UPCOMING DEADLINES: 20 April (May) 10 May (Mid-May) 20 May (June)

Reproduction permitted. Credit original reporter and NASWA UPDATE. Dates, times and days GMT: freqs kHz.

ANGOLA R. Nacional, 5367.5v, in PT 0450-0505. African mx to ID 0456 "da Republica popular d'Angola...Radio nacional." IS to 0500, 2nd ID 0502, "R. nacional d'Angola," and into nx. (Bob Rankin, KS 3-12)***It is approximately 40 miles from my house to Bob's house and I can drive it on a normal day in about an hour. It took Bob's reports here ten days to reach me after having presumably traversed the same distance. Go figure. tba

ANTARCTICA AFAN???, 6012 tentative, in EG audible nightly. Noted 3-17 with "My Love does It Good," and snatches of EG but no positive ID. AM signal, not SSB. (Rankin, KS 3-17)

AZAD KASHMIR Tentative Azad Kashmir Radio, 5238.2 in lang 1307+. Subcontinental mx at t/in Koran 1325, followed by M talking, off at 1400. Reception fair to poor 3-27 with slight QRM. Tip off to try for this one came when noted above-average reception of Islamabad on 6128.8 at 1300 w/ EG nx. (Ron Howard, CA)

CANADA CFVP, 6030, in EG 0750-0814; top 40 pops, very poor. My only ID was a weather report given by M at 0752 saying, "seven degrees in Calgary." Woman dj after 0800. (Rankin, KS 3-17) +++ CKZU, CBC Vancouver, 6160, in EG 0800-13, audible daily best ever. CBC nx 0800, sports, and extensive "British Columbia weather report" to 0810, then into steel guitar mx. (Rankin, KS 3-13)

ETHIOPIA VORE, 9560, in lang and EG 1451+; AR type mx, ID 1459, short piano IS and into prgm of classical guitar mx. At 1529 tentatively heard EG nx, though reception was weak on 3-31. (Howard, CA)

IRAQ R. Baghdad, 13700, in AR 1810-30; AR talk by M, many mentions of Iran and Iraq. ID: "Idhaat...min Baghdad," at 1814. // 11750. (Rankin, KS 3-17)

MEXICO XEQ, 9680.3, in SP 2058-2105; ID: "XEQ...desde Radiopolis, li ciudad de radio" w/ MW freq 2100. Two minute nx summary, 2d ID and into Mariachi mx. Tnx Sams for info. (Rankin, KS 3-13)

USSR Murmansk, 5930, in RS 0520-47; ID: "Govorit Murmansk," local nx, events prgm, ID by M 0529, piano mx, rejoins Moscow 0545 (local IS audible daily 0515). (Rankin, KS 3-14) +++ R. Moscou Internationale, 13365, 13660, in FR 1830-45; commentary on African affairs, freqs // . They do not appear to be feeders; both are DSB/am. (Rankin, KS 3-17)

First in the feature section, the continuation of our most recent report from Juan Carlos Codina, who, as noted last time, kept busy on his vacation and afterwards getting some more fine DX to share with us:

- 5776.9 PERU Radio Ayaviri, Ayaviri, Puno. Back here again leaving its former frequency of 4606.7, just as it did a year ago. First heard 2-12 at 2225 with cumbias music, and very strong signal. Going till 0330*. On 2-16 heard on both freqs in //!!!
- 6562.8 PERU Radio Tacna, Tacna. First heard here 2-10 at 2100 with amazing signals. Not noted on 31 mb. Thought it was something else at first but turned out to be this. At 2230 had sports program, "Jornadas Deportivas." Slogan, "Radio Tacna, la radio que esta mas cerca de ud."
- 6577.9 ECUADOR Radio Omega "R.G.", Guachanama, Loja. IDs as " Tu radio Omega, RG. Seems to be a change of name from the old RJ-1, La Voz de la Juventud. First heard with this ID 2-13 at 0020.
- 7010.1 PERU Radiofrecuencia 7, Celendin, Cajamarca. Heard for the first time 2-12 at 2100 when they announced the suspension of transmissions because of technical problems and the need to make adjustments. Came back after 2300. Good signal, clear and well modulated, but not going above s8. At 2315 heard the first ID: "Transmite desde la provincia de Celendin, Radio Frecuencia 7, la diferencia." Still going till 0400. This makes the fifth sw stn in that city (others are Moderna, 4300.1, Celendin, 7054.6, Gran Pajaten, 4485.3, Nuevo Eden, 6814.6, which is inactive.) Radio Frecuencia 7 varies between 7010.2 and 7010.0.
- 7054.6 PERU Radio Celendin, Celendin, Cajamarca. Also confirmed this one, which seemed to be a new transmitter, by virtue of its very good power and because this was the first QSY in more than two years.
- 7196.7 PERU Radio Selva, Moyobamba, San Martin. Heard for the first time with Brazilian mx, 2-12 at 2116. M anncr, slogan: "en Selva, que es mas musica y menos palabras." (This was a QSY from 7310-7300. Varied to 7197.0 and still going after 0400.
- 7310.5 PERU Radio "Ondas del Oriente," Nuevo Progreso, Huallaga, San Martin. Noted 2-13 at 2015. Surprised to find this before because I'd heard R. Selva on 7196 the day

before, but the ID explained it: "La nueva Radio "Ondas del Oriente," esta contigo, porque siempre esta pensando enti." So another new stn!!! This could be the transmitter formerly used by Selva, and leased or sold to this stn. And this situation also resembles the "tales" of Moderna- Estacion C" that also moved to another frequency giving the old transmitter to another broadcaster. This one varies in the range 7310.9-7310.2.

We hope to have more from Juan Carlos in upcoming editions.

We finish this issue with another interesting and fascinating report from Hitoshi Miyashita our friend in Japan:

CHINA Xinjiang PBS again uses 2559.8 kHz since early February, hrd from about 1300 to s/off. Harmonics (maybe very difficult to hear except in the West Coast area):

--2664 Qinghai PBS to 1600*; 4x666. Poor signal. CH first prgm // 6260, 4940.1, etc.

--3420 Mudanjiang PBS (Heilongjiang province) to 1500*, poor signal, CH, 684x5. Relays

CPBS and Heilongjiang (1).

--4104 Mudianjiang PBS to 1500*, poor signal, 684X6.

--4104 Guizhou PBS, to 1600*, very poor signal, slightly after Mudanjiang PBS s/off.

1026x4. // 3260 etc.

--4158 Tienjing PBS (3). Poor signal, to 1430*. 1368x3 // 4100.8.

--4176 R. Beijing, -1525* poor signal in JP. 1044x4.

COLOMBIA R. Sutatenza, heard 0630-1230 in mid-Feb. Maybe 24 hrs?

INDONESIA Various stns noted as follows. Conditions for 90m Indos have been bad here but it is interesting that I was able to log several new ones in the 120mb.

--11815 RRI Jakarta, *0958-1605*, *2158-0100*. This not used for day xmsn.

--5451v RRI Biak, *1200-1600* seems also to b'cast around 0800 but still not sure.

S/on at about 1200 just when the Jakarta nx relay begins. Must be on MW/FM till then.

--5046.2 RRI Yogyakarta *1130-2100--all night daily in Feb. S/on in the middle of prgms just before the EG nx from 1130.

--5045.9 RRI Jayapura 1100-1130 fade out.

--5043.6 RRI Wamena -0900* and *2055+ but no transmission during local nighttime.

--4931.6 RRI Surakarta 1000-1700*. Heard here from 2-1 and must be QSY from 4899/ to judge by the signal strength. All night xmsn on 4933 stopped at the same time but it would be on the air on MW and FM.

--3905.1 RRI Merauke (?) 1300 and 2030, believed 2000A. Very, very poor condx.

--3904.8 RRI Banda Aceh. (?) -1300-. On 4955 till about 2-28 but back here now.

--2901.0 RRI Jakarta (?) -1500-2000+. Noted here from late February // 3946. NF for all night? Help!?!?

--2424v RRI Banjarmasin to 1500* maybe NF. Anncing "Pro. Kota." Couldn't check to see if // 3250. 3250 rarely heard lately due to carrier there.

--2390 RRI Cirebon -1700-2100- often heard all night.

IRAN VoIRI A prgm noted on 5961.0 1300-1900 in February. Must be the jammer for the "V. of Mujahedin Khalgh" on 5960. Many tnx Mr. K. Shimotori for the information that Iraq on 9585v is attacked by Iran in the same way.

NIGER Tentative ORTN, 5020.4, 2145-2201* 2-21, Fr folklore, nx at 2150 and s/off after orch NA. Didn't believe it was b'casting here recently.

PAKISTAN Azad Kashmir Radio, 5238.3, 1352-1400* 3-3. Heavy UTE qrm.

URUGUAY R. Monte Carlo/R. Oriental noted on 11735.1 2230-0030 in mid-Feb. Heard info that R. Monte Carlo would have a test b'cast here, but actually heard at non-scheduled time with R. Oriental prgms as well.

Many thanks to all of our reporters. Why don't you report too?
