Next our regular Asian clandestine report from Hitoshi Miyashita, with help from Yuki Sakagami, a program director in the Arabic Service of Radio Japan.

IRAN A new clandestine (LSB with carrier transmission) has been heard since late May *1600-1700* in Persian via Radio Afghanistan on 6230v. IS using Western European melody and ID at 1600 and 1630 and giving mailing QTH in Sweden at end of 30 minute prgm. Seemingly same annrcs as Voice of Iranian Communist Party. ID sounds like "Radio-ye Jafmattesha-ne Iran, the underlined part being phonetic. Based on my tape, Yuki Sakagami says that it announces "uses 48m and broadcasts from 0700, 1930 and 2000 Tehran time with 30 minute prgms.

IRAN Tentative Voice of Iranian Kurdistan 1500-1700* on 6655v and 4200v kHz apparently with same transmitters of Voice of Mujahedin Khalgh. Signal is weak and solemn tone of annct prevents complete ID. Prgm is mostly Koran and talk by M in lang, Persian or Kurdish. Mr. Sakagami tells me that he has also heard another stn, "Seda-ye Mujahid" (Voice of Soldier) in November of last year unig these same frequencie. I have also heard a similar ID but attributed it at the time to confusion on my part. Can anyone provide additional information on these?

SOUTH YEMEN According to Mr. Sakagami, the correct ID of the so-called "Voice of the Free Sons of Yemeni" is as follows: "Sawt abna'i Janubi al-Yamani al ahrar." He also says that that "Voice of the Liberalists of South Yemen" is a better translation of the ID because the AR for "Free Sons" is more appropriately rendered as "Liberalists."

Next a special bonus, a report from Kevin Szot, travelling in Brazil.

- 12700 IRAQ Baghdad. 12700 good, 11750 very poor, 21585 very good, all at 1830 plus with AR(?) talk, mx, etc. Also at 2105 on 13700 very good. (Campo Grande 7-6)

- 2490 BRAZIL R. Educ. Rural, Coari, Amazonas, 2230 M DJ; "A Radio Educacao Rural de Coari, na frecuencia de 2490, Coari, Brasil." This is just to remind everyone that they're still here. Actually, they are consistently the best 120m Brazilian from the palces I've DXed from.
- 4420 BOLIVIA Em. Reyes, Reyes, teacked from 0100 t/in until 0251*. Gave ID, plus address simply as "Cameo Central, Reyes." Then into a short bit of the "Concierto de Aranjuez," and off. Fair improving to very good by s/off. (Cuiaba, 7-8)

Fair even from Rio Branco in the state of Acre. (Rio Branco 7-8)
- 3569 BRAZIL R. 13 de Julho, Brasileia, Acre, 2200 loud but with absolutely horrendous modulation.
- 4765 BRAZIL R. Nacional, Cruzeiro do Sul, Acre, also just blasting in 2200. (both in Rio Branco 7-8)
- 4682 BOLIVIA R. Patiti, Guayamerin, 2325 w/ messages to listeners. 2328 "De esta manera amigos oyentes, Radio Patiti presento para vila el servicio central de mensajes de Radio Patiti en horario cenoral. Per la atencion distensada(?) oyentes amigos, gracias mil, buenas noches, permiso..." Sound effects then "Desde la ciudad de Guayamerin, la emisora ? 4865 kilociclos onda corta, desde Guayamerin, Beni, Bolivia. Into a religious prgm.
- 4880 BRAZIL RD Acreana, Rio Branco, Acre. Ex 4885 Strong all the time. Studios were two blocks from my hotel. (a/k/a an extenuating circumstance)
- 2410 BRAZIL R. Transamazonica, Senador Guimard, tune in at 1220 w/ Brazilian NA (possibly signing on) then ID by W as "Radio Transamazonica Limitada." Very good. (Rio Branco 7-9)
