorised to use 17495 daytime 8am-5pm eastern [1300-2200 UT]. Will begin tune up and testing in a couple of weeks. As soon as a client is found we will begin programming during the days. WBCQ-2 Moves to 9335 on Oct 29. (Allan H. Weiner, Oct 27, From WBCQ Central, DX Listening Digest/Hauser)

**WMLK** station manager Gary McAvin tells Cumbre

DX that they have purchased a 250 kW from SwissCom [I assume that this is an old Swiss Radio International unit-Ed.] The transmitter has already arrived in the USA, but WMLK doesn't plan to have it on until March or April 2001. Among other things, they need upgrade the amount of power being delivered to the transmitter site (via Hans Johnson, Oct 25, Cumbre DX Special via DX Listening Digest/Hauser-OK)

Radio station **WGTG** is under new management. New call letters **WWFV** (=World Wide Freedoms Voice). Paid airtime is open to all at \$ 25.00 per hour; new web page : <http://www.wwfv.org/> <http://www.wwfv.net> (still under construction) see the former wgtg web page for details <http://www.wgtg.com> or <http://www.wgtg.org> David Frantz will be staying on with WWFV for the time being during the transition to the new management / owners call WWFV for airtime 1-706-492-5944 (rec.radio.shortwave via Mike Terry, BDXC-UK via DXLD/Hauser)

**VIETNAM** Some interesting notes of locals in Hanoi. Of the domestic national channels, the local shortwave freqs in Hanoi for the 1st progr are 5975 and 9530, for the 2nd program 5925 and 9875 (9875 operates daytime only). 6020 and 7210 seem to be coming from

a distant site, probably in the South of the country. (Alan Davies in Hanoi-VTN, Nov 7 via Olle Alm-SWE/BC-DX/Bueschel-GER)

v7156.88 *Ha Giang BS* (t), 1046, Het here (for at least the last half hour), no audio and too much 7145 splatter QRM. This was hrd daily but could never get any audio because of the QRM. Probably unmodulated too.

v6381.34 *Lai Chau BS*, signs on at 1200.

v9930.80 *Voice of Vietnam*, 1400-1420, found this here while KWHR off the air either intentionally or unintentionally (according to stn engineer Sheldon Remington in a recent visit, they do take the transmitters off air during thunderstorms) due to the flooding rains, thunderstorms and power outages at the time. VTN identified by Hans Johnson. (Dave Valko-Hawaii DXpedition, Cumbre Oct 29/Nov 2) [That's a VTN JAMMING station outlet against RFA Vietnamese - Bueschel/BC-DX/Bueschel-GER]

Current frequencies for the regionals on shortwave:

Son La 4976v  
Lao Cai 5597v & 6698v  
Lai Chau 6381v  
Cao Bang 6501v  
Ha Giang 7156v

This week I paid a visit to Lao Cai, about 350 km NW of Hanoi. It lies on the Red River and faces the Chinese town of Hekou in Yunnan Province which is reached by a short railway bridge. Lao Cai is not the most charming of places, perhaps because it was largely demolished during the Chinese invasion of Vietnam in 1979. Most of the new buildings were obviously thrown together in a hurry. Now that relations have improved, quite a few day-trippers cross the border from China in search of cheap shopping (mostly vegetables, actually) and the experience of a foreign country. There are even a couple of duty free shops, but they didn't exactly seem to be doing a roaring trade when I poked my nose through the door.

The local *Voice of Vietnam* station operates 0300-0430, 0945-1100 and 1145-1400 on 1098, 4497v and 6698v kHz. There's probably also an early morning transmission at around 2200-2300, but I'm afraid I wasn't awake in time to hear it. The mediumwave transmitter site is on the western edge of town inside a walled compound marked 'Restricted area - no trespassing' in both Vietnamese and English - maybe they are aware of the risk of being encroached upon by visiting shortwave listeners?! The shortwave signals may also be coming from the same site, there appear to be two 'birdcage'-type antennas slung end-to-end between three low masts, but this array is hard to see as it is largely overgrown by trees. All three frequencies are rather intermittent, and it's not uncommon for one or

two to be off air at any time. In particular, 6698v often seems to 'die' a couple of minutes after coming on air.

I'm not sure whether the studios are located at this site, it didn't look much my idea of a studio centre with a few rather primitive-looking brick huts scattered around the compound. Also there is no sign on the compound mentioning *Voice of Vietnam*.

The audio from Lao Cai is very variable, some periods are reasonably good but at other times it is very clipped and distorted. This seems to be a studio problem, as the audio is basically the same at any given time on all three frequencies and also on the FM frequency 95.2 MHz which carries a short segment of local programming from 1000 (at other times FM relays the first program of *Voice of Vietnam* from Hanoi). The audio problems seem to be worst on some sections of prerecorded programming, including the sign-on music and ID, so maybe there is a problem with a tape deck.

Both shortwave frequencies are variable. 5597v varies around 5595-5598. On 10 Nov, the other transmitter jumped from previous 6684v to 6698v, where it has consistently been heard since. The carriers of both SW transmitters are a little unstable, especially as the transmitters warm up just after sign on. With the BFO on your receiver turned on, you can hear the whistle changing frequency as the transmitters drift around slightly.

On the way back to Hanoi, I broke the train journey with a day in Yen Bai, also a regional station formerly heard on shortwave. However, Yen Bai is now on FM only, with two frequencies (92.1 and 98.0 MHz) which carry separate local programming at times. Also there is no trace of the MW transmitter at Yen Bai listed on 580 kHz. I think it is over a year now since I heard Yen Bai on shortwave, so I'm not too optimistic that they will ever return...  
(Davies-VTN/EDXP/Padula-AUS)

*Voice of Vietnam* via Sackville-CAN is now shown:

0100-0130	English	9525
0130-0230	Vietnamese	9525

# Pirate Radio Report

Chris Lobdell • P.O. Box 146 • Stoneham, MA 02180-0146 • clobdell@mediaone.net

Hi and welcome to the December edition of the **Pirate Radio Report**. Before I forget...*Merry Christmas* and *Happy New Year* to all of you. Hope you get that new receiver from Santa Claus!

## Pirating With Cumbre

Don't forget to check out my weekly segment on the *DXing With Cumbre* radio show. The current schedule can be found at: [www.cumbredx.org/cdxsk.html](http://www.cumbredx.org/cdxsk.html)

## Europirate Info

Last month I mentioned that it was time for DXers along the East Coast of North America who had a quiet location with a good antenna to try for Europirates, especially early Sunday mornings between 0500-0700 UTC in the 48 meter pirate band between 6200-6400 kHz.

Hans-Joachim Koch of Germany forwards some information on a few Europirates that may be of some use:

**Radio East Coast Holland** is active in the 6270-6295 kHz range. Try for them between 0400-0700 UTC. Their phone#: 0031625426740. Check their web site for current info: [www.listen.to/eastcoastholland](http://www.listen.to/eastcoastholland)

**Radio Alfa Lima International**, another Dutch pirate continues to be active on either 6295 or 6305 kHz with relays of other stations. Their email address is: [alinter@rendo.dekooi.nl](mailto:alinter@rendo.dekooi.nl). You can write to them at Box 663, 7900AR Hoogeveen, Holland. Their phone hotline is +31619508938

High frequency tests from German pirates **Linda Radio** daily at 1400 UTC on 26015 with 10 watts, **Radio East Side** on 25650 kHz USB with 100 watts. New address is: c/o SRS/Deutschland, Postfach 1136, D-06201 Merseburg, Germany.

Good luck. If you hear any, be sure to send those logs into the *Pirate Radio Report*.

## Loggings...

Many thanks to the following who sent in logs this month: Ralph Brandi-NJ, Ross Comeau-

MA, Marlin Field-MI and George Zeller-OH.

**Fight For Free Radio**, The anti-Pat Murphy pirate was logged immediately after Radio Azteca left the air at 2342 UTC on November 18<sup>th</sup> on 6950 USB. Announcer complained that Free Radio Network moderator Pat Murphy was censoring the info left there. Played C&W tune at sign on "Let Freedom Ring". [Zeller-OH/Lobdell-MA]

**KIPM** was logged on October 28<sup>th</sup> at 0150 UTC to 0240 sign off on 6955 USB. Theme song from the Outer Limits TV Show. Elaborate and complex sketches that were loosely coherent but entertaining. Several mentions of a new address of Box 69, Elkarn, Nebraska 68022. Also heard with a different program on October 29<sup>th</sup> at 0259 UTC. [Zeller-OH]

**Radio Azteca**, the station that Bram Stoker built was heard on 6950 kHz USB on November 18<sup>th</sup> at 2311-2342 UTC with Program #38. The usual assortment of DX humor including Top Ten new clandestine stations and Bram's Bloopers. [Zeller-OH/Lobdell-MA]

Europirate **Radio Alfa Lima International** logged on 6293 kHz AM mode at 0113 UTC with disco/techno music on November 12<sup>th</sup>. [Comeau-MA on DXpedition in Maine]

**Radio Free Oz/The Voice Of Oz** was noted on October 29<sup>th</sup> at 2315 to 0002 sign off. Reception was poor but improved at the end. This must have been an old tape as they were announcing the old Wellsville, NY maildrop. Long live Howard E. Lyon! [Field-MI]

**Radio Neptune**, a new one, was heard at 2319 to 2347 sign off on 6950 kHz USB on November 19<sup>th</sup>. Program of rock music and station IDs as "Radio Neptune Universal Service". Reception reports to Box 109, Blue Ridge Summit, PA 17214.

**WMFQ** was logged on November 7<sup>th</sup> at 0136 UTC on 6945.1 USB with a chopped up Phil Collins song "No Reply" giving the Providence, RI [Box 28413, Zip: 02908]. Full Station ID, James Brownyard imitation, etc. [Brandi-NJ]

Until next month, Happy Pirate DX!

July 17, 2000

George L. Giotzberg  
 5 Herrada Court  
 Santa Fe, NM 87505-8791

Dear George,

This letter serves as confirmation of your February 6, 2000, reception of Armed Forces Radio and Television. The signal originates from Naval Computer and Telecommunications Area Master Station, Key West, Florida at 12689.5 kHz and Naval Computer and Telecommunications Station, Puerto Rico at 6458.5 kHz.

Naval Computer and Telecommunications Area Master Station, Key West, Florida broadcasts with a 48 foot inverted cone antenna from Boca Chica, Florida with 8 kilowatts of power. Naval Computer and Telecommunications Station, Puerto Rico broadcasts with a ground-based, omnidirectional wire antenna with a 30 foot diameter. The signal is broadcast at 10 kilowatts from Isabela, Puerto Rico.

AFRTS shortwave radio transmissions have historically existed to provide AFRTS radio service to U.S. Navy vessels and outlying military posts receiving limited American radio or television through other means. The signals will be in existence for a limited time until a new technology, which is currently being tested, allows for reception of AFRTS via satellite.

We are pleased that you have received the AFRTS shortwave signal and thank you for your interest and confirmation of the signal's quality, and I apologize for the delay in my response.

Sincerely,  
  
 Michael Fouch  
 Broadcast Operations Specialist

From: "Larry Holtz" <lholtz@entercom.com>  
To: <rdangelo3@aol.com>

Dear Mr. D'Angelo:

This message is sent to verify your reception of KPM556, Portland, Oregon. As you know, KPM556 is an auxiliary broadcast station associated with KGO (FM), Portland. I really appreciate your report, and I am surprised that you were able to hear the station in Pennsylvania. At this time we are not sending written QSL cards or responses to reception reports because our staff is busy building new radio studios. We are planning to install a better transmitting antenna for this station in about eight weeks. I would really appreciate any additional reports from you.  
Thanks.

Apreciado amigo:

Reciba sinceros saludos de parte de los trabajadores de Radio Santa Cruz. Nos llena de alegría saber que tenemos un amigo en ese hermoso país.

Le confirmamos que la programación escuchada por usted el día 16 de Agosto del presente año, de hrs. 19:53 a 20:09 hora local boliviana. ES CORRECTA.

Gracias por ser nuestro oyente, aunque nuestra programación no es dedicada a los oyentes extranjeros, bienvenido a nuestra sintonía y programación de radio Santa Cruz.

Le cuento un poquito sobre la Radio y nuestra ciudad: El aniversario de Radio Santa Cruz es el 25 de Octubre. Tenemos con un transmisor de 10 Kws. de potencia, aunque ahora está funcionando con 7 Kws. nuestra antena es Dipolo Cerrado

Santa Cruz tiene una población aproximadamente de 1.5 millones de ha. es uno de los principales departamentos de Bolivia. Cuenta con 15 provincias. Casi todo el año el clima es agradable. Generalmente tiene una temperatura entre 25 a 30° sobre cero.

Casi todo el departamento de Santa Cruz es planicie, con inmensos llanos tropicales. En la provincia Florida, tenemos el "FUERTE" famosas Ruinas Arqueológicas, ubicadas en el valle de Samaipata. A 15 Km. de la ciudad tenemos unas majestuosas "Lomas de Arenas" bordeando varias lagunas de aguas cristalinas y además muchos otros lugares turísticos.

Reiterándole nuestra amistad y en espera de que nos siga sintonizando, me despido de usted con la esperanza de que visite ésta su casa radial.

Cordialmente,

*Francisco Flores S.I.*

# Net Notes

Tom Sundstrom • P.O. Box 2275 • Vincentown, NJ 08088-2275 • Fax: 609-859-3226 • trs@trsc.com  
http://www.trsc.com

Welcome to the last column for 2000. We are about to embark on the politically correct start of the new Millennium. (As we discussed last year; there was no year 0). As you celebrate the holiday season give thanks for your blessings and be safe.

**Internet Relay Chat SWL chat channel.** You may recall that for the past few years we've occasionally mentioned #swl that usually has some activity on it day and night. Not unsurprisingly it is most active during evenings and on weekends with the likes of regulars Charles Alexander, Ralph Brandi, Pete Costello, Dan Ferguson, Bob Montgomery, Kevin Murr, Jay Novello, David Ross, as well as a number of persons from Europe. (Apologies for any omissions.) After multiple Efnets failings this past summer and fall, the group is on StarChat ([www.starchat.net](http://www.starchat.net)) and the improved network performance is significant. Come join us. Why, you ask? Alerts to good conditions from Mark Veldhuis and others in Europe cause receivers to be turned on as sunset approaches the east coast. The parallel DXing sessions are quite interesting when multiple sets of ears are listening to Nepal or Indonesia or an African, digging out an ID. You can listen to our latest catches on our Audio Bytes page. On our home page ([www.trsc.com](http://www.trsc.com)), click on the N1DK button to get to help pages on how to configure the Windows' IRC program mIRC, and click on the mIRC button to get the latest version of the program (the button automatically updates itself when a new version is posted).

**WebBrain** is an interesting new search engine that enables both browsing and search-

ing. It is new to the Web. We entered the word "shortwave". The top half of the window shows graphical links of categories and sub-categories that can be navigated in a browse mode. The bottom half of the window shows the results in a conventional form. We haven't completely explored this site yet but apparently there is a way to configure the site to make it "think the way you do." We shall see. Test the logic at [www.webbrain.com](http://www.webbrain.com).

**Via Hard Core DX.** From Jose Jacob of the National Institute of Amateur Radio in India:

*"India 3 new states were formed in India very recently by dividing existing ones. They are Chhatisgarh from Madhya Pradesh, Jharkhand from Bihar and Uttaranchal from Uttar Pradesh.*

*"This is making interesting changes to the local broadcasting scene.*

*"AIR Delhi is now relaying on SW 6030 AIR Najibabad which broadcasts only on MW. This is intended for the new state of Uttaranchal. sked is 0200-0310 and 1215-1430. The identification is as AIR Najibabad and when programs originate from other stations like AIR Lucknow its id is given.*

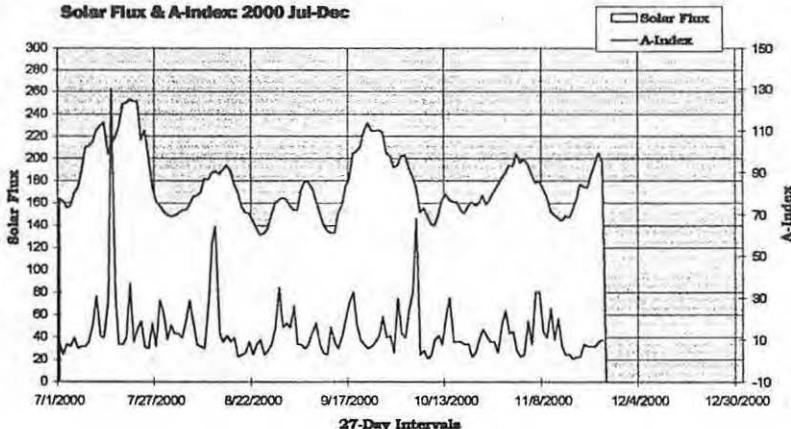

*"For making way for this new transmission, AIR Nepali Service at 0130-0227 on 6045 was discontinued.*

*"Ranchi which has SW Tx is by the way the new capital of Jharkhand."*

**Changes at trsc.com.** Check out our Web pages for a host of updates and tweaks in recent months.

The <http://> is implied in the URLs listed

## DEADLINE FOR CONTRIBUTIONS IS THE 10th OF THE MONTH

The following members sent in contributions:

Brian ALEXANDER, Mechanicsburg, PA	NRD-545 AOR AR-7030 100' LW
Ralph BRANDI, Tinton Falls, NJ	AOR AR-7030, R8, 250' longwire
Paul BROUILLETTE, Geneva, IL	Drake R8, ICF2010, 60' long wire
Peter COSTELLO, Matawan, NJ	AR3030 DX-390 YB400 70' LW Tun-4A
Rich D'ANGELO, Wyomissing, PA	Drake R8B, Lowe HF-150, DX Sloper
John DAVIS, Johnstown, OH	4-R390A, 3-R391, R392
Guy DUNN, Clifton, NJ	DX-398, 23' long, 19' high
Walt FAIR, Maracaibo, VENEZUELA	Sangean ATS-909 Realistic ant. and LW
Bob HILL, Littleton, MA	Sony 2010 120' dipole at 35'
Harold LEVISON, Phila, PA	Drake R8
Jerry LINEBACK, Scranton, KS	Icom 746 beverage antennas
George MAROTI, Mt. Kisco, NY	R8B, 2010, 30/45 m. dipoles
David M MARTIN, MD, Atlanta, GA	RX-320, Eavesdropper trap dipole
Jim MOATS, Ravenna, OH	no equipment listed
Bob MONTGOMERY, Levittown, PA	NRD-535D, R390A, RX320, SE3, T2FD, active ant.
Ed NEWBURY, Kimball, NE	WJ-1000, R8, 60' sloper, 20' loop
David ROSS, Hamilton, ONT	Drake R8, Icom IC75, 50' inverted "L" antenna
Dave VALKO, DXpedition, HI	NRD-535D, two 200' beverages
Fred WILLSHAW, Charlotte, NC	Drake R8B & EMF indoor antenna
Gerald WITHAM, Keauu, HI	no equipment listed

Not sure where the year went but another is on the way. Hope you and yours have a very nice Holiday season. We could use a few new contributors. Seems the numbers are dropping off for some reason.

Till next year, 73

Bob Montgomery

Thank you to all contributors. Special thank you to Rich and Bob for your patience regarding my email situation. I won't let that happen again. Contributions from 5 whole states but yet some real good loggings. We also had Venezuela, thanks to Walt. Hope everyone in the US and Canada had good Thanksgiving Days. Merry Christmas and Happy Hanukkah.

Note that Guam was heard on 5765, probably the first time I've had that country in the loggings in the 12 years I've been doing this column. 

## FRENDX: Twenty Five Years Ago....

In Jerry Lineback's Shortwave Center column, Ken Smith writes about the Handicapped Aid Program, Roger Legge discusses the accuracy of verifying USSR transmitter sites, and Kim Andrew Elliott writes about preparing for the 1979 World Administrative Radio Conference. Elliott, as a member of the Frequency Recommendation Committee, represented ANARC while Larry Magne represented NASWA at the FCC Working Group meeting in Washington, DC. A special feature by Adrian Peterson talked about Voice of America relay stations. QSL editor Bill Oliver reports contributions from 52 members reporting on 105 countries.

**For sale: MFJ-956 antenna tuner in excellent condition. Price \$12.00 including shipping. Bumper stickers, 10" by 3 1/4", red on white saying "Dxers do it with such frequency it HERTZ!". Decorate vehicles, shack, etc. Price \$1.33 each postpaid. Jerry Klinck, 11943 Big Tree Road, East Aurora, NY 14052.**

**Subject:** WOR sked as of Nov 24  
WORLD OF RADIO SHORTWAVE-ONLY SCHEDULE AS OF NOVEMBER 24, 2000

NOTE: RFPI's new frequencies 7480 and 15065 given last month were still pending, and there may be also time changes, so RFPI info is omitted from this listing. Check our website below for latest info. Days and times here are strictly UT.

Thu 0030 WOR WBCQ1 7415  
Thu 2130 WOR WWCR 9475 [Dec thru Feb]  
Fri 1030 WOR WWCR 7435  
Sat 0130 WOR WWCR 3215  
Sat 1230 WOR WWCR 15685  
Sun 0030 WOR WBCQ2 9335-CUSB [NEW]  
Sun 0330 WOR WWCR 5070  
Sun 0728 WOR WWCR 5070  
Sun 1930 WOR WWCR 15685  
Sun 2000 WOR WWCR 12160 [NEW]  
Mon 0100 WOR WWCR 3215  
Mon 0601 WOR WWCR 3210  
Tue 1200 WOR WWCR 15685

For latest update of this version, including new RFPI info:  
<http://www.angelfire.com/ok/worldofradio/wormassw.html>

Summaries of each edition of WOR and COM, topic by topic in order, including URLs mentioned and some that were not, are also posted on the WOR site:

<http://www.angelfire.com/ok/worldofradio/wormid.html>  
<http://www.angelfire.com/ok/worldofradio/Commid.html>

WOR RealMedia audio at 32.1 kbps, 7 MB file is now available soon after production, normally early UT Thursdays, at our website. Click on download or stream links near the top.

<http://www.angelfire.com/ok/worldofradio/> or backup site:  
<http://www.angelfire.com/nm/wor/>

Same high-quality file is available by Saturday from WRN in mp3 format via <http://www.wrn.org/ondemand/worldofradio.html>  
Even if you don't see a link for the latest edition, put appropriate Saturday date into browser, such as:  
[ftp://ftp.wrn.org/archive/gh/gh\\_dec0900.mp3](ftp://ftp.wrn.org/archive/gh/gh_dec0900.mp3)  
This is in addition to lower quality RM format archive, going back three months at WRN.

CONTINENT OF MEDIA on demand:  
<http://www.DXing.com/conmedia.htm>

DX LISTENING DIGEST, e-bulletin issued several times a week, may be accessed at  
<http://www.angelfire.com/ok/worldofradio/Dxldmid.html>

# 14th Annual Winter SWL Fest

Sponsored by **NASWA**

March 9-10, 2001

Best Western—The Inn at Towamencin  
(formerly Holiday Inn),

Sumneytown Pike, Kulpsville, Penna.

Plan to attend your favorite forums Friday and Saturday. Enjoy meeting with your friends in the Hospitality Room. Bring radio related items for the swap meet or to donate for the Silent Auction. Check out your friends' receivers, bring one of your own for others to try!

No frills; just shortwave, longwave, mediumwave, pirates, and scanning. Once again you will enjoy the camaraderie of your hobby friends.

The new year brings a few changes to the 'Fest. First is that the name of the hotel has changed. The location and staff are still the same, however, and so, presumably, is the excellent service we get every year. Second, lunch on Saturday has been upgraded to a pizza & salad buffet. Third, there is now an incentive for you to pre-register, as prices are more expensive for those who wait. Registration options are also more flexible, with new one-day and student registrations.

## Early Registration (rec'd by March 2, 2001)

Full registration: **\$43**

Two-day Partial (no meals): **\$17**

One-day Partial (no meals): **\$9**

Full spouse/son/daughter: **\$28**

Banquet only spouse/son/daughter: **\$16**

Student (w/ valid ID, no meals): **\$5**

Many things, like the raffle, remain the same:

**GRAND PRIZE** To be announced

**SPECIAL** Register early to win a SW portable! One free entry for an early-bird registration received by February 12, 2001.

Please bring items for the Silent Auction. Proceeds are donated to charity.

Checks should be made payable to WINTER SWL FEST. Register directly with the hotel for your rooms by calling the Holiday Inn at (215) 368-3800. For 2001, one special rate **\$75** single or double! Tell the hotel staff you're with the WINTER SWL FEST to receive this special room rate. *You must make your reservation directly with the hotel to receive this rate; reservations via the Best Western 800 number or web site are not eligible for this rate.* Up to the minute info. can be found on the Winter SWL Fest Web Page at <http://www.trsc.com/winterfest.html> or from <http://www.anarc.org/naswa/>.

The Best Western—The Inn at Towamencin is located at Exit 31 of the PA Turnpike Northeast Extension-Lansdale Interchange. Improved access from the south with the Blue Route (I-476)—ask for details. Limo service is available from Phila. Intl Airport directly to the hotel.

Please submit the following form with your registration amount or send for more information to:
