Quality Equipment From Universal Radio

PASSPORT TO WORLD BAND RADIO 2003 Edition

By Larry Magne. A **must have** book for every worldband listener. Here is everything you need to know about when and where to hear the world; hour by hour, country by country and frequency by frequency. Also includes candid, hard hitting reviews on worldband radios including portables and tabletop models. An expanded station address section is also featured. **Passport** is the world's number one selling shortwave guide. An indispensable reference with 592 pages!

Brand new 2003 Edition

Order #1000 \$49.95 \$15.90

Save over \$4!

ICOM R75

The ICOM R75 may be the best value today in a communications receiver. Some innovative features of the R75 include: Synchronous AM Detection, FM Mode Detection, Twin Passband Tuning, Two Level Preamp, 99 Alphanumeric Memories, Noise Blanker, Selectable AGC (FAST/SLOW/OFF), Clock-Timer, Squelch, Lock, Attenuator and backlit LCD display. Record output and record activation jacks are on the back panel.

FREE BONUS OFFER

FREE with your new ICOM R75A
 ♦ UT-105 DSP Option with Auto Notch, and Noise Reduction. A \$139.95 value.

Order #0175 \$599.95

SANGEAN AT5-909

FREE BONUS OFFER

FREE with your AT5-909
 ♦ Sangean SR-25V a \$24.95 value.

Universal will include a FREE Sangean SR-25V AM/FM/TV audio portable radio. This amazing pocket size radio, with built in speaker is a \$24.95 value! Requires two AA cells not supplied.

The AT5-909 is the flagship of the Sangean line and provides top performance in a compact and stylish package. Coverage includes all long wave, AM and shortwave frequencies. FM stereo to the headphone jack is also featured. Shortwave performance is enhanced with a wide-narrow bandwidth switch and excellent single side band performance. Five tuning methods are featured: direct keypad entry, auto scan, manual up-down tuning, memory recall or manual knob tuning. The alphanumeric memory system lets you store 307 presets. The 3-event clock-timer displays even when the radio is tuning and has 42 world city zones stored. The large LCD display also features a signal strength and battery bar graph. Other features include: Record Out Jack and Tone Control. 8 1/2" x 5 1/2" x 1 1/2". 2 Lbs. Requires four AA cells (not supplied). Your AT5-909 includes: an AC adapter, carry case, ANT-60 roll-up antenna and a wave guide. All Sangean worldband radios have a one year limited warranty. List \$399.95 Order #1909 Sale \$239.95

SANGEAN AT5-606AP

The Sangean AT5-606AP covers 153 - 29995 kHz plus FM stereo. It has digital readout, 1 kHz SW tuning, 54 memories & keypad entry. With Auto Tune Scan all memories are preset in order of station signal strength on FM, AM and long wave. A dual digital clock-timer alarm shows local and UTC. With dial light, DX and lock switch. Although this radio does not do single side band, it is an excellent choice for shortwave broadcast listening. Requires three AA cells. With: case, earbuds and multilingual owner's manual. This enhanced "AP" version also includes the Sangean ANT-60 wind-up antenna and multi-voltage 110-230 VAC adapter. A very compact 5 1/2" x 3 1/2" x 1 1/2" 1 Lb. (146x90x32 mm 450 g). Regularly \$119.95.

List \$269.00 Order #3319 Sale \$99.99

TEN-TEC RX-350

The Ten-Tec RX-350 provides cleaner signal readability, more bandwidths, spectrum sweep and a host of professional features all at a non-professional price! Eliminate heterodynes, limit spurious broadband noise instantly and choose from a wide array of 34 DSP filter choices to suppress undesired adjacent interference. IF-DSP also allows Flash ROM updating of your receiver with the latest features and functions right from the Ten-Tec website for free! The RX-350 features a large multi-function LCD graphics panel for display of all receiver functions. Momentary Sweep function shows band activity in 8 selectable color ranges. Find the signals without even being on frequency! With 1024 alphanumeric memories. Visit our website for the full story. Order #0350 \$1499.00 \$1099.00 after rebate.

\$100 REBATE OFFER

Ten-Tec is offering a \$100 rebate on the purchase of RX-350 valid to 12/15/02. Please allow 6 weeks for rebate check.

GRUNDIG YB-400PE

The critics love the YB-400 Professional Edition! **Passport to World Band Radio** says the YB-400PE is "... the best compact shortwave portable we have tested."

Coverage is complete including all long wave, AM and shortwave frequencies. FM stereo is provided to the headphone jack. A thumb wheel knob on the side of the radio provides smooth single sideband (SSB) tuning. The illuminated digital display provides tuning resolution at 1 or 5 kHz on shortwave. Two bandwidths are featured. The narrow position affords maximum selectivity, or the wide position may be chosen for best audio fidelity. Other refinements include: keypad entry, scan search, 40 memories, dual digital clock, snooze and sleep buttons, lock, HI/LOW tone switch, LOCAL/DX switch, and 9/10 kHz MW step. External jacks are provided to earphone, antenna and 9 VDC input. The YB-400PE comes with: AC adapter, stereo ear buds, wind-up antenna, Manual and vinyl carry case. Requires six AA cells (not supplied). Titanium colored finish. 8"Wx5"Hx1.5"D. 1 Lb. 5 oz. Free stand and other offers in this ad expire 12/15/02. List \$199.95 Order #0400 \$149.95

FREE BONUS OFFER

FREE with your new YB-400PE
 ♦ Lucite Radio Stand holds your radio at the perfect angle. A \$7.85 value.

Season's greetings to all members and their families. It's never too late to sneak a Universal Radio catalog in front of a family member with the appropriate pages folded and specific items circled as a reminder of what you want.

Nobuya Kato mentions that the Japan Short Wave Club (JSWC) will be doing another special broadcast in commemoration of its 50th anniversary over Adventist World Radio from Agat, Guam. The broadcast will feature Japanese and English segments on 15 December 2002 from 2100 UTC on 11960 and 11980 kHz and on 16 December 2002 from 1300 UTC on 11755 and 11980 kHz. The program host will be **Masaru Kawagoe** with JSWC member **Toshimichi Ohtake** as guest. A special QSL card from the JSWC will be issued for correct reception reports sent to: Japan Short Wave Club (JSWC), 50th Anniversary Committee, P. O. Box 138, Yokohama Port, 231-8691 Japan. They are looking for reports in English with 1 IRC or US\$1.00 return postage.

December wraps up another calendar year although the DX season is in full swing. I usually manage to do some extra listening this time of the year because of a backlog of unused vacation days I need to take before the New Year commences. This year appears to be no different for me. Whatever your pleasure, make it a safe and happy time.

The 2003 edition of *Passport to World Band Radio* is out. It's another terrific volume filled with useful information about the shortwave bands. The blue pages are a terrific resource while looking for an exotic station. The address section is always valuable to hobbyists writing to stations for information or QSL requests. Each year I thoroughly wear out my copy of *Passport*; it passes the test each year. Besides highly

useful and accurate information, the book holds up to daily use. Kudos to Larry Magne and the entire *Passport* gang at IBS International for another superb volume.

Adrian Peterson reports the results of the 2002 Adventist World Radio "Wavescan" DX contest that ran throughout the month of September 2002. Following an appraisal of all entries, "Wavescan" announced the World Winners for the year 2002. The First Place winner will receive the coveted Bronze Medallion, and all three will receive an autographed copy of Jerry Berg's book, *On the Shortwaves*. The three World Winners for 2002 are: First—Peter Boeck, Offenbach, Germany, Second—Nucio Ribas, Parana, Brazil, and Third—Dr. Floyd Layer, Terre Haute, Indiana USA. The additional Continental Winners will receive a copy of the 2003 edition of either *Passport to World Band Radio* or *World Radio TV Handbook*. The Continental Winners for 2002 are: Africa—David L. Gordon (South Africa), Americas—Ruben G. Margenet (Argentina), Asia—Nobuya Kato (Japan), Europe—Gunter Jacob (Germany), Pacific—Peter Grenfell (New Zealand) and North America—Matthew Weitendorf (USA). In addition, a new category was established and this is listed as "Entries of Merit" and each will receive an AWR Souvenir. There were 25 such recipients. Congratulations to all! AWR is inviting listeners to enter the 2003 contest that is scheduled to run during the month of September. Listeners will be asked to submit a list of unique QSLs (QSLs that you own that you consider no one else in the world has). Full details to follow later in 2003.

Check out this month's *Musings* for some interesting thoughts about antenna setups. I am always amazed at the number of possibilities to address specific circumstances. Once again, NASWA members show

that they can be very creative when it comes to obtaining the best results possible to enjoy our common hobby.

Also from Adrian Peterson we learn that Adventist World Radio inaugurated a new shortwave transmitter on the island of Guam, replacing the former unit that was previously identified as KSDA3. Last year, AWR embarked on a modernization program at its flagship station KSDA, Guam. This project included the replacement of all four transmitters. Reception reports on the new KSDA3 are welcome (Adventist World Radio, 39 Brendon Street, London W1H 5HD, England) and you can ask for a special endorsement on your QSL card confirming the usage of this new transmitter.

The Rhein-Main-Radio-Club will host the 2003 European DX Council Conference in the Frankfurt, Germany area on 13-17 August 2003. The Danish Shortwave Club International will hold its Annual General Meeting and DX Camp at Vejers Beach, Denmark on 16-18 May 2003. Further details will appear in the *Calendar of Events*, as they become available.

Here's a reminder that **Bob Padula** (bobpadula@bigpond.com) of the Electronic DX Press that the 14th edition of the *Australasian Shortwave Guide* (ASWG) is now available. The guide contains 36 pages of information, covering the international shortwave transmission period that commenced on 27 October 2002, and concludes on 30 March 2003, the B02 period. ASWG provides comprehensive information about English shortwave schedules to Australia, Asia, the Far East, the Indian sub-continent, the Pacific, and for broadcasts in all languages to Australia and the Pacific. The data is arranged in two sections, by studio country and starting time. Each entry shows broadcasting organization, frequency, starting time, finishing time, language, target area, transmitter site, transmitter country, studio country, and days of operation. The ASWG costs A\$10.00 posted to Australian addresses, US\$10.00/A\$20.00/10 Euros/7 IRCs posted airmail to any other country. Payment may be in cash, bank check, personal check, postal order, mint Australian stamps,

IRCS or credit card via PayPal (NEW!). A soft copy version is now available. It will be sent via e-mail, as an unprotected zipped Word 7.0 document, compressed to 100 KB; the document or parts of it may then be printed (36 pages). Data in the tables may be searched and/or sorted as required. The soft version is A\$10.00 to Australian addresses and US\$5.00 or Euro 5 to any other country. Checks must be drawn on Australian banks, in Australian currency. Orders and payments should be sent to the author: Bob Padula, 404 Mont Albert Road, Surrey Hills, Victoria 3127, Australia.

Last call (yeah, I know I said that last month but this time I mean it, hi!) for contacting **Ron Hunsicker** (1238 Cleveland Avenue, Wyomissing, PA 19610-2101; e-mail: ronhuns@ptd.net) if you are interested in forming a regional NASWA chapter in the greater Reading, PA area. Anyone that has an interest in shortwave radio is welcome to participate. Ron is willing to be the coordinator so please contact him if you are interested in meeting other club members on a periodic basis. Hopefully we will have an announcement about an upcoming meeting in the near future.

Each month more and more members sign up for the latest hot DX news, loggings, and information on the shortwave bands with the club's weekly electronic *Flashsheet*, edited by **Sheryl Paszkiewicz**, spasz@dataplustnet.com or P.O. Box 716 Manitowoc, WI 54221-0152 for non-electronic submissions. Please feel free to join your fellow club members in receiving our electronic newsletter, which is an excellent supplement to the monthly *Journal* for the timely dissemination of DX loggings and breaking news. This is a service that is only available to members. Deadlines are posted in the *NASWA Flashsheet* each week. If you are a current member of the club and want to receive the electronic *NASWA Flashsheet* just drop Rich D'Angelo (rdangelo3@aol.com) a note with your e-mail address, location and membership expiration date from your mailing label. I have another missing person this month! **Michael Quinn**, please contact me. Thanks!

Remember to please direct all communications about subscriptions, bulletin delivery issues, etc. to **Bill Oliver** at the club's Levittown address or to his electronic address, weoliver@worldnet.att.net. The regular postal address is the familiar 45 Wild-

flower Road, Levittown, PA 19057. Inquires sent directly to me in Wyomissing only slow down the process. Thanks!

That's it for this month. Enjoy this month's edition of the *Journal*; it's another good one. 

FRENEX: Twenty Five Years Ago (December 1977)

Gilfer Associates was seeking authors to develop potential manuscripts on topics related to shortwave listening and international broadcasting. Sam Barto will leave *Log Report B* to replace Bill Oliver as *ASL Report* editor. Steven Wisenblood will become the new *Log Report B* editor in January. In the *Shortwave Center*, Robert Fraser wrote about shortwave station WRUL in Scituate, MA while Malcolm Kaufman provided a comparison between the Panasonic RF-2200 and Sony ICF-5900W. In the *ASL Report*, Tom Gavaras reported his verification of AFAN McMurdo, Antarctica. Myron Smith's Scoreboard featured 163 reporters with James Young having the most countries heard (222) and Richard Pistek the most countries verified (208). 

Calendar Of Events

- Dec 20 Meeting. Philadelphia Area NASWA Chapter.** Kulpsville Holiday Inn, Kulpsville, PA at 7:30 PM. For more information contact Dan Cashin at 610-446-7831 or Internet: dcsckp@aol.com.
- Dec 20 Meeting. Boston Area NASWA Chapter.** The Boston Area DXers have found a new location for meetings. Inquiries about the BADXers may be sent to Paul Graveline at 978-470-1971 or Internet: ctreditor@aol.com. The URL for the BADX guys is <http://www.anarc.org/naswa/badx/>
- Jan 10 Meeting. The Cincinnati/Dayton Monitoring Exchange (MONIX)** meet at the Lebanon Citizens National Bank on U.S. Route 42 in Mason at 7:00 PM. For more information contact Mark Meece at 513-743-8089 or e-mail at radiuscan@siscom.net. For additional information about MONIX, check out their web site at <http://www.siscom.net/~mmeece/monix.html>
- Mar 7-8, 2003 Convention. The 16th Annual Winter SWL Festival**, sponsored by NASWA, will be held at the *Best Western—The Inn at Towamencin* (Kulpsville to the rest of us), located at Exit 31 on the Northeast Extension of the Pennsylvania Turnpike, on 7th and 8th March 2003. Richard Cuff and John Figliozzi co-chair the organizational committee. It's never too early to begin planning. See you there!
- May 16-18, 2003 Annual General Meeting ("AGM") and DX Camp.** The Danish Shortwave Club International will hold its **AGM and DX Camp** at Vejers Beach, Denmark on 16-18 May 2003. Further details will be published, as they become available.
- Aug 13-17, 2003 Convention.** The Rhein-Main-Radio-Club will host the 2003 **European DX Council Conference** in the Frankfurt, Germany area on 13-17 August 2003. Further details will be published, as they become available.
- Sep 2003 Contest. 2003 Adventist World Radio "Wavescan" DX contest** is scheduled to run during the month of September. Listeners will be asked to submit a list of unique QSLs (QSLs that you own that you consider no one else in the world has). Once in a lifetime frequency usage, emergency broadcasts, emergency transmitters, transmitter on wrong frequency, mistaken frequency entry, harmonic radiations, etc, etc? Full details to follow later in 2003.

Members are invited to submit items to be included in this calendar to Rich D'Angelo (Internet: rdangelo3@aol.com) or Ralph Brandi (Internet: ralph@brandi.org).

Musings

This column provides a forum where members can express comments, ideas, and thoughts about NASWA or the SW radio hobby. Please feel free to comment on anything presented this month (or previous months). Opinions expressed here are solely those of the submitters. Please submit all Musings to Richard A. D'Angelo, 2216 Burkey Dr., Wyomissing, PA 19610 or via email: rdangelo3@aol.com.

Errol Urbelis, 563 Meadow Road, Kings Park, NY 11754-5009

I have had no luck in receiving QSL cards from the same stations through the past 6 or 7 years. I always send return postage, many different types of enclosures (stamps, radio decals, radio bumper stickers, newspaper articles, etc.). The station are Radio Kuwait—5 reports with nothing received; All India Radio—8 reports with no luck; Voice of Armenia (Yerevan)—6 reports with nada, nothing, zilch; Radio St. Helena—still waiting for 1998 and 1999 QSL cards. I have 6 previous QSL cards. I have done follow up but still nothing.

What I don't understand is that all of these stations ask for reception reports, give their e-mail and regular addresses. What's the problem? Not to mention WWBS, WWCR, WEWN, WHRI, WHRA and KWHR (no response in 8 months).

Attention Scott Barbour

I just recently picked up several Sangean models from the local Radio Shack (now switching to Grundigs). I have the 505, 606 and 909. All I use is a 100, 125 and 600-foot long wires and the Antron 99 vertical. They all work very good in various situations. I also use a switching system so all my receivers can be easily connected with alligator clips on the rod antenna. The Antron 99 "V" works just fine above 13 mcs, it cuts out a lot of QRN from 9 mcs and above. Hope this helped you out a little bit, Scott. I see now with over 40 years experience, one antenna will not do.

I had a great time at Kulpville, this year. I hope to see you at Kulpville in 2003.

73, Errol

Angela Gibson, HC4 Box 110, Doniphan, MO 63935

Just wanted to drop you all a note on an interesting variation of a longwire shortwave antenna I have been using for several months with very good reception results. I have several different radios, which I listen to on a regular basis, and two main locations where I have my "listening posts" set up. Being in and out of the house quite a bit, I needed a good antenna to connect to on my front porch. I ran 50 foot length of #14 wire (coated) around the inside of my porch roof (ceiling), leaving about 4-5 foot hanging down to connect to my shortwave radio antenna via a metal alligator clip. The fun part is that instead of running separate wire for an indoor use antenna connection, I ran the opposite end of my wire into the house. I installed small hooks along the ceiling wall top and connected a BNC connector to this inside end so to be able to jack in my Yaesu VR-500, which I utilize extensively for shortwave listening, especially at night and during cold weather.

During warmer weather I can use the outside alligator clip connection on my Grundig YB-400 directly clipped on the telescoping whip with BNC connector. I have experimented with various connections inside and out, and this configuration gives me the best reception both

ways. Please note that I have also experimented with VHF/UHF reception with this set up and have had fairly good reception improvement in these bands as well.

Thanks for the opportunity to share my ideas with our members. Love the Journal. [Note to Emily in New York—I apologize for misplacing your address, please write!] Angela

Richard D'Angelo <rdangelo3@aol.com>, 2216 Burkey Drive, Wyomissing, PA 19610

Our first DXpedition of the season, and thirteenth overall, to French Creek State Park is now history. This DXpedition was a Sunday through Tuesday two-day event with the group arriving Sunday afternoon. The crew consisted of Fred Kohlbrenner, Ed Mauger, Kris Field and me. This DXpedition saw us in Cabin #10 which was the initial cabin for our first outing here a few years ago. The weather was fine making antenna installation problem free.

After the antennas were set up, we watched football; after all it was Sunday afternoon! I know this was a DXpedition but somehow our intensity level just isn't what it use to be. Besides, it was a good game, hi!

We had some interesting antenna issues with Fred's south facing short long wire ("the weenie") producing the best results. Consequently, Kris and I ran outside just before dark to erect second antennas heading south. Signals improved remarkably matching the quality of Fred's weenie. Once again, Fred's simple weenie antenna was a constant performer. Atmospheric conditions the first day produced an outstanding opening to the Indian subcontinent. The loggings from All India Radio were truly memorable. This was probably the best Indian opening we experienced in many years.

The following morning was good for Peruvians with my highlight being Reina de la Selva. Nothing heard from India although there was a brief Indonesian opening but things faded before 1200 UTC. Monday afternoon brought an exciting African opening. While Indians were good again Monday evening, they were not as prominent as the previous day. Rounding out my evening was a nice log of Radio Okapi with non-stop highlife music. It would have been nice to get a clean ID.

Later in the evening we watched Monday Night Football. Except for Fred. He managed to find the time to view a DVD. An interesting trend that highlighted our last DXpedition seems to be a regular item these days—television, DVDs and other audio/visual stimulation. Although Tuesday morning Latins were a bust, there was a nice opening to the Pacific allowing for reception of several Papua New Guinea stations.

Overall, I would say conditions were very good. Something always seems to open up and so it was this time out. Indian regional stations were as good as it gets on that Sunday evening. Peruvians were superb the following morning and Africans were excellent later that day. The "get away" morning saw a nice opening to Papua New Guinea with a number of regional stations entered into the logbook. I really can't complain about atmospherics this DXpedition.

73, Rich

Keeping Notes

It's been my observation that the shortwave/public and international broadcast listening experience is enhanced by keeping track of the broadcasters' air times, frequencies, programming topics, and key Internet URLs for schedules, live programming, and on-demand programs. To that end, I am beginning work on a "clip & save" feature that will summarize radio broadcasts and Internet webcasts for individual broadcasters. My hope is, over time, to build up a reference tool that provides, in one listing, information that other publications tend to scatter over multiple sections of their reference books. Some of my regular note-taking will be used to build up these new features. Other aspects of note-taking come in handy this time of the year, when broadcasters' schedules change for seasonal programming. If you have specific stations you'd like to see profiled this way, please send me a note via postal mail, e-mail or fax (+1 707 313 2458).

Christmas and New Year's Programming

Since broadcasters often have short lead times in planning programming—after *Journal* deadlines, we can't report holiday programming plans with certainty. Instead, we can look over prior notes and predict what will air. My fellow programming enthusiast and columnist for the Ontario DX Association, Fred Waterer, and *Monitoring Times* columnist and NASWA/ODXA contributor John Figliozzi have shared their notes for holiday programming, and the collective result of our notes appears below.

HCJB, WHRI, and other Evangelical broadcasters

HCJB and WHRI began their broadcasts on Christmas Days in years past, and these two stations celebrate their anniversaries on

Christmas. Other evangelical broadcasters provide special programming, consistent with their doctrine, or the doctrines of the ministries who buy time on their stations. (via Fred Waterer/ODXA)

Paradoxically, some broadcasters such as WMLK and the "Overcomer Ministry" of Brother Stair (who has some legal troubles of his own to overcome) can be counted on to denounce the celebration of Christmas given the fact that Christmas as a special celebration originated in pagan winter solstice celebrations. (via Fred Waterer/ODXA)

EWTN and Vatican Radio

You can expect special Midnight Catholic masses from these stations, plus more detailed accounts of the Pope's Christmas activities than you would find elsewhere. (via Fred Waterer/ODXA)

Radio Canada International/CBC

As It Happens, especially on Christmas Eve, produces a special annual program. Each year, the program contacts members of the Canadian Armed Forces serving with the UN, NATO, NORAD and those serving in the far north. Each unit has 3 or 4 people speak for those serving with the unit. They send Christmas greetings to loved ones at home and describe how they are celebrating Christmas where they are. At the conclusion of the greetings, the units are each invited to sing a verse of a Christmas carol. In past years, the units have served in such diverse locations as Canadian Forces Base Alert (Arctic), Colorado Springs (NORAD), Germany, Cyprus, Golan Heights, Bermuda (!), the Persian Gulf, Somalia, Bosnia and Croatia, and Kosovo. No doubt there will be greetings from the task force in the Gulf. It is a really nice program. It also has its moments of humor, such as the time the Canadian naval personnel stationed in Bermuda tried to claim they missed the Canadian winter real bad! (via Fred Waterer/ODXA).

In general, *As It Happens* has had its own tradition of storytelling during the week or so leading up to Christmas. (via John Figliozzi)

Deutsche Welle

Last year, a Christmas special aired on December 24th in the English language editions airing from 0900 onward, and on December 25th through the 0600 English release. One version of the special aired December 24th at 09, 11, 16, and 19 UT; the second edition aired December 24th at 20, 21, and 23 UT and also December 25th hourly from 01 to 06 UT, including the North American releases at 01, 03, and 05 UT. Also, **Deutsche Welle** aired a New Year's special on December 31st and January 1st using the same approach described above.

Also, Deutsche Welle's 24 hour German language service has always programmed a wide variety of Holiday music on Christmas Eve, Christmas Day, New Year's Eve and New Year's Day. With one of the most powerful signals in North America, you should have no trouble locating them on the dial. (via John Figliozzi) One doesn't need to know German to appreciate good music!

Eastern Europe (e.g. Ukraine, Russia, Bulgaria, Hungary, Czech Republic, Slovakia) The communist regimes governing these countries for most of the 1900s officially stifled the outward expression of religion, and it is interesting to see how many of these countries' broadcasters seem to be making up for lost time by including religious celebrations more overtly than their non-communist brethren. Fred Waterer recommends the shortwave services from Bulgaria, Russia, and Ukraine as likely sources for holiday music. Remember that the Orthodox Christian church celebrates Christmas on January 6th—so you'll hear New Year's programming before you hear Christmas programming!

Radio Australia

As is usually the case, **Radio Australia's** schedule will likely see significant seasonal alterations in December and January as several programs take summer breaks.

Specifically, at Christmastide, you can expect Radio Australia to link with a domestic network for most of our day—a combination of **Radio National** and **Metro-politan** networks. Expect the special programming to begin at 2100 UT on December 24 and continue until 0900 UT on December 25. Their format will be similar to previous years with religious specials, Christmas music, Christmas stories and talkback with Australians as they celebrate Christmas Day. Each Australian state will likely contribute a couple of hours to the broadcast.

Other December/January changes can be expected to include the following. The dates shown below were from last year and may be off by a day or two for 2002 and 2003:

The current affairs program *PM* is scaled back to 20 minutes on December 14th and from December 31st to January 18th. From December 17th to the 28th a series of current affairs specials replaces *PM*.

The World Today—the noontime current affairs program—is on hiatus from December 17th through January 11th.

Australia Talks Back also takes summer recess on December 17th and returns January 21st.

Correspondents' Report takes a break from December 16th and returns January 27th.

Asia Pacific is on break from December 24th and resurfaces January 14th.

Business Report is on holiday from December 22nd, returning January 19th.

Bush Telegraph leaves the scene from December 17th, and returns to air January 21st.

What isn't clear—yet—is what will replace these programs in their absence. If you're interested in the details, your best bet is to frequent one of the newsgroups or E-mail lists (such as *swprograms*) where John Figliozzi posts thrice-weekly schedule updates.

Meanwhile, *Pacific Beat* continues to air, but the features take on more of a magazine format, since hard news in the Pacific islands is hard to come by over the holidays.

Cricket will continue on selected frequencies. A series of one-day meetings between Australia, New Zealand, and South Africa will likely begin in January and run through early February.

New Zealand

Fred Waterer noted in 1999 that **Radio New Zealand International** featured, among other things a Maori rendition of *Silent Night*; a special Christmas edition of *Sounds Historical*; Christmas coincides with ANZAC Day and the anniversary of the foundation of the NZ Communist party.

Other broadcasters

As Fred Waterer reminded me, expect pre-recorded programming to prevail over the holidays, with heavy emphasis on year-in-review programs along with special extended features that were recorded in advance. Broadcasters do this to enable their staffs to spend time with their families around the holidays.

Other examples reported by the ODXA's Harold Sellers from years past:

- **RAI Italy** presented an extensive report on the Pope's Christmas homily.
- **Channel Africa** played a traditional African hymn during a brief tune-in.
- **AIR India** (All India Radio) from 2052 to the news at 2100 played several Christmas carols, performed by a children's choir in Hindi. For example, Harold recognized *Hark The Herald Angels Sing* and *O Come All Ye Faithful*.

BBC World Service

Tuesday, December 24th, 1500 and 2230: *A Festival of Nine Lessons and Carols* is a long-standing World Service tradition from King's College, Cambridge. The 1500 airing is live. The Festival features traditional favorites like *Once In Royal David's City* and new music specially composed for the occasion.

Thursday, December 26th, 0105: *Her Majesty the Queen's Christmas Message* airs to the Americas.

Thursday, December 26th, 1500: A special three-hour edition of *Sportsworld* airs to all regions, though only a portion can be heard directly in the Americas. Boxing Day is a big day for Soccer in the UK, cricket, horse racing, and the annual Sydney to Hobart yacht race will be covered.

Sunday, December 29th, 1330: *In Praise Of God* airs a Christmas service from the United Reformed Church in Coventry, England.

Saturdays, December 28th and January 4th, 2330: *Pick of the World* features "the best of the best" in its final edition for 2002 and first edition of 2003. You're always welcome to nominate program segments you've particularly enjoyed; you can reach the program at pick@bbc.co.uk or by fax at 011-44-20-7557-2531.

May the Holiday season and 2002 find you in good health and spirits, cherishing family and friends. Best wishes for a happy, healthy, and prosperous New Year!

BBC World Service—70th Anniversary Programming: *Many Voices, One World*

The time period from December 12th through December 20th will feature special programming celebrating the 70th anniversary of the World Service—which came to life as the *Empire Service* on December 19th, 1932. Say what you will regarding the issues relating to the BBC's use of shortwave targeting North America and Australasia, there's no denying the longstanding history and continuing excellence represented by the BBC World Service and its programming.

Here are a few highlights:

Sunday, December 15th, 1700-2000 UTC: *World Service Global Party* is a live broadcast from five concerts in cities around the world.

Thursday, December 19th, 0400-1800 UTC: *Live from Table Mountain* originates from the top of Table Mountain near Cape Town, South Africa. Ben Malor and Heather Payton will recreate an event in 1933 when a field broadcast originated there for relay back to London, which then rebroadcast the program worldwide. A *Talking Point* special that day includes live on-air listener questions to Mark Byford, the current Director of the World Service. The day also will include *A Day in the Life of the World*, short segments which highlight the work of people who are in some way connected to the World Service—the engineer who looks after the Ascension Island transmitter to the stars of *Westway*.

Thursday, December 12th through Saturday, December 20th: *Listeners' Tales* is a series of five-minute stories broadcast at various points around the schedule. Stories from a mix of celebrities and other listeners whose lives have been affected by the World Service. Terry Waite, who listened during his Beirut incarceration, will be one of those with their story; rumor has it that a well-known NASWA contributor will be one of the listeners who will be telling their tale.

Monday, December 16th through Friday, December 20th, 1200-1400 UTC: *Newshour* will expand to two hours and will include a daily in-depth interview with a key cultural, international figure.

Monday through Friday 1345, 2245, repeated Tuesday through Saturday 0345 and 0445, December 16th through 21st: *This Is London* replaces *Analysis*, *Off the Shelf*,

and *From Our Own Correspondent*. *This Is London* will highlight key turning points in global events during the World Service's 70 years. The impact of the changes in the technology of conflict reporting will also be included.

Saturday, December 14th and 21st, 2330 (time tentative): On the 14th, *Pick of the World Service* is celebrating with a special one-hour version of the program highlighting the best programming of the 70-year history of the World Service. Clips from English and other language services will be included. On the 21st, *Pick* will feature highlights of the special anniversary week of programming.

Monday, December 23rd, 0206: *The World's Top Ten* is the fruition of a massive poll of World Service listeners asking them to name their favorite all-time music. That poll was ongoing as of press time at URL <http://www.bbc.co.uk/worldservice/us/features/top10/>, and will air in the time slot normally occupied by *Wright Round the World*.

Since I've filled my space for the month, I'll include additional 70th anniversary program highlights in upcoming NASWA e-mail Flashsheets and in the *swprograms* Internet-based discussion group (see <http://www.topica.com/lists/swprograms/>). It would also be a good idea to check the World Service website, <http://bbcworldservice.com>.

73 DE Richard

WWW Shortwave Listening Guide

Looking for programs to listen to? You can find what programs are on for the current hour or list programs of a desired type on a given day at the **WWW Shortwave Listening Guide** on NASWeb. The data is provided by *NASWA Journal* and *Monitoring Times* columnist John Figliozzi, and comes from his book, *The Worldwide Shortwave Listening Guide*. Visit the Guide at <http://www.anarc.org/naswa/swlguide/>.

Digital Broadcasting— A Broadcaster's Perspective

By Ed Evans

Since the early to mid-1990's, Broadcasters and broadcasting enthusiasts have been bombarded with claims and revelations about exciting new "digital methods" for radio and television broadcasts. The FCC made HDTV (originally High Definition Television, now considered only to be Digital Television) a priority, and there now exists a time-line and methodology for this to occur in the United States.

For radio, the process has been quite a bit more wide open, both worldwide and in the US, as various interested parties have developed "digital techniques" for radio propagation. My purpose in writing this article is to convey, from this Broadcaster's perspective, a layman's view of these differing techniques, and what they may mean for the future of radio.

The grand idea for digital radio is three-fold, in my way of considering it—first, greatly improve the signal quality of the reception, by eliminating fading, multipath, static, and finally improve the audio depth of the transmission; second, provide for spectrum efficiency; and third, provide data to the receiver for either the user or the receiver to interpret and use (here I mean information on the current signal being heard for the user, or information for the receiver to use to adjust itself to improve the transmission—i.e., adjusting bandwidth).

The first "successful" format for digital radio is the Eureka-147 system. Eureka-147 was developed primarily in the United Kingdom and Germany, and is now used in those countries as well as some parts of Canada. Eureka-147 (and in most cases the other digital systems discussed here) uses

audio and data encoding that essentially creates a "multiplex" channel that can carry high-quality audio, data, and multimedia to the user's receiver, where the receiver then "decodes" the desired information from the multiplex and plays it out through the speakers or outputs to a PC or other device. Eureka uses main and secondary transmitters to achieve a very optimal signal coverage, which eliminates multipath, fading, distortion, and other non-friendly broadcasting hurdles. It is spectrum efficient, in that it allows several audio signals to be broadcast in a single channel.

Unfortunately, Eureka-147 has not become a widely accepted format. One main hurdle was that the spectrum space utilized by Eureka in Europe is not available for use in the United States. The other problem has been receiver availability and pricing. While Germany and the UK do broadcast the Eureka-147 signal, the population of receivers in these countries has been dramatically low.

The next "successful" format for audio broadcasting that I would like to touch on is the new "digital satellite broadcasting" formats—XM Radio and Sirius Radio. XM uses two satellites positioned in geo-synchronous orbit over the eastern and western United States. Sirius is using 3 satellites in highly elliptical orbits that ensures that at least one of the birds is always positioned over the United States in the most favorable coverage position. Unfortunately, both systems also have to use ground-based "repeater" transmitters in or near large cities to overcome the shadowing of the tall buildings. While Sirius (previously CD-Radio) was the first system to get started, XM Radio beat them to the air. XM went on air in 2001, while Sirius did not get on air

until the spring of 2002. Both systems use multiplexing technology that allows for the greater number of channels and improved audio quality, and although the coding for each is different, the chip-sets used by the two systems will allow the other system to operate.

Whether or not satellite radio will succeed will depend in large part on the automobile manufacturers. Both companies have arrangements with different automobile manufacturers to offer satellite radio. If these are marketed properly, then I feel that one or both of these systems may be able to survive. However, the true advantage of the digital audio "sound" may be lost on the mobile user of this service. Current after-market "converters" for existing cars, while less expensive than the true satellite receiver, merely convert the digital audio to either FM or cassette input to the car radio. This coupled with your every day road noise seems to me to kill the argument for the "digital quality" of the sound. The quality of the programming provided might be the argument that gets around this for the user.

The next two systems will be the "real" players in the audio digital revolution, in my opinion. These are, of course, Ibiquty's In Band On Channel (IBOC) system and the Digital Radio Mondiale DRM system. IBOC now has the strong support of the powerful National Association of Broadcasters. It is a system that does not displace or threaten the current broadcasting mainstream in the United States. It will work in the current FM band (and reportedly daytime AM) without interference to adjacent IBOC or non-IBOC (regular analog) channels. The IBOC system has been widely tested on FM, but its AM performance is still being studied. The FCC has recommended that IBOC FM be accepted as a broadcasting format in the United States and is currently developing rules for its use. The Ibiquty IBOC system is proprietary and will require licensing and user fees from the broadcasters who use the system.

DRM is a consortium among mainly European and Asian broadcasters, government entities, receiver manufacturers and other parties to develop a non-proprietary

methodology that will deliver digital audio in the existing long wave, medium wave (AM) and shortwave bands. This system will be able to deliver FM-quality sound and data over the existing bands. DRM is the only system currently endorsed by the ITU for all three broadcasting bands below 30 MHz. The DRM system has been widely tested worldwide on LW, MW, and SW bands. Receiver manufacturers have been given the requirements for the chipsets these receivers will require, and production of DRM radios is anticipated in 1994. DRM is well on its way to be a world standard for broadcasting below 30 MHz.

But there soon may be a fly in the soup—and this fly may become an angel to the radio listener and broadcaster. Motorola has recently unveiled at an electronics show in Japan its "Symphony Digital Radio Chipset." Motorola's information on this development promises "existing analog radio signals to benefit from less static, fading, pops and hisses; automatic tuning to reduce adjacent station interference; extended listening range for existing signals; and overall better audio clarity and volume." Motorola says that these chip-sets will be on the market by the end of 2003, and the cost to the consumer will be comparable to existing receiver prices. The great advantage to broadcasters is that the Symphony system delivers all of its promise at the receiver—there is no investment or risk on the part of the broadcaster. As the Motorola literature states, this new Symphony system may be "a move that has significant repercussions for the digital radio industry."

In conclusion, I expect that the next three years will mark the rise of some of these systems, and the demise of others. The major players here are the US consumer market, the NAB, the DRM consortium, and last but not least, the Asian electronics manufacturers. The future of digital radio may soon be decided in a Board Room in Tokyo.

Ed Evans is the President of NASB, The National Association of Shortwave Broadcasters. Mr. Evans is also Station Manager of Shortwave Station WSHB, Cypress Creek, South Carolina. His email address is: evansc@wshb.com

Radio Broadcasting in Laos— An Overview

By Bob Padula (From The Electronic DX Press Magazine, September 10, 2002.)

I recently spent three weeks in South Asia, as part of an around-the-world trip which ultimately took me to Europe and Canada. I went on small-group tours for one week each in Cambodia, Laos, and Southern Thailand. Whilst in the region I gained an appreciation of current HF broadcasting there, which continues to show a continuing decline in favour of more efficient and effective delivery over medium-wave and VHF-FM facilities.

Introduction

Laos is a land-locked country with an area of about 237,000 sq. km. It is bordered by Myanmar, Thailand, China, and Vietnam. The capital is Vientienne and other major towns are Savannakhet, Paske, and Luang Prabang. The local time is UTC+7 hours.

The main language is Lao, with four ethnic categories of Lao-Lu, Lao-Tai, Lao-Theung, and Lao-Seung, all of which are mutually understood. Laotian vocabulary is enriched by loan words from Pali, the scriptural language of Theravada Buddhism. French, English, Chinese, and Vietnamese are also spoken in the principal urban centres.

English transliteration uses the word "Lao" across a wide spectrum of understandings, meaning the language "Lao," the country "Lao," the people "Lao," etc. The word "Laotian" is vanishing, but is still used by the outside world.

Lao languages are part of the Tai family, centered on Thailand. Those not trained in linguistics may find serious difficulty in distinguishing Lao variants from Thai. In the Thai and Vietnamese border areas, a common dialect is widespread.

I spent several days in Laos, and I was able to recognise some differences between spoken Thai and Lao. The vowel sound we know as "a" is accentuated as a "sliding vowel" in Thai, but not so extreme in Lao. The English spoken by Thai nationals is marked by the same intonations as in the parent Thai, with little variation in stress. To many English speakers from western countries, Thai and Lao often sound very "flat" and lacking in variation of intonation.

Broadcasting

Radio broadcasting in Laos is quite basic, as compared with other countries in the region. There is one national Government network, "Lao National Radio," originating from the capital Vientienne, heard on 576 kHz medium-wave, 200 kW, 2200-0330, 0400-0730, and 0930-1500. This is also carried on shortwave, using 6130 with 50 kW, intended for Laos. Content is mainly Lao variants, with Hmong and other dialects. It is understood that educational programming in English and French are carried irregularly, but these were not located.

Mediumwave

In Vientienne, only three mediumwave transmitters were heard, carrying Lao programming:

- 576 kHz: National network
- 702 kHz: Local/city network
- 810 kHz: Not identified.

In Luang Prabang, in Northern Laos, only one mediumwave station appeared to be operating in the local daytime, using the "split" frequency of 705 kHz, carrying mainly local programming, but relaying the national network from Vientienne at various

times. This channel is not compatible with ITU allocations for Region 3 (Asia/Pacific). This operation may be intended to reduce interference effects in the secondary service area for the Vientienne high-powered transmitter using the standard allocation of 702 kHz.

FM Broadcasting

Very little activity was noted, with channel separation generally of 0.25 MHz. In Vientienne, six stations were audible: 87.5, 90.55, 91.5, 93.75, 103.75 and 105.5 MHz.

In Luang Prabang, only one FM station was audible in the local daytime, using 93.0 in parallel with the mediumwave outlet on 705 kHz, with local and national network programming.

High Frequency Operations

There are two government transmitters operating in Vientienne. One of these uses 50 kw on 6130 at 2200-0330, 0400-0730, 0930-1500. The intended target zone is "Laos." Programming is in parallel with the high-powered medium wave outlet on 576 and FM on 103.75. This transmitter was installed in 1994.

A second transmitter in Vientienne is also used on 7145 kHz at 25 kw for what is announced as the "International Service." This is registered with the ITU from 0100-1800, with the target area designated as Laos, with programming in English, Thai, Vietnamese, French, and Khmer. This transmitter originally operated on 6130 and was moved to the 41 metre band when the 50 kw facility was put on line on 6130.

The exact schedule was not confirmed, but the evening broadcasts were audible in the block 1130-1400 with 30 minutes in each of the above languages. Other services listed are 2330-0030 (a "breakfast" service) in Vietnamese and Khmer, and a midday service at 0500-0630 in French, Thai, and English. I believe the Lao segments to be relays of the domestic service.

A third transmitter of 3 kw is listed in Vientienne, but unheard, on 7150 kHz, 0100-1800, also intended for "Laos." This is the transmitter which previously carried the International Service on 7112 several years ago.

A fourth transmitter is registered, with 1 kw on 3315, 0100-1800, again for "Laos," but not heard recently.

Outside of Vientienne, the number of regional transmitters has been reduced in recent years and now appears to number only one, but it is not known whether this is an official government station. The station was noted as active on 4661 kHz, 1040-1230*, *1300-1400*, *2315-0030. The station is listed in the WRTH as being at Sam Neua, in Hua Phan Province, near the extreme north east border of Laos with Vietnam. This is a very small town, and the transmitter location is questionable. Reception in Luang Prabang was excellent and I suggest that this station is actually located in Luang Prabang and not as listed. The WRTH list Luang Prabang on 6971, but no activity was observed on that channel at any time.

A mystery station was noted on 6765! This is a single-sideband suppressed carrier operation, and was heard with good strength from Northern Laos during the morning and evening. I do not suggest that it is located in Laos, but there is high probability that it is! It opens with a Western style musical tuning signal, with English and Lao announcements, announcing time and frequencies, including a message that the transmission was: "This is Radiobroadcasting for Western tourists." Transmissions were heard *0930-1030*, *1200-1300*. *0000-0100*, and *1330-1400*. The content was mainly in Lao with what appeared to be news, with national music.

From a more southerly location, in Vientienne, signal strength was much reduced. Unfortunately, my Sangean radio does not have SSB capability, so it was quite frustrating.

Vietnamese Regionals

6492 kHz Cao Bang

Care is needed when monitoring the 4 and 6 MHz region for South Asian regional stations. From thousands of kilometres away, Lao can sound very similar to Vietnamese! While I was in Laos, Vietnamese regional stations were noted on:

4976 kHz Son La

6380 kHz Lai Chau

6664 kHz Lao Cai

Summary

Broadcasting in Laos is very modest, with all broadcasting operations servicing local and regional communities. Lao National Radio is a full member of the Asia-Pacific Broadcasting Union, and HF transmissions are coordinated with other members of the Union, reporting to the ITU in Berne.

More on SE Asia HF Broadcasting

(The following notes are also by Bob Padula from the EDXP Magazine, September 13, 2002).

Malaysia

RTM continues to develop its MW and VHF networks, in Eastern and Western Malaysia. The facilities used for domestic HF broadcasting will not be replaced or repaired once their useful life has been reached, and some transmitters have already been closed down in Sarawak and Sabah.

The following frequencies were observed as being active and may also be in use at other times:

4845 Kajang 24 hrs. 100 kw. Tamil, noted with phone-in programming 0430-0500.

4895 Kuching 10 kw. *2200-0100*, *0800-1000*, *1030-1500*.

5030 Kuching 10 kw. *2200-0000*, *1230-1400*.

5965 Kajang 24 hrs. 100 kw. Radio 1-Malay.

5980 Kota Kinabalu 10 kw. *2200-1500*.

6025 Kajang 100 kw. *0500-1700*, Radio 8-Malay and indigenous languages.

6050 Sibu 10 kw. *2200-1500*.

7130 Kuching 10 kw. *0400-0600*.

7270 Kuching 10 kw. *0830-1200*, *1245-1500*.

7295 Kajang 100 kw, 24 hrs. English, relays 90.3 VHF Radio 4 from Kuala Lumpur.

Actual operational times for Kota Kinabalu, Kuching, and Sibu vary within the time span indicated. Weekday schedules differ from weekends and holidays.

At 1300-1310, 5030, 4895, 5980, 6050, and 7270 carry national news in Malay from Kuala Lumpur, at 1310, local programming resumes.

Upgrading work is in progress at the Kajang site with higher power being introduced for some services.

Singapore

The Singapore Broadcasting Authority abandoned all MW broadcasting some years ago in favour of VHF. A modest HF capacity survives from Kranji, operating on this general schedule:

6000 250 kw, Mandarin: *2300-0800*, *0900-1100*, *1400-1600*.

6150 250 kw, English: *2300-0800*, *0900-1100*, *1400-1600*

7170 100 kw, Tamil: *2300-1600*.

7235 250 kw, Malay: *2300-0900*, *1200-1600*.

The English service consists of relays of these VHF networks: Gold 90.5, Classical 95.0, Perfect-10 98.7, News Radio 93.8, Symphony 92.4, and Passion 99.5.

The Mandarin service comprises relays of Capital Radio 95.8, Love 97.2, Y.E.S. 93.3.

The Malay service takes relays of Warna 94.2 and RIA 89.7.

The Tamil service relays OLI 96.8.

The External Service, Radio Singapore International is intended for neighbouring countries with transmitters at Kranji, co-sited with the Merlin facility and sharing transmitters with the Domestic Service. The September 2002 schedule for RSI was:

1100-1400 6150 kHz 9600 kHz English

0900-1200 7235 kHz 9665.kHz Malay

1200-1400 7235 kHz 9665 kHz Indonesian

1100-1400 6000 kHz 9560 kHz Mandarin

Thailand

Domestic HF broadcasting is virtually extinct in Thailand, with extensive and increasing use being made of MW and VHF for local and regional services by the government broadcasting authority.

Around early 2001 HF domestic transmitters located at Bang Phun, in Pathum Thani, were closed and broadcasting ceased on 4830, 9655, 7115, 9655, and 11905. 6070 and 7115 remain in use on a very limited basis from 1100-1215, carrying relays of the External Service in Vietnamese, Khmer, Lao, Burmese, and Malay.

The 60 mb outlet of 4830 has been in intermittent operation since mid-2001, carrying relays of Radio Thailand's Network-3, in English in parallel with MW 918 kHz (Bangkok). This HF operation was set up to cater to the large influx of English-speaking tourists visiting areas outside of Bangkok, particularly the southern beaches at Phuket and nearby areas, and the northern cities of Chiang Mai and Chiang Rai. It may now have closed down as it was not audible at any time during my trip in July 2002.

Only one non-governmental station was noted—this originates from the Royal Household in Bangkok, with 10 kw on 6148 kHz. This "split frequency" channel was audible at good level during local evening hours in Thailand and in nearby countries around 0930-1100. However, severe interference is caused by the Radio Singapore domestic HF service on 6150. The 2 kHz het was very annoying.

Vietnam

The Voice of Vietnam continues to use several HF channels for relaying its Domestic Service to rural areas.

5925 Xuan Mai 50 kw, *2200-1600*

5975 Son Tai 50 kw, *2200-1600*

6020 Son Tai 20 kw, *2200-1600*

7210 Son Tai 20 kw, *2200-1600*

9530 Son Tai 50 kw, *2200-1400*

9875 Son Tai 50 kw, *0200-1000*

At 0200 UTC, these relays all carry the same news summary from Hanoi. The Hmong Service (part of Network 4) has recently extended its transmission hours to accommodate extended broadcasts to ethnic minorities. Both new frequencies gave excellent reception in the countries I visited.

5035 Xuan Mai 15 kw, *1130-1330*, *2200-0000*

6165 Xuan Mai 50 kw, *1130-1330*, *2200-0000*

9855 Xuan Mai 50 kw, (new) *0430-0600*

9650 Xuan Mai 50 kw, (new) *0430-0600*

Summary

HF domestic broadcasting in all of the countries mentioned is declining, with the steady replacement of such facilities by MW or VHF transmitters. Modern low-power VHF transmitters can be put on line at a fraction of the cost of the replacement of antiquated,

energy-inefficient, high-maintenance, and bulky HF services. Many of the HF installations are 50 or more years old, and are being abandoned when their useful life is exceeded or major breakdowns occur. It is obvious that the various broadcasting authorities are not prepared to allocate financial or other resources to propping up "dinosaur" HF facilities, where MW and VHF systems are now the preferred technology.

Ultimately, all HF domestic broadcasting will disappear from the South East Asia Region. It has already done so in other areas of the world. International broadcasters targeting those areas on HF may have to rethink their strategies. Their HF audience may not be as great as they believe!

PAUL A. BITTNER, Huron, TN
DON E. HEFNER, Lubbock, TX
RON REELAND, Peru, IN
TOM BENEDICT, Edgartown, MA

Well, I have finally reached the conclusion that computers were designed to either drive me insane or give me ulcers. I hope it's for the latter reason because I have a lot more room for ulcers now than I did when I was younger. In any case, I am down to two email addresses which for a while seemed to be working only when the moon was in conjunction with Saturn. I think I have everything set now. If you want to reach NASWA Headquarters by email, try <weoliver@comcast.net> or <weoliver@att.net>. Perhaps some day when my nervous tic subsides, we'll try to put up the old NASWA email address again.

Bill Oliver

ANGOLA Radio Nacional de Angola

had a good signal two weeks ago on 4950 kHz, when received in Namibia. On Nov. 15 only the STP-Relay of the VoA was audible at 2000 UTC. One day later RN de Angola was on again, but with a slight hum. At 0500 a program in vernacular was heard on 7217. (That fits the frequency of RN Angola as reported in spring 2002 - Passmann) (Markus Weidner, currently in South Africa, as reported to the A-DX Mailing List via Willi Passmann, Nov 18/DX Listening Digest/Hauser-OK)

AUSTRALIA A license has been granted for a private, commercial shortwave broadcaster. **Station X** - formerly streaming on internet-only, has been assigned 1 kW on 2368.5 kHz. (RNMN via Kubiak-DE/EDXP)

I note discussion concerning a licence stated as having been awarded to someone in Queensland to operate on 2368.5 kHz, with 1 kW, as a NAS. As at November 25, there is no formal record of any such licence having been issued. (Bob Padula-AUS/EDXP)

AUSTRIA ORF plans to wind up Radio Austria International and to keep only two hours of ORF programming per day on shortwave; otherwise the transmitter will be leased out. Attempts are being made to convince the ORF council to reject this plan. (Kai Ludwig, Germany, Nov 8, DX Listening Digest/Cumbre DX)

CLANDESTINE - ASIA 15715 Chan Troi

Mai been listening to this one *1330-1430* daily, heard with fair signals here. ID's at start and close and still opening with "My Country" song sung by woman. Discovered that they have an email address of ctm@radioctm.com Website isn't working right now, but seems to have been www.radioctm.com Don't confuse with New Horizon magazine and website which has nothing to do with this station. (Johnson Nov/Cumbre DX)

CLANDESTINE - MIDEAST 9505, *Voice of Palestine, Voice of Islamic Revolution* in Palestine (via VoIRI), *0330-0348+, Oct. 30, pgm in Arabic, s/on with ID "Saut Filastin, Saut-i Saurati al Islamia fi Palestina," then patriotic music. (Barrera-ARG)

CONGO - DEMOCRATIC REPUBLIC

11690 *Radio Okapi* 0602-0630. Program of talk (French) by man and Afro pops. More talk than pops. Frequent mention of "Congo" and "Congolaise" between 0616 and 0619. (Evans, TN, Nov 5/Cumbre DX) 6030, *Radio Okapi*, 2130-2150, now also hrd here in French with local pops, few announcements, sung IDs; fair signal, // 11690 (relatively strong but ruined by a ute stn on freq) and 9550 (quite weak). (Vashek Korinek-AFS/DXplorer Oct 31/Cumbre DX) Careful, French broadcast "Radio Africa International" via DTK occupies 11690 from 0600-0800. (Savolainen-FIN/Cumbre DX)

CYPRUS New station *Radio Ibrahim*, P.O.Box 56500, 3312 Limassol, Cyprus. <mail@radioibrahim.com> has this winter schedule:

| | |
|-----------|----------------|
| 0700-0715 | 21590 Mo-Fr |
| 0700-0745 | 21590 Sa/Su |
| 2000-2045 | 5935 Tu |
| 2000-2100 | 5935 Su/Mo |
| 2000-2115 | 5935 We-Sa |
| 2100-2115 | 5935 Tu |
| 2100-2130 | 12025 Th |
| 2130-2200 | 12025 Sa/Su |
| 2130-2215 | 12025 Mo |
| 2145-2200 | 12025 Tu/We/Fr |
| 2230-2330 | 9405 Fr-We |
| 2245-2315 | 9405 Th |

Sites:
5935 kHz - IBRA Radio, Moscow, Russia
9405 kHz - IBRA Radio, Juelich, Germany
12025 kHz - HCJB, Ascension Island
21590 kHz - Voice of Hope, Juelich, Germany (Christian Guibaud, Nice-France, DSWCI DXW/BCDX/ARDCX)

GEORGIA 11805 *Radio Georgia* 0635-0701. English language news by man. Frequent mention of Georgia. At end of news "This is world wide ... from T'bilisi, Republic of Georgia". (Evans, TN, Nov 11/Cumbre DX)

GUAM The special broadcast in commemoration of the 50th anniversary of Japan Short Wave Club (JSWC) will be held as follows: Station: *Adventist World Radio* from Agat, Guam. Language: Japanese and English

| | | | |
|-------------|------|-------|-------|
| 15 December | 2100 | 11960 | 11980 |
| 16 December | 1300 | 11755 | 11980 |

Program host: Masaru Kawagoe Guest: Toshimichi Ohtake (JSWC member) It is a special bi-lingual, an approximately 20 minutes-long program. A special QSL card from JSWC will be issued for correct reception reports sent to: Japan Short Wave Club (JSWC), 50th Anniversary Committee, P.O.Box 138, Yokohama Port, 231-8691 Japan. Please write your report in English and enclose 1 IRC or 1 U.S. dollar bill. (Toshimichi Ohtake/JSWC/DSWCI DX-Window)

GUATEMALA Per conversation with Wayne Berger at TGNA, *Radio Cultural* 3300 was taken off the air "because we haven't received any reports on it for a year. We just couldn't justify the expense of running 10 kW here with no reports. I may put it back on at 500 watts or 1 kW to occupy the frequency. We continue to run 5955 with 1 kW for DXers. We have a website in the works at www.radiocultural.com where we plan to stream our audio.

"*Radio Maya* 3324.8 and *Radio Buenas Nuevas* 4800 have FM and are putting in repeaters to cover the hard to reach areas. I wouldn't expect them to be on shortwave much longer.

"*Radio Verdad* 4052.4 is struggling, they have tried to get Radio Cultural to purchase time, but I already have the entire country covered on FM.

"*Union Radio* 5980v I believe this is strictly on FM now.

"*Radio Nacional* 6180 has been off for years. I put it back on for them a few times, but they really don't have any interest in having it on." (all via Johnson Nov 25/Cumbre DX)

INDIA AIR National Channel (Hindi/English) has started regular transmissions at 1320-0043 UTC as follows:

9425 Bangalore 500 kW (Regular Transmission)
9470 Khampur (Delhi) (Experimental Transmission). Back in August & September this year, tests were conducted from Bangalore on 9425 and 9450 at these timings. (Jose Jacob-IND/Cumbre DX)

Radio Kashmir, Srinagar is noted with their winter schedule now. The sign on is now at 0120 UTC on 4950 (ex Summer 0025). (Jose Jacob-IND/Cumbre DX)

INDONESIA 3325.0, *RRI Palangkaraya*, Talk program at 1938 including music. SCI at 2000 then followed to Jakarta news entitled "Warta Utama". Fair. (Nov 22/Jembatan DX/Yamada-JPN)

3960.4, *RRI Palu*, 2003 talk by male, 2012 bird singing which probably means sunrise, and then reading of Holy Koran. (Nov 22/Jembatan DX/Yamada-JPN)

3976.1, *RRI Pontianak*, Heard at 2040 with talk, telephone conversations, local pops, advertisements. (Nov 16/Jembatan DX/Yamada-JPN)

4753.3, *RRI Makassar*, Telephone conversations at 1908, local pops, sometimes ID was heard. Good signal. (Nov 22/Jembatan DX/Yamada-JPN)

4925.0, *RRI Jambi*, Stronger than usual with long program of reading of Holy Koran at 1432. (Nov 6/Jembatan DX/Yamada-JPN)

6070.0v *RRI Jayapura*, Poor signal with English pops and male talks at 1315. (Nov 10/Jembatan DX/Yamada-JPN)

IVORY COAST The rebel Ivory Coast Patriotic Movement (MPCI) has begun broadcasting a station called **Voix du Mutin** (Voice of the Mutiny). Station broadcasts 12 hours from Katiola, in the north. (Clandestine Radio Watch/Schoech-DE) [no freq info given, sorry! -AQ]

KENYA The **KBC**'s only remaining shortwave outlet - the Eastern Service on 4915 kHz - has extended its schedule. It's on the air Monday-Friday at 0300-0700 and 1300-1910. (Chris Greenway, Kenya, Nov BDXC-UK Communication via DXLD/Cumbre DX)

LEBANON from The Daily Star, Lebanon: The France-based Rally for Lebanon, part of the Free Patriotic Movement of former Army Commander Michel Aoun, has begun **Free Voice of Lebanon**. Announced sked: 17600-1700 on 11515. Email fpmradio@yahoo.com or www.radio@tayyar.org. (Clandestine Radio Watch/Schoech-DE) Via Samara, Russia (R. Bulgaria Observer/Nedjalkov-BUL)

LITHUANIA Freq change for **Radio Barobari** in Persian effective from Nov.25: 1700-1730 NF 7470 probably via SIT, ex 7480. (R. Bulgaria Observer/Nedjalkov-BUL)

MADAGASCAR (non) **IBC Tamil Oli Radio** in Tamil via MDC 1230-1330 NF 17525, ex 17495 (R. Bulgaria Observer/Nedjalkov-BUL)

MALAWI Malawi Broadcasting Corporation is currently transmitting on 3385 instead of 3380 kHz. Even in South Africa reception is not too good. (Weidner-NAM/A-DX/Passmann/Cumbre DX)

MOROCCO Winter B-02 Schedule for **RTMorocco** in Arabic:
0000-0500 NF 5980 MOR
0900-1500 15340 NAD
1100-1500 15335 MOR
1500-2200 15345 NAD
2200-2400 NF 7135 MOR
(R. Bulgaria Observer/Nedjalkov-BUL)

NAMIBIA There is no frequency switch from 6060 to 3270 kHz at 1600 UTC. So 6060 is 24h, 3270 is inactive. The switch from 6175 to 3290 works, but there is a strong hum on 3290. Both transmitters are operated with 70 kW and the very last tubes are used to keep them on the air. (Willi Passmann/Cumbre DX)

PAKISTAN New printed schedule from Pakistan indicates home services via Islamabad as follows:

API-2 5915 0045-0215; 9645 0600-1115
[includes En nx at 0800-0803 and 1100-1104.
6065 Balti Nx 1350-1400 & Sheena Nx 1420-1428. 5965 1615-1700 [Islamabad Programme (Aaina)].

API-4 7105 Current Affairs 0200-0400 & 1300-1800
(Noel R. Green-UK, BC-DX Nov 5/Cumbre

DX)

Frequency changes for **Radio Pakistan** effective from Nov. 25: 1715-1800 Persian & 1800-1900 Urdu (Islamabad program) NF 7550, ex 7555 to avoid RTTY (Ivo and Angel! Observer, Bulgaria, Nov 29/DX Listening Digest/Hauser-OK)

PERU 4627 new here is **Radio San Isidro**. Celendin, Cajamarca, Peru. Heard Nov. 1 from 0100-0300 while Radio Cosmos was off. (Carlos Maldonado-CHILE, via Mohrmann-VT/Cumbre DX)

4904.71, **Radio La Oroya**, 1009-1022, Campo mx, some really beautiful harps. M anncr w/song anmnt, also gave at least 2 IDs. (Valco 29 Nov./Cumbre DX)

6193.48, **Radio Cusco**, 0938 LA Pop mx w/W vclist at t/in, 0941 M w/TC, ID, and short tlk, then OA campo mx at very weak lvl. 0945 M anncr again w/ment of "radio", then what sounded like deadair at 0946. M returned at 0949 w/ment of Cusco, and Peru. Deadair again at 0951, but the M returned once again at 0953. I'm wondering if the deadair is due to a faulty cart machine. The signal was't very strong. Another stn on 6195 that signs on around 0955 wipes them out completely. Been following this for a couple weeks but haven't been able to ID until today. (Valco 23 Oct./Cumbre DX)

Radio Willkamayu from Cusco is testing on 10354.2v kHz. Transmitter power is only 20 watts, says station manager Julio C. Tello A. The station was first logged on shortwave by Alfredo Benjamin Caote B. near Lima in Peru on October 30 and November 2 after 1100 UTC, and later already after 1000 UTC. OBX7L Radio Willkamayu also broadcasts on 940 kHz. Address: Avenida Infancia 527, Wanchaq, Cusco, Peru, tel. +51-84-246391. (DXing.info, November 3, updated November 5/Cumbre DX)

SRI LANKA While checking for **SLBC** All Asia Service on 7115 this morning, I noticed that it was absent there and on their old frequencies of 7190 and 7440. However, shortly I was able to get them with distorted audio on 7049 in the middle of the 40 Meter Amateur Band. 11905 was in parallel. Sked is 0050-0400, 0800-1530 Indian languages. (Jose Jacob-INDIA/Cumbre DX)

TANZANIA Radio Tanzania has reactivated the use of 7280 kHz. Unfortunately, transmissions on that frequency continue to be erratic, and it seems only to be scheduled for usage at approximately 0700-1300, restricting propagation to the region. The parallel 5050 kHz continues to be used at 0200-2100. (Chris Greenway, Kenya, Nov BDXC-UK Communication/DX Listening Digest/Cumbre DX)

TATARSTAN B-02 schedule for **Radio Tatarstan**, all via Samara:
0500-0600 15105
0700-0800 15105
0900-1000 11915
(R. Bulgaria Observer/Nedjalkov-BUL)

TOGO 5047, **Radio Togo** (p), 2121-2201, Found this one back on w/strong signal and weak modulation, as it was when it left the air. Rapid tkk by W accompanied by M at t/in. Low-to-inaudible modulation. (Valko 9 Nov./Cumbre DX)

UKRAINE Hare Krishna station **Radio Krishnaloka** began test transmissions on 7415v kHz shortwave on September 1. Regular broadcasts were scheduled from the beginning of October, from 0300-0500 and 1300-1500. Postal address for the station is given as ul. Avtozavodskaya, dom 6, kvartira 24a, Moscow. (DXplorer via DXing.info/ARDXC)

USA 4950.00 **WHKT** Portsmouth VA (x3) 2032 Possible 3rd harmonic of this station with Radio Disney programming. Harmonic is intermittent, but clearer than the original on 1650 when present - enough to block VOA Sao Tome. (Fine 10 Nov)

UZBEKISTAN Freq change for **Radio Tashkent** to ME, all on 5885 (ex-6025):
1630-1700 Farsi

SALAMA RADIO

8th February 2002.

Scott R, BARBOUR Jr
P.O. BOX 893
INTERVALE 03845
NH
USA

Dear Scott R

Thank you very much for listening to Salama Radio. We can confirm that you did tune in to Salama Radio broadcasting on the frequency you mentioned. We have been broadcasting at 12.025 MHz since December 2001, and until 31st March 2002, at 1900hrs UTC.

We have been on air since July 6th 2001, and we broadcast everyday in Hausa and English at present. Our programme is mainly Christian with about 30% of programs dedicated to moral issues, African folk songs and music.

Enclosed with this letter is a Salama Radio sticker with our new programme schedule. Do tell your family and friends about Salama Radio. We hope you will be able to tune into Salama Radio as often as you can. Please visit our website for more information about Salama Radio. Hopefully the new frequency change would be 15.250 MHz on the 19 Metaband from the 1st of April. Please listen on the radio for the new frequency change in March when it will be announced. We appreciate your support and we hope that you find the program interesting.

Thank you once again for tuning in to Salama Radio.

God Bless

Dr Jacob Abdalla

Dr Jacob Abdalla
Chairman, Salama Radio.

Net Notes

Tom Sundstrom • P.O. Box 2275 • Vincentown, NJ 08088-2275 • Fax: 609-859-3226 • trs@trsc.com
<http://www.trsc.com>

The Winter season is upon us. If you haven't already picked up your Passport to World Band Radio, do. There are a number of interesting feature articles in the 2003 edition.

Radio New Zealand International Radio New Zealand

International has a second source of audio on the net. In addition to the widely-known audionet.co.nz, RNZI's audio-on-demand is carried on XtraMSN (yes, Microsoft's New Zealand portal). The audio quality is good. Pay attention to the extra commas and punctuation herein -- xtramsn.co.nz/musicandvideo/0,,6151,00.html -- and there is video from TV3.

As an aside, are you interested in sailing? Unlike the stateside portals, XtraMSN also carries a section on Team New Zealand and the Americas Cup Race (xtramsn.co.nz/teamnewzealand).

Schedules

Questions have come up on sources of summary broadcast schedules available on the Internet. We've checked, and the best ones in our opinion are the following.

Mark Fine's offerings come in various flavors. I like the Java-enabled browser. Take your pick: www.fineaware-swl.com/schedules.

John Figliozzi, ANARC, and NASWA have a program-oriented listing at anarc.org/naswa/swlguide.

Tomas Hood, NW7US, is expanding his amateur radio and propagation site to include shortwave at a rate faster than I can keep up with it. Fast search engines manipulate HFCC data. Check out the goodies at shortwave.hfradio.org.

All of these resources are free. We cannot recommend Bernd Friedewald's ILG service. Numerous newsgroup and mailing list complaints fall into two categories:

(1) failure to respond in a timely manner to requests for passcode access, and (2) broadcast data is very slow to be updated at the time of seasonal changes. Please research this for yourself.

FCC site access

John Neuhaus, WA2JXE, has compiled an unofficial FCC document locator Web site that purports to be easier to use than the agency's own pages. Strictly text, the site loads very quickly and may just be the answer to finding that piece of information you are looking for. Further, Neuhaus has a spectrum allocation chart and table that is a breeze to use, and numerous CFRs (Code of Federal Regulations) and links to third-party frequency charts and lists. Almost all of this is for the USA, but there are a few references for the rest of the world. It looks like this Web site should answer the incessant questions in the newsgroups of who operates on what frequency ranges. Check out www.jneuhaus.com for yourself. Aussie's R&C bye-bye?

It's now been more than a year since I last wrote a "Baudwalking" column for the Australian Radio and Communications magazine. Chris Edmondson disappeared from sight under a mountain of debt and the business manager, Trent Sampson, attempted to get the magazine restarted. One issue was published in late summer 2002, but that's been it. I can only suggest you watch the new Web site www.radiomag.com.au for developments. Bob Padula's EDXP newsletter may also have some news from time to time.

Seasons Greetings and Happy 2003!

Pirate Radio Report

Chris Lobdell • P.O. Box 146 • Stoneham, MA 02180-0146 • clobdell@attbi.com

Hello and welcome to the December 2002 **Pirate Radio Report!** Happy Hanukkah, Merry Christmas and Happy New Year to all. Lots of stuff to bring you up to date on, so let's get right to it!

Steve Anderson, Operator of KSMR, United Patriot Radio apprehended!

You knew it had to happen sooner or later. Here is the info as reported in the *Courier-Journal* newspaper based in Louisville, KY.

Steve Anderson, a white supremacist who operated an illegal radio station from his home in Pulaski County, KY was arrested in the mountains of southwestern North Carolina on October 22nd, 2002 by the ATF and the North Carolina State Bureau of Investigation, acting on a tip received from the America's Most Wanted TV program. Anderson had been on the loose since October 14th, 2001 when he opened fire on a sheriff's deputy when he was stopped for a traffic violation.

Readers of this column will remember his radio station KSMR/Kentucky State Militia Radio, later changed to UPR/United Patriot Radio which operated from February until October of 2001. Is failure to QSL a federal offense?

Lots of logs, so let's get to 'em!

Many thanks to Ralph Brandi-NJ, Ross Comeau-MA, Rich D'Angelo-PA, Bill Winkins-MO and Joe Wood-TN.

Betty Boo Radio, a Halloween station was noted on October 25th at 0105 UTC on 6925 kHz, AM mode with good signals in TN. Announcer Kiel Ovrandy presenting the Halloween show. Uses the interval signal of "Boop Boop de Boop" followed by a pipe organ fanfare. Songs included "I'm The Bogeyman", "Skeleton In The Closet" and others. Uses Box 28413, Providence, RI 02908 as a maildrop. [Wood-TN]

KIPM, Alan Maxwell's "Illumati" Station was noted on October 27th at 0231 with a scary story, announcing the Elkhorn, NE maildrop. [Box 69, Elkhorn, NE 68022].

Melvin Malfunction Radio [tentative]. Heard on October 31st on 6950 kHz USB at 0318 by 0320 UTC. Just heard a possible ID and unreadable email address, then gone into the mud. [Wood-TN]

Radio Azteca, logged on October 18th at 0039 on 6952 kHz AM discussing a list of possible new names for the station. Reception was very good. [Wilkins-MO]

Radio Casanova, the Dutch Europirate, was heard from 2214-2226 in Dutch & English with IDs and pop music programming on 6260 kHz on November 15th. [Comeau-Maine DXpedition]

Radio Skyline, another Europirate was logged on November 17th at 0716 playing the instrumental "Popcorn" and other disco mx on 6298.8 kHz. [Comeau-Maine DXpedition]

ROZ/Radio Omroep Zuid, the Dutch Europirate was logged on 21890 kHz October 27th at 1420 UTC past 1510 playing pop music, giving IDs and an e-mail address. [Brandi-NJ]

Voice Of The Abnormal was noted with their Yukon Jack Halloween special On October 26th at 0042 UTC on 6952.5 kHz USB. [Wilkins-MO]

WHYP, logged on October 31st at 0238 with poor reception on 6950 kHz USB with their Halloween program. Mentions of Mt. Kisco and JTA. [Wood-TN]

WJFK, Noted here while typing this column on 6953 kHz USB at 0037 UTC on 29 November with "Abraham, Martin and John" by Dion, "Sunny" by Bobby Hebb. WJFK ID by man several times at 0046 s/off. This station only operates on or near the anniversary of JFK's assassination.

WMOE, noted on October 18th at 0005 UTC with pop music on 6955 kHz AM. Fair to good reception. [Wilkins-MO]

WMPR, noted on 6955 kHz at 0110 UTC on November 17th. Not the usual techno-pop music they usually play. Also logged on Nov. 8th at 2332 UTC. [Wood-TN]

Unidentified. 27105 kHz, noted from 0205 to 0245 s/off and from 2335-2342 UTC on November 8th. Most of the music was c&w influenced gospel type music. The transmitter seemed to switch off between songs. Does anyone have any ideas on the ID of this station? [Joe Wood, 124 Brittany Dr., Gray, TN 37615]

Until next month, Happy Pirate DX!

Nice turn out this month. Lots of good DX catches even with such poor conditions this month. I am certain conditions will improve this month. Hard to believe but the end of another year. Not sure where it went. Merry Christmas and a very Happy New Year!

- 3275 PAPUA R. *Southern Highlands* 1156 Vern pops, poor but still going at 1210 recheck, 10/26. (Lineback-KS) 1131-1213 island music, man w/ EE wx, TC and general chatter. Brief news 1200; back to music. Poor 11/5. (D'Angelo/FCDX-PA)
- 3279.55 ECUADOR LV *del Napo* 0820-0935+ tune-in to SS rel pgming. NA 0900, back to lcl rel pgming with choral mx. IDs at 0909 & into Andean mx. Good 10/12. A regular lately. Interesting they would play NA at 0900 even though they were not signing on or signing off. (Alexander-PA)
- 3290 GUYANA Vo *Guyana* 0322 EE; oldies w/Roy Orbison; the Platters; YL ID; wak but in the clear 10/25. (Barbour-NH) 3291.2 (TENT) EE 0200, bit of steel drum mx, other Caribbean mx; M anncr w/Caribbean accent. Very weak and noisy. Still no solid ID, but getting closer! 10/19 (Brouillette-IL) 3291.3 0155-0220 M EE, EE pops, ads, YL EE, reggae, poor 10/20; occ. fade, het. Also 0800 M EE ID, nx, followed by M speech in EE, fair 10/20. (Lineback-KS) 0200 YL with nx and SA music; very faint 10/19&23. (Wood-TN)
- 3315 ADMIRALTY IS R. *Manus* 1131 M in Vern, Vern pops, poor but still going at 1213 recheck, 10/20. (Lineback-KS)
- 3315 INDIA AIR *Bhopal* 0054-0118 f/o mix of Hindi vocals & M talk. Fair at tune in but slowly fading beginning at 0115, 11/4. (D'Angelo/FCDX-PA) (p) 0053 OM sings; poor 11/4. (Field/FCDX)
- 3325 KALIMANTAN RRI *Palangkaraya* 1215 M in Indo talk; over Guatamala, poor to fair 10/20. (Lineback-KS)
- 3326 NIGERIA R. *Nigeria* Lagos; 2047 mx & EE tlc. 2100 ID as Radio Nigeria Lagos, but Non IS of Drums. Audible-Fair 11/2. (Takeno-JPN)
- 3345 MOLUCCAS RRI *Ternate* 1158-1203 SCI into RRI nx a little late, poor 10/26. (Lineback-KS)
- 3345 NEW GUINEA R. *Northern* 1132-1202* YL in vern, vern pops, anmts and off w/GSTQ, no RRI, poor 10/20. (Lineback-KS)
- 3350 COSTA RICA REE 0223 SS pop vocals, good 10/20. (Lineback-KS) SS 0210 end of nx, ID, REE features. Solid S9+10 signal 10/19. Heard only occasionally, but can't be missed when it's there. (Brouillette-IL)
- 3360 GUATEMALA LV *de Nahuala* 0215 MSS1tk, TC, CAM style music. Weak and noisy 10/19. (Brouillette-IL)
- 3366 GHANA *Ghana B.C.* 2100 ID and EE nx. Good signal. Also heard it's spurs 3285.65kHz and 3346.35kHz, fair condx. 11/2 (Takeno-JPN)
- 3375 NEW GUINEA R. *W. Highlands* 1138 M in EE/Vern, Vern singing, poor 10/20. (Lineback-KS)
- 3905 NEW IRELAND RNI 1137 YL in Vern, Vern pops, poor 10/20. (Lineback-KS) 1155-1202* island music with M anncr w/ID, promo anmts and TC in English. Poor to fair after overcoming ARO QRM 11/5. (D'Angelo/FCDX-PA)
- 3955 U.K. R. *Korea Int*, Skelton, 2134 German talk, ID 2147, fair 11/2. (Takeno-JPN)
- 3976 KALIMANTAN RRI *Pontianak* 1206 RRI nx by M, poor 10/26. (Lineback-KS)
- 4000.1 SULAWESI RRI *Kendari* 1148 Oct 20, Indo pops, poor (Lineback-KS)

- 4388.9 PERU R. Imperio 1005-1025 w/live rel px M&W in responsive church service in SS, crowd noise; break for ID by M 1017, also mentions 92.1 FM in Chiclayo, then back into pgm. ann'd as "La Hora de Salvacion." 10/27. (Newman-IN) 4388.91 1006 rel sermon and vocals 1006. Fair 11/4. (Kohlbrenner FCDX/PA) 1012-1021 Nov 4, vocals, man with ID and TC. Fair to good 11/4. (D'Angelo/FCDX-PA)
- 4606.6 IRIAN JAYA RRI Serui 1147 Indo pops, poor rising to fair by 1227 recheck, 10/20. (Lineback-KS)
- 4753.3 SULAWESI RRI Makassar 1208 RRI nx by M, good 10/26. (Lineback-KS) 4753.38 2120-2130, Indo pops and chatter by M&W; 11/3. (Kohlbrenner FCDX/PA) 2130-2202 M long Indo talk till SCI, then Jakarta news. Fair level but deteriorating badly by top of the hour, 11/3. (D'Angelo/FCDX-PA)
- 4760 LIBERIA ELWA 2132 EE rel pxm with gospel music 11/4. (Kohlbrenner FCDX/PA) 2140 Christian hymns, W w/freqs, NA 2158; strong 11/4. (K Field FCDX 4 Nov 2002) 2104-2115 EE; M w/mx request program; ID, Ment of "Monrovia". Poor, weak 11/14. (Barbour-NH)
- 4760 TAJIKISTAN Radio Liberty 10/13 0124 talk in presumed Tajik, music @ 0130; // 9760 via Lampertheim, Germany, but about a half second behind; Dan Ferguson tells me this is 100 kW. (Brandi-NJ)
- 4780 GUATEMALA Radio Cultural Coatan 1057-1126 M hosting morning mx px w/frequent IDs and TCs. Fair with swisher QRM 11/4. (D'Angelo-PA) 4779v 1036-1058 M in SS tlk over organ mx; instl "There's no place like home" (?) 1054; then canned ID and freq anmt; more tlk over mx. Fair 10/30. (Barbour-NH) 4780.1 at 1221 rancheras, M in SS, fair fading to poor, swisher QRM 10/20. (Lineback-KS)
- 4781.36 ECUADOR Radio Oriental 1034 M SS ID, Andean vocals; 11/4. (Kohlbrenner FCDX/PA) 4781.38 10/31 1005 local music, a couple of IDs as "Oriental" @ 1008, more music; hit by the swooper, but not too badly (Brandi-NJ)
- 4790 INDIA AIR Chennai 0039-0045* caught final vocal Hindi selection prior to M ID & s/off anmts; fair to good signal 11/4. And *0000-0045* 11/5, s/on ID and anmts; then nx & mx. M w/ long talks in Tamil. (D'Angelo/FCDX-PA)
- 4800 INDIA AIR Hyderabad *0024-0100 flute IS; M&W singing, then M tlk in Hindi; sitar mx; M EE ID 0035: "This is All India Radio, the news."; then EE nx, return to vocals at 0040. Good signal 11/4. (D'Angelo, Field & Kohlbrenner/FCDX-PA)
- 4815 ECUADOR R.El Buen Pastor, good the last few mornings, carrier coming on arnd 0955, px starting at 1000 with NA, long HC instl selection, opening anmt in Quechua w/fqy and m.b., some SS after that but no SS ID as such noted; px cont with HC mx, anmts. (Berg-MA)
- 4820 BOTSWANA Radio Botswana 2138-2200* pop vocal program to ID and close down anmts. Fair 11/4. (D'Angelo/FCDX-PA)
- 4820 CHINA Xizang PBS 1143-1154 CC. M w/mx & tlk. Poor, unusable by 1154; 10/28. (Barbour-NH) 4820 CHINA (TIBET) Xizang PBS, 0005-0050 CC talk by M&W w/mx segments. Fair and clear reception until India commenced flute music IS at 0024; 11/4. (D'Angelo/FCDX-PA) 0010 OM & YL alternate in CC. Moderate signal. 0016 co-channel tx (p) from India, 11/4. (Field/FCDX-PA)
- 4820 INDIA AIR Kolkata *0024-0050 while listening to China surprised to hear flute IS poked through followed by group vocals and other Hindi musical selections. Generally poor with a few fair peaks but eventually faded under the Chinese station. 11/4. (D'Angelo/FCDX-PA)
- 4830 VENEZUELA R.Tachira, San Cristobal; 0253 - Very nice mx at tune in; Slight het from R. Litoral, 4832 but best in sb. S10 signal level with slight fades. Continuous mx thru TOH. M ID 0302 and back to more fantastic mx. Excellent audio quality 11/9. (Montgomery-PA)
- 4832 HONDURAS R.Litoral, La Ceiba; 0031 - Vy nice copy; Tent ID 0032 by W & back to mx. S7 levels with some fades but fairly clear reception of very nice mx. M SS ID again 0033. (Montgomery, PA)
- 4840 INDIA AIR Mumbai 0036-0043 W w/Hindi nx; ID and music program. Poor 11/5. (D'Angelo/FCDX-PA)
- 4845 GUATEMALA R.Kekchi 0250-0303* Rel pgming with talk in lcl lang. SS s/off anmts 0258 with call letters, R.Kekchi ID & mention of freq. s/off with NA. Fair 10/19. (Alexander-PA)
- 4845 MAURITANIA Radio Mauritanie 0410-0440 M non-stop AA talk complete with coughing to clear his throat when necessary. Running extended hours for Ramadan. Good 11/13. (D'Angelo-PA)
- 4860 INDIA AIR Delhi *0025-0038 caught flute music IS and vocals prior to EE ID & nx by M. Then female vocals selection. Fair 11/4. (D'Angelo/FCDX-PA) (p). 0023 Flute mx same as //4820; 11/4. (Field/FCDX) 1230 time pips into EE nx by YL, vy pr //4760 vy pr, and 4920 under China; 10/20. (Lineback-KS) 0056 - ID is tent. with lots of Indian style mx. Nice copy, S6 lvls with fades and some static problems. But is audible. M anc TOH with short tlks & back to mx. Fade to mostly noise at 0112 with occ fade ups. 10/12. (Montgomery, PA)
- 4885 BRAZIL Radio Clube Do Para 0226-0235 OM animated PP tlk. Jingles/ads w/telephone ringing, Phone #, ID & fqy 0234. More tlk. Good 11/6. (Barbour-NH)
- 4890 PAPUA Nat R 1144 EE pops, fair to good 10/20. (Lineback-KS)

- 4895 SARAWAK RM 1255 lang pops, good 10/20. (Lineback-KS)
- 4904.9 CHINA? *unid* 1235-1243 M in lang speaking over classical instrumental, lang singing //4920, fair; 1301 OM in CC w/nx; 10/20. (Lineback-KS)
- 4915 BRAZIL R. *CBN Anhuaguera* in PP 0215; M ancw w/phone ins, TC's, ID; many ments of Goias. 10/9. (Brouillette-IL)
- 4915 GHANA R. *Ghana* Accra; 2023-2032 EE/Vern. Alt M&W EE w/nx re \$ aid to schools. ID as "R.Ghana" and "Ghana B.C." TC and into Vern. Very Good 11/14! (Barbour-NH)
- 4925 INDONESIA *RRJ Jambi* *2155-2205 s/on w/fanfare mx, W ancw w/several mentions of Jambi, M w/RRJ Jambi ID; into SCI 2159, 11/4. (Kohlbrener/ FCDX-PA) 2156-2223 instl mx to local ID by W; then SCI 2159; into Jakarta news. Back to local program 2215 with vocal selection. Poor but clear, 11/4. (D'Angelo/FCDX-PA) 2152 weak signal, mx, tlc, SCI 2159. 11/4. (Field/FCDX-PA) 1238 Indo pops, poor-fair, fading, 10/26. (Lineback-KS)
- 4939.65 VENEZUELA *Radio Amazonas* 0923 SS vocals, ID & TC's. Fair 11/4. (Kohlbrener/FCDX-PA) 4939.66 presumed. I wish they would do something about their audio. Carrier at *1000 is pretty good, but audio is way, way down there, basically unuseable. Opening anmt hrd 10/26 & other days, but can't make anything of it; then mx. (Berg-MA) 4940 VENEZUELA R.Amazonas 0845-0904 10/23 SS, choral mx and ballads. M ID at 0903, signal dropped off at this point; antenna switch? Fair-poor 10/23. (Scott R Barbour Jr NH)
- 4950h USA *WHKT* Portsmouth VA (x3) 2032 poss 3rd harmonic w/ Radio Disney programming. Harmonic is intermittent, but clearer than the original on 1650 when present - enough to block VOA Sao Tome; 11/10. (Fine-VA)
- 4959.8 DOMINICAN REP R. *Villa / Cima Cien*, SS 0230, bachata mx, liquor ads complete w/"alcohol is bad for your health" disclaimer, ad for a local news magazine. Jingle ID's for "Radio Cima Cien." Very solid signal and punchy audio; 10/9. (Brouillette-IL) Radio Cima at 0017 with almost non-stop music, slick "Cima" IDs sung by Wl 10/28. (Dybka-TN)
- 4960 ECUADOR R.*Federacion* 1033-1055 lively vocal Andean mx, really nice sig and audio, M ancw in vern (Shuar?) 10/27 (Newman-IN)
- 4965 ZAMBIA *Christian Voice* 2136-2142 Afr rel vcls, M EE ID 2142. (Kohlbrener/FCDX-PA) Voice International, 2142-2210 instl mx; W EE ID & features about friendship. Nx at 2200. Poor to fair 11/4. (D'Angelo/FCDX-PA)
- 4976 UGANDA R.*Uganda* Kampala 2033-2101* cont hi-life mx in Vern. (Swahili?) w/W tlc and IDs during mx. Presumed production credits at 2052 by M, names and "Engineer" ment. NA at s/off. Very good, clear signal 11/14! (Scott R Barbour Jr-NH)
- 4980 VENEZUELA *Ecos del Torbes* SS 0245 very old romantic songs, canned ID's as "Esta noche recuerdas. Unas predilectas de la cancion romantica de ayer por Ecos del Torbes." Strong, but bad hum; 10/9. (Brouillette-IL)
- 5005 NEPAL *Radio Nepal* 0040-0050 presumed the one here with lcl mx, W ancw 0045. Poor 11/5. (Kohlbrener FCDX/PA)
- 5009.6 PERU *Radio Altura* 0930 Andean vcls, ad string, several ID's. Poor 11/4. (Kohlbrener FCDX/PA) 1002-1025 lot's of lively OA vcls hosted by a man with frequent TCs and IDs. Fair 11/4. (D'Angelo/FCDX-PA)
- 5010 INDIA *AIR Thiruvananthapuram* 0058-0132 long Hindi talk by M; mx & tlc by W. ID 0130, then nx. Good 11/5. (D'Angelo/FCDX-PA) (p) 0051 YL sings, sitar & other IN instruments; excelent 11/4. (Field/FCDX-PA)
- 5015 TURKMENISTAN R.*Bakhara* presumed 0055-0110 local AA sounding vcls & instls, five "bells" at 0100 with talk in presumed Turkman but no ID heard. 11/5. (Kohlbrener FCDX/PA)
- 5025 UZBEKISTAN R. *Tashkent* Surprised to run across this one at 2145, C.Asian female vocalizing, then EE talk about diplomatic relations, brief closing anmt at 2157 ending with ". . . goodbye everyone from R. Tashkent." Carrier stayed on until 2159. Not a bad signal 10/19. (Berg-MA)
- 5030 BURKINA FASO *Radio Burkina* 10/13 2135 Radio drama in French, ending with gunshots and a murder, credits, then African music from 2145, ID @ 2153 and again @ 2200 (Brandi-NJ) 2220 FF, Afro pop and reggae. Rather weak & noisy 10/15. (Brouillette-IL)
- 5035.1 BRAZIL R. *Aparecida* 2330 PP, lite orch music, "Ave Maria", We ancw w/poor studio audio. Ments of Aparecida. 10/12. (Brouillette-IL)
- 5040 INDIA *AIR Jeypore* 0051-0058 nice selection of Hindi vocals w/M ancw. Fair 11/4. (D'Angelo/FCDX-PA) (p) 0052 IN mx. Moderate 11/4. (Field/FCDX-PA)
- 5085 USA *WWRB* 0219 Tom Valentine stuff, ads for gold investments also //5050 (10/28 Dybka-TN)

- 5100 LIBERIA *R.Liberia Intern.* Monrovia; 2310 - S8 carrier level noted and some very weak audio. First time hrd in some time now due to war in Liberia. Carrier first noted at 2245 but no audio till 2310 or so. Modulation at less than 10% at this time but improving as time goes by. Audio improving by 2325 but still very weak. Id is tentative. 10/20. (Montgomery, PA)
- 5384.3 PERU *Radio Huarmaca* 1047-1056 fade out; group vocals px hosted by M ancw/SS talk, TC and ID. Poor 11/4. (D'Angelo/FCDX-PA)
- 5469.96 LIBERIA *R. Veritas* from 2210 Nov 2 with Afropop & hi-life style mx, much talkover by M ancw, definite "R. Veritas, your . . ." at 2220. Building to arnd 2230, then leveled off. ID 2255, TC for 5 mins to 11, seeming rel msg (but very low audio), 2201 closing anmt and off without NA. Mx audio was better than voice, and signal was better in LSB than USB, though some ute QRM on the low side. Poor-fair overall 11/2. (Berg-MA) 2249-2302* gospel mx px w/occ comments over the music; prayer 2255, then closing anmts & ID. 11/3. (Kohlbrener/FCDX-PA) 2242-2303* vcls w/M tlk over mentioning w/ID & TC: "voice of truth, Radio Veritas. it's 5 minutes to eleven." Fair to good signal. (D'Angelo/FCDX-PA) 2123-2137+ 11/03 EE. Rel. promos with mx. IDs, "Radio Veritas, your.(?)..station" and another at 2130 ment. "VO Hope". Program, "Time for Peace" re peace in Liberia and young people. Fair-poor, choppy, fading after 2137; 11/3. (Barbour-NH) 2251 OM singing. 2253 OM with eg ID "Radio Veritas Monrovia, Liberia, then M preaching in EE. 2258 the Our Father is recited. 2301 signal disappears suddenly. 11/3. (Field/FCDX-PA)
- 5486.75 PERU *Reina de la Selva* 1018-1032 rustic vcls, crowing roosters, ID's 1027 & 1031. Poor 11/4. (Kohlbrener FCDX/PA) 1023-1047 M ancw frequent IDs and TCs ("5 y 39 minutos de la mañana . Este es Reina de la Selva.) & SS chatter hosting program of OA music. Weak but clear. Thanks to the ever alert Fred Kohlbrener for this one. 11/4 (D'Angelo/FCDX-PA)
- 5678 PERU *R.Ilucan* 0145-0245* SS talk, OA folk mx. ID. Anmts by M/W. Abrupt s/off. Weak 10/5. (Alexander-PA)

va - Various
do - Domestic
om - Omnidirectional
in - Inactive
ir - Irregular
oc - Occasional
al - Alternate
lf - Lower Sideband
uf - Upper Sideband

16th Annual Winter SWL Fest

Sponsored by **NASWA**

March 7-8, 2003

Best Western—The Inn at Towamencin

(formerly Holiday Inn),

Sumneytown Pike, Kulpsville, Penna.

Plan to attend your favorite forums Friday and Saturday. Enjoy meeting with your friends in the Hospitality Room. Bring radio related items for the swap meet or to donate for the Silent Auction. Check out your friends' receivers, bring one of your own for others to try!

No frills; just shortwave, longwave, mediumwave, pirates, and scanning. Once again you will enjoy the camaraderie of your hobby friends.

Please note, there is an incentive for you to pre-register, as prices are more expensive for those who wait. Registration options are also more flexible than in the past, with new one-day and student registrations. **If you wish to participate in the meals, you must register and inform us that you will be attending by Thursday morning, March 6th.** If you choose not to participate in the meals, the hotel has a restaurant, and there are other restaurants nearby.

Early Registration (rec'd by March 2, 2003)

Full registration: **\$43**

Two-day Partial (no meals): **\$17**

One-day Partial (no meals): **\$9**

Full spouse/son/daughter: **\$28**

Banquet only spouse/son/daughter: **\$16**

Student (w/ valid ID, no meals): **\$5**

Many things, like the raffle, remain the same:

GRAND PRIZE To be announced

SPECIAL Register early to win a sw portable! One free entry for an early-bird registration received by February 12, 2003.

Please bring items for the Silent Auction. Proceeds are donated to charity.

Checks should be made payable to WINTER SWL FEST. Register directly with the hotel for your rooms by calling the Holiday Inn at (215) 368-3800. For 2003, one special rate **\$75** single or double! Tell the hotel staff you're with the WINTER SWL FEST to receive this special room rate. *You must make your reservation directly with the hotel to receive this rate; reservations via the Best Western 800 number or web site are not eligible for this rate.* Up to the minute info. can be found on the Winter SWL Fest Web Page at <http://www.swlfest.com/> or from <http://www.anarc.org/naswa/>.

The Best Western—The Inn at Towamencin is located at Exit 31 of the PA Turnpike Northeast Extension-Lansdale Interchange. Improved access from the south with the Blue Route (I-476)—ask for details. Limo service is available from Phila. Intl Airport directly to the hotel.

Please submit the following form with your registration amount or send for more information to:

SWL WINTERFEST

P.O. Box 4153

Clifton Park, NY 12065
