# Quality Equipment From Universal Radio

## PASSPORT TO WORLD BAND RADIO 2008 Edition

By Larry Magne. A *must have* book for every worldband listener. Here is everything you need to know about when and where to hear the world; hour by hour, country by country and frequency by frequency. Also includes candid, hard hitting reviews on worldband radios including portables and tabletop models. The world's number one selling shortwave guide. An indispensable reference with 560 pages!  
Order #1008 ..... \$22.95 \*\$18.90

## UNIVERSAL RADIO CATALOG

Our new huge 124 page catalog is now available. Please stop in, email or call for your **FREE** copy.

[07-09]

*etón*

Two E1 versions  
now available!

E1 &  
E1 XM

OPTION

The **etón E1 XM** is the world's first radio that combines AM, FM, shortwave and XM Satellite radio into one ultra high-performance unit. The E1 is an elegant confluence of performance, features and capabilities. The look, feel and finish of this radio is superb. The digitally synthesized, dual conversion shortwave tuner covers all shortwave frequencies. Adjacent frequency interference can be minimized or eliminated with a choice of three bandwidths [7.0, 4.0, 2.5 kHz]. The sideband selectable Synchronous AM Detector further minimizes adjacent frequency interference and reduces fading distortion of AM signals. IF Passband Tuning is yet another advanced feature that functions in AM and SSB modes to reject interference. AGC is selectable at fast or slow. High dynamic range permits the detection of weak signals in the presence of strong signals. All this coupled with great sensitivity will bring in stations from every part of the globe. Organizing your stations is facilitated by 500 user programmable presets with alpha labeling, plus 1200 user definable country memories, for a total of 1700 presets. You can tune this radio many ways such as: direct shortwave band entry, direct frequency entry, up-down tuning and scanning. Plus you can tune the bands with the good old fashioned tuning knob (that has *new fashioned* variable-rate tuning). There is also a dual-event programmable timer. Whether you are listening to AM, shortwave, FM or XM, you will experience superior audio quality via a bridged type audio amplifier, large built in speaker and continuous bass and treble tone controls. Stereo line-level output is provided for recording or routing the audio into another device such as a home stereo. The absolutely stunning LCD has 4 levels of backlighting and instantly shows you the status of your radio.

Many receiver parameters such as AM step, FM coverage, beep, kHz/MHz entry etc., can be set to your personal taste via the preference menu. The E1 has a built in telescopic antenna for AM, shortwave and FM reception. There is a switchable antenna jack [KOK] for an external antenna. Universal also sells a PL259 to KOK antenna jack adapter (#1052 \$14.95) as well as a sturdy angled Lucite radio stand (#3873 \$16.95).

The E1 XM comes with an AC adapter or may be operated from four D cells (not included). 13.1" W x 7.1" H x 2.3" D Weight: 4 lbs. 3 oz.

E1 XM Order #0101 \$499.95  
▶ ▶ ▶ ▶ New E1 version!  
We are now also pleased to offer the basic E1 without XM upgradeability at \$100.00 less.  
E1 Order #0301 \$399.95

The Eton E1 XM is XM ready, so you may purchase the Audivox CNP2000 DUO XM antenna module at any time. It has a 25 foot cable. (An optional XM-EXT50 foot extension cable is also available #4905 \$39.95.)  
CNP2000DUO Order #0072 \$58.95

Note: The CNP2000 DUO antenna module and XM subscription are sold separately. Activation and monthly subscription fee required for XM.

## GRUNDIG YB-300PE

**FREE**  
Receive a FREE  
Grundig YB-300PE  
with your Eton E1 or  
E1 XM purchase!

The **Grundig YB-300PE Professional Edition** is yet another model in the proud Yacht Boy series and offers impressive features and performance Coverage includes: AM and FM plus shortwave from 2.3-7.8 and 9.1-26.1 MHz. Shortwave tuning is in 5 kHz steps (AM is 9 or 10 kHz). FM stereo is provided to the earphone jack. Twenty-four memories store your favorite stations. Direct keypad entry, Band button, scanning plus Up and Down tuning provides rapid access to any frequency. The YB-300 PE features a large LCD display with display lamp for momentary illumination. A built in 24 hour clock keeps you on U.T.C. Time. An adjustable 10 to 90 minute sleep timer turns the radio off even if your fall asleep. Other refinements include: DX-Local Switch, Scan and Lock. The back of the radio even has a flip-out tilt stand. The left side of the radio features the DC input jack, the external antenna input jack and earphone output jack. Includes an AC adapter, vinyl carrying case, carrying strap, plug in external wire antenna, Owner's Manual and stereo earphones. Operates from three AA cells. Titanium colored 5.9 x 3.5 x 1.25 in. 13 oz. Originally introduced at \$99.00.  
YB-300PE Order #0300 \$49.95

*etón* E5

**FREE**  
Receive a FREE  
Grundig FR-200  
with your Eton E5!

The **etón E5** is a world class portable radio covering long wave, AM, FM and shortwave. It offers SSB-Single Side Band, 700 memories, keypad entry, scanning and a 24 hour clock timer. You also get: Line Output, Local/DX Switch, Wide-Narrow selectivity and external SW antenna jack. Operates from four AA cells (not supplied) or the included AC wall adapter. Comes with a manual, wrist strap, protective case, wire antenna and ear buds. 6.675 x 4.125 x 1.125" 12.2 oz. One year limited warranty.  
List \$169.95 Order #0055 \$149.95

▶ Purchase your Eton E5 from Universal before 01/31/08 and receive a **FREE** Grundig FR-200 AM/FM/SW wind-up emergency radio with your order!

Except Alaska, Hawaii and Puerto Rico.

Season's greetings from Wyomissing! It is hard to believe that another year has come and gone. Where does the time go? The past twelve months have been a mixed bag on the shortwave bands with conditions bottoming out as the sunspot cycle reached its low point. Hopefully, 2008 will be the beginning of improved overall conditions on the shortwave bands. Let us hope that many of our favorite stations continue to operate in our favorite medium. Remember to order your favorite shortwave listener—which could be yourself, hi!—a gift or two from the Company Store. **Jim Strader** will be looking forward to your order.

300 issues! It has been almost six years since the club's electronic *Flashsheet* was launched on December 15, 2001 with Editor **Sheryl Paszkiewicz** at the helm. In her opening remarks Sheryl mentioned: "Welcome to the First Edition of the NASWA Flash Sheet. It is very exciting to be part of NASWA's move into the electronic age and I never thought I would be editing such a column. However, I am one of the people who does not want to see the print version of the *Journal* die out." The blending of the new electronic distribution of DX loggings along with the traditional print *Journal* has been a huge success thanks to the many fine folks that have participated from day one. Although initially targeted to be a periodic or perhaps a bi-weekly publication, it became clear right away that a weekly schedule could be supported by the membership. Although the number of contributors were a mere handful at the beginning, today we consistently average 10-14 participants per week. **Ray Bauernhuber** took over the editing responsibilities from Sheryl with issue #146 on November 14, 2004. After computer woes impacted Ray's ability to continue editing, I took over for a brief stint as temporary editor until our current editor, **Mark Taylor**,

took the reigns with issue #229 Extra on June 21, 2006. Mark's debut was delayed a few days because of his battle with the flu. Over the six year period the size and scope of the *Flashsheet* has constantly grown reflecting the interest in the membership in this "new" enhancement to the club. Over 200 club members are on the distribution list for "the sheet." I want to thank **Sheryl Paszkiewicz**, **Ray Bauernhuber** and **Mark Taylor** for their dedication in support of the *Flashsheet*. Without the collective efforts of our editorial team that has been faithful supported by member contributions, this could not have happened. Thank you one and all! Onward!!

*The World QSL Book* (ISBN: 978-0-9796311-0-8) by **Gayle Van Horn**, W4GVH, which was recently released by Teak Publishing of Brasstown, North Carolina, is 528 pages in a handy CD format; it is not a traditional paper book! The first 92 pages contains of useful hints on how to get QSLs from all kinds of radio stations such as international and domestic broadcasters on shortwave, medium wave, FM, TV, amateur radio stations, utility stations, time and frequency stations, pirate and clandestine stations. The remainder of the book lists the latest known postal and e-mail addresses and websites of stations. *The World QSL Book* by Gayle Van Horn is available through **Jim Strader** (74 Miller Street, Middleborough, MA 02346-3216; e-mail at jimstrader@msn.com) at the Company Store for \$18.95 plus \$3.00 shipping and handling.

From **Anker Petersen** we learn that the recently held Conference of the European DX Council (EDXC) in Lugano, Switzerland was very successful. During the conference, the former host from Swiss Radio International, **Bob Zanotti**, chaired a roundtable discussion about shortwave broadcasting when the

EDXC started in 1967 and today. Participants were the present Secretary General of the EDXC **Tibor Szilagyi**, former Secretary Generals **Michael Murray** and **Anker Petersen**, and **Jeff White**, Director of WRMI. You can download the 5 MB file (lasting 21 minutes) from: [http://www.switzerlandinsound.com/audiotext32/conference\\_in\\_lugano.mp3](http://www.switzerlandinsound.com/audiotext32/conference_in_lugano.mp3).

From **Dan Ferguson** we learn that the IBB transmitting station in Morocco will cease operations in March 2008, and the facility will be returned to the Government of Morocco by the end of next year. The rising cost of operating the Morocco station is cited as the reason for this decision. Supposedly, the closing of the transmitting station in Morocco will not reduce the number of hours of radio programming currently broadcast by shortwave. We shall see if that is true. In theory they expect all programs currently broadcast from the Morocco station to continue to be broadcast, either from other IBB facilities or through lease arrangements.

**Andreas Schmid**—QSL Editor for the Danish Shortwave Radio Club and curator of the Pennant Museum—is offering *Radio Pennants of the World*. It is HTML multimedia CD in English with a comprehensive listing of radio station pennants from all over the world. Nearly 2800 pennants from 102 countries out of the Pennant Museum are described and pictured. All pennants can be looked at in the enlarged view via a comfortable navigation system where you can choose continents, countries and stations. A short preview is available at <http://www.addx.org/pennants/>. *Radio Pennants of the World* is available for US\$45.00 or €30 which includes shipping and handling. For further information contact **Andreas Schmid** at [schmidandy@aol.com](mailto:schmidandy@aol.com) or via postal mail at Lerchenweg 4, 97717 Euerdorf, Germany.

A brief reminder about the addition of a new radio country that was added to the club's radio country list. Last month NASWA Country List Committee Chairman **Don Jensen** informed us about an important update to the club's country list. Under Oceania the following was added: MICRONESIA, FEDERATED STATES OF. Under the gazetteer, alphabetically, between Mexico and Moldova: MICRONESIA, FEDERATED STATES OF (OC)

Part of the Trust Territory of the Pacific Islands until May 10, 1979; independent Federated States of Micronesia since, and in free association with the U.S. since Nov. 3, 1986. Station location: Pohnpei. The *Country List and Awards Program* booklet has been updated and posted on the club's website. Those needing a hardcopy paper version can acquire that through **Jim Strader** at the Company Store. Once again, thanks **Don** and the committee which consists of **Jerry Berg**, **Harold Cones**, **John Fisher**, **John Herkimer**, and **David Clark**.

Don't forget the special double anniversary Radio St. Helena Day 2007 world-wide shortwave broadcast on Saturday, 15 December 2007 from 1730-0100 UTC on 11,092.5 kHz in upper side band with 1,000 watts using a 3-element monoband directional antenna. Here is a summary of the times and target areas for the transmissions: 1730-1815 UTC to New Zealand; 1815-1900 UTC to India; 1900-2015 UTC to Japan; 2015-2145 UTC to Europe; 2145-2245 UTC to North America East; 2245-2330 UTC North America West; 2330-0015 UTC South America North; 0015-0100 UTC South America Central/South. The station plans a special full-colour QSL card for this double anniversary shortwave broadcast. By the way, thanks to everyone that contacted me about missing Radio St. Helena QSLs for 2006 transmission. I have sent a list to **Robert Kipp**. Maybe the station will issue follow-up replies.

The latest version of *Shortwave Broadcasts to Australia and Oceania* (BTA4) is currently available from **Robert J. Padula**, 404 Mont Albert Road, Mont Albert, Victoria 3127, Australia for US\$10.00 or €10 or £6 or A\$10—cash, five international reply coupons, Australian mint stamps to the value of A\$10, international bank transfer, international bank draft, PayPal. Cash payment in any other currency is acceptable, to the equivalent of A\$10.00. The BTA4 will be sent as an unprotected MS-Office Excel 2003 Workbook, as an Email attachment, of approximately 80 KB. The data may be saved to your PC, sorted, rearranged, converted to other formats, and/or printed. The BTA4 covers the five-month international shortwave transmission period commencing October 28, 2007, and concluding on March

30, 2008, known as the "B07 International Transmission Season." With several hundred entries, it provides comprehensive information of shortwave broadcasting schedules to Australia, New Zealand and the Pacific Islands, for broadcasts in all languages. The complete schedules for Radio Australia and CVC-Australia are included. Each entry shows broadcasting organization, frequency, starting time, finishing time, language, target area, transmitter site, transmitter country, studio country, and days of operation. The BTA4 is compiled from an extensive worldwide network of broadcasters, frequency planners, engineering consultants, professional monitors, and members of the Electronic DX Press Radio Monitoring Association. Information is also included from the detailed research by the author, Bob Padula, himself a communications engineer, technical journalist, and broadcaster, with over 45 years experience at both the professional and hobby level. The BTA4 may be ordered on-line from the EDXP Website, via direct links to PayPal. The Price List/Order Form may be downloaded as a 265 KB PDF file from the Website, <http://edxp.org>.

Thanks to Winter SWL Festival regular **Eddie Muro** we learned that Briarcliffe College in Bethpage will be holding Ham Radio University 2008 (HRU) on Sunday, January 13, 2008. Forums, exciting displays and presentations and live operating events are scheduled. The event is also the American Radio Relay League (ARRL) NYC/LI Section Convention and other forums will cover some new twists on contesting, low-power operating and many other aspects of ham radio. The keynote address will be by Gordon West WB6NOA, who is flying in from California especially for HRU. Check the website (<http://www.hamradiouniversity.org>) for updates on forums and other news. Remember, it is scheduled for Sunday, January 13, 2008 starting at 9:00 AM local time at Briarcliffe College, 1055 Stewart Avenue, Bethpage, NY. Further information is available from **Diane Ortiz** K2D0, HRU 2008 Committee, [K2D0@arrl.net](mailto:K2D0@arrl.net), 631-691-1801.

The new DX season is in full swing but are you getting the latest hot information about what is happening on the shortwave bands? Having the club's electronic *Flashsheet*, now over 300+ issues old, in your hands each week you will be up to date with news and information about the DX scene as the season progresses. If you have not signed up for the club's electronic *Flashsheet* service, you are missing out on timely news and information that will enhance your shortwave listening pleasure. It is now time for you to get on the distribution list for the club's electronic *Flashsheet* to stay up-to-date. The changing DX conditions will bring different DX opportunities and new listening targets. The club's electronic *Flashsheet* helps members stay on top of the action with breaking shortwave news and information. If you are a current member of the club and want to receive the electronic *Flashsheet* just drop **Rich D'Angelo** ([rdangelo3@aol.com](mailto:rdangelo3@aol.com)) a note with your e-mail address, location and membership expiration date from your mailing label. You can participate by sending your latest logs to the electronic *Flashsheet* edited by **Mark Taylor**, [markokpik@tds.net](mailto:markokpik@tds.net). Each week the electronic *Flashsheet* brings a lot of exciting, late breaking DX news and information to our members. The electronic newsletter is an excellent supplement to the monthly *Journal* for the timely dissemination of DX loggings and breaking news. This is a service that is only available to our members. Deadlines are posted in the *NASWA Flashsheet* each week.

Please remember to direct all communications about subscriptions, bulletin delivery issues, holiday gift giving ideas, the use of PayPal as a payment method, etc. to **Bill Oliver** at the club's Levittown address or to his electronic address, [weoliver@comcast.net](mailto:weoliver@comcast.net). The regular postal address is the familiar 45 Wildflower Road, Levittown, PA 19057. Inquires sent to Wyomissing only slow down the process. Thanks!

That's it for this month. Enjoy this month's edition of the *Journal*; it's another good one. 

## Calendar Of Events

- Dec 1 Meeting. The Reading (England) International Radio** meets at the Reading International Solidarity Centre, 35-39 London Street, Reading from 2.30 p.m. Further information is available from Mike Barraclough at [mikewb@dircon.co.uk](mailto:mikewb@dircon.co.uk).
- Dec 14 Meeting. Philadelphia Area NASWA Chapter.** Kulpsville Holiday Inn, Kulpsville, PA at 7:30 PM. For more information contact Dan Cashin at 610-446-7831 or Internet: [dcsckp@aol.com](mailto:dcsckp@aol.com).
- Dec 14 Meeting. Boston Area NASWA Chapter.** The Boston Area DXers have found a new location for meetings. Inquiries about the BADXers may be sent to Paul Graveline at 978-470-1971 or Internet: [ctreditor@aol.com](mailto:ctreditor@aol.com). The URL for the BADX guys is <http://www.naswa.net/badx/>
- Dec 17 Meeting. Tar Heel Scanner/Shortwave Listening Group.** Red, Hot and Blue restaurant, 6615 Falls of the Neuse Rd., Raleigh, NC. Dinner @ 6:30PM, meeting @ 7:30PM. Meetings the 3<sup>rd</sup> Monday of each month. Info, Curt Phillips, 919-773-4522, <<mailto:curt@nerdster.net>>[curt@nerdster.net](mailto:curt@nerdster.net).
- Jan 12 Meeting. The Cincinnati/Dayton Monitoring Exchange (MONIX)** meets at the Lebanon Citizens' National Bank (LCNB), 425 West Central Avenue (Ohio 73), Springboro, Ohio at 7:00 PM. For more information contact Mark Meece at 937-743-8089 or e-mail at <[antennapig@siscom.net](mailto:antennapig@siscom.net)>. For additional information about MONIX, check out their web site at <<http://www.siscom.net/~mmeece/monix.html>>
- Jan 13 Meeting.** Briarcliffe College (1055 Stewart Avenue, Bethpage, NY) will be holding Ham Radio University 2008 (HRU) on Sunday, January 13, 2008 at 9:00 AM local time. Forums, exciting displays and presentations and live operating events are scheduled. The event is also the American Radio Relay League (ARRL) NYC/LI Section Convention and other forums will cover some new twists on contesting, low-power operating and many other aspects of ham radio. The keynote address will be by Gordon West WB6NOA, who is flying in from California especially for HRU. Check the website (<http://www.hamradiouniversity.org>) for updates on forums and other news. Further information is available from Diane Ortiz K2D0, HRU 2008 Committee, [K2D0@arrl.net](mailto:K2D0@arrl.net), 631-691-1801.
- Mar 7-8, 2008 Convention. The 21<sup>st</sup> Annual Winter SWL Festival**, sponsored by NASWA, will be held at the Best Western—The Inn at Towamencin on 7<sup>th</sup> and 8<sup>th</sup> March 2008. Richard Cuff and John Figliozzi co-chair the organizational committee. Although it is early, you don't want to miss this special FEST event. See you there!
- Aug 16, 2008 Convention. 2008 Madison-Milwaukee Radio Get-together.** The 15<sup>th</sup> Annual Madison-Milwaukee Get-together for DXers and Radio Enthusiasts will take place on Saturday, August 16, starting at 1 PM CDT. This year's venue is Milwaukee WI, and Tim Noonan will be hosting. Further information will be released as it becomes available.
- Sep 5-7, 2008 Convention. The 2008 European DX Council Conference** is scheduled for Vaasa, Finland on 5-7 September 2008. Former EDXC Secretary General Risto Vahakainu of the Finnish DX Association is coordinating the event. Further information will be made available at a later date.
- Mar 13-14, 2009 Convention. The 22<sup>nd</sup> Annual Winter SWL Festival**, sponsored by NASWA, will be held at the Best Western—The Inn at Towamencin on 13<sup>th</sup> and 14<sup>th</sup> March 2009. Richard Cuff and John Figliozzi co-chair the organizational committee. Although it is early, you don't want to miss this special Fest event. See you there!

Members are invited to submit items to be included in this calendar to Rich D'Angelo (Internet: [rdangelo3@aol.com](mailto:rdangelo3@aol.com)) or Ralph Brandi (Internet: [ralph@brandi.org](mailto:ralph@brandi.org)).

---

## FRENDX: Twenty-Five Years Ago (December 1982)

In the *Headquarters Report*, Bill Oliver reminded members that Nick Pappas would become the new distributing editor effective with February's *Frendx*. He would be replacing Terry Colgan who was moving on to be the Executive Secretary of the Association of North American Radio Clubs. Gilfer Associates was offering the 1983 *World Radio tv Handbook* for \$13.50 plus \$1.50 shipping. Member Jerry Berg wrote a special feature for the WRTH and member Larry Magne reviewed several new receivers. Part 1 of Don Jensen's "On to the Top" series was carried in Chris Hansen's *Shortwave Center* column. In *Technical Topics*, Ed Shaw previewed the new Icom R-70 communications receiver. Roger Legge presented another edition of his *English Language Broadcasts to North America*. In an effort to conserve time, Editor Glenn Hauser experimented with a "disorganized *Listeners Notebook*." In the *Scoreboard* column edited by Jerry Lineback, twenty-five members reports logging 200 or more countries with only nine reporting QSLs from 200 or more countries. Don Jensen, with 227 heard and 226 verified, lead the pack in both categories. In the *QSL Report* column, Editor Sam Barto noted that 110 countries were reported with nice replies from Bolivia and Peru. 

---

---

## Contribute!

Send your loggings and QSL information off to our Distributing Editor, **Bob Montgomery** (Address: 4621 C Street, Philadelphia, PA 19120). **Note: this is a new postal address as of July, 2007!** He will forward them to the appropriate editor. Remember, Bob also distributes QSL report information and totals for the **Scoreboard** column. He can also be reached through the Internet at: [rmonty23@verizon.net](mailto:rmonty23@verizon.net).

## Musings

**Ross Comeau <dxcomeau@comcast.net>, Andover, MA**

Had an interesting listening opportunity today, while on a "vacation day," after I had taken care of some business that needed tending to. Anyway, the power company was across the street fixing a pole that was damaged by a car, and they informed me that the power would be off for a few hours. This afforded me the opportunity to try out the E1 on batteries, which I hadn't tried yet. Over the last year I admittedly have had few daytime/weekday listening opportunities, but have always tried to hear Antarctica just for the thrill of it, having QSLed it years ago. This log is posted above. Within 5 minutes after the power (and neighbor's appliances, etc) was back on, the noise overwhelmed the frequency.

**Rich Parker KB2DMD, 1205 Sleepy Hollow Road, Pennsburg, PA 18073**

After reading the 25th Anniversary edition of *Popular Communications* (10-07), I got to thinking—with 300 issues behind them, they could certainly put together a great anthology of past shortwave features. I'm envisioning a book of about 200 pages with articles about receivers, equipment and shortwave broadcasters from the past. Clandestines, utilities, spy numbers and "strange" transmissions. Unusual occurrences and other anomalies. Shortwave "do it yourself" articles, and equipment ads from days gone by. Sidebar commentaries by Dexter, Kneitel, and other Pop'Comm greats. Maybe Fred Osterman could be persuaded to do a few sidebars on "What It Was Like"—operating some of the great receivers from companies like Collins, Drake, Hammarlund and Hallicrafters.

I thought that perhaps other SWLs and DXers would also enjoy a book like this, so I dashed off a letter to Pop' Comm's editor, Edith Lennon N2ZRW, to ask her what she thought about the idea. Of course, putting together a volume of this nature would be a pretty big undertaking, and I would imagine that CQ Communications would have to be sure that there was ample interest in such a book before they would ever consider a project like this.

If other NASWA members think that a Popular Communications "Shortwave Treasury" edition is something they'd like to see, how about letting them know? You can write to the editor, Edith Lennon, at 25 Newbridge Road, Hicksville, NY 11801, or e-mail her at editor@popular-communications.com.

**Scott R. Barbour Jr. <srbjrswl@yahoo.com>, Intervale, NH**

Been enjoying the 60m dipole that I strung up Friday. In a word, WOW! It really digs out the signals that are barely noticeable on my NW Beverage and MLB-1 antennas. Already thinking about building one for the 49m band. I know I'm stating the obvious for many of you DX veterans here, but seeing how I am still an easily impressed babe-in-the-DX woods, I just want to state how much I am in awe of the 60m band dipole I erected on Friday.

It really pulls the signals out of the 60m band static as compared to my other 3 antennas, the NE and NW mini-Beverages and the MLB-1. With it I logged some Peruvians I haven't heard here in quite some time, in addition to carriers w/ hints of audio from 4605-RR1 Serui, 5040v-Myanmar and 4716v-Bolivia. 4755v-Micronesia is atop my target list!

What also pleases me is the dipoles performance compared to the work involved erecting it. My backyard consists of a steep, heavily wooded hillside, and a brook. All longwire antennas require at least an hour of tree pruning, brush removal and at times, getting your feet wet. I'm glad the work was worth it.

**Kim Elliott <kimelli@verizon.net>, Arlington, VA**

Thanks to Bob Fraser for his comments on my review of the Tangent Quattro internet wi-fi radio. The Quattro looks and feels like a radio, but I hope I didn't give the impression that it is big, i.e. Hammarlund big. The Quattro is 8 1/4 inches wide, 4 1/2 inches tall, and 5 1/2 inches deep.

To look at the other Reciva-based wifi radios, go to [www.reciva.com](http://www.reciva.com). Navigating is a bit awkward: you will see one manufacturer's model on the right side. Click the pause button, then the right arrow button, to move to the other models. Four of them are sold by C. Crane, [www.ccrane.com](http://www.ccrane.com).

At the Reciva site, you can also see a list of all the stations receivable on these wi-fi radios, and even listen to the stations on your PC.

**Toshi Oktake, Tokyo, Japan**

First topic is Radio St. Helena Day 2007, world-wide shortwave broadcast. The year 2007 marks a DOUBLE ANNIVERSARY for Radio St. Helena: the 40th anniversary of broadcasting for Radio St. Helena, and the 10th shortwave transmission anniversary. This year's special broadcast is on Saturday, 15 December 2007. The times and target area are from 1730 to 1815 UTC to New Zealand from 1815 to 1900 UTC to India; from 1900 to 2015 UTC to Japan; from 2015 to 2145 UTC; to Europe; from 2145 to 2245 UTC to North America East; from 2245 to 2330 UTC to North America West; from 2330 to 0015 UTC, Sunday 16, December to South America North; from 0015 to 0100 UTC to South America Central/South. Frequency is 11092.5 KHz in USB with 1000 Watts and using a 3-element mono-band directional antenna. Address for reception report: Ms. Laura Lawrence, Station Manager,

Radio St. Helena, P. O. Box 24, Jamestown, St. Helena Island, STHL 1ZZ, South Atlantic Ocean. Please note 3 IRC's minimum are requested for QSL printing and return postage.

The second topic is broadcast hour extension of Iran, effective October 28th. Iran's IRIB, the Voice of Islamic Republic of Iran, extends its Japanese language service from 30 minutes to one hour from this winter season. The new times and frequencies are: 13:30 to 14:30 UTC, on 9905 and 7380 kHz; 21:00 to 22:00 UTC, on 7190 and 6145 kHz. This is the third station that extended the broadcast hour of Japanese language service this year. Earlier in June, Voice of Indonesia extended its broadcast hour from 30 minutes to one hour. In August, Radio Taiwan International extended from one hour to one and half hours. Voice of Indonesia airs from 12:00 to 13:00 UTC on 9525 kHz. Radio Taiwan International airs 3 times daily. From 08:00 to 09:30 UTC on 11605 kHz. From 11:00 to 12:30 UTC on 9735 kHz. From 12:30 to 14:00 UTC on 9735 kHz. They dropped 7130 kHz used for 11:00 and 12:30 UTC program from October 28.

I am attending EDXC 2007 to be held at Lugano, Switzerland from 1 through 4 of November. I hope I can see some of you. See you there.

This is all for this month and wishing you good DXing!!

**Mark Schiefelbein <mark\_schief@hotmail.com>, Springfield, MO**

Thanks to Glenn Hauser for his tip on DXLD that some of the higher bands were propagating unexpectedly well this week (Oct 21-28) ... I logged a few things on frequencies I would normally not even bother checking these days. My pirate logging was probably someone tuning up their rig for Halloween, which I gather is one of the big days of the year for pirate broadcasts.

**Kevin Mikell <k.mikell@comcast.net>, 241 N. Hamlin Avenue, Park Ridge, IL 60068**

I brought along my Sony 7600G on my Alaska trip this year. We were spending a couple of nights in Haines and looked forward to sitting on the lodge's deck that overlooks the Lynn Canal and listen a bit. Very pretty. At night it's fun to watch the cruise ships pass as they go from Juneau and Skagway. It's very relaxing just to kick back and see the night sky without city light pollution.

On one of the days we were in Haines, we went out to the Chilkoot River before dusk to check out the bears coming down from the hillsides to feed on the salmon. When we got back to town, I brought the radio out from the room, grabbed a table, and sat back with some beer from the Haines Brewery. I tuned around for a short while and settled into some music for background. Noted a glimmer of green light in the north sky... a small display of northern lights! This continued off and on, with each mini-show lasting about 5 minutes or so. Not a cloud in the sky and the moon had not risen yet. Around 10pm a huge display started covering just about all of the northeast sky. This lasted for about 30-40 minutes. After the show concluded the full moon had risen a bit and we were treated to an unexpected total lunar eclipse.

I had forgotten about the radio and didn't check out the effect the light show was having on reception. Wish I had, but I was preoccupied. (hi)

**Gerry Dexter, Lake Geneva WI**

A new propagation term has been added to the WWV forecasts: "pitiful." The DX doldrums were assuaged a bit by a great visit from Bob Brossell last Tuesday. Conditions in the Milwaukee area seem to be no better than here.

**Glenn Hauser, Enid, Ok**

We had an unexpected local power outage for over two hours the morning of Oct 31, so instead of sleeping in, I couldn't pass up the opportunity to monitor on battery power without all the line noise we have been subject to. Most, but not all of it was gone, resulting in a much lower noise floor. Unfortunately, it was too late for much axion on the trop bands, but a number of 60m signals could be detected around 1330 before fadeout, such as 4605, 4750, 4790, 4870, 4900, 4920. Also something in Spanish on 4820, which turned out to be 2-way SSB, Mexican? riding along on an unID carrier.

**Jim Ronda, Tulsa, OK**

Many thanks to Mark Taylor for a great joint listening session on Saturday morning. This was the first time I've heard Alice Springs and Tennant Creek.

**Joe Wood, Greenback TN**

This is the first time in over 15 years of SWL I have actually heard pirates on Halloween. Has anybody noticed AFRTS via Key West being off frequency lately? I just logged them with a good signal on 12135u?

**Bill Tilford <Bill1tilford@aol.com>, Chicago IL**

I live within the city in an area chock full of electrical noise and don't have the option of large external antenna arrays. Nevertheless, until recently I did surprisingly well with a SAT 800 and the whip or for some stations a Mini-Windom rigged internally. For the last couple of months, however, reception conditions in my neighborhood have been unusually bad, so I finally bit the bullet and got an active antenna, AOR's LA 380. It's not a miracle cure, it didn't null out all of the noise, but it has turned some stations that recently became inaudible on the whip to audible with some residual noise.

The instructions recommend using at or near a window. I learned after trial and error that this isn't necessarily so. Front and side window locations both left me with an intolerable residual noise level (raising my suspicions that there's something strange in the neighborhood like a bad transformer or street lamp, a neighbor's leaky something or a similar culprit). After trying different locations, I actually found a sweet spot deep inside the room (even though said spot was closer to my wall warts) and set the radio and antenna there.

Handling is like using the analog dials of yore without the frequency markers. Takes getting used to but actually kind of fun when you get the hang of it. Like whip antennas, the loop element is affected by human touch, sometimes touching the loop will null noise, and sometimes it will add it. There is, unfortunately, also what I will call a 'theremin effect' while tuning; the tuning element interacts with your hand and arm somewhat re adding or nulling noise, complicating tuning somewhat.

Bottom line: It hasn't turned unusable static into FM-quality listening, but with practice using the tuning element and trial and error on positioning, it has turned some inaudible stations into audible ones. The next step is to see if I can identify what's mucking up conditions on the ground here.

**Errol Urbelis, 563 Meadow Road, Kings Park, NY 11754**

I have been using the E1 lately for some nice DX. I see in Passport that they are coming out with the Satellite 1000 which is the same as the E1 except for the color and XM capability.

Celebrating my 50th year of DXing in October. I was using a Hallicrafters S-53A receiver with a 50 foot wire. Didn't keep a log for about a year, November 1958. I have over 50,000 listings in my logbook today.

Through the years of DXing not to much luck with Pakistan, Bangladesh, Indonesia and Burma. I have not heard Bangladesh since 1992 and Pakistan since 1994. What gives?

Just received a Kaito 1121 and Kaito KA11 from Radios4you. They made a nice mistake by sending me 2 of each even though I ordered only one of each. I talked to them on the phone and they sent me a Kaito KA33 loop instead, in exchange for the two radios and they even enclosed a packaging return label. He's a real nice guy.

Using the 1121 is not easy and is complicated to record with the MP3. Picks up several channels real well in long wave.

Good DX and Radio St. Helena on December 15th.

**Dan Robinson <darobin@his.com>, Washington, DC**

No big deal to most of us by now, but I just have to remark what a pleasure it is to have RTZanzibar around. Today (November 18th) it was crashing in here for more than 2 hours, heard until sign off and I got a beautiful recording of the last 30 minutes. Even with the SW bands depleted and the hobby heading steadily downward, it's nice to have them around, and we should cherish every minute.

**Marlin A. Field, 128 Oak Street, Hillsdale, MI 49242-1345**

I met Richard Wood during the summer of 1970 when he lived in Hawaii and I was a student of the University of Hawaii. Then in July 1971 at a meeting of ANARC in Indianapolis we served on two different panels as part of the program of the organization. After that, when he lived in Louisiana, he helped me in obtaining a QSL from a non-English station whose name I don't recall.

**Fred Kohlbrenner <fkohlbr@comcast.net>, Philadelphia, PA**

After playing around a bit with Rich D'Angelo's E1 last Sunday and Monday at French Creek and being impressed by it, I spent the remainder of the week going back and forth trying to decide if I really needed one and reading every review I could find on the internet. Finally, decided before I left work this morning that I had to have one. Was going to call Universal at 10AM but decided to call HRO in New Castle, Delaware to see if they had one in stock. They did and I picked it up this afternoon.

Price was great—just \$349 for the radio (no tax), and they included the XM antenna and docking module for free. (They are being shipped to me.) I called Universal when I got home and ordered the antenna jack adapter and radio stand. This radio has a serial number just under #7000, so I don't think it was a recalled unit that went to Drake and are now being cleared out for cheap on-line.

Had it on for about four hours now with no problems. The display is fine, and the frequency readout is dead on. Great audio. Using just the whip antenna I had a nice reception of Zanzibar on 11735, and a het and occasional bits of faint audio on 15476. Also an unid pirate 6925, and Amanecer on 6025.08. Lots of stations audible. The synch on this radio is great and the PBT does a good job too. I've now been awake more than 24 hours, so I feel just like I do on dxpeditions! Still have the noise here but it's not as severe as when I use the Drake with a longwire. Can't wait to get it out of the house for a mini dxpedition.

**Richard A. D'Angelo <rdangelo3@aol.com>, 2216 Burkey Drive, Wyomissing, PA 19610**  
After almost six years of weekly publication, the club's electronic Flashsheet has published its 300th issue. Congratulations to the editorial team that made this happen. Our launch editor Sheryl Paszkiewicz was followed by Ray Bauernhuber. Mark Taylor is our current editor. All three of our editors have sacrificed their time and energy to make the Flashsheet a weekly part of our life. Thanks! That doesn't diminish the fine work by the rest of our editorial team that continue to produce the excellent columns that make the Journal the best all shortwave broadcast publication in the business today. The blending of the new electronic age while enhancing the print Journal has been an excellent marriage of mediums to the benefit of the entire club and its membership.

After a prolonged summer, the DXpedition finally commenced with our first effort of the new DX season to French Creek and our 28th trip overall. I didn't think the DXpedition season would ever get here with summer weather extending my backyard mini-DXpeditions into late October.

Fred Kohlbrenner was the first to arrive. He was all set up and tuning the bands when I arrived at 2:30 PM local time. After saying "hi" to Fred, I unloaded my junk putting off as long as possible climbing the sloped terrain to erect my 500 foot wire. Once that was done I rolled out a second wire of about 250 feet on more level terrain as well as a 50 foot run for the E1. Ed Mauger, who rounded out our DXpedition group, had some family related activities in the afternoon so he arrived around 7:00 PM local time which is about four hours later than usual. Nevertheless, Ed managed some foreign medium wave DX results using a relatively short indoor wire instead of his usual monster 1500 foot beverage.

We enjoyed good African conditions in the late afternoon with Djibouti pounding in for its 2100 UTC closedown. Radio Nacional from Bata was also quite good. Radio Universidad from Mexico on 9599.2 had an interesting late afternoon jazz program featuring the Preservation Hall Jazz Band which made for some great relaxed listening. Although Latin's were nothing to shout about, I experienced an excellent opening to the sub-continent with five Indians entering the logbook. It was an unusual opening in that almost nothing was present at the familiar opening times just before 0030 UTC. Instead the stations seemingly drifted up out of the noise floor with many continuing to linger past 0200. Interesting! As the evening wore on, the African stations made another welcomed strong appearance with signals from Zambia and Ethiopia (Radio Fana and Radio Ethiopia) dominating.

With a late night the following morning arrived much too soon. At 3:50 AM local time, I could hear Ed stirring on his way to the radio. I briefly considered getting up to see what was available from Latin America but I never moved. Next thing I knew it was 6:00 AM. I did manage to rise to find Fred tuning the dials. He indicated conditions to South America just weren't much so I was glad I managed a few extra hours of much needed sleep. The morning session featured Radio East Sepik on past 1300 UTC was well as Laos, Myanmar and the three Australian regions in the 2 MHz range. Nothing spectacular but good enough.

After running some errands, including going home to distribute the Flashsheet, I returned around 1830 UTC to note many European signals already occupying the 41 and 49 meter bands. The BBC from Seychelles on 6005 kHz around 1900 was interesting with its Focus on Africa program. A few interesting surprises surfaced with TWR-Swaziland poking through on 3200 kHz before sudden close at 2045 UTC. Parakou made an appearance when Rebelde co-operated by leaving the air for a brief period. Noted at 2027 to 2038 UTC. Also, LRA36 from Antarctica made an appearance although the signal was quite choppy. The afternoon closed with Uganda running past nominal 2100 sign off with a nice signal to 2145\* and two Indonesians; Kendari-3995 and Makassar-4750. Also, Ed unhappily noticed WOR-710 IBOC signal wasting away 700 kHz on medium wave.

The last night is our traditional "banquet" meal where I cook up a plate of pasta and someone usually buys some meatballs (this time both Fred and Ed brought them) and bread (Ed took care of this item) to round out the meal. This is usually when we swap stories of past DXpeditions and other events. Not that we haven't told a story or two prior to the meal. Things begin to slow down a bit after a big meal with some listening intently and others going to sleep early to prepare for the following morning. Although Latin America never seemed to peak there was some action but nothing spectacular. A highlight for me was a solid log of the Voice of Iraqi Kurdistan which was new for me. I believe this may be the only way to log Iraq these days on shortwave.

Morning arrived but Latin America was still relatively quiet on the DX front. That prompted Fred to be the first one to pack and depart so he could have his morning nap at home as opposed to in the cabin. Japan's Nikkei Radio was heard as was Radio Chaskis in Ecuador. Things seemed to pick up after Fred departed with signals from four PNGs, a pile of Indians, and a bunch of Chinese stations that I didn't have time to log. Rain decided to visit us making antenna dismantling a little bit more of a chore than usual. After I saw how wet Ed got doing some antenna work, I put the headphones back on intent on waiting out the weather as much as possible. Thankfully, I was rewarded with a nice log of Radio New Ireland with a mix of island music and country tunes with a man hosting in English. However, eventually I did venture out into the wet woods to retrieve my antennas getting soaked in the process. Of course, losing my way in the woods for a while didn't help matters.

Overall, conditions were a little uneven with not much happening from Latin America which is usually a major focus. Instead Indian regional stations and Papua New Guinea provided much entertainment and listening pleasure with four PNGs showing the final morning. Africans were very good in the late afternoon (for local sign off) and late evening's local time (for early morning local time sign on). Despite the lack of Latin signals, the DXpedition was productive for me.

73, Rich

## Passport's "Top Ten" program picks

As you know from reading elsewhere in the *Journal*, *Passport to World Band Radio* for 2008 has been released; I enjoy reading each edition when it comes out. One of the sections I focus on is *Passport's* list of "Top Ten" programs for 2008, where they profile 10 different and noteworthy programs; I like to see how my own personal "top ten" list compares with theirs. I'll offer my two cents on one of them in this month's *Journal*.

### Deutsche Welle—*Spectrum*

*Spectrum* is DW's weekly half-hour magazine program on science and technology. Normally each half-hour segment has four to five stories, each 6 to 8 minutes in length. Subjects can range from pure science to ethical issues to technology innovations; the six- to eight-minute length allows each story to be developed in greater length than many magazine-oriented programs, which is a treat—this allows DW to delve into a subject deeper than might typically be done.

*Spectrum* is likely a tough catch on shortwave; while the 2100 UTC broadcast targeting West Africa typically comes in quite well in Eastern North America, this broadcast doesn't include *Spectrum* in any of its editions. Instead, try 0400 UTC Tuesdays on 5905, 5945, 6180, 7225, and 15445 kHz; these all target various regions in Africa. Try also 2000 UTC on 9735 and 13780 kHz. *Spectrum* airs on the live DW webcast on the even half-hours from 0430 Tuesday through 0030 Wednesdays, and each edition is available on-demand via the Web for one week.

## 75 Years of the BBC World Service

December marks the 75<sup>th</sup> anniversary of the BBC's efforts in international broadcasting; the **Empire Service**, later more humbly called the **World Service**, made its debut in 1932; there is a special season of programs celebrating the BBC and freedom of information. This special season is called *Free To Speak*.

I know some folks have gravitated away from the BBC World Service in recent years as they have deemphasized their use of shortwave, but the subjects below—in part analyzing how the BBC and other global news media gather, prioritize, edit, and report news, should be very interesting to those who are interested in how the BBC decides what to put on air.

Saturday, December 1<sup>st</sup>: **BBC World Drama: *The Rocking Horse*** by Sir Arnold Wesker, one of the key figures in 20<sup>th</sup> Century drama. Wesker has written *The Rocking Horse* to mark the 75th anniversary of the World Service. *Fawlty Towers* star Prunella Scales and Clive Swift, who plays the hapless Richard Bucket in BBC comedy *Keeping Up Appearances*, are among the top cast. This is Arnold Wesker's 50<sup>th</sup> year of writing plays and, like BBC World Service, he's celebrating 75 years of observing the world. He was knighted in 2006 for his services to Drama. Arnold Wesker himself features in the play, singing a song which opens and closes the piece. European air times include Saturday, 1930 and Sunday, 2200; African shortwave air times will probably include Saturday 2100 and Monday 0000.

Sunday, December 9<sup>th</sup>, ***The Reith Global Debate***: To launch its 75<sup>th</sup> anniversary series of programs on the theme of individual and media freedom, BBC World Service is holding *The Reith Global Debate* led by

three former Reith Lecturers—US economist Jeffrey Sachs, philosopher Onora O'Neill and Nobel prize-winning Nigerian writer Wole Soyinka. On Sunday 9 December, the three lecturers deliver their thoughts on the theme *Free to Speak*, examining issues of censorship, political and economic pressure, and the ways in which technology is changing methods of communication around the world. The debate takes place in front of an invited audience. **The Reith Global Debate**, a unique new format, is named in honor of Lord Reith, the BBC's first Director General, who launched the Empire Service—forerunner of the current World Service—in December 1932. European air times (including the live Webcast) are 1300 and 2000; times for other regions haven't yet been posted, but these *may* be valid globally: 2000 one of the global air times for *Newshour*.

Monday, December 10<sup>th</sup> and 17<sup>th</sup>, **Making News**: Allan Little examines the notion of impartial journalism, and explores how news is presented in a two-part series beginning Monday, December 10<sup>th</sup>. The series assesses newsmakers' reflexes and ideas about news priorities on Monday 10 December. Allan Little conducts a comparative study of one particular day in three international television news channels—BBC World, Al Jazeera, and CNN—as they explain and justify their news agenda for the day. **Making News** shows up at the various editorial meetings to find out how the organizations create their priorities and shape the treatment of the day's news. The program also hears from critics who blame modern rolling news culture, with its reliance on striking visual images and shock to win the holy grail of audience share. On Monday, December 17<sup>th</sup>, Allan Little explores the challenges to objectivity in a rapidly changing western media world and discusses the criticism the BBC has met for its sparing use of the word 'terrorist' to describe the perpetrators of atrocities. He also examines news channels that are fond of using the soap box to promote their political stance. European air times (including the live Webcast) are 0905, 1205, and 2005. African shortwave air times will likely include 0905, 1405, and 2105

Wednesdays, beginning December 12<sup>th</sup>: **Press for Freedom** is a four part series in which former Daily Mirror editor and leading media commentator Roy Greenslade explores how far reporting 'the truth' can be endangered by governments, corporations and the new wave of internet publishing. He looks at the dangers facing journalists in today's world; their freedom to report and how it can be protected. The program focuses on Moscow, Zimbabwe, Kuala Lumpur, and the explosion of small independent citizen/reporter radio stations.

On January 2<sup>nd</sup>, Greenslade asks how free the press in Europe and America can claim to be. He asks Robert Thomson, editor of The Times, the flagship of Rupert Murdoch's media empire, how the tensions of ownership, advertising and the drive for circulation shape our media. And he ponders whether the upsurge in alternative media suggests that people no longer accept traditional media as free and independent. European air times (including the live Webcast) include 0905, 1205, and 2005; African shortwave air times include 0905, 1405 and 2105.

Saturday, December 15<sup>th</sup>: **How Free the BBC?** takes a candid look at the relationship between BBC World Service and its funders, the UK Government. Respected UK media commentator Ray Snoddy asks whether a broadcasting organization funded directly by £246 million a year grant-in-aid from the UK Foreign & Commonwealth Office can remain editorially independent. The program features an extensive interview with Nigel Chapman, Director of BBC World Service, responding to the questions raised by Snoddy's analysis. European air times (including the live Webcast) include Saturday, December 15<sup>th</sup>, at 0530 & 0830; African airtimes are likely the same.

Wednesday, December 19<sup>th</sup>: **The Big Link Up** celebrates the day of the BBC's 75th birthday with all-day live remote broadcasts linking audiences around the world in a global debate on freedom of the media. The debate will echo the themes of programming in the BBC World Service's *Free to Speak* season. Remote broadcast sites are planned to

include East Asia from Mongolia to Australia; the Middle East, Europe and Africa, and The Americas from North through Central America to the South. Regional link-ups featuring panels of experts and audiences will interact with internet cafes; local radio stations; newsrooms and other meeting places around the globe.

## The "Silly Season" comes to Radio Australia and Radio New Zealand International

With the Christmas and New Year holidays approaching along with the first days of summer, much of the southern hemisphere shuts down for holidays and vacations as of mid-December. This includes the domestic English-language services of Australia and New Zealand, which are the sources for much of the programming that airs on shortwave on **Radio Australia** and **Radio New Zealand International**. Both broadcasters relay a substantial amount of domestic content, and they have to shuffle their schedules and bring in one-time programming and increase some repeats.

While plans aren't finalized yet for the schedules of each broadcaster, historically Radio Australia takes much of its holiday season programming from the Local Radio network, not Radio National. There is also an increased level of sports programming at times and on frequencies that are not typical sports times.

As mid-December approaches, I'll try to publicize schedule changes via the *swprograms* e-mail list, the *NASWA Flashsheet*, and my very occasional blog, <http://intradio.blogspot.com/>.

## Other broadcasters' holiday plans

Most international broadcasters try to arrange for time off for their program presenters and editors around the Christmas and New Year's seasons, resulting in specials and end-of-year reviews and perspectives that can be prepared in advance. Prior years have seen the following specials and events:

### Radio Canada International / CBC

The ODXA's Fred Waterer along with John Figliozzi, have assembled the following notes on what to expect from the CBC:

*As It Happens*, especially on Christmas Eve, produces a special annual program. Each year, the program contacts members of the Canadian Armed Forces serving with the UN, NATO, NORAD and those serving in the far north. Each unit has 3 or 4 people speak for those serving with the unit. In past years, the units have served in such diverse locations as Canadian Forces Base Alert (Arctic), Colorado Springs (Norad), Germany, Cyprus, Golan Heights, Bermuda (!), the Persian Gulf, Somalia, Bosnia and Croatia, and Kosovo. It also has its moments of humor, such as the time the Canadian naval personnel stationed in Bermuda tried to claim they missed the Canadian winter real bad! (via Fred Waterer/ODXA).

Christmas Day will likely see specials across **CBC Radio One**, as was the case last year; some of these may show up in RCI programming as well.

The weekend before Christmas, *Quirks and Quarks*, the popular long-running science show, will likely air the *Annual Quirks Question Show*; Last year, listeners found out whether blind people get motion sickness, why you can't put metal in the microwave, and why cold snow squeaks when you walk on it.

*Vinyl Café* will likely air a special Christmas concert.

### BBC World Service

The BBC World Service hasn't publicized their holiday plans yet, but there are several annual traditions that are expected to continue:

*The Festival of Nine Lessons and Carols* is a long-standing tradition. Expect the program to originate once again from King's College in Cambridge; the *Festival* is a celebration of the birth of Christ in readings from the Bible and beautiful choral music. It features traditional favorites such as *Once In Royal David's City* as well as new music specially composed for the occasion. Last

year's airings included Christmas Eve at 1501 and Christmas Day at 1301.

*The Queen's Christmas Message to the Commonwealth* is another annual tradition, lasting just 10 minutes but a highlight from year to year. Last year's airtimes included December 25<sup>th</sup> at 1505.

### Radio Netherlands

Often Radio Netherlands will air a special seasonal documentary in lieu of *Newsline* on Christmas Day.

### Request-a-Month

Unless the US Postal Service or my Internet provider have been blocking items from NASWA members, I received only one comment from NASWA members regarding hobby-oriented programming! I'm amazed by that...considering how, back in the 1980s, programs like *Shortwave Listeners' Digest*, *Media Network*, *DX Party Line*, and *World Of Radio* were "appointment listening" on a Thursday evening (*Media Network*) and over a typical weekend. That one comment came from Bill Tilford, who mentioned that he's a sometime listener to **Radio Havana Cuba's *dxers Unlimited*** and Glenn Hauser's ***World Of Radio***, which continues to air on WRMI, WBCQ, KAIJ, and WWCR.

Bill provides some thoughtful comments updating his prior suggestions:

*I. Music Updates for B07 from October issue listings:*

*A. Greek In Style (Voice Of Greece) is now at 0005-0105 UTC on Sundays, 7475 kHz and 9420 kHz, so far 7475 seems better for the midwest (but not as clear as during A07). Song titles are appearing more frequently too.*

*B. Hecho en Cuba (Radio Rebelde, Cuba) is now 1730-1800 UTC Mon-Fri on 15370 kHz.*

*C. Todo Musica (Radio Rebelde, Cuba) is now 0330-0800 UTC Saturdays on 5025 kHz.*

### II. A comment about Radio Ukraine International:

*Unless they have a rabbit up their hat for the future, the recent move away from 7440 kHz for the North American English language transmission was extremely unfortunate. 7440 was the only frequency they beamed at us in recent times that was audible without extreme enhancement measures, and I even sent them a letter of high praise about that in the spring. Until the audibility situation is rectified, I'm not going to offer any program endorsements in this particular journal even though I think RUI is worth listening to periodically.*

*III. I want to second and amplify Richard's November sermon about letter-writing and making our feelings known about radio cutbacks. In the age of the Web, many broadcasting authorities appear to picture us radio listeners as anachronisms, and while being more visible won't guarantee the continuation of radio, failing to do so will virtually guarantee the opposite over time. We need to talk content with them but also need to explain why we still do things the old-fashioned way (portability, the ability of governments to monitor and control internet access etc. etc.).*

*NASWA should consider whether there is a Flashsheet-type vehicle to alert members when a station is known to be in jeopardy and encourage letter/email writing campaigns. [Good suggestion...I know the Flashsheet editors have included other time-sensitive items (programming changes, other broadcaster news) in the past; check the front of the Journal for submission details—ed.]*

Thanks, Bill, for the help—let's use "Open Mike" as the theme for January—suggestions regarding any programming topic will be welcomed!

Until next month (and next year!),

73 DE Richard

## News, Notes and Miscellany

### From the November AIB Media Briefings...

Pakistan's commercial TV news channels were off the air following the declaration of a state of emergency by President Musharraf on 3 November. Geo News, Aaj TV, Ary World and Karachi Dawn News were not carried on cable television networks which is how a majority of Pakistan's citizens receive TV. The channels are, however, still available on satellite. At the time of the state of emergency, the country's media regulator - PEMRA—told all cable companies to cease carriage of the independent commercial channels, as well as international channels including BBC World, CNN and Al Jazeera. State-controlled Pakistan TV is the only channel carrying news still available across the country. Entertainment channels operated by Geo TV are still available on Pakistan's cable networks as these appear to be seen as less problematic by the government than news channels. Questioned at the ABU General Assembly in Tehran on 4 November, PTV's head said that his news programmes were fair, and had carried interviews with key political opposition figures such as Imran Khan. He declined to say whether such interviews had been broadcast following the state of emergency. At the start of the current crisis, BBC World Service and Voice of America both increased their Urdu-language programming on shortwave. "The Pakistani government has shut down all independent media inside Pakistan," said VoA Director Danforth Austin. "We find ourselves, along with the BBC, among the only international broadcasters currently heard inside of Pakistan." On 28 October, Broadcasting House in Karachi suffered a major fire that resulted in the destruction of 14 studios, the master control room and a range of other technical facilities.

BBC World Service has increased its reach in Romania with the launch of two further

24-hour FM relays. The cities of Sibiu and Constanta now have BBC World Service in English and Romanian available throughout the day, adding to existing relays in Bucharest and Timisoara. In India, the BBC has begun a partnership with Tomato FM in Maharashtra that will see BBC programming available in the cities of Kolhapur and Sangli. There is still a restriction on the carriage of news and current affairs programming on commercial FM radio in India and the programming offered by the BBC is principally sports and entertainment news, plus a weekly chat show.

The AIB announced the winners of its 2007 Media Excellence Awards at a gala evening in London on 20 Nov. 150 media executives, journalists, editors, regulators and satellite operators from every continent gathered at Clothworkers' Hall in London for the AIB Diner Pensant hosted by Mishal Husain, one of the anchors on BBC World. The winners are:

- Clearest coverage of a single news event—radio

BBC World Service for Israel-Lebanon war

described by the judges as "classic war reporting combined with an almost perfect blend of frontline access and compassion for the ordinary people caught up in the conflict"

- Clearest coverage of a single news event—television

CBS News for Among a Resurgent Taliban

"an outstanding report offering exclusive coverage with high production values" with the judges paying particular tribute to Lara Logan's bravery

- Best topical program—television

NDTV 24x7 for UP vs AIDS

“a powerful piece of television dealing with a difficult subject; well filmed and edited and bringing an understanding of the scale of a problem that’s been ignored for a great length of time”

- Best topical program—radio

BBC World Service for Ghana: African Perspectives

“an exceptional piece of radio that was inspiring yet dealt with a highly difficult subject - abortion”

- Gear of the year

Omnibus Systems for iTX

“using commoditised IT equipment, this solution is scalable and integrates a great number of functions allowing multi-skilled operators to take control”

- Most innovative partnership

Radio New Zealand International

“Radio New Zealand International has undertaken work with local partners to provide audiences across the Pacific region with information and topics to connect at all levels in their own language”

- Most creative marketing concept

Joint winners: SW Radio Africa and France 24

“SW Radio Africa’s use of SMS text messaging to beat the censors enables the station to reach an audience under the most difficult censorship conditions”

“France 24’s launch campaign was very well thought through and well executed, with a unique use of animation to bring in younger viewers”

- Most innovative cross-media production

BBC Global News for Generation Next

“These nine days of special programming on television, radio and online was well executed, providing interesting topics for a hard-to-reach market”

- AIB International channel of the year—television

Bloomberg Television

“consistently high quality and punching above its weight, successfully marrying specialist material with more mainstream coverage of news and current affairs”

- AIB International station of the year—radio

Radio New Zealand International

“Radio New Zealand International has proved it has the ability, clarity of vision and resources to deliver something that’s valued by audiences throughout the region”

- AIB International radio personality of the year

George Arney of BBC World Service Europe

“George Arney’s slightly quirky approach reveals great truths about how people live their lives. He also takes listeners behind the scenes with some of the planet’s most powerful leaders”

- AIB International television personality of the year

Lyse Doucet of BBC World

“one of the leading presenters and journalists on international television today—highly professional and able to convey the news with just the right measure of confidence”

## More silent shortwave sites

In the latter months, at least four large chunks of the shortwave iceberg have gone plop into the sea. With the end of A07, the Radio Netherlands site in Flevo, the Netherlands, and the IBB site in Delano, California, went off the air. That was followed by the announcement that the IBB would give its Morocco relay back to Morocco in March 2008. A bit earlier, on October 1, RAI shut down all of its shortwave broadcasting, and it appears that its sites at Prato Smeraldo and Caltanissetta will never transmit again.

The Morocco announcement was the most shocking. I heard one rumor to that effect, but didn't believe it. The Morocco site is a Cold War stalwart, with ten 500-kilowatt transmitters. But that might also explain its demise. Most of its single hops would land in Eastern Europe, where the pesky outbreak of freedom has greatly reduced the incentive to listen to shortwave. Morocco is also useful for reaching the Arab World, but the Arabs tend to watch satellite television these days. The third prong of Morocco's coverage, Africa, still has plenty of shortwave listeners. Perhaps the thinking is that Botswana and São Tome will suffice.

The announcement about the closure of Morocco said that the "all programs currently broadcast from the Morocco station will continue to be broadcast, either from other IBB facilities or through lease arrangements." With the closure of the IBB relays in Greece in 2006, other IBB facilities will be busy. And even with other stations' reductions of shortwave, I don't know where sufficient transmitters-for-lease will be found. But keep in mind that the promise is to maintain broadcast hours, not specifically frequency hours. Broadcast hours could be fulfilled entirely via the internet.

## Delano

Delano was not the ideal location for a shortwave site in 2007. Shortwave audiences in Latin America have dissipated. It's too far from Asia or Africa to reach those continents with commanding signals.

Ironically, just days before Delano closed, President Bush spoke to the people of Cuba via Radio Martí, including a Delano transmitter. And Congress is willing to lavish funds to overcome the jamming of TV and Radio Martí. But the laws of physics tell us that shortwave is the least interdictable of the media available to international broadcasting. The best way to get intelligible content into Cuba is to transmit on as many shortwave frequencies as possible, from as many sites as possible. The closure of Delano eliminates one of those sites.

The U.S. State Department declared 2007 to be the "Year of the Pacific." A big reason for this is that China is expanding its influence there. On the small island nations of the southern Pacific, with their limited domestic journalism and media, people still listen to shortwave, e.g. Radio Australia and Radio New Zealand International. The southern Pacific was also one of the places that Delano could reach reliably. Alas, in this Year of the Pacific, Delano was eliminated as a means to inform the Pacific.

I'm told that Delano will remain, for now, in "caretaker" status. Good. It *will* be needed in the future.

## Flevo

The shutdown of the Flevo transmitters means that we can no longer pick up Radio Netherlands via (ahem) the Netherlands. Andy Sennitt wrote in the RN Media Weblog that, by dropping the Flevo transmissions, "we are saving money, and as a bonus the ability to split our transmissions across more sites means that some listeners can expect stronger signals. Also, we have cut out a few hours of Dutch transmissions

where the listening audience was quite small, and boosted other transmissions with additional frequencies." I hope Flevo will be "mothballed" rather than dismantled, because RN may need it in the future.

It does make sense for northerly European countries to drop their transmissions from domestic sites, often swallowed up by auroral disturbances, in favor of relays from more southerly relays. The satellite links are easy enough. RN is doing that by continuing to use its Bonaire and Madagascar relays, as well as leased facilities.

Sackville, New Brunswick, is a sacred place to us of the shortwave persuasion, but I've often wondered if Radio Canada International would give us a better signal if its shortwave transmitters were in the Caribbean rather than in Canada. On a few occasions since 1917, Canada has floated the idea of annexing Turks and Caicos, the most recent a proposal by Nova Scotia in 2004. That would be a good location for a shortwave transmitting site—if there would still be interest in transmitting on shortwave.

### Here is the news from RAI. In English

RAI, mentioned above, has given up on shortwave and on most of its 26 languages. (What are all those broadcasters doing now?) But you can still hear the news in English from RAI. It's on RAI's "Notturmo Italiano." This all-night radio program has existed since 1952, when its name was "Notturmo dall'Italia." It's mostly music, but on the hour is news in Italian, English, and French. (German was dropped after October 1.) The program was transmitted to Europe on medium wave and on one shortwave frequency. The shortwave is now gone, but the medium wave and the internet audio stream carry on.

And, so, on my Tangent Quattro internet wi-fi radio, I've been a fairly regular listener to Notturmo, including its news in English. The schedule is 2300–0500 UTC during the winter.

Frankly, this is the program RAI should have transmitted all along on shortwave to North America. Instead of the rip-and-read global news we used to get from RAI's English shortwave broadcast to North America, the Notturmo English news is all about Italy. The reader, a British-accented male, has a much more polished delivery than what we were used to on the old RAI shortwave service. (The weekend of October 6, I heard no English news, just Italian and French. The next weekend, the youngish-sounding female, prone to fluffs, we used to hear on the 0055 UTC shortwave transmission, was back, doing the English news on Notturmo.)

And while the music that filled the second ten minutes of the RAI shortwave broadcasts was an admixture of Western pop tunes, the music on Notturmo is a pleasingly eclectic mix of mostly Italian tunes, some modern, some vintage.

There is sprightly conversation in Italian between musical selections. If you know any Spanish, you'll have some idea of what is being said in Italian. If not, Italian is a pleasant language to listen to uncomprehended.

As I have been listening, I've noticed the Notturmo internet stream drop out ("buffering") a few times. What, is bandwidth exceeded? Are more than forty people accessing the stream? Here is where putting Notturmo back on shortwave to North America might make sense.

In the meantime, pour yourself a glass of Montepulciano d'Abruzzo, sit down to your current novel, and enjoy Notturmo Italiano in the background. We might even send e-mails to Notturmo's apparently live forum, surprising them with a sudden influx of North American listeners.

*Views expressed are my own. More at [kimandrewelliott.com](http://kimandrewelliott.com). Best wishes for the holidays and the new year.*

**CANADA** Frequency change for *Radio Canada International* in English/French:

1800-2000 NF 17790 SAC, ex 17740

(DX Mix, BULGARIA)

**CENTRAL AFRICAN REPUBLIC** A new shortwave station in Central Africa Republic is making Christian broadcasts and community health information available to most of the country's 3.5 million people. This is the country's first privately owned shortwave station.

Curt Bender of the Indiana-based HCJB Global Technology Center led the team that installed the station in Boali, culminating several years of planning and prayer by partner, *Integrated Community Development International (ICDI)*.

"Our partner, Jim Hocking, and the staff of ICDI have prayed and worked to see this vision of nationwide Christian radio," said Bender, who manages radio planting and development at the technology center in Elkhart.

In a clear example of the voice and hands of Jesus at work, Bender shared, "This is a country that has been devastated by war and HIV/AIDS. The folks at ICDI plan to use the radio broadcasts to help disseminate community health information and to spread the gospel. The needs are immense, but this station is a significant step in helping a people who need so much."

The low-power shortwave station, broadcasting at 6030 kHz, airs eight hours daily with programming in French and three African languages, Sango, Aka and Fulfulde. "This radio station will enable the staff at ICDI to deliver community health information and the gospel daily to remote villages inaccessible by vehicle," he added.

Bender, together with engineers Dan Anderson, Don Hastings and Jeremy Maller, installed the 1,000-watt shortwave transmitter at ICDI, a ministry founded by Hocking 3 years ago.

Anderson said response to the new broadcasts was almost immediate. "Within hours of going on the air the station received cell phone calls from 10 towns across the country even though no formal announcement had been made. Reports came from as far away as 300 miles! Pray that many will come to trust Christ and that the churches in the country will be built up through the ministry of this station. We thank God for the privilege of having a part in starting this ministry."

A week earlier (Thursday, Feb. 22), the mayor of Boali spoke during a "commissioning ceremony" to thank all the people who helped make the station a reality. "Her comments were aired to the nation over

the radio during an initial one-hour test broadcast," Bender said.

The TB1000 shortwave transmitter, while portable and compact like a FM transmitter, "can send the signal much farther than FM transmitters." The antenna, designed at the technology center by Hastings and Maller, covers an area almost the size of a football field when fully assembled.

The team also set up two satellite dishes for access to the Internet. This allows ICDI and other mission organizations in the country to have "reliable e-mail and Internet access," Bender explained.

Hocking first got involved with HCJB Global Voice six years ago when he was with Grace Brethren International Missions. At that time engineers helped the mission set up an FM station in the capital city of Bangui.

"I felt like we needed broadcasts that would reach further," said Hocking. Poor roads make traveling to many villages difficult or dangerous. For these reasons, radio has become the logical tool to reach the inaccessible people of the country.

It was a year after founding ICBI that he began serious discussions with HCJB Global Voice regarding a shortwave station to complement the ministry's community development work. The radio station as an effective way to disseminate community health information and spread the gospel.

ICDI has been involved in various community health projects across Central African Republic such as well-drilling to provide drinking water in remote villages, orphan care and micro-enterprise development.

Hocking expressed his appreciation to the staff at the HCJB Global Technology Center on Monday, March 5. "There would not be a shortwave station on the air today in the Central African Republic if not for the help of HCJB Global," he said. "We are already having fantastic results with people calling from across the country." (HCJB Global/Slaen-ARG, DXplorer Nov 9/WWDXC Top News/Bueschel-GERMANY)

**CLANDESTINES** 5954.13 *Radio Republica*, Miami via? , \*2259-0024, Oct 16, 20, 23 and 26, piano IS, talk on politics in Spanish on new frequency not heard // 6135, fair, QRM R Taiwan Int. via WYFR on 5950. (Bernardini, Hauser and Valko/DSWCI DX-Window/Petersen-DK)

7540 *Voice of Mesopotamia*, via Maiac, Moldova, \*1500-2100\*, Oct 28 and 29, Kurdish talk, ID, Kurdish folksongs, new frequency ex 7590 (not heard). The carrier was on at 1457 before 11530 signed off! (Petersen-DK/DSWCI DX-Window)

9445 **Andenet Le Democracy Radio** on <http://www.andenet.com/> ann that as of Oct 28 moves from 11720 to 9445, time unchanged 1600-1700. (Krone). In Amharic We/Fr/Su. Broker is still TDP. (DSWCI DX-Window/Petersen-DK)

9445 **EOTC Holy Synod Radio** is a new program on Mondays at 1600-1700 in Amharic, probably via Samara. Broker TDP at <http://www.airtime.be/schedule.html>. (DSWCI DX-Window/Petersen-DK) It was heard from \*1600 on Mo Oct 29. (Ritola-FINLAND/DSWCI DX-Window/Petersen-DK)

11655 **Suab Xaa Moo Zoo**, a new daily broadcast at 2330-2400 in H'mong to Asia. Broker is TDP. (Petersen-DK/DSWCI DX-Window)

**CONGO—DEMOCRATIC REPUBLIC** 5066.34 **Radio Tele Candip**, Bunia, F / Vernacular phone-in program and "Radio Tele Candip" in between on free channel, but weak, heard only one day on Oct 16 at 1610. (Schliephacke-DK/DSWCI DX-Window/Petersen-DK)

**CROATIA** 3984.83 **Hrvatski Radio**, Deanovec, 0256-0340, Oct 26, Croatian ID's "Glas Hrvatski" and "Hrvatski Radio" on new frequency (ex 6165 at night?), modern orchestra and songs, 0300 TS, interview about Dubrovnik, Mostar and Split, phone-in to "Radio Mostar" about Croatia and Bosnia-Herzegovina, Croatian pop songs, not heard on 6165. (Petersen-DK/DSWCI DX-Window)

Winter B-07 schedule of **HRT HS-1** in Croatian:

0457-0856 6165  
0857-1356 9830  
1357-2356 6165  
2357-0456 3985v

(DX Mix, BULGARIA)

3985 broadcasts another Croatian program 2130-2356. (Koie-DK/DSWCI DX-Window)

**CZECH REPUBLIC (non)** Additional transmissions of **Radio Prague** via VT Communications:

0100-0127 Spanish 11665 ASC  
0200-0227 English 5995 SAC  
1100-1127 French 17515 ASC

(DX Mix, BULGARIA)

**EQUATORIAL GUINEA** 5005.01 **Radio Nacional**, Bata, 2145-2155, Nov 11, back on the air, Vernacular ann, Afropop. (Petersen-DK/DSWCI DX-Window)

**ERITREA** 7900v **Voice of the Broad Masses**, Asmara, 1600-1700, Nov 04 and 05, talk heard with weak strength // P-1 on 7180. It was jumping around 7800-8100 followed by the Ethiopian "multitone"

jammer audio which also was in synchro on both frequencies. I wonder if Eritrea now uses Radio Bana transmitter during 16-17 time block. (Savolainen-FIN/DX Listening Digest/Hauser-OK)

**ETHIOPIA** The African station on 6030 is Ethiopia, though exactly what it is is still not fully clear!! Mauno Ritola drew my attention to it 10 days ago, but I did not report it to this group as (a) it was Mauno's "find," and so his to report if he so wished, and (b) we have had had something of a problem with it!!

My friends in Nairobi identified it as **Voice of the Tigray Revolution**, in parallel with 5980.

However, Mauno has also heard IDs for "**Radio Oromiya**" on it, and has heard 6030 and 5980 carrying separate programming at times, so some mystery remains. Perhaps the Ethiopians have been using it to relay different things?

It seems to be on all day, from the morning until closing at 2100.

Over the past year, both Voice of the Tigray Revolution and Radio Fana have added extra transmitters and used a variety of frequencies. Recently they have been heard on 5960, 5970, 5980, 6110 and 6185. With Radio Ethiopia on 5990, the 49m band has become a playground for new Ethiopian transmitters. Mauno notes that 6030 has been exceptionally strong in Finland.

Here in the UK I can hear 6030 in the evening, but underneath BBC in Arabic (Chris Greenway, UK/DX Listening Digest/Hauser-OK)

**GERMANY** Frequency changes for **Deutsche Welle**:

(DTK T-Systems Juelich, Oct 19, via Worldwide DX Club/Bueschel-DE)

**GHANA** *Ghana Broadcasting Corporation* to install new shortwave transmitter. Ghana's Minister for Finance and Economic Planning, Kwadwo Baah-Wiredu, presented the 2008 Budget to Parliament, in which he said the Ghana Broadcasting Corporation (GBC) would install a 50 kW transmitter to improve upon its shortwave service and introduce a second channel to be situated in Kumasi for commercialisation and public education on government policies and programs. (GNA via ModernGhana.com via RNW MN Nov 16/WWDXC BC-DX/Bueschel-DE)

**INDIA** 4940 and 7280, *AIR Guwahati* is currently off the air via SW on as well as its external service transmission is also off the air on 7420. I have not found AIR Guwahati via SW on any other alternate frequency even on 4900. AIR Guwahati is nowadays very poor here on 729 MW. So, I was unable to listen to their frequency ann. (Sharma-IND via Gupta-IND, Nov 12/DSWCI DX-Window/Petersen-DK)

**INDONESIA** 3579 *RSPK Ngada*, Bajawa, Flores; I can confirm that there is definitely a BC stn with (observed) word px in BI, not pirate-like chat, rather professional, but even here in West-Java little more than threshold level on my ICF 7600GR, observed on Oct 23rd at 1145 UT and Nov 8th at 1315 UT. (Werdin, Bandung-INS, WWDXC BC-DX Nov 11/Bueschel-GERMANY)

4750 *RRI Makassar* Contrary to reports read somewhere the stn is alive and kickin'! Hrd here many days, last on Nov 10th between 0900 and 1300+, off at 1405 UT. (Werdin, Bandung-INS, WWDXC BC-DX Nov 11/Bueschel-GERMANY)

4875.0 *RRI Sorong*, same as Makassar, gone as well. Only the more easterly transmitters seem to remain at the very moment (Serui, Fak-Fak, Wame-na, Biak etc). Asking young Indonesians in Lombok most of them never heard of SW and just tune in the local FM's and there is not much difference to the MW band. Being in Mataram some two years ago I saw the RRI's 10kW SW outlet (a Continental brand used to broadcast on 3215). No plans to re-activate due to costs of spare parts and from the two MW outlets only one was active with 828 kHz at that time (listed on 855) while the other one was gone

(they used to broadcast on 1179 something like that). (Schliephacke/DSWCI DX-Window/Petersen-DK)

4925 **RRI Jambi**: this is a bit of a puzzle, between 0940 f/in to abt 1400 UT its definitely RRI Jambi, hrd often here w many IDs. After 1400 on some days hrd what might be a pirate stn, e.g. on 08.11. at 1400amale voice with anncts and chats in BI, many phone-ins, callers giving their name and place.

What puzzled me there was no ID, no TA, no warta berita, the same px cont till past 1520 UT, but gone at re-check 1555 UT. Or is it just a "late night show" on RRI Jambi. Strength here in Bandung as Jambi before, also audio quite good. On Nov 10th stn was off altogether, not hrd between 1000 to 1400 UT. Anyone any idea? (Werdin, Bandung-INS, WWDXC BC-DX Nov 11/Bueschel-GERMANY)

The following stations were/were not audible on Java on Oct 23 and 24 between 1100-1400:

- 2960 **RPDT2 Manggarai**; ann in definitely Bahasa Indonesia (BI), poor level
- 3215 **RRI Manado** not heard
- 3266 **RRI Gorontalo**, local/reg ann in BI, many mentions of "pemerintah"—government, distinct echo probably from feeder, later gone when studio ann, ID and TA waktu Indonesia tengah = Central Indonesia Time
- 3325 **RRI Palangkaraya**, Indonesian pop music
- 3345 **RRI Ternate**, phone-in program in BI
- 3579 tent **RSPK Ngada**, here I am not sure, too weak to ID
- 3976 **RRI Pontianak**, BI telephone reports
- 3987 **RRI Manokwari**, word program in BI with either instr music in background or second station 3985/3990 3995RRI Kendari, local/reg ann with many mentions of "pemerintah"
- 4050 Pirate; chat in BI, 1 min off, then on again, chat w background music, quite strong but hollow audio
- 4606 **RRI Serui**, BI lovesong, 1159 RPK (SCI), ID into warta berita
- 4750 **RRI Makassar**, BI news, still the strongest of them all here, but distant audio
- 4790 **RRI Fak-Fak**, BI ann, 1209 sports transmission with rapid talk
- 4870 **RRI Wamena** not hrd
- 4875 **RRI Sorong** not hrd
- 4925 **RRI Jambi**, word program and live reports in BI, ID, regional news, the second strongest here
- 4925 Pirate at 1425 after s/off of Jambi, chat and music, sounds rather unprofessional, also at around 1430 no IS, no ID or TA, strong—I recall 10 years ago when I lived here, having come across this several times, pirate stations occupying a RRI station after close-down of latter.

(Werdin-INDONESIA/DSWCI DX-Window/Petersen-DK)

**Voice of Indonesia** has just opened this website with stereo audio: <http://www.voi.co.id/realtime/> (Koie-DK, Nov 06/DSWCI DX-Window/Petersen-DK)

(Romero, Spain/DX Listening Digest/Hauser-OK)

**LIBERIA** 4760 presumed **ELWA Radio**, reactivated, 2125-2301\* on Nov 14, English. Bits of religious talk b/w music; barely audible announcer at 2300 followed by Liberian NA. (Scott R. Barbour-NH)

ELWA is testing their new 5 kilowatt shortwave transmitter which arrived in country about two months ago. They are running it at 3 kilowatts into a new antenna from the hours of 1730-2300 UTC (5:30 to 11pm local.)

There will eventually be morning transmissions on 6070, but those have not started yet.

Their former transmitter had broken down about a year ago, but is repairable. (Johnson Cumbre DX Nov 20)

**LIBYA** *Voice of Africa's* short news summaries in Swahili, Hausa, English and French which used to follow immediately after the news in Arabic at various times, appear to have been discontinued. These were carried within the Arabic service on MW 1251 and 711 kHz as well as intermittently on various SW frequencies. News in Arabic is still aired at 15 minutes past the hour, but for the past 3 or 4 months I have not heard anything other than Arabic. (Dave Kenny-UK, Nov BrDXC-UK Communication magazine direct and via dxld)

**MEXICO** 9599.3 **XEYU, Radio UNAM**, Ticoman, reactivated after a few weeks, but still irregular and with better signal than ever, 2227-2312, 0314-0642 and 1341-1345, Oct 31, Nov 01, 05, 08, 09 and 11, mostly classical music, but also Spanish cultural discussion, TA and ID: "...son las 4 de la tarde y 30 minutos XEUN 860 Khz de amplitud modulada y XEYU 9600 Khz onda corta banda internacional de 31 metros agradecemos el favor de su preferencia..." mentioned e-mail: [contacto@radiounam.unam.mx](mailto:contacto@radiounam.unam.mx), 1332 relay of Radio France Internacional during news hour. Silent on Nov 03. (Hauser-OK and Rodriguez-COL/DSWCI DX-Window/Petersen-DK)

**MICRONESIA** 4755.25 **Pacific Missionary Aviation (PMA)**, Pohnpei, 1138-1400, Oct 18 and 19, sermon to about 1150, then mostly music afterward with occasional "88.5 Cross Radio" ID's and occasional periods of dead air—i.e. pretty much the same format as they were running last week. Not heard on Oct 20 and 21. (Wilkins in DXplorer and Hauser-OK/DSWCI DX-Window/Petersen-DK)

Current schedule of **PMA The Cross** at [http://www.pmapacific.org/ministries/radio/thecross\\_schedule\\_11x17.pdf](http://www.pmapacific.org/ministries/radio/thecross_schedule_11x17.pdf) is at 1600-1000 on 4755 and 88.5 FM. (Kuhl in DXplorer). Obviously they do not go off the air between midnight and 6am local as in their PDF program schedule for FM and SW (Hauser-OK/DSWCI DX-Window/Petersen-DK)

**MOROCCO** The IBB transmitting station Briech in Morocco will cease operations in March 2008, and the facility will be returned to the Government of Morocco by the end of next year. The rising cost of operating the Morocco station prompted this decision. The closing will not reduce the number of hours of radio programming currently broadcast by shortwave: All programs currently broadcast from the Morocco station will continue to be broadcast, either from other IBB facilities or through lease arrangements. Employees affected by the move will receive appropriate severance compensation within the scope of U.S. Embassy agreements. The outstanding work of these Moroccan station employees on behalf of U.S. international broadcasting is greatly appreciated. (Ferguson-SC in DXplorer, Nov 02/DSWCI DX-Window/Petersen-DK)

**SUDAN** 9825 *Miraya FM* via? Starting Oct 25, *Miraya Radio*, Juba, Sudan, is broadcasting on SW 9825 at 1500-1800UTC acc. to station's web site. Mo-Fr news every 30th minutes in simple Arabic, Arabic and English. Features and information for

and about the Sudanese people will be aired in between bulletins. Sa and Su the SW transmission joins *Miraya FM* for news bulletins on the hour and the weekend edition of Sudan Tonight. *Miraya Radio* is a part of the Hironelle foundation in Switzerland and the UNMIS (UN Mission in Sudan). *Miraya FM* funding comes from Canada, Switzerland, Sweden and Norway. (Lovstrom). This is brokered by IRRS/NEXUS in Italy. Heard relayed from unknown, powerful transmitter, \*1258-1600\*, Oct 25, 26, 27, 28 and 30, news, political comments and interviews, several ID's, many African pop songs in Sudanese Arabic and English, "... comes to you from 101 *Miraya FM*," ann "9825 at 6 to 9 evenings Sudanese time," but that is 1500-1800 UTC! However, this period may well be true on their FM-transmitter. (Berg, Bueschel, Fransson, Green, Herkimer, Ivanov, Petersen and Ritola/ DSWCI DX-Window/Petersen-DK)

I exchanged several emails with Nanci Hersh, Broadcast Technology Officer/Radio Operations, UNMIS/PIO/Radio at e-mail: (herhsh@un.org), who thanked me for my report ("Always nice to hear from our listeners.") She could not play the mp3 audio clip I sent so I tried several other formats all to no avail. (Herkimer). See WRTH 2007 p. 362: they are building an FM network around in Sudan. Their main operations are in Juba. Other addresses are: Leon Willems, OIC PIO/Chief of Radio, UNMIS, willems@un.org; UNMIS, Plot 16-17 Block 25, New Bridges Street, Manshiya Khartoum, Sudan. There is a different address on the UNMIS website <http://www.unmis.org/english/en-main.htm>. (Berg, Haus-er and Ritola/DSWCI DX-Window/Petersen-DK)

It is not via Bulgaria! (Ivanov-BUL, Oct 26).

It is not from a site in the UK either. (Green-UK).

You can also hear them live in good quality at <http://www.mirayafm.org/> which also mentions their postal address: P.O. Box 69, Khartoum, Sudan. (Krone-DK, Oct 28/DSWCI DX-Window/Petersen-DK)

*Miraya FM* has about 7 transmitting sites across southern Sudan. There is a main studio in Juba and a main studio in Khartoum. The government of the north refused to honor their initial agreement to let us transmit in the north (hence one of the prime reasons for shortwave), but the government of the south was all for our station. When I designed the system, I linked the two studios in full duplex over Atlantic Bird 3 from Eutelsat with a 128kbps stream using Comstream encoding. The studio in the north can hear the broadcasts all day long and the southern studio in Juba takes news and interviews and special features from the north and transmits them. They often have national debates and requests of northern music. People can call into a telephone exchange of the UN and make music requests. Pretty cool setup if I do say so myself. Maybe someday

Khartoum will stop being so anal retentive and allow us on the air. The shortwave also serves Darfur. It was one long uphill battle to get on the air in Sudan. It really took a lot out of me. Peacekeeping is tough. Now Haiti is pulling the same stunt as Khartoum and refusing to give us a frequency, so we are trying to partner with a local station who has a license to get on the air. (Muick in DX Listening Digest/Hauser-OK)

# Pirate Radio Report

Chris Lobdell • P.O. Box 146 • Stoneham, MA 02180-0146 • clobdell@comcast.net

Hello and welcome to the December 2007 edition of *The Pirate Radio Report!* I'd like you wish all of you a Merry Christmas and Happy New Year! Don't forget my new email address is: [crlobdell@verizon.net](mailto:crlobdell@verizon.net)

Many thanks for all those Halloween logs. There was quite a lot of activity this year!

## Europirate Season Is Here

Don't forget, those of you in eastern North America can try logging those low powered Europirates, late Saturday afternoons from 2000 UTC and on Sunday AM between 0500-0800 UTC. Most stations operate between 6200-6400 kHz. Good luck!

Many thanks to the following fine folks you made this month's column possible: Mark Schiefelbein-MO, Mark Taylor-WI, Ken Wilson-KY, Joe Wood-TN, George Zeller-OH.

**Ann Hoffer Live**, noted on 6925 kHz AM at 2208 on October 31<sup>st</sup>. Ann was playing her guitar singing "Spirit In The Sky" and "Monster Mash". Chat and laughter between songs. [Schiefelbein-MO]

**Captain Morgan**, heard on 6925.2 USB on October 28<sup>th</sup> at 2245 with creepy Halloween sounds, Twilight Zone theme, hooting owls, etc. [Schiefelbein-MO]

**Channel Z Radio**, the station that claims to operate with a low powered home built Corsair transmitter was logged on November 12<sup>th</sup> from 2233-2238 UTC on 6925 kHz AM. ID, music by Jethro Tull. [Wilson-KY] also 6925 kHz AM on November 17<sup>th</sup> at 1304 UTC, announcing it as their 3<sup>rd</sup> anniversary show with music by Nazareth, Sweet and Slade. A good sounding AM signal. [Wilson-KY]

**Kracker Radio**, The Vice Presidential candidate on The Commander Bunny ticket was logged on 6935 kHz at 0023 UTC on November 1<sup>st</sup>. Kracker was talking about

going mobile and operating out on the road, a couple of SSTV images sent, gone by 0035 UTC. [Schiefelbein-MO]

**Laser Hot Hits** via Undercover Radio relay was logged on 3420 kHz at 0237 UTC on November 23<sup>rd</sup>. Undercover Radio ID by Dr. Benway, then into LHH with the usual dance music. [Wood-TN]

**Long Range Radio**, noted on 6925 kHz USB from 2112 sign on to 2152 sign off. Program of comedy bits by standup comics. The first one was somebody claiming that people from Philly should come to New York City just to ride the subway and see the entertainment. There was crowd laughter during that sketch. A second bit was perhaps by Bill Cosby, but I'm not 100% sure of that. That bit started with a dialog between God and Noah, when Noah was instructed to build his Ark. But, the request was preposterous, and so Noah made jokes about it. A bit about a football coin toss, which was also preposterous, followed. At the end, the station transmitted a digital noise, possibly a SSTV image. After the digital noise, the OM announcer came back on and gave an ID just before QRT. No address announced. [Zeller-OH]

**Radio Free Speech**, The station Bill O. Rights built, was logged at 2238 UTC on 6925 USB on October 29<sup>th</sup> with a Halloween special show. WTPR clip and a Twilight Zone parody were heard. [Wilson-KY & Schiefelbein-MO]

**Radio Jambu International**, was logged on 6925 kHz USB from 1706 to 1727 UTC on November 4<sup>th</sup>. Twilight Zone noises and a discussion of Wikipedia at open, into a program of odd random discussions by OMs and some odd noises mixed in. Discussion of pirates. A repeat of the discussion of the arrested Australian masturbator. WBZ mentioned, and some discussion of the Winter SWL Fest. [Zeller-OH]

**Radio Nonsense** was logged with their Halloween special broadcast on October 30<sup>th</sup> at 2127 UTC on a frequency of 6925 kHz USB. Parodies of Dragnet and The People's Court. IDs by Joe Mama and Box 1, Belfast, NY 17411 was announced as a maildrop. [Schiefelbein-MO] Also noted on November 1<sup>st</sup> at 0006 UTC with similar program by [Taylor-WI and Wilson-KY]

**Sycko Radio**, was logged as follows: on 6925 kHz USB at 1314 UTC on November 18<sup>th</sup> ID, frequency shift, music by Pink Floyd. [Wilson-KY] at 0320 UTC with a weak signal in the noise with music & talk on 6925 kHz USB on October 30<sup>th</sup>. [Schiefelbein-MO]

**TCS—The Crystal Ship**, This station run by The Poet has to be one of the most active in November. Here are a few logs: 6700 kHz AM from 0052–0105 on November 21<sup>st</sup> with of program of oldies. [Wood-TN] 6899 kHz AM from 2130–2300 on October 31<sup>st</sup> with classic rock [Schiefelbein-MO] 7575 kHz AM from 1540–1600 on November 22<sup>nd</sup> with rock mx. [Lobdell-MA] 3420.5 kHz AM from 0200–0232 on November 12<sup>th</sup> with classic rock oldies. [Wilson-KY] Those are just a few.

**Voh—The Voice Of Hell**, was heard at 2204 UTC on October 30<sup>th</sup> on 6925 kHz USB. ID as the "The Official Broadcasting Service of Hell" with Stairway To Heaven as their National Anthem! Rock music with a shout out to Dr. Gene Scott. [Schiefelbein-MO]

**WAHR—Automated Halloween Radio**, a new one to me was noted on October 29<sup>th</sup> at 2138 past 2145 on 6925 kHz USB mode. ID by choppy computerized female voice. [Wilson-KY]

**WBST aka "The Beast"**, was heard by a number of folks as follows: 6925 USB at 2041 on October 31<sup>st</sup> ID, laughing man, poor audio. [Wilson-KY] 2330–0004 on October 31<sup>st</sup>. Laughing, wolf howls, people screaming. Very poor signal. [Taylor-WI] 2331 UTC on October 31<sup>st</sup>, lots of maniacal laughter.

[Wood-TN] 2335 on October 31<sup>st</sup> with super slowed down music, ID as "WBST, The Beast" audio clip "ah here we are at the door, Happy Haunting"! More slow music and laughter. [Schiefelbein-MO]

**WBNY 6925 USB**, noted as follows: on November 17<sup>th</sup> at 1541 UTC. Brief program w/IDs and jingles and discussion of the Commander Bunny-Kracker ticket for President of the USA. Gave no address on this transmission, but uses Belfast. [Zeller-OH] on 6925 kHz USB with the Thanksgiving Special at 2021 UTC on November 23<sup>rd</sup>. Lots of Allan Weiner audio clips saying that both he and Glenn Hauser have no life, promo for the Commander Bunny-Kracker bumper stickers. [Lobdell-MA]

**WFUQ 6925 kHz USB/LSB** was noted as follows: at 0016 on November 1<sup>st</sup> with IDs and Techno music. [Wood-TN] 0120 on November 1<sup>st</sup> Just caught the tail end of the show with wolf howls, electric guitar. [Schiefelbein-MO]

**WHYP—The James Brownard Memorial Station**, was heard on 6925 AM from 2127 to 2203 sign off on November 3<sup>rd</sup>. ID is presumed from the James Brownard noises heard occasionally during the show. No actual ID copied. Program of rock mx with artists such as the Hooters and Devo. [Zeller-OH]

**Wolverine Radio**, noted on 6925 kHz USB by a number of folks as follows. 1940-1955+ on October 28<sup>th</sup> with a skit about a DXpedition, sounding like it was from a Voice Of Pancho Villa broadcast at the Winterfest, ID. [Lobdell-MA] 2242 UTC on October 31<sup>st</sup> with a Halloween Rap by Elvira, song about Halloween spooks, Ghostbusters theme and others. [Schiefelbein-MO] 2245 on October 31<sup>st</sup> Monster Halloween music, ID, Ghostbusters. [Wilson-KY] 2301 on October 31<sup>st</sup> with Halloween novelty songs, movie clips, etc. [Taylor-WI] 2302–2307 on October 31<sup>st</sup> with IDs, Ghostbusters. [Wood-TN].

Уважаемый S.R. Barbour Jr!

Мы получили Ваше письмо, и оно нас очень порадовало! Благодарим за внимание к нашим передачам.

По объективным, не зависящим от нас причинам, Ваш рапорт о приеме передач Службы «Русское международное радио» попал к нам только сейчас. И, с некоторым опозданием высласем Вам QSL-карточку, подтверждающую прием радиосигнала.

Еще раз спасибо за письмо!

С уважением,

Елена Печерских,  
референт Службы

DATE 18 MAR 64  
TO SAMUEL L. BARTO  
STREET 47 PINEAPPLE PLAC  
TOWN BRIARCLIFF, CONNECTICUT  
STATE 06010

Thank you for your reception report of the transmission of HRPD Radio LUZ Y VIDA.

DATE 9/12/82  
TIME 22:55  
FREQ 3250  
STRENGTH 55

We are a missionary Radio Station, transmitting with a power of 1000 watts on 3250 Khs. Our transmitter on 3250 is a Gates HG-1 J.

Our antenna is a quad full wave loop, with a gain of 2 db, transmitting north and south. We generate our own Electric Powers with a 12.5 KW Diesel Generator. The station is operated by Evangelistic Faith Missions, with Headquarters in Bedford, Ind. USA.

The director of the Station is Donald Moore. The programing is primarily in the spanish language, however on Saturday and Sunday nights during the hours 9-10 PM CST we have English programing. Our operating time is 4pm to 10pm CST, 7 days a week.

If you would like to talk with the director, he operates a Ham Radio and can be found on the Halo Missionary net which operates on 21.90MHz 1900z each day. His call is W45YFK/HR5.

Sincerely in Christ our Savior,

(SIGNED)  
Donald R. Moore  
Director  
John 3:16

This will end another QSL Column. I know you're out there so send in those reports to the column.

Till next time...

# Tropical Band Loggings

Dan Ferguson • 4205 Friendfield Trace • Little River, SC 29566 • troplogs@zerobeat.org

- 2310 **AUSTRALIA VLBA** 1000 news items; trying out on the ground 30 meter long wire antenna; 10/31. (Wilkner-FL) 1140 pop mx pgm, W anc; // 2325 & 2485; 11/12. (Kohlbrenner-FCDX) 1140-1218 pop vocals hosted by W w/ „ABC Darwin Center% ID 1149; country mx from 1200; vy poor at tune in but rapidly improving to fair by 1200. //2325 VL8T Tennant Creek and 2485 VL8K Katherine. 11/12 (D'Angelo/FCDX-PA) 1203-1310 pleasant vocals, national nx 1230; still holding up with a readable signal as late as 1310; first time I've heard this station; F-P 11/3. (Ronda-OK) 1215-1225 EE ID as ABC Local Radio at 1215; pgm was Weekender with Warren Brown; Had a W named Robin talking about what was on ABC TV over the weekend and a 1925 Bentley; at 1223 Steely Dan's Do it Again; nice 'armchair' copy; good 11/3. (Wilson-KY) 1229 EE, ctry mx, ABC nx 1230, more interviews & ctry mx; fair 11/3. (Taylor-WI)
- 2325 **AUSTRALIA VL8T** 1203-1220 // 2310 but fading quickly after 1220; first time I've heard this station. 11/3. (Ronda-OK)
- 2379.86 **UNID 0120** 0140-0145 M in PP; weak 11/1. (Wilkner-FL)
- 2485 **AUSTRALIA VL8K** 1203-1215, // 2310 & 2325 but at poor level and fading out quickly; 11/3. (Ronda-OK)
- 3173 **PERU R. Municipal** Panoa most likely off the air; nothing this week, 13 to 18 November from 1000 to 1100. Some weak signals close to their frequency with usb chatter in Spanish, others believed to be harmonics on 3172 and several other frequencies. (Wilkner-FL)
- 3200 **SWAZILAND TWR** Manzini 2041-2045\* talk by two men in EE until carrier cut at 2045 in mid-sentence; P-F 11/12. (D'Angelo/FCDX-PA)
- 3205 **PNG [New Guinea] R. Sandaun** (P) 1215-1225 island vocals heard while tuning through the band followed by a discussion by a M&W; Poor and almost gone by tune out 11/13. (D'Angelo/FCDX-PA)
- 3220 **S.AFRICA R. Sondergrense** Meyerton 0335 in Afrikaans; rock (some in EE) w/ anc; very good 11/13; also 0120 talk & mellow mx to 0130 ID sequence in EE, then back to Afrikaans w/ M&W, more music; 11/15. (Taylor-WI)
- 3234.92 **PERU R. Luz y Sonido** Huánuco 0930 return to frequency after week of silence. Fair signal with M anc& Peru music; 11/3. (Wilkner-FL)
- 3240 **SWAZILAND TWR** (P) 0327 in listed Shona; very interesting duet; fair 11/13. Also 0315 in Ndebele; M speaking slowly and deliberately; fair 11/14. (Taylor-WI) 0317-0323, in Shona with M speaking, good 10/17 (Parker-PA) 0256 IS & ID's to 0300, program in presumed (listed) Shona lang. Poor 11/12. (Kohlbrenner-FCDX) 0322-0330, 3 Nov 07, Vern. Inspirational music and prayers. ID at 0329. Fair 11/3. (Wood-TN) 0345 gospel songs in Nda; fair 11/2. (Ronda-OK)
- 3249 **HONDURAS R. Luz y Vida** (San Luis) 0331-0337, 3 Nov 07, Spanish. M with religious talk giving US addy. Fair. (Wood-TN) 0320 talk & songs in SS; consistently good for the entire week; 11/14. (Ronda-OK) 3250 (P); 0326 SS interview; fair 11/13. (Taylor-WI) 3250, 0305 SS long sermon-type talk, then steel-drum gospel tunes in SS; fair 11/10. (Schieffelbein-MO) 3250.1, 0249-0316 mix of music and short talks in SS; ID 0300 by M, then another man with a religious talk; choir vocals at 0310. P-F 11/11. (D'Angelo-PA) 3250.6, 0320-0330 EE, "Sounds of Joy" pgm with rel instls, into rel drama; fair 11/12. (Kohlbrenner-FCDX)
- 3255 **S.AFRICA BBC** Meyerton (P) 0325, 11/13/07, in English. Sports. Fair - good. (Taylor-WI) 0324-0328 in EE; good 10/17. (Parker-PA) 0330 EE ID, into Africa Morning pgm; vy good 11/12. (Ronda-OK) 0335-0410 current affairs features in EE, ID for World Service 0359, then time pips, ID and news. P-F 10/24. (D'Angelo-PA)
- 3279 **ECUADOR LV del Napo** 1115 M in SS talk; vy poor 11/3. (Ronda-OK) 3280, (P); 0320 M SS anc w/ Andean mx, including pan flute; poor 11/13. (Taylor-WI)
- 3310 **BOLIVIA Mosoj Chaski** (T) 0105-0130 listed in Quechua; W w/ brief talk, M w/ long talk, unidentifiable music, 0129 M w/ probable s/off anmt; 0130 off. Just at threshold, making it impossible to tell what language was spoken. Not likely Spanish nor English as I would have picked a word or two out of either of those. Besides, I have no ear for Quechua. 11/16. (Taylor-WI)
- 3320 **ECUADOR HCJB** 0146-0203 in Quechua; soulful vocal; talk by M, then joined by W; ID at ToH, back to previous talk, 0201 lively music; fair 10/28. (Taylor-WI)
- 3320 **S.AFRICA R. Sondergrense** 0110, 11/3/07, in Afrikaans. Man interviewing another man (call in?), 1st man continues. Signal was being destroyed by a UTE apparently idling .05 Khz. lower on USB splashing into both bands and upward. (Taylor-WI) 0245 Afrikaans vocals in pulsing CODAR;

- fair 11/2. (Ronda-OK) 0325 lots of pop vocals including "Sweet Home Alabama", all at near local level; 11/12 (Ronda-OK) 0330-0334 in Afrikaans with M anc & pops; strong 10/17. (Parker-PA)
- 3329.63 **PERU *Ondas del Huallaga*** Huánuco 2300-2325 musica de Peru; weak w/some CHU splatter 11/12. (Wilkner-FL)
- 3335 **PNG R. *East Sepik*** 1147-1215 Tok Pisin/English. W w/ news at t/in, ments Lorangau; NBC relay at ToH w/ EE news re Pakistan and UN; back to W at 1203 and M b/w choral music bits; animal/bird-like call at 1206 into presumed radio drama thru t/out. Remarkable signal at t/in, eventually fading out by 1215. Quick checks for other 90m PNG's revealed a few carriers but nothing like this one. 11/9. (Barbour-NH) 1207-1251 W w/presumed news and possible mentions of East Sepik at 1213, local pop music; pPoor 11/12. (Kohlbrene-FCDX) 1245 Tok Pisin talk by M, pop/island mx, ment Papua, 1300 local nx, ment PNG, anthem, ads, PSAs. Also heard 3205. 11/10. (Paszkiwicz-WI) 1245 M anc with pop and island-type tunes, long announcement prior to nat'l anthem at 1302. Then after a few secs of silence, switched to apparent relay of Port Moresby w/news and promos in EE, tentative "This is...National Radio" ID heard, but tough copy of fading signal in local QRM. Abruptly off 1310. Poor 11/10. (Schieffelbein-MO) 1209-1309\* EE nx by W; wx 1218, island music program; pgm ended around 1300, then M&W talking; seemed to close down several times although music kept going! Finally, carrier cut at 1309. Poor to fair but reasonably steady until began seriously fading around 1245, 11/12. Next day, Nov 13, was holding up well with fair signal at 1240 with island music. (D'Angelo/FCDX-PA)
- 3340 **HONDURAS *HRMI*** 0340-0347 ID as "Radio Misiones International." M preaching in EE with SS W translator. Fair 11/3. (Wood-TN) 0908-0923 two M w/ SS ballads and talk; weak w/ deep fades 10/23. (Barbour-NH) 1112 SS ID, into EZL mx; I rarely hear this station at anything other than pool levels; fair 11/3. (Ronda-OK) noted with increased power 1110 to 1115 on 11/1. (Wilkner-FL) 3339.99, 0557-0630+ SS mx, "Radio MI" ID 0602 & into SS rel mx; SS rel talk w/ EE translations at 0615; fair 11/4. (Alexander-PA)
- 3345 **S.AFRICA *Channel Africa*** 0349 EE, MDR pop music; fair 11/3. (Wood-TN)
- 3350 **COSTA RICA *REE*** 0337 mx bridge, W SS anmts, including www address; armchair copy 11/13. Also 0310 M&W ancrs, S.European style ballad; good 11/14. (Taylor-WI) 0335-0350, in SS with M anc and pops; strong 10/17. (Parker-PA)
- 3355 **S.AFRICA *BBC*** Meyerton 0340 EE interview; poor 11/2. (Ronda-OK)
- 3365 **PNG [New Guinea Territory] R. *Milne Bay*** 1200-1225 M w/ Pidgin nx, island vocals & talks with a woman. ID at 1209 by the M anc; poor with some fair peaks 11/13. (D'Angelo/FCDX-PA)
- 3390.29 **BOLIVIA *Emisoras Camargo*** Camargo 2340-0010 M in SS, tenor ballad, other music with M locator, short anmt in between "...Camargo.." mentioned once by M; 0000 ute "All stations this is kilo -Echo -November-Lima..." in usb, Emisoras Camargo music strong below. 16/17 November. Also weak at 0000-0020 11/15 with same ute interference. (Wilkner-FL)
- 3396 **ZIMBABWE *ZBC*** (P) 0235 in local language; M anc (maybe took a phone call in), afropop; poor 11/13. Also 0335 call in; poor 11/14. (Taylor-WI)
- 3420.5 **PIRATE *The Crystal Ship*** 0200-0232 M in EE, rock style music; 0204 Lunatic Freng; ID 0212 by what sounded like a W. Very Hard copy with deep fades & some of the music I did not know. At 0217 a tune by the group Asia... Without You... I think is the name. At 0226 Don Henley... The Heart of the Matter..At 02:31 Lou Gramm..Midnight Blue... 11/12. [Wilson-KY]
- 3905 **PNG R. *New Ireland*** 1248 W DJ with boy-band pop, some amateur QRM, mentions of PNG and New Ireland, possible NA at 1302, off. Poor 10/24. (Schieffelbein-MO) 1235-1251 M in EE w/ program of island vocals; group island vocal selections; asked listeners to participate in the program by making requests; ID & TC mentioning news in 18 minutes followed by country tune by female singer. Fair signal with slight amateur radio QRM 11/13. (D'Angelo/FCDX-PA)
- 3925 **JAPAN R. *Nikkei*** 1023-1045 M&W w/very long JJ talk; poor with //6055 at threshold level. Re-tuned at 1140 and signal improved to fair level. (D'Angelo/FCDX-PA) 1117 JJ talk; F-P 11/3.; good 1312 recheck. (Ronda-OK)
- 3975 **HUNGARY *Koshut Radio*** 2239-2259\* drama program until guitar selection with a male singing at 2242. Comedy feature from 2245 until classical music segment, then M ID prior to carrier being terminated. P-F 11/11. (D'Angelo/FCDX-PA)
- 3984.83 **CROATIA *Hrvatski Radio*** 0050-0108 pop vocals, ID & pips 0100; M&W with presumed news; poor // 7285 in the clear; 11/12. (Kohlbrene-FCDX) 3984.82, 0300-0314 "Croatia Today" EE nx pgm; very weak; better on // 7285-via Germany. 11/3. (Alexander-PA) 3984.84, 2315-2329 "Croatia Today" EE nx pgm, weather; threshold signal; much better on // 7285-via Germany; 11/2. (Alexander-PA) 3985.03, 2315-2329 EE nx, sports, wx, IDs; lcl nx 2329; weak but readable; much better reception on // 7285-via Germany; 11/16. (Alexander-PA)
- 3985 **S.KOREA *Echo of Hope*** (P) 1314 long talk between M&W in KK; the current Aoki list has CNR-2 in English in this time period and of course at much higher power; however, this transmission was not in English but Korean; poor 11/3. I did not hear an ID so I list this as Presumed

- (Ronda-OK) 1225 listed Korean, W anc chat between light modern pop songs, longer talk at 1230 that may have been brief news. Lots of QRM from ham net keying up and complaining about the "foreign broadcast". Fair/poor 10/24. (Schiefelbein-MO) (T); 1329-1350 KK talk thru BoH; until f/out 1350; no ID, but but the other option is CNR 2, in EE; this was definitely not EE. Thanks to Jim Ronda. 11/3. (Taylor-WI)
- 3995 **INDONESIA [Sulawesi] RRI** Kendari (P) 2135-2152 f/o; talk in Indonesian by M&W w/ brief segments of instl mx; vocal by M 2147; poor with amateur slop and fading fast, 11/12. (D'Angelo/FCDX-PA)
- 4052.5 **GUATAMALA R. Verdad** 1110 and checks until 1330 in SS; operatic selections. F-G 11/3. (Taylor-WI) 0215 SS, anthem of some sort, anmts, ID, instl mx; 10/30. (Paszkievicz-WI) 1122 children's chorus; good 11/3. (Ronda-OK) (P); 0343 M SS anc, ballad, good 11/13. Also 0130-0205 hymns on an organ, including "Oh come all ye faithful", and John McCutcheon's version of "Jingle Bells" on a hammered dulcimer, banjo, and fiddle. (this is the first Christmas music of the season for me.) I never expected to hear a US folk version of a seasonal snow song from Guatemala! One can never know what will be on shortwave. Armchair copy 11/17. (Taylor-WI) 0003-0008 in SS with rel mx; F-G 10/15. (Parker-PA) 4052, 0354 SS; inspirational mx w/choir; M rel talk b/w selections; fair 11/3. (Wood-TN) 4052.47, 2255-2200 rel sermon & hymns, choir singing, ID over selection at 2200; 11/11. (Kohlbrener-FCDX)
- 4319U **DIEGO GARCIA AFN** 0045 NPR pgmg; // 10320U Hawaii. 11/15. (Steve Lare-MI)
- 4409.7 **BOLIVIA R. Eco** Reyes 2305-2315 flute solo, TC by M, more exotic flute mx; still in at 2358; 11/3. (Wilkner-FL) 0044-0105 usual program of rustic vocals hosted by M w/SS talk & ID; poor 11/12. (D'Angelo/FCDX-PA) 4409.8, 0013 M SS anc; in the clear but weak; 10/15. (Parker-PA)
- 4450 **N.KOREA KCBS** Pyongyang 1127-1140 KK anc at t/in, ballads from 1135 thru t/out. Poor/weak under QRN 11/10. (Barbour-NH) 1120 KK, military music; good. [Wilkner-South Florida]
- 4460 **CHINA CNR-1** 1257 while tuning by heard Chinese programming, weak 11/3, clearly // 5030, as also reported by Dan Sheedy (CA) in Aug and more recently by Harold Frodge (MI). (Howard-CA) 2219-2251 f/o m CC talk, instl mx, then discussion by M&W; several anmts and 2226, then theme mx, ID & introduction of new program; P-F 11/11. (D'Angelo/FCDX-PA)
- 4600.44 **BOLIVIA R. Perla del Acre[?]** 1005-1009\* rel pgm w/M, "Dios en el lado..." weak and then gone. 11/3. (Wilkner-FL)
- 4635 **TAJIKISTAN Tajik Radio** 1, Yangiyul; 0030-0046 in Tajik with M anc, native mx w/ horns and vocals. Fair 10/15. (Parker-PA)
- 4699.3 **BULGARIA R. Bulgaria** 0052, 1/2 harmonic of their 9400 signal; poor 10/15. (Parker-PA)
- 4699.36 **BOLIVIA R. San Miguel** Riberalta (P) 0950-1015 SS talk; very weak 11/9. (Alexander-PA)
- 4716.6 **BOLIVIA R. Yura** 0103-0120 M&W SS banter, mx pgm; upbeat island-type mx with steel drums, flutes, etc.; W anc between each one; good 10/15 2316-2319 with M&W talks. (Parker-PA)
- 4716.67 **BOLIVIA R. Yura** 0125 mix of Andean & SS pops, ID; poor 11/13. (Kohlbrener-FCDX)
- 4746.8 **PERU R. Huanta 2000** 1009-1026 Oct 21, man with Spanish talk, ID ad strings hosting program of OA vocals. Poor with severe CODAR QRM 10/21. (D'Angelo-PA) 4746.9, 1013-1033 W SS mx & talk, ID 1030, presumed ads/promos; weak/poor t/out; 10/27. (Barbour-NH) 4746.9, 2336-2347 M SS talk, TC, anmts & ID, hosting program of OA vocals; P-F 11/12. (D'Angelo/FCDX-PA) 4747, 2321-2325 in SS with M speaking; F-G 10/20 (Parker-PA)
- 4750 **INDONESIA [Sulawesi] RRI** Makassar 2125-2204 some music but mainly talks by M&W; ME sounding vocals 2156 until presumed Jakarta news at 2200 read by a man; very poor at tune in but building nicely but getting muddy by top of the hour; 11/12. Noted again on Nov 13 around 1155 with music prior to Jakarta news at 1200 with fair signal. (D'Angelo/FCDX-PA)
- 4750 **SUDAN R. Peace** 0331-0346 Vernacular/EE, ballad & talk in language announcing URL but I only caught the "www..." part of it. Full EE ID anmts & short "This is R.Peace" IDs at 0037 & 0339 w/ anc between both with what I presume were IDs in local language. Poor, fading under QRN by t/out; 10/30. (Barbour-NH)
- 4754.9 **MICRONESIA Pacific Missionary Aviation** (T) 0807 Christian music mixed with rel talk in EE, alternating between the two; much static, not easily intelligible, minor CODAR interference; 11/9. (Brandt-NJ)
- 4754.95 **BRAZIL R. Imaculada Conceição** Campo Grande; (P) 0427 PP M&W, M ID, back to alt. M&W talk; 11/13. Also 0256, 11/14. Both dates poor. (Taylor-WI) 4755, (P); 0250 PP rel talk by M&W, some rel songs; no clear ID heard at 0300; poor 11/13. (Ronda-OK) 4754.87, 0015 Roman Catholic service, M&W, "...Ave Maria.", some Latin in service[?]; 0025 secular music; 0104 still there but CODAR stronger; 11/16; same time 11/17, weaker. (Wilkner-FL) 4754.9, 0300-0310 M&W PP talk, W anc; F/P, losing out to CODAR 10/11. (Parker-PA)
- 4755 **BRAZIL R. Rural** 2309 in PP with M anc hosting call-in prgm, good signal but low audio was no match for CODAR 10/13. (Parker-PA)

- 4760 **ANDAMAN ISLANDS AIR** Port Blair 1120-1140 slowly fading in while watching gray line clock; excellent subcontinental mx; tnx Scott Barbour for encouraging me to make a 60 meter band dipole. 11/11. (Wilkner-FL)
- 4760 **LIBERIA ELWA (P)** 2125-2301\* EE; bits of rel talk b/w music. Slowly improving by ToH w/ M w/ more rel talk; real "feel good" stuff; b/w choral music bits. Contact info for California. Hymn-like music from 2226, sounded Italian, until barely audible announcer at 2300 followed by Liberian NA. NA matches that of old R. Liberia clip at [intervalssignals.net](http://intervalssignals.net). 11/14. (Barbour-NH) (P); 2237-2300 very poor at tune-in with rel talk & choral mx; slowly improving with peak at 2246; anthem at 2259 and off at 2300; this programming fits other ELWA reports. 11/15. (Ronda-OK) 4760.04, 2230-2303\* EE rel messages & mx; s/off w/NA; weak, poor signal in noisy conditions. 11/16. (Alexander-PA)
- 4762.5 **CANADA R. Nederland** via Sackville 2311, 1/2 harmonic of 9525 transmission, poor 10/13 (Parker-PA) 2334-2357\* Oct 16, Dutch language program featuring multiple IDs and features about the country. Poor-fair with fundamental at threshold level. Sub-harmonic from leaky Sackville facility. 10/16. (D'Angelo-PA)
- 4763.1 **BOLIVIA R. Chicha** Tocla 2326-2328 in SS with deep voiced M speaking, in the clear but weak 10/20 (Parker-PA)
- 4770 **NIGERIA R. Nigeria Kaduna** 0435 EE news cmtry; fair 11/13. (Ronda-OK) 0508-0515 EE ID, talk of elections and local governments; item on making trips to the Holy Land from Nigeria; poor 11/17. (Wood-TN) 2111 EE nx, ID 2114, canned ID 2115, ad for station, lots more talk; 11/8. (Brandi-NJ) 2213-2246 pop & soul mx; M IDs, Tina Turner (What's Love Got to do with It?); fair signal w/big ute QRM, and undermodulated; 11/11. (Comeau-MA) 0502-0511 in EE. In the clear on a totally QRN-free evening, but too weak to catch more than an occasional word. 10/18. (Parker-PA)
- 4774.9 **PERU R. Tarma** Tarma 2300-2325 break in transmission, then back at recheck 0100, ID's by M in between music, good signal but CODAR. (Wilkner-FL)
- 4775 **BRAZIL R. Congonhas** 0034-0040 in PP with M speaking, poor 10/13 (Parker-PA)
- 4775 **INDIA AIR Imphal** 0040-0050, mx; colliding with R.Congonhas before overtaking the frequency. P-F 10/13. (Parker-PA)
- 4775 **PERU R. Tarma** 2314-2320, M anc in SS with reverb, highlife mx selections; in the clear; F/G 10/13. (Parker-PA)
- 4775 **SWAZILAND TWR** 0349 talk in listed Lomwe; in persistent zipper QRM; fair 11/2. (Ronda-OK) 0404 W with contemporary Christian music; fair 11/3. (Wood-TN)
- 4777 **GABON RTVG** 0512-0520 M&W in FF; huge signal but then obliterated by CODAR; 10/18. (Parker-PA) 0459 M FF talk, ID 0500, into choral music; improving to fair 0535 recheck; F-P 11/5. (Ronda-OK) 0506-0527 FF nx, into Afropop mx; VG 11/17. (Wood-TN) \*0559-0535 s/ on w/local African mx; opening ID anmts 0600 & FF talk; short breaks of African music; good 10/26. (Alexander-PA)
- 4780 **DJIBOUTI R. Djibouti** \*0300-0315 s/on w/NA, opening anmts; Koran 0303, Arabic talk; fair 11/3. (Alexander-PA) 0545 FF pop songs & anmts; 11/11. (Ronda-OK) 2015 AA music shading toward Horn of Africa music, into AA talk 2030, more mx later, closing with Djibouti national anthem at 2101 (matches anthem at <http://www.kbears.com/djibouti/anthemtext.html>); 11/8. (Brandi-NJ) 2045-2102\* Horn of Africa vocals, W ID & anmts 2100, NA & off 2102\*; fair 11/11. (Kohlbrener-FCDX) 2049-2102\* W talk in Somali, vocal by M singer; she returned at 2100 for station ID and quick closedown anmt, then by orchestral NA; fair 11/11. (D'Angelo/FCDX-PA)
- 4780 **GUATEMALA R. Coatan** 0234-0240\* rustic mx, M in SS over instl mx, several IDs & closedown anmts; carrier remained on for another six minutes; fair 11/11. (D'Angelo-PA) 2320-2325 M SS ID, guitar/vocal mx, in the clear. (Parker-PA) \*1028-1047 OC till choral NA at 1030; M SS ID, freq anmts & opening, then instl mx; several IDs & a TC followed by vocals; fair with some CODAR QRM, 10/21. (D'Angelo-PA) 4779.97, 0200-0210 SS ID, brief talk, into mx; good signal with the Swisher ever present 10/28. (Wilson-KY)
- 4790 **PERU R. Atlantida** Iquitos 2326-2333, M SS anc w/guitar; W vocal mx, canned %R. Atlantida" with reverb M, upbeat accordian mx; good audio slightly muffled but overcoming CODAR 10/13. (Parker-PA)
- 4790 **PERU R. Vision** Chiclayo 0155 other than a few week Brazilian carriers this was the first Latin observable on 60m in over a week! 11/4. (Dexter-WI) 0313-0320 M SS sermon, exceptional signal and audio, stomping on CODAR but good! 10/11. (Parker-PA) 4790.10, 0522-0525 M SS talk & mx; only fair due to strong CODAR; 10/18. (Parker-PA) 4790.11, 0811 huaynos, brief church talk 0816, more mx, periodic IDs inserted into music but very difficult to parse out, full ID without music 0824 as Radio Vision and again 0826. (Brandi-NJ) 4790.15, 0220-0240+ SS preaching w/crowd sounds, hymn bridge, W, 0227 ID "Esta es Radio Visión", M anmt, "El Condor Pasa" bridge, M, hymn, and more preaching. Fair signal wrecked by CODAR 11/13. Also

- 0258, slow hymn like music, 0301 ID & freqs; poor 11/14. (Taylor-WI) 4790.2, (P); 0917-0933 M SS talk & mx, canned anmt of sorts at 0927; no discernible ID noted. "Live" sermon from 0930; F/P w/CODAR 10/27. (Barbour-NH)
- 4796.4 **BOLIVIA R. Mallku** 2344-2357 W SS talk, ID, rusticvocals; poor with QRM from CODAR 11/12. (D'Angelo/FCDX-PA) 2330-2341 with M anc, very weak, and CODAR made it impossible. 10/20 (Parker-PA)
- 4800 **GUATEMALA R. Buenas Nuevas** 0321-0333 M in SS speaking very calmly and slowly, giving what sounded like advice to W caller who sounded depressed. strong 10/11. (Parker-PA) 4799.1, noted last few days, very weak 0030-0100 & 1150-1200 on 11/16. (Wilkner-FL) Not there 1100, 11/3&4. China was there. [Wilkner]
- 4800 **CHINA CNR1** 1115-1130 // 4460 M then into Chinese music, 11/9. (Wilkner-FL) 2240 M&W in CC, instl mx; // 4460, 4750, 9890; 11/12. (Kohlbrener-FCDX)
- 4800 **INDIA AIR Hyderabad** 0057-0132 Hindi vocals w/sitar & flute mx hosted by W; talk pgm w/W anc, interviewing M at 0101; continued till pips at 0130, then ID & nx; P-F w/CODAR 11/12. (D'Angelo/FCDX-PA)
- 4805 **BRAZIL Rdif. do Amazonas** Manaus 2335-2340 M PP anc, slight reverb, speaking slowly as if reading a speech or giving a dull sermon; good 10/13. (Parker,PA)
- 4810 **MEXICO XERTA** 0030 carrier w/poor audio in lsb to avoid the hash; 1030-1100 same w/M anc & mx; very poor for a station so close to this QTH; 11/16. (Wilkner-FL) 4810.1, 0435-0502 usable audio from W SS anc w/talk, ID, intros to mx features; weak signal only audible in LSB with growling hash on channel and CODAR QRM to contend with; awful reception 11/12. (D'Angelo/FCDX-PA)
- 4812.5 **CANADA CBC North Quebec Svc** via Sackville 2316-0005 EE svc w/letters & magazine features, nx 0000; nice signal but CODAR splash; sub-harmonic heard // 9625 fundamental channel; another leaky Sackville operation; 10/14. (D'Angelo-PA) 0315 in EE, 1/2 harmonic of their 9625 transmission. Good 10/15 (Parker-PA)
- 4815 **BRAZIL R. Difusora** Londrina 2242-2345 W PP anc w/ call in; only fair due to strong CODAR 10/13 (Parker-PA)
- 4820 **TIBET Xizang PBS-Lhasa** 1052-1105 Mandarin; various ancs & mx bits; pips/presumed ID 1100, then M until music at 1105; P-F 11/10. (Barbour-NH)
- 4824.54 **PERU LV de la Selva** Iquitos 2223-2300 usual flauta andina, good signal; not noted local mornings 1000-1100; infrequent schedule. 11/17. (Wilkner-FL)
- 4825 **BRAZIL R. Canção Nova** 0221 PP songs & anmts; fair 11/13. (Ronda-OK)
- 4828 **ZIMBABWE ZBC** 2334-2355 high-life mx. //3396; poor 11/11. (Kohlbrener-FCDX) 0030-0100 African pops; amazing signal, but poor on 3396; 11/16. (Wilkner-FL) 0125 Afro pops. 0140 no anmt between songs; very strong 11/1, not //weaker 3396. (Wilkner-FL) (P); 0203-0233 talk & continuous Hi-life mx; poor/fair 10/29. (Barbour-NH) 0255 African choral mx; poor 11/2. (Ronda-OK) 0318 traditional African choral music; fair 11/12, // 3396 poor. 4828 now begins to fade in here around 2300-2330. (Ronda-OK) (P); 0318-0330 lcl pop mx; definitely there, but no ID heard; vy poor 11/1. (Evans-TN) 0344 in local language; mellow afropop, ID 0400 in EE & lang; back to afropop; not //3396; fair 11/13. (Taylor-WI)
- 4835 **INDIA AIR Gangtok** (very tentative) 1136-1155 f/o; possibly the one with Hindi vocals & talk by W anc; weak signal, fading out, and pounded by CODAR made this difficult. What else could it be? 11/13. (D'Angelo/FCDX-PA)
- 4840 **INDIA AIR Mumbai** 0113-0140 M in Hindi talk, brief vocal selection 0128; more talk, then vocals; P-F 11/12. (D'Angelo/FCDX-PA) 0222, in the clear and no QRN, but extremely weak - mx barely audible on USB; 10/15. (Parker-PA)
- 4845 **BRAZIL R. Ibilinga** Sao Paulo 0815-0826 M in PP, sounded like preaching or political speech, barely above the noise level 10/12. (Parker-PA)
- 4845 **MAURITANIA R. Mauritanie** 0120 studio chatter in FF, some French songs; fair 11/11. (Ronda-OK) (P); briefly at 0158, M in FF and FF choral anthem; disappeared at 0200. 11/4. (Dexter-WI)
- 4845.2 **BRAZIL R. Cultura Ondas Tropicais** Manaus, Amazonas 0110-0130 in PP with excited M anc and crowds roaring, presumably sporting event coverage, F-G 10/18. (Parker-PA) 0005-0048 M PP talk, choir vocals; seeming rel talk followed; fair in noisy conditions and audible with Ramadan over; no Mauritania. 10/17. (D'Angelo-PA)
- 4860 **INDIA AIR Delhi** 0132-0210+ W in Hindi nx; then Hindi mx pgm w/non-stop vocals from 0135; 0200 ID & discussion program featuring a woman host & several men; F-G 11/12. (D'Angelo/FCDX-PA)
- 4865 **BRAZIL R. Ahorada** Londrina (P) 2347-0004 in PP with two M talking and what sounded like %oR. Alvorada%oo ID by M at 0002; in the clear but weak 10/13. (Parker-PA)
- 4877.5 **CANADA RCI** Sackville 0225-0231, M&W ancs in SS with pops, 1/2 harmonic of their 9755 transmission. F-G 10/18 (Parker-PA)

- 4885 **BRAZIL R. Clube do Para** Belem 0125 lively PP vocals; ID 0131; persistent zipper QRM; good 11/11. (Ronda-OK) 0334-0343 in PP with reverb M anc ID; mixed upbeat mx & slow songs, booming in like a local 10/11. Also 0015-0010 in PP, M anc with reverb, upbeat music. Good, but colliding with presumed R. Virgen de Carmen (Peru), also playing mx; 10/13 (Parker-PA) 0347 PP, BRZ pop, ID w/ echo effect, more pop; fair 11/13. (Taylor-WI) 0418 M in PP w/slower folk type mx instead of the techno sound one usually hears on this station; fair 11/3. (Wood-TN) 0526-0536 M PP reverb anc & usual pops (one sounded like a PP version of something from the musical %Hair% and was quite nice), armchair copy 10/18. (Parker-PA)
- 4894.9 **BRAZIL R. Novo Tempo** 0131-0218 PP talks, ID, pgm of rel vocals till 0200 when nice formal ID noted; M began preaching; P-F 11/13. (D'Angelo/FCDX-PA) (T); 0323 PP talk by M, Brazilian pop; 0303 recheck woman (prob. intro.), M w/long talk, then the woman's turn; poor 11/13. (Taylor-WI) 0224 PP talk, two clear Campo Grande IDs 0246; poor 11/13. (Ronda-OK)
- 4895 **INDIA AIR Kurseong** 1202-1238 W anc w/Hindi vcls; ID and English news at 1230; good signal at tune in but fading down and CODAR began QRMing around 1220; 11/13. (D'Angelo/FCDX-PA)
- 4900 **CHINA Voice of the Strait** Fuzhou (Amoy Channel) 1218-1235; talk in listed Amoy, soft Asian vocals; not //7280, which is the Entertainment Channel in Mandarin; poor. (Ronda-OK) (P); 1336-1407 assume in Amoy & CC; played a variety of music (traditional, pop, ballads, etc.), weak. Per their website <<http://www.vos.com.cn/introduction/gbpl.htm>>, their current SW frequencies are: Channel 1 - News & Public Affairs on 4940 & 11590 kHz; Channel 2 - Lifestyle & Entertainment on 5050 & 7280 kHz; Channel 3 - Fujianese-dialect programs on 4900 & 6115 kHz; 10/27. (Howard-CA)
- 4909.2 **ECUADOR R. Chaskis** 1052-1120 M inSS hosting a morning mx pgm w/ID & TCs; around 1100 a long talk took place before more music was heard; fair but slowly slipping around 1115; 11/13. (D'Angelo/FCDX-PA) 4909.21, (P); 1050-1100 SS talk, Ec mx; P-F 11/2. (Alexander-PA)
- 4915 **BRAZIL Rdif Macapá** 0105-0115 M PP talk, vocal song, talk, ID & talk by 2nd M, Brazilian pop; poor 10/28. (Taylor-WI) 0135 pleasant PP vocals, quick Macapa ID 0136; fair in ever-present zipper QRM 11/11. (Ronda-OK) 0538-0549 in PP with M anc, upbeat vocals, ID jingle; armchair copy 10/18 (Parker-PA)
- 4920 **INDIA AIR Chennai** 0052-0135 Hindi vocals, discussion program w/M&W anc team in listed Tamil language; time pips 0130, then by ID & talk by another W anc; fair with some CODAR splash but deteriorating around tune out; 11/12. (D'Angelo/FCDX-PA)
- 4920 **TIBET Xizang PBS-Lhasa** 2107-2120 M&W in lang talk & pop-like music; poor; //4905-fair, //5240-poor; 10/28. (Barbour-NH)
- 4930 **BOTSWANA VOA** 0349 EE nx article in rolling news format; fair 11/13. (Taylor-WI) 0353-0402 EE feature about W recording artist (probably an "Idol"), as there were song clips interspersed with M anc, mention of %VOA News Today% at TOH; poor with strong CODAR 10/11. (Parker-PA)
- 4935 **BRAZIL R. Capixaba** Vitoria 0233 M&W in PP talks; very weak 10/15. (Parker-PA)
- 4950 **ANGOLA R. Nacional de Angola (P)** 0245-0250 audible in USB but audio too weak to make out 10/15. (Parker-PA)
- 4950 **PERU R.Madre de Dios** Puerto Maldonado 1100 sitting on this one looking for good opening; excellent music last good logging; poor 11/16. (Wilkner-FL)
- 4960 **SÃO TOME VOA** 0406-0410 with ,Daybreak Africa%; poor 10/11. (Parker-PA)
- 4965 **PERU R.Santa Monica** 0303-0310 in SS with M vocal mx, M anc; in the clear but weak 10/18. (Parker-PA)
- 4965 **ZAMBIA The Voice-Africa (P)** 0030-0109 non-stop Christian pop mx; P-F with some CODAR QRM 10/31. (D'Angelo-PA) 0251 EE, rel mx, W vocal; P-F 10/15. (Parker-PA) (P); 0403-0415 EE nx, usual singing jingle for the morning ("Getting On Up"), into "The Breakfast Show", upbeat rel singing; fair till about 0415, then downhill; 11/8. (Howard-CA) 0422 EE, M with contemporary Christian music; fair 11/3. (Wood-TN)
- 4970 **INDIA AIR Shillong** 1437-1506 nice program of sub-continent mx & songs; this was their best reception so far this DX season; fair 11/18. (Howard-CA)
- 4974.7 **PERU R. Del Pacifico** Lima (P); 0302 song with W vocal; poor 10/15. 0550 on 4974. 8 with W anc; poor 10/18. (Parker-PA)
- 4976 **UGANDA R. Uganda** 2105-2145\* nice tribal group male vocals in EE w/drums; M hosting program with talks in local language; running past nominal 2100 closedown but pulled plug suddenly at 2145; F-G with some CODAR QRM 11/12. (D'Angelo/FCDX-PA) 2205-2237 percussion dominated African Pops, M anc in EE, anmts b/w songs; F-G signal disturbed by CODAR; 2240 recheck they were gone; 11/17. (Wilkner-FL) 4975.97, 2225-2235 Afro-pops, EE talk; on later than usual; poor in noisy conditions 11/17. (Alexander-PA)

- 4990 **SURINAME R. Apintie** 0235-0305 M in mainly Dutch, but some EE talk, hosting pop music program with one song from an "American Idol"; ID 0300 during top of the hour talk segment before returning to music program; P-F 11/12. (D'Angelo/FCDX-PA) 0933-1002 "River Kwai" theme, talk in Dutch, vocals, ID just before 1000; poor 11/13. (Kohlbrenner-FCDX)
- 5005 **EQ.GUINEA R. Nacional** 2027-2043 high life vocals, W lang 2043; poor 11/11. (Kohlbrenner-FCDX) 2107-2245 long SS talk by M; Afro pops at 2153 re-check; W ID & talk about the economy at 2219; vocal around 2245; fair & steady reception 11/11. (D'Angelo/FCDX-PA) 2240-2301\* SS anmts, Afro-pop mx; s/off w/their usual long NA; not heard in some time; fairly strong carrier but weak modulation 11/16. (Alexander-PA)
- 5009.7 **DOM.REP. R. Cristal** (P) 2224-2234\* M in SS w/music & talk; cut-off 2234; nothing else heard during several re-checks; fair 10/27. (Barbour-NH)
- 5010 **INDIA AIR Thiruvananthapuram** 0110-0136 Hindi talk by M&W, some Hindi vocals, more talk; pgm of flute music began 0130; fair & improving 11/12. (D'Angelo/FCDX-PA)
- 5014.28v **PERU R. Altura** (T) 1017-1111 M DJ w/mostly OA folk mx & songs, ads, slight drift to 5014.25; P-F 11/18; unable to dig out an ID. (Howard-CA) 5014.22, 1035-1120 "...mas en el mundo ...Radio Altura... en las noche.... son las cinco y media ....proxima ..." indigenous flute & vocal mx; infrequent schedule? Excellent signal 11/18. (Wilkner-FL) 5014.5, (P); 1052-1103 mx at t/in, M in SS from 1055 till presumed ID at ToH, right back to music; poor & rapidly deteriorating 11/9. (Barbour-NH)
- 5025 **BENIN R. Parakou** (P) 2027-2038 breakdown at Rebelde let this sneak through for a few minutes with tribal vocals hosted by W in FF talk; P-F prior to the Cuban's return; 11/12. (D'Angelo/FCDX-PA)
- 5030 **BURKINA FASO R. Burkina** 2344-0000\* FF highlife vocals hosted by M w/FF talk; ID prior to orchestral NA at 2358; fair and in the clear until University Network opened as anthem was played; 10/16. (D'Angelo-PA) 2350 hilife-type music selections w/W ancr; violin instl piece (presumably NA) leading up to 0000\* signoff; F-G despite heavy QRM from Cuba on 5025 11/8. (Schiefelbein-MO) (P); 0605-0632 TIRWR not heard here for a second consecutive day. Program in French, consisting mostly of African high-life music and songs, 0622 seemed to change to a type of African rap song, ballad, etc. The timing for this was perfect, as their sunrise was at 0606; reception would have been F-G, except for a problem with local noise. Some QRM from Radio Rebelde on 5025. Am very grateful to Dan Sheedy for this tip. 11/18. (Howard-CA)
- 5030 **CHINA CNR1** 1359 string of anmts; 5 low and 1 high time pips at 1400 were in step with my atomic clock; ID at 1400:20; S8 signal was stronger than adjacent Rebelde; into apparent nx headlines; 11/10. (Strawman-IA)
- 5035 **BRAZIL R. Aparecida** 0315 in PP with boisterous M ancr, song with W vocal; poor 10/15. (Parker-PA)
- 5039.3 **PERU R. Libertad** (P) 1023-1036, Nov 8 2007, Spanish. M w/ talk b/w musical selections. Poor under QRM. (Barbour-NH) 5039.2, 1040-1053 M in SS talk hosting program of OA vocals w/ID & TC; poor 11/13. (D'Angelo/FCDX-PA) 5039.3, (P); 1041-1051 M SS talk & mx; weak, deteriorating rapidly 10/27. (Barbour-NH)
- 5040.5v **BURMA R. Myanmar** 1132-1209 f/o usual selection of haunting local vocals with flute melodies hosted by W ancr w/Burmese talks; poor but flutes really cut through the noise, 11/12. (D'Angelo/FCDX-PA)
- 5050 **CHINA Guangxi BCS** Nanning 1104-1121 in listed Vietnamese; M&W w/talk, presumed ID 1115 followed by M thru t/out; weak but improving; //9820-fair; 11/8. (Barbour-NH)
- 5446.5U **USA AFRTS** Key West, FL 0249 relaying ESPN Sports Radio "Sports Line." // 7811usb at fair level; F-G 11/3. (Ronda-OK)
- 5770 **BURMA Myanmar Defense Forces BC Unit** (T) via Taunggyi 1452-1520 lang, pop Asian music/songs, brief segment of talking about Myanmar, back to songs, mostly poor, lost after 1520, unable to catch their usual sign-off about 1530. 11/7. (Howard-CA) 1525-1529\* pop Asian song, brief s/off anmt, usual indigenous instl mx & off; poor 11/8. (Howard-CA)
- 5885 **VATICAN Vatican Radio** 2157 ending FF, then IS cut midway, brief pause, back in IL, and stronger, at 2200. (Dexter-WI)
- 5900 **RUSSIA IBRA Radio** Petropavlovsk (P) 1235 M&W alternating in Mandarin; poor 11/17. (Taylor-WI) 1254 continuous Chinese t/k by M; fair 11/17. (Strawman-IA) 1206-1212 W in Mandarin, soft rel vocal; F-P 11/17. This station as listed in Aoki; PWBR has this as China Radio (Taiwan) via Petropavlovsk. (Ronda-OK)
